Whereas:

A) In 2006 the Portuguese corporate law has been subject to broad amendments, with relevant implications with respect to the models and principles of corporate governance of the joint stock companies (sociedades anónimas), and, in particular, of issuers of securities admitted to trading on a regulated market (Issuers);

B) Further to the revision of the Portuguese Companies Code (PCC), introduced by Decree-Law no. 76-A/2006, of 29 March, Issuers became subject to a set of rules, whose progressive entering into force imposes the adoption, until 30 June 2007, of substantial statutory amendments as regards their corporate governance and supervision;

C) In this context, the Board of Directors of Portugal Telecom, SGPS, SA (hereinafter PT SGPS or Company) has carried out a deep reflection aiming, on one hand, to adopt corporate governance

model, and, on the other hand, to introduce the amendments to the Articles of Association required for the compliance by the Company of the new legal framework set forth in PCC;

D) In addition to the fulfilment of the provisions in force in the Portuguese legal system, the Board of Directors took also in consideration the rules, with a binding nature, applicable to the Company as a company with securities admitted to trading in the New York Stock Exchange (NYSE) the so-called foreign private issuers;

E) In fact, PT SGPS is obliged to adapt its corporate governance with the U.S. law provisions applicable to the foreign private issuers, including those rules, with binding nature, set forth in the Sarbanes-Oxley Act (S-O Act), Rule 10A-3 on Listing Standards Relating to Audit Committees (Rule 10A-3) of the Securities and Exchange Commission (SEC) and on the Final Rules approved by NYSE regarding corporate governance (Section 303A Corporate Governance Standards);

F) The definition of the Company s corporate governance model shall also bear in mind that, on 18 December 2003, PT SGPS has created an Audit Committee, which, due to the scope of its delegation of competences, corresponds to an internal committee of the Board of Directors established in full compliance with the imperative rules provided for in S-O Act, Rule 10A-3 Rule and Section 303A Corporate Governance Standards;

G) The Audit Committee is composed, since its incorporation, by three Independent Directors, in the light of the criteria imposed by S-O Act, Rule 10A-3 Rule and Section 303A Corporate Governance Standards, as well as of the criteria set forth in Regulation no. 7/2001 of the Portuguese Securities Exchange Commission on the Listed Companies Corporate Governance, thus assuring its independence and impartiality towards the executive structures of the Board of Directors;

H) Additionally, since 2003 and until the present date, the Audit Committee of PT SGPS has been affirming itself as a structure of internal supervision which has completed its implementation and consolidation process, and which performs, in an effective and integrated manner with the other organizational structures of the Company, the attributions and competences conferred upon it on the following supervisory aspects: (i) quality and integrity of the financial information contained on the financial statements of the Company; (ii) qualification and independence of the Independent Auditors of the Company; (iii) quality, integrity and effectiveness of the internal control system of the Company; and (iv) fulfilment by the Company of the legal and regulatory provisions, recommendations and orientations issued by the competent entities;

I) Moreover, the consolidation of this structure within the Board of Directors of PT SGPS has positively contributed to the envisaged attractiveness of the Company in the national and U.S. markets, since the Audit Committee, as from 2003, has assumed itself not only as a project publicly recognized as pioneer in Portugal, as it was also positively received by the U.S. market as an internal structure of the administration body allowing an effective supervision of the corporate activity, as well as a rigorous and transparent financial reporting process, supervision of the external audit, internal control and risks management systems;

J) In fact, the adoption of the Anglo-Saxon model by PT SGPS appears as a solution of continuity before the Portuguese and U.S. markets, and it will allow an easier comparability of the Company's model with the model imposed to the companies located in the United States of America, as well as with the governance structures with which investors and international analysts are familiarized with;

K) Considering the aforementioned, the Board of Directors of PT SGPS proposes the adoption of the so-called "anglo-saxon model", presently set forth in Article 278, no. 1, paragraph b) of the PCC, having as corporate bodies the Board of Directors, including an Audit Committee, and a Statutory Auditor;

L) Finally, with this proposal, the Board of Directors intends also to include in the Company's Articles of Association the amendments deemed necessary or convenient for the compliance with the remaining amendments to the PCC, in respect to matters which go beyond the corporate governance model, from which one may emphasize, for example, the rules governing vote by correspondence, use of telematic means, absence and surety of directors, and share capital reduction (this later resulting from the amendments to the PCC approved by Decree-Law no. 8/2007, of 17 January).
