**Item 1.01 Entry into a Material Definitive Agreement.**

On December 13, 2006, National Cooperative Refinery Association (NCRA), a subsidiary in which we have an approximate 74.5% ownership interest, renewed its existing committed line of revolving credit of \$15 million for an additional year with a new maturity date of December 16, 2007.

In addition, NCRA also sold certain of its ultra-low sulfur fuel assets (cost of approximately \$325 million) to the City of McPherson, Kansas. NCRA simultaneously invested the proceeds in Industrial Revenue Bonds issued by the City of McPherson and leased back, through a capital lease, the ultra-low sulfur fuel assets which it had sold to the City of McPherson. The lease payments made by NCRA fund the principal and interest payments on the bonds to NCRA. The term of the lease is ten years, at which time NCRA would have the option of extending the lease or purchasing the assets for a nominal amount. NCRA has the right at anytime to prepay all or part of the capital lease by offsetting the lease obligation to the City of McPherson against the Industrial Revenue Bonds it owns as a result of the transaction. No cash was exchanged in the transaction.
