5. Segment information:

DOCOMO's chief operating decision maker (the CODM) is its Board of Directors. The CODM evaluates the performance and makes resource allocations of its segments based on the information provided by DOCOMO's internal management reports.

DOCOMO realigned its three former operating segments, which had consisted of its mobile communications business, smart life business and other businesses, into three new operating segments, which consist of its telecommunications business, smart life business and other businesses from the fourth quarter of the fiscal year ended March 31, 2015, as a result of realignment of respective businesses to effectively manage DOCOMO's telecommunications related services triggered by the launch of optical-fiber broadband services. Accordingly, telecommunications services which had been included in other businesses under DOCOMO's three former operating segments are reclassified to the telecommunications business.

Furthermore, certain Machine-to-Machine (M2M) services for consumers that had been included in other businesses were reclassified to the smart life business from the second quarter of the fiscal year ending March 31, 2016 to reflect the change in its internal organizational structure effective as of July 1, 2015.

The telecommunications business includes mobile phone services (LTE(Xi) services and FOMA services), optical-fiber broadband service, satellite mobile communications services, international services and the equipment sales related to these services. The smart life business includes video and music distribution, electronic books and other services offered through DOCOMO's dmarket portal, as well as finance/payment services, shopping services and various other services to support our customers' daily lives. The other businesses primarily includes Mobile Device Protection Service, as well as development, sales and maintenance of IT systems.

In connection with this realignment, segment information for the nine months ended December 31, 2014 and the three months ended December 31, 2014 has been restated to conform, respectively, to the presentation for the nine months ended December 31, 2015 and the three months ended December 31, 2015.

Accounting policies used to determine segment operating revenues and operating income (loss) are consistent with those used to prepare the consolidated financial statements in accordance with U.S. GAAP.

6. Income taxes:

Release of valuation allowance of deferred tax assets related to DOCOMO's subsidiaries operating multimedia broadcasting business for mobile devices

During the three months ended December 31, 2015, DOCOMO decided to terminate the multimedia broadcasting business for mobile devices of DOCOMO's smart life business segment on June 30, 2016.

In connection with the termination of the multimedia broadcasting business, DOCOMO concluded that it was more likely than not that the related deferred tax assets will be realized considering the availabilities of the prudent and feasible tax planning strategies in the tax jurisdictions of certain subsidiaries which operate the multimedia broadcasting business for mobile devices. DOCOMO, therefore, released all of the valuation allowance for the related deferred tax assets of those subsidiaries.

As a result, the release of valuation allowance for the deferred tax assets in the amount of ¥35,463 million was recorded as an income tax benefit in the Income taxes-Deferred in the consolidated statements of income for both the nine months and the three months ended December 31, 2015.

7. Contingencies:

(a) Litigation

DOCOMO is involved in litigation and claims arising in the ordinary course of business. DOCOMO believes that none of the litigation or claims outstanding, pending or threatened against DOCOMO would have a materially adverse effect on DOCOMO's results of operations, financial position or cash flows.

(b) Guarantees

DOCOMO enters into agreements in the normal course of business that provide guarantees for counterparties. These counterparties include subscribers, related parties, foreign wireless telecommunications service providers and other business partners.

DOCOMO provides subscribers with guarantees for product defects of cellular phone handsets sold by DOCOMO, but DOCOMO is provided with similar guarantees by the handset vendors and no liabilities were recognized for these guarantees.

Though the guarantees or indemnifications provided in transactions other than those with the subscribers are different in each contract, the likelihood of almost all of the performance of these guarantees or indemnifications are remote and amount of payments DOCOMO could be claimed for is not specified in almost all of the contracts. Historically, DOCOMO has not made any significant guarantee or indemnification payments under such agreements. DOCOMO estimates the fair value of the obligations related to these agreements is not significant. Accordingly, no liabilities were recognized for these obligations.

Table of Contents**NTT DOCOMO, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)****8. Fair value measurements:**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value according to observability. The inputs are described as follows:

Level 1 quoted prices in active markets for identical assets or liabilities

Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability

Level 3 unobservable inputs for the asset or liability

DOCOMO also distinguishes assets and liabilities measured at fair value every period on a recurring basis from those measured on a nonrecurring basis in certain circumstances.

(a) Assets and liabilities measured at fair value on a recurring basis

DOCOMO's assets and liabilities measured at fair value on a recurring basis include available-for-sale securities and derivatives.

DOCOMO's assets and liabilities that were measured at fair value on a recurring basis at March 31, 2015 and December 31, 2015 were as follows:

Available-for-sale securities

Available-for-sale securities include marketable equity securities and debt securities, which are valued using quoted prices in active markets for identical assets. Therefore, these securities are classified as Level 1.

Derivatives

Derivative instruments are foreign currency option contracts and foreign exchange forward contracts, which are valued based on observable market data. Therefore, these derivatives are classified as Level 2.

Edgar Filing: NTT DOCOMO INC - Form 6-K

Receivables held for sale are measured at the lower of cost or fair value.

DOCOMO measures the fair value of the receivables held for sale by discounting, at LIBOR-based discount rates, estimated future cash flows while taking into account factors such as default probabilities and loss severity of similar trade receivables.

Table of Contents**NTT DOCOMO, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)****9. Derivative instruments:**

Derivative instruments which are designated as hedging instruments are excluded from the data for derivative instruments presented below.
