MOBILESMITH, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
For the Quarterly Period Ended September 30, 2015
(unaudited)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

MobileSmith, Inc. (referred to herein as the “Company,” “us,” “we,” or “our”) was incorporated as Smart Online, Inc. in the State of Delaware in 1993. The Company changed its name to MobileSmith, Inc. effective July 1, 2013. The Company develops and markets software products and services tailored to users of mobile devices. The Company’s flagship product is the MobileSmith® Platform (the “Platform”). The Platform is an innovative app development platform that enables organizations to rapidly create, deploy, and manage custom, native smartphone and tablet apps deliverable across iOS and Android mobile platforms.

These condensed consolidated financial statements include accounts of the Company and its wholly-owned subsidiary, which was created to explore the concept of a consumer targeted mobile app development platform. From time to time, the Company may create additional wholly-owned subsidiaries in order to test various new services as a part of its research and development process. The subsidiary has not had material activity in 2015.

The Company’s principal products and services include:

- Subscription to its Software as a Service (“SaaS”) cloud based mobile app development platform to customers who design and build their own apps;
- Dedicated internal and secure mobile development platform for the U.S. Department of Defense and related contractors;
- Custom mobile application design and development services;
- Mobile application marketing services; and
- Mobile strategy implementation consulting.

The Company prepared the accompanying unaudited condensed consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Pursuant to these rules and regulations, the Company has condensed or omitted certain information and footnote disclosures it normally includes in its audited annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). In management’s opinion, the Company has made all adjustments (consisting only of normal, recurring adjustments, except as otherwise indicated) necessary to fairly present its financial position, results of operations, cash flows, and stockholders’ deficit as of September 30, 2015. The Company’s interim period operating results do not necessarily indicate the results that may be expected for any other interim period or for the full fiscal year. These condensed consolidated financial statements and accompanying notes should be read in conjunction with the audited annual consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2014 on file with the SEC (the “Annual Report”).

Except as otherwise noted, there have been no material changes to the Company’s significant accounting policies as compared to the significant accounting policies described in the Annual Report. The accompanying condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During the nine months ended September 30, 2015 and 2014, the Company incurred net losses as well as negative cash flows from operations. These factors raise substantial doubt about the Company’s ability to continue as a going concern. The accompanying condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities that might be necessary should the Company be

unable to continue as a going concern.

7

Recently Issued Accounting Pronouncements

The Company evaluates new significant accounting pronouncements at each reporting period. For the period ended September 30, 2015, the Company did not adopt any new pronouncement that had or is expected to have a material effect on the Company's presentation of its condensed consolidated financial statements.

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-9 Revenue from Contracts with Customers (Topic 606). This guidance requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance is effective for annual reporting periods beginning after December 15, 2017, and early adoption is not permitted. The Company will adopt this standard in fiscal year 2018 and is currently assessing its impact.

In August of 2014, the FASB issued ASU 2014-15 Presentation of Financial Statements – Going Concern (Subtopic 205-40). This ASU defines management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and provides guidance on required financial statement footnote disclosures. The ASU is effective for annual periods ending after December 15, 2016. The Company will adopt the ASU in fiscal year 2016 and is currently assessing its impact on the Company's financial statements, if any.

2. DEBT

The table below summarizes the Company's debt at September 30, 2015 and December 31, 2014:

Debt Description	September 30 2015	December 31, 2014	Maturity	Rate	
Comerica Bank LSA	\$ 5,000,000	\$ 5,000,000	June 2016	3.85	%
Capital lease obligations - Noteholder lease	97,632	113,093	August 2019	8.00	%
Capital lease obligations - office furniture	24,326	29,922	September 2016	9.80	%
Convertible notes - related parties, net of discount of \$2,588,605 and \$4,338,901, respectively	31,485,626	25,985,330	November 2016	8.00	%
Convertible notes, net of discount of \$50,129	680,640	680,640	November 2016	8.00	%
Total debt	37,288,224	31,808,985			
Less: current portion of long term debt					
Capital lease obligations	30,232	28,378			
Comerica Bank LSA	5,000,000	-			
Total current portion of long term debt	5,030,232	28,378			
Debt - long term	\$ 32,257,992	\$ 31,780,607			

Convertible Notes

During the nine months ended September 30, 2015, the Company privately placed \$3,750,000 in principal amount of additional unsecured Convertible Subordinated Notes (the "2014 NPA Notes") to Union Bancaire Privée ("UBP") under its existing unsecured Convertible Subordinated Note Purchase Agreement dated December 10, 2014 (the "2014 NPA").

Edgar Filing: MobileSmith, Inc. - Form 10-Q

The 2014 NPA Notes are convertible by the holder into shares of the Company's common stock, par value \$0.001 per share (the "Common Stock") at a per share conversion price of \$1.43.

The table below summarizes convertible notes issued as of September 30, 2015 by type:

Convertible Notes Type:	Balance
2007 NPA notes, net of discount	\$ 27,916,266
2014 NPA notes	4,250,000
Total convertible notes, net of discount	\$ 32,166,266

3. COMMITMENTS AND CONTINGENCIES

Aggregate future lease commitments

The Company leases computers, office equipment and office furniture under capital lease agreements that expire through August 2019. Total amount financed under these capital leases at September 30, 2015 was \$121,958. This obligation is included within the Company's total debt.

The table below summarizes Company's future obligations under its capital leases:

Year:		
2015		\$9,815
2016		39,259
2017		39,259
2018		34,189
2019		19,412
		141,934
Less amount representing interest		(19,976)
Capital lease obligations		\$121,958

The Company leases its office space in Raleigh, North Carolina pursuant to a lease with an initial term that expires in March 2019. The lease contains an option to renew for two three-year terms. In addition, the Company leases a vehicle pursuant to a lease that expires in July 2016.

The table below summarizes the Company's future obligations under its office and vehicle operating leases:

Year:		
2015		\$41,172
2016		165,678
2017		167,786
2018		172,418
2019		44,082
Total		\$591,136

Legal Proceedings

From time to time, the Company may be subject to routine litigation, claims or disputes in the ordinary course of business. The Company defends itself vigorously in all such matters. In the opinion of management, no pending or known threatened claims, actions or proceedings against the Company are expected to have a material adverse effect on its financial position, results of operations or cash flows. However, the company cannot predict with certainty the outcome or effect of any such litigation or investigatory matters or any other pending litigations or claims. There can be no assurance as to the ultimate outcome of any such lawsuits and investigations. The Company will record a liability when it believes that it is both probable that a loss has been incurred and the amount can be reasonably estimated. The Company periodically evaluates developments in its legal matters that could affect the amount of liability that it has previously accrued, if any, and makes adjustments as appropriate. Significant judgment is required to determine both the likelihood of there being, and the estimated amount of, a loss related to such matters, and the Company's judgment may be incorrect. The outcome of any proceeding is not determinable in advance. Until the final resolution of any such matters that the Company may be required to accrue for, there may be an exposure to loss in excess of the amount accrued, and such amounts could be material.

4. EQUITY COMPENSATION

The following is a summary of the stock option activity for the nine months ended September 30, 2015:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding, December 31, 2014	403,661	\$ 1.45		
Cancelled	(42,312)	1.53		
Issued	-	-		
Outstanding, September 30, 2015	361,349	\$ 1.44	3.87	\$ 45,142
Vested and exercisable, September 30, 2015	258,078	\$ 1.37	4.25	\$ 40,979

Aggregate intrinsic value represents the difference between the closing price of the Company's common stock at September 30, 2015 and the exercise price of outstanding, in-the-money stock options. The closing price of the common stock at September 30, 2015, as reported on the Over-the-Counter Bulletin Board, was \$1.45 per share.

At September 30, 2015, \$82,211 unvested expense has yet to be recorded related to outstanding stock options.

5. MAJOR CUSTOMERS AND CONCENTRATION

For the nine months ended September 30, 2015, two major customers accounted for 31% of total revenues and three customers accounted for 81% of the accounts receivable balance. For the nine months ended September 30, 2014, one major customer accounted for 20% of total revenues and three customers accounted for 51% of the accounts receivable balance.

6. SUBSEQUENT EVENTS

On October 10, 2015, the Company sold one 2014 NPA Note to UBP in the principal amount of \$500,000 on the same terms as the currently outstanding 2014 NPA Notes. The note matures on November 14, 2016.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Information set forth in this Quarterly Report on Form 10-Q contains various forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act") and other laws. Forward-looking statements consist of, among other things, trend analyses, statements regarding future events, future financial performance, our plan to build our business and the related expenses, our anticipated growth, trends in our business, our ability to continue as a going concern, and the sufficiency of our capital resources including funds that we may be able to raise under our convertible note facility, our ability to raise financing from other sources and/or ability to defer expenditures, the impact of the liens on our assets securing amounts owed to third parties, expectation regarding competitors as more and larger companies attempt to market products/services competitive to our company, market acceptance of our new product offerings, including updates to our Platform, rate of new user subscriptions, market penetration of our products and expectations regarding our revenues and expense, all of which are based on current expectations, estimates, and forecasts, and the beliefs and assumptions of our management. Words such as "expect," "anticipate," "project," "intend," "plan," "estimate," variations of such words, and similar expressions also are intended to identify such forward-looking statements. These forward-looking statements are subject to risks, uncertainties, and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Readers are directed to risks and uncertainties identified under Part I, Item 1A, "Risk Factors," in the Annual Report on Form 10-K for the year ended December 31, 2014 and our subsequent periodic reports filed with the SEC for factors that may cause actual results to be different than those expressed in these forward-looking statements. Except as required by law, we undertake no obligation to revise or update publicly any forward-looking statements for any reason.

The following discussion is designed to provide a better understanding of our unaudited condensed consolidated financial statements, including a brief discussion of our business and products, key factors that impacted our performance, and a summary of our operating results. The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and the notes thereto included in Part I, Item 1 of this Quarterly Report on Form 10-Q, and the audited annual consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Annual Report. Historical results and percentage relationships among any amounts in the condensed consolidated financial statements are not necessarily indicative of trends in operating results for any future periods.

Overview

We develop and market a software-as-a-service ("SaaS") platform that allows non-programmers to design and build native mobile applications for smartphones and tablets. Our flagship product is the MobileSmith® Platform (the "Platform"). Platform related services often include data integration and training. We also provide consulting services, which include assistance with design and implementation of mobile strategy, implementation of mobile marketing strategy and the development of mobile apps. Revenue from such services is included in the Professional Services and Other Revenue line of our Statement of Operations. Delivery of Professional Services requires allocation of a portion of our research and development efforts into Cost of Revenue.

We use a SaaS business model – the customers acquire access to the Platform through user subscription agreements and are able to obtain control of mobile app production. Our business model allows for creation and management of any desired number of apps by our customers for a monthly license fee. The on-demand SaaS model developed using multi-tenant architecture enables end users to visit a website and use the SaaS applications, all via a web browser, with no installation, no special information technology knowledge and no maintenance. The SaaS application is transformed into a service that can be used anytime and anywhere by the end user. Multi-tenant SaaS applications also permit us to add needed functionality to our applications in one location for the benefit of all end users. This capability

allows us to provide upgrades universally.

11

During 2014, for the first time we installed our Platform in a Platform as a Service (“PaaS”) configuration for one of our government clients. Our Platform was safely placed behind the firewalls of a government department which would allow the organization to create and manage multiple mobile apps with targeted functionality for targeted audiences without going outside of the secure setting.

Target Market and Sales Channels

We believe that the do-it-yourself model for creation and management of apps will become a cost effective solution for enterprise clients who have an ever increasing need to interact with their customers and employees through mobile devices. Single apps may reach their limits of usability very quickly, if made complex. The Platform offers an ability to create multiple, customized non-template apps with designated functionalities and specific designs without incurring additional costs.

Our market penetration strategy focuses on three distinct sectors:

Healthcare clients:

The first sector is comprised of healthcare organizations, such as hospitals and healthcare networks, which are similar to governmental agencies in their departmental segmentation and territorial reach. Additionally, healthcare organizations are subject to increased regulation as a result of the Affordable Care Act and may be subject to penalties for delivering inefficient care under new Medicare regulations. Hospitals increasingly turn to portfolios of apps to increase efficiency and remain competitive. Outpatient care apps, wellness apps, physician referral apps, appointment apps, discharge apps, facility way-finding apps are just a few example areas where healthcare organizations are increasingly using app portfolios. We believe that the Platform has a significant competitive advantage in the healthcare space due to its ability to deliver a variety of targeted mobile solutions cost effectively.

We expect to focus future Platform development on the demands of our healthcare clients: advanced data integration via REST architecture (a data protocol optimized for communication between mobile devices and databases); authentication; and data security. Improvements that can be made to the Platform that target the needs of our healthcare clients will be used to deliver value in other sectors.

Enterprise clients:

The second sector includes large and multi-national enterprise clients, where large-scale customization based on functionality or territory is of the highest value, and other contributors such as time to market, technology reach and ease of use, play important roles. These target clients may include large food chains, media and PR companies, software solutions providers, hardware manufacturers, mortgage brokers, and real estate franchises.

Our enterprise focus results in continuous integration of new technology into the Platform. In 2014, we partnered with Qualcomm Retail Solutions to integrate their popular Gimbal™ context awareness technology into the Platform. Gimbal™ uses low-cost proximity micro-location beacon technology to exchange information between a mobile device and a beacon for areas of less than 50 meters in radius. This new technology has far reaching applications in retail, healthcare and other industries, where real-time interaction with a mobile user based on his or her location is of highest importance.

Government:

Finally, we believe that the Platform has a unique capability to service various structures within federal, state and local governments, as government structure is highly segmented by function and territory. In addition, the Platform

can be safely placed behind the firewalls of individual departments, where data security is a primary concern. Replicating the Platform and placing it behind a secure firewall would allow an organization to create and manage multiple mobile apps with targeted functionality for targeted audiences without going outside of the secure firewall.

RESULTS OF OPERATIONS

Comparison of the Three Months Ended September 30, 2015 (the “2015 Period”) to the Three Months Ended September 30, 2014 (the “2014 Period”).

	Three Months Ended Sept 30,		Increase (Decrease)		
	2015	2014	\$	%	
Revenue	494,371	177,675	316,696	178	%
Cost of Revenue	172,297	147,313	24,984	17	%
Gross Profit	322,074	30,362	291,712	961	%
Sales and Marketing	307,857	247,214	60,643	25	%
Research and Development	356,098	294,818	61,280	21	%
General and Administrative	299,029	325,229	(26,200)	(8	%)
Interest Expense	(1,331,602)	(1,239,846)	(91,756)	7	%

Revenue increased by \$316,696, or 178% during the 2015 Period. As the Platform matures, we continue to add new features and extend our market penetration, expand our customer base and retain larger customers with broader ranges of needs in the mobile space who enter into more significant contracts for subscription revenue. Included in the total revenue in the 2015 Period was \$31,080 of professional services revenue generated from one of our subscription clients. Revenues from professional services totaled \$20,000 in the 2014 Period. The professional services consisted of implementation of advanced Platform features, advanced data integration and mobile consulting. We currently receive approximately \$10,000 per month in professional services revenue and as of September 30, 2015 we had several services contracts for which delivery had not yet occurred. We don't expect professional services revenue to be a significant share of our total revenue in the future, as our workforce capacity to provide such services without creation of a dedicated consulting team is limited.

Cost of Revenue increased by \$24,984 or 17% during the 2015 Period. General increase in cost of revenue is attributable to the reorganization of our client service team and the creation of our Customer Success team. Our Customer Success team expanded during the 2015 period as our revenue continues to increase. In addition, the cost of revenue included \$46,697 in costs associated with delivery of professional services, compared to \$9,790 during the same period of last year. The increase resulted from several projects focused on advanced data integration and individual mobile apps development.

Gross Profit increased by \$291,712 or 961% during the 2015 Period. In a SaaS model, the cost to deliver revenue increases at a much smaller rate than revenue itself. As we retain existing customers and acquire new customers, our gross profit is expected to increase.

Sales and Marketing expense increased by \$60,643, or 25% during the 2015 Period. This increase is attributable to approximately \$30,000 in commission and referral fees paid in 2015 Period to a third party for promotion of our Platform and services. Sales related travel increased by approximately \$20,000 and compensation increased by approximately \$10,000.

Research and Development expense increased by \$61,280 or 21% during the 2015 Period. The increase of approximately \$16,000 is attributable to general increases in payroll and related costs of our developer team and an increase of approximately \$53,000 is attributable to an internal reorganization within the workforce that allowed us to increase our Product team with focus on development of new Platform features and functionalities. Increase in payroll costs were offset by an approximate \$8,000 decrease in recruiting and other costs.

General and Administrative expense decreased by \$26,200 or 8% during the 2015 period, primarily due to a decrease in fees paid for legal and professional services.

Interest Expense increased by \$91,756 or 7% during the 2015 period. The increase is attributable to the general increase in face value of debt.

Comparison of the Nine Months Ended September 30, 2015 (the “2015 Period”) to the Nine Months Ended September 30, 2014 (the “2014 Period”).

	Nine Months Ended Sept		Increase (Decrease)		
	2015	2014	\$	%	
Revenue	1,328,104	560,403	767,701	137	%
Cost of Revenue	329,540	407,582	(78,042)	(19	%)
Gross Profit	998,564	152,821	845,743	553	%
Sales and Marketing	867,153	702,998	164,155	23	%
Research and Development	1,029,923	825,432	204,491	25	%
General and Administrative	897,247	1,007,798	(110,551)	(11	%)
Interest Expense	(3,910,355)	(3,161,531)	(748,824)	24	%

Revenue increased by \$767,701, or 137%, during the 2015 Period. As the Platform matures, we continue to add new features and extend our market penetration, expand our customer base and retain larger customers with broader ranges of needs in the mobile space who enter into more significant contracts for subscription revenue. Included in the total revenue for the nine months ended September 30, 2015 was \$91,080 of professional services revenue generated from one of our subscription clients. Revenue from professional services totaled \$20,000 in the corresponding 2014 Period. The professional services consisted of implementation of advanced Platform features, advanced data integration and mobile consulting. We currently receive approximately \$10,000 per month in professional services revenue and as of September 30, 2015 we had several services contracts for which delivery had not yet occurred. We don't expect professional services revenue to be a significant share of our total revenue in the future, as our workforce capacity to provide such services without creation of a dedicated consulting team is limited.

Cost of Revenue decreased by \$78,042, or 19%, during the 2015 Period. General decrease in cost of revenue is attributable to the reorganization of our client service team, which resulted in a decrease in our payroll and benefits expense associated with revenue generating activities. During the 2014 Period, we invested significant effort into the streamlining of our client on-boarding and client training processes by producing a suite of training materials and manuals. Due to improvements in usability and the user interface of our Platform, we were able to move several members of our client service team to research and development and formed a smaller Customer Success team, which continues to be classified in cost of revenue. Our Customer Success team has expanded during the 2015 Period, as our revenue continues to increase. In addition, the cost of revenue in the 2015 Period included approximately \$70,000 of costs associated with professional services revenue, compared to only \$9,790 during the same period of last year. The increase resulted from several projects focused on advanced data integration and individual mobile apps development.

Gross Profit increased by \$845,743 or 553%, during the 2015 Period. In a SaaS model, the cost to deliver revenue increases at a much smaller rate than revenue itself. As we retain existing customers and acquire new customers, our gross profit is expected to increase.

Sales and Marketing expense increased by \$164,155, or 23%, during the 2015 Period. This increase is attributable to approximately \$30,000 in commission and referral fees paid in 2015 Period to a third party for promotion of our Platform and services. Sales related travel increased by approximately \$30,000 and compensation increased by approximately \$88,000. The remainder of the increase is related to the higher rate of spending on marketing campaigns, tradeshow, sales team travel and timing of these activities.

Research and Development expense increased by \$204,491, or 25%, during the 2015 Period. An increase of approximately \$51,000 is attributable to general increases in payroll and related costs of our developer team and an increase of approximately \$154,000 is attributable to an internal reorganization within the workforce that allowed us to increase our Product team with focus on development of new Platform features and functionalities.

General and Administrative expense decreased by \$110,551 or 11%, during the 2015 Period, mostly due to a \$73,000 decrease in legal and professional costs and a \$26,000 decrease in bank transaction fees.

Interest Expense increased by \$748,824, or 24%, during the 2015 Period. Approximately \$309,000 of the increase was attributable to the increase in the face value of our debt and the remaining \$440,000 of the increase was mainly due to the increase in debt discount amortization and to a lesser extent due to amortization of capitalized financing costs from the Comerica LSA transaction.

Liquidity and Capital Resources

We have not yet achieved positive cash flows from operations, and our main source of funds for our operations is the sale of our notes under the convertible note facility that we established in 2014. We need to continue to rely on this source until we are able to generate sufficient cash from revenues to fund our operations or obtain alternate sources of financing. We believe that anticipated cash flows from operations, and additional issuances of convertible notes under the note facility, of which no assurance can be provided, together with cash on hand, will provide sufficient funds to finance our operations at least for the next 12 months. Changes in our operating plans, lower than anticipated sales, increased expenses, or other events may cause us to seek additional equity or debt financing in future periods. There can be no guarantee that financing will be available to us under the note facility or otherwise on acceptable terms or at all. Additional equity and convertible debt financing could be dilutive to the holders of shares of our common stock, and additional debt financing, if available, could impose greater cash payment obligations and more covenants and operating restrictions.

Nonetheless, there are factors that can impact our ability to continue to fund our operations for the next twelve months. These include:

- Our ability to expand revenue volume;

- Our ability to maintain product pricing as expected, particularly in light of increased competition and its unknown effects on market dynamics;

- Our continued need to reduce our cost structure while simultaneously expanding the breadth of our business, enhancing our technical capabilities, and pursuing new business opportunities.

In addition, if UBS AG (Geneva, Switzerland) were to elect to not renew the irrevocable letter of credit issued by it beyond May 31, 2016, the currently scheduled expiration date, then such non-renewal will result in an event of default under our outstanding Loan and Security Agreement (“LSA”) with Comerica Bank in the amount of \$5,000,000, at which time all amounts outstanding under the LSA will become due and payable. Currently, the letter of credit is automatically extended for one year periods, unless notice of non-renewal is given by UBS AG at least 45 days prior to the then current expiration date. The provision of any such notice by UBS will constitute an event of default under the LSA, at which time all amounts outstanding under the LSA will become due and payable. As of the date of this report on Form 10-Q, no such notice has been provided to us nor have we been provided with any indication that we are to receive notice of non-renewal of the letter of credit.

Financing Activities and Sources of Cash

Net cash provided by financing activities during the nine months ended September 30, 2015 was \$3,777,637. We received proceeds of \$3,750,000 from the issuance of convertible notes under the convertible note facility established in 2014. See Note 2 in our Condensed Consolidated Financial Statements accompanying this report on Form 10-Q.

Since November 14, 2007 and through the present time, we have financed our working capital deficiency primarily through the issuance of our promissory notes under two convertible note facilities. The first, established in November 2007, is evidenced by the Convertible Secured Subordinated Note Purchase Agreement, dated November 14, 2007, as amended (as so amended, the “2007 NPA”) and the second, established in December 2014, is evidenced by the unsecured Convertible Subordinated Note Purchase Agreement (the “2014 NPA”; together with the 2007 NPA, the “Convertible Note Facilities”) with Union Bancaire Privée, UBP SA (“UBP”).

The table below summarizes convertible notes issued as of September 30, 2015 by NPA type:

Convertible Notes Type:	Balance
2007 NPA notes, net of discount	\$ 27,916,266
2014 NPA notes	4,250,000
Total convertible notes, net of discount	\$ 32,166,266

The 2014 NPA Notes have the following terms:

a maturity date of the earlier of (i) November 14, 2016 or (ii) when, upon or after the occurrence of an Event of Default (as defined in the 2014 NPA), such amounts may be declared due and payable by notice by the holders in the aggregate of 66 2/3 % of the outstanding principal amount of the Notes, except in the case of an bankruptcy related event of default, in which case all outstanding amounts become due and payable without notice or demand, all in accordance with the terms of such note;

an interest rate of 8% per year, with accrued interest payable in cash in quarterly installments commencing on the third month anniversary of the date of issuance of the Note with the final installment payable on the maturity date of the Note;

a conversion price per share that is fixed at \$1.43;

optional conversion upon noteholder request; provided that, if at the time of any such request, the Company does not have a sufficient number of shares of common stock authorized to allow for such conversion, the noteholder may only convert that portion of their Notes outstanding for which the Company has a sufficient number of authorized shares of common stock. To the extent multiple noteholders under the 2014 NPA, the 2007 NPA, or both, request conversion of its Notes on the same date, any limitations on conversion shall be applied on a pro rata basis. In such case, the noteholder may request that the Company call a special meeting of its stockholders specifically for the purpose of increasing the number of shares of common stock authorized to cover conversions of the remaining portion of the Notes outstanding as well as the maximum issuances contemplated pursuant to the Company's 2004 Equity Compensation Plan, within 90 calendar days after the Company's receipt of such request; and

may not be prepaid without the consent of holders of at least two-thirds of the aggregate outstanding principal amount of Notes issued under the 2014 NPA.

On June 9, 2014, the Company entered into the LSA with Comerica. The Company borrowed the entire amount available under the LSA (\$5,000,000) and used those proceeds to repay the Israel Discount Bank Credit Facility in full.

The LSA, which matures in June of 2016, is secured by an extended irrevocable letter of credit issued by UBS AG (Geneva, Switzerland) with an initial term that expired on May 31, 2015, which term is renewable for one year periods, unless notice of non-renewal is given by UBS AG at least 45 days prior to the then current expiration date. As no notice has been given, the period has been renewed to May 31, 2016. The provision of any such notice by UBS will constitute an event of default under the LSA, at which time all amounts outstanding under the LSA will become due and payable. As of the date of this report on Form 10-Q, no such notice has been provided to us nor have we been provided with any indication that we are to receive notice of non-renewal of the letter of credit.

Uses of Cash

During the nine months ended September 30, 2015, we used in operating activities approximately \$5,300,000, which was offset by \$1,250,000 in cash collected from our customers; of which approximately \$2,435,000 was used to pay interest payments on the Notes and bank debt; approximately \$2,052,000 was used for payroll, benefits and related costs; approximately \$335,000 was used on non-payroll related sales and marketing efforts, such as tradeshow and marketing campaigns and approximately \$436,000 was used for other non-payroll development and general and administrative expenses, which included among other things: infrastructure costs, rent, insurance, legal, professional, compliance, and other expenditures.

Capital Expenditures and Investing Activities

Our capital expenditures are limited to the purchase of new office equipment and new mobile devices that are used for testing. Cash used for investing activities was not significant and we do not plan any significant capital expenditures in the near future.

Going Concern

Our independent registered public accounting firm has issued an emphasis of matter paragraph in their report included in the Annual Report on Form 10-K for the year ended December 31, 2014 in which they express substantial doubt as to our ability to continue as a going concern. The condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities that might be necessary should we be unable to continue as a going concern. Our continuation as a going concern depends on our ability to generate sufficient cash flows to meet our obligations on a timely basis, to obtain additional financing that is currently required, and ultimately to attain profitable operations and positive cash flows. There can be no assurance that our efforts to raise capital or increase revenue will be successful. If our efforts are unsuccessful, we may have to cease operations and liquidate our business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures for the three months ended September 30, 2015. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow for timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, as ours are designed to do, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2015, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control over Financial Reporting

During the three months ended September 30, 2015, there were no changes made in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) of the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following paragraph sets forth certain information with respect to all securities sold by us during the three months ended September 30, 2015 without registration under the Securities Act:

Between July 1, 2015 and September 30, 2015, we issued \$550,000 in principal amount of 2014 NPA notes to one accredited investor. The Notes are convertible into shares of our Common Stock at a per share conversion rate of \$1.43.

All of the securities issued in the transactions described above were issued without registration under the Securities Act in reliance upon the exemptions provided in Section 4(2) of the Securities Act. The recipient of securities in such transaction acquired the securities for investment only and not with a view to or for sale in connection with any distribution thereof. Appropriate legends were affixed to the share certificates issued in all of the above transactions. The recipient represented that it was an “accredited investor” within the meaning of Rule 501(a) of Regulation D under the Securities Act, or had such knowledge and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in its common stock. The recipient had adequate access, through their relationships with the Company and its officers and directors, to information about the Company. None of the transactions described above involved general solicitation or advertising.

ITEM 6. EXHIBITS

Exhibit Description
No.

31.1 Certification of Principal Executive Officer Pursuant to Rule 13a-14(a) (Filed herewith)

31.2 Certification of Principal Financial and Accounting Officer Pursuant to Rule 13a-14(a) (Filed herewith)

32.1 Certification of Principal Executive Officer Pursuant to 18 U.S.C. Section 1350 (Furnished herewith)

32.2 Certification of Principal Financial and Accounting Officer Pursuant to 18 U.S.C. Section 1350 (Furnished herewith)

101.1 The following materials from the Company’s Quarterly Report on Form 10-Q for the quarter ended September 30, 2015, formatted in XBRL (eXtensible Business Reporting Language): (i) the Condensed Consolidated Balance Sheets, (ii) the Condensed Consolidated Statements of Operations, (iii) the Condensed Consolidated Statements of Cash Flows, (iv) the Condensed Consolidated Statement of Stockholders’ Deficit and (v) related notes to these condensed consolidated financial statements, tagged as blocks of text and in detail (Filed herewith)

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
