Stockholders of Record and Beneficial Owners of Shares held by Brokers in Street Name

If you hold Common Stock that is registered in your name through our transfer agent (Computershare Trust Company NA) as of the Record Date, you are a stockholder of record. However, if you hold shares of our Common Stock indirectly through a broker, bank or similar institution, you are *not a stockholder of record*. Rather, you are a stockholder whose shares are held in street name. Your broker, bank, or other nominee is considered the stockholder of record, and you are considered the beneficial owner of the shares.

We sent copies of our proxy materials directly to all stockholders of record. If you are a beneficial owner whose shares are held in street name, these materials were sent to you by the bank, broker or similar institution through which you hold your shares. As the beneficial owner, you can direct your institution as to how you would like your shares voted at the Annual Meeting, and it is obligated to provide you with voting instruction.

Voting of Shares held in Street Name

If you are a beneficial owner of shares held in street name, you must give the institution that holds your shares instructions on how you would like your shares voted. If that organization does not receive voting instructions from you, how your shares will be voted (if at all) will depend on the type of proposal. Institutions are not authorized to vote your street name shares for Items 1, 2 or 3 (uncontested elections of directors, advisory vote to approve executive compensation and amendments to Certificate of Incorporation) without instructions from you. Institutions may vote your street name shares for Item 4 (ratification of independent auditors) at their discretion even if you do not provide voting instructions.

Table of Contents

ITEM 1 ELECTION OF DIRECTORS

Our Board currently consists of nine directors, including our current President and Chief Executive Officer and eight independent directors. At present, our Board is divided into three classes that serve staggered three-year terms, and historically each year only one class of directors stood for election at our Annual Meeting.

Although our Board believes that experience, stability and continuity among Board members are important factors in effective corporate governance, it also is aware of the increasing demand in the stockholder community for annual elections of directors as a means to promote Board accountability. Accordingly, our Board is recommending that the Company's stockholders adopt amendments to the Company's Certificate of Incorporation to declassify the Board effective at the Company's 2016 annual meeting of stockholders. To learn more about this proposal please see, *Item 3 Amendment to Certificate of Incorporation* on page 52.

Nominees

This year, upon the recommendation of our Nominating and Board Governance Committee, our Board nominated Robert S. Kaplan, Gary E. Knell and Jill Kanin-Lovers to stand for election as Class III directors, each of whom is currently a director of Heidrick. If elected, each nominee will hold office for a three-year term ending in 2018 and until his or her successor has been elected and qualified, or until his or her earlier resignation or removal. However, in order to effect the declassifying of our Board contemplated by the proposal in Item 3, these Class III nominees (together with the incumbent Class I directors) will tender their resignations immediately prior to this Annual Meeting, with such resignations to take effective immediately prior to the 2016 annual meeting of stockholders, subject to the condition that the proposal to declassify our Board passes at this Annual Meeting. In that case, these Class III nominees will serve only a one-year term, and all directors will begin standing for annual election beginning at our 2016 annual meeting of stockholders.

Messrs. Kaplan and Knell and Ms. Kanin-Lovers have each informed us that they are willing to serve as a director. If any nominee ceases to be a candidate for election for any reason, the Proxy will be voted for a substitute nominee designated by the Company's Board. The Board currently has no reason to believe that any nominee will not remain a candidate for election as a director or will be unwilling to serve as a director if elected.

Nomination Process

In evaluating, identifying and recommending nominees for the Board, our Nominating and Board Governance Committee considers, among other qualifications that it deems appropriate, the following:

The potential candidate's principal employment, occupation or association involving an active leadership role.

The potential candidate's expertise or experience relevant to the Company's business that would not be otherwise readily available to the Board.

The potential candidate's ability to bring diversity to the Board, including whether the potential candidate brings complementary skills and viewpoints.

The potential candidate's time commitments, particularly the number of other boards on which the potential candidate may serve.

The potential candidate's independence and absence of conflicts of interest as determined by our Director Independence Standards, the Nasdaq rules and other applicable laws, regulations and rules.

The potential candidate's financial literacy and expertise.

The potential candidate's personal qualities including strength of character, maturity of thought process and judgment, values and ability to work collegially.

Table of Contents

We do not set specific, minimum qualifications that nominees must meet in order to be recommended to the Board. Each nominee is evaluated based on his or her individual merits, taking into account the needs of the Company and the composition of the Board.

The Nominating and Board Governance Committee discusses and evaluates possible candidates in detail and the Company's consultants are sometimes employed to help identify potential candidates. When determining whether to recommend a director for re-election, the Nominating and Corporate Governance Committee considers the director's past participation in and contributions to Board activities. Mr. Kaplan was recommended to our Nominating and Corporate Governance Committee for consideration as a potential director by our Board and Chief Executive Officer executive search consulting practice which was retained by our Board to assist the Nominating and Board Governance Committee in the recruitment of additional directors to our Board. Our Board and Chief Executive Officer Practice specializes in the placement of board members and chief executive officers for our clients globally.

Board Diversity

Our Board believes that diversity is an important attribute of a well-functioning board. The Nominating and Board Governance Committee considers diversity (among other factors it deems appropriate) in light of the overall needs and composition of the Board and the best interests of the Company and its stockholders. In considering nominee diversity, the Board evaluates skills, experience, and background that would complement the existing Board.

Over time, the Board has nominated and currently consists of directors that generally reflect the diverse and expansive global footprint of the Company's business operations, including a wide range of experiences, as well as diversity of age, gender, race and national origin. Diversity is an important factor that the Nominating and Board Governance Committee will continue to consider when evaluating candidates for nomination to the full Board.

Stockholder Recommendations for Nominations

Stockholders who wish to recommend individuals for consideration by the Nominating and Board Governance Committee to be nominees for election to the Board may do so by notifying the Company's Secretary. In addition, the Company's Amended and Restated Bylaws permit stockholders to nominate directors for an annual stockholder meeting, provided that the appropriate requirements for prior notice to the Company have been satisfied in advance, as described further under "Stockholder Proposals for Next Year's Annual Meeting."

Director Independence

Our Board determines the independence of all non-employee directors in accordance with the independence requirements of our Corporate Governance Guidelines and the Nasdaq Stock Market listing standards (Nasdaq Rules). Accordingly, each year the Board affirmatively determines whether each non-employee director has a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Annually, each non-employee director is required to complete a questionnaire that provides information about relationships that might affect the determination of independence. Management then provides the Board with relevant facts and circumstances of any relationship bearing on the independence of a director or nominee that are outside the relationships prohibited by Nasdaq Rules.

Based on the review and recommendation by the Nominating and Board Governance Committee, the Board analyzed the independence of each of the Company's nominees and other current directors, and determined that the following directors meet the standards of independence under our Corporate Governance Guidelines and Nasdaq Rules: Richard I. Beattie, John A. Fazio, Mark Foster, Robert S. Kaplan, Jill Kanin-Lovers, Gary E. Knell, Robert E. Knowling Jr. and V. Paul Unruh. Our Board also determined that Tracy R. Wolstencroft, the

Table of Contents

Company's current President and Chief Executive Officer is not independent under the standards of our Corporate Governance Guidelines and Nasdaq Rules. In addition, our Board determined that:

Each member of the Audit and Finance Committee is able to read and understand fundamental financial statements (as required under Nasdaq Rules),

John A. Fazio and V. Paul Unruh each qualify as an audit committee financial expert within the meaning of the rules and regulations of the SEC (SEC Rules).

Each member of the Human Resources and Compensation Committee is a non-employee director within the meaning of SEC Rule 16b-3, and an outside director within the meaning of Section 162(m) of the Internal Revenue Code.

As highly accomplished individuals in their respective industries, fields and communities, our Directors are affiliated with numerous corporations, educational institutions, and charities, as well as civic organizations and professional associations, many of which have business, charitable or other relationships with each other or our Company. The Board considered each of these relationships in light of our independence standards and determined that none of these relationships conflict with the interests of the Company, or would impair any director's independence or judgment.

In making this determination the Board considered material relationships among the directors and the Company, including the circumstances resulting from the concurrent service to the National Geographic Society (Society) of the Company's President and Chief Executive Officer, Tracy R. Wolstencroft, and Gary E. Knell, Chair of the Board's Nominating and Board Governance Committee. Mr. Knell serves on the board of trustees of the Society, and he became president and CEO of the Society on January 6, 2014. Mr. Wolstencroft also serves on the board of trustees of the Society, but does not serve, and has not served, on the compensation committee of the Society. The Board determined that these circumstances do not present either a conflict of interest or a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director on the part of either Mr. Wolstencroft or Mr. Knell.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE *FOR* THE ELECTION OF ROBERT S. KAPLAN, GARY E. KNELL AND JILL KANIN-LOVERS TO THE BOARD OF DIRECTORS.

CORPORATE GOVERNANCE

Our governance structure and processes are based on a number of important governance documents including our Code, Certificate of Incorporation, Bylaws, Corporate Governance Guidelines and our Board Committee Charters. Our governance documents are designed to ensure that our Board has practices in place to review and evaluate our business operations and to make decisions that are independent of management. Our corporate governance documents are reviewed periodically and updated as necessary to reflect changes in regulatory requirements and evolving corporate governance practices.

Our Board is committed to maintaining strong corporate governance principles and practices. The following is a summary of our corporate governance structure and documents. If you would like copies of our governance documents, or additional information about our corporate governance practices, please visit our website at: <http://www.heidrick.com/Who-We-Are/Our-Leadership>

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines to help it fulfill its responsibilities to the stockholders in overseeing the work of management and the Company's business results. Among other things, the Corporate Governance Guidelines establish the practices the Board follows with respect to Board composition, practices and selection, as well as Board meetings, conflicts of interest and the criteria for considering director nominees. In addition, the Corporate Governance Guidelines are intended to align the interests of directors and management with those of the Company's stockholders.

Code of Business Conduct

The Board has adopted a Code of Business Conduct & Ethics (Code) that applies to all of the Company's employees, officers and directors, as well as independent contractors working on behalf of the Company. Our Code meets the requirements of a code of ethics as defined by Item 406 of Regulation S-K, and also meets the requirements of a code of business conduct and ethics under Nasdaq Rules. All employees generally are required to certify that they have reviewed and are familiar with the Code annually.

Ethics Line

The Board also has established the Heidrick & Struggles EthicsLine (EthicsLine), a service that provides a mechanism for reporting to the Company alleged breaches of any legal or regulatory obligations, financial fraud, including accounting, internal controls and auditing, or any alleged violation of the Code or corporate policies. The EthicsLine is a telephonic reporting hotline (toll free in the U.S.) available to all Company employees, contractors, vendors, stockholders, clients or other interested parties. The EthicsLine is administered by a third party that is separate and independent of Heidrick & Struggles and specializes in running whistleblower hotline programs for companies throughout the U.S. Calls are not recorded and callers may remain anonymous. The EthicsLine is operational 24 hours a day, seven days a week and may be reached at **1-800-735-0589** or, if calling from outside the United States, at **1-704-731-7242**.

Board Leadership and Structure

The Board does not have a fixed policy regarding the separation of the offices of Chairman of the Board (Chairman) and Chief Executive Officer and believes that it should maintain the flexibility to select the Chairman and its Board leadership structure, from time to time, based on the criteria that it deems to be in the best interests of the Company and its stockholders.

At this time, the position of Chairman is held by Richard I. Beattie and the position of President and Chief Executive Officer is held by Tracy R. Wolstencroft. The Board has determined that, under current circumstances,

Table of Contents

the separation of the offices of Chairman and Chief Executive Officer will enhance oversight of management and Board function. This separation is designed to allow Mr. Wolstencroft the ability to focus on his responsibilities of running the Company, enhancing shareholder value and expanding and strengthening the Company's business. Concurrently, Mr. Beattie, as Chairman can focus on leadership for the Board as it provides advice to and independent oversight of management. The Chairman also is responsible for setting the agendas and presiding over meetings of the Board (including executive sessions of the independent directors) and providing feedback and counsel to the Chief Executive Officer. The Board currently believes that this leadership structure is in the best interests of the Company's stockholders at this time.

Risk Oversight

Risk is inherent with every business and management is responsible for the day-to-day management of the risks the Company faces, while the Board, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, the Board has the responsibility to satisfy itself that the risk management processes and policies designed and implemented by management are adequate and functioning as designed. The Board performs its risk oversight function primarily through its committees as well as reports directly from management.

Enterprise Risk. Our management has implemented an Enterprise Risk Management assessment process to identify, assess, prioritize and manage a broad set of risks across our business and operations. The assessment process includes a thorough survey of senior leaders and a select group of directors to identify the material risks to the Company. Specific emphasis is placed on identifying those risks that could have the highest impact to our Company and operations, and the highest likelihood of occurrence for those risks. Our survey process also takes into account input from our internal audit function that reports regularly to our Audit and Finance Committee. Our Audit and Finance Committee and Board each received an annual report containing an overview of top risks identified by the survey, along with plans for managing and, where appropriate, mitigating them. The material elements of oversight of the risks identified by the survey are delegated to the committees of the Board, and all risks are reviewed within those committees and discussed with entire Board in the ordinary course.

Compensation Risk. The Company periodically completes an inventory of its executive and non-executive compensation programs globally, with particular emphasis on incentive compensation plans and programs. Based on this inventory, the Company evaluates the primary components of its compensation plans and practices to identify whether those components, either alone or in combination, properly balance compensation opportunities and risk. Based on the Company's periodic assessments, the Company has determined that none of its compensation policies and practices is reasonably likely to have a material adverse effect on the Company. The Company believes that the Company's overall cash versus equity pay mix, variable versus fixed pay elements, balance of shorter-term versus longer-term performance focus and revenue-focused versus profit-focused performance measures, stock ownership guidelines, and use of claw-backs work together to provide its employees and executives with incentives to deliver outstanding performance to build long-term stockholder value, while taking only necessary and prudent risks.

Board Committees

Our Board has three standing committees, our Audit and Finance Committee, Human Resources and Compensation Committee and Nominating and Board Governance Committee. Each standing committee has a written charter, and the Board has determined that each of the members of our standing committees is independent under the provisions of our Guidelines and Nasdaq Rules.

Meetings

Our Board and each standing Committee holds regularly scheduled quarterly meetings. Typically, our Audit and Finance Committee and Human Resources and Compensation Committee meetings occur the day prior to the meetings of the Nominating and Board Governance Committee and the Board. At least once a year, the Board

Table of Contents

devotes additional time to presentations and discussions with senior management about the Company's long-term strategy, which is then supplemented, updated and discussed further at the Board's quarterly meetings. In addition to the quarterly meetings, typically there are special meetings each year.

We expect our directors to attend all Board and committee meetings for those committees on which they serve. Directors are also expected to attend each annual stockholders meeting. During 2014, the Board and Nominating and Board Governance Committee each met four times, the Audit and Finance Committee met eight times and the Human Resources and Compensation Committee met six times. Generally, the independent directors met in executive session during a portion of all regularly scheduled quarterly Board meetings without management present. Each of the directors attended at least 75 percent of the meetings of the Board and the committees of which he or she was a member. All of the Company's directors who were affiliated with the Company at that time attended the 2014 Annual Meeting of Stockholders in person with the exception of Ms. Kanin-Lovers who was absent due to a family illness.

Audit and Finance Committee

The Audit and Finance Committee of the Board currently consists of four independent directors, Messrs. Fazio, Knowing and Unruh and Ms. Kanin-Lovers. Mr. Fazio is the Chair of the Audit and Finance Committee. The Board has determined that Messrs. Fazio and Unruh are audit committee financial experts as defined SEC Rules. Among other things, the Audit and Finance Committee appoints an independent registered public accounting firm annually to audit the Company's books and records; meets with and reviews the activities and the reports of the Company's independent registered public accounting firm; and reports the results of the review to the Board. The Audit and Finance Committee also periodically reviews the adequacy of the Company's internal controls, pre-approves all services to be provided by the Company's independent registered public accounting firm, oversees management's risk policies and discusses the Company's key risk exposures with management. These and other aspects of the Audit and Finance Committee's authority are more particularly described in the Audit and Finance Committee Charter.

Nominating and Board Governance Committee

The Nominating and Board Governance Committee currently consists of four independent directors, Messrs. Beattie, Kaplan, Knell and Knowing. Mr. Knell is the Chair of the Nominating and Board Governance Committee. The Nominating and Board Governance Committee makes recommendations to the Board concerning candidates for nomination to the Board, the membership on committees of the Board, compensation of the Board and other corporate governance matters. The Nominating and Board Governance Committee also reviews and approves related party transactions. These and other aspects of the Nominating and Board Governance Committee's authority are more particularly described in the Nominating and Board Governance Committee Charter.

Human Resources and Compensation Committee

The Human Resources and Compensation Committee currently consists of four independent directors, Ms. Kanin-Lovers and Messrs. Foster, Kaplan and Unruh. Ms. Kanin-Lovers is the Chair of the Human Resources and Compensation Committee. Each member also qualifies as a non-employee director for purposes of Section 16 of the Securities Exchange Act of 1934 and an outside director for purposes of Section 162(m) of the Internal Revenue Code.

The Human Resources and Compensation Committee reviews and approves employment and compensation matters involving the Company's executive officers, as well as those of other key employees that the Human Resources and Compensation Committee deems material. Specifically, the Human Resources and Compensation Committee's responsibilities include:

Reviewing and approving the Chief Executive Officer's compensation and evaluating the Chief Executive Officer's performance against pre-established metrics;

Table of Contents

Reviewing and approving individual executive officer compensation recommendations made by the Chief Executive Officer for his direct reports;

Reviewing and approving terms of employment, severance or other compensation-related agreements to be entered into, or amended, for any executive officer or key employee;

Adopting, administering and approving equity-related incentives and awards under the Company's equity compensation plans; and

Reviewing the Company's incentive and employee benefit and retirement plans, including any equity compensation plans and recommending to the Board (and stockholders where necessary) any amendments or material changes to the plans.

The agenda for each meeting of the Human Resources and Compensation Committee is determined by its Chair with the assistance of the Company's Secretary and Chief Administrative Officer. The Chief Executive Officer regularly attends Human Resources and Compensation Committee meetings. The Human Resources and Compensation Committee also meets in executive session as appropriate. The Chair of the Human Resources and Compensation Committee reports the Committee's recommendations on executive compensation and other matters to the Board. Outside advisors and the Company's Human Resources Department support the Human Resources and Compensation Committee in its duties and the Committee may delegate authority to fulfill certain administrative duties regarding the compensation programs to members of senior management as it deems appropriate. The Human Resources and Compensation Committee has authority under its charter to retain advisors, consultants and agents as it deems necessary to assist in the fulfillment of its responsibilities.

Independent Compensation Consultant.

The Human Resources and Compensation Committee has retained Pay Governance LLC as its independent compensation consultant. Pay Governance reports directly to the Human Resources and Compensation Committee and does no other work for management. During 2014, Pay Governance representatives generally participated in all of the Human Resources and Compensation Committee's meetings and provided guidance to the Human Resources and Compensation Committee with respect to executive compensation; comparative peer group data; director compensation; annual incentive compensation; and consultant pay programs. In supporting the Human Resources and Compensation Committee, Pay Governance provides the Human Resources and Compensation Committee with an independent assessment of management's recommendations for compensation; reviews and confirms the peer group used by the Company to prepare market compensation data; and provides ad hoc support to the Human Resources and Compensation Committee, including discussing executive compensation and related corporate governance trends.

Other Corporate Governance Highlights

Our Board, together with our Nominating and Board Governance Committee, works to maintain an effective and sound governance structure that appropriately balances and aligns the interest of the Company's most important stakeholders, including our stockholders, clients and employees. As a result, in addition to the structure and operation of our Board and committees discussed in this Section, the Company maintains a variety of other corporate governance practices outlined in the following table that the Board believes promotes sound governance and the operation of the Company in an atmosphere of candor and collaboration with its stakeholders.

DIRECTOR COMPENSATION

We provide compensation to non-employee directors that is competitive with other similarly sized publicly traded companies in order to attract and retain qualified directors. Compensation is paid in a mix of cash and equity to ensure directors are aligned with the interests of the stockholders and our long-term strategy. Additional compensation is also provided to: (i) our Chairman of the Board; (ii) any director who serves as chair of a Board Committee; and (iii) members of our Audit and Finance Committee to reflect the additional time, risk and skill-level required to fulfill these roles. As noted below, we pay our directors annual retainer 25% in cash and 75% in equity. Prior to 2014, the retainer was paid half in cash and half in equity. For 2014, we increased the portion paid in equity in order to enhance the alignment of our directors interests with those of our stockholders.

Cash Compensation. For 2014, each director received an annual cash retainer of \$37,500 which represents 25 percent of the total fees earned by each director for serving as a member of the Board, exclusive of any committee or chair board service. All cash retainers are payable on a quarterly basis in arrears. In addition, we reimburse the directors for any out-of-pocket expenses associated with their Board service. For 2015 we increased the cash component of our director compensation by \$25,000 due to the fact that the Board's overall compensation level was below the median of peers, and the cash component was below the 25 percentile of peers.

Additional Board Service Fees. The Audit and Finance Committee Chair receives an additional cash retainer of \$30,000 and each member of the Audit and Finance Committee (including the Chair) receives an additional cash retainer of \$10,000. The Human Resources and Compensation Committee Chair receives an additional cash retainer of \$30,000. The Nominating and Board Governance Committee Chair receives an additional cash retainer of \$10,000. The Non-Executive Chair of the Board receives an additional cash retainer of \$75,000.

Equity Compensation. For 2014, each director received an annual equity retainer of \$112,500 payable in the form of restricted stock units (RSUs) awarded as of the date of our Annual Meeting of Stockholders which represents 75 percent of the total fees earned by each director for serving as a member of the Board, exclusive of any committee or chair board service. The RSUs vest and are payable on the date a director ceases to serve on the Board. See the Voting Securities of Certain Beneficial Owners and Management Table on page 18 for information regarding the RSUs owned by our directors. A director may elect to receive payment of the annual equity retainer in shares of Common Stock in lieu of the RSUs described above. For a director who joins the Board after our Annual Meeting of Stockholders, a pro-rata equity award may be made on the date of his or her appointment to the Board. We no longer grant awards of stock options to our directors.

Non-Employee Directors Voluntary Deferred Compensation Plan. Pursuant to our Non-Employee Directors Voluntary Deferred Compensation (VDC) Plan, directors may defer up to 100 percent of their cash compensation per year. To enroll in our VDC Plan, a director needs to complete an election form in a timely manner and choose from investment funds offered by the VDC Plan Administrator. A participant is not able to invest deferred amounts in Company stock. Vanguard calculates the earnings for the funds selected by each director. The election remains in effect for all subsequent years until a director makes a different election. The distributions are payable in a lump sum on the date a director ceases to serve on the Board.

Stock Ownership Guidelines. We have adopted stock ownership guidelines for the directors. Each director has three years to achieve and maintain a stock ownership level equal to six times the annual cash retainer (\$225,000 for 2014). Stock included for determining the satisfaction of the guidelines includes direct stock ownership and RSUs. Each of our directors either has satisfied the stock ownership guidelines or is on track to do so within the required three-year period.

We assist organizations in achieving their long-term business objectives by helping them to improve the effectiveness of their leadership teams. We provide our services to a broad range of clients through the expertise of our experienced consultants located in major cities around the world. In recent years, we have expanded our service capabilities in response to our clients' request for comprehensive leadership advisory services. Our executive compensation philosophy emphasizes and rewards both Company and individual performance, which we believe promotes sustained long-term performance by rewarding not only the achievement of financial and operational goals, but also the accomplishment of individual strategic objectives that enable growth.

Tracy R. Wolstencroft, President and Chief Executive Officer as of February 3, 2014

2014 Year in Review

2014 was an important year of strategic and operational accomplishments, increased financial momentum and revenue growth for the Company. Our most significant accomplishment was the hiring of our new President and Chief Executive Officer, Tracy Wolstencroft, a highly accomplished executive with over 25-year experience counseling high performing and Fortune 500 companies around the globe.

During 2014 we continued to implement initiatives to strengthen and invest in our Company which allowed us to continue to meet the growing needs of our clients, manage our costs more effectively and better position the Company to deliver results to our stockholders. Our efforts achieved the positive results detailed below. Along with our dedicated and experienced consultants and staff located in major cities around the world, our named executive officers Messrs. Wolstencroft, Marino, Beard and Pehlke each led and played an important role in the achievement of these results for the Company and its stockholders.

2014- Leadership Developments and Initiatives

<i>New President and Chief Executive Officer</i>	In February 2014, Tracy R. Wolstencroft assumed the position of President and Chief Executive Officer of the Company replacing Jory J. Marino, a long-term senior search consultant of the position of Interim Chief Executive Officer.
<i>Head of Global Markets</i>	In April 2014, Mr. Marino assumed the position of Head of Global Markets overseeing the operations of and consultant performance in the Company's three geographic regions, specifically the Americas (which includes the countries in North and South America), Europe (which includes the continents of Europe and Africa) and Asia Pacific (which includes Asia and the region generally known as the Middle East). This appointment required Mr. Marino to steadily transition from his roles as Interim CEO and a long-term senior search consultant, to a full time corporate officer with solely business operation and management responsibilities during the course of the year. After completion of this transition and as of January 1, 2015, Mr. Marino also was appointed as an Executive Vice President of the Company.

Table of Contents**2014 Performance Based Compensation Highlights**

Our HRCC continued to implement a performance-based compensation structure for 2014 for our named executive officers consisting of both short and long-term incentive programs. These programs were based on individual, financial and operational metrics.

The Company's 2014 financial and operational performance met or exceeded our target levels, and our HRCC considered both quantitative and qualitative individual, financial and operational factors when determining named executive officer compensation for the year. Those considerations, along with the operation of the Company's compensation policies, resulted in the following key compensation highlights for 2014:

Compensation Element	Performance Based Compensation Highlights
<i>Short-Term Management Incentive Plan or MIP</i>	The Company performance portion of our annual cash bonus program, which is designed to reward achievement of specific performance goals over a one-year period and delivered through our Management Incentive Plan or MIP (described on page 31), was calculated at 96% of target for the 2014 fiscal year. With respect to Messrs. Wolstencroft, Marino, Pehlke and Beard, the HRCC determined that their performance during the year warranted an award calculation of 140% of target for the individual component of their 2014 MIP awards. However, Mr. Wolstencroft voluntarily declined his individual award at the 140% level and opted for an individual award calculation of 125% demonstrating his commitment to and belief in the firm and additional performance and quality improvements to the Company going forward. Individual performance accounts for 25% of the payout for each named executive officer's MIP award. The other 75% is based upon company performance.
<i>Long-Term Incentives or LTI awards</i>	As part of our annual long term incentive program and regular practice, our 2014 Long-Term Incentives or LTI awards (delivered as both Performance Stock Units PSUs and Restricted Stock Units RSUs) were granted in March 2015 at full target value.
<i>Outstanding PSUs</i>	Our PSUs issued in 2012 and vesting in full in 2015 paid out at 81.9% of target based on calculation of the three-year average of operating income relative to the Company's target goals for 2012 through 2014.
<i>Employment Agreements</i>	The Company enters into employment agreements with executive officers as new executives join the Company or current officers take on executive roles. Recently we entered into new employment agreements with our new President and Chief Executive Officer, Tracy R. Wolstencroft and Jory J. Marino for his new role as Head of Global Markets. Our employment agreements for executive officer do not contain guaranteed bonus payments, and all equity award provisions consisted entirely of unvested RSUs and PSUs as required by our regular long term incentive programs. Other terms and conditions of employment contracts with executive officers are consistent with our compensation philosophy and program objectives. See, Employment Agreements on page 36.

Overall Compensation Philosophy

Our HRCC strives to establish compensation programs for our executives and employees that are market competitive with firms in the executive search, leadership consulting and management consulting space, both

Table of Contents

public and private, with whom we compete for executive talent. At the heart of our compensation programs is a pay-for-performance philosophy that is internally fair and equitable among executives. We expect our executive officers to initiate and carry out sustainable growth strategies and create long-term value and growth for the Company and its stockholders. We link various aspects of our business strategies with our compensation program design. Company performance is a primary factor in most elements of our executive incentive compensation program design. When measuring Company performance, we may consider both qualitative and quantitative factors and achievements relating to our business strategies and objectives. In assessing the individual performance of named executive officers, our HRCC may consider, among other things, the officer's accomplishments of priorities, contributions to the Company's strategic initiatives and execution of leadership objectives.

Executive Compensation Program Principles

Our HRCC uses the following principles to implement our executive compensation philosophy:

Compensation Principle	Compensation Program Feature
<i>Reward performance, long-term growth and sustained profitability through variable pay elements.</i>	A substantial portion of our named executive officers' compensation is variable (approximately 76.5% for our new CEO and an average of 66.7% for our other named executive officers) and composed of annual and long-term incentive awards that are only earned upon achievement of financial and non-financial objectives that either influence or contribute to stockholder value creation.
<i>Attract, retain and motivate the most talented executives.</i>	Our variable pay is heavily weighted toward long-term equity awards that require sustained financial performance to deliver significant value by the Company and encourage our named executive officers to deliver continued growth over an extended period of time. These equity awards, coupled with executive stock ownership guidelines and our mandatory deferral of a portion of any MIP bonuses earned, further assure the alignment of interests between our named executive officers and our stockholders.
<i>Provide modest benefits and limited perquisites.</i>	Our executive compensation must enable us to attract, motivate and retain not only highly talented executives, but also search and leadership consultants from both public and private employers with whom we compete for top talent critical to our long-term success. We provide modest standard employee benefits, limited financial planning (maximum of \$1,080 per year or \$3,150 for the first year expenses are incurred), annual physicals to our named executive officers and business club memberships. All business club memberships are offered to executives on the same scale and terms as those for our executive search consultants.
	We provide no Company contributions to retirement or pension plans for executives beyond our broad-based 401(k) plan. We believe the financial opportunities provided to our named executive officers through our executive compensation program minimize the need for extra benefits or perquisites.

Table of Contents

Applying these principles results in pay packages where a significant portion of compensation is put at risk, in the form of performance-based annual and long-term incentives. We believe our executive pay packages support our commitment to sound corporate governance and reflect common best practices, including:

Best Practice	Heidrick's Implementation and Result
<i>Prudent Approach to Increases in Base Salaries.</i>	In recent years we have not increased base salaries for our named executive officers unless their roles and duties expanded or they were newly hired or promoted. We increased the base salaries of Messrs. Beard and Pehlke in 2014 in response to both officers taking on increased strategic roles within the Company and to maintain internal equity among executives.
<i>Annual Incentives Based on Performance.</i>	Consistent with our pay-for-performance philosophy, our MIP rewards both Company and individual performance, with a heavier weighting on Company performance.
<i>Mandatory Deferral of Portion of Earned Annual Incentive Award</i>	Ensuring that our annual incentives continue to provide retention value, we defer 15 percent of our named executive officers' MIP bonuses, to be paid out in equal annual amounts over a three-year period.
<i>No Repricing or Replacing Outstanding Stock Options.</i>	It has been our practice not to reprice or replace outstanding stock options, and we did not reprice or replace any stock options during 2014.
<i>Compensation is Subject to a Claw-Back Policy.</i>	Our Board and HRCC have adopted a Claw-back Policy that applies to the named executive officers and is intended to include the requirements of the Sarbanes-Oxley Act of 2002 and the Dodd-Frank Wall Street Reform and Consumer Protection Act.
<i>No Evergreen Provisions in Employment Agreements.</i>	We have eliminated evergreen provisions that automatically renew the term of the agreement from our employment contracts. We do not plan on adopting any new employment agreements that contain evergreen provisions unless we find a compelling business reason for doing so. The employment agreements we entered into recently with our executives have not included an evergreen provision.
<i>No Excise Tax Gross-Ups.</i>	We have eliminated excise tax gross-up provisions in employment agreements with our named executive officers and in our Change in Control (CIC) Severance Plan. The employment agreements we recently entered into with our executives have not include an excise tax gross-up provision.
<i>No Single-Trigger Equity Vesting Upon a CIC.</i>	All of the equity awards we have granted since 2011 contain a double trigger CIC vesting provision, meaning that vesting is accelerated only if there is both a CIC and a termination of employment within two years following the CIC.
<i>No Excessive Perquisites.</i>	We provide modest limited perquisites to our named executive officers consisting of physicals, financial planning and business club memberships. All business club memberships are offered to executives on the same scale and terms as those for our executive search consultants.
<i>No Hedging By Our Named Executive Officers.</i>	None of our named executive officers have hedged their Company stock interests. Our Board and HRCC adopted a policy prohibiting such hedging in February 2013.
<i>No Pledging By Our Named Executive Officers.</i>	None of our named executive officers have pledged any of their Company stock. Our Board and HRCC adopted a policy prohibiting such pledging in February 2013.

Table of Contents

Best Practice	Heidrick's Implementation and Result
<i>No Guaranteed Bonuses.</i>	We believe that bonuses should reflect actual Company and individual performance. As a result our employment agreements for executive officers do not contain guaranteed bonus payments, except in limited circumstances typically related to a newly hired executive. We did not guarantee bonus payments for any of our named executive officers for 2014.
<i>No Common Performance Metrics Used for Annual and Long-Term Incentives.</i>	We do not use the same performance metrics for our annual and long-term incentive plans.
<i>Maintain Executive Stock Ownership Guidelines.</i>	We maintain stock ownership guidelines applicable to our named executive officers and directors. In 2015 we increased the stock ownership guidelines for our CEO from three times base salary to five times base salary.

Stockholder Feedback and Say-on-Pay Vote Results.

At our 2014 Annual Meeting of Stockholders, we held our annual non-binding stockholder advisory vote to approve executive compensation (say-on-pay). Our stockholders approved our fiscal 2013 executive compensation, with more than 87 percent of voting stockholders casting their vote in favor of the say-on-pay resolution. The HRCC took this support level as an indication that stockholders were supportive of our pay design and decisions in fiscal 2013.

We had regular and active discussions with our major stockholders during 2014 on various topics throughout the year, and during those conversations we did not hear of any specific issues relating to the design of our compensation program. Therefore we have not made any changes to our compensation programs as a result of the 2014 say-on-pay vote or our shareholder outreach efforts during 2014. Our HRCC is dedicated to continuous improvement of the existing executive compensation program to reflect an appropriate alignment of pay and performance and will continue to review stockholder concerns in designing and implementing the Company's executive compensation program.

Setting Executive Compensation

Oversight of Compensation Programs. Our HRCC is responsible for overseeing our executive compensation programs. See page 26 of this proxy statement for more information on the role and responsibilities of our HRCC concerning executive compensation and related corporate governance, and page 12 of this proxy statement for a discussion of the Company's assessment of risk related to its compensation programs.

Role of the Independent Consultant. As disclosed on page 14 of this proxy statement, our HRCC utilized the services of Pay Governance LLC (Pay Governance), an independent compensation consulting firm, to advise it on executive compensation, equity plan design and related corporate governance matters. Our HRCC reviewed the six independence factors set out in the Nasdaq Rules and determined that Pay Governance was independent and without conflicts of interest for 2014. This determination was reached after reviewing the following factors: (i) whether Pay Governance provides any other services to the Company; (ii) the amount of fees paid relative to the total revenue of the firm; (iii) policies in place to prevent conflicts of interest; (iv) any personal or business relationships with members of our HRCC; (v) ownership of Company stock; and (vi) any personal or business relationships with named executive officers.

Role of Executive Officers in Compensation Decisions. Our HRCC approves all compensation decisions for our named executive officers. The Chief Executive Officer annually reviews the performance of each of the

Table of Contents

named executive officers other than himself. Following the performance reviews, the Chief Executive Officer presents compensation recommendations to our HRCC for consideration. Our HRCC, with input from the full Board, reviews the Chief Executive Officer's performance. Our HRCC has full discretion to approve, modify or reject any recommended compensation adjustments or awards made to the named executive officers.

Role of our Human Resources and Compensation Committee. Our HRCC engages in a rigorous process in determining the total compensation of our named executive officers. This process involves setting Company performance and strategic and operational goals for the named executive officers near the beginning of each fiscal year and evaluating the performance of the named executive officers against those pre-established goals. Our HRCC determines and approves the compensation of the named executive officers based on this evaluation. In evaluating named executive officer compensation, our HRCC, as noted above, has retained the services of Pay Governance and considers recommendations from the Chief Executive Officer with respect to goals and compensation of the other named executive officers, but our Chief Executive Officer does not provide such input as to his own compensation. Our HRCC assesses the information it receives in accordance with its business judgment.

Use of a Peer Group. Our HRCC evaluates our executive compensation programs in comparison to those of a select peer group, which in 2014 consisted of 15 similarly-sized public professional services companies. Our HRCC uses the peer group to compare total direct compensation and the mix of compensation elements for each named executive officer against positions at peer group companies with similar responsibilities. Our HRCC also uses the peer group to review executive pay programs and practices at those companies.

For 2014 the peer group consisted of the following companies, which our HRCC determined will continue to be used for 2015:

The Advisory Board Company	Huron Consulting Group, Inc.
CBIZ Inc.	ICF International Inc.
CIBER, Inc.	Kforce, Inc.
The Corporate Executive Board Company	Korn Ferry International
CRA International, Inc.	Navigant Consulting, Inc.
Hudson Global, Inc.	On Assignment Inc.
FTI Consulting, Inc.	Resources Connection, Inc.
	TrueBlue, Inc.

In setting compensation, the HRCC considers the peer group companies with which we directly compete for executive talent and stockholder investment. Our HRCC also relies on its general knowledge of executive compensation levels and practices. Most of the Company's executive search and leadership advisory competitors, from which executive talent is often recruited, are privately held and therefore not included in the above list of our public peer group companies as information on their compensation practices is difficult to obtain.

We do not set a specific, relative percentile positioning for total direct compensation, or the elements of total direct compensation, as a target for named executive officer pay levels. Rather, we review the total direct compensation range for each position and the mix of elements to ensure that compensation is adequate to attract and retain key named executive officers. To ensure that compensation is linked to performance, our named executive officer compensation program is designed to deliver at least 65 percent of total direct compensation through variable pay. Our named executive officer compensation program is also designed to ensure that a significant proportion of the named executive officer's compensation is delivered in equity and thus aligned with the interests of our stockholders.

Table of Contents**Named Executive Officer Compensation Components**

Alignment with our executive compensation philosophy is achieved through the executive compensation components for our named executive officers outlined below. Messrs. Wolstencroft, Marino, Beard and Pehlke each participated in these programs during 2014. Because Mr. Marino assumed multiple positions during 2014, his compensation elements are described later in this Section under the heading *Special Compensation Components Interim Chief Executive Officer* on page 37.

Compensation Element	Compensation Objectives and Principles	Relation to Performance	2014 Actions/Results
Base Salary <i>Fixed annual cash; paid on a monthly basis</i>	<p>Compensate named executive officers for services rendered during the year in the form of fixed cash compensation.</p> <p>Base salary levels are set to reflect the named executive officers' role and responsibilities, value to the Company, experience and performance, internal equity and market competitiveness.</p>	Increases in base salary reflect market positioning, economic conditions and our HRCC's assessment of Company and individual performance over the prior year.	We increased the base salaries of Messrs. Beard and Pehlke in 2014 in response to both officers taking on increased strategic roles within the Company and to maintain internal equity among executives.
Short Term Annual Incentives <i>Variable Cash; paid in March of the following year</i>	<p>Motivate and reward named executive officers for achieving specific performance goals over a one-year period.</p> <p>Payment is not guaranteed and levels vary according to Company and individual performance.</p>	75% of the target annual incentive is based on Company performance against pre-established financial goals. The remaining 25% of the target annual incentive is based on achievement of individual performance goals and objectives that are intended to position the Company for success.	Because of the Company's 2014 year-end performance, the Company performance component of the awards (weighted at 75%) was calculated at 96% of target. With respect to Messrs. Wolstencroft, Marino, Pehlke and Beard, the HRCC determined that their performance during the year warranted an individual award calculation (weighted at 25%) of 140% of target for the individual component of their 2014 MIP awards. However, Mr. Wolstencroft voluntarily declined his individual award at the 140% level and opted for an individual award calculation of 125% demonstrating his

Special Compensation Components for the Recruitment of Our New CEO

On February 3, 2014, we entered into an employment agreement with Mr. Wolstencroft to serve as our President and Chief Executive Officer. Our Board believes that through the skills and experience that Mr. Wolstencroft brings to the Company from his accomplished 25-year career with Goldman Sachs, including his professional insights, ability to counsel high performing companies around the globe and understanding of the needs of Fortune 500 clients, he is extremely qualified and able to bring valuable and essential talents, abilities and experiences to Heidrick that are well suited to address the Company's current challenges and position Heidrick for long-term growth.

When recruiting our new CEO, our Board and HRCC recognized the need to be competitive with the type and level of compensation employed by companies in the various industries that provide sophisticated strategic business consulting services to the world's leading companies with which we are competing for both clients and executive talent. As a result, during the process the Board and HRCC considered the executive pay practices of institutions that provide global strategy and management consulting services to leading institutions worldwide, as well as those of executive search and recruiting firms.

Table of Contents

We designed elements of Mr. Wolstencroft's compensation for 2014 to include the standard compensation elements described in this Section under the heading *Named Executive Officer Compensation Components*. We also included one-time equity recruitment awards as an inducement for Mr. Wolstencroft to join Heidrick, and to establish an immediate and significant link between performance and shareholder interests and to create an immediate financial stake in Heidrick. The recruitment awards (which are subject to Mr. Wolstencroft's continued employment with the Company) consisted of:

125,000 time vesting RSUs that will vest in equal installments on the 3rd, 4th and 5th anniversary of the date of grant; and

125,000 Performance-based RSUs (PRSUs) that will vest after the 2nd anniversary of the date of grant subject to the achievement of specified stock price increases from \$15.97. Specifically, 31,250 PRSUs will vest in equal tranches as displayed in the following chart:

Number of PRSUs	20 Consecutive Closing
Vesting on the Vesting Date	Trading Price as a Percentage of \$15.97
31,250	115%
31,250	130%
31,250	145%
31,250	160%

Mr. Wolstencroft's PRSUs described above are different from the Company's annual long term equity awards, which we refer to as Performance Stock Units or PSUs. PSUs are target-based equity grants that generally vest three years from the grant date if certain company performance goals are achieved such as operating income. In this proxy statement we refer to Mr. Wolstencroft's recruitment award as PRSUs and our annual long-term awards as PSUs.

Given the caliber of Mr. Wolstencroft's background and experience, we also increased the level of annual compensation for Mr. Wolstencroft from the arrangement we had with our former CEO in order to be market competitive with the executive search, leadership consulting and management consulting firms with whom we were competing for executive talent.

Mr. Wolstencroft's short-term cash bonus opportunity (displayed in the table below as *Annual Incentive Earned*) is variable, meaning the final payout amount is based solely on the achievement of specific performance goals over a one-year period which include both Company performance metrics (weighted at 75 percent) and individual performance factors (weighted at 25 percent).

Half of Mr. Wolstencroft's long-term equity incentive opportunity (displayed in the table below as *LTI Award*) also is variable, meaning the number of shares actually paid to our CEO (if any) depends upon and is subject to the achievement of certain performance measures over a three-year vesting period, and is based on a graduated scale ranging from 0 to 200 percent of the initial target amount. The other half of the award consists of time-vesting RSUs that will vest in three equal installments.

The Board and the HRCC view these compensation changes and costs as prudent investments for the Company's future, as important vehicles to align our new CEO's interest with those of stockholders and promote long-term stockholder value if performance standards are achieved, and as consistent with market practices for executives in the business consulting industry and the companies with which we compete for clients and executive talent.

Table of Contents

Compensation Mix Variable vs. Fixed

Our HRCC believes that our named executive officers should be rewarded for the achievement of financial and non-financial objectives that either influence or contribute to stockholder value creation. Consistent with our pay for performance philosophy, our HRCC established elements of fixed and variable compensation for the named executive officers who served most of the fiscal 2014 (Messrs. Wolstencroft, Pehlke and Beard).

Key principles considered by our HRCC for determining the mix and level of fixed and variable pay for our named executive officers, were our ability to attract, retain and motivate the most talented executives available in light of competitive market practices, our position among companies with which we compete for executive talent, alignment of interests with those of our stockholders, our goals for pay for performance and the market level of total cash and non-cash compensation we pay to our named executive officers.

Base Salary

Our HRCC has established base salaries for our named executive officers that, in its judgment, are competitive. For each named executive officer, base salaries are reviewed against levels for positions with similar responsibilities at the peer group companies, using the comparative data prepared by our HRCC's compensation consultant. Our HRCC then considers individual performance, internal pay equity, functional expertise, experience and scope of responsibilities in approving any changes to the base salary. For 2014, the Company

Table of Contents

increased the base salaries for both Mr. Pehlke (from \$375,000 to \$400,000) and Mr. Beard (from \$350,000 to \$375,000) in response to both officers taking on increased strategic roles within the Company and to maintain internal equity among executives.

Annual Incentives

Our *Management Incentive Plan* or *MIP* is the short-term cash incentive vehicle through which we reward our named executive officers with an annual cash bonus for achieving specific performance goals over a one-year period. Under our MIP, determination of the payout level (if any) for each named executive officer's award is based upon the achievement of a combination of Company performance metrics (weighted at 75 percent) and individual performance factors (weighted at 25 percent). Our HRCC has discretion to modify any payouts (upwards or downwards) under the MIP as appropriate to ensure plan objectives are met, taking into consideration a variety of Company specific or environmental factors. Our MIP awards are subject to the Claw-back Policy adopted by our HRCC.

In 2014 our MIP included six Company performance metrics to determine the pay-out level (if any) of awards: consolidated net revenue, operating income, operating margin, revenue per consultant, EBITDA and EBITDA Margin. The Company's 2014 performance either met or exceeded all target MIP performance metric target levels. Actual Company results for 2014 were:

MIP Performance Metric	Target Performance Levels	Actual Performance
Consolidated Net Revenue	\$487.1 million	\$494.0 million
Revenue Per Consultant	\$1.5 million	\$1.5 million
Operating Income	\$22.0 million	\$26.7 million
Operating Margin	4.4%	5.4%
EBITDA	\$45.0 million	\$48.9 million
EBITDA Margin	9.2%	9.9%

Payout amounts under our MIP were set for each metric based on Minimum, Target and Maximum performance levels and corresponding bonus payment levels based on the Company's business plan and other operational and environmental factors. Target performance is the level at which a participant will earn 100 percent of his or her target award. Depending upon the relationship of the Company's actual financial performance and the individual's annual evaluation, final payouts under our MIP may be as little as zero and as high as 200 percent of target for Mr. Wolstencroft, and 150 percent of Target for Messrs. Marino, Beard and Pehlke.

The HRCC sets Company and individual performance goals for the named executive officers at the beginning of the performance period. These goals consist of both quantitative and qualitative performance objectives. Our HRCC considers the reviews conducted by the Chief Executive Officer of the other named executive officers and conducts its own review of the Chief Executive Officer's performance against those pre-established performance objectives, as well as Company performance milestones achieved during the year. With respect to our Chief Financial Officer our HRCC also considers input from our Audit Committee Chair.

With respect to our total cash bonus pool for all employees of the Company, through which our MIP Plan is funded, overall Company performance determines the amount available for all of our variable compensation programs for the year. The funds available for our total cash bonus pool are significantly impacted by the amount of net revenue that is generated by each consultant, because each consultant's cash bonus is based on a graduated tiered payout model. The more net revenue that is generated by each consultant, the higher the percentage credited towards the consultant's variable compensation and thus accrued by our Company as expense.

Each year the mix of consultants who generate (or fail to generate) projected net revenue for the year can significantly affect the total funds available for the operation of all of our cash bonus compensation programs. As

a result, despite the fact that for 2014, the Company's financial performance met all Minimum performance levels and either met or exceeded each Target performance level, due to the mix of consultants that generated revenue for the year and the required operation of all of our cash bonus programs for all employees, the Company performance portion of the MIP for the named executive officers was calculated at 96% of Target.

As discussed under the Section heading *2014 Year in Review* on page 20, along with our committed consultants and staff around the world, Messrs. Wolstencroft, Pehlke, Beard and Marino were instrumental to the operational results, business accomplishments and increase in financial momentum and revenue growth for the Company. Their efforts created notable value for the Company and its shareholders, and consequently the HRCC determined that their performance during the year warranted an award calculation of 140% of target for the individual component of their 2014 MIP awards. However, Mr. Wolstencroft voluntarily declined his individual award at the 140% level and opted for an individual award calculation of 125% demonstrating his commitment to and belief in the firm and additional performance and quality improvements to the Company going forward.

The 2014 bonus paid to each named executive officer under our MIP is set forth below. Of these amounts, 85 percent was paid in March 2015 and the remaining 15 percent will be paid in equal annual installments over the three years beginning in 2016. The amounts for Mr. Marino reflect his 3 months of service as Head of Global Markets whereas the amounts for Messrs. Beard and Pehlke reflect the full year. The amounts for Mr. Wolstencroft are prorated to reflect his employment with the Company on February 3, 2014.

* The amount for Mr. Wolstencroft is prorated to reflect his employment with the Company on February 3, 2014, and the amount for Mr. Marino is prorated to reflect his 3 months of service as Head of Global Markets.

Long-Term Incentives

Our HRCC approved certain long-term incentives for the named executive officers in place on March 7, 2014 that were provided for under our *2012 GlobalShare Plan*. Our LTI program for named executive officers is designed to:

Align named executive officers' interests with those of our stockholders;

Motivate named executive officers to enhance our revenues and profitability;

Facilitate ownership of Company stock and the achievement of stock ownership guidelines; and

Attract and retain top talent.

Table of Contents

Although our 2012 *GlobalShare Plan* allows us to issue a variety of equity based awards, our current LTI awards issued to our named executive officers consist of:

Performance Stock Units (PSUs) which are target-based equity grants that generally vest three years from the grant date if certain performance goals are achieved. Each PSU represents a right to receive shares of our Common Stock upon vesting, however the number of shares actually paid to the executive depends upon and is subject to the achievement of certain performance measures over the vesting period, and is based on a graduated scale ranging from 0 to 200 percent of the initial target amount. At the low and high end of this range, if the Company's actual three-year average operating income performance is less than 75 percent of our annual operating plan goals, then the PSU pay-out will be 0, however if the three-year average performance is at or above 125 percent of our annual operating plan goals, then the PSU pay-out will be at 200 percent of the initial target amount. Our PSU awards are subject to the Claw-back Policy adopted by our HRCC.

Restricted Stock Units (RSUs) which are equity grants that are service-based and will vest in three equal installments (specifically on the first, second and third anniversaries of the date of grant), are generally subject to the executive's continued employment with the Company. Each RSU represents a right to receive one share of our Common Stock upon vesting.

When issuing annual LTI awards, we equally divide the value of our LTI grants among PSUs and RSUs and calculate the number of RSUs or PSUs awarded to the named executive officer by dividing the total dollar value of LTI compensation granted to the officer by the closing price of our Common Stock on the grant date (usually in March of the grant year). All outstanding RSUs and PSUs are credited with dividend equivalents that are payable in cash following vesting. The primary purpose of crediting dividend equivalents on LTI awards is to align the participant with the value of being a stockholder over the course of the vesting period, but only to the extent the award vests.

In March 2014 we issued LTI awards to Messrs. Wolstencroft, Pehlke and Beard with half of their LTI awards issued as PSUs and the other half issued as RSUs. In his interim role as Chief Executive Officer Mr. Marino was not eligible for a 2014 LTI equity award, although he did receive an equity award in the amount of 15,000 RSUs upon the conclusion of tenure as interim CEO. Mr. Wolstencroft's LTI target opportunity was equal to 200 percent of base salary and Messrs. Pehlke and Beard's LTI target opportunity was equal to 100 percent of base salary. See the 2014 Grants of Plan-Based Awards Table on page 40 for more details on the equity grants that our HRCC approved. The following is a summary of the LTI awards issued to Messrs. Wolstencroft, Pehlke and Beard in 2014.

Named Executive Officer	Target LTI Value	Target # 2014-2016 PSUs	# RSUs
Tracy R. Wolstencroft	\$ 1,700,000	43,257	43,257
Richard W. Pehlke	\$ 375,000	9,542	9,542
Stephen W. Beard	\$ 350,000	8,906	8,906

The LTI targets for all of our outstanding PSUs are discussed in more detail below and were based on our HRCC's review of publicly disclosed data for our 2014 peer group for each position and internal pay equity considerations, as well as the Chief Executive Officer's recommendations and a review of individual performance and potential.

2014-2016 Performance Stock Units. Our 2014 PSUs issued to Messrs. Wolstencroft, Beard and Pehlke will vest over a three-year period and be subject to target goals for the Company's average operating income over the 2014 through 2016 fiscal years, and will be paid in 2017. The number of shares eventually earned and paid to our named executive officers (if any) will be based on a graduated scale ranging from 0 to 200 percent of the initial target amount, depending on the Company's three-year actual average operating income, relative to our annual operating plan goals for that period.

Table of Contents

The Company achieved the operating income performance target set by the HRCC for 2014. Since the Company achieved the operating income goal for 2014, the award is currently on track to vest at 100 percent or above target if the Company achieves or surpasses its operating income goals in 2015 and 2016. Based on the Company's 2015 operating plan, our HRCC establishes future operating income goals in the beginning of 2015 and 2016. After the end of the three-year period, the target number of PSUs may be adjusted based on the average operating income (expressed as a percentage of the Company's target operating income goals) for each annual performance period as follows:

Average Percentage of Operating Income Goals	Percentage of Target PSUs Vesting
125% or More	200% (Maximum)
100%	100% (Target)
75%	50% (Threshold)
Less than 75%	0%

We set performance goals for our PSUs using a three-year average performance approach because:

Alignment between operating goals and executive performance, as well as named executive officer accountability, is maximized;

This approach better enables us to focus on the necessary strategic goals;

Final awards are based on average performance over a three-year period, which provides greater focus on sustained long-term results; and

The establishment of goals annually allows for more realistic goal setting in a volatile economic environment.

2013-2015 Performance Stock Units. In March 2013, we granted PSUs to Messrs. Pehlke and Beard who were our named executive officers at the time. The 2013 PSUs will vest over a three-year period and be subject to target goals for the Company's average operating income over the 2013 through 2015 fiscal years, and will be paid in 2016. The number of shares eventually earned and paid to our named executive officers (if any) will be based on a graduated scale ranging from 0 to 200 percent of the initial target amount, depending on the Company's three-year average operating income, relative to our annual operating plan goals for that period.

The Company exceeded its operating income goals for both 2013 and 2014. Consequently, if the Company meets its operating income goal for 2015, the three-year average of actual Company operating income performance would be 107.9 percent of our annual operating plan goals for that period. This would result in a pay-out of approximately 131.7 percent of the initial target amount.

2012-2014 Performance Stock Units. In March 2012, we granted PSUs to Messrs. Pehlke and Beard who were our named executive officers at the time. The 2012 PSUs vested over a three-year period and were subject to target goals for the Company's average operating income over the 2012 through 2014 fiscal years, and were paid in 2015. The number of shares eventually earned and paid to our named executive officers was based on a graduated scale ranging from 0 to 200 percent of the initial target amount, and were calculated based on the Company's three-year average operating income, relative to our annual operating plan goals for that period.

The Company did not meet its operating income goal for 2012, but did meet its operating income goal for both 2013 and 2014. As a result, the three-year average of actual Company operating income performance resulted in a 2012 PSU pay-out of approximately 81.9% of the initial target amount which was paid in March 2015.

Stock Ownership Guidelines. To enhance the alignment of named executive officers' interests with that of stockholders, we maintain stock ownership guidelines. Each new executive officer has five years to achieve a

Table of Contents

stock ownership level equal to a multiple of base salary. In 2015 we increased the stock ownership guidelines for our CEO from three times base salary to five times base salary. The stock ownership guidelines for our Named Executive Officers are as follows:

Chief Executive Officer: five times base salary

Other Named Executive Officers: two times base salary

In determining compliance with these guidelines, we include both direct stock ownership and RSU grants, but do not consider PSUs. Each of the named executive officers subject to the policy either satisfied the stock ownership guidelines or is on track to do so within the requisite five-year period.

Perquisites and Other Personal Benefits

We provide our named executive officers with the same benefits that are provided to all employees generally, including medical, dental and vision benefits, group term life insurance and participation in our 401(k) plan. The named executive officers are also reimbursed for expenses incurred for an annual physical examination, for financial planning services (maximum reimbursement for financial planning is \$1,080 per year or \$3,150 if expenses are incurred for the first time), and business club memberships. All business club memberships are offered to executives on the same scale and terms as those for our executive search consultants.

Other Executive Compensation Arrangements

We have adopted other executive compensation arrangements, including our Change in Control Severance Plan (CIC Plan), designed to retain executives in a period of uncertainty; our Management Severance Pay Plan (Severance Plan), designed to provide financial assistance to executives following termination of employment; and employment agreements with each named executive officer. The material terms and conditions of these plans and agreements are summarized below.

Double-Trigger CIC Plan. We maintain a CIC Plan for certain of our executives, including the named executive officers. The CIC Plan provides severance benefits to the executive if his or her employment is terminated by us without cause, or if he or she terminates employment with us for good reason (each term as defined in the Plan), within two years after a change in control of the Company (or within six months prior to a change in control of the Company if such termination is effected prior to, but in anticipation of, the change in control). The severance benefits payable to the named executive officers under the CIC Plan, as well as other material terms and conditions, are described in detail under the section entitled *Contingent Payments* on page 47.

We believe that the protection and benefits provided by the CIC Plan motivate our executives to act in the best interests of our stockholders by removing the distraction of post-change of control uncertainties faced by the executive officers with regard to their continued employment and compensation. Change in control protection for executives is also prevalent in the competitive environment in which we operate. The CIC Plan also contains restrictive covenants that prohibit the executives from competing and soliciting clients and employees for a certain period of time following a termination of employment.

Severance Plan. The Severance Plan provides severance benefits to certain eligible employees, including the named executive officers. Benefits are paid to an eligible employee who is involuntarily terminated by us for other than cause (as defined in the Plan) and is not offered employment with the Company or a successor to the Company. The severance benefits payable to the named executive officers under the Severance Plan, as well as other material terms and conditions, are described in detail under the section entitled *Contingent Payments* on page 47.

Employment Agreements

Below is a summary of the material terms and conditions of the employment agreements we have in place with our named executive officers as of December 31, 2014.

Tracy R. Wolstencroft. In February 2014, the Company entered into an employment agreement with our new President and Chief Executive Officer, Tracy R. Wolstencroft, under which he will receive:

An annual base salary of \$850,000 per year subject to annual review but no decrease.

An annual cash bonus target opportunity under our MIP equal to 125% of his base salary, subject to the attainment of certain performance goals established annually by the HRCC.

An annual equity award target opportunity equal to 200% of his base salary, issued as a combination of PSUs and RSUs, subject to the attainment of certain performance goals established annually by the HRCC.

Mr. Wolstencroft participates in MIP at the Tier I level, the CIC Plan and Severance Plan at the Tier I level and our equity programs and our benefit plans at the same level as other senior executives. The agreement provides for severance payable upon termination without cause or resignation for good reason, as well as customary restrictive covenants in favor of the Company. See the heading in this Section entitled *Special Compensation Components for the Recruitment of Our New CEO* for information regarding separate one time equity recruitment award we made to Mr. Wolstencroft in 2014 as an inducement to join Heidrick as our CEO. The agreement also contains one-year post-termination non-solicitation and non-competition restrictions.

Jory J. Marino. On February 2015 the Company entered into an employment agreement with Jory J. Marino in connection with his service as Head of Global Markets. Under this agreement the Company will pay Mr. Marino a base salary of \$650,000 per year. He also will be entitled to participation in the MIP at Tier I with a target bonus opportunity equal to 100 percent of base salary for the fiscal year, participation in the CIC Plan and Severance Plan at the Tier I level, participation in our equity programs, and participation in our benefit plans at the same level as other senior executives. The agreement also contains one-year post-termination non-solicitation and non-competition restrictions.

In addition, for 2014 only, under this agreement Mr. Marino was entitled to earn a one-time transition bonus for the year, in a target amount of \$300,000 due to the fact that during the year he was required to transition his clients to other consultants and carry out multiple management and consulting roles. The final payout for the transition bonus was dependent upon and subject to the achievement of certain performance metrics and measures over the 2014 fiscal year as developed, by the Chief Executive Officer, and be based on a graduated scale ranging from 0 to 150% of the target amount. Based on the recommendation of our Chief Executive Officer, the HRCC approved a 2014 transition bonus for Mr. Marino at a rate of 140% of the target amount, or \$420,000.

Richard W. Pehlke. On August 15, 2011, Mr. Pehlke was appointed as our Executive Vice President and Chief Financial Officer. Mr. Pehlke's letter agreement provides that he is eligible to receive an annual base salary of \$400,000 for 2014, participation in the MIP at Tier I with a target bonus opportunity equal to 100 percent of base salary for the fiscal year, participation in the CIC Plan and Severance Plan at the Tier I level, participation in our equity programs, and participation in our benefit plans at the same level as other senior executives. The agreement also contains one-year post-termination non-solicitation and non-competition restrictions.

Stephen W. Beard. We entered into an employment agreement with Mr. Beard, our Executive Vice President, General Counsel, Secretary and Chief Administrative Officer, on February 11, 2011, which was amended and restated on May 18, 2011. Under this agreement Mr. Beard's annual base salary for 2014 was \$375,000. His salary is subject to annual review (but no decrease), participation in the MIP at Tier I with a target bonus opportunity equal to 100 percent of base salary for the fiscal year, participation in the CIC Plan and

Severance Plan at the Tier I level, participation in our equity programs, and participation in our benefit plans at the same level as other senior executives. The agreement also contains one-year post-termination non-solicitation and non-competition restrictions.

Claw-back Policy

We have adopted a Claw-back Policy which is intended to incorporate the SEC's rules regarding the recoupment of executive compensation (*i.e.*, claw-backs) under the Dodd-Frank Wall Street Reform and Consumer Protection Act, as well as the Sarbanes-Oxley Act of 2002 requirements. This policy will be applied to all applicable incentive compensation for our named executive officers and will enable the Company to take the steps necessary to recoup executive compensation when warranted.

Deductibility of Executive Compensation

Section 162(m) of the Code limits the deduction that a publicly held corporation is allowed for compensation paid to the chief executive officer and the other three most highly compensated executive officers other than the chief financial officer. Amounts in excess of \$1 million paid to a covered executive, other than performance-based compensation, cannot be deducted. We consider ways to maximize the deductibility of executive compensation but reserve the right to compensate executive officers in a manner commensurate with performance and the competitive environment for executive talent. As a result, some portion of executive compensation paid to an executive officer whose compensation is subject to the deduction limits described above may not be deductible in the United States. We have taken appropriate steps, including obtaining stockholder approval, with the intention of enabling stock options and performance-based awards made pursuant to the 2012 GlobalShare Plan and annual incentives under the MIP to be fully deductible where consistent with our compensation strategy.

Special 2014 Compensation Components Interim Chief Executive Officer

During 2014, Jory J. Marino, a long tenured search consultant and Regional Leader for Americas served as Interim Chief Executive Officer (January 1 through February 3) and transitioned during the year into his new role as Head of Global Markets. - (2) For Messrs. Pehlke and Beard the amounts in this row include a *Non-Equity Incentive Plan Award* representing our annual Short-Term Incentive MIP awards for 2014 as established by the HRCC on February 3, 2014. For Mr. Marino, the amounts in this row include a *Non-Equity Incentive Plan Award* representing a prorated annual Short-Term Incentive MIP award for 2014 for his service as Head of Global Markets.
- (3) For Messrs. Wolstencroft, Pehlke and Beard the amounts in this row include awards granted on March 7, 2014 consisting of: (i) an *Equity Incentive Plan Award* representing an annual Long-Term Incentive PSU award issued under our *2012 GlobalShare Plan* that will vest (if at all) after a three-year performance period; and (ii) an *All Other Stock Award* representing an annual Long-Term Incentive RSU award issued under our *2012 GlobalShare Plan* that will vest in three equal installments on each grant date anniversary subject to his continued employment with the Company.
- (4) For Mr. Marino, the *All Other Stock Award* amount reflects the issuance of an Interim CEO equity award.
- (5) With respect to our *Non-Equity Incentive Plan Awards* representing our annual Short-Term Incentive MIP awards, the performance goals were established by the HRCC on February 3, 2014, the final evaluation of those performance goals were determined on February 9, 2015 and the initial payments for those awards were made in March 2015. The amounts in the table reflect the range of potential MIP award payouts which may be as little as zero and as high as 150 % of Target. If the performance goals based on Company financial performance are not met at the threshold level (which would provide a payment equal to 50% of target), the amount (if any) payable under the MIP with respect to that component is at the discretion of our HRCC. The amounts actually paid under the MIP for 2014 appear in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table on page 39.

- (6) With respect to our *Equity Incentive Plan Awards* representing our annual Long-Term Incentive PSU award issued under our *2012 GlobalShare Plan*, the awards are target-based equity grants that vest three years from the grant date, and are subject to the achievement of certain performance measures. The PSUs are stated at their target number of shares. Upon vesting, the recipients will receive anywhere from 0% to 200% of the target number of shares based on actual company performance over the performance period. The unvested PSUs are credited with dividend equivalents which are payable in cash to the extent the shares subject to the PSUs vest.

- (7) With respect to our *All Other Stock Awards* representing our annual Long-Term Incentive RSU award issued under our *2012 GlobalShare Plan*, the awards are service-based equity awards that vest in three equal installments (the first, second and third anniversaries of the date of grant), generally subject to the executive's continued employment with the Company. All unvested RSUs are credited with dividend equivalents which are payable in cash to the extent the shares subject to the RSUs vest.

- (8) Reflects the grant date fair value of RSUs and PSUs calculated in accordance with ASC Topic 718. The fair value of the RSUs is based on the closing price of the common stock on the grant date. The fair value of the target number of PSUs was estimated based on our closing stock price on the grant date; the ultimate number and value of PSUs earned over the performance period from January 1, 2014 through December 31, 2016 will depend on our average percentage of Operating Income achieved relative to target Operating Income goals and the price of our stock at vesting.

NONQUALIFIED DEFERRED COMPENSATION

Pursuant to our U.S. Employee Deferred Compensation (EDC) Plan, each named executive officer (based in the U.S. only) may defer up to 25% of his or her base salary not to exceed \$500,000 per year and/or up to 25% of his or her cash incentive compensation not to exceed \$500,000 per year. The purpose of the EDC Plan is to facilitate future wealth creation and individual financial planning by deferring payments earned today to the future.

A participant completes an election form at the time he or she enrolls in our EDC Plan and chooses from investment funds offered by Vanguard (the EDC Plan Administrator). We do not contribute to the amount deferred nor do we provide above market rates on the investment funds. Vanguard calculates the earnings for the funds selected for each participant's account. A participant makes distribution elections on the enrollment form and can elect to receive his or her distributions on either a date specified in the future (as long as it is at least three years from the effective date that contributions begin) or upon termination. A participant can also elect to receive his or her distributions in either a lump sum or in installments (over five, ten or fifteen years) paid quarterly and/or on a declining balance approach.

In 2014, the only named executive officer who participated in, or had an account balance under our EDC was Mr. Marino.

POTENTIAL PAYMENTS UPON TERMINATION OR A CHANGE IN CONTROL

We provide certain benefits to eligible employees upon certain types of termination of employment, including a termination of employment following a change in control of the Company. Certain benefits are in addition to the benefits to which the employee would be entitled upon a termination of employment generally (i.e., vested retirement benefits accrued as of the date of termination, equity-based awards that are vested as of the date of termination, and the right to continued medical coverage pursuant to COBRA). These incremental benefits as they pertain to the named executive officers are described below.

CIC Plan

All named executive officers who are officers subject to Section 16 of the Securities Exchange Act of 1934 are participants under the CIC Plan. The CIC Plan provides severance benefits to the executive if he or she is terminated by us without cause, or if the executive terminates his or her employment with us for good reason, within two years of a change in control of the Company (or within six months prior to a change in control of the Company if such termination is effected prior to, but in anticipation of, the change in control). The following benefits are to be provided under the CIC Plan to a participant upon a qualifying termination of employment:

Salary and other compensation earned but not paid as of the termination date, including any unpaid bonus and earned but unused vacation time.

Edgar Filing: HEIDRICK & STRUGGLES INTERNATIONAL INC - Form PRE 14A

A prorated bonus payment equal to the participant's annual target bonus under the MIP as of the date immediately prior to the change in control (the "bonus amount").

Table of Contents

A lump sum payment equal to the sum of the participant's base salary (the highest annual rate during the preceding 12 months) and annual target bonus amount multiplied by a factor of:

2.5 for the Chief Executive Officer.

2.0 for any participant in a Tier I position, which includes all other named executive officers.

1.0 for any participant in a Tier II position.

Double trigger accelerated vesting of unvested stock awards (PSUs vest at the greater of target level or the number that would be achieved based on performance) after a change in control if the CIC Plan participant's employment is terminated for certain reasons within the two-year period beginning on the date of a change in control.

Continuation of health, dental and/or vision benefits for up to one year at no additional cost to the participant with the same terms in effect immediately prior to the termination date.

Reimbursement of reasonable legal fees incurred by the participant in enforcing in good faith his or her rights under the CIC Plan (unless the participant was terminated for cause).

The CIC Plan does not provide an excise tax gross-up, but instead permits all participants to either elect to have their parachute payments reduced to ensure no excise tax liability or to receive the full amount of parachute payments and be responsible for paying all related excise taxes, interest and penalties.

The CIC Plan contains restrictive covenants that prohibit the participant, for a period of time, from working on the accounts of certain clients, with respect to which he or she had significant involvement, providing services to competitors, or soliciting or hiring employees or employee candidates of the Company. In order to receive benefits under the CIC Plan, the participant must waive his or her right to receive any severance benefits he or she is entitled to receive under any other Company severance plan or employment agreement to which we are a party.

For purposes of the CIC Plan:

Cause means the executive's (i) willful and continued failure to substantially perform his or her duties that is not cured after notice from us (other than a failure due to a physical or mental condition), or (ii) willful misconduct that is materially injurious to us.

Good reason means the occurrence of one of the following events without the executive's written consent: (i) the assignment to the executive of duties inconsistent with, or a reduction in his or her responsibilities or functions associated with, his or her position immediately prior to the change in control; (ii) a reduction in the executive's base salary or any failure to pay the executive any compensation within seven days of the due date for such payment; (iii) a change by 50 miles or more of the executive's principal work location; (iv) a substantial change in the executive's required business travel; (v) our failure to continue substantially similar benefits under its welfare and fringe benefit plans, its taking any action that adversely affects or reduces the executive's benefits under such plans, or its failure to provide the executive with his or her accrued vacation days in accordance with our policy in effect immediately prior to the change in control; (vi) the failure to provide the executive with the bonus and long term incentive opportunity available immediately prior to the change in control; (vii) a material increase in the executive's working hours; or (viii) the failure of any successor to the Company to assume the obligations under the CIC Plan.

Edgar Filing: HEIDRICK & STRUGGLES INTERNATIONAL INC - Form PRE 14A

Change in control means (i) a person's acquisition of more than 30% of the voting power of our outstanding securities; (ii) during any 24 month period, the incumbent board members, and generally any new directors elected by at least $\frac{2}{3}$ of the incumbent or previously approved board members, cease to constitute a majority of the board; (iii) a merger or consolidation of the Company (other than a merger or consolidation that (A) results in our outstanding voting securities continuing to represent more than $66\frac{2}{3}\%$ of the combined voting power of the outstanding securities immediately after the transaction, or

Table of Contents

(B) after which no person holds 30% or more of the combined voting power of the outstanding securities immediately after the transaction); (iv) a complete liquidation, or a sale of substantially all of the assets, of the Company; or (v) any other event that the Board determines to be a change in control. A change in control does not include any of the above events if after such event we cease to be subject to Section 13 or 15(d) of the Securities Exchange Act and no more than 50% of the outstanding stock is owned by any entity subject to such requirements, or our executive officers own 25% or more of the then outstanding common stock or 25% or more of the combined voting power of the outstanding voting securities.

Severance Plan

The Severance Plan provides severance benefits to select employees. Benefits are not available if the termination is due to voluntary resignation, leave of absence, retirement, death or disability. If the termination is due to the employee's transfer to an unaffiliated business, the sale of the stock or assets of the Company or the outsourcing of a division, department, business unit or function, severance benefits will be provided only if the employee has not been offered employment with the successor entity. An employee's receipt of severance benefits is conditioned on his or her execution of a release. The severance benefit payable to a participant is equal to the sum of the participant's base salary rate in effect on the date of termination and target bonus amount multiplied by a factor of:

2.0 for the Chief Executive Officer;

1.5 for any Tier I MIP participant (other than the Chief Executive Officer), which includes each of the other named executive officers. The severance benefits will be paid to the participant in equal installments over the severance period in accordance with applicable payroll procedures, beginning no later than 30 days after the participant delivers an executed release. In addition, the Severance Plan includes six-month non-solicitation and non-compete provisions that apply to the extent the participant is not already subject to such restrictions pursuant to another agreement with us.

Bonus, Restricted Stock Unit and Bonus Cash Deferral Retirement Policy

We maintain a Bonus, Restricted Stock Unit and Bonus Cash Deferral Retirement Policy (Retirement Policy). Under the Retirement Policy, an employee is eligible for retirement if all three of the following criteria have been met:

Age 55 or older on the date of retirement;

Combined age and years of service add up to at least 70 on the date of retirement; and

Notification of the intent to retire is made no later than October 15th of the fiscal year before the year of actual retirement. Our Retirement Policy allows for the continued vesting of RSUs and bonus cash deferrals, and the payment of the annual incentive, if any, that would have been payable in the year of retirement even if the employee retires prior to the actual date of payment.

Mr. Marino is the only named executive officer who qualified for retirement under the Retirement Policy as of December 31, 2014.

2012 GlobalShare Plan

All employees are eligible to receive awards under our 2012 GlobalShare Plan. For purposes of the Plan, the definition of a change in control is the same as included in our CIC Plan (see page 35 and 44 for more details).

Table of Contents

All agreements with respect to awards of stock options, RSUs and PSUs granted under the 2012 *GlobalShare Plan* provide for immediate vesting of all outstanding awards in the event of a termination by reason of death or disability as defined under the Program. In such events, the PSUs would vest at target upon death or disability. The award agreements were amended in 2011 to provide that (1) after a change in control and an executive officer's termination of employment for certain reasons within the two-year period beginning on the date of a change in control, the unvested awards immediately vest and (2) awards under agreements will be subject to any Claw-back Policy developed by the Board or HRCC that is consistent with applicable law.

Bonus Deferrals

Management Incentive Plan. As noted above, 15 percent of each named executive officer's earned MIP bonus for a particular year is mandatorily deferred and the deferred amount is then paid out equally over the following three years. In the event of a change in control, death or disability, such amounts would vest and be paid out in a single lump sum within 30 days. If an executive officer leaves prior to payment of any deferred MIP bonus amount, such amounts are forfeited.

Fee and Source of Business Plan. Our consultants also must defer 15 percent of the annual bonus amounts earned under the Company's FSOB Plan which is our compensation plan that covers all partners in a consultant role and provides a tiered payout based on the revenue credits earned by the consultant for both origination of new business and for execution of client service engagements. The deferred amount is then paid out equally over the following three years. If an executive officer leaves prior to payment of any deferred FSOB bonus amount, such amounts are forfeited.

The named executive officers had the following deferred amounts outstanding at December 31, 2014 under either our MIP or FSOB Program:

Executive		Outstanding Amount of Deferred Bonus Payout for:

At December 31, 2014 Mr. Marino was entitled to severance benefits under our Severance Plan applicable to our named executive officers as well as our severance plan for U.S. employees and his employment contract with the Company, all of which provided benefits for a termination without cause. Under the terms of these documents, the Company would determine the potential payout to Mr. Marino in the event of a termination without cause under: (i) the Severance Plan; and (ii) the severance plan for U.S. employees and his employment contract, and Mr. Marino would be entitled to the greater benefit. The following table represents the Company's obligation to Mr. Marino under the Severance Plan (described on pages 35 and 46) in the event of a termination without cause as that would have generated the greater benefit as of December 31, 2014.

ITEM 2 ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

Pursuant to Section 14A of the Securities Exchange Act of 1934, the Company is required to submit to stockholders a resolution subject to an advisory vote to approve the compensation of the Company's named executive officers.

The Board encourages stockholders to carefully review the Executive Compensation section of this Proxy Statement, including the Compensation Discussion and Analysis, for a thorough discussion of the Company's compensation program for named executive officers. The Company's executive compensation objectives are to: (i) link pay with performance; (ii) be aligned with stockholder interests; (iii) support the execution of our business strategy; and (iv) attract, retain, and reward the best talent. To achieve these goals, our executive compensation programs are designed to:

Link compensation to stockholder value creation and the long-term profitable growth of the Company;

Be market competitive with the executive search, leadership advisory and other consulting firms, both public and private, with which we compete for executive talent;

Support our key business strategies, as well as our revenue and operating income growth objectives;

Be internally fair and equitable between executives;

Reflect an executive's individual performance and career potential; and

Encourage Company stock ownership.

Accordingly, the following resolution is submitted for an advisory stockholder vote at the annual meeting:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Disclosure and Analysis, compensation tables and narrative discussion, is hereby approved.

As this is an advisory vote, the result will not be binding on the Company, the Board or the Human Resources and Compensation Committee, although the Board and the Human Resources and Compensation Committee will carefully consider the outcome of the vote when evaluating the Company's compensation program.

The current frequency of our stockholder advisory vote to approve executive compensation is annually, and the next such vote will be held at our 2016 Annual Meeting of Stockholders.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE *FOR* THE APPROVAL OF THE COMPENSATION OF THE NAMED EXECUTIVE OFFICERS.

ITEM 3 APPROVAL OF AMENDMENTS TO OUR

CERTIFICATE OF INCORPORATION TO DECLASSIFY THE BOARD OF DIRECTORS

The Company's Amended and Restated Certificate of Incorporation (Certificate) currently provides that the Board will be classified into three classes, as nearly equal in number as possible, with one class to be elected by the stockholders each year for a three-year term.

While our Board continues to believe that experience, stability and continuity among Board members are important factors in effective corporate governance, it also is aware of the increasing demand in the stockholder community for annual election of directors as a means to promote Board accountability. Accordingly, both the Board and the Nominating and Board Governance Committee have concluded that it is in the best interests of the Company's stockholders to declassify the Board.

If this proposal is approved by the requisite percentage of stockholders, the Company will transition to a declassified structure under which the entire Board will stand for election annually beginning in 2016. As part of the transition, immediately prior to this Annual Meeting, the current Class I directors (currently serving a term expiring in 2017) and the Class III nominees being elected at this Annual Meeting will tender their resignations, with such resignations to take effective immediately prior to the 2016 annual meeting of stockholders, subject to the condition that this proposal to declassify our Board passes at this Annual Meeting. In that case, the terms of all incumbent directors will terminate at the 2016 annual meeting of stockholders, and all directors will begin standing for annual election beginning at the 2016 annual meeting.

The proposed amendments to Article Seventh of the Certificate are attached hereto as Annex B. Our Board has unanimously approved, and recommends that our stockholders approve, these amendments. In addition, our Board has approved conforming amendments to our Amended and Restated Bylaws that reflect the declassifying of our Board. These Bylaws amendments are conditioned upon, and would take effect concurrently with, the effectiveness of the related amendments to the Certificate.

If the requisite percentage of stockholders approve the amendments, the Company anticipates filing the Certificate with the Delaware Secretary of State following the Annual Meeting.

The affirmative vote of the holders of at least seventy five percent (75%) of the outstanding voting stock of the Company is required for approval of this proposal.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THE PROPOSED AMENDMENTS TO OUR CERTIFICATE TO DECLASSIFY THE BOARD.

REPORT OF THE AUDIT AND FINANCE COMMITTEE OF THE BOARD OF DIRECTORS

The Audit and Finance Committee of the Board of Directors is responsible for providing general oversight of the Company's financial accounting and reporting processes, selection of critical accounting policies, and the Company's system of internal controls. The Audit and Finance Committee is presently comprised of four directors, Messrs. Fazio, Knowling and Unruh and Ms. Kanin-Lovers, each of whom is independent within the meaning of the Company's Director Independence Standards and the applicable Nasdaq Rules. The Board of Directors has determined that John A. Fazio and V. Paul Unruh are audit committee financial experts as defined in the SEC Rules. During 2014, the Audit and Finance Committee met eight times.

As part of its oversight of the Company's financial statements, the Audit and Finance Committee reviews and discusses with both management and its independent registered public accounting firm, KPMG LLP, all annual and quarterly financial statements prior to their issuance. The Audit and Finance Committee reviews key initiatives and programs aimed at strengthening the effectiveness of the Company's disclosure control structures; including its internal controls, as well as providing oversight of the Company's risk management protocols.

The Audit and Finance Committee reviewed and discussed with KPMG LLP the matters required to be discussed by Statement of Auditing Standard No. 16, Communications with Audit Committees, as adopted by the PCAOB and approved by the SEC. The Audit and Finance Committee has also received the written disclosures and the letter from KPMG LLP, required by applicable requirements of the Public Accounting Oversight Board, regarding KPMG LLP's communications with the Audit and Finance Committee concerning independence, and has discussed with KPMG LLP the firm's independence from the Company.

The Audit and Finance Committee's meetings generally included executive sessions with KPMG LLP and with the Company's Internal Audit function which was outsourced to PwC in March 2013, in each case without the presence of management, to raise and discuss any issues they may have about the financial statements and the adequacy and proper functioning of the Company's internal and disclosure control systems and procedures.

In performing these functions, the Audit and Finance Committee acted and continues to act only in an oversight capacity on behalf of the Board of Directors. Management has primary responsibility for the Company's financial statements and the overall reporting process, including its systems of internal and disclosure controls. In its oversight role, the Audit and Finance Committee necessarily relies on the procedures, work and assurances of management. KPMG LLP has audited the annual financial statements prepared by management, expressed an opinion as to whether those financial statements fairly present the Company's financial position, results of operation and cash flows in conformity with generally accepted accounting principles in the U.S., and discussed any issues they believe should be raised with the Audit and Finance Committee.

During 2014, management documented, tested and evaluated the Company's internal controls pursuant to the requirements of the Sarbanes-Oxley Act of 2002. Management and KPMG LLP kept the Audit and Finance Committee apprised of the Company's progress at each regularly scheduled Audit and Finance Committee meeting. Management and KPMG LLP have each provided the Audit and Finance Committee with a report on the effectiveness of the Company's internal controls. The Audit and Finance Committee has reviewed management's and KPMG LLP's assessment of the effectiveness of the Company's internal controls included in the Annual Report on Form 10-K for the year ended December 31, 2014.

Based on the above mentioned reviews and discussions with management and its independent registered public accounting firm, the undersigned Audit and Finance Committee members recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2014. The Audit and Finance Committee has also appointed KPMG LLP as the Company's independent registered public accounting firm for 2015.

Table of Contents**AUDIT FEES**

The Audit and Finance Committee has established a policy governing the engagement of the Company's independent auditors for audit and non-audit services. Under this policy, the Audit and Finance Committee is required to pre-approve all audit and non-audit services performed by the Company's independent auditors to assure that the provision of such services does not impair the auditor's independence. The Audit and Finance Committee has delegated the authority to evaluate and approve audit and permissible non-audit fees and engagements up to \$100,000 to the Audit and Finance Committee Chair. In this event, the Chair then presents a summary of the fees and services to the Committee at its next meeting. The independent auditor may not perform any non-audit service which independent auditors are prohibited from performing under the SEC Rules or the rules of the Public Company Accounting Oversight Board. KPMG LLP did not perform any non-audit services in 2014.

At the beginning of each fiscal year, the Audit and Finance Committee reviews with management and the independent auditor the types of services that are likely to be required throughout the year. For each proposed service, the independent auditor provides documentation regarding the specific services to be provided. At that time, the Audit and Finance Committee pre-approves a list of specific audit related services that may be provided and sets fee limits for each specific service or project. Management is then authorized to engage the independent auditor to perform the pre-approved services as needed throughout the year, subject to providing the Audit and Finance Committee with regular updates. The Audit and Finance Committee must review and approve in advance, on a case-by-case basis, all other projects, services and fees to be performed by or paid to the independent auditor. The Audit and Finance Committee also must approve in advance any fees for pre-approved services that exceed the pre-established limits, as described above.

All services provided by KPMG LLP in 2014 were, and all services approved to be provided by KPMG LLP in 2015 will be, permissible under applicable laws and regulations.

ITEM 4 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit and Finance Committee has appointed KPMG LLP as the Company's independent registered public accounting firm for the current fiscal year ending December 31, 2015, and has further directed that management submit the appointment of the independent registered public accounting firm for ratification by the stockholders at the Annual Meeting. KPMG LLP was the independent registered public accounting firm for the Company for the fiscal year ended December 31, 2015, and has been the independent registered public accounting firm for the Company since 2002. We are asking the stockholders to ratify the appointment of KPMG LLP as the Company's independent registered public accounting firm for the fiscal year 2015.

Representatives of KPMG LLP are expected to attend the Annual Meeting. They will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate stockholder questions.

The Company's Amended and Restated Bylaws or other applicable legal requirements do not require stockholder ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm. However, the Board is submitting the appointment of KPMG LLP to the stockholders for ratification as a matter of good corporate governance. In the event stockholders fail to ratify the appointment, the Board may reconsider this appointment. Even if the appointment is ratified, the Board, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Board determines that such a change would be in the Company's and stockholders' best interests.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE *FOR* THE RATIFICATION OF THE APPOINTMENT OF KPMG LLP AS THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM OF THE COMPANY FOR THE 2015 FISCAL YEAR.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Various Company policies and procedures, which include the Code (applicable to all executive officers and non-employee directors) and annual questionnaires completed by all Company directors and executive officers, require disclosure of transactions or relationships that may constitute conflicts of interest or otherwise require disclosure under applicable SEC and Nasdaq Rules. Pursuant to its charter, the Nominating and Board Governance Committee of the Board in consultation with the Audit and Finance Committee reviews and approves related party transactions. Although the Company's processes vary with the particular transaction or relationship, when such a transaction or relationship is identified, the Nominating and Board Governance Committee evaluates the transaction or relationship and approves or ratifies it (without the vote of any interested person) only if it is judged to be fair and in the best interests of the Company. In addition, it is the practice of the Nominating and Board Governance Committee, although not part of a written policy, to review each transaction specifically disclosed as a potential related party transaction in connection with its review of the proxy statement for the Annual Meeting of Stockholders, to the extent any such transaction has not previously been reviewed, applying the same standard.

There were no transactions in 2014 that required approval under the Company's policies and procedures or the rules and regulations of the SEC.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires that the Company's officers and directors, and persons who own ten percent (10%) or more of a registered class of the Company's equity securities, file reports of ownership on Form 3 and changes in ownership on Forms 4 or 5 with the SEC. These officers, directors and persons holding ten percent (10%) or more of the outstanding shares of Company Common Stock are also required by SEC rules to furnish the Company with copies of all forms they file.

Based solely on a review of the copies of the forms and written representations from certain reporting persons, the Company believes that, during 2014, all forms required under Section 16(a) applicable to its officers, directors, and persons holding ten percent (10%) or more of the outstanding shares of Company Common Stock were filed on a timely basis.

Annex B

AMENDMENT TO CERTIFICATE OF INCORPORATION ARTICLE SEVENTH

SEVENTH: (1) The business and affairs of the corporation shall be managed by or under the direction of a Board of Directors consisting of not less than eight and not more than fifteen directors, the exact number of directors to be determined from time to time by a resolution adopted by an affirmative vote of a majority of the total number of directors that the Corporation would have if there were no vacancies on the Board of Directors. Beginning at the annual meeting of stockholders in 2016, the entire Board of Directors will be subject to election at each annual meeting of stockholders, and all directors shall be elected annually for one-year terms expiring at the next succeeding annual meeting of stockholders. The directors shall be divided into three classes divided into three classes designated as Class I, Class II and Class III. Each class shall consist, as nearly as possible of one third of the total number of directors constituting the entire Board of Directors. Class I directors shall be originally elected for a term expiring at the succeeding annual meeting of stockholders. Class II directors shall be originally elected for a term expiring at the second succeeding annual meeting of stockholders, and Class III directors shall be originally elected for a term expiring at the third succeeding annual meeting of stockholders. At each succeeding annual meeting of stockholders following 1999, successors to the class of directors whose term expires at that annual meeting shall be elected for a term expiring at the third succeeding annual meeting. If the number of directors is changed, any increase or decrease shall be apportioned among the classes so as to maintain the number of directors in each class as nearly equal as possible, and any additional director of any class elected to fill a newly created directorship resulting from an increase in such class shall hold office for a term that shall coincide with the remaining term of that class, but in no case shall a decrease in the number of directors remove or shorten the term of any incumbent director. A director shall hold office until his or her successor shall be elected and shall qualify, subject, however, to prior death, resignation, retirement, disqualification or removal from office. Any newly created directorship on the Board of Directors that results from an increase in the number of directors shall, subject to the rights of holders of any shares of Preferred Stock, be filled only by a majority of the directors then in office, provided that a quorum is present. Any other vacancy may, subject to the rights of holders of any shares of Preferred Stock, be filled only by a majority of the directors, although less than a quorum, or by a sole remaining director. Any director appointed to fill a vacancy or a newly created directorship shall hold office until the next annual meeting of stockholders, and until his or her successor shall be elected and shall qualify, subject, however, to prior death, resignation, retirement, disqualification or removal from office. Any director elected to fill a vacancy not resulting from an increase in the number of directors shall have the same remaining term as that of his predecessor. Directors may be removed only for cause, and only by the affirmative vote of at least 75 percent in voting power of all shares of the corporation entitled to vote generally in the election of directors, voting as a single class.

(2) Notwithstanding the foregoing, whenever the holders of any one or more series of Preferred Stock issued by the corporation shall have the right, voting separately as a series or separately as a class with one or more such other series, to elect directors at an annual or special meeting of stockholders, the election, term of office, removal, filling of vacancies and other features of such directorships shall be governed by the terms of this Amended and Restated Certificate of Incorporation (including any certificate of designations relating to any series of Preferred Stock) applicable thereto, ~~and such directors so elected shall not be divided into classes pursuant to this Article Seventh unless expressly provided by such terms.~~
