[9] Other**1. Impact of the plan amendment and curtailment in consolidated subsidiaries on the Company's consolidated financial position and results of operations**

In September 2013, certain consolidated subsidiaries in North America amended their defined benefit pension plans, effective January 1, 2014.

This plan amendment resulted in a reduction of the projected benefit obligation and recognition of the prior service benefit at the date of the plan amendment which is amortized over the average remaining service period from the date of the plan amendment. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of related plan assets at the date of the plan amendment. The effects of the plan amendment and the remeasurement are recorded in other comprehensive income (loss), net of tax during the three months ended September 30, 2013.

Following this plan amendment, certain employees elected to move to the defined contribution pension plan in October 2013, resulting in a curtailment in the defined benefit pension plans. As a result, Honda recognized JPY 21,368 million of the prior service benefit included in accumulated other comprehensive income (loss) as a curtailment gain, of which JPY 15,407 million is included in cost of sales and JPY 5,961 million is included in selling, general and administrative expense in the accompanying consolidated statements of income for the three months ended December 31, 2013. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of plan assets in the defined benefit pension plans at the date of the curtailment. The effect of the remeasurement is recorded in other comprehensive income (loss), net of tax during the three months ended December 31, 2013.

2. Impairment loss on investments in affiliates

For the nine months ended December 31, 2014, Honda recognized impairment loss of JPY 15,901 million on certain investments in affiliates which have quoted market values because of other-than-temporary decline in fair value below their carrying values. The fair values of the investments were based on quoted market price. The impairment loss is included in equity in income of affiliates in the accompanying consolidated statement of income. For the three months ended December 31, 2014, Honda did not recognize any significant impairment losses.

Table of Contents

3. Loss related to defects of airbag inflators

Honda is expanding warranty programs with regard to the product recalls and SIC (Safety Improvement Campaign) related to defects of airbag inflators.

Honda recognizes an accrued warranty liability for specific warranty costs we deem probable and which can be reasonably estimated related to the product recalls and SIC.

In the North America, various lawsuits related to the above mentioned product recalls and SIC have been filed against Honda. Honda recognizes an accrued liability for loss contingencies when it is probable that an obligation has incurred and the amount of loss can be reasonably estimated. Regarding the above, Honda does not recognize an accrued liability for loss contingencies because the conditions have not been met as of the date of this report. Also, it is not possible to reasonably estimate the amount of a possible future loss at this time.

4. Income taxes

On March 31, 2015, the National Diet of Japan approved amendments to existing income tax laws. Upon the change in the laws, the statutory income tax rate in Japan will be changed to approximately 33% for fiscal years beginning on or after April 1, 2015 and to approximately 32% for fiscal years beginning on or after April 1, 2016. Thus, the Company and its Japanese subsidiaries re-measured deferred tax assets and liabilities as of the enactment date based on the new tax rates to be applied in the fiscal years in which temporary differences are expected to be recovered or settled. As a result, net of deferred tax assets decreased JPY 9,612 million, and income tax expense increased JPY 9,612 million, as of the enactment date of the laws.

[5] Significant Subsequent Events

Honda provides warranty programs with regard to the product recalls and SIC(Safety Improvement Campaign) related to airbag inflators.

Due to factors arising since May 2015 such as an expansion of the scope of these market actions based on an agreement between our supplier and the U.S. National Highway Traffic Safety Administration and reports to Ministry of Land, Infrastructure and Transport about scope of vehicles involved in Japan, a change has arisen in the estimate relating to accrued product warranties.

Because these product warranties arose subsequent to the date of the accounting audit firm's audit report (May 8, 2015) for the audit required under the Company Law, JPY 17.0 billion of accrued product warranties is expected to be accrued in the next fiscal year.

There is a possibility that Honda will need to recognize additional provisions when new evidence related to product recalls arise, however, because of uncertainties it is not possible for Honda to reasonably estimate the amount and timing of potential future losses as of the date of this report.
