In 2Q18, the net operating revenue, which considers construction revenue, totaled R\$3,672.2 million, a growth of 5.1% over the same period of the previous year.

Costs and expenses, which include construction costs, totaled R\$2,617.5 million, a 4.8% decrease when compared to the same period of 2017.

Adjusted EBIT, in the amount of R\$1,055.6 million, increased 41.2% compared to the R\$747.4 million presented in 2Q17.

Adjusted EBITDA, in the amount of R\$1,382.6 million, increased 29.8% when compared to the R\$1,065.4 million presented in 2Q17 (R\$5,632.0 million in the last 12 months).

Adjusted EBITDA margin in 2Q18 was 37.7%, against 30.5% in 2Q17 (37.7% in the last 12 months).

Excluding the effects of revenue and construction costs, the adjusted EBITDA margin was 45.5% in 2Q18 (38.7% in 2Q17 and 46.5% in the last 12 months).

In 2Q18 the Company recorded a net income of R\$181.9 million, compared to a net income of R\$331.8 million in 2Q17.

Comments on the Company's Performance

2. Gross operating revenue

The gross operating revenue related to sanitation services, in the amount of R\$3,249.8 million, which does not consider the construction revenue, increased by R\$348.2 million or 12.0%, when compared to R\$2,901.6 million in 2Q17.

The main factors that led to the increase were:

- Tariff repositioning index of 7.9% since November 2017;
- Tariff repositioning index of 3.5% since June 2018; and
- 3.1% increase in total billed volume: 2.9% in water and 3.3% in sewage.

The increase caused by the above-mentioned factors was partially offset by the higher recognition with allowance for doubtful accounts referring to wholesale sales in 2Q18, in the amount of R\$45.8 million, due to the lower payment received in the period, mainly from the municipality of Guarulhos.

3. Construction revenue

Construction revenue decreased by R\$112.4 million or 14.4%, when compared to the previous year. The variation is mainly due to the lower investment in the municipalities served by the Company.

5.1. Salaries and payroll charges and Pension plan obligations

In 2Q18, there was a decrease of R\$35.8 million or 5.0%, due to the following factors:

- Reversal of R\$ 73.3 million in the provision for the Conduct Adjustment Agreement (*Termo de Ajuste de Conduta*, or "TAC"), signed with the Public Prosecutor's Office of the State of São Paulo in 2009. This reversal is due to the implementation of the Knowledge Retention Program (*Programa de Retenção de Conhecimento*, the "PRC") launched by the Company in 2Q18, aiming to mitigate the impact of the exit of employees who possess strategic knowledge acquired throughout their career, through the transfer of intellectual capital; and
- Lower number of retired employees in 2Q18, generating a reduction of R\$ 50.7 million in the provision for TAC when compared to 2Q17.

The above-mentioned decrease was partially offset by the following factors:

- Increase of R\$90.9 million, due to the provision for employees who joined the PRC; and
- The increase of R\$3.5 million, mainly due to the 1.7% increase related to the Career and Salary Plan in February 2018 and the salary increase of 1.29% in May 2018, as well as a reduction of 3.4% in the number of employees.

5.2. General materials

Increase of R\$12.3 million or 29.6%, mainly due to the greater use of materials in the maintenance in networks and connections of water and sewage, in the amount of R\$8.1 million.

5.3. Services

Decrease of R\$30.3 million or 8.7%, mainly due to the following factors:

- Increased hiring of technical services to reduce water losses in 2Q17, totaling R\$7.9 million;

Page 17 of 86

Comments on the Company's Performance

- Reduction of R\$5.1 million in telephony expenses; and
- Reduction of R\$5.1 million in advertisement expenses.

5.4. Electricity

Electricity expenses totaled R\$228.8 million in 2Q18, an increase of R\$40.9 million or 21.8% when compared to the R\$187.9 million in 2Q17. This variation was mainly due to:

- Average increase of 9.7% in free market tariffs (ACL –*Ambiente de Contratação Livre*), with an increase of 5.9% in consumption;
- Average reduction of 7.2% in the grid market tariffs (TUSD –*Tarifas de Uso do Sistema de Distribuição*), with a 15.9% increase in consumption; and
- Average increase of 10.1% in regulated market tariffs (ACR –*Ambiente de Contratação Regulada*), with an increase of 3.5% in consumption.

In 2Q18, ACL represented 35.0% of the total amount of electric power consumed by the Company, TUSD 34.6% and ACR represented 30.4% of this amount.

5.5. General expenses

A decrease of R\$17.5 million or 7.3%, totaling R\$222.1 million in 2Q18, compared to R\$239.6 million in 2Q17, mainly due to the lower provisioning for lawsuits in 2Q18, in the amount of R\$30.5 million.

The above-mentioned decrease was partially offset by the following factors:

- Higher expenses related to charging for the use of water, in the amount of R\$3.3 million; and
- Higher provision for transfer to the Municipal Fund for Environmental Sanitation and Infrastructure, in the amount of R\$1.8 million.

5.6. Depreciation and amortization

The expenses with depreciation and amortization increased by R\$9.0 million or 2.8%, mainly due to the start-up of intangible assets, in the amount of R\$1.0 billion.

5.7. Allowance for doubtful accounts

Increase of R\$22.3 million, mainly due to the lower recovery of unpaid amounts in 2Q18.

6.1. Other operating revenues

An increase of R\$22.4 million, mainly due to the following factors:

- Larger recovery of values, in 2Q18, previously deposited by court order, in the amount of R\$10.9 million; and
- Revenue from the expropriation of property in 2Q18, in the amount of R\$8.1 million.

6.2. Other operating expenses

Increase of R\$18.6 million, mainly due to the write-off of real estate in 2Q18, in the amount of R\$15.6 million.

7.1.1. Financial expenses

Increase of R\$24.6 million, mainly due to the following factors:

- Increase of R\$18.4 million in interest and charges on domestic loans and financing, mainly due to the lower capitalized amount to the investment in 2Q18, when compared to 2Q17;
- Increase of R\$17.8 million in interest and charges on foreign loans and financing, mainly due to the higher appreciation of the dollar and the yen against the real in 2Q18 (16.0% and 11.4%, respectively), compared to the appreciation recorded in 2Q17 (4.4% and 3.5%, respectively); and
- Decrease of R\$11.6 million in other financial expenses, mainly due to the lower provisioning of interest in lawsuits in 2Q18.

7.1.2. Financial revenue

Increase of R\$29.8 million, due to the recognition of interest on the agreement with the Government of the State of São Paulo (GESP Agreement of 2015) in 2Q18, in the amount of R\$46.6 million.

The above-mentioned increase was partially offset by the lower recognition of interest on financial investments in 2Q18, in the amount of R\$9.4 million, due to the lower CDI variation.

Notes to the Interim Financial Information

1 Operations

Companhia de Saneamento Básico do Estado de São Paulo ("SABESP" or the "Company") is a mixed-capital company headquartered in São Paulo, at Rua Costa Carvalho, 300, CEP 05429-900, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services in the State of São Paulo, as well as it supplies treated water and sewage services on a wholesale basis.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. SABESP aims to be a world reference in the provision of sanitation services, in a sustainable, competitive and innovative manner, with a focus on customers.

As of June 30, 2018, the Company operated water and sewage services in 368 municipalities of the State of São Paulo. Most of these municipalities operations are based on 30-year concession, program and services contracts. The Company has two partial contracts with the municipality of Mogi das Cruzes, however, since most of the municipality is serviced by wholesale, it was not included in the 368 municipalities. As of June 30, 2018, the Company had 370 contracts.

SABESP is not temporarily operating in the municipalities of Macatuba and Cajobi due to judicial orders. The lawsuits are in progress and the carrying amount of these municipalities' intangible assets was R\$ 4,345 as of June 30, 2018 (R\$ 4,345 as of December 31, 2017).

As of June 30, 2018, 46 concession agreements (51 as of December 31, 2017) had expired and are being negotiated. From July 1, 2018 to 2030, 31 concession agreements will expire. Management believes that concession agreements expired and not yet renewed will result in new contracts, disregarding the risk of discontinuity in the provision of municipal water supply and sewage services. By June 30, 2018, 293 program and services contracts were signed (287 contracts as of December 31, 2017).

As of June 30, 2018, the carrying amount of the underlying assets used in the 46 concessions of the municipalities under negotiation totaled R\$ 6,205,950, accounting for 18.12% of the total, and the related gross revenue for the six-month period ended June 30, 2018 totaled R\$ 811,669, accounting for 10.35% of the total.

The Company's operations are concentrated in the municipality of São Paulo, which represents 54.24% of the gross revenues on June 30, 2018 (53.58% on June 30, 2017) and 48.50% of intangible assets (46.92% on December 31, 2017).

As of June 23, 2010, the State of São Paulo, the Municipality of São Paulo, the Company and the regulatory agency "Sanitation and Energy Regulatory Agency – ARSESP" signed an agreement to share the responsibility for water supply and sewage services to the Municipality of São Paulo based on a 30-year concession agreement. This agreement is extendable for another 30 years, pursuant to the law. This agreement sets forth SABESP as the exclusive service provider and designates ARSESP as regulator, establishing prices, controlling and monitoring services. On the same date, the State of São Paulo, the Municipality of São Paulo and SABESP signed the "Public service provision agreement of water supply and sewage services", a 30-year concession agreement which is extendable for another 30 years. This agreement involves the following activities:

- i. protection of the sources of water in collaboration with other agencies of the State and the City;
- ii. capture, transport and treatment of water;
- iii. collect, transport, treatment and final dispose of sanitary sewage; and
- iv. adoption of other actions of basic and environmental sanitation.

Notes to the Interim Financial Information

The Company operates under an authorization by public deed in some municipalities in the Santos coast region and in the Ribeira Valley, where the Company started to operate after the merger of the companies that formed it. In September 2015, the Company entered into a water supply and sewage public utility services agreement with the municipality of Santos; the gross revenue calculated in the six-month period ended June 30, 2018 totaled R\$ 187,715 (R\$ 183,508 in the six-month period ended June 30, 2017) and the intangible asset was R\$ 458,968 on June 30, 2018 (R\$ 310,577 on December 31, 2017).

Article 58 of Law 11,445/07 determines that precarious and overdue concessions, as well as those effective for an undetermined period, including those that do not have an instrument formalizing them, will be valid until December 31, 2010. However, Article 2 of Law 12,693 of July 24, 2012, which amended Article 7-A of Law 11,578, of November 26, 2007, allowed the provision of public basic sanitation services to be executed until December 31, 2016. The Company's Management understands that in the municipalities where the concession agreements were not yet renewed, the operation is governed by Laws 8,987/95 and 11,445/07, including those municipalities served without an agreement.

Public deeds are valid and governed by the Brazilian Civil Code.

The Company's shares have been listed in the Novo Mercado segment of B3 under the ticker symbol SBSP3 since April 2002 and on the New York Stock Exchange (NYSE) as American Depositary Receipts ("ADRs") Level III, under the SBS code, since May 2002.

Since 2008, the Company has been setting up partnerships with other companies, which resulted in the following companies: Sesamm, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental, Águas de Castilho, Attend Ambiental and Paulista Geradora de Energia. Although SABESP has no majority interest in the capital stock of these companies, the shareholders' agreements provide for the power of veto and casting vote in certain issues jointly with associates, indicating the shared control in the management of investees.

In March 2018, the Jaguari-Atibainha interconnection was inaugurated; this interconnection allows the transfer of an average annual outflow of 5.13 cubic meters per second (m³/s) and a maximum outflow of 8.5 m³/s from the Paraíba do Sul Basin to the Cantareira System. In April 2018, the São Lourenço Production System was inaugurated and expands water production and capacity by 6.4 m³/s. After the construction is completed, the Company will have nine large production systems available to supply the São Paulo Metropolitan Region. These two important works aim at expanding water security in the São Paulo Metropolitan Region.

Management expects that with improved water security, due to the works carried out, the generation of operating cash and the credit lines available for investment, the Company will have sufficient funds to meet its commitments and not compromise its necessary investments.

Corporate reorganization

On May 12, 2017, the Board of the State Privatization Program approved:

(i) the conducting of studies for SABESP's Capitalization (as defined below);

(ii) the hiring, by SABESP, of the International Finance Corporation, which is associated with the World Bank;

ITR - Quarterly Information Form - 6/30/2018 - CIA SANEAMENTO BASICO

Notes to the Interim Financial Information

(iii) the execution of an agreement between SABESP and the State Government through the Water Resources and Sanitation Department and the Treasury Department, in order to define the scope of the contract and control the relationship between the parties, including a proportional expense reimbursement.

The proposed Capitalization provides for the creation of a corporation to directly control SABESP through the transfer of the shares held by the São Paulo State to the capital stock of the new corporation. The São Paulo State will continue holding a sufficient number of shares to ensure SABESP's control, as provided for in law. The objective of the Capitalization is to overcome a situation that restricts investments designed to preserve the expansion of activities to ensure the universalization of basic sanitation services offered by the Company.

The Capitalization may provide for the admission of institutional investors to contribute financial resources to the capital stock of the new company, strengthening SABESP's corporate governance and business efficiency in order to promote and accelerate the universalization of sanitation services in the State of São Paulo.

On September 15, 2017, Law 16,525 was sanctioned, enacted and published; it provides for the corporate reorganization of Companhia de Saneamento Básico de São Paulo - SABESP and sets forth other provisions.

The interim financial information was approved by the Board of Directors on August 9, 2018.

2 Basis of preparation and presentation of the financial statements

Presentation of the interim financial information

The interim financial information as of June 30, 2018, was prepared based on the provisions of CPC 21 (R1) – Interim Financial Information and the international standard IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), applicable to the preparation of Quarterly Information Form– ITR and they are fairly presented consistent with the rules issued by the Brazilian Securities and Exchange Commission (CVM). Therefore, this interim financial information takes into consideration the official letter CVM/SNC/SEP 003 of April 28, 2011, which allows the entities to present selected notes to the financial statements, in cases of redundant information already disclosed in the Annual Financial Statements. The interim financial information for June 30, 2018, therefore, does not include all the notes and reporting required by the annual financial statements, and accordingly, shall be read jointly with the Annual Financial Statements as of December 31, 2017, prepared pursuant to the International Financial Reporting Standards – IFRS, issued by the International Accounting Standards Board – IASB and pursuant to the accounting practices adopted in Brazil which observe the pronouncements issued by the Brazilian Accounting Pronouncements Committee - CPC. Therefore, the interim financial information as of June 30, 2018 was not fully completed due to redundancies with the information presented in the annual financial statements of December 31, 2017 and, as provided for in Official Letter/CVM/SNC/SEP 003/2011. In this interim financial information, the notes below were either not presented or are not as detailed as those in the annual financial statements:

3 Summary of significant accounting policies

Except for the amendments introduced by CPC 47/IFRS 15 (Revenue from Contracts with Customers) and CPC 48/IFRS 9 (Financial Instruments) pursuant to the accounting policies described below, the other policies used in the preparation of the interim financial information for the quarter ended June 30, 2018 are consistent with those used to prepare the Annual Financial Statements for the year ended December 31, 2017:

3.1 Operating income

(a) Revenue from sanitation services

Revenue from water supply and sanitation services are recognized as the water is consumed and services are provided. Revenues, including revenues unbilled, are recognized at the fair value of the consideration received or receivable for the sale of those services. Revenue is shown net of value-added tax, rebates and discounts. Unbilled revenues represent incurred revenues in which the services were provided, but not yet billed until the end of the each period and are recorded as trade receivables based on monthly estimates of the completed services. Concerning revenues of wholesale municipal governments, which do not pay the full invoice, the Company records allowance for doubtful accounts upon invoicing in revenue reduction account.

The Company recognizes revenue when: i) it identifies the contracts with customers; ii) it identifies the different obligations in the contract; iii) it determines the transaction price; iv) it allocates the transaction price to the performance obligations in the contracts; and (v) it satisfies all performance obligations. Amounts in dispute are recognized as revenue when collected.

Version : 1

Notes to the Interim Financial Information

(b) Construction revenue

Revenue from concession construction contracts is recognized in accordance with ICPC 01 (R1)/IFRIC 12 (Concession Contracts) and CPC 47 (R1)/IFRS 15 (Revenue from Contracts with Customers), as all performance obligations are satisfied over time. During the construction of the contract, an asset is classified as intangible, as the Company estimates that the fair value of its consideration is equivalent to expected construction costs plus margin. The fee represents the additional margin related to the work performed by the Company in relation to such construction contracts and it is added construction costs, resulting in the construction revenue.

3.2 Financial assets and liabilities

Financial Asset - Classification

The Company classifies its financial assets according to the following categories: measured at amortized cost, measured at fair value through other comprehensive income and measured at fair value through profit or loss. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of the financial assets at inception. As of June 30, 2018, the Company did not have financial assets classified as fair value through other comprehensive income and fair value through profit or loss.

- Amortized cost

This comprises financial assets that meet the following conditions: (i) it is held within the business model whose objective is to hold financial assets to collect contractual cash flows; and (ii) the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Are presented as current assets, except for those with maturity of more than 12 months after the reporting date (these are classified as noncurrent assets). The Company's financial assets measured at amortized cost include cash and cash equivalents, restricted cash, balances of trade receivables, accounts receivable from related parties, other receivables, receivables from the Water National Agency – ANA. Financial assets measured at amortized cost are recorded at fair value and subsequently at amortized cost, under the effective interest rate method.

Financial Liabilities - Classification

The Company classifies its financial liabilities measured at amortized cost. Classification depends on the purpose to which the financial liabilities were assumed. This category comprises balances payable to contractors and suppliers, borrowings and financing, services payable, balances payable from public-private partnership (PPP), and program contract commitments.

The effective interest rate method is adopted to calculate the amortized cost of a financial liability and allocate its interest expense under the respective period. The effective interest rate exactly deducts the estimated future cash flows (including fees, transaction costs and other issue costs) throughout the financial liability's estimated life or, when appropriate, during a shorter period, for initial recognition of the net carrying amount.

Notes to the Interim Financial Information

3.3 Trade receivables and allowance for doubtful accounts

Trade receivables are amounts due from customers for services performed in the ordinary course of business. These are classified as current assets, except when maturity exceeds 12 months after the end of the reporting period. In these cases, they are presented as noncurrent assets.

The Company records allowance for doubtful accounts for receivable balances at an amount that Management considers to be sufficient to cover eventual losses. The analysis is carried out based on objective “accounts receivable” data, past receipts, existing guarantees and expected future losses.

4 Risk management

4.1 Financial Risk Management

Financial risk factors

The Company's activities are affected by Brazilian economic scenario, making it exposed to market risk (exchange rate and interest rate), credit risk and liquidity risk. The Company's financial risk management is focused on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

The Company has not utilized derivative instruments in any of the reported periods.

(a) Market risk

Foreign currency risk

SABESP's foreign exchange exposure implies market risks associated with currency fluctuations, since the Company has foreign currency-denominated liabilities, mainly US dollar and yen-denominated short and long-term borrowings.

The management of SABESP's foreign currency exposure considers several current and projected economic factors, besides market conditions.

This risk arises from the possibility that the Company may incur in losses due to exchange rate fluctuations that would impact liability balances of foreign currency-denominated borrowings and financing raised in the market and related financial expenses. The Company does not maintain hedge or swap contracts or any derivative financial instrument to hedge against this risk.

Notes to the Interim Financial Information

A significant amount of the Company's financial debt is indexed to the US dollar and Yen, in the total amount of R\$ 6,433,208 as of June 30, 2018 (R\$ 5,702,375 as of December 31, 2017). Below, the Company's exposure to exchange risk:

	June 30, 2018		December 31, 2017	
	Foreign currency	R\$	Foreign currency	R\$
Borrowings and financing – US\$	1,139,724	4,394,548	1,200,786	3,972,200
Borrowings and financing – Yen	57,194,222	1,992,075	57,575,271	1,692,713
Interest and charges from borrowings and financing – US\$		34,265		26,628
Interest and charges from borrowings and financing – Yen		12,320		10,834
Total exposure		6,433,208		5,702,375
Borrowing cost – US\$		(24,309)		(26,454)
Borrowing cost – Yen		(3,073)		(3,100)
Total foreign currency-denominated borrowings (Note 15)		6,405,826		5,672,821

1) The 12.9% increase in foreign-currency denominated debt from December 31, 2017 to June 30, 2018 was mainly due to exchange rate changes, as a result of the 16.6% increase of the US dollar against the Real, from R\$ 3.3080 on December 31, 2017, to R\$ 3.8558 on June 30, 2018, and the 18.5% increase of the Yen versus the Real, from R\$ 0.02940 on December 31, 2017, to R\$ 0.03483 on June 30, 2018, partially mitigated by the amortization of the debt denominated in these currencies in the period.

As of June 30, 2018, if the Brazilian real had depreciated or appreciated by 10 percentage points, in addition to the impacts mentioned above, against the US dollar and Yen with all other variables held constant, the effects on results before taxes on the six-month period ended June 30, 2018 would have been R\$ 643,321 (R\$ 570,238 for the year ended December 31, 2017), lower or higher, mainly as a result of exchange losses or gains on the translation of foreign currency-denominated loans.

Scenario I below presents the effect in income statements for the next 12 months, considering the projected rates of the US dollar and the Yen. Considering the other variables as remaining constant, the impacts for the next 12 months are shown in scenarios II and III with possible depreciations of 25% and 50%, respectively, in the Brazilian real.

(*) For the probable scenario in US dollar, the exchange rate estimated for June 30, 2019 was used, pursuant to the Focus Report-BACEN of June 30, 2018, while for the Yen, the average exchange rate was considered for the 12-month period after June 30, 2018, according to B3's Reference Rates report of June 30, 2018.

Interest rate risk

This risk arises from the possibility that the Company could incur losses due to fluctuations in interest rates, increasing the financial expenses related to borrowings and financing.

The Company has not entered into any derivative contract to hedge against this risk; however it continually monitors market interest rates, in order to evaluate the possible need to replace its debt.

Notes to the Interim Financial Information

The table below provides the Company's borrowings and financing subject to variable interest rate:

	June 30, 2018	December 31, 2017
CDI ⁽ⁱ⁾	1,500,000	1,144,391

Total	9,299,251	8,713,260

(i) CDI - (*Certificado de Depósito Interbancário*), an interbank deposit certificate

(ii) TR – Interest Benchmark Rate

(iii) IPCA – (*Índice Nacional de Preços ao Consumidor Amplo*), a consumer price index

(iv) TJLP – (*Taxa de Juros a Longo Prazo*), a long-term interest rate index

(v) LIBOR - London Interbank Offered Rate

Another risk to which the Company is exposed, is the mismatch of the monetary restatement indices of its debts with those of its service revenues. Tariff adjustments of services provided by the Company do not necessarily follow the increases in the inflation indexes to adjust loans, financing and interest rates affecting indebtedness.

As of June 30, 2018, if interest rates on borrowings and financing had been 1 percentage point higher or lower with all other variables held constant, the effects on profit before taxes for the six-month period ended June 30, 2018 would have been R\$ 92,992 (R\$ 87,133 as of December 31, 2017), lower or higher, mainly as a result of lower or higher interest expense on floating rate borrowings and financing.

(b) Credit risk

Credit risk arises from cash and cash equivalents, deposits in banks and financial institutions, as well as credit exposures to wholesale basis and retail customers, including outstanding accounts receivable, restricted cash and accounts receivable from related parties. Credit risk exposure to customers is mitigated by sales to a dispersed base.

The maximum exposures to credit risk as of June 30, 2018 are the carrying amounts of instruments classified as cash equivalents, deposits in banks and financial institutions, restricted cash, trade receivables and accounts receivable from related parties at the reporting period. See additional information in Notes 6, 7, 8 and 9.

Regarding the financial assets held with financial institutions, the credit quality that is not past due or subject to impairment can be assessed by reference to external credit ratings (if available) or to historical information about the bank's default rates. The credit quality of the banks, such as deposits and financial investments, the Company considers the lower rating published by three main international rating agencies (Fitch, Moody's and S&P), according to internal policy of market risk management:

Bank Bradesco S/A	AAA(bra)	Aa1.br	brAAA
Itaú Unibanco Holding S/A	AAA(bra)	Aa1.br	brAAA

(c) Liquidity risk

The Company's liquidity is primarily reliant upon cash provided by operating activities, loans from Brazilian Federal and State governmental financial institutions, and financing in the local and international capital markets. The liquidity risk management considers the assessment of its liquidity requirements to ensure it has sufficient cash to meet its operating and capital expenditures needs, as well as the payment of debts.

The funds held by the Company are invested in interest-bearing current accounts, time deposits and securities, selecting instruments with appropriate maturity or liquidity sufficient to provide margin as determined by projections mentioned above.

The table below shows the Company's financial liabilities, into relevant maturities, including the installments of principal and future interest to be paid according to the agreement.

(*) The Company also considered future commitments (construction not yet performed) still not recognized in the financial statements related to São Lourenço PPP, due to the relevance of future cash flows, the impacts on its operations and the fact the Company already has formalized this commitment through an agreement signed by the parties.

Future interest

Future interest was calculated based on the contractual clauses for all agreements. For agreements with floating interest rate, the interest rates used correspond to the base dates above.

Cross default

The Company has borrowings and financing agreements including cross default clauses, i.e., the early maturity of any debt, may imply the early maturity of these agreements. The indicators are continuously monitored in order to avoid

the execution of these clauses.

(d) Sensitivity analysis on interest rate risk

The table below shows the sensitivity analysis of the financial instruments, prepared in accordance with CVM Rule 475/2008 in order to evidence the balances of main financial assets and liabilities, calculated at a rate projected for the twelve-month period after June 30, 2018, or until the final settlement of each contract, whichever is shorter, considering a probable scenario (scenario I), appreciation of 25% (scenario II) and 50% (scenario III).

The purpose of the sensitivity analysis is to measure the impact of changes in the market over the financial instruments of the Company, considering constant all other variables. In the time of settlement the amounts can be different from those presented, due to the estimates used in the measurement.

4.2 Capital management

The Company's objectives when managing capital are ensure its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital based on the leverage ratio. This ratio corresponds to net debt divided by total capital. Net debt corresponds to total borrowings and financing less cash and cash equivalents. Total capital is calculated as total equity as shown in the balance sheet plus net debt.

Notes to the Interim Financial Information

	June 30, 2018	December 31, 2017
Total borrowings and financing (Note 15)	13,186,246	12,100,966
(-) Cash and cash equivalents (Note 6)	(2,832,735)	(2,283,047)

Total equity	18,221,787	17,513,009
Total capital	28,575,298	27,330,928
Leverage ratio	36%	36%

As of June 30, 2018, the leverage ratio remained flat as of December 31, 2017, however, borrowings and financing increased due to the appreciation of the US dollar and the Yen against the Real, mitigated by the increase of equity arising from the profit calculated in the six-month period ended June 30, 2018.

4.3 Fair value estimates

It is assumed that balances from trade receivables (current) and accounts payable to suppliers by carrying amount, less impairment approximate their fair values, considering the short maturity. Long-term trade receivables also approximate their fair values, as they will be adjusted by inflation and/or will bear contractual interest rates over time.

4.4 Financial instruments

With the changes introduced by CPC 48/IFRS 9 (Financial Instruments), as of June 30, 2018, the Company did not have financial assets classified as fair value through other comprehensive income and fair value through profit or loss. The Company's financial instruments included in the amortized cost category comprise cash and cash equivalents, restricted cash, trade receivables, balances with related parties, other receivables, and balances receivable from the Water National Agency – ANA, accounts payable to contractors and suppliers, borrowings and financing, services payable, balances payable deriving from the Public Private Partnership-PPP and program contract commitments, which are non-derivative financial assets and liabilities with fixed or determinable payments, not quoted in an active market.

The estimated fair values of financial instruments are as follows:

Additionally, SABESP has financial instrument assets receivable from related parties, in the amount of R\$ 831,125 as of June 30, 2018 (R\$ 815,160 as of December 31, 2017), which were calculated in accordance with the conditions negotiated between related parties. Part of this balance, totaling R\$ 729,973 (R\$ 709,208 as of December 31, 2017), refers to reimbursement of additional retirement and pension plan – G0 and is indexed by the IPCA plus simple interest of 0.5% p.m. This interest rate approximates that one practiced by federal government bonds (NTN-b) with terms similar to those of related-party transactions.

Public-Private Partnership - PPP	3,351,575	3,351,575	3,071,416	3,071,416

The criteria adopted to obtain the fair values of borrowings and financing, in preparing the interim financial information as of June 30, 2018, are consistent with those adopted in the Annual Financial Statements for the fiscal year ended December 31, 2017.

Considering the nature of other financial instruments, assets and liabilities of the Company, the balances recognized in the balance sheet approximate the fair values, taking into account the maturities close to the end of the reporting period, comparison of contractual interest rates with market rates in similar operations at the end of the reporting period, their nature and maturity terms.

5 Key accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and on other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The key accounting estimates and judgments are: (i) allowance for doubtful accounts, (ii) intangible assets resulting from concession agreements and program contracts, (iii) pension benefits, (iv) deferred income tax and social contribution, and (v) provisions.

6 Cash and cash equivalents

	June 30, 2018	December 31, 2017

Cash equivalents	2,728,184	2,111,096
	2,832,735	2,283,047

Cash and cash equivalents include cash, bank deposits and high-liquidity short-term financial investments, mainly represented by repurchase agreements (remunerated based on the variation of the Interbank Deposit Certificates (CDI) rates), entered into with Banco do Brasil, whose original maturities are lower than three months, which are convertible into a cash amount and subject to an insignificant risk of change in value.

As of June 30, 2018, the average yield of financial investments corresponds to 98.47% of CDI (98.88% as of December 31, 2017).

(iv) Wholesale basis customers - municipal governments - This balance refers to the sale of treated water to municipalities, which are responsible for distributing to, billing and charging final customers. Some of these municipalities are questioning in court the tariffs charged by SABESP, which have full allowance for doubtful accounts. Additionally, the overdue amounts are included in the allowance for doubtful accounts.

(b) The aging of trade receivables is as follows:

	June 30, 2018	December 31, 2017
Current	1,385,185	1,471,668
Past-due:		
Up to 30 days	331,799	287,173

Total past-due	4,360,103	4,067,035
Total	5,745,288	5,538,703

The increase in the overdue balance was mainly due to wholesale receivables, where the municipalities challenge the tariffs charged by SABESP in court, and the increase in default of amounts overdue, related to private customers.

(b) Disputed amounts - GESP

As of June 30, 2018 and December 31, 2017, the disputed amounts between SABESP and GESP, corresponding to the private retirement and pension plan paid (Law 4,819/58), totaled R\$ 1,061,102 and R\$ 1,021,657, respectively. The Company created allowances for doubtful accounts for such amounts.

(c) Use of reservoirs – EMAE

Empresa Metropolitana de Águas e Energia S.A. - EMAE planned to receive for the credit and obtain financial compensation for alleged past and future losses in electricity generation, due to water collection, and compensation for costs already incurred and to be incurred with the operation, maintenance and inspection of the Guarapiranga and Billings reservoirs used by SABESP in its operations.

Several lawsuits were filed by EMAE, an arbitration proceeding was in progress related to the Guarapiranga reservoir and a lawsuit related to the Billings reservoir, both pleading for financial compensation due to SABESP's water collect

for public supply, alleging that this conduct has been causing financial losses due to the permanent and growing loss in the capacity of generating electricity of Henry Borden hydroelectric power plant with financial losses.

As of October 28, 2016, the Company entered into an agreement based on a Private Transaction Agreement and Other Adjustments aimed to fully and completely settle the disputes involving the two companies, and involves the payment by SABESP to EMAE of the following amounts:

- R\$ 6,610 annually, adjusted for inflation, as of the execution date of this instrument, by the IPCA or any other index that may replace it, by the last business day of October of each fiscal year, with (i) the first of such annual payments due up to the last business day of October 2017 and (ii) the last payment due up to the last business day of October 2042; and
- R\$ 46,270, in five annual and successive installments, adjusted for inflation by the IPCA or any other index that may replace it, with the first installment of R\$ 9,254 due on April 30, 2017 and the subsequent ones in 04 (four) installments of same amount, due on every April 30 of the subsequent years, or on the first subsequent business day.

On October 19, 2017, the contractual conditions precedent were complied with and the agreement came into effect.

As of June 30, 2018, the balance of the agreement totaled R\$ 15,754 and R\$ 90,472 (R\$ 15,668 and R\$ 92,894 on December 31, 2017), recorded under other liabilities, in current and noncurrent liabilities, respectively.

Notes to the Interim Financial Information

(d) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Rational Water Use Program (PURA)

The Company has signed agreements with government entities related to the State Government and municipalities where it operates that benefit from a reduction of 25% in the tariff of water supply and sewage services when they are not in default. These agreements provide for the implementation of the rational water use program, which takes into consideration the reduction in water consumption.

(e) Guarantees

The State Government provides guarantees for some borrowings and financing of the Company and does not charge any fee with respect to such guarantees.

(f) Personnel assignment agreement among entities related to the State Government

The Company has personnel assignment agreements with entities related to the State Government, whose expenses are fully passed on and monetarily reimbursed. From April to June 2018 and in the same period in 2017, the expenses related to employees assigned by SABESP to other state government entities amounted to R\$ 2,397 and R\$ 2,612, respectively, and from January to June 2018 and 2017 amounted to R\$ 4,528 and R\$ 5,135, respectively.

(d) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Rational Water

From January to June 2018 and 2017, there were no expenses related to personnel assigned by other entities to the Company.

(g) Services obtained from state government entities

As of June 30, 2018 and December 31, 2017, SABESP had an outstanding amount payable of R\$ 1,402 and R\$ 1,367, respectively, for services rendered by São Paulo State Government entities.

(h) Non-operating assets

As of June 30, 2018 and December 31, 2017, the Company had an amount of R\$ 969 related to a free land lent to DAEE (Department of Water and Electricity).

(i) Sabesprev

The Company sponsors a private defined benefit pension plan, which is operated and administered by Sabesprev. The net actuarial liability recognized as of June 30, 2018 amounted to R\$ 376,171 (R\$ 388,461 as of December 31, 2017), according to Note 19 (b).

(j) Compensation of Management Key Personnel

Expenses related to the compensation to the members of its Board of Directors, Fiscal Council and Board of Executive Officers amounted to R\$ 1,011 from April to June 2018 (R\$ 969 from April to June 2017). From January to June 2018, these expenses amounted to R\$ 1,934 (R\$ 1,895 from January to June 2017). An additional amount of R\$ 159, related to the Officers' bonus program, was recorded from April to June 2018 (R\$ 185 from April to June 2017). From January to June 2018, these bonuses amounted to R\$ 344 (R\$ 309 from January to June 2017).

Notes to the Interim Financial Information

(k) Loan agreement through credit facility

The Company holds interest in certain Special Purpose Entities (SPEs), not holding the majority interest but with cast vote and power of veto in some issues, with no ability to use such power of veto in a way to affect returns over investments. Therefore, these SPEs are considered for accounting purposes as jointly owned subsidiaries.

The Company entered into a loan agreement through credit facility with the SPEs Aquapolo Ambiental S.A. on March 30, 2012, and with Attend Ambiental S.A. on May 9, 2014, to finance the operations of these companies, until the borrowings and financing requested with financial institutions is cleared. These agreements remain with the same characteristics, according to the table below:

SPE	Principal disbursed amount	Interest balance	Total	Interest rate	Maturity
Aquapolo Ambiental	5,629	387	6,016	CDI + 1.2% p.a.	(i)
Aquapolo Ambiental	19,000	12,662	31,662	CDI + 1.2% p.a.	(ii)
Total	24,629	13,049	37,678		

(i) The R\$ 5,629 loan agreement originally expired on April 30, 2016; however, on February 10, 2016, an amendment to the agreement changed the payment schedule for four annual installments, the first of which maturing on December 30, 2018 and the last on December 30, 2021; and

(j) Compensation of Management Key Personnel

(ii) The loan agreement totaling R\$ 19,000 originally expired on April 30, 2015, but was extended to October 30, 2015. On November 25, 2015, a new amendment changed the payment schedule for three annual installments, the first of which maturing on December 30, 2021 and the last on December 30, 2023.

As of March 31, 2018, the Company created allowance for doubtful accounts in the amount of R\$ 9,596 related to the loan agreement with SPE Attend Ambiental S/A, as a renegotiation agreement was not reached. The original value of the agreement was R\$ 5,400, and it was overdue since June 2015.

The amount disbursed referring to the agreements entered into with Aquapolo Ambiental S/A is recognized under “Other Receivables”, of which R\$ 1,378 was classified in Current Assets and R\$ 36,300 in Noncurrent Assets. As of June 30, 2018, the balance of principal and interest rates of these agreements was R\$ 37,678 (R\$ 50,617 as of December 31, 2017). From January to June 2018, the financial income recognized was R\$ 1,519 (R\$ 2,683 from January to June 2017).

(l) “Se Liga na Rede” (Connect to the Network Program)

The State Government enacted the State Law 14,687/12, creating the pro-connection program, destined to financially subsidize the execution of household branches necessary to connect to the sewage collecting networks, in low-income households, which agreed to adhere to the program. The program expenditures, except for indirect costs, construction margin and borrowing costs are financed with 80% of funds deriving from the State Government and the remaining 20% invested by SABESP, which is also liable for the execution of works. Until June 30, 2018, the program total amount was R\$ 96,336 (R\$ 82,697 as of December 31, 2017); as of June 30, 2018 and December 31, 2017, there was no balance receivable from related parties. As of June 30, 2018, R\$ 47,490 (R\$ 35,068 as of December 31, 2017) was recorded under intangible assets. R\$ 48,846 was reimbursed by GESP (R\$ 47,629 as of December 31, 2017) from the beginning of the program until June 30, 2018.

Notes to the Interim Financial Information

10 Water National Agency - ANA

The Company has agreements executed within the scope of the Hydrographic Basin Depollution Program (PRODES), also known as "Treated Sewage Purchase Program".

This program does not finance works or equipment, remunerates by results achieved, i.e., by effectively treated sewage. In this program, the Water National Agency (ANA) makes available funds, which are restricted to a specific current account and applied in investment funds at the Brazilian Federal Savings Banks (CEF), until the fulfillment of treated sewage volume is evidenced, as well as the reduction of polluting cargoes of each agreement.

When resources are made available, liabilities are recorded until funds are released by ANA. After the evidence of targets stipulated in each contract, the revenue deriving from these funds is recognized, but if these targets are not met, funds will return to the National Treasury with the appropriate funds earnings. As of June 30, 2018, the balances of assets and liabilities were R\$ 53,249 (R\$ 70,487 as of December 31, 2017), and the liability is recorded under "other liabilities" of noncurrent liabilities.

11 Investments

The Company holds interest in certain Special Purpose Entities (SPE). Although SABESP has no majority shares of its investees, the shareholders' agreement provides for the power of veto in certain management issues, however, with no ability to use such power of veto in a way to affect returns over investments, indicating participating shared control (joint venture – CPC 19(R2)).

The Company holds interest valued by the equity accounting.

Below is a summary of the investees' financial statements and SABESP's equity interest:

(c) Intangible arising from concession agreements

During the period ended June 30, 2018, there were no relevant changes in the criteria to account for intangible assets and types of contracts.

The Company has obligations recorded in “Program Contract – Commitments” in current liabilities in the amount of R\$ 117,814 and R\$ 128,802 as of June 30, 2018 and December 31, 2017, respectively, and noncurrent liabilities in the amount of R\$ 99,534 and R\$ 110,698 as of June 30, 2018 and December 31, 2017, respectively.

(d) Capitalization of interest and other finance charges

From January to June 2018, the Company capitalized interest and inflation adjustment, including related foreign currency exchange in concession intangible assets, totaling R\$ 290,716, including the São Lourenço Production System and Leases (R\$ 312,016 from January to June 2017), during the construction period.

(e) Construction margin

The Company acts as a primary responsible to construct and install the infrastructure related to the concession, using own efforts or hiring outsourcing services, receiving the risks and benefits.

Notes to the Interim Financial Information

As a consequence, the Company recognizes revenue from construction service corresponding to the cost of construction increased by a gross margin. Generally, the constructions related to the concessions are performed by third parties, in such case, the margin of the Company is lower, normally, to cover eventual administration costs, and the responsibility of the primary risk. As of June 30, 2018 and 2017, the margin was 2.3%.

Construction margin from April to June 2018 and 2017 was R\$ 14,997 and R\$ 15,194, respectively, and from January to June 2018 and 2017 it was R\$ 29,548 and R\$ 30,893, respectively.

(f) Expropriations

As a result of the construction of priority projects related to water and sewage systems, the Company was required to expropriate third-parties' properties, and the owners of these properties will be compensated either amicably or through courts.

The costs of these expropriations are recorded as concession intangible assets after the transaction is concluded. From April to June 2018, the total amount related to expropriations was R\$ 70,636 and from January to June 2018 it was R\$ 80,331 (R\$ 1,882 from April to June 2017 and R\$ 4,783 from January to June 2017).

(g) Public-Private Partnership - PPP

(e) Construction margin

SABESP carries out operations related to the PPPs mentioned below. These operations and their respective obligations and guarantees are supported by agreements executed according to Law 11,079/04.

Alto Tietê Production System

As of June 30, 2018 and December 31, 2017, the amounts recognized as intangible asset related to this PPP were R\$ 365,345 and R\$ 371,862, respectively.

From January to June 2018, a discount rate of 8.20% p.a. was used to calculate the adjustment to present value of the agreement. The obligations assumed by the Company as of June 30, 2018 and December 31, 2017 are shown in the next table.

On a monthly basis, SABESP assigns funds from tariffs to the SPE CAB Sistema Produtor Alto Tietê S/A, in the amount of R\$ 10,012, corresponding to the monthly remuneration. This amount is annually adjusted by the IPC – FIPE and is recorded in a restricted account, pursuant to the contractual operating proceeding. Should SABESP comply with its monthly obligations with the SPE, the funds from the restricted account will be released.

The guarantee is effective since the beginning of the operation and will be valid until the conclusion, termination, intervention, annulment or caducity of the Administrative Concession, or other extinction events provided for in the Concession Agreement or in the law applicable to administrative concessions, including in the event of bankruptcy or extinction of the SPE.

São Lourenço Production System

In 2018, the control of the special purpose entity Sistema Produtor São Lourenço S/A was transferred to CGGC Construtora do Brasil Ltda, previously composed of Construções e Comércio Camargo Corrêa S/A and Construtora Andrade Gutierrez S/A.

As of June 30, 2018 and December 31, 2017, the carrying amount recorded in the Company's intangible assets, related to this PPP, totaled R\$ 3,121,412 and R\$ 2,818,805, respectively. Intangible assets are accounted for based on the physical evolution of the works, which, as of June 30, 2018, was approximately 95.5%, with a counter-entry in the Private Public Partnership (PPP) liabilities account. As of June 30, 2018, a discount rate of 7.80% p.a. was used to calculate the adjustment to present value of the agreement.

The obligations assumed by the Company as of June 30, 2018 and December 31, 2017 are shown in the table below, and the increase in intangible assets and liabilities was due to the progress of works in 2018.

(ii) Private pension plan benefits – Defined contribution

The Company has a profit sharing program in accordance with an agreement with labor union and SABESP. The period covered represents the Company fiscal year, from January to December 2018. The limit of the profit sharing is one month salary for each employee, depending on performance goals reached.

In the second quarter of 2018, the Company accrued R\$ 29,523 (R\$ 23,321 in the second quarter of 2017). From January to June 2018 and 2017, R\$ 54,142 and R\$ 44,398, respectively, were accrued.

20 Services payable

The services account records the balances payable, mainly from services received from third parties, such as supply of electric power, reading of hydrometers and delivery of water and sewage bills, cleaning, surveillance and security services, collection, legal counsel services, audit, marketing and advertising and consulting services, among others. This account also includes the amounts payable related to the transfer of 7.5% of revenue from the São Paulo local government to the Municipal Fund (Note 14 (c) (v) of the Annual Financial Statements of December 31, 2017). The balances as of June 30, 2018 and December 31, 2017 were R\$ 419,088 and R\$ 408,275, respectively.

21 Knowledge Retention Program

In June 2018, SABESP implemented the Knowledge Retention Program (PRC), aiming to provide personnel planning conditions and mitigate the impact of the exit of employees who possess strategic knowledge acquired throughout their career.

Employees may enroll in the Program between July 2, 2018 and October 31, 2018. Employment terminations will be carried out based on a previously set schedule, during the validity of the Program, i.e. from January 2, 2019 to December 30, 2020.

Version : 1

Notes to the Interim Financial Information

For those enrolled in the Program, the compliance with the agreements of the Collective Bargaining Agreement effective on the date of termination is thereby guaranteed. They will also receive a severance incentive proportional to the length of service at SABESP, corresponding to a percentage of the balance of the Guarantee Fund for Length of Service (FGTS), for termination purposes, on the date of termination, as per the table below:

Length of service at SABESP (years)	% of the Guarantee Fund for Length of Service (FGTS)
more than 15	40%
11 - 15	30%
06 - 10	15%
0 - 5	5%

As of June 30, 2018, the Company recorded R\$ 90,886 corresponding to the provision for employees enrolled in the Program, of which R\$ 10,124 and R\$ 80,762 in “tax liabilities” under current and noncurrent liabilities, respectively.

For employees eligible to the Consent Decree (TAC) entered into with the São Paulo State Prosecution Office in 2009 who joined the Program, the Company reversed R\$ 73,289 corresponding to the provision.

As of June 30, 2018, R\$ 212,136 and R\$ 5,754 related to TAC were recorded in “tax liabilities” under current and noncurrent liabilities, respectively.

22 Equity

(a) Authorized capital

The Company is authorized to increase capital by up to R\$ 15,000,000, based on a Board of Directors' resolution, after submission to the Fiscal Council.

In the event of capital increase, issue of convertible debentures and/or warrants by means of private subscription, shareholders will have preemptive right in the proportion of the number of shares held, pursuant to Article 171 of Law 6,404/76.

(b) Subscribed and paid-in capital

As of June 30, 2018 and December 31, 2017, subscribed and paid-in capital is represented by 683,509,869 registered, book-entry common shares with no par value, held as follows:

Reports and Statements / Unqualified Report on Special Review

Review report on the interim financial statements – ITR

To the Board of Directors and Shareholders

Companhia de Saneamento Básico do Estado de São Paulo - SABESP

São Paulo - SP

Introduction

We have reviewed the interim financial information of Companhia de Saneamento Básico do Estado de São Paulo – SABESP (“The Company”), included in the Quarterly Financial Information – ITR referring to the quarter ended June 30, 2018, comprising the Financial position as of June 30, 2018 and the statement of income and comprehensive income for the three and six-month periods the ended, and the changes in equity and cash flows for the six-months period then ended, including the explanatory notes.

Management is responsible for the preparation of the interim financial information in accordance with accounting standard CPC 21(R1) - Interim Financial Reporting and IAS 34 - Interim Financial Reporting, as issued by the International Accounting Standards Board - IASB, as well as for the presentation of this information in accordance with the standards issued by the Brazilian Securities and Exchange Commission - CVM, applicable to the preparation of Quarterly Financial Information - ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

1. CHANGES IN INTEREST HELD BY CONTROLLING SHAREHOLDER, BOARD MEMBERS AND EXECUTIVE

We conducted our review in accordance with the Brazilian and International standards on review engagements NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively. A review of interim financial information consists of making inquiries, primarily of persons responsible for the financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the auditing standards and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information included in the Quarterly Information Form - ITR referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, issued by the IASB applicable to the preparation of Quarterly Financial Information - ITR, and presented in accordance with the standards issued by the Brazilian Securities and Exchange Commission - CVM.

Other matters - Statement of value added

We have also reviewed the statements of value added (DVA) for the six-month period ended June 30, 2018, prepared under the responsibility of the Company's management, whose presentation on the interim financial information is required in accordance with the standards issued by the Brazilian Securities and Exchange Commission – CVM applicable to the preparation of Quarterly Financial Information - ITR, and considered as supplementary information by IFRS, which does not require this disclosure. These statements were subject to the same review procedures described above, and based on our review, nothing has come to our attention that causes us to believe that it is not prepared, in all material respects, in accordance with the interim financial information taken as a whole.
