With sales growth above the average of the Company, the highlights of the month were supermarkets CompreBem and Pão de Açúcar which have started 2008 keeping the positive trend presented throughout 2007. In Rio de Janeiro, Sendas Distribuidora presented, for the second consecutive month, significant sales growth, a result of the products re-assortment and clusterization of the operation model.

In the period, it is also worth emphasizing the sales growth recorded by the Extra Perto format, a result of the conversion plan implemented, which aims the consolidation of the Company's multiformat structure.

In the same store concept, the growth was of 5.4% in gross sales and 5.8% in net sales. Food products sales presented a growth of 3.7% in the period, but the main highlight was the performance presented by the non-food products category, above the 7.1% growth recorded in 2007, closing the month with a 10.3% increase in the same store concept.

Sales have been fueled by the recovery of the electronics sub-category (Mundo Entretenimento), reaching a double-digit growth in sales even considering the strong comparison basis (14.2% in 2007), and by the positive performance of the general merchandise sub-category (Mundo Casa) which, for the third consecutive month, presented an equally significant performance.

Gross Sales Performance (nominal terms)

Note: Same-store sales include stores with at least 12 months of operation
As from November 2007, the 'total store' concept includes sales of Assai's stores.
