COROWARE, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements of CoroWare, Inc. (“CoroWare” or “the Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (“SEC”), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company’s annual report filed with the SEC on Form 10-K for the year ended December 31, 2012. The consolidated financial statements include the accounts of the Company and its wholly-owned operating subsidiary, CoroWare Technologies, Inc. Also included in the consolidated statements are the Company’s inactive wholly-owned subsidiaries, Innova Robotics, Inc., Robotic Workspace Technologies, Inc., and Robotics Software Service, Inc. (herein referred to as the “Subsidiaries”). The Company also consolidates its 51% interest in Aricon, LLC. All significant inter-company balances and transactions have been eliminated in the consolidated financial statements. In the opinion of management, all adjustments consisting of normal recurring adjustments necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year ended December 31, 2012 as reported in Form 10-K have been omitted.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Subsequent Events

The Company evaluated events occurring between the end of the current period and the date these financial statements were issued for potential subsequent event disclosures.

Recent Accounting Pronouncements

Management does not expect the impact of any other recently issued accounting pronouncements to have a material impact on its financial condition or results of operations.

Reclassifications

None.

NOTE 3 – FINANCIAL CONDITION AND GOING CONCERN

The Company has net loss from operations for the six months ended June 30, 2013 of \$381,811. Because of the current working capital deficit, and the projection of losses for the remainder of 2013, the Company will require additional working capital to develop its business operations.

The Company intends to raise additional working capital through the use of public offerings and/or related party financings.

There are no assurances that the Company will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placements, public

offerings, bank financing and/or related party financing necessary to support the Company's working capital requirements. To the extent that funds generated from operations, any private placements, public offerings, bank financing and/or related party financings are insufficient, the Company will have to raise additional working capital. No assurance can be given that additional financing will be available or, if available, will be on terms acceptable to the Company.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

## NOTE 4 – ACCOUNTS RECEIVABLE FACTORING

On March 21, 2010, the Company established a \$200,000 factoring line with an asset-based lender, CapeFirst Funding, LLC (“Capefirst”) that is secured by accounts receivable that the Lender may accept and purchase from the Company. The agreement calls for Capefirst to advance up to 80% of the net face amount of each assigned account or up to 50% of eligible assigned purchase orders. The agreement calls for a maximum facility amount of \$200,000 with a purchase fee of 2% of the net face amount of each assigned account and a collection fee of 0.1% compounded daily. In the event of a dispute or in the event of fraud, misrepresentation, willful misconduct or negligence on the part of the Company, Capefirst may require the Company to immediately repurchase the assigned accounts at a purchase price that includes the amount of the assigned account plus the discount fee, interest and collection fee and may include a processing fee of 10%.

However, the terms of the agreements allow conversion of the debt during periods of default. In computing the derivative liability associated with the conversion, one of the inputs is maturity of the instruments which, in this case, is technically in the past. Accordingly, management has estimated a debt maturity date of ten months from the period-end date for purposes of the derivative liability calculations.

## RESULTS OF OPERATIONS

### THREE MONTHS ENDED JUNE 30, 2013 COMPARED TO THREE MONTHS ENDED JUNE 30, 2012:

During the three-month period ended June 30, 2013 (the "2013 Period") revenues were \$239,596 compared to revenues of \$321,745 during the three-month period ended June 30, 2012 (the "2012 Period"). Our revenues were significantly lower compared to the previous year as customers delayed spending on software development services for IT consulting and software development projects as well as capital expenditures until later in the calendar year.

Cost of revenues was \$178,192 for the 2013 Period compared to \$199,530 for the 2012 Period. Cost of revenues represents primarily labor and labor-related costs in addition to overhead costs. Gross profit on these 2013 revenues amounted to \$61,404 (26.0% gross profit percentage) compared to \$122,215 (38.0% gross profit percentage) for the 2012 Period.

Loss from operations was \$152,161 during the 2013 Period compared to \$173,848 in the 2012 Period. The decrease was primarily due to a decrease of General and Administration expenses which were reduced by 29% as the Company continued to reduce its executive compensation and public company expenses.

Total other income was \$56,515,030 during the 2013 Period compared to other expense of \$320,133 in the 2012 Period. Other income is comprised primarily of derivative revaluation gain. Derivative valuation gain in the 2013 Period was \$57,011,047 compared to derivative valuation loss of \$150,136 in the 2012 Period. Keeping the number of shares constant, the liability associated with the embedded conversion features increases as our share price and volatility increases and, likewise, decreases when our share price and share price volatility decreases. Derivative income (expense) displays the inverse relationship. Interest expense for the three month 2013 Period is \$354,049 compared to \$172,097 for the three month 2012 Period.

#### LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2013, we had current assets of \$ 255,183, current liabilities of \$ 29,801,370, negative working capital of (\$29,546,187) and an accumulated deficit of \$ 46,638,774. We will need to obtain additional capital in order to expand operations and become profitable. In order to obtain capital, we may need to sell additional shares of our common stock or borrow funds from private lenders. There can be no assurance that we will be successful in obtaining additional funding. We will still need additional capital in order to continue operations until we are able to achieve positive operating cash flow. Additional capital is being sought, but we cannot guarantee that we will be able to obtain such investments. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. If we do not obtain additional capital, we may cease operations.

However, even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Furthermore, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. If additional financing is not available or is not available on acceptable terms, we will have to curtail our operations.

## OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, as defined in Rule 12b-2 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), we are not required to provide the information required by this item.

#### ITEM 4. CONTROLS AND PROCEDURES

##### Evaluation of Disclosure Controls and Procedures

With the participation of Lloyd T. Spencer, who serves as the Chief Executive Officer (the principal executive officer) and Interim Chief Financial Officer (the principal financial officer); the Company's management has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the quarterly period covered by this Quarterly Report on Form 10-Q. As of the end of the period covered by this Report, we conducted an evaluation, under the supervision and with the participation of our chief executive officer and interim chief financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, our chief executive officer and interim chief financial officer concluded that our disclosure controls and procedures are not effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. The ineffectiveness of our disclosure controls and procedures is the result of certain deficiencies in internal controls constituting material weaknesses as discussed below.

The Company has historically had limited operating revenue and, as such, all accounting and financial reporting operations have been and are currently performed by a limited number of individuals. The parties that perform the accounting and financial reporting operations are the only parties with any significant knowledge of generally accepted accounting principles. Thus, we lack segregation of duties in the period-end financial reporting process. This lack of additional accounting/auditing staff with significant knowledge of generally accepted accounting principles in order to properly segregate duties could result in ineffective oversight and monitoring and the possibility of a misstatement within the consolidated financial statements. However, the material weaknesses identified did not result in the restatement of any previously reported financial statements or any other related financial disclosure, nor does management believe that it had any effect on the accuracy of the Company's consolidated financial statements for the current reporting period.

The Company is currently reviewing its policies and is evaluating its disclosure controls and procedures so that it will be able to determine the changes it can and should make to make such controls more effective.

##### Changes in Internal Controls over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the Company's last fiscal quarter that have materially affected, or are likely to materially affect, the Company's internal control over financial reporting.
