Edgar Filing: PENTAIR plc - Form SD

Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2017.

Section 1 Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Conflict Minerals Disclosure

This Form SD of Pentair plc (the **Company**) is filed pursuant to Rule 13p-1 (the **Rule**) promulgated under the Securities Exchange Act of 1934, as amended, for the reporting period from January 1, 2017 to December 31, 2017.

A copy of the **Company**'s Conflict Minerals Report is provided as Exhibit 1.01 to this Form SD, and is publicly available at <https://www.pentair.com/en/partner-supplier-info.html>.

The Rule imposes reporting obligations on Securities and Exchange Commission registrants whose manufactured products contain certain minerals that are necessary to the functionality or production of their products. If a registrant determines that any columbite-tantalite (coltan), cassiterite, gold, wolframite or their derivatives, which are limited to tantalum, tin and tungsten (the **Subject Minerals**), are necessary to the functionality or production of a product manufactured by the registrant or contracted by the registrant to be manufactured, the registrant must conduct in good faith a Reasonable Country of Origin Inquiry (**RCOI**) regarding those Subject Minerals that is reasonably designed to determine whether any of the Subject Minerals originated in the Democratic Republic of the Congo or an adjoining country (the **Covered Countries**) or are from recycled or scrap sources.

The **Company** performed a RCOI, in which it surveyed over 4,800 direct suppliers, spanning 46 enterprise resource planning systems, regarding whether its necessary Subject Minerals have been sourced from any of the Covered Countries. Most of the responses the **Company** received indicated that either (1) to the best of such supplier's knowledge, the Subject Minerals in the components and materials that it supplied to the **Company** during 2017 did not originate from a Covered Country or (2) such supplier did not use Subject Minerals in the materials and components that it supplied to the **Company** during 2017. Further information regarding the **Company**'s RCOI is included in Section 2.2 of the **Company**'s Conflict Minerals Report, which is attached to this specialized disclosure report on Form SD as Exhibit 1.01. The disclosure set forth in Section 2.2 of the Conflict Minerals Report is incorporated by reference into this Item 1.01.

After reviewing the results of the RCOI, the **Company** could not conclusively determine that it had no reason to believe that, during 2017, Subject Minerals necessary for the functionality or production of its products may have originated from a Covered Country and may not be from recycled or scrap sources. The **Company** conducted its RCOI in good faith, and it believes that such inquiry was reasonable to allow it to make the determination. Accordingly, the **Company** proceeded to exercise due diligence on the source and chain of custody of the Subject Minerals in accordance with the framework contained in the Organisation for Economic Co-operation and Development Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, Third Edition, including the related supplements on gold, tin, tantalum and tungsten. The Conflict Minerals Report filed as Exhibit 1.01 to this report includes a discussion of the due diligence procedures performed, the ultimate determination of origin and conflict status reached and other disclosures required by the Rule.

Item 1.02 Exhibit

As specified in Section 2, Item 2.01 of this Form SD, the **Company** is hereby filing its Conflict Minerals Report as Exhibit 1.01 to this report.

Section 2 Exhibits

Item 2.01 Exhibits

The following exhibit is filed as part of this report.

EXHIBIT INDEX

Exhibit No.	Description
1.01	Conflict Minerals Report of Pentair plc

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the duly authorized undersigned.
