EXHIBIT 1

Euroseas Ltd. Announces Agreement to Purchase a Handysize Drybulk Carrier Expanding Fleet to 9 Vessels

**Maroussi, Athens, Greece, February 6, 2007** - Euroseas Ltd. (NASDAQ: ESEA), an owner and operator of drybulk carriers, container ship and multipurpose vessels and provider of seaborne transportation for dry bulk and containerized cargoes, announced today that it has signed a Memorandum of Agreement to purchase M/V *Triada*, a 38,434 dwt Handysize drybulk carrier built in 1984 in Japan for \$13.1 million. The vessel is scheduled to be delivered to Euroseas around February 20, 2007, at the sellers' option. It will be financed partly by bank debt.

Aristides Pittas, Chairman and CEO of Euroseas commented: "This represents our first vessel acquisition since the completion of our public follow-on offering and simultaneous exercise of the underwriters' over-allotment option, which raised net proceeds of approximately \$43.1 million. The M/V *Triada*, a well-maintained, high quality vessel, will have an immediate contribution to our cash flow given today's favorable dry bulk market environment. We continue to believe second hand vessels provide a significant value proposition and enable us to maximize our returns. This vessel acquisition is in line with our fleet expansion strategy and we remain committed to further growing our company by investing in well-maintained middle-aged drybulk carriers or container ships.
