Item 8.01 Other Events.

On August 31, 2009, Cytokinetics, Incorporated issued a press release announcing that data from two Phase IIa clinical trials evaluating omecamtiv mecarbil (formerly CK-1827452), one in stable heart failure patients and one in patients with ischemic cardiomyopathy and angina, were presented at the European Society of Cardiology Congress 2009 in Barcelona, Spain. The company believes these data provide support for the further clinical development of this novel drug candidate as a potential treatment for heart failure. Amgen Inc. exercised an option to obtain an exclusive, world-wide (excluding Japan) license to omecamtiv mecarbil, subject to specified development and commercialization participation rights of Cytokinetics.

A copy of the press release is filed as Exhibit 99.1 to this Current Report on Form 8-K, and is incorporated herein by reference.
