SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains certain forward-looking statements, including, without limitation, statements concerning the conditions in our industry, our operations, our economic performance and financial condition, including, in particular, statements relating to our business, operations, growth strategy and service development efforts. The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for certain forward-looking statements so long as such information is identified as forward-looking and is accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those projected in the information. When used in this Quarterly Report on Form 10-Q, the words “may,” “might,” “should,” “estimate,” “project,” “plan,” “anticipate,” “expect,” “intend,” “outlook,” “believe” and other similar expressions are intended to identify forward-looking statements and information. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. These forward-looking statements are based on estimates and assumptions by our management that, although we believe to be reasonable, are inherently uncertain and subject to a number of risks and uncertainties. These risks and uncertainties include, without limitation, those in our Annual Report on Form 10-K for the year ended December 31, 2015 filed with the Securities and Exchange Commission (SEC) on March 3, 2016 and our other reports filed with the SEC. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law. Reference is also made to such risks and uncertainties detailed from time to time in our other filings with the SEC.

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(1)The Company and Nature of Operations

Organization

CAI International, Inc. and its subsidiaries (collectively, CAI or the Company) is a transportation finance and logistics company. The Company purchases equipment, primarily intermodal shipping containers and railcars, which it leases to its customers. The Company also manages equipment for third-party investors. In operating its fleet, the Company leases, re-leases and disposes of equipment and contracts for the repair, repositioning and storage of equipment. The Company also provides domestic and international logistics services.

In July 2015, the Company purchased ClearPointt Logistics LLC (ClearPointt), a U.S.-based intermodal logistics company focused on the domestic intermodal market, for approximately \$4.1 million. The Company is headquartered in Everett, Washington.

In February 2016, the Company purchased Challenger Overseas LLC (Challenger), a New Jersey based Non-Vessel Operating Common Carrier (NVOCC), for approximately \$10.8 million (see Note 4).

The Company's common stock is traded on the New York Stock Exchange under the symbol "CAI." The Company's corporate headquarters are located in San Francisco, California.

Basis of Presentation

The accompanying unaudited consolidated financial statements include the financial statements of the Company, its wholly-owned subsidiaries, and its 80%-owned subsidiary, CAIJ, Inc. (CAIJ). The equity attributable to the minority interest in CAIJ is shown as a non-controlling interest on the Company's consolidated balance sheets, and the related net income is presented as net income attributable to non-controlling interest on the Company's consolidated statements of income. All significant intercompany balances and transactions have been eliminated in consolidation.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments necessary to present fairly the Company's financial position as of March 31, 2016 and December 31, 2015, and the Company's results of operations and cash flows for the three months ended March 31, 2016 and 2015. The results of operations and cash flows for the periods presented are not necessarily indicative of the results of operations or cash flows which may be reported for the remainder of 2016 or in any future period. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted. The accompanying unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2015, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) on March 3, 2016.

(2)Accounting Policies and Recent Accounting Pronouncements

(a) Accounting Policies

There were no changes to the Company's accounting policies during the three months ended March 31, 2016. See Note 2 to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on March 3, 2016, for a description of the Company's significant accounting policies.

(b) Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606) (ASU No. 2014-09). This new standard will replace all current U.S. GAAP guidance on this topic and eliminates industry-specific guidance. Leasing revenue recognition is specifically excluded from this ASU, and therefore, the new standard will only apply to management fee revenue, sales of equipment portfolios sales of used equipment and the provision of logistics services. The guidance is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted for interim and annual periods beginning after December 15, 2016. Adoption of the guidance is not expected to have a material impact on the Company's consolidated financial statements.

In February 2015, the FASB issued Accounting Standards Update No. 2015-02, Consolidation (Topic 810): Amendment to the Consolidation Analysis (ASU No. 2015-02). The new guidance changes (1) the identification of variable interests (fees paid to a decision maker or service provider), (2) the variable interest entity (VIE) characteristics for a limited partnership or similar entity and (3) the primary beneficiary determination. The guidance is effective for annual and interim periods beginning after December 15, 2015, with early adoption permitted. The Company adopted ASU No. 2015-02 effective January 1, 2016, and adoption had no impact on the Company's consolidated financial statements.

Table of Contents

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, Simplifying the Presentation of Debt Issuance Costs (ASU No. 2015-03). The new guidance requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. The guidance is effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years, with early adoption permitted. Adoption of the accounting guidance during the first quarter of 2016 resulted in the reclassification of unamortized debt issuance costs of \$12.3 million and \$13.0 million as of March 31, 2016 and December 31, 2015, respectively, from prepaid expenses and other current assets to a reduction of debt on the Company's consolidated balance sheets.

In November 2015, the FASB issued Accounting Standards Update No. 2015-17, Balance Sheet Classification of Deferred Taxes (ASU No. 2015-17). The new guidance requires that all deferred tax assets and liabilities, along with any related valuation allowance, be classified as noncurrent on the balance sheet. The guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within those years, with early adoption permitted. The new guidance may be applied either prospectively, for all deferred tax assets and liabilities, or retrospectively. The Company early adopted ASU No. 2015-07 effective December 31, 2015 on a prospective basis. No prior periods were retrospectively adjusted, and adoption did not have an impact on the Company's consolidated financial statements.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, Leases (ASU No. 2016-02). The new standard will replace all current U.S. GAAP guidance on this topic. The new guidance will require lessees to recognize a right-of-use asset and a lease liability for virtually all of their leases, with the exception of leases that meet the definition of a short-term lease. Lessor accounting will remain similar to the current model. The guidance is effective for interim and annual periods beginning after December 15, 2018, with early adoption permitted. The new guidance must be adopted using a modified retrospective transition and is not expected to have a material impact on the Company's consolidated financial statements.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09, Improvements to Employee Share-Based Payment Accounting (ASU No. 2016-09), which simplifies several aspects of the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as classification of related amounts within the statement of cash flows. The guidance is effective beginning in the first quarter of 2017, with early adoption permitted. We are currently evaluating the impact that the new guidance will have on the Company's consolidated financial statements and related disclosures.

(3)Consolidation of Variable Interest Entities as a Non-Controlling Interest

The Company regularly performs a review of its container fund arrangements with investors to determine whether or not it has a variable interest in the fund and if the fund is a variable interest entity (VIE). If it is determined that the Company does not have a variable interest in the fund, further analysis is not required and the Company does not consolidate the fund. If it is determined that the Company does have a variable interest in the fund and the fund is a VIE, a further analysis is performed to determine if the Company is a primary beneficiary of the VIE and meets both of the following criteria under ASC Topic 810:

- It has power to direct the activities of a VIE that most significantly impact the VIE's economic performance; and
- It has the obligation to absorb losses of the VIE that could be potentially significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

If in the Company's judgment both of the above criteria are met, the VIE's financial statements are included in the Company's consolidated financial statements as required under ASC Topic 810, Consolidation. The equity attributable to the VIE is shown as a non-controlling interest on the Company's consolidated balance sheets and the after-tax result attributable to its operations is shown as a net income or loss attributable to non-controlling interest on the Company's consolidated statements of income.

The Company currently enters into two types of container fund arrangements with investors which are reviewed under ASC Topic 810, Consolidation. These arrangements include container funds that the Company manages for investors and container funds that have entered into financing arrangements with investors. Several of the funds that the Company manages, and all of the funds under financing arrangements, are Japanese container funds that were established by a related party under separate investment agreements allowed under Japanese commercial laws (see Note 13). Each of the funds is financed by unrelated Japanese third party investors.

Managed Container Funds

The fees earned by the Company for arranging, managing and establishing container funds are commensurate with the level of effort required to provide those services, and are at or above the same level of seniority as other operating liabilities of the funds that are in the normal course of business. As such, the Company does not have a variable interest in the managed containers funds, and does not consolidate those funds. The Company recognizes gain on sale of containers to the unconsolidated funds as sales in the ordinary course of business. No container portfolios were sold to the Japanese funds in the three months ended March 31, 2016 and 2015.

Table of Contents

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Collateralized Financing Obligations

As of March 31, 2016, the Company has transferred containers with a total net book value of \$176.4 million at the time of transfer to Japanese investor funds while concurrently entering into lease agreements for the same containers, under which the Company leases the containers back from the Japanese investors. In accordance with ASC Topic 840, Sale-Leaseback Transactions, the Company concluded these were financing transactions under which sale-leaseback accounting was not applicable.

The terms of the transactions with container funds under financing arrangements include options for the Company to purchase the containers from the funds at a fixed price. As a result of the residual interest resulting from the fixed price call option, the Company concluded that it may absorb a significant amount of the variability associated with the funds' anticipated economic performance and, as a result, the Company has a variable interest in the funds. The funds are considered VIEs under ASC Topic 810, Consolidation because, as lessee of the funds, the Company has the power to direct the activities that most significantly impact each entity's economic performance including the leasing and managing of containers owned by the funds. As the Company has the power to direct the activities that most significantly impact the economic performance of the VIEs and the variable interest provides the Company with the right to receive benefits from the entity that could potentially be significant to the funds, the Company determined that it is the primary beneficiary of these VIEs and included the VIEs' assets and liabilities as of March 31, 2016 and December 31, 2015, and the results of the VIEs' operations and cash flows for the three months ended March 31, 2016 and 2015 in the Company's consolidated financial statements.

The containers that were transferred to the Japanese investor funds had a net book value of \$71.1 million as of March 31, 2016. The container equipment, together with \$35.1 million of cash held by the investor funds, has been included on the Company's consolidated balance sheets with the offsetting liability related to the funds presented in the debt section of the Company's consolidated balance sheets as collateralized financing obligations of \$99.0 million and term loans held by VIE of \$7.1 million. See Note 8(e) and 8(f) for additional information. No gain or loss was recognized by the Company on the initial consolidation of the VIEs.

(4)Acquisitions

On February 12, 2016, the Company purchased Challenger Overseas LLC (Challenger), a New Jersey based Non-Vessel Operating Common Carrier (NVOCC), for approximately \$10.8 million, \$3.0 million of which is based on the future performance of Challenger. Expected future payments of \$2.0 million and \$1.0 million are recorded in Other long-term liabilities and Accrued expenses and other current liabilities, respectively, in the Company's consolidated balance sheet at March 31, 2016.

The acquisition was recorded during the first quarter of 2016 using the purchase method of accounting as prescribed under ASC 805, Business Combinations. Accordingly, assets acquired and liabilities assumed were recorded at their fair value estimated by management as of February 12, 2016. The purchase price for the acquisition has been allocated to the assets acquired and liabilities assumed as follows (in thousands):

Cash	\$ 1,163
Accounts receivable	698
Property and equipment	2
Goodwill	6,089
Intangible assets	3,673
Total assets	11,625
Accounts payable	571
Other liabilities	211
Total liabilities	782
Purchase price	\$ 10,843

Adjustments to record the assets acquired and liabilities assumed at fair value include the recognition of \$3.7 million of intangible assets as follows:

	Amount	Estimated Life
Tradenname	\$ 494	5 years
Customer relationships	3,179	8 years

Table of Contents

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company's results for the three months ended March 31, 2016 include the results of Challenger for the period since the date of acquisition. Pro forma financial statements are not presented as they are not material to the Company's overall financial statements.

(5) Rental Equipment

The following table provides a summary of the Company's rental equipment (in thousands):

	March 31, 2016	December 31, 2015
Dry containers	\$ 1,397,854	\$ 1,392,825
Refrigerated containers	320,854	308,374
Other specialized equipment	130,982	152,310
Railcars	270,126	244,512
	2,119,816	2,098,021
Accumulated depreciation	(368,471)	(349,810)
Rental equipment, net of accumulated depreciation	\$ 1,751,345	\$ 1,748,211

(6) Net Investment in Direct Finance Leases

The following table represents the components of the Company's net investment in direct finance leases (in thousands):

	March 31, 2016	December 31, 2015
--	-------------------	-------------------------

Edgar Filing: CAI International, Inc. - Form 10-Q

Gross finance lease receivables (1)	\$ 128,239	\$ 124,747
Unearned income (2)	(23,034)	(21,379)
Net investment in direct finance leases	\$ 105,205	\$ 103,368

(1) At the inception of the lease, the Company records the total minimum lease payments, executory costs, if any, and unguaranteed residual value as gross finance lease receivables. The gross finance lease receivables are reduced as customer payments are received. There was no unguaranteed residual value at March 31, 2016 and December 31, 2015 included in gross finance lease receivables. There were no executory costs included in gross finance lease receivables as of March 31, 2016 and December 31, 2015.

(2) The difference between the gross finance lease receivables and the cost of the equipment or carrying amount at the lease inception is recorded as unearned income. Unearned income, together with initial direct costs, are amortized to income over the lease term so as to produce a constant periodic rate of return. There were no unamortized initial direct costs as of March 31, 2016 and December 31, 2015.

In order to estimate the allowance for losses contained in gross finance lease receivables, the Company reviews the credit worthiness of its customers on an ongoing basis. The review includes monitoring credit quality indicators, the aging of customer receivables and general economic conditions.

The categories of gross finance lease receivables based on the Company's internal customer credit ratings can be described as follows:

Tier 1— These customers are typically large international shipping lines that have been in business for many years and have world-class operating capabilities and significant financial resources. In most cases, the Company has had a long commercial relationship with these customers and currently maintains regular communication with them at several levels of management, which provides the Company with insight into the customer's current operating and financial performance. In the Company's view, these customers have the greatest ability to withstand cyclical down turns and would likely have greater access to needed capital than lower-rated customers. The Company views the risk of default for Tier 1 customers to range from minimal to moderate.

Tier 2— These customers are typically either smaller shipping lines or freight forwarders with less operating scale or with a high degree of financial leverage, and accordingly the Company views these customers as subject to higher volatility in financial performance over the business cycle. The Company generally expects these customers to have less access to capital markets or other sources of financing during cyclical down turns. The Company views the risk of default for Tier 2 customers as moderate.

Tier 3— Customers in this category exhibit volatility in payments on a regular basis.

Table of Contents

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Based on the above categories, the Company's gross finance lease receivables were as follows (in thousands):

	March 31, 2016	December 31, 2015
Tier 1	\$ 84,417	\$ 86,981
Tier 2	43,822	37,766
Tier 3	-	-
	\$ 128,239	\$ 124,747

Contractual maturities of the Company's gross finance lease receivables subsequent to and as of March 31, 2016 for the years ending March 31 were as follows (in thousands):

2017	\$ 29,468
2018	34,706
2019	29,255
2020	12,684
2021	9,372
2022 and thereafter	12,754
	\$ 128,239

(7)Intangible Assets

The Company amortizes intangible assets on a straight line basis over their estimated useful lives as follows:

Trademarks and tradename 1-10 years

Customer relationships 8 years

Total amortization expense was \$0.1 million for both the three months ended March 31, 2016 and 2015.

Intangible assets as of March 31, 2016 and December 31, 2015 were as follows (in thousands):

	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
March 31, 2016			
Trademarks and tradename	\$ 2,334	\$ (1,274)	\$ 1,060
Customer relationships	3,799	(39)	3,760
	\$ 6,133	\$ (1,313)	\$ 4,820
December 31, 2015			
Trademarks and tradename	\$ 1,840	\$ (1,218)	\$ 622
Customer relationships	620	(19)	601
	\$ 2,460	\$ (1,237)	\$ 1,223

As of March 31, 2016, amortization expense for unamortized intangible assets is expected to be \$0.7 million for each of the next five years and \$1.4 million, in total, thereafter.

	Total Debt	\$ 114,533	\$ 1,313,548		\$ 169,596	\$ 1,249,057		

(a) Revolving Credit Facilities

Revolving credit facilities consist of the following:

(i) On March 15, 2013, the Company entered into the Third Amended and Restated Revolving Credit Agreement, as amended, with a consortium of banks to finance the acquisition of container rental equipment and for general working capital purposes. On January 30, 2015, the Company entered into an amendment to the Third Amended and Restated Revolving Credit Agreement, pursuant to which the revolving credit facility was amended to extend the maturity date to March 15, 2020, reduce the interest rate, increase the commitment level from \$760.0 million to \$775.0 million, and revise certain of the covenants and restrictions to provide the Company with additional flexibility.

As of March 31, 2016, the maximum commitment under the revolving credit facility was \$775.0 million. The revolving credit facility may be increased up to a maximum of \$960.0 million, in accordance with the terms of the agreement, so long as no default or event of default exists either before or immediately after giving effect to the increase. There is a commitment fee on the unused amount of the total commitment, payable quarterly in arrears. The revolving credit facility provides that swing line loans (short-term borrowings of up to \$10.0 million in the aggregate that are payable within 10 business days or at maturity date, whichever comes earlier) and standby letters of credit (up to \$15.0 million in the aggregate) will be available to the Company. These credit commitments are part of, and not in addition to, the total commitment provided under the revolving credit facility. The interest rates vary depending upon whether the loans are characterized as Base Rate loans or Eurodollar rate loans, as defined in the revolving credit agreement. Interest rates are based on LIBOR for Eurodollar loans and Base Rate for Base Rate loans. In addition to various financial and other covenants, the Company's revolving credit facility also includes certain restrictions on the Company's ability to incur other indebtedness or pay dividends to stockholders. As of March 31, 2016, the Company was in compliance with the terms of the revolving credit facility.

As of March 31, 2016, the Company had \$241.9 million in availability under the revolving credit facility (net of \$0.1 million in letters of credit) subject to its ability to meet the collateral requirements under the agreement governing the facility. Based on the borrowing base and collateral requirements at March 31, 2016, the borrowing availability under the revolving credit facility was \$75.7 million, assuming no additional contribution of assets. The entire amount of the facility drawn at any time plus accrued interest and fees is callable on demand in the event of certain specified events of default.

The Company's revolving credit facility, including any amounts drawn on the facility, is secured by substantially all of the assets of the Company (not otherwise used as security for its other credit facilities) including equipment owned by the Company, which had a net book value of \$734.5 million as of March 31, 2016, the underlying leases and the Company's interest in any money received under such contracts.

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(ii) On October 22, 2015, the Company and CAI Rail Inc. (CAI Rail), a wholly-owned subsidiary of the Company, entered into the Second Amended and Restated Revolving Credit Agreement with a consortium of banks, pursuant to which the prior revolving credit facility was amended to extend the maturity date to October 22, 2020, reduce the interest rate, increase the commitment level from \$250.0 million to \$500.0 million, which may be increased up to a maximum of \$700.0 million subject to certain conditions, and revise certain of the covenants and restrictions under the prior facility to provide the Company with additional flexibility. As of March 31, 2016, the maximum credit commitment under the revolving credit facility was \$500.0 million.

Borrowings under this revolving credit facility bear interest at a variable rate. The interest rates vary depending upon whether the loans are characterized as Base Rate loans or Eurodollar rate loans, as defined in the revolving credit agreement. Interest rates are based on LIBOR for Eurodollar loans and Base Rate for Base Rate loans.

As of March 31, 2016, CAI Rail had \$322.0 million in availability under the revolving credit facility, subject to its ability to meet the collateral requirements under the agreement governing the facility. Based on the borrowing base and collateral requirements at March 31, 2016, the borrowing availability under the revolving credit facility was \$8.2 million, assuming no additional contribution of assets. The entire amount of the facility drawn at any time plus accrued interest and fees is callable on demand in the event of certain specified events of default.

The agreement governing CAI Rail's revolving credit facility contains various financial and other covenants. As of March 31, 2016, CAI Rail was in compliance with the terms of the revolving credit facility. CAI Rail's revolving credit facility, including any amounts drawn on the facility, is secured by all of the assets of CAI Rail, which had a net book value of \$232.7 million as of March 31, 2016, and is guaranteed by the Company.

(b)Term Loans

Term loans consist of the following:

(i) On March 22, 2013, the Company entered into a \$30.0 million five-year term loan agreement with Development Bank of Japan (DBJ). The loan is payable in 19 quarterly installments of \$0.5 million starting July 31, 2013 and a final payment of \$21.5 million on April 30, 2018. The loan bears interest at a variable rate based on LIBOR. As of March 31, 2016, the loan had a balance of \$25.1 million.

(ii) On December 20, 2010, the Company entered into a term loan agreement with a consortium of banks. Under this loan agreement, the Company was eligible to borrow up to \$300.0 million, subject to certain borrowing conditions, which amount is secured by certain assets of the Company's wholly-owned foreign subsidiaries. The loan agreement is an amortizing facility with a term of six years. The interest rates vary depending upon whether the loans are characterized as Base Rate loans or Eurodollar rate loans, as defined in the term loan agreement. The loan bears a variable interest rate based on LIBOR for Eurodollar loans, and Base Rate for base rate loans.

On March 28, 2013, the term loan was amended which reduced the principal balance of the loan from \$249.4 million to \$125.0 million through payment of \$124.4 million from the proceeds of the \$229.0 million fixed-rate asset-backed notes issued by the Company's indirect wholly-owned subsidiary, CAL Funding II Limited (see Note 8(d) below).

On October 1, 2014, the Company entered into an amended and restated term loan agreement with a consortium of banks, pursuant to which the prior loan agreement was refinanced. The amended and restated term loan agreement, which contains similar terms to the prior loan agreement, was amended to, among other things: (a) reduce borrowing rates from LIBOR plus 2.25% to LIBOR plus 1.6% (per annum) for Eurodollar loans, (b) increase the loan commitment from \$115.0 million to \$150.0 million, (c) extend the maturity date to October 1, 2019, and (d) revise certain of the covenants and restrictions under the prior loan agreement to provide the Company with additional flexibility. As of March 31, 2016, the term loan had a balance of \$136.5 million.

(iii) On April 11, 2012, the Company entered into a term loan agreement with a consortium of banks. The agreement, as amended, provides for a five-year term loan of up to \$142.0 million, subject to certain borrowing conditions, which amount is secured by certain assets of the Company. The commitment under the loan may be increased to a maximum of \$200.0 million under certain conditions described in the agreement. The term loan's outstanding principal bears interest based on LIBOR and is amortized quarterly, with quarterly payments equal to 1.75% multiplied by the outstanding principal amount at such time. The facility contains various financial and other covenants. The full \$142.0 million has been drawn and was primarily used to repay outstanding amounts under the Company's senior revolving credit facility. All unpaid amounts then outstanding are due and payable on April 11, 2017. As of March 31, 2016, the loan had a balance of \$94.9 million.

(iv) On December 22, 2015, the Company and CAI Rail entered into a \$20.0 million five-year term loan agreement with Siemens Financial Services, Inc.. The term loan's outstanding principal bears interest at a fixed rate of 3.4% per annum and is amortized quarterly. Any unpaid principal and interest is due and payable on December 22, 2020. The proceeds from the term loan were primarily used to repay outstanding amounts under CAI Rail's revolving credit facility. As of March 31, 2016, the loan had a balance of \$19.7 million.

Table of Contents

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company's term loans are secured by rental equipment owned by the Company, which had a net book value of \$337.3 million as of March 31, 2016.

(c)Senior Secured Notes

On September 13, 2012, Container Applications Limited (CAL), a wholly-owned subsidiary of the Company, entered into a Note Purchase Agreement with certain institutional investors, pursuant to which CAL issued \$103.0 million of its 4.90% Senior Secured Notes due September 13, 2022 (the Notes) to the investors. The Notes are guaranteed by the Company and secured by certain assets of CAL and the Company.

The Notes bear interest at 4.9% per annum, due and payable semiannually on March 13 and September 13 of each year, commencing on March 13, 2013. In addition, CAL is required to make certain principal payments on March 13 and September 13 of each year, commencing on March 13, 2013. Any unpaid principal and interest is due and payable on September 13, 2022. The Note Purchase Agreement provides that CAL may prepay at any time all or any part of the Notes in an amount not less than 10% of the aggregate principal amount of the Notes then outstanding. As of March 31, 2016, the Notes had a balance of \$74.2 million.

The Notes are secured by certain rental equipment owned by the Company, which had a net book value of \$99.6 million as of March 31, 2016.

(d)Asset-Backed Notes

On October 18, 2012, CAL Funding II Limited (CAL II), a wholly-owned indirect subsidiary of CAI, issued \$171.0 million of 3.47% fixed rate asset-backed notes (Series 2012-1 Asset-Backed Notes). Principal and interest on the Series 2012-1 Asset-Backed Notes is payable monthly commencing on November 26, 2012, and the Series 2012-1 Asset-Backed Notes mature in October 2027. The proceeds from the Series 2012-1 Asset-Backed Notes were used to repay part of the Company's borrowings under its senior revolving credit facility. As of March 31, 2016, the Series 2012-1 Asset-Backed Notes had a balance of \$112.6 million.

On March 28, 2013, CAL II issued \$229.0 million of 3.35% fixed rate asset-backed notes (Series 2013-1 Asset-Backed Notes). Principal and interest on the Series 2013-1 Asset-Backed Notes is payable monthly commencing on April 25, 2013, and the Series 2013-1 Asset-Backed Notes mature in March 2028. The proceeds from the Series 2013-1 Asset-Backed Notes were used partly to reduce the balance of the Company's term loan as described in Note 8 (b)(ii) above, and to partially pay down the Company's senior revolving credit facility. The Series 2013-1 Asset-Backed Notes had a balance of \$160.3 million as of March 31, 2016.

The Company's asset-backed notes are secured by certain rental equipment owned by the Company, which had a net book value of \$348.7 million as of March 31, 2016.

The agreements under each of the asset-backed notes described above require the Company to maintain a restricted cash account to cover payment of the obligations. As of March 31, 2016, the restricted cash account had a balance of \$7.0 million.

(e) Collateralized Financing Obligations

As of March 31, 2016, the Company had collateralized financing obligations of \$99.0 million (see Note 3). The obligations had an average interest rate of 0.9% as of March 31, 2016 with maturity dates between June 2016 and June 2019. The debt is secured by a pool of containers covered under the financing arrangements.

(f) Term Loans Held by VIE

On June 25, 2014, one of the Japanese investor funds that is consolidated by the Company as a VIE (see Note 3) entered into a term loan agreement with a bank. Under the terms of the agreement, the Japanese investor fund entered into two loans; a five-year, amortizing loan of \$9.2 million at a fixed interest rate of 2.7%, and a five-year, non-amortizing loan of \$1.6 million at a variable interest rate based on LIBOR. The debt is secured by assets of the Japanese investor fund, and is subject to certain borrowing conditions set out in the loan agreement. As of March 31, 2016, the term loans held by the Japanese investor fund totaled \$7.1 million and had an average interest rate of 2.8%.

The Company's term loans held by VIE are secured by rental equipment owned by the Japanese investor fund, which had a net book value of \$15.8 million as of March 31, 2016.

The agreements relating to all of the Company's debt contain various financial and other covenants. As of March 31, 2016, the Company was in compliance with all of its debt covenants.

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(9) Stock-Based Compensation Plan

Stock Options

The Company grants stock options to certain employees and independent directors pursuant to its 2007 Equity Incentive Plan (Plan), as amended, which was originally adopted on April 23, 2007. Under the Plan, a maximum of 1,921,980 share awards may be granted.

Stock options granted to employees have a vesting period of four years from grant date, with 25% vesting after one year, and 1/48th vesting each month thereafter until fully vested. Stock options granted to independent directors vest in one year. All of the stock options have a contractual term of ten years.

The following table summarizes the Company's stock option activities for the three months ended March 31, 2016 and 2015:

	Three Months Ended March 31,			
	2016		2015	
	Number of	Weighted	Number of	Weighted
	Shares	Average	Shares	Average
		Exercise		Exercise
		Price		Price
Options outstanding at January 1	1,189,255	\$ 18.08	1,420,749	\$ 15.67
Options exercised - employees	-	\$ -	(354,244)	12.35
Options outstanding at March 31	1,189,255	\$ 18.08	1,066,505	\$ 16.78
Options exercisable	917,729	\$ 16.92	835,276	\$ 15.31
Weighted average remaining term	4.7 years		5.1 years	

The aggregate intrinsic value of stock options exercised during the three months ended March 31, 2015 was \$4.0 million. The aggregate intrinsic value of all options outstanding as of March 31, 2016 was \$0.9 million based on the closing price of the Company's common stock of \$9.66 per share on March 31, 2016, the last trading day of the quarter.

The Company recorded stock-based compensation expense of \$0.4 million for both the three months ended March 31, 2016 and 2015. As of March 31, 2016, the remaining unamortized stock-based compensation cost relating to stock options granted to the Company's employees and independent directors was approximately \$2.1 million which is to be recognized over the remaining weighted average vesting period of approximately 2.5 years.

Restricted Stock

The Company grants restricted stock to certain employees pursuant to the Plan. The restricted stock is valued based on the closing price of the Company's stock on the date of grant and has a vesting period of four years. The following table summarizes the activity of restricted stock under the Plan:

	Number of Shares of Restricted Stock	Weighted Average Grant Date Fair Value
Restricted stock outstanding, December 31, 2015	48,025	\$ 22.70
Restricted stock vested	(2,511)	\$ 23.04
Restricted stock outstanding, March 31, 2016	45,514	\$ 22.68

The Company recognized \$0.1 million of stock-based compensation expense relating to restricted stock for both the three months ended March 31, 2016 and 2015. As of March 31, 2016, unamortized stock-based compensation expense relating to restricted stock was \$0.8 million, which will be recognized over the remaining average vesting period of 2.3 years.

Stock-based compensation expense is recorded as a component of administrative expenses in the Company's consolidated statements of income with a corresponding credit to additional paid-in capital in the Company's consolidated balance sheets.

Table of Contents

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(10)Income Taxes

The consolidated income tax expense for the three months ended March 31, 2016 and 2015 was determined based upon estimates of the Company's consolidated effective income tax rates for the years ending December 31, 2016 and 2015, respectively. The difference between the consolidated effective income tax rate and the U.S. federal statutory rate is primarily attributable to foreign income taxes, state income taxes and the effect of certain permanent differences.

The Company's estimated full year effective tax rate, before certain non-recurring discrete items, was 13.6% at March 31, 2016, compared to 7.9% at March 31, 2015. The higher estimated full year effective tax rate at March 31, 2016 was due primarily to the growth of our railcar fleet during the last twelve months. The increase in the proportion of our railcar fleet combined with a decrease of pretax income in lower tax jurisdictions has led to a corresponding increase in the proportion of pretax income generated in higher tax jurisdictions, resulting in an increase in the effective tax rate.

The Company accounts for uncertain tax positions based on an evaluation as to whether it is more likely than not that a position will be sustained on audit, including resolution of any related appeals or litigation processes. This evaluation is based on all available evidence and assumes that the appropriate tax authorities have full knowledge of all relevant information concerning the tax position. Once it has been determined that a tax position is more likely than not to be sustained on its technical merits, the tax benefit recognized is based on the largest amount that is greater than 50% likely of being realized upon ultimate settlement. As of March 31, 2016, the Company had unrecognized tax benefits of \$0.2 million, which if recognized, would reduce the Company's effective tax rate. Total accrued interest relating to unrecognized tax benefits was less than \$0.1 million as of March 31, 2016. The Company does not believe the total amount of unrecognized tax benefits as of March 31, 2016 will change for the remainder of 2016.

(11)Fair Value of Financial Instruments

The carrying amounts reported in the consolidated balance sheets for cash, accounts receivable and accounts payable approximate fair value because of the immediate or short-term maturity of these financial instruments. The Company's collateralized financing obligations of \$99.0 million as of March 31, 2016 were estimated to have a fair value of approximately \$96.6 million based on the fair value of estimated future payments calculated using prevailing interest rates. The fair value of these financial instruments would be categorized as Level 3 in the fair value hierarchy. Management believes that the balances of the Company's revolving credit facilities of \$711.0 million, term loans totaling \$276.2 million, senior secured notes of \$74.2 million, asset-backed notes of \$272.9 million, term loans held by VIE of \$7.1 million, net investment in direct finance leases of \$105.2 and liabilities relating to the expected future payments for Challenger (see Note 4) of \$3.0 million approximate their fair values as of March 31, 2016. The fair value of these financial instruments would be categorized as Level 3 in the fair value hierarchy.

(12)Commitments and Contingencies

In addition to its debt obligations described in Note 8 above, the Company had commitments to purchase approximately \$296.4 million of rental equipment as of March 31, 2016; \$176.4 million in the twelve months ending March 31, 2017, \$85.1 million in the twelve months ending March 31, 2018, and \$34.8 million in the twelve months ending March 31, 2019. The Company also utilizes certain office facilities and equipment under long-term non-cancellable operating lease agreements with total future minimum lease payments of approximately \$2.6 million as of March 31, 2016.

(13)Related Party Transactions

The Company has transferred legal ownership of certain containers to Japanese container funds that were established by Japan Investment Adviser Co., Ltd. (JIA) and CAIJ, Inc. (CAIJ). CAIJ is an 80%-owned subsidiary of CAI with the remaining 20% owned by JIA. Prior to September 30, 2013, JIA was owned and controlled by the Managing Director of CAIJ. Prior to the transfer of containers from the Company, the container funds received contributions from unrelated Japanese investors, under separate Japanese investment agreements allowed under Japanese commercial laws. The contributions were used to purchase container equipment from the Company. Under the terms of the agreements, the CAI-related Japanese entities manage the activities of certain Japanese entities but may outsource the whole or part of each operation to a third party. Pursuant to its services agreements with investors, the Japanese container funds have outsourced the general management of their operations to CAIJ. The Japanese container funds have also entered into equipment management service agreements and financing arrangements whereby the Company manages the leasing activity of containers owned by the Japanese container funds.

As described in Note 3, the Japanese managed container funds and financing arrangements are considered VIEs. However, with the exception of the financing arrangements described in Note 3, the Company does not consider its interest in the managed Japanese container funds to be a variable interest. As such, the Company did not consolidate the assets and liabilities, results of operations or cash flows of these funds in its consolidated financial statements.

As described in Note 3, the Company has included in its consolidated financial statements, the assets and liabilities, results of operations, and cash flows of the financing arrangements, in accordance with ASC Topic 810, Consolidation.

Table of Contents

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(14)Segment and Geographic Information

The Company organizes itself by the nature of the services it provides which includes equipment leasing, equipment management and logistics.

The container leasing segment is aggregated with equipment management and derives its revenue from the ownership and leasing of containers and fees earned for managing container portfolios on behalf of third party investors. The rail leasing segment derives its revenue from the ownership and leasing of railcars. The logistics segment derives its revenue from the provision of logistics services. There are no inter-segment revenues.

With the exception of administrative expenses, operating expenses are directly attributable to each segment. Administrative expenses that are not directly attributable to a segment are allocated to container or rail leasing based on the net book value of equipment in each segment.

The following tables show condensed segment information for the three months ended March 31, 2016 and 2015, reconciled to the Company's net income before income taxes and non-controlling interest as shown in its consolidated statements of income for such periods (in thousands):

	Three Months Ended March 31, 2016			
	Container	Rail		
	Leasing	Leasing	Logistics	Total
Total revenue	\$ 51,545	\$ 7,257	\$ 8,164	\$ 66,966

Geographic Data

The Company earns its revenue primarily from international containers which are deployed by its customers in a wide variety of global trade routes. Virtually all of the Company's containers are used internationally and typically no container is domiciled in one particular place for a prolonged period of time. As such, substantially all of the Company's long-lived assets are considered to be international, with no single country of use.

The Company's railcars, with a net book value of \$258.0 million as of March 31, 2016, are used primarily to transport cargo within North America.

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The following table represents the geographic allocation of revenue for the periods indicated based on customers' primary domicile (in thousands):

	Three Months Ended	
	March 31,	
	2016	2015
United States	\$ 21,051	\$ 6,504
France	6,345	6,477
Japan	5,641	6,674
Switzerland	4,531	5,143
Korea	3,500	4,811
Other Asia	11,331	16,089
Other Europe	8,856	9,071
Other International	5,711	3,723
Total revenue	\$ 66,966	\$ 58,492

(15)Earnings Per Share

Basic earnings per share is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock; however, potential common equivalent shares are excluded if their effect is anti-dilutive.

The following table sets forth the reconciliation of basic and diluted net income per share for the three months ended March 31, 2016 and 2015 (in thousands, except per share data):

	Three Months Ended March 31,	
	2016	2015
Numerator		
Net income attributable to CAI common stockholders used in the calculation of basic and diluted earnings per share	\$ 7,166	\$ 13,542
Denominator		
Weighted-average shares used in the calculation of basic earnings per share	19,774	20,903
Effect of dilutive securities:		
Stock options and restricted stock	59	392
Weighted-average shares used in the calculation of diluted earnings per share	19,833	21,295
Net income per share attributable to CAI common stockholders:		
Basic	\$ 0.36	\$ 0.65
Diluted	\$ 0.36	\$ 0.64

The calculation of diluted earnings per share for the three months ended March 31, 2016 and 2015 excluded from the denominator 1,007,682 and 445,050 shares, respectively, of common stock options because their effect would have been anti-dilutive.

ITEM 2.MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our audited consolidated financial statements and related notes thereto, included in our Annual Report on Form 10-K for the year ended December 31, 2015 filed with the SEC on March 3, 2016. In addition to historical consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results may differ materially from those contained in or implied by any forward-looking statements. The financial information included in this discussion and in our consolidated financial statements may not be indicative of our consolidated financial position, operating results, changes in equity and cash flows in the future.

Unless the context requires otherwise, references to “CAI,” the “Company,” “we,” “us” or “our” in this Quarterly Report on Form 10-Q refer to CAI International, Inc. and its subsidiaries.

Overview

We are one of the world’s leading transportation finance and logistics companies. We purchase equipment, primarily intermodal shipping containers and railcars, which we lease to our customers. We also manage equipment for third-party investors. In operating our fleet, we lease, re-lease and dispose of equipment and contract for the repair, repositioning and storage of equipment. We also provide domestic and international logistics services.

In July 2015, we purchased ClearPointt Logistics LLC (ClearPointt), a U.S.-based intermodal logistics company focused on the domestic intermodal market, for approximately \$4.1 million. The Company is headquartered in Everett, Washington.

In February 2016, we purchased Challenger Overseas LLC (Challenger), a New Jersey based Non-Vessel Operating Common Carrier (NVOCC), for approximately \$10.8 million.

The following table shows the composition of our fleet as of March 31, 2016 and 2015 and our average utilization for the three months ended March 31, 2016 and 2015:

	As of March 31,	
	2016	2015
Owned container fleet in TEUs	969,994	967,649
Managed container fleet in TEUs	193,269	229,575
Total container fleet in TEUs	1,163,263	1,197,224
Owned container fleet in CEUs	1,025,413	998,166
Managed container fleet in CEUs	173,618	208,326
Total container fleet in CEUs	1,199,031	1,206,492
Owned railcar fleet in units	5,338	2,649

	Three Months Ended March 31,	
	2016	2015
Average container fleet utilization in TEUs	90.6%	92.9%
Average container fleet utilization in CEUs	91.2%	93.5%
Average railcar fleet utilization	96.5%	93.3%

The intermodal marine container industry-standard measurement unit is the 20-foot equivalent unit, or TEU, which compares the size of a container to a standard 20-foot container. For example, a 20-foot container is equivalent to one TEU and a 40-foot container is equivalent to two TEUs. Containers can also be measured in cost equivalent units (CEUs), whereby the cost of each type of container is expressed as a ratio relative to the cost of a standard 20-foot dry van container. For example, the CEU ratio for a standard 40-foot dry van container is 1.6 and a 40-foot high cube container is 1.7. Utilization of containers is computed by dividing the average total units on lease during the period, in CEUs or TEUs, by the total CEUs or TEUs in our container fleet. Utilization of railcars is computed by dividing the average number of railcars on lease during the period by the total number of railcars in our fleet. In both cases, the total fleet excludes new units not yet leased and off-hire units designated for sale.

Table of Contents

Three Months Ended March 31, 2016 Compared to Three Months Ended March 31, 2015

The following table summarizes our operating results for the three months ended March 31, 2016 and 2015 (dollars in thousands):

	Three Months Ended		Increase/(Decrease)	
	March 31, 2016	2015	Amount	Percent
Total revenue	\$ 66,966	\$ 58,492	\$ 8,474	14 %
Operating expenses	48,510	34,842	13,668	39
Other expenses	10,123	8,737	1,386	16
Net income attributable to CAI common stockholders	7,166	13,542	(6,376)	(47)

Total revenue for the three months ended March 31, 2016 increased \$8.5 million, or 14%, compared to the three months ended March 31, 2015, primarily due to a \$4.3 million, or 149%, increase in rail lease income and an \$8.2 million increase in logistics revenue, partially offset by a \$3.4 million, or 6%, decrease in container lease income and a \$0.6 million, or 50%, decrease in management fee revenue. Operating expenses for the three months ended March 31, 2016 increased \$13.7 million, or 39%, compared to the three months ended March 31, 2015, mainly as a result of a \$1.8 million, or 9%, increase in depreciation expense, a \$2.3 million, or 34%, increase in storage, handling and other expenses, a \$6.9 million increase in logistics transportation costs, a \$1.1 million, or 305%, decrease in gain on sale of used rental equipment and a \$1.5 million, or 21%, increase in administrative expenses. Other expenses for the three months ended March 31, 2016 increased \$1.4 million, or 16%, compared with the same three-month period in 2015. The increase in revenue was offset by the increase in operating expenses, and resulted in a \$6.4 million, or 47%, decrease in net income attributable to CAI common stockholders for the three months ended March 31, 2016 compared to the same three-month period in 2015.

Revenue. The following discussion explains the significant changes in the composition of our total revenue for the three months ended March 31, 2016 compared to the three months ended March 31, 2015:

Container Lease Income. Container lease income decreased \$3.4 million, or 6%, to \$50.9 million for the three months ended March 31, 2016, from \$54.3 million for the three months ended March 31, 2015. The decrease was primarily due to a \$0.5 million decrease in rental revenue attributable to a 1% decrease in the average number of CEUs of owned containers on lease and a \$1.6 million decrease in rental revenue resulting from a 3% decrease in average owned container per diem rental rates. The reduction in average container per diem rental rates has been caused by competitive market pressure, as well as our investment in used containers through sale and leaseback transactions and the acquisition of container portfolios from our managed fleet. Used containers are purchased at a lower price, and command a lower per diem rental rate, than new containers. Approximately 21% of our investment in containers during the last twelve months was in used containers.

New container prices have declined in recent periods, primarily due to a drop in steel prices, leading to decreases in container per diem rates. Demand for new containers has also softened, primarily due to economic conditions in China, resulting in a decline in container rental revenue that may continue in future periods. As a result of current conditions in the container market we are investing more heavily in railcars and expect our revenues in this business to grow in future periods.

Rail Lease Income. Rail lease income increased \$4.3 million, or 149%, to \$7.3 million for the three months ended March 31, 2016 from \$2.9 million for the three months ended March 31, 2015, primarily as a result of a 111% increase in the average size of our railcar fleet during the last twelve months. The average lease income per railcar has also increased as new railcars, which command higher per diem rental rates than used railcars, now form a larger percentage of the fleet.

Logistics Revenue. Logistics revenue of \$8.2 million was recognized for the three months ended March 31, 2016, mainly attributable to the acquisition of ClearPointt in July 2015 and Challenger during the current quarter.

Management Fee Revenue. Management fee revenue decreased \$0.6 million, or 50%, to \$0.6 million for the three months ended March 31, 2016 from \$1.3 million for the three months ended March 31, 2015 primarily due to a 24% reduction in the size of the on-lease managed container fleet as a result of our purchase of previously managed container portfolios, and a decrease of 17% in average per diem rates in our managed fleet for the three months ended March 31, 2016 compared to the three months ended March 31, 2015.

The size of our managed fleet has decreased in the past several years as market conditions have favored the purchase of container portfolios from our managed container fleet rather than establishing new portfolios. We continue to believe that the management of equipment for third party investors is beneficial to our company and we will continue to pursue those opportunities. At the same time, based on market conditions, we intend to continue to pursue the purchase of container portfolios from our managed fleet if attractive opportunities present themselves. Consequently, market conditions will dictate whether there will be net additions or subtractions from our managed fleet.

Table of Contents

Expenses. The following discussion explains the significant changes in expenses for the three months ended March 31, 2016 compared to the three months ended March 31, 2015:

Depreciation of Rental Equipment. Depreciation of rental equipment increased by \$1.8 million, or 9%, to \$23.0 million for the three months ended March 31, 2016, from \$21.2 million for the three months ended March 31, 2015. This increase was primarily attributable to an increase of \$1.2 million in depreciation in CAI Rail, reflecting the increase in size of our railcar fleet over the past twelve months and a \$0.6 million impairment charge recorded during the quarter for certain off-lease damaged containers that we intend to sell.

Storage, Handling and Other Expenses. Storage, handling and other expenses increased by \$2.3 million, or 34%, to \$9.1 million for the three months ended March 31, 2016, from \$6.8 million for the three months ended March 31, 2015. The increase was primarily attributable to a \$2.3 million increase in storage costs caused by the average volume of off-lease owned container equipment increasing by 67% compared to the prior year.

Logistics Transportation Costs. Logistics transportation costs of \$6.9 million was recognized for the three months ended March 31, 2016, mainly attributable to the acquisition of ClearPointt in July 2015 and Challenger during the current quarter.

Loss (Gain) on Sale of Used Rental Equipment. We incurred a loss on the sale of used rental equipment of \$0.7 million during the three months ended March 31, 2016, compared to a gain of \$0.4 million for the three months ended March 31, 2015. The decrease has primarily been caused by a reduction in average sale price, reflecting the continued decline in new equipment prices, as well as the impact of the strengthening of the dollar compared to other currencies.

Administrative Expenses. Administrative expenses increased by \$1.5 million, or 21%, to \$8.7 million for the three months ended March 31, 2016, from \$7.2 million for the three months ended March 31, 2015. The increase was primarily a result of \$1.1 million of administrative expenses incurred by our new logistics acquisitions, ClearPointt and Challenger. There were also higher employee-related costs as a result of an increase in headcount, particularly in our Rail and Logistics businesses.

Net Interest Expense. Net interest expense increased by \$1.2 million, or 14%, to \$10.0 million for the three months ended March 31, 2016, from \$8.8 million for the three months ended March 31, 2015. The increase in net interest expense was due primarily to an increase in our average loan principal balance as we continue to increase our borrowings to finance our acquisition of additional rental equipment, particularly in our Rail business.

Other Expense (Income). Other expense of \$0.1 million for the three months ended March 31, 2016 decreased \$0.2 million, or 416%, from income of less than \$0.1 million for the three months ended March 31, 2015. The decrease was mainly attributable to a loss on foreign exchange of \$0.1 million for the three months ended March 31, 2016. Gains and losses on foreign currency primarily occur when foreign denominated financial assets and liabilities are either settled or remeasured in U.S. dollars. The loss on foreign exchange for the three months ended March 31, 2016 was primarily the result of movements in the U.S. dollar exchange rate against the Euro.

Income Tax Expense. Income tax expense decreased by \$0.2 million, or 16%, to \$1.1 million for the three months ended March 31, 2016, from \$1.3 million for the three months ended March 31, 2015. The full year estimated effective tax rate at March 31, 2016, before certain non-recurring discrete items, was 13.6%, compared to 7.9% for the three months ended March 31, 2015. The increase in rate is primarily attributable to the growth of our railcar fleet during the last twelve months, the profits of which are subject to tax at U.S. rates.

Liquidity and Capital Resources

Our principal sources of liquidity have been cash flows from operations, sales of equipment portfolios, borrowings from financial institutions and equity offerings. We believe that cash flow from operations, future sales of equipment portfolios and borrowing availability under our credit facilities are sufficient to meet our liquidity needs for at least the next 12 months.

We have typically funded a significant portion of the purchase price for new equipment through borrowings under our credit facilities. However, from time to time we have funded new equipment acquisitions through the use of working capital.

Revolving Credit Facilities

(i) On March 15, 2013, we entered into the Third Amended and Restated Revolving Credit Agreement, as amended, with a consortium of banks to finance the acquisition of container rental equipment and for general working capital purposes. As of March 31, 2016, the maximum commitment under the revolving credit facility was \$775.0 million, which may be increased to a maximum of \$960.0 million under certain conditions described in the agreement. As of March 31, 2016, we had an outstanding balance of \$533.0 million and availability of \$241.9 million under the revolving credit facility (net of \$0.1 million in letters of credit), subject to our ability to meet the collateral requirements under the agreement governing the facility. Based on the borrowing base and collateral requirements at March 31, 2016, the borrowing availability under the revolving credit facility was \$75.7 million, assuming no additional contribution of assets. The entire amount of the facility drawn at any time plus accrued interest and fees is callable on demand in the event of certain specified events of default.

Table of Contents

There is a commitment fee on the unused amount of the total commitment, payable quarterly in arrears. The revolving credit facility provides that swing line loans (short-term borrowings of up to \$10.0 million in the aggregate that are payable within 10 business days or at maturity date, whichever comes earlier) and standby letters of credit (up to \$15.0 million in the aggregate) will be available to us. These credit commitments are part of, and not in addition to, the maximum credit commitment. The interest rates vary depending upon whether the loans are characterized as Base Rate loans or Eurodollar Rate loans as defined in the revolving credit facility. Interest rates are based on LIBOR for Eurodollar loans and Base Rate for Base Rate loans. As of March 31, 2016, the average interest rate on the revolving credit facility was 1.9%. The revolving credit facility will mature in March 2020.

We use the revolving credit facility primarily to fund the purchase of containers and for general working capital needs. As of March 31, 2016, we had commitments to purchase \$19.1 million of containers and had rental equipment payable of \$9.9 million. We have typically used our cash flow from operations and the proceeds from sales of equipment portfolios to third-party investors to repay our revolving credit facility. As we expand our owned fleet, the revolving credit facility balance will be higher and will result in higher interest expense.

(ii) On October 22, 2015, we entered into the Second Amended and Restated Revolving Credit Agreement for CAI Rail with a consortium of banks, pursuant to which the prior revolving credit facility was amended. As of March 31, 2016, the maximum credit commitment under the revolving credit facility was \$500.0 million. CAI Rail's revolving credit facility may be increased up to a maximum of \$700.0 million, in accordance with the terms of the agreement. Borrowings under this revolving credit facility bear interest at a variable rate. The interest rates vary depending upon whether the loans are characterized as Base Rate loans or Eurodollar loans, as defined in the revolving credit agreement. Interest rates are based on LIBOR for Eurodollar loans and Base Rate for Base Rate loans. As of March 31, 2016, the average interest rate under the agreement was 1.9%.

As of March 31, 2016, the outstanding balance under CAI Rail's revolving credit facility was \$178.0 million. As of March 31, 2016, we had \$322.0 million in availability under the facility, subject to our ability to meet the collateral requirements under the agreement governing the facility. Based on the borrowing base and collateral requirements at March 31, 2016, the borrowing availability under the revolving credit facility was \$8.2 million, assuming no additional contribution of assets. The entire amount of the facility drawn at any time plus accrued interest and fees is callable on demand in the event of certain specified events of default. The revolving credit facility for CAI Rail will terminate in October 2020.

We use the revolving credit facility primarily to fund the purchase of railcars. As of March 31, 2016, we had commitments to purchase \$277.3 million of railcars; \$157.4 million in the twelve months ending March 31, 2017, \$85.1 million in the twelve months ending March 31, 2018 and \$34.8 million in the twelve months ending March 31, 2019.

Term Loan Facilities

(i) On March 22, 2013, we entered into a \$30.0 million five-year loan agreement with Development Bank of Japan (DBJ). The loan is payable in 19 quarterly installments of \$0.5 million starting July 31, 2013 and a final payment of \$21.5 million on April 30, 2018. The loan bears a variable interest rate based on LIBOR. As of March 31, 2016, the loan had a balance of \$25.1 million and an average interest rate of 2.6%.

(ii) On December 20, 2010, we entered into a term loan agreement with a consortium of banks. Under this loan agreement, we were eligible to borrow up to \$300.0 million, subject to certain borrowing conditions, which amount is secured by certain assets of our wholly owned foreign subsidiaries. The loan agreement is an amortizing facility with a

term of six years. The interest rates vary depending upon whether the loans are characterized as Base Rate loans or Eurodollar rate loans, as defined in the term loan agreement. The loan bears a variable interest rate based on LIBOR for Eurodollar loans and Base Rate for base rate loans.

On March 28, 2013, the term loan agreement was amended which reduced the principal balance of the loan from \$249.4 million to \$125.0 million through payment of \$124.4 million from the proceeds of the \$229.0 million fixed-rate asset-backed notes issued by the Company's indirect wholly-owned subsidiary, CAL Funding II Limited (see paragraph (ii) of Asset-Backed Notes below).

On October 1, 2014, we entered into an amended and restated term loan agreement with a consortium of banks, pursuant to which the prior loan agreement was refinanced. The amended and restated term loan agreement, which contains similar terms to the prior loan agreement, was amended to, among other things: (a) reduce borrowing rates from LIBOR plus 2.25% to LIBOR plus 1.6% (per annum) for Eurodollar loans, (b) increase the loan commitment from \$115.0 million to \$150.0 million, (c) extend the maturity date to October 1, 2019, and (d) revise certain of the covenants and restrictions under the prior loan agreement to provide the Company with additional flexibility. As of March 31, 2016, the term loan had a balance of \$136.5 million and average interest rate of 2.2%.

Table of Contents

(iii) On April 11, 2012, we entered into another term loan agreement with a consortium of banks. The agreement, as amended, provides for a five-year term loan of up to \$142.0 million, subject to certain borrowing conditions, which amount is secured by certain of our assets. The commitment under the loan may be increased to a maximum of \$200.0 million, under certain conditions described in the agreement. The term loan's outstanding principal bears interest based on LIBOR and is amortized quarterly, with quarterly payments equal to 1.75% multiplied by the outstanding principal amount at such time. The full \$142.0 million has been drawn and was primarily used to repay outstanding amounts under the revolving credit facility. All unpaid amounts then outstanding are due and payable on April 11, 2017. As of March 31, 2016, the loan had a balance of \$94.9 million and an interest rate of 2.2%.

(iv) On December 22, 2015, we entered into a \$20.0 million five-year term loan agreement for CAI Rail with Siemens Financial Services, Inc.. The term loan's outstanding principal bears interest at a fixed rate of 3.4% per annum and is amortized quarterly. Any unpaid principal and interest is due and payable on December 22, 2020. The proceeds from the term loan were primarily used to repay outstanding amounts under CAI Rail's revolving credit facility. As of March 31, 2016, the loan had a balance of \$19.7 million.

Asset-Backed Notes

(i) On October 18, 2012, CAL II issued \$171.0 million of 3.47% fixed rate asset-backed notes (Series 2012-1 Asset-Backed Notes). Principal and interest on the Series 2102-1 Asset-Backed Notes is payable monthly commencing on November 26, 2012, and the Series 2012-1 Asset-Backed Notes mature in October 2027. The proceeds from the Series 2012-1 Asset-Backed Notes were used to repay part of the Company's borrowings under its senior revolving credit facility. The Series 2012-1 Asset-Backed Notes had a balance of \$112.6 million as of March 31, 2016.

(ii) On March 28, 2013, CAL II issued \$229.0 million of 3.35% fixed rate asset-backed notes (Series 2013-1 Asset-Backed Notes). Principal and interest on the Series 2013-1 Asset-Backed Notes is payable monthly commencing on April 25, 2013, and the Series 2013-1 Asset-Backed Notes mature in March 2028. The proceeds from the new Series 2013-1 Asset-Backed Notes were used partly to reduce the balance of the Company's term loan with a consortium of banks as described in paragraph (ii) of Term Loan Facilities above, and to partially pay down the Company's senior revolving credit facility. The Series 2013-1 Asset-Backed Notes had a balance of \$160.3 million as of March 31, 2016.

The agreements under each of the asset-backed notes described above require the Company to maintain a restricted cash account to cover payment of the obligations. As of March 31, 2016, the restricted cash account had a balance of \$7.0 million.

Other Debt Obligations

On September 13, 2012, our wholly-owned subsidiary, Container Applications Limited (CAL), entered into a Note Purchase Agreement with certain institutional investors, pursuant to which CAL issued \$103.0 million of its 4.90% Senior Secured Notes due September 13, 2022 (the Notes) to the investors. The Notes are guaranteed by us and secured by certain of our assets and those of CAL.

The Notes bear interest at 4.9% per annum, due and payable semiannually on March 13 and September 13 of each year, commencing on March 13, 2013. In addition, CAL is required to make certain principal payments on March 13 and September 13 of each year, commencing on March 13, 2013. Any unpaid principal and interest is due and payable on September 13, 2022. As of March 31, 2016, the Notes had a balance of \$74.2 million.

On June 25, 2014, one of the Japanese investor funds that is consolidated by us as a VIE (see Note 3 to our unaudited consolidated financial statements) entered into a term loan agreement with a bank. Under the terms of the agreement, the Japanese investor fund entered into two loans; a five-year, amortizing loan of \$9.2 million at a fixed interest rate of 2.7%, and a five-year, non-amortizing loan of \$1.6 million at a variable interest rate based on LIBOR. The debt is secured by assets of the Japanese investor fund, and is subject to certain borrowing conditions set out in the loan agreement. As of March 31, 2016, the term loans held by the Japanese investor fund totaled \$7.1 million and had an average interest rate of 2.8%.

As of March 31, 2016, we had collateralized financing obligations totaling \$99.0 million (see Note 3 to our unaudited consolidated financial statements). The obligations had an average interest rate of 0.9% as of March 31, 2016 with maturity dates between June 2016 and June 2019.

Our term loans, senior secured notes, asset-backed notes, collateralized financing obligations, term loans held by VIEs and capital lease obligations are secured by specific pools of rental equipment and other assets owned by the Company, the underlying leases thereon and the Company's interest in any money received under such contracts.

In addition to customary events of default, our revolving credit facilities and term loans contain restrictive covenants, including limitations on certain liens, indebtedness and investments. In addition, all of our debt facilities contain various restrictive financial and other covenants. The financial covenants in our debt facilities require us to maintain (1) a consolidated funded debt to consolidated tangible net worth ratio of no more than 3.75:1.00; and (2) a fixed charge coverage ratio of at least 1.20:1.00. As of March 31, 2016, we were in compliance with all of our debt covenants.

Table of Contents

Under certain conditions, as defined in our credit agreements with our banks and/or note holders, we are subject to certain cross default provisions that may result in an acceleration of principal repayments if an uncured default condition were to exist. Our asset-backed notes are not subject to any such cross default provisions.

Cash Flow

The following table sets forth certain cash flow information for the three months ended March 31, 2016 and 2015 (in thousands):

	Three Months Ended	
	March 31,	
	2016	2015
Net income	\$ 7,200	\$ 13,571
Adjustments to income	22,911	20,633
Net cash provided by operating activities	30,111	34,204
Net cash used in investing activities	(32,736)	(69,309)
Net cash provided by financing activities	2,968	38,413
Effect on cash of foreign currency translation	206	(469)
Net increase in cash	549	2,839
Cash at beginning of period	52,553	53,821
Cash at end of period	\$ 53,102	\$ 56,660

Operating Activities Cash Flows

Net cash provided by operating activities of \$30.1 million for the three months ended March 31, 2016 decreased \$4.1 million from \$34.2 million for the three months ended March 31, 2015. The decrease was due to a \$3.8 million decrease in net income as adjusted for depreciation, amortization and other non-cash items, and a \$0.3 million decrease in our net working capital adjustments. Net working capital used in operating activities of \$2.4 million in the three months ended March 31, 2016 was due to an \$8.0 million increase in accounts receivable, primarily caused by the timing of receipts, partially offset by a \$4.0 million increase in accounts payable, accrued expenses and other liabilities, primarily caused by the timing of payments, and a \$1.4 million increase in unearned revenue, caused by an increase in the amount of advanced billing. Net working capital used in operating activities of \$2.2 million in the three months ended March 31, 2015 was due to a \$5.9 million decrease in accounts payable, accrued expenses and other liabilities, primarily caused by the timing of payments and a \$3.0 million decrease in amounts due to container investors, partially offset by a \$6.2 million increase in accounts receivable, primarily caused by the timing of receipts, and a \$0.5 million increase in unearned revenue, caused by an increase in the amount of advanced billings.

Investing Activities Cash Flows

Net cash used in investing activities decreased \$36.6 million to \$32.7 million for the three months ended March 31, 2016 from \$69.3 million for the three months ended March 31, 2015. The decrease in cash usage was primarily attributable to a \$42.5 million decrease in the purchase of rental equipment and a decrease of \$1.1 million in cash proceeds received from sales of used rental equipment, partially offset by the \$6.7 million acquisition of our new logistics business and an increase of \$1.9 million in receipt of principal payments from direct finance leases.

Financing Activities Cash Flows

Net cash provided by financing activities for the three months ended March 31, 2016 decreased \$35.4 million compared to the three months ended March 31, 2015 primarily as a result of lower net borrowings being required to finance the acquisition of rental equipment. During the three months ended March 31, 2016, our net cash inflow from borrowings was \$8.8 million compared to \$34.6 million for the three months ended March 31, 2015, reflecting a decrease in investment in rental equipment during the three months ended March 31, 2016 compared to the three months ended March 31, 2015. The decrease was also attributable to an increase of \$6.0 million used to repurchase our stock and a decrease of \$4.4 million in proceeds received from the exercise of stock options.

Table of Contents

Contractual Obligations and Commercial Commitments

The following table sets forth our contractual obligations and commercial commitments by due date as of March 31, 2016 (in thousands):

	Payments Due by Period						
	Total	Less than 1 year	1-2 years	2-3 years	3-4 years	4-5 years	More than 5 years
Total debt obligations:							
Revolving credit facilities	\$ 711,000	\$ 3,000	\$ -	\$ -	\$ 530,000	\$ 178,000	\$ -
Term loans	276,169	21,869	96,923	31,659	110,751	14,967	-
Senior secured notes	74,160	6,110	6,110	6,110	6,110	6,110	43,610
Asset-backed notes	272,875	40,000	40,000	40,000	40,000	40,000	72,875
Collateralized financing obligations	99,027	44,545	16,187	28,129	10,166	-	-
Term loans held by VIE	7,120	1,829	1,829	1,829	1,633	-	-
Interest on debt and capital lease obligations (1)	122,549	33,218	29,060	26,599	22,360	5,950	5,362
Rental equipment payable	9,940	9,940	-	-	-	-	-
Rent, office facilities and equipment	2,638	1,452	970	193	23	-	-
Equipment purchase commitments	296,354	176,430	85,125	34,799	-	-	-
Total contractual obligations	\$ 1,871,832	\$ 338,393	\$ 276,204	\$ 169,318	\$ 721,043	\$ 245,027	\$ 121,847

(1) Our estimate of interest expense commitment includes \$53.8 million relating to our revolving credit facilities, \$16.3 million relating to our term loans, \$17.8 million relating to our senior secured notes, \$32.0 million relating to our asset back notes, \$2.3 million relating to our collateralized financing obligations, and \$0.4 million relating to our term loans held by VIEs. The calculation of interest commitment related to our debt assumes the following weighted-average interest rates as of March 31, 2016: revolving credit facilities, 1.9%; term loans, 2.4%; senior secured notes, 4.9%; asset-backed notes, 3.4%; collateralized financing obligations, 0.9%; and term loans held by VIE, 2.8%. These calculations assume that weighted-average interest rates will remain at the same level over the next five years. We expect that interest rates will vary over time based upon fluctuations in the underlying indexes upon which these rates are based.

See Note 8 to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q for a description of the terms of our debt.

Off-Balance Sheet Arrangements

As of March 31, 2016, we had no material off-balance sheet arrangements or obligations other than noted below. An off-balance sheet arrangement includes any contractual obligation, agreement or transaction arrangement involving an unconsolidated entity under which we would have: (1) retained a contingent interest in transferred assets; (2) an obligation under derivative instruments classified as equity; (3) any obligation arising out of a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to us, or that engages in leasing, hedging or research and development services with us; or (4) made guarantees.

We transferred ownership of certain equipment to Japanese equipment funds which were established by Japan Investment Adviser Co., Ltd. (JIA) and CAIJ. CAIJ is an 80%-owned subsidiary of CAI with the remaining 20% owned by JIA. Prior to September 30, 2013, JIA was owned and controlled by a Managing Director of CAIJ. Prior to the purchase of equipment from us, the purchasing entities had received contributions from unrelated Japanese investors, under separate Japanese investment agreements allowed under Japanese commercial laws. The contributions were used to purchase equipment from us. Under the terms of the agreements, the CAI-related Japanese entities manage each of the investments but may outsource the whole or part of each operation to a third party. Pursuant to its services agreements with investors, the Japanese equipment funds have outsourced the general management of their operations to CAIJ. The Japanese equipment funds have also entered into equipment management service agreements and financing arrangements whereby we manage the leasing activity of equipment owned by the Japanese equipment funds. The profit or loss from each investment will substantially belong to each respective investor, except with respect to certain financing arrangements where the terms of the transaction provide us with an option to purchase equipment at a fixed price. If we decide to exercise our purchase options and resell equipment to a third party, we would realize any profit from the sale. See Notes 3 and 13 to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q.

Table of Contents

Critical Accounting Policies and Estimates

There have been no changes to our accounting policies during the three months ended March 31, 2016. See Note 2 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2015 filed with the SEC on March 3, 2016.

Recent Accounting Pronouncements

The most recent accounting pronouncements that are relevant to our business are described in Note 2(b) to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of changes in value of a financial instrument, derivative or non-derivative, caused by fluctuations in foreign exchange rates and interest rates. Changes in these factors could cause fluctuations in our results of operations and cash flows. We are exposed to the market risks described below.

Foreign Exchange Rate Risk. Although we have significant foreign-based operations, the U.S. Dollar is our primary operating currency. Thus, most of our revenue and expenses are denominated in U.S. Dollars. We have equipment sales in British Pound Sterling, Euros and Japanese Yen and incur overhead costs in foreign currencies, primarily in British Pound Sterling and Euros. CAI Consent Sweden AB, one of our wholly-owned subsidiaries, has significant amounts of revenue as well as expenses denominated in Euros and Swedish Krone. During the three months ended March 31, 2016, the U.S. Dollar increased in value in relation to other major foreign currencies (such as the Euro and British Pound Sterling). The increase in the U.S. Dollar has decreased our revenues and expenses denominated in foreign currencies. The increase in the value of the U.S. Dollar relative to foreign currencies will also result in U.S. dollar denominated assets held at some of our foreign subsidiaries to increase in value relative to the foreign subsidiaries' local currencies. For the three months ended March 31, 2016, we recognized a loss on foreign exchange of \$0.1 million. A 10% change in foreign exchange rates would not have a material impact on our business, financial position, results of operations or cash flows.

Interest Rate Risk. The nature of our business exposes us to market risk arising from changes in interest rates to which our variable-rate debt is linked. As of March 31, 2016, the principal amount of debt outstanding under the variable-rate arrangements of our revolving credit facilities was \$711.0 million. In addition, at March 31, 2016, we had balances on our variable-rate term loans of \$256.4 million and term loans held by VIE of \$7.1 million. The average interest rate on our variable rate debt was 2.0% as of March 31, 2016 based on LIBOR plus a margin based on certain conditions set forth in our debt agreements.

A 1.0% increase or decrease in underlying interest rates for these debt obligations will increase or decrease interest expense by approximately \$9.7 million annually assuming debt remains constant at March 31, 2016 levels.

We do not currently participate in hedging, interest rate swaps or other transactions to manage the market risks described above.

ITEM 4.CONTROLS AND PROCEDURES

Management Evaluation of Disclosure Controls and Procedures

In accordance with Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), we carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon such evaluation, our President and Chief Executive Officer and our Chief Financial Officer concluded that as of March 31, 2016 our disclosure controls and procedures were effective with respect to controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms and are accumulated and communicated to the Company’s management, including the Company’s principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under Exchange Act) that occurred during the quarter ended March 31, 2016, which has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II — OTHER INFORMATION

ITEM 1.LEGAL PROCEEDINGS

From time to time we may be a party to litigation matters or disputes arising in the ordinary course of business, including in connection with enforcing our rights under our leases. Currently, we are not a party to any legal proceedings which are material to our business, financial condition, results of operations or cash flows.

ITEM 1A.RISK FACTORS

Before making an investment decision, investors should carefully consider the risks described below and in the “Risk Factors” in Part 1: Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015 filed with the SEC on March 3, 2016. These risks are not the only ones facing our company. Additional risks not currently known to us or that we currently believe are immaterial may also impair our business operations. Any of these risks could adversely affect our business, cash flows, financial condition and results of operations. The trading price of our common stock could fluctuate due to any of these risks, and investors may lose all or part of their investment. In assessing these risks, investors should also refer to the other information contained or incorporated by reference in this Quarterly Report on Form10-Q. Except as set forth below, there have been no material changes in our risk factors from those discussed in our Annual Report on Form 10-K for the year ended December 31, 2015.

Lessee defaults may adversely affect our business, financial condition, results of operations and cash flow

We believe that the risk of large lessee defaults remains elevated. Excess vessel capacity over the last several years has led to very low ocean freight rates, which has resulted in, for certain carriers, large financial losses. Two major Asian shipping lines, for example, have recently entered into restructuring negotiations with their creditors. We expect excess vessel capacity to persist and freight rates to remain under pressure, which could adversely affect the credit worthiness of our customers. A large lessee default could have a material adverse effect on our business, financial condition, results of operations and cash flow.

ITEM 2.UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

Period	Total Number of Shares (or Units) Purchased(1)	Average Price Paid per Share (or Unit) (1)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs(1)	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under
--------	--	--	--	---

				the Plans or Programs(1)
January 1, 2016—January 31, 2016	210,967	\$ 8.65	210,967	1,699,733
February 1, 2016—February 29, 2016	80,300	7.23	80,300	1,619,433
March 1, 2016—March 31, 2016	412,545	8.75	412,545	1,206,888
Total	703,812	\$ 8.54	703,812	1,206,888

(1) On February 4, 2016, the Company's Board of Directors approved a one million share increase in the previously approved share repurchase program bringing the total authorized for repurchase to two million shares of our outstanding common stock. During the three months ended March 31, 2016, we repurchased and retired 703,812 shares of our common stock at a weighted-average price of \$8.54 per share for an aggregate price of approximately \$6.0 million excluding related commission charges, under our publicly-announced repurchase plan. As of March 31, 2016, approximately 1.2 million shares remained available for repurchase under our share repurchase plan.

ITEM 3.DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4.MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5.OTHER INFORMATION

None.

ITEM 6.EXHIBITS

See the Exhibit Index following the signature page to this Quarterly Report on Form 10-Q for a list of exhibits filed or furnished with this report, which are incorporated by reference herein.
