PART I. Financial Information

Item 1. Financial Statements

The accompanying unaudited condensed consolidated financial statements of Boyd Gaming Corporation (and together with its subsidiaries, the "Company," "we" or "us") have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and, therefore, do not include all information and footnote disclosures necessary for complete financial statements in conformity with accounting principles generally accepted in the United States ("GAAP").

The results for the periods indicated are unaudited, but reflect all adjustments (consisting only of normal recurring adjustments) that management considers necessary for a fair presentation of financial position, results of operations and cash flows. Results of operations and cash flows for the interim periods presented herein are not necessarily indicative of the results that would be achieved during a full year of operations or in future periods.

When we filed our Annual Report on Form 10-K for the year ended December 31, 2010 with the Securities and Exchange Commission ("SEC") on March 15, 2011, and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2010 with the SEC on August 5, 2010 (the "Provisional Form 10-K" or "Provisional Form 10-Q", respectively, or collectively, the "Provisional Forms"), the initial acquisition method accounting for the effective change in control of Borgata Hotel Casino and Spa ("Borgata") was incomplete. The application of acquisition method accounting, required in accordance with the authoritative accounting guidance for business combinations, initially had the following effects on our unaudited condensed consolidated financial statements: (i) our previously held equity interest was measured at a provisional fair value at the date control was obtained; (ii) we recognized and measured the provisional fair value of the identifiable assets and liabilities in accordance with promulgated valuation recognition and measurement provisions; and (iii) we recorded the provisional fair value of the noncontrolling interest held in trust as a separate component of our stockholders' equity.

Since the filing of the Provisional Forms, we have made adjustments to the provisional fair value amounts recognized at the date of effective change in control, or March 24, 2010, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts recognized as of that date. These adjustments, referred to herein as "measurement period adjustments" materially shifted the value of certain tangible and intangible assets. We have applied the measurement period adjustments retrospectively to the condensed consolidated balance sheet reported as of December 31, 2010, as previously reported in the Provisional Form 10-K; however, the impact on the accompanying condensed consolidated statement of operations for the three and six months ended June 30, 2010, as retrospectively adjusted to the statement as reported on the Provisional Form 10-Q was not material, and was therefore not adjusted for any measurement period adjustments.

These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2010.

BOYD GAMING CORPORATION AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Boyd Gaming Corporation (and together with its subsidiaries, the “Company,” “we” or “us”) was incorporated in the state of Nevada in 1988 and has been operating since 1973. The Company's common stock is traded on the New York Stock Exchange under the symbol “BYD”.

We are a diversified operator of 15 wholly-owned gaming entertainment properties and one controlling interest in a limited liability company. Headquartered in Las Vegas, we have gaming operations in Nevada, Illinois, Louisiana, Mississippi, Indiana and New Jersey, which we aggregate in order to present four reportable segments: (i) Las Vegas Locals; (ii) Downtown Las Vegas; (iii) Midwest and South; and (iv) Atlantic City.

We also own and operate Dania Jai-Alai, which is a pari-mutuel jai-alai facility with approximately 47 acres of related land located in Dania Beach, Florida. On April 29, 2011, we and Dania Entertainment Center, LLC (the “Buyer”) entered into an Asset Purchase Agreement (the “Agreement”) for the sale of certain assets and liabilities of the Dania Jai-Alai Business (as defined below).

Pursuant to the terms of the Agreement, we agreed to sell and transfer, and the Buyer agreed to purchase and assume, certain assets and liabilities (“Assets and Liabilities”) related to our Dania Jai Alai pari-mutuel facility, located in Dania Beach, Broward County, Florida at which jai alai and related gaming operations are conducted, including poker and inter-track wagering (the “Dania Jai-Alai Business”), for a purchase price of \$80.0 million (the “Purchase Price”), subject to adjustment based on the amount of cash held by the Business as of the closing, including a non-refundable (except under certain limited circumstances) deposit of \$5.0 million.

The closing of the transactions contemplated by the Agreement is subject to certain conditions, including without limitation, (i) the receipt of all consents, approvals or authorizations required to permit us to transfer to the Buyer, and the Buyer to acquire from us, certain jai alai permits required to operate jai alai at the Dania facility; (ii) the absence of injunctions, judgments or other legal impediments seeking to prohibit the closing of the transaction; (iii) the expiration or termination of any required waiting periods under the Hart-Scott-Rodino Antitrust Improvements Act of 1976; and (v) other customary closing conditions. In addition to other termination rights and events set forth in the Agreement, the Buyer has the right to terminate the Agreement at any time prior to the closing date based upon the Buyer's due diligence of the Assets and Liabilities. The closing must occur by September 26, 2011 (the “Outside Date”); provided that the Buyer may extend the Outside Date under certain limited circumstances until November 28, 2011 with payment of \$2.0 million to us, \$1.0 million of which shall be applied to the Purchase Price. We currently anticipate that the closing will occur in the third quarter of 2011; however, there can be no assurance that this transaction will close as scheduled, or at all.

We also own and operate a travel agency in Hawaii, and a captive insurance company, also in Hawaii, that underwrites travel-related insurance.

Additionally, we own 85 acres of land on the Las Vegas Strip, where our multibillion dollar Echelon development project (“Echelon”) is located. On August 1, 2008, due to the difficult environment in the capital markets, as well as weak economic conditions, we announced the delay of Echelon. At such time, however, we did not anticipate the severity or the long-term effects of the current economic downturn, evidenced by lower occupancy rates, declining room rates and reduced consumer spending across the country, but particularly in the Las Vegas geographical area;

nor did we predict that the incremental supply becoming available on the Las Vegas Strip would face such depressed demand levels, thereby elongating the time for absorption of this additional supply into the market. As we do not believe that a significant level of economic recovery has occurred along the Las Vegas Strip, we do not expect to resume construction of Echelon for three to five years, as previously disclosed. We also do not believe that financing for a development project like Echelon is currently available.

**Basis of Presentation**

**Interim Condensed Consolidated Financial Statements**

As permitted by the rules and regulations of the SEC, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, although we believe that the disclosures made are adequate to make the information reliable. These condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year

BOYD GAMING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

ended December 31, 2010.

In our opinion, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to present fairly our financial position as of June 30, 2011 and December 31, 2010, and the results of our operations for the three and six months ended June 30, 2011 and 2010, and the results of our cash flows for the six months ended June 30, 2011 and 2010. Our operating results for the three and six months ended June 30, 2011 and 2010, and our cash flows for the six months ended June 30, 2011 and 2010, are not necessarily indicative of the results that would be achieved for the full year or future periods.

Effective Control of Borgata

On March 24, 2010, as a result of the amendment to our operating agreement with MGM Resorts International ("MGM") (our original 50% partner in Borgata), which provided, among other things, for the termination of MGM's participating rights in the operations of Borgata, we effectively obtained control of Borgata. The amendment to the operating agreement was related to MGM's divestiture of its interest pursuant to a regulatory settlement, as discussed further in Note 2, Consolidation of Certain Interests. This resulting change in control required acquisition method accounting in accordance with the authoritative accounting guidance for business combinations. As a result, we measured our previously held equity interest at a provisional fair value as of March 24, 2010, the date we effectively obtained control.

The financial position of Borgata is presented in our condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010; its results of operations for the three months ended June 30, 2011 and 2010 are included in our condensed consolidated statement of operations for the three months ended June 30, 2011 and 2010; its results of operations for the six months ended June 30, 2011 are included in our condensed consolidated statements of operations and cash flows for the six months ended June 30, 2011; and its results of operations for the period from March 24 through June 30, 2010 are included in our condensed consolidated statements of operations and cash flows for the six months ended June 30, 2010.

Consolidation of Variable Interest Entity

LVE Energy Partners, LLC ("LVE") is a joint venture between Marina Energy LLC and DCO ECH Energy, LLC. Through our wholly-owned subsidiary, Echelon Resorts LLC ("Echelon Resorts"), we have entered into an Energy Sales Agreement ("ESA") with LVE to design, build, own (other than the underlying real property which is leased from Echelon Resorts) and operate a central energy center and related distribution system for our planned Echelon resort development. In April 2007, we entered into an ESA with LVE to provide chilled and hot water, electricity and emergency electricity generation to Echelon and potentially other joint venture entities associated with the Echelon development project or other third parties.

LVE began construction of the facility in 2007 and expected to provide full energy services to Echelon in 2010, when we originally expected to open. However, LVE suspended construction in January 2009, after our announcement of the delay of Echelon. On April 3, 2009, LVE notified us that, in its view, Echelon Resorts would be in breach of the ESA unless it recommences and proceeds with construction of the Echelon development project by May 6, 2009. We believe that LVE's position is without merit; however, in the event of litigation, we cannot state with certainty the eventual outcome nor estimate the possible loss or range of loss, if any, associated with this matter.

On March 7, 2011, Echelon Resorts and LVE entered into both a purchase option agreement (the "Purchase Option Agreement") and a periodic fee agreement (the "Periodic Fee Agreement"). LVE has agreed not to initiate any litigation with respect to its April 3, 2009 claim of an alleged breach of the ESA and both Echelon Resorts and LVE have mutually agreed that neither LVE nor Echelon Resorts would give notice of, file or otherwise initiate any claim or cause of action, in or before any court, administrative agency, arbitrator, mediator or other tribunal, that arises under the ESA, subject to certain exceptions, and that any statute of limitations or limitation periods for defenses, claims, causes of actions and counterclaims shall be tolled while the Periodic Fee Agreement is in effect. Under the Periodic Fee Agreement, Echelon Resorts has agreed to pay LVE, beginning March 4, 2011, a monthly periodic fee (the "Periodic Fee") and an operation and maintenance fee until Echelon Resorts either (i) resumes construction of the project or (ii) exercises its option to purchase LVE's assets pursuant to the terms of the Purchase Option Agreement. The amount of the Periodic Fee is fixed at \$11.9 million annually through November 2013. Thereafter, the amount of the Periodic Fee is estimated to be approximately \$10.8 million annually. The operation and maintenance fee cannot exceed \$0.6 million per annum without Echelon Resorts' prior approval.

Under the Purchase Option Agreement, Echelon Resorts has the right, at its sole discretion, upon written notice to LVE, to purchase the assets of LVE including the central energy center and the related distribution system for a price of \$195.1 million, subject to certain possible adjustments. The ESA will be terminated concurrent with the purchase of the LVE assets.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

New consolidation guidance regarding the variable interest model became effective on January 1, 2010. Under this new qualitative model, the primary beneficiary is identified as the variable interest holder that has both the power to direct the activities of the variable interest entity that most significantly impacts the entity's economic performance and the obligation to absorb losses or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. Upon adoption, this guidance required us to consolidate LVE for financial statement purposes, as we determined that we are presently the primary beneficiary of the executory contract, the ESA, giving rise to the variable interest.

Principles of Consolidation

The accompanying condensed consolidated financial statements include the accounts of Boyd Gaming Corporation and its subsidiaries.

In addition, as discussed above, the financial position of Borgata is consolidated in our condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010; its results of operations for the three months ended June 30, 2011 are included in our condensed consolidated statement of operations for the three months ended June 30, 2011; its results of operations for the six months ended June 30, 2011 are included in our condensed consolidated statements of operations and cash flows for the six months ended June 30, 2011; its results of operations for the period from April 1 through June 30, 2010 are included in our condensed consolidated statement of operations for the three months ended June 30, 2010; and its results of operations for the period from March 24 through June 30, 2010 are included in our condensed consolidated statements of operations and cash flows for the six months ended June 30, 2010. At June 30, 2011 and December 31, 2010, approximately \$1.41 billion and \$1.45 billion, respectively, of our consolidated total assets related to Borgata.

Additionally, the financial position of LVE is consolidated in our condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010, and its results of operations for the three and six months ended June 30, 2011 are included in our condensed consolidated statements of operations and cash flows during such periods. At June 30, 2011, approximately \$249.6 million of our consolidated total assets related to LVE, however, certain of these assets, approximating \$195.9 million, are pledged as security on LVE's outstanding construction loan advances, and an additional \$48.0 million of such assets are held in restricted escrow funds in accordance with the underlying terms of LVE's tax-exempt bond financing. At December 31, 2010, approximately \$249.7 million of our consolidated total assets related to LVE, however, certain of these assets, approximating \$196.4 million, were pledged as security on LVE's outstanding construction loan advances, and an additional \$48.2 million of such assets were held in restricted escrow funds in accordance with the underlying terms of LVE's tax-exempt bond financing.

All material intercompany accounts and transactions have been eliminated in consolidation.

Investments in unconsolidated affiliates, which are less than 50% owned and do not meet the consolidation criteria of the authoritative accounting guidance for voting interest, controlling interest or variable interest entities, are accounted for under the equity method. See Note 2, Consolidation of Certain Interests.

Property and Equipment, Net

Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets or, for leasehold improvements, over the shorter of the asset's useful life or term of the lease.

The estimated useful lives of our major components of property and equipment are:

Building and improvements	10 through 40 years
Riverboats and barges	10 through 40 years
Furniture and equipment	3 through 10 years

Gains or losses on disposals of assets are recognized as incurred, using the specific identification method. Costs of major improvements are capitalized, while costs of normal repairs and maintenance are charged to expense as incurred.

#### Assets Held for Development

The costs incurred relative to projects under development are carried at cost. Development costs clearly associated with the acquisition, development, and construction of a project are capitalized as a cost of that project, during the periods in which activities necessary to get the property ready for its intended use are in progress. Certain pre-acquisition costs, not qualifying for capitalization, are charged to preopening or other operating expense as incurred.

Table of Contents

BOYD GAMING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

Debt Financing Costs

Debt financing costs, which include legal, and other direct costs related to the issuance of our outstanding debt, are deferred and amortized to interest expense over the contractual term of the underlying long-term debt using the effective interest method. In the event that our debt is modified, repurchased or otherwise reduced prior to its original maturity date, we ratably reduce the unamortized debt financing costs.

Restricted Investments

In accordance with the terms of the tax-exempt loan agreements, which are the obligations of LVE, unused proceeds are required to be held in escrow pending approval of construction expenditures. These investments are held in an interest-bearing account.

Intangible Assets

Intangible assets include customer relationships, favorable lease rates, gaming license rights and trademarks.

Amortizing intangible assets: Customer relationships represent the value of repeat business associated with our customer loyalty programs. These intangible assets are being amortized on an accelerated method over their approximate useful life. Favorable lease rates represent the amount by which acquired lease rental rates are favorable to market terms. These favorable lease values are amortized over the remaining lease term, primarily on leasehold land interests, ranging in remaining duration from 41 to 52 years.

Indefinite lived intangible assets: Trademarks are based on the value of our brand, which reflects the level of service and quality we provide and from which we generate repeat business. Gaming license rights represent the value of the license to conduct gaming in certain jurisdictions, which is subject to highly extensive regulatory oversight, and a limitation on the number of licenses available for issuance with these certain jurisdictions. These assets, considered indefinite-lived intangible assets, are not subject to amortization, but instead are subject to an annual impairment test, performed in the second quarter of each year, and between annual test dates in certain circumstances. If the fair value of an indefinite-lived intangible asset is less than its carrying amount, an impairment loss is recognized equal to the difference. License rights are tested for impairment using a discounted cash flow approach, and trademarks are tested for impairment using the relief-from-royalty method.

Long-Term Debt, Net

Long-term debt is reported at amortized cost. The discount on the senior secured notes and the transaction costs paid to the initial purchasers upon issuance of the senior and senior secured notes are recorded as an adjustment to the face amount of our outstanding debt. This resulting difference between the net proceeds upon issuance of the senior and senior secured notes and the face amount of the senior and senior secured notes is accreted to interest expense using the effective interest method.

Noncontrolling Interest

Noncontrolling interest is the portion of the ownership in Borgata not directly attributable to Boyd, as well as the ownership of LVE, none of which is attributable to Boyd, and is reported as a separate component of our stockholders' equity in our condensed consolidated financial statements. Our consolidated net income is reported at amounts that include the amounts attributable to both us and the noncontrolling interest. At June 30, 2011 and December 31, 2010, there was a noncontrolling interest of \$214.7 million and \$219.3 million, respectively, associated with the portion of ownership in Borgata that is not attributable to the stockholders of Boyd Gaming Corporation. As discussed above, we effectively obtained control of Borgata on March 24, 2010 and began consolidating its financial statements at that date. At June 30, 2011 and December 31, 2010, there was a noncontrolling interest loss of \$15.5 million and \$13.7

million, respectively, associated with the ownership in LVE that is not attributable to the stockholders of Boyd Gaming Corporation.

#### Revenue Recognition

Gaming revenue represents the net win from gaming activities, which is the aggregate difference between gaming wins and losses. The majority of our gaming revenue is counted in the form of cash and chips and therefore is not subject to any significant or complex estimation procedures. Cash discounts, commissions and other cash incentives to customers related to gaming play are recorded as a reduction of gross gaming revenues.

Room revenue recognition criteria are met at the time of occupancy.

Food and beverage revenue recognition criteria are met at the time of service.

#### Promotional Allowances

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

The retail value of accommodations, food and beverage, and other services furnished to guests without charge is included in gross revenues and then deducted as promotional allowances. Promotional allowances also include incentives such as cash, goods and services (such as complimentary rooms and food and beverages) earned in our slot bonus point program. We reward customers, through the use of bonus programs, with points based on amounts wagered that can be redeemed for a specified period of time, principally for cash, and to a lesser extent for goods or services, depending upon the property. We record the estimated retail value of these goods and services as revenue and then deduct them as promotional allowances

The amounts included in promotional allowances for the three and six months ended June 30, 2011 and 2010 are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(In thousands)			
Rooms	\$30,718	\$31,973	\$60,822	\$46,612
Food and beverage	41,070	42,801	83,564	72,714
Other	28,686	23,416	54,776	29,372
Total promotional allowances	\$100,474	\$98,190	\$199,162	\$148,698

The estimated costs of providing such promotional allowances for the three and six months ended June 30, 2011 and 2010 are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(In thousands)			
Rooms	\$13,044	\$18,236	\$26,117	\$26,196
Food and beverage	37,752	48,456	76,237	78,063
Other	4,189	6,417	7,986	7,985
Total cost of promotional allowances	\$54,985	\$73,109	\$110,340	\$112,244

**Gaming Taxes**

We are subject to taxes based on gross gaming revenues in the jurisdictions in which we operate. These gaming taxes are an assessment of our gaming revenues and are recorded as a gaming expense on the condensed consolidated statements of operations. These taxes totaled approximately \$63.5 million and \$64.6 million for the three months ended June 30, 2011 and 2010, respectively, and totaled approximately \$127.3 million and \$118.4 million for the six months ended June 30, 2011 and 2010, respectively.

**Earnings per Share**

Basic earnings per share is computed by dividing net income applicable to Boyd Gaming Corporation stockholders, excluding net income attributable to noncontrolling interests, by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflects the additional dilution for all potentially-dilutive securities, such as stock options.

The weighted average number of common and common share equivalent shares used in the calculations of basic and diluted earnings per share for the three and six months ended June 30, 2011 and 2010, consisted of the following amounts:

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2011	2010	2011	2010
	(In thousands)			
Earnings per share:				
Basic weighted average shares outstanding	87,204	86,511	87,181	86,471
Potential dilutive effect	—	431	—	272
Diluted weighted average shares outstanding	87,204	86,942	87,181	86,743

Due to the net loss for the three and six months ended June 30, 2011, the effect of all potential common shares was anti-dilutive, and therefore were not included in the computation of diluted earnings per share. Anti-dilutive options totaling 7.8 million and 6.7 million have been excluded from the computation of diluted earnings per share for the three months ended June 30, 2011, and 2010, respectively. Anti-dilutive options totaling 7.8 million and 8.1 million have been excluded from the computation of diluted earnings per share for the six months ended June 30, 2011 and 2010, respectively.

## Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates incorporated into our condensed consolidated financial statements include the estimated allowance for doubtful accounts receivable, the estimated useful lives for depreciable and amortizable assets, recoverability of assets held for development, measurement of the fair value of our controlling interest and the noncontrolling interest in Borgata, fair values of acquired assets and liabilities, estimated cash flows in assessing the recoverability of long-lived assets and assumptions relative to the valuation and impairment of goodwill and intangible assets, estimated valuation allowances for deferred tax assets, slot bonus point programs, certain tax liabilities and uncertain tax positions, self-insured liability reserves, share-based payment valuation assumptions, fair values of assets and liabilities measured at fair value, fair values of assets and liabilities disclosed at fair value, fair values of derivative instruments, contingencies and litigation, claims and assessments. Actual results could differ from these estimates.

## Recently Issued Accounting Pronouncements

A variety of proposed or otherwise potential accounting standards are currently under study by standard-setting organizations and certain regulatory agencies. Because of the tentative and preliminary nature of such proposed standards, we have not yet determined the effect, if any, that the implementation of such proposed standards would have on our consolidated financial statements.

## Accounting Standards Update 2011-05 Presentation of Comprehensive Income ("Update 2011-05")

In June, 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-05 Presentation of Comprehensive Income, which is an amendment to Topic 220 of the Accounting Standards Codification.

The objective of Update 2011-05 is to improve the comparability, consistency, and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. Update 2011-05 provides an entity with the option to present the total of comprehensive income, the components of net income, and the components of

other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. In a single continuous statement, the entity is required to present the components of net income and total net income, the components of other comprehensive income and a total for other comprehensive income, along with the total of comprehensive income in that statement. In the two-statement approach, an entity is required to present components of net income and total net income in the statement of net income. The statement of other comprehensive income should immediately follow the statement of net income and include the components of other comprehensive income and a total for other comprehensive income, along with a total for comprehensive income.

The amendments in Update 2011-05 do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income, nor does the amendment affect how earnings per share is calculated or presented. The amendments in this Update should be applied retrospectively. The amendment will effective for

Table of Contents

BOYD GAMING CORPORATION AND SUBSIDIARIES

(Unaudited)

our fiscal year, and interim periods within the fiscal year beginning January 1, 2012. Update 2011-05 will not have a material impact on the computation of comprehensive income, but will require a revised presentation thereof.

NOTE 2. CONSOLIDATION OF CERTAIN INTERESTS

Controlling Interest

Borgata Hotel Casino and Spa

Overview

We and MGM each originally held a 50% interest in Marina District Development Holding Co., LLC (“Holding Company”). The Holding Company owns all the equity interests in Marina District Development Company, LLC, d.b.a. Borgata Hotel Casino and Spa.

In February 2010, we entered into an agreement with MGM to amend the operating agreement to, among other things, facilitate the transfer of MGM's interest in the Holding Company (“MGM Interest”) to a divestiture trust (“Divestiture Trust”) established for the purpose of selling the MGM Interest to a third party. The proposed sale of the MGM Interest through the Divestiture Trust was a part of a then-proposed settlement agreement between MGM and the New Jersey Department of Gaming Enforcement (the “NJDCGE”). Pursuant to the terms of the amended operating agreement, in connection with the refinancing of the Borgata bank credit facility on August 6, 2010, the Holding Company made a \$135.4 million one-time distribution to us, of which \$30.8 million was a priority distribution equal to the excess prior capital contributions made by us.

On March 17, 2010, MGM announced that its settlement agreement with the NJDCGE had been approved by the New Jersey Casino Control Commission (“NJCCC”). Under the terms of the settlement agreement, MGM agreed to transfer the MGM Interest into the Divestiture Trust and further agreed to sell such interest within a 30-month period. During the first 18 months of such period, MGM has the power to direct the trustee to sell the MGM Interest, subject to the approval of the NJCCC. If the sale has not occurred by such time, the trustee will be solely responsible for the sale of the MGM Interest. The MGM Interest was transferred to the Divestiture Trust on March 24, 2010.

MGM has subsequently announced that it has entered into an amendment with respect to its settlement agreement with the NJDCGE, subject to approval by the NJCCC. The amendment provides that the mandated sale of the MGM Interest be increased by an additional 18 months to a total of 48 months. During the first 36 months (or until March 24, 2013), MGM has the right to direct the Divestiture Trust to sell the MGM Interest. If a sale is not concluded by that time, the Divestiture Trust will be responsible for selling MGM's Interest during the following 12-month period. The NJCCC is expected to hold a hearing on the amendment to the settlement on August 8, 2011.

Effective Change in Control

In connection with the amendments to the operating agreements MGM relinquished all of its specific participating rights under the operating agreement, and we retained all authority to manage the day-to-day operations of Borgata. MGM's relinquishment of its participating rights effectively provided us with direct control of Borgata. This resulting change in control required acquisition method accounting in accordance with the authoritative accounting guidance for business combinations.

#### Acquisition Method Accounting

The application of the acquisition method accounting guidance had the following effects on our condensed consolidated financial statements: (i) our previously held equity interest was measured at a provisional fair value at the date control was obtained; (ii) we recognized and measured the identifiable assets and liabilities in accordance with promulgated valuation recognition and measurement provisions; and (iii) we recorded the noncontrolling interest held in trust for the economic benefit of MGM as a separate component of our stockholders' equity. The provisional fair value measurements and estimates of these items were estimated as of the date we effectively obtained control.

The provisional fair value measurements and estimates of these items have been subsequently refined. We had provisionally recorded these fair values using an earnings valuation multiple model, because, at the time of the preliminary estimate, the Company had not completed its procedures with respect to the independent valuation of the business enterprise and Borgata's tangible and intangible assets. The Company's subsequent valuation procedures have necessitated a revision of the valuation of the provisional assets and liabilities. Thus, upon finalization of our valuation, certain measurement adjustments were identified and retrospectively recorded in the condensed consolidated balance sheet as of December 31, 2010, and certain disclosures were updated to reflect

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

the measurement period adjustments, as reflected herein.

## Retrospective Adjustment to Condensed Consolidated Balance Sheet

We have retrospectively adjusted the provisional values to reflect the fair valuation, and therefore, the condensed consolidated balance sheet as of December 31, 2010 presented herein reflects the adjustments above.

Total liabilities and stockholders' equity	\$5,702,546		\$(13,257	)	\$5,689,289

**Bargain Purchase Gain**

The fair valuation resulted in the recording of a bargain purchase gain, due to the excess fair value of Borgata over the historical basis of our equity interest in Borgata. Recorded in write-downs and other items, net on the condensed consolidated statement of operations, this gain was recorded as a cumulative adjustment during the six months ended June 30, 2011.

The gain was computed as follows:

	Bargain Purchase Gain (In thousands)
Fair value of controlling equity interest	\$397,931
Carrying value of equity investment in Borgata	397,622
Bargain purchase gain	\$309

The fair value of our controlling interest included a \$72.4 million control premium, which is reflected in the fair value of the enterprise, and included in the calculation of the bargain purchase gain. A control premium of 10% was applied to the enterprise value members' equity, excluding interest bearing debt, to calculate an indicated value of equity on a controlling basis. While the value of control is somewhat below prevailing market rates, we believe the control premium reflects the value of our influence, mitigated by only a 50% interest and return.

Supplemental Pro Forma Information

Pro Forma Condensed Consolidated Statement of Operations

for the six months ended June 30, 2010

The following supplemental pro forma information presents the financial results as if the effective control of Borgata had occurred as of the beginning of the earliest period presented herein, or on January 1, 2010. This supplemental pro forma information has been prepared for comparative purposes and does not purport to be indicative of what the actual results for the six months ended June 30, 2010 would have been had the consolidation of Borgata been completed as of the earlier date, nor are they indicative of any future results.

## LVE Energy Partners, LLC

The effects of the consolidation of LVE on our financial position as of June 30, 2011 and December 31, 2010, and its impact on our results of operations for the three and six months ended June 30, 2011 are reconciled by respective line items to amounts as reported in our condensed consolidated balance sheets and condensed consolidated statements of operations are presented below.

The primary impact on our condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010 was as follows:

	June 30, 2011 Boyd Gaming Corporation (as historically presented) (In thousands)	LVE, LLC	Eliminations	Boyd Gaming Corporation (as consolidated)

Total Liabilities and Stockholders' Equity	\$ 5,439,557	\$ 249,732	\$—	\$ 5,689,289

The reduction in accounts receivable, net and other liabilities reflects the elimination of the Periodic Fee booked as a receivable by LVE, which mirrors the payable recorded on Boyd's general ledger. Both the receivable and payable are eliminated in consolidation completely, thereby having no impact on our consolidated balance sheet.

The impact on our condensed consolidated statement of operations for the three months ended June 30, 2011 was as follows:

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

The reduction in other revenue and preopening expenses reflects the elimination of the Periodic Fee paid by Boyd Gaming to LVE. Such fee is recognized as revenue by LVE, but eliminated in consolidation completely, thereby having no impact on our consolidated other revenues. Although this Periodic Fee is eliminated in this consolidation, it is actually paid to LVE directly on a monthly basis.

## NOTE 3. PROPERTY AND EQUIPMENT, NET

Property and equipment, net consists of the following:

	June 30, 2011	December 31, 2010
	(In thousands)	
Land	\$576,947	\$576,947
Buildings and improvements	3,308,851	3,309,506
Furniture and equipment	1,143,312	1,131,837
Riverboats and barges	167,505	167,420
Other	25,793	25,423
Total property and equipment	5,222,408	5,211,133
Less accumulated depreciation	1,906,816	1,827,762
Property and equipment, net	\$3,315,592	\$3,383,371

Depreciation expense for the three months ended June 30, 2011 and 2010 was \$46.4 million and \$55.4 million, respectively. Depreciation expense for the six months ended June 30, 2011 and 2010 was \$92.2 million and \$95.5 million, respectively. The amounts recorded during the six months ended June 30, 2011 include the effect of certain measurement period adjustments.

Other property and equipment presented in the table above primarily relates to costs capitalized in conjunction with major improvements and that have not yet been placed into service, and accordingly, such costs are not currently being depreciated.

We test certain of these property and equipment assets for recoverability if a recent operating or cash flow loss, combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses, is associated with the use of a long-lived asset. Impairment is the condition that exists when the carrying amount of a long-lived asset exceeds its fair value. An impairment loss shall be recognized only if the carrying amount of a long-lived asset is not recoverable and exceeds its fair value. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. That assessment shall be based on the carrying amount of the asset at the date it is tested for recoverability. An impairment loss shall be measured as the amount by which the carrying amount of a long-lived asset exceeds its fair value.

## NOTE 4. ASSETS HELD FOR DEVELOPMENT

Assets held for development, which is comprised of assets associated with our Echelon development project, consists of the following:

25

---

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

	June 30, 2011	December 31, 2010
	(In thousands)	
Echelon Project Infrastructure		
Land	\$213,649	\$213,649
Construction and development costs	501,091	500,132
Project management and other costs	115,712	115,712
Professional and design fees	93,545	93,545
Central Energy Facility		
Construction and development costs	195,941	196,365
Total assets held for development	\$1,119,938	\$1,119,403

## Echelon Project Infrastructure

At June 30, 2011 and December 31, 2010, the capitalized costs related to the Echelon project included land and construction in progress. The construction and development costs consist primarily of site preparation work, underground utility installation and infrastructure and common area development. Professional and design fees include architectural design, development and permitting fees, inspections, consulting and legal fees. We expect to additionally incur approximately \$0.3 million to \$3.0 million of capitalized costs annually, principally related to such items as transportation of stored offsite steel as well as offsite improvements.

In addition, we expect annual recurring project costs, consisting primarily of monthly charges related to construction of the central energy center, site security, property taxes, rent and insurance, of approximately \$15.0 million to \$17.0 million that will be charged to preopening or other expense as incurred during the project's suspension period. These capitalized costs and recurring project costs are in addition to other contingencies with respect to our various commitments, including commitments and contingencies with respect to the ESA entered into between Echelon Resorts and LVE.

We evaluate our investment in assets held for development in accordance with the authoritative accounting guidance on impairment or disposal of long lived assets. For a long-lived asset to be held and used, such as these assets under development, we review the asset for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. We then compare the estimated undiscounted future cash flows of the asset to the carrying value of the asset. The asset is not impaired if the undiscounted future cash flows exceed its carrying value. If the carrying value exceeds the undiscounted future cash flows, then an impairment charge is recorded, typically measured using a discounted cash flow model, which is based on the estimated future results of the relevant reporting unit discounted using our weighted-average cost of capital and market indicators of terminal year free cash flow multiples. For these assets under development, future cash flows include remaining construction costs.

The suspension of development on the Echelon project implied that the carrying amounts of the assets related to the development may not be recoverable; therefore, at the time of the suspension, we performed an impairment test of these assets, which occurred during the three months ended September 30, 2009. This impairment test was comprised of a future undiscounted cash flow analysis, and contemplated several viable alternative plans for the future development of Echelon.

One such scenario includes the outright sale of the project as is, which is primarily based upon land value. We considered the land value by analyzing recent sales transactions of sites with similar characteristics such as location, zoning, access, and visibility, to establish a general understanding of the potential comparable sales. The recoverability under this option represented any excess sales price, net of estimated selling costs, from the land over the carrying value of the assets, including land, held for development.

Another scenario is the full development of the project, as designed, at a later date. The cash inflows related to this option represent the revenue projections for the individual components associated with each planned construction element (casino, hotel, food and beverage, retail, convention and other), based upon the estimated respective dates of completion and particular graduated supply absorption rates. These projections are offset by outflows for incurred and estimated costs to complete the development. For costs already incurred, and to compensate for potential losses due to the delay, we adjusted for (i) physical deterioration; (ii) functional obsolescence; and (iii) economic obsolescence. Physical deterioration is impairment to the condition of the asset brought about by “wear and tear,” disintegration, and/or the action of the elements. Functional obsolescence is the impairment in the efficiency of the asset brought about by such factors as inadequacy or change in technology that affect the asset. Economic obsolescence is

Table of Contents

BOYD GAMING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

the impairment in the desirability of the asset arising from external economic forces, building code enhancements or changes in supply and demand relationships. For estimated costs to complete, we applied selected construction expense growth rates to our present cost analysis. In addition to these hard and soft construction costs, we estimated outflows for preservation costs that are intended and required to maintain the development site and the existing structures as well as development materials for future use. These net outflows were incrementally added to our estimated operating and ongoing maintenance costs, to establish the undiscounted net cash flow of the project.

Our final scenario is a scaled-down version of the full project, whereby only certain components would be developed. This cash flow projection considered the inflows and outflows discussed above, with relevant curtailment for revenue from, and costs related to, the amenities not completed.

Because no specific strategic plan can be determined with certainty at this time, the analysis considered the net cash flows related to each alternative, weighted against its projected likelihood. The outcome of this evaluation resulted in the determination that there was no impairment of the assets held for development, as the estimated weighted net undiscounted cash flows from the project exceed the current carrying value of the assets held for development. As we further explore the viability of alternatives for the project, we will continue to monitor these assets for recoverability.

Central Energy Facility

The capitalized construction costs of the central energy facility include labor, materials, construction overhead and capitalized interest, all of which has been directly incurred by LVE. Depreciation is generally recorded on a straight line basis over useful lives of property ranging from 5 to 50 years, but has not commenced on the components of the facility, as it has not been placed in service. The costs of repairs and maintenance, including planned major maintenance activities and minor replacements of property are charged to maintenance expense as incurred.

These assets are tested for recoverability whenever events or changes in circumstances indicate that such amounts may not be recoverable. Impairment is the condition that exists when the carrying amount of a long-lived asset exceeds its fair value. An impairment loss shall be recognized only if the carrying amount of a long-lived asset is not recoverable and exceeds its fair value. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. That assessment shall be based on the carrying amount of the asset at the date it is tested for recoverability. An impairment loss shall be measured as the amount by which the carrying amount of a long-lived asset exceeds its fair value.

The assets of the central energy facility are pledged as collateral to the outstanding debt obligations of LVE, as further discussed in Note 6, Non-recourse Obligations of Variable Interest Entity below.

NOTE 5. INTANGIBLE ASSETS

Intangible assets consist of the following:

**Customer Relationships**

Customer relationships represent the value of repeat business associated with our customer loyalty programs. The value of customer relationships is determined using a multi-period excess earnings method, which is a specific discounted cash flow model. The value is determined at an amount equal to the present value of the incremental after-tax cash flows attributable only to these customers, discounted to present value at a risk-adjusted rate of return. With respect to the application of this methodology, we used the following significant projections and assumptions: revenue of our rated customers, based on expected level of play; promotional allowances provided to these existing customers; attrition rate related to these customers; operating expenses; general and administrative expenses; trademark expense; discount rate; and the present value of tax benefit.

**Favorable Lease Rates**

Favorable lease rates represent the rental rates for assumed land leases that are favorable to comparable market rates. The fair value is determined on a technique whereby the difference between the lease rate and the then current market

rate for the remaining contractual term is discounted to present value. The assumptions underlying this computation include the actual lease rates, the expected remaining lease term, including renewal options, based on the existing lease; current rates of rent for leases on comparable properties with similar terms obtained from market data and analysis; and an assumed discount rate. The estimates underlying the result covered a term of 41 to 52 years.

Trademarks

Trademarks are based on the value of our brand, which reflects the level of service and quality we provide and from which we

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

generate repeat business. Trademarks are valued using the relief from royalty method, which presumes that without ownership of such trademark, we would have to make a stream of payments to a brand or franchise owner in return for the right to use their name. By virtue of this asset, we avoid any such payments and record the related intangible value of our ownership of the Borgata name. We used the following significant projections and assumptions to determine value under the relief from royalty method: revenue from gaming and hotel activities; royalty rate; general and administrative expenses; tax expense; terminal growth rate; discount rate; and the present value of tax benefit. The projections underlying this discounted cash flow model were forecasted for fifteen years.

**Gaming License Rights**

Gaming license rights represent the value of the license to conduct gaming in certain jurisdictions, which is subject to highly extensive regulatory oversight, and a limitation on the number of licenses available for issuance therein. The value of gaming licenses is determined using a multi-period excess earnings method, which is a specific discounted cash flow model. The value is determined at an amount equal to the present value of the incremental after-tax cash flows attributable only to future gaming revenue, discounted to present value at a risk-adjusted rate of return. With respect to the application of this methodology, we used the following significant projections and assumptions: gaming revenues; gaming operating expenses; general and administrative expenses; tax expense; terminal value; and discount rate. These projections are modeled for a five year period.

**Activity For the Six Months Ended June 30, 2011 and 2010**

The following table sets forth the changes in these intangible assets during the six months ended June 30, 2011 and 2010:

	Customer Relationships	Favorable Lease Rates	Trademarks	Gaming License Rights	Intangible Assets, Net
	(In thousands)				
<b>Six Months Ended June 30, 2011</b>					
Balance December 31, 2010	\$ 14,000	\$ 38,588	\$ 115,700	\$ 371,426	\$ 539,714
Additions	—	—	—	—	—
Impairments	—	—	(5,000 )	—	(5,000 )
Amortization	(6,871 )	(521 )	—	—	(7,392 )
Balance June 30, 2011	\$ 7,129	\$ 38,067	\$ 110,700	\$ 371,426	\$ 527,322
<b>Six Months Ended June 30, 2010</b>					
Balance December 31, 2009	\$—	\$ 39,632	\$ 50,700	\$ 371,426	\$ 461,758
Additions	14,000	—	65,000	—	79,000
Amortization	—	—(524 )	—	—	(524 )
Balance June 30, 2010	\$ 14,000	\$ 39,108	\$ 115,700	\$ 371,426	\$ 540,234

**Future Amortization**

Customer relationships are being amortized on an accelerated basis over an approximate four-year period. Favorable lease rates are being amortized on a straight-line basis over a weighted-average useful life of 43.8 years. Future amortization is as follows:

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

For the Year Ending December 31,	Customer Relationships (In thousands)	Favorable Lease Rates	Total
2011 (remainder)	\$2,391	\$523	\$2,914
2012	3,174	1,043	4,217
2013	1,564	1,043	2,607
2014	—	1,043	1,043
2015	—	1,043	1,043
Thereafter	—	33,372	33,372
	\$7,129	\$38,067	\$45,196

Trademarks and gaming license rights are not subject to amortization, as we have determined that they have an indefinite useful life, however these assets are subject to an annual impairment test.

Impairment Testing

Intangible assets include gaming license rights, trademarks and customer lists. Indefinite lived intangible assets are not subject to amortization, but they are subject to an annual impairment test in the second quarter of each year and between annual test dates in certain circumstances.

License rights are tested for impairment using a discounted cash flow approach, and trademarks are tested for impairment using the relief-from-royalty method. If the fair value of an indefinite-lived intangible asset is less than its carrying amount, an impairment loss is recognized equal to the difference. If our estimates of projected cash flows related to these assets are not achieved, or if any other significant assumptions are changed, we may be subject to an interim impairment test prior to our next annual scheduled impairment test. As a result of such test, we may be subject to a future impairment charge, which could have a material adverse impact on our consolidated financial statements. The results of our annual scheduled impairment test of indefinite-lived intangible assets, performed during the second quarter of 2011, did not require us to record an impairment charge; however, if our estimates of projected cash flows related to these assets are not achieved, or if any other significant assumptions are changed, we may be subject to an interim impairment test prior to our next annual scheduled impairment test. Such test could result in a future a future impairment charge, which could have a material adverse impact on our consolidated financial statements.

During the first quarter of 2011, we performed an interim impairment test over the trademark we recorded in connection with the valuation of Borgata due to our consideration of certain facts and circumstances surrounding an adverse change in the business climate in Atlantic City. We believe our actual results have been adversely impacted by increased regional competition, and that in addition, our projected future results will be further impacted by cannibalization of our business upon the opening of a new property in Atlantic City, which was announced in February 2011. We also believe the refinancing of Borgata's debt and recapitalization of its member equity contributed to the results of this impairment test.

Our analysis consisted of a valuation of the trademark, using the relief from royalty method, as discussed above. The only significant change in our assumptions from the initial fair valuation were revised revenue and profitability projections, reflecting the impact of the changed present and forecasted circumstances. The impairment test shall consist of a comparison of the fair value of trademark with its carrying amount. As a result, we recorded a \$5.0 million impairment to the trademark, representing the amount by which the carrying amount exceeded its fair value.

NOTE 6. NON-RECOURSE OBLIGATIONS OF VARIABLE INTEREST ENTITY

The non-recourse obligations of variable interest entity represent the outstanding debt of LVE, all of which is classified as current, and is comprised of the following:

30

---

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

	June 30, 2011	December 31, 2010
	(In thousands)	
Construction and term loan facility	\$120,392	\$120,572
Tax-exempt variable rate bonds	100,000	100,000
Notes payable to members of variable interest entity	27,736	22,487
	\$248,128	\$243,059

Assets serving as collateral for these debt obligations had a carrying value of \$243.9 million and \$244.5 million at June 30, 2011 and December 31, 2010, respectively, and primarily consist of certain assets held for development and restricted investments. The condensed consolidated statements of operations for the three and six months ended June 30, 2011 includes \$2.6 million and \$1.0 million of loss, respectively, and the condensed consolidated statement of cash flows for the six months ended June 30, 2011 includes \$6.1 million of net operating cash outflows related to this consolidated variable interest entity; however, none of the offsetting consolidated income or operating cash inflows are available to service this debt, which is non-recourse and non-guaranteed by Boyd.

**Construction and Term Loan Facility**

In December 2007, LVE entered into a construction and term loan facility with two commercial banks with a committed amount of up to \$143.5 million, of which \$120.4 million was outstanding at June 30, 2011. Proceeds from the construction loan were used to finance the construction of the central energy center and district energy system. The loan is secured by the assets of LVE and does not contain financial covenants. Although LVE's loan is presently in default, and classified as current, the original loan maturities are as follows: \$4.2 million in 2011; \$83.1 million in 2012 and the remainder in 2013.

The construction loan bears interest at a variable rate based on the London InterBank Offered Rate ("LIBOR"). LVE entered into an interest rate swap with scheduled increases in the notional amount designed to fix the LIBOR portion of the interest rate on this debt until its maturity in November 2013, which was hedged against the outstanding debt. However, due to the construction delays, the outstanding amount of debt did not increase as fast as the contractual increases in notional amount of the swap, which rendered a portion of the swap ineffective. The effective rate on the outstanding construction loan, including the impact of the effective portion of the swap, was approximately 2.4% at June 30, 2011.

**Tax-exempt Variable Rate Bonds**

In December 2007, LVE issued \$100.0 million of tax-exempt variable rate bonds through the State of Nevada Department of Business and Industry, which mature in October 2035. Unused proceeds from the tax-exempt, variable rate bonds are required to be escrowed pending approved construction expenditures. Such unused funds are reported as restricted investments on our consolidated balance sheet.

The tax-exempt variable rate bonds bear interest at rates that are determined by a remarketing agent on a weekly basis. LVE entered into an interest rate swap with a total notional amount of \$100.0 million that effectively fixes the underlying interest rate index on these bonds until November 2013. Investors in these bonds receive liquidity and credit support provided by a letter of credit from a commercial bank. This letter of credit expires in November 2013, but can be accelerated by the bank in the event of a default under the construction and term loan facility. The effective interest rate on these bonds, including the impact of the swap and cost of the related letter of credit, was

approximately 6.0% at June 30, 2011.

#### Events of Default

The central energy center and district energy system are being financed by LVE with debt that is non-recourse to us. The outstanding balance of LVE's bank debt is approximately \$220.4 million as of June 30, 2011, consisting of borrowing under the construction and term loan facility of \$120.4 million and outstanding tax-exempt bonds of \$100.0 million. In September 2009, LVE reached an agreement with the banks that are financing the energy facilities to address defaults under the financing agreements. These LVE defaults were caused by construction delay and the termination of an energy services agreement by a hotel operator associated with the project. As a result of these defaults, the banks had previously stopped funding the project. The terms of the September 2009 agreement required the LVE joint venture partners to guarantee the payment of future interest costs by LVE through December 2010. In addition, the LVE joint venture partners had each committed to provide approximately \$8.9 million of additional capital as of September 2009 to cover costs related to the termination of the energy services agreement by a hotel operator and interest costs incurred since August 2008 when construction of Echelon was suspended. In turn, the banks waived all existing defaults

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

under the financing agreements and were relieved of their commitment to provide additional funding.

As a result of the ongoing construction delay, the central energy center and district energy system was not completed by the end of 2010 as originally expected. Consequently, the full amount of LVE's debt became due and payable in December 2010. LVE intends to seek additional financing to complete the facility once construction of the resort resumes; however, as of June 30, 2011, LVE was in default under the financing agreements with the banks, and all its debt has been presented as currently due.

## NOTE 7. ACCRUED LIABILITIES

Accrued liabilities consist of the following:

	June 30, 2011	December 31, 2010
	(In thousands)	
Payroll and related expenses	\$82,703	\$73,054
Interest	38,926	51,347

**Bank Credit Facility****Significant Terms**

On December 3, 2010, we entered into an Amendment and Restatement Agreement among certain financial institutions (each a “Lender”), Bank of America, N.A., as administrative agent and letter of credit issuer and Wells Fargo Bank, National Association, as swing line lender (the “Amendment and Restatement Agreement”). Pursuant to the terms of the Amendment and Restatement Agreement, our First Amended and Restated Credit Agreement, dated as of May 24, 2007, as amended by the First Amendment and Consent to First Amended Credit Agreement, dated as of December 21, 2009 (as amended, the “Amended Credit Facility”), was amended and restated to, among other things, (i) reduce the aggregate commitments under the former credit facility and (ii) permit consenting Lenders to extend the maturity date of their commitments, new Lenders to issue revolving commitments and term loans and existing Lenders to increase their commitments (each, an “Extending Lender”) in each case with a maturity date five years from the restatement effective date.

Each of the Extending Lenders permanently reduced their commitments under the former credit facility by up to 50% of the amount thereof. As a result, the aggregate commitments under the Amended Credit Facility were reduced from \$3 billion to approximately \$1.5 billion (including \$500 million of term loans, and excluding \$548.8 million in non-extending amounts), which commitments may be increased from time to time by up to \$500 million (instead of \$1 billion commitment increases provided for under the former credit facility) through additional revolving credit or term loans under the Amended Credit Facility.

Pursuant to the terms of the Amended Credit Facility, the term loans amortize in an annual amount equal to 5% of the original principal amount thereof, which commenced on March 31, 2011, payable on a quarterly basis. The interest rate per annum applicable to revolving and term loans under the Amended Credit Facility are based upon, at the

option of the Company, LIBOR or the “base rate,” plus an applicable margin in either case. The applicable margin under the Amended Credit Facility is a percentage per annum determined in accordance with a specified pricing grid based on the total leverage ratio. The applicable margin on the outstanding balance on the Extended Revolving Facility (as defined in our Amended Credit Facility) ranges from 2.50% to 3.50% (if using LIBOR), and from 1.50% to 2.50% (if using the base rate). The applicable margin on the outstanding balance of the loans and commitments of the non-extending lenders continues to range from 0.625% to 1.625% (if using LIBOR), and from 0.0% to 0.375% (if using the base rate). A fee of a percentage per annum (which ranges from 0.250% to 0.500%) determined by the level of the total leverage ratio is payable on the unused portions of the Amended Credit Facility.

The “base rate” under the Amended Credit Facility is the highest of (x) Bank of America's publicly-announced prime rate, (y) the federal funds rate plus 0.50%, or (z) the Eurodollar rate for a one month period plus 1.00%.

Table of Contents

BOYD GAMING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

The letter of credit fees under the Amended Credit Facility remain the same as those under the Credit Facility; however, the margins payable to Extending Lenders are based on the margins applicable to the Extended Revolving Facility.

Subject to certain conditions, amounts outstanding under the Amended Credit Facility may be prepaid without premium or penalty, and the unutilized portion of any of the commitments may be terminated without penalty.

The blended interest rates for outstanding borrowings under our Amended Credit Facility were 3.2% and 3.3% at June 30, 2011 and December 31, 2010, respectively. At June 30, 2011, approximately \$1.43 billion was outstanding under our Amended Credit Facility, with \$15.6 million allocated to support various letters of credit, leaving remaining contractual availability of approximately \$555.7 million.

Guarantees

The Company's obligations under the Amended Credit Facility, subject to certain exceptions, are guaranteed by certain of the Company's subsidiaries and are secured by the capital stock of certain subsidiaries. In addition, subject to certain exceptions, the Company and each of the guarantors granted the administrative agent first priority liens and security interests on substantially all of their real and personal property (other than gaming licenses and subject to certain other exceptions) as additional security for the performance of the secured obligations under the Amended Credit Facility.

Financial and Other Covenants

The Amended Credit Facility contains certain financial and other covenants, including, without limitation, various covenants (i) requiring the maintenance of a minimum consolidated interest coverage ratio of 2.00 to 1.00, (ii) establishing a maximum permitted consolidated total leverage ratio (discussed below), (iii) establishing a maximum permitted secured leverage ratio (discussed below), (iv) imposing limitations on the incurrence of indebtedness, (v) imposing limitations on transfers, sales and other dispositions and (vi) imposing restrictions on investments, dividends and certain other payments. Subject to certain exceptions, the Company may be required to repay the amounts outstanding under the Amended Credit Facility in connection with certain asset sales and issuances of certain additional secured indebtedness.

The minimum consolidated Interest Coverage Ratio (as defined in our Amended Credit Facility) is calculated as (a) twelve-month trailing Consolidated EBITDA (as defined in our Amended Credit Facility) to (b) consolidated interest expense (as also defined in our Amended Credit Facility).

The maximum permitted consolidated Total Leverage Ratio (as defined in our Amended Credit Facility) is calculated as Consolidated Funded Indebtedness to twelve-month trailing Consolidated EBITDA (all capitalized terms are defined in the Amended Credit Facility). Presently, and through December 31, 2011, our maximum Total Leverage Ratio is set at 7.75 to 1.00. Thereafter, on a scheduled basis in 0.25 basis point increments, the maximum ratio decreases to a low 5.50 to 1.00 at March 15, 2015 through the duration of the term.

The maximum permitted Secured Leverage Ratio (as defined in our Amended Credit Facility) is calculated as Secured Indebtedness to twelve-month trailing Consolidated EBITDA (all capitalized terms are defined in the Amended Credit Facility). Presently, and through March 31, 2012, our maximum Secured Leverage Ratio is set at 4.50 to 1.00.

Thereafter, on a scheduled basis in 0.25 basis point increments, the maximum ratio decreases to a low 3.25 to 1.00 at June 30, 2014 through the duration of the term.

#### Compliance with Financial Covenants

We believe that, at June 30, 2011, we were in compliance with the Amended Credit Facility covenants, including the minimum consolidated Interest Coverage Ratio, the maximum permitted consolidated Total Leverage Ratio and the maximum permitted Secured Leverage Ratio, which, as of that date, were 2.42 to 1.00, 6.95 to 1.00 and 4.14 to 1.00, respectively.

#### Debt Financing Costs

In conjunction with the Amendment and Restatement Agreement, we incurred approximately \$20.6 million in incremental debt financing costs, which have been deferred and are being amortized over the remaining term of the Amended Credit Facility.

#### Senior Notes

9.125% Senior Notes due December 2018.

#### Significant Terms

On November 10, 2010, we issued, through a private placement, \$500 million aggregate principal amount of 9.125% senior notes

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

due December 2018. The notes require semi-annual interest payments on December 1 and June 1 of each year, which commenced on June 1, 2011. The notes will mature on December 1, 2018 and are fully and unconditionally guaranteed, on a joint and several basis, by certain of our current and future domestic restricted subsidiaries, all of which are 100% owned by us. The notes contain certain restrictive covenants that, subject to exceptions and qualifications, among other things, limit our ability and the ability of our restricted subsidiaries (as defined in the indenture governing the notes) to incur additional indebtedness or liens, pay dividends or make distributions or repurchase our capital stock, make certain investments, and sell or merge with other companies. We believe that we are in compliance with these covenants at June 30, 2011. In addition, upon the occurrence of a change of control (as defined in the indenture governing the notes), we will be required, unless certain conditions are met, to offer to repurchase the notes at a price equal to 101% of the principal amount of the notes, plus accrued and unpaid interest, if any, to, but not including, the date of purchase. If we sell assets or experience an event of loss, we will be required under certain circumstances to offer to purchase the notes. At any time prior to December 1, 2013, we may redeem up to 35% of the aggregate principal amount of the notes at a redemption price equal to 109.125% of the principal amount thereof, plus accrued and unpaid interest, if any, up to, but excluding, the applicable redemption date, with the net cash proceeds that we raise in one or more equity offerings. In addition, prior to December 1, 2014, we may redeem the notes, in whole or in part, at a redemption price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, up to, but excluding, the applicable redemption date, plus a make whole premium. Subsequent to December 1, 2014, we may redeem all or a portion of the notes at redemption prices (expressed as percentages of the principal amount) ranging from 104.563% in 2014 to 100% in 2016 and thereafter, plus accrued and unpaid interest.

**Registration Rights Agreement**

In connection with the private placement of the notes, we entered into a registration rights agreement with the initial purchasers in which we agreed to file a registration statement with the SEC to permit the holders to exchange or resell the notes. We must use commercially reasonable efforts to file a registration statement and to consummate an exchange offer within 365 days after the issuance of the notes, subject to certain suspension and other rights set forth in the registration rights agreement. Under certain circumstances, including our determination that we cannot complete an exchange offer, we are required to file a shelf registration statement for the resale of the notes and to cause such shelf registration statement to be declared effective as soon as reasonably practicable (but in no event later than the 365th day following the issuance of the notes) after the occurrence of such circumstances. Subject to certain suspension and other rights, in the event that the registration statement is not filed or declared effective within the time periods specified in the registration rights agreement, the exchange offer is not consummated within 365 days after the issuance of the notes, or the registration statement is filed and declared effective but thereafter ceases to be effective or is unusable for its intended purpose for a period in excess of 30 days without being succeeded immediately by a post-effective amendment that cures such failure, the agreement provides that additional interest will accrue on the principal amount of the notes at a rate of 0.25% per annum during the 90-day period immediately following any of these events and will increase by 0.25% per annum at the end of each subsequent 90-day period, but in no event will the penalty rate exceed 1.00% per annum, until the default is cured. There are no other alternative settlement methods and, other than the 1.00% per annum maximum penalty rate, the agreement contains no limit on the maximum potential amount of consideration that could be transferred in the event we do not meet the registration statement filing requirements. We currently intend to file a registration statement, have it declared effective and consummate any exchange offer within these time periods. Accordingly, we do not believe that payment of additional interest under the registration payment arrangement is probable and, therefore, no related liability has been recorded in the condensed consolidated financial statements.

Senior Subordinated Notes

6.75% Senior Subordinated Notes due April 2014.

Significant Terms

On April 15, 2004, we issued, through a private placement, \$350 million principal amount of 6.75% senior subordinated notes due April 2014. In July 2004, all, except for \$50,000 in aggregate principal amount of these notes, were exchanged for substantially similar notes that were registered with the SEC. The notes require semi-annual interest payments on April 15 and October 15 of each year, through April 2014, at which time the entire principal balance becomes due and payable. The notes contain certain restrictive covenants regarding, among other things, incurrence of debt, sales of assets, mergers and consolidations, and limitations on restricted payments (as defined in the indenture governing the notes). We believe that we are in compliance with these covenants at June 30, 2011. Effective April 15, 2009, we may redeem all or a portion of the notes at redemption prices (expressed as percentages of the principal amount) ranging from 103.375% in 2009 to 100% in 2012 and thereafter, plus accrued and unpaid interest.

Senior Subordinated Notes

7.125% Senior Subordinated Notes due February 2016.

Significant Terms

Table of Contents

BOYD GAMING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

On January 30, 2006, we issued \$250 million principal amount of 7.125% senior subordinated notes due February 2016. The notes require semi-annual interest payments on February 1 and August 1 of each year, through February 2016, at which time the entire principal balance becomes due and payable. The notes contain certain restrictive covenants regarding, among other things, incurrence of debt, sales of assets, mergers and consolidations, and limitations on restricted payments (as defined in the indenture governing the notes). We believe that we are in compliance with these covenants at June 30, 2011. We may redeem all or a portion of the notes at redemption prices (expressed as percentages of the principal amount) ranging from 103.563% in 2011 to 100% in 2014 and thereafter, plus accrued and unpaid interest.

Repurchases of Senior Subordinated Notes

We did not repurchase any of our senior subordinated or senior notes during the six months ended June 30, 2011. During the three and six months ended June 30, 2010, we purchased and retired \$17.5 million and \$33.0 million, respectively, principal amount of our senior subordinated notes. The total purchase price of the notes was \$15.5 million and \$28.9 million, respectively, resulting in a gain of \$1.9 million and \$3.9 million, respectively, net of associated deferred financing fees, which is recorded on our condensed consolidated statement of operations for the respective period. The transactions were funded by availability under our former bank credit facility.

Indentures

The indentures governing the senior and senior subordinated notes each include permitted investment clauses, the most restrictive of which limits the amount of permitted investments to a basket of \$150 million, increased by a calculated amount including 50% of net income, as defined in the indentures, and net of previous permitted investments. Also, the indentures allow for the incurrence of additional indebtedness, if after giving effect to such incurrence, our coverage ratio (as defined in the indentures, essentially a ratio of consolidated EBITDA to fixed charges, including interest) for a trailing four quarter period on a pro forma basis would be at least 2.0 to 1.0. Such pro forma coverage ratio was above 2.0 to 1.0 at the dates in which these respective tranches of senior and senior subordinated notes were issued; and, at June 30, 2011, after giving effect to the repayment of certain indebtedness, as defined in the indentures, our coverage ratio was above 2.0 to 1.0.

Borgata Bank Credit Facility

Significant Terms

In August 2010, Marina District Finance Company, Inc. ("MDFC") closed a \$950 million debt financing, consisting of the establishment of a \$150.0 million new payment priority secured revolving credit facility (the "Borgata bank credit facility") and the issuance of \$800 million of aggregate principal amount of notes. MDFC is a wholly-owned subsidiary of MDDC, which develops and owns Borgata, and which is the guarantor of both the Borgata bank credit facility and the notes. The proceeds from the financing were used to (i) pay fees and expenses related to the financing; (ii) repay the former credit facility; and (iii) make a one-time distribution to Borgata's joint venture owners.

The Borgata bank credit facility provides for a \$150.0 million payment priority secured revolving credit facility and matures in August 2014. The Borgata bank credit facility is guaranteed on a senior secured basis by MDDC and any future subsidiaries of MDDC and is secured by a first priority lien on substantially all of the assets of the Company, MDDC and any future subsidiaries of MDDC, subject to certain exceptions. The obligations under the Borgata bank credit facility will have priority in payment to payment of the notes.

Neither Boyd Gaming nor any of its wholly-owned subsidiaries is a guarantor of Borgata's new bank credit facility.

Outstanding borrowings under the Borgata bank credit facility accrue interest at a selected rate based upon either: (i) the highest of (a) the agent bank's quoted prime rate, (b) the one-month Eurodollar rate plus 1.00%, and (c) the daily federal funds rate plus 1.50%, and in any event not less than 1.50% (such highest rate, the "base rate"), or (ii) the Eurodollar rate, plus with respect to each of clause (i) and (ii) an applicable margin as provided in the Borgata bank credit facility. In addition, a commitment fee is incurred on the unused portion of the Borgata bank credit facility ranging from 0.50% per annum to 1.00% per annum.

At June 30, 2011, the outstanding balance under the Borgata bank credit facility was \$20.0 million, leaving contractual availability of \$130.0 million. The interest rate on the outstanding borrowings at June 30, 2011 was 4.4%.

#### Financial and Other Covenants

The Borgata bank credit facility contains certain financial and other covenants, including, without limitation, (i) establishing a minimum consolidated EBITDA (as defined in the Borgata bank credit facility) of \$150 million over each trailing twelve-month period ending on the last day of each calendar quarter; (ii) establishing a minimum liquidity (as defined in the Borgata bank credit

Table of Contents

BOYD GAMING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

facility) of \$30 million as of the end of each calendar quarter; (iii) imposing limitations on MDFC's ability to incur additional debt; and (iv) imposing restrictions on Borgata's ability to pay dividends and make other distributions, make certain restricted payments, create liens, enter into transactions with affiliates, merge or consolidate, and engage in unrelated business activities.

Compliance with Financial Covenants

We believe that MDFC was in compliance with the Borgata bank credit facility covenants, including minimum consolidated EBITDA and minimum liquidity, which, at June 30, 2011, were \$160.2 million and \$130.4 million, respectively.

Borgata Senior Secured Notes

9.5% Senior Secured Notes Due 2015.

Significant Terms

In August 2010, MDFC issued, through a private placement, \$400 million principal amount of 9.5% senior secured notes due October 2015, at an issue price of 98.943%, resulting in a discount at issuance of \$4.1 million. The notes require semi-annual interest payments on April 15 and October 15, which commenced on April 15, 2011. The notes are guaranteed on a senior secured basis by MDDC and any future restricted subsidiaries of MDDC. The notes contain covenants that, among other things, limit MDFC's ability and the ability of MDDC to (i) incur additional indebtedness or liens; (ii) pay dividends or make distributions; (iii) make certain investments; (iv) sell or merge with other companies; and (v) enter into certain types of transactions. MDFC believes that it is in compliance with these covenants at June 30, 2011.

At any time prior to October 15, 2013, the notes may be redeemed at 100% of the principal amount thereof, plus a "make-whole premium" and accrued and unpaid interest. In addition, until October 15, 2013, MDFC may redeem up to 35% of the notes at a redemption price of 109.50% of the principal amount, plus accrued and unpaid interest, if any, to the redemption date, with the net cash proceeds from certain equity offerings. In addition, at any time prior to October 15, 2013, MDFC may redeem up to an aggregate of 10% of the notes in each twelve month period at a redemption price of 103% of the principal amount thereof plus accrued and unpaid interest, if any, to, but not including, the redemption date. On or after October 15, 2013, MDFC shall have the option to redeem the 2015 Notes, in whole or in part, at redemption prices (expressed as percentages of the principal amount) ranging from 104.75% beginning on October 15, 2013 to 102.375% beginning on October 15, 2014, plus accrued and unpaid interest to the applicable redemption date.

9.875% Senior Secured Notes Due 2018.

Significant Terms

In August 2010, MDFC issued, through a private placement, \$400 million principal amount of 9.875% senior secured notes due August 2018, at an issue price of 99.315%, resulting in an original issue discount of \$2.7 million. The notes require semi-annual interest payments on February 15 and August 15, which commenced on February 15, 2011. The notes are guaranteed on a senior secured basis by MDDC and any future restricted subsidiaries of MDDC. The notes contain covenants that, among other things, limit MDFC's ability and the ability of MDDC to (i) incur additional indebtedness or liens; (ii) pay dividends or make distributions; (iii) make certain investments; (iv) sell or merge with other companies; and (v) enter into certain types of transactions. MDFC believes that it is in compliance with these covenants at June 30, 2011.

At any time prior to August 15, 2014, the notes may be redeemed at 100% of the principal amount thereof, plus a “make-whole premium” and accrued and unpaid interest. In addition, until August 15, 2013, MDFC may redeem up to 35% of the notes at a redemption price of 109.875% of the principal amount, plus accrued and unpaid interest, if any, to the redemption date, with the net cash proceeds from certain equity offerings. In addition, at any time prior to August 15, 2013, MDFC may redeem up to an aggregate of 10% of the notes in each twelve month period at a redemption price of 103% of the principal amount thereof plus accrued and unpaid interest, if any, to, but not including, the redemption date. On or after August 15, 2013, MDFC shall have the option to redeem the 2018 Notes, in whole or in part, at redemption prices (expressed as percentages of the principal amount) ranging from 104.938% beginning on August 15, 2014, to 102.469% beginning on August 15, 2015, to 100% beginning on August 15, 2016 and thereafter, plus accrued and unpaid interest, to the applicable redemption date.

The original issue discount has been recorded as an offset to the principal amount of these notes and is being accreted to interest expense over the term of the notes using the effective interest method. The effective interest rate on the 9.50% notes due 2015 notes is 10.2% and on the 9.875% notes due 2018 is 10.3%.

#### Registration Rights Agreement

Pursuant to the registration rights agreement entered into which the initial purchasers of these senior secured notes at the time of the private placement, on May 27, 2011, MDFC commenced an offer to exchange all of the outstanding \$400.0 million aggregate

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

principal amount of 9.5% Senior Secured Notes due 2015 and \$400.0 million aggregate principal amount of 9.875% Senior Secured Notes due 2018 for new 9.5% Senior Secured Notes due 2015 and 9.875% Senior Secured Notes due 2018, respectively, that have been registered under the Securities Act of 1933. On June 28, 2011, the expiration date of the exchange offer, \$396.4 million of the 9.5% Senior Secured Notes due 2015 and \$400.0 of the 9.875% Senior Secured Notes due 2018 were validly tendered and accepted for exchange. This amount represents approximately 99.1% of the 9.5% Senior Secured Notes due 2015 and 100% of the 9.875% Senior Secured Notes due 2018, respectively.

## NOTE 9. DERIVATIVE INSTRUMENTS

We utilize derivative instruments to manage interest rate risk.

Derivatives that are not designated as hedges for accounting purposes must be adjusted to fair value through income. We designated current interest rate swaps as cash flow hedges through September 30, 2010, and measured their effectiveness using the long-haul method. If the derivative qualifies and is designated as a hedge, depending on the nature of the hedge, changes in its fair value will either be offset against the change in fair value of the hedged item through earnings or recognized in other comprehensive income (loss) until the hedged item is recognized in earnings. The effective portion of any gain or loss on our interest rate swaps is recorded in other comprehensive income (loss). We use the hypothetical derivative method to measure the ineffective portion of our interest rate swaps. Any ineffective portion of a derivative's change in fair value is immediately recognized in earnings.

## Interest Rate Swap Agreements

The Company has entered into floating-to-fixed interest rate swap arrangements in order to manage interest rate risk relating to its Amended Credit Facility. We were a party to certain floating-to-fixed interest rate swap agreements with an aggregate notional amount of \$500 million, whereby we received payments based upon the three-month LIBOR and made payments based upon a stipulated fixed rate. These interest rate swap agreements modified the Company's exposure to interest rate risk by synthetically converting a portion of the Company's floating-rate debt to a fixed rate. The interest rate swap agreements terminated on June 30, 2011, however, the following presents the activity related to our accounting for the interest rate swaps during the periods in which they were outstanding.

The following table presents the historical fair value of the interest rate swaps recorded in the accompanying condensed consolidated balance sheets as of December 31, 2010, the balance of which are included in other long-term liabilities.

Effective Date	Notional Amount	Fixed Rate	December 31, 2010	Maturity Date
September 28, 2007	\$ 100,000	5.13	% \$2,374	June 30, 2011
September 28, 2007	200,000	5.14	% 4,751	June 30, 2011
June 30, 2008	200,000	5.13	% 4,746	June 30, 2011
Totals	\$500,000		\$11,871	

## Hedge Accounting

These derivative instruments were accounted for as cash flow hedges through September 30, 2010. Accounting for cash flow hedging requires determining a division of hedge results deemed effective and deemed ineffective.

However, most of the Company's hedges were designed in such a way so as to perfectly offset specifically-defined interest payments, such that no ineffectiveness has occurred, nor would any ineffectiveness occur, as long as the forecasted cash flows of the designated hedged items and the associated swap contracts remain unchanged.

However, on October 1, 2010, in anticipation of the refinancing of our former bank credit facility, we de-designated all of our interest rate swap agreements as cash flow hedges. Concurrent with the de-designation of the hedging relationship, hedge accounting was suspended and the amount remaining in accumulated other comprehensive loss associated with this cash flow hedging relationship was frozen. This amount is being amortized into interest expense over the respective remaining term of the associated debt. Prospectively, all changes in the fair value of these interest rate swaps will be recognized immediately in earnings.

#### Fair Value

Fair value approximates the amount we would pay if these contracts were settled at the respective valuation dates. Fair value is

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

estimated based upon current, and predictions of future, interest rate levels along a yield curve, the remaining duration of the instruments and other market conditions, and therefore, is subject to significant estimation and a high degree of variability and fluctuation between periods. The fair value is adjusted, to reflect the impact of credit ratings of the counterparties or the Company, as applicable. These adjustments resulted in a reduction in the fair values as compared to their settlement values.

Credit risk relating to derivative counterparties is mitigated by using multiple, highly rated counterparties, and the credit quality of each is monitored on an ongoing basis.

The fair values of our derivative instruments at December 31, 2010 included approximately \$0.2 million of credit valuation adjustments to reflect the impact of the credit ratings of both the Company and our counterparties, based primarily upon the market value of the credit default swaps of the respective parties. These credit valuation adjustments resulted in a reduction in the fair values of our derivative instruments as compared to their settlement values.

## Classification of Changes in Fair Value

The effect of derivative instruments on the condensed consolidated statements of operations for the three and six months ended June 30, 2011 and 2010 was as follows (in thousands):

Derivatives in a Cash Flow Hedging Relationship - Interest Rate Swap Contracts	Gain Recognized in OCI on Derivative (Effective Portion)	Location of Gain (Loss) Reclassified from AOCI into Income (Ineffective Portion)	Gain (Loss) Reclassified from AOCI into Income (Ineffective Portion)
Three Months Ended			
June 30, 2011	\$—	Interest expense	\$(6,063)
June 30, 2010	4,869	Interest expense	554
Six Months Ended			
June 30, 2011	—	Interest expense	(11,824)
June 30, 2010	6,818	Interest expense	1,066
Derivatives Not Designated as Hedging Instruments - Interest Rate Swap Contracts		Location of Loss Recognized in Income on Derivative (Ineffective Portion)	Loss Recognized in Income on Derivative (Ineffective Portion)
Three Months Ended June 30, 2011		Fair value adjustment of derivative instruments	\$48
Six Months Ended June 30, 2011		Fair value adjustment of derivative instruments	\$265

The net effect of our floating-to-fixed interest rate swaps resulted in an increase in interest expense of \$6.1 million and \$5.6 million for the three months ended June 30, 2011 and 2010, respectively, and an increase in interest expense of

\$11.8 million and \$11.2 million for the six months ended June 30, 2011 and 2010, respectively, as compared to the contractual rate of the underlying hedged debt, for these periods.

During the three and six months ended June 30, 2011, due to the de-designation of our interest rate swap agreements as hedges during 2010, we recognized \$0.0 million and \$0.3 million, respectively, as a loss on the change in the fair value of these swaps. In addition, the Company amortized \$6.1 million and accreted \$0.6 million during the three months ended June 30, 2011 and 2010, respectively, and amortized \$11.8 million and accreted \$1.1 million during the six months ended June 30, 2011 and 2010, respectively, in OCI related to these, and other derivatives that were previously de-designated as hedging instruments.

NOTE 10. COMMITMENTS AND CONTINGENCIES

Table of Contents

BOYD GAMING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

Commitments

There have been no material changes to our commitments described under Note 12, Commitments and Contingencies, in our Annual Report on Form 10-K for the year ended December 31, 2010 filed with the SEC on March 15, 2011.

Contingencies

Nevada Use Tax Refund Claims

On March 27, 2008, the Nevada Supreme Court issued a decision in Sparks Nugget, Inc. vs. The State of Nevada Department of Taxation (the "Department"), holding that food purchased for subsequent use in the provision of complimentary and/or employee meals was exempt from use tax. On April 14, 2008, the Department filed a Petition for Rehearing (the "Petition") on the decision. Additionally, on the same date the Nevada Legislature filed an Amicus Curiae brief in support of the Department's position. The Nevada Supreme Court denied the Department's Petition on July 17, 2008. We paid use tax, over the period November 2000 through May 2008, on food purchased for subsequent use in complimentary and employee meals at our Nevada casino properties and estimate the refund to be in the range of \$17.5 million to \$19.9 million, including interest. In late 2009, the Department audited and denied our refund claim and subsequently issued a \$12.3 million sales tax deficiency assessment, plus interest of \$7.5 million. We appealed both the denial of the refund claim as well as the deficiency assessment in a hearing before the Nevada Administrative Law Judge in September 2010. In April 2011, the judge issued a split decision, granting a refund on employee meals and applying a sales tax measure on complimentary meals; however, the ruling barred retroactive application of the sales tax measure to all years included in the refund claim period, effectively overturning the Department's 2009 deficiency assessment. Both we and the Department appealed the decision, with the exception of the portion related to the deficiency assessment, to the Nevada State Tax Commission (the "Commission"). Our Appeals hearing is scheduled for August 8, 2011. The Department did not appeal the Judge's decision overturning the 2009 deficiency assessment and therefore, the ruling on the deficiency assessment is final and non-appealable. Due to uncertainty surrounding the ultimate resolution of the Commission appeal, as well as subsequent appeals to higher levels of the state judicial system, we will not record any gain until both we and the Department have exhausted all appeal options and a final, non-appealable decision has been rendered. For periods subsequent to May 2008, we have not collected, remitted or accrued a liability for sales tax on complimentary and employee meals at our Nevada casino properties, as we do not believe it is probable, based on both procedural issues and the technical merits of the Department's arguments, that we will owe this tax.

Blue Chip Property Taxes

In May 2007, Blue Chip received a valuation notice indicating an unanticipated increase of nearly 400% to its assessed property value as of January 1, 2006. At that time, we estimated that the increase in assessed property value could result in a property tax assessment ranging between \$4 million and \$11 million for the eighteen-month period ended June 30, 2007. We recorded an additional charge of \$3.2 million during the three months ended June 30, 2007 to increase our property tax liability to \$5.8 million at June 30, 2007 as we believed that was the most likely amount to be assessed within the range. We subsequently received a property tax bill related to our 2006 tax assessment for \$6.2 million in December 2007. As we have appealed the assessment, Indiana statutes allow for a minimum required payment of \$1.9 million, which was paid against the \$6.2 million assessment in January 2008. In February 2009, we received a notice of revaluation, which reduced the property's assessed value by \$100 million and the tax assessment by approximately \$2.2 million per year. We have subsequently paid the minimum required payment of \$1.9 million against provisional bills received in 2007 through 2011, all of which were based on the 2006 valuation notice. In March 2011, we reached a settlement with the assessor, reducing the valuation by an additional \$96.0 million and \$74.0 million for the 2006 and 2007 tax years, respectively. As a result of the agreement reached on the 2006 and

2007 valuations, we have revised our accrual for years 2008 through 2011 to reflect the expected carryforward effect of the reductions received in the prior year settlements. Such reduction resulted in the reversal of previously accrued property tax expense of approximately \$5.9 million during the six months ended June 30, 2011. We are currently in negotiations related to the 2008 and 2009 years but have not received valuation notices for years 2008 through 2011. We believe the assessment for the period from January 1, 2008 through June 30, 2011 could result in a property tax assessment ranging between \$14.0 million and \$18.0 million. We have accrued, net of the payments discussed above, approximately \$18.0 million of property tax liability as of June 30, 2011, based on what we believe to be the most likely assessment within our range, once all appeals have been exhausted; however, we can provide no assurances that the estimated amount will approximate the actual amount. The final assessment notices for the period January 1, 2008 through June 30, 2011, which have not been received as of June 30, 2011, could result in further adjustment to our estimated property tax liability at Blue Chip.

#### Copeland

Alvin C. Copeland, the sole shareholder (deceased) of an unsuccessful applicant for a riverboat license at the location of our Treasure Chest Casino ("Treasure Chest"), has made several attempts to have the Treasure Chest license revoked and awarded to

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

his company. In 1999 and 2000, Copeland unsuccessfully opposed the renewal of the Treasure Chest license and has brought two separate legal actions against Treasure Chest. In November 1993, Copeland objected to the relocation of Treasure Chest from the Mississippi River to its current site on Lake Pontchartrain. The predecessor to the Louisiana Gaming Control Board allowed the relocation over Copeland's objection. Copeland then filed an appeal of the agency's decision with the Nineteenth Judicial District Court. Through a number of amendments to the appeal, Copeland unsuccessfully attempted to transform the appeal into a direct action suit and sought the revocation of the Treasure Chest license. Treasure Chest intervened in the matter in order to protect its interests. The appeal/suit, as it related to Treasure Chest, was dismissed by the District Court and that dismissal was upheld on appeal by the First Circuit Court of Appeal. Additionally, in 1999, Copeland filed a direct action against Treasure Chest and certain other parties seeking the revocation of Treasure Chest's license, an award of the license to him, and monetary damages. The suit was dismissed by the trial court, citing that Copeland failed to state a claim on which relief could be granted. The dismissal was appealed by Copeland to the Louisiana First Circuit Court of Appeal. On September 21, 2002, the First Circuit Court of Appeal reversed the trial court's decision and remanded the matter to the trial court. On January 14, 2003, we filed a motion to dismiss the matter and that motion was partially denied. The Court of Appeal refused to reverse the denial of the motion to dismiss. In May 2004, we filed additional motions to dismiss on other grounds. There was no activity regarding this matter during 2005 and 2006, and the case was set to be dismissed by the court for failure to prosecute by the plaintiffs in mid-May 2007; however on May 1, 2007, the plaintiff filed a motion to set a hearing date related to the motions to dismiss. The hearing was scheduled for September 10, 2007, at which time all parties agreed to postpone the hearing indefinitely. The hearing has not yet been rescheduled. Mr. Copeland has since passed away and his son, the executor of his estate, has petitioned the court to be substituted as plaintiff in the case. On June 9, 2009, the plaintiff filed to have the exceptions set for hearing. The parties decided to submit the exceptions to the court on the previously filed briefs. The court issued a ruling denying the exceptions on August 9, 2010. Copeland's counsel indicated a desire to move forward with the litigation and requested that the parties respond to outstanding discovery. Subsequently, on August 11, 2010, Robert J. Guidry, the co-defendant, filed a third party demand against the U.S. Attorney's Office seeking enforcement of Guidry's plea agreement which would limit Guidry's exposure in the case. On September 9, 2010, the U.S. Attorney's Office removed the suit to the U.S. District Court, Middle District of Louisiana. Pending before the District Court are a motion to dismiss for failing to state a cause of action filed by Guidry, asserting the same arguments he tried in state court, which the Company joined, and a motion to dismiss for lack of subject matter jurisdiction filed by the U.S. Attorney, which may result in the case being remanded to state court. The U.S. District Court heard the motions on March 16, 2011. A ruling has not yet been issued. On April 1, 2011, the U.S. Attorney's Office moved for summary judgment, maintaining its jurisdictional argument as well as seeking substantive relief. We currently are vigorously defending the lawsuit. If this matter ultimately results in the Treasure Chest license being revoked, it could have a significant adverse effect on our business, financial condition and results of operations.

We are also parties to various legal proceedings arising in the ordinary course of business. We believe that, except for the Copeland matter discussed above, all pending claims, if adversely decided, would not have a material adverse effect on our business, financial position or results of operations.

## NOTE 11. STOCKHOLDERS' EQUITY AND STOCK INCENTIVE PLANS

## Share Repurchase Program

We have in the past, and may in the future, acquire our debt or equity securities, through open market purchases, privately negotiated transactions, tender offers, exchange offers, redemptions or otherwise, upon such terms and at

such prices as we may determine from time to time. In July 2008, our Board of Directors authorized an amendment to our existing share repurchase program to increase the amount of common stock available to be repurchased to \$100 million. We are not obligated to purchase any shares under our stock repurchase program.

Subject to applicable corporate securities laws, repurchases under our stock repurchase program may be made at such times and in such amounts as we deem appropriate. Purchases under our stock repurchase program can be discontinued at any time that we feel additional purchases are not warranted. We intend to fund the repurchases under the stock repurchase program with existing cash resources and availability under our bank credit facility.

We are subject to certain limitations regarding the repurchase of common stock, such as restricted payment limitations related to our outstanding notes and our bank credit facility.

During the six months ended June 30, 2011 or 2010, we did not repurchase any shares of our common stock. We are currently authorized to repurchase up to an additional \$92.1 million in shares of our common stock under the share repurchase program.

Dividends

41

---

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

Dividends are declared at our Board of Director's discretion. We are subject to certain limitations regarding payment of dividends, such as restricted payment limitations related to our outstanding notes and our bank credit facility. In July 2008, our Board of Directors suspended the quarterly dividend for the current and future periods; therefore, we did not declare a dividend during the six months ended June 30, 2011 or 2010.

## Share-Based Compensation

We account for share-based awards exchanged for employee services in accordance with the authoritative accounting guidance for share-based payments. Under the guidance, share-based compensation expense is measured at the grant date, based on the estimated fair value of the award, and is recognized as expense, net of estimated forfeitures, over the employee's requisite service period.

The following table provides classification detail of the total costs related to our share-based employee compensation plans reported in our condensed consolidated statements of operations.

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2011	2010	2011	2010
	(In thousands)			
Gaming	\$52	\$74	\$104	\$148
Food and beverage	10	14	20	28
Room	4	7	9	13
Selling, general and administrative	266	422	531	845
Corporate expense	1,808	2,355	5,289	4,694
Total share-based compensation expense	\$2,140	\$2,872	\$5,953	\$5,728

## NOTE 12. ACCUMULATED OTHER COMPREHENSIVE LOSS

Comprehensive income includes net income and all other non-stockholder changes in equity, or other comprehensive income. Components of the Company's comprehensive income are reported in the accompanying condensed consolidated statements of stockholders' equity. The cumulative balance of other comprehensive income consists solely of fair value adjustments related to hedged derivative instruments.

A portion of the net derivative instruments market adjustment included in accumulated other comprehensive loss, net, at June 30, 2011 relates to certain derivative instruments that we de-designated as cash flow hedges.

The following table reports the effects of the changes in the fair valuations of our derivative instruments.

	Three Months Ended June		Six Months Ended June 30,	
	30,		2011	
	2011	2010	2011	2010
	(In thousands)			
Fair value adjustment of derivative instruments	\$6,063	\$4,869	\$11,824	\$6,818
Tax effect	(2,177)	(1,724)	(4,230)	(2,408)
Fair value adjustment of derivative instruments, net of tax	\$3,886	\$3,145	\$7,594	\$4,410

## NOTE 13. NONCONTROLLING INTEREST

Noncontrolling interest represents: (i) the 50% interest in Borgata, held by the Divestiture Trust for the economic benefit of MGM, which was initially recorded at fair value at the date of the effective change in control, on March 24, 2010; and (ii) all 100% of the members' equity interest in LVE, the variable interest entity which was consolidated in our financial statements effective January 1, 2010, but in which we hold no equity interest. Pursuant to the authoritative accounting guidance for noncontrolling interests, a noncontrolling interest continues to be attributed its share of losses even if that attribution results in a deficit

Table of Contents

## BOYD GAMING CORPORATION AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(Unaudited)

noncontrolling interest balance, as is the case with LVE, as presented below.

Changes in the noncontrolling interest during the six months ended June 30, 2011 are as follows:

	Borgata	LVE	Total
	(In thousands)		
Six Months Ended June 30, 2011			
Beginning balance, January 1, 2011	\$219,256	\$(13,718 )	\$205,538
Attributable net loss	(4,527 )	(955 )	(5,482 )
Comprehensive loss	—	(808 )	(808 )
Ending Balance, June 30, 2011	\$214,729	\$(15,481 )	\$199,248

## LVE

## Comprehensive Income

LVE has entered into interest rate derivative contracts in order to hedge exposure to increasing interest rates, and the impact of those rates on the cash flows of its variable-rate debt. LVE's active interest rate swaps are as follows (notional amount in thousands):

Effective Date	Notional Amount	Fixed Rate	Maturity Date
Derivatives Designated as Hedging Instruments:			
December 21, 2007	\$131,986	4.59	% November 1, 2013
Derivatives Not Designated as Hedging Instruments:			
December 21, 2007	100,000	3.42	% November 1, 2013
Totals	\$231,986		

The fair value of these derivatives was \$18.2 million at June 30, 2011, which represents the amount LVE would have to pay the counterparty to terminate these contracts as of such date.

At inception, these interest rate derivatives were designated as cash flow hedges and determined to be highly effective. The differential to be paid or received as a result of these swaps is accrued as interest rates change and is recognized as an adjustment to interest expense. The change in fair value of the effective portion of these derivative has been recorded in accumulated other comprehensive loss. During the three and six months ended June 30, 2011, LVE recognized \$2.1 million and \$0.8 million, respectively, in comprehensive loss related to the changes in the fair value of the effective portion of these hedges.

Prior to January 1, 2010, the date LVE is first reflected in our financial condition and results of operations, hedge accounting was discontinued on the interest rate swap related to the taxable debt because it was no longer expected to be highly effective in hedging the exposure to increased interest rates and the impact of those rates on cash flows. The ineffective portion of the swap caused the variable-rate debt to increase at a slower pace than the contractual increases in notional amount of the swap.

## NOTE 14. FAIR VALUE MEASUREMENTS

We have adopted the authoritative accounting guidance for fair value measurements, which does not determine or affect the circumstances under which fair value measurements are used, but defines fair value, expands disclosure requirements around fair value and specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions.

These inputs create the following fair value hierarchy:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets

Total long-term debt, including current maturities	\$3,254,079	\$3,218,755	\$3,091,124	

The estimated fair value of the Amended Credit Facility is based on a relative value analysis performed on or about June 30, 2011 and December 31, 2010, respectively. The estimated fair value of Borgata's bank credit facility at June 30, 2011 and December 31, 2010 approximates its carrying value due to the short-term nature and variable repricing of the underlying Eurodollar loans comprising the Borgata bank credit facility. The estimated fair values of our senior subordinated and senior notes and Borgata's senior secured notes are based on quoted market prices as of June 30, 2011 and December 31, 2010, respectively. Debt included in the "Other" category is fixed-rate debt that is due March 2013 and is not traded and does not have an observable market input; therefore, we have estimated its fair value based on a discounted cash flow approach, after giving consideration to the changes in market rates of interest, creditworthiness of both parties, and credit spreads.

There were no transfers between Level 1 and Level 2 measurements during the six months ended June 30, 2011 or the year ended December 31, 2010.

Fair Value of Non-Recourse Obligations of Variable Interest Entity

At June 30, 2011 and December 31, 2010, the carrying value of LVE's long-term debt approximates its fair value due to the prevailing interest rates on the debt, which are comparable to market.

NOTE 15. WRITE-DOWNS AND OTHER ITEMS, NET

Write-downs and other items, net are comprised of the following:

**Impairment of Trademark**

As discussed in Note 5, Intangible Assets, during the six months ended June 30, 2011, we recorded a \$5.0 million impairment to the trademark, based upon the performance of an interim impairment test in connection with the valuation of Borgata.

**Measurement Period Adjustments**

In connection with the valuation procedures we performed on Borgata, we recorded measurement adjustments of \$0.1 million and \$0.5 million during the three and six months ended June 30, 2011, which were primarily comprised of a \$0.3 million bargain purchase gain.

**Asset Write-Downs**

During the three months ended June 30, 2011 and 2010, we recognized a loss of \$0.9 million and \$0.0 million in connection with the disposal of certain property and equipment in the ordinary course of business. During the six months ended June 30, 2011, we recognized a loss of \$0.9 million and \$0.0 million in connection with the disposal of certain property and equipment in the ordinary course of business.

**Acquisition Related Expenses**

During the three months ended June 30, 2011 and 2010, we recorded \$0.4 million and \$2.0 million of expenses related to evaluating various acquisition possibilities and other business development activities. During the six months ended June 30, 2011 and 2010, we recorded \$0.4 million and \$3.6 million of expenses related to evaluating various acquisition possibilities and other business development activities.

**Tunica Flood Expenses, Net of Recoveries**

Due to flooding of the Mississippi River and temporary closure of the property in May 2011, during the three and six months ended June 30, 2011, we recorded \$1.1 million of Tunica flood expenses, net of recoveries.

**NOTE 16. SEGMENT INFORMATION**

We have aggregated certain of our properties in order to present four Reportable Segments: (i) Las Vegas Locals; (ii) Downtown Las Vegas; (iii) Midwest and South; and (iv) Atlantic City. The table below lists the classification of each of our properties.

Results of Operations - Adjusted EBITDA

We determine each of our wholly-owned properties' profitability based upon Property EBITDA, which represents each property's earnings before interest expense, income taxes, depreciation and amortization, preopening expenses, write-downs and other charges, share-based compensation expense, deferred rent, change in value of derivative instruments, and gain/loss on early retirements of debt, as applicable. Reportable Segment Adjusted EBITDA is the aggregate sum of the Property EBITDA for each of the properties included in our Las Vegas Locals, Downtown Las Vegas, and Midwest and South segments, and also includes our share of Borgata's operating income before net amortization, preopening and other items.

Results for Downtown Las Vegas include the results of our travel agency and captive insurance company. Effective April 1, 2008, we reclassified the reporting of our Midwest and South segment to exclude the results of Dania Jai-Alai, our pari-mutuel jai-alai facility, since it does not share similar economic characteristics with our other Midwest and South operations; therefore, the results of Dania Jai-Alai are included as part of the "Other" category on the accompanying table.

We reclassify the reporting of corporate expense on the accompanying table in order to exclude it from our subtotal for Reportable Segment Adjusted EBITDA and include it as part of total other operating costs and expenses. Furthermore, corporate expense is now presented to include its portion of share-based compensation expense. Corporate expense represents unallocated payroll, professional fees, aircraft expenses and various other expenses not directly related to our casino and hotel operations, in addition to the corporate portion of share-based compensation

expense. Other operating costs and expenses include Property EBITDA from Dania Jai-Alai, deferred rent, and share-based compensation expense charged to our Reportable Segments. Interest expense is net of interest income and amounts capitalized.

The following table sets forth, for the periods indicated, certain operating data for our Reportable Segments, and reconciles Adjusted EBITDA to operating income (loss), as reported in our accompanying condensed consolidated statements of operations for the three and six months ended June 30, 2011 and 2010.

## NOTE 17. CONDENSED CONSOLIDATING FINANCIAL INFORMATION

In contemplation of the registration of our 9.125% Senior Notes due 2018 under the Securities Act of 1933, separate condensed consolidating financial information for our subsidiary guarantors and non-guarantors of this debt is presented below. The non-guarantors primarily represent special purpose entities, tax holding companies, our less significant operating subsidiaries and our less than wholly-owned subsidiaries.

The tables below present the condensed consolidating balance sheets as of June 30, 2011 and December 31, 2010 and the condensed consolidating statements of operations for the three and six month periods ended June 30, 2011 and 2010 and the condensed consolidating statements of cash flows for the six months ended June 30, 2011 and 2010.

NOTE 18. SUBSEQUENT EVENTS

We have evaluated all events or transactions that occurred after June 30, 2011. During this period, the following material subsequent events occurred.

Pending Acquisition of IP Casino Resort Spa

On August 4, 2011, as required by the Agreement for Purchase and Sale with Imperial Palace of Mississippi, LLC and Key Largo Holdings, LLC (collectively, the "Seller"), we made a non-refundable (except under certain circumstances) earnest money deposit of \$10 million. Pursuant to the agreement, the Seller agreed to sell and transfer, and we agreed to purchase and assume, certain assets and liabilities, respectively, related to the IP Casino Resort Spa in Biloxi, Mississippi, on an as-is basis (except as otherwise provided in the agreement), for a purchase price of \$278 million in cash. The \$10 million earnest money deposit will be credited against the purchase price upon the closing. Following the closing of the transaction, we will also make charitable contributions to the Engelstad Family Foundation equal to an aggregate of \$10 million, which funds are intended to be distributed on behalf of, and in the name of, the Company, over five years to local and regional Biloxi charitable organizations to be designated by the Company. In addition, following the closing, we intend to perform certain capital improvement projects with respect to the IP Casino Resort Spa with costs estimated to be \$44 million.

The closing of the transactions contemplated by the agreement is subject to the satisfaction or waiver of certain conditions, including, without limitation, (i) the receipt of certain consents, approvals or authorizations required to consummate the transactions

contemplated by the Agreement and other licenses and permits required to operate the Property; (ii) the absence of injunctions, judgments or other legal impediments seeking to prohibit the Closing; (iii) the expiration or termination of any required waiting periods under the Hart-Scott-Rodino Antitrust Improvements Act of 1976; and (iv) other customary closing conditions.

In addition to certain other termination rights, the agreement may be terminated by either us or the Seller if the closing has not occurred by the date that is six months following the date of the agreement. We currently anticipate that the closing will occur before the end of the year.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Executive Overview

Boyd Gaming Corporation (the “Company,” “Boyd Gaming,” “we” or “us”) is a multi-jurisdictional gaming company that has been operating for approximately 35 years.

We are a diversified operator of 15 wholly-owned gaming entertainment properties and one controlling interest in a limited liability company. Headquartered in Las Vegas, we have gaming operations in Nevada, Illinois, Louisiana, Mississippi, Indiana and New Jersey, which we aggregate in order to present the following four reportable segments:

Las Vegas Locals

Gold Coast Hotel and Casino	Las Vegas, Nevada
The Orleans Hotel and Casino	Las Vegas, Nevada
Sam's Town Hotel and Gambling Hall	Las Vegas, Nevada
Suncoast Hotel and Casino	Las Vegas, Nevada
Eldorado Casino	Henderson, Nevada
Jokers Wild Casino	Henderson, Nevada

Downtown Las Vegas

California Hotel and Casino	Las Vegas, Nevada
Fremont Hotel and Casino	Las Vegas, Nevada
Main Street Station Casino, Brewery and Hotel	Las Vegas, Nevada

Midwest and South

Sam's Town Hotel and Gambling Hall	Tunica, Mississippi
Par-A-Dice Hotel Casino	East Peoria, Illinois
Blue Chip Casino, Hotel & Spa	Michigan City, Indiana
Treasure Chest Casino	Kenner, Louisiana
Delta Downs Racetrack Casino & Hotel	Vinton, Louisiana
Sam's Town Hotel and Casino	Shreveport, Louisiana

Atlantic City

Borgata Hotel Casino & Spa	Atlantic City, New Jersey
----------------------------	---------------------------

We also own and operate Dania Jai-Alai, which is a pari-mutuel jai-alai facility with approximately 47 acres of related land located in Dania Beach, Florida. As discussed under "Other Items Affecting Liquidity", on April 29, 2011, we and Dania Entertainment Center, LLC entered into an asset purchase agreement for the sale of certain assets and liabilities of Dania Jai-Alai.

We also own and operate a travel agency in Hawaii, and a captive insurance company, also in Hawaii, that underwrites travel-related insurance.

Additionally, we own 85 acres of land on the Las Vegas Strip, where our multibillion dollar Echelon development project (“Echelon”) is located. On August 1, 2008, due to the difficult environment in the capital markets, as well as weak economic conditions, we announced the delay of Echelon. At such time, however, we did not anticipate the severity or the long-term effects of the current economic downturn, evidenced by lower occupancy rates, declining room rates and reduced consumer spending across the country, but particularly in the Las Vegas geographical area; nor did we predict that the incremental supply becoming available on the Las Vegas Strip would face such depressed demand levels, thereby elongating the time for absorption of this additional supply into the market. As we do not believe that a significant level of economic recovery has occurred along the Las Vegas Strip, we do not expect to resume construction of Echelon for three to five years, as previously disclosed. We also do not believe that financing for a development project like Echelon is currently available.

**Our Properties**

We operate gaming entertainment properties, most of which also include hotel, dining, retail and other amenities. Our main business emphasis is on slot revenues, which are highly dependent upon the volume and spending levels of customers at our properties, which affects our operating results.

59

---

## Table of Contents

Our properties have historically generated significant operating cash flow, with the majority of our revenue being cash-based. While we do provide casino credit, subject to certain gaming regulations and jurisdictions, most of our customers wager with cash and pay for non-gaming services by cash or credit card.

Our industry is capital intensive; we rely heavily on the ability of our properties to generate operating cash flow in order to fund maintenance capital expenditures, fund acquisitions, provide excess cash for future development, repay debt financing and associated interest costs, purchase our debt or equity securities, pay income taxes and pay dividends.

### Our Strategy

Our overriding strategy is to increase shareholder value. We follow several strategic initiatives on which we are focused to improve and grow our business.

**Strengthening our Balance Sheet:** We remain committed to finding opportunities to strengthen our balance sheet. We took an important step in this direction when we reached an agreement in April 2011 to sell Dania Jai-Alai for \$80 million. This asset is not consistent with our current growth strategy, and by selling it, we will raise a significant amount of capital that can be used to repay debt.

**Operating Efficiently:** We also remain committed to operating more efficiently. We will endeavor to prevent unneeded expense from returning to the business. The efficiencies of our business model position us to flow a substantial portion of revenue gains directly to the bottom line. Margin improvements will remain a driver of profit growth for the Company going forward.

**Evaluating Acquisition Opportunities:** Another key component of our strategy could be acquisitions. We will evaluate potential transactions in a way that is strategic, deliberate, and disciplined. Our intention is to pursue opportunities that are a good fit for our business, deliver a solid return for shareholders, and are available at the right price.

**Maintaining our Brand:** Finally, the ability of our employees to deliver great customer service remains a key differentiator for our Company and our brands. Our employees are a big reason that our customers continue to choose our properties over the competition across the country.

### Our Focus

As we have come to appreciate over the recent past, we cannot control the national economy, the pace of the recovery or the spending habits of the consumer. What we can control is our focus - and our focus will remain on: (i) ensuring our existing operations are managed as efficiently as possible and remain positioned for growth; (ii) our capital structure and strengthening our balance sheet, not just by paying down debt, but also by strengthening our operations and diversifying our asset base; and (iii) our growth strategy, which is built on finding those assets that are a good strategic fit and provide an appropriate return to our shareholders.

### Overall Outlook

We believe that our key operating results for each of the three and six months ended June 30, 2011 and 2010 have begun to show positive trends. Although over the course of the past several years, the severe economic recession has had a profound effect on consumer confidence, and has shifted spending away from discretionary items, such as leisure, hospitality, gaming and entertainment activities, these recent quarterly results indicate that we have realized some stabilizing trends in our business. Generally, the job market is strengthening, as the national unemployment rate has continued to decline throughout 2011. As the job market recovers and expands, we believe that consumer confidence will strengthen further.

We continually work to position our Company for greater success by strengthening our existing operations and growing through capital investment and other strategic initiatives. We have established a nationwide branding initiative and loyalty program. Previously, players were able to use their “Club Coast” or “B Connected” cards to earn and redeem points at nearly all of our wholly-owned Boyd Gaming properties in Nevada, Illinois, Indiana, Louisiana and Mississippi. In June 2010, we launched an enhanced, multi-property player loyalty program under the “B Connected” brand, which replaced the “Club Coast” program. Customers under the “Club Coast” program were able to keep all earned benefits and club points they had previously earned under the program. The new “B Connected” club, among other benefits, extends the time period over which players may qualify for promotion and increases the credits awarded to reel slot and table games players.

In addition to the “B Connected” player loyalty program, we launched the “B Connected Mobile” program in July 2010. “B Connected Mobile,” the first multi-property, loyalty program-based iPhone application of its kind in the gaming industry, is a personalized mobile application that delivers customized offers and information directly to a customer's iPhone, iPod Touch or iPad. The application further expands the benefits of the “B Connected” program. “B Connected Mobile,” a GPS powered feature,

## Table of Contents

provides real-time personalized information when a customer visits a Boyd property, including: hotel, dining and gaming offers, such as “Best Rates Available” on hotel rooms for “B Connected” members, instant access to event information, schedules and special offers at all Boyd Gaming properties using “B Connected,” a search engine that allows customers to find Boyd Gaming casinos that have their favorite machines and displays the games' locations on a casino floor map, the ability to track “B Connected” point balances in real time, and the ability to make immediate hotel or restaurant reservations.

### Development Activities

On August 1, 2008, due to the difficult environment in the capital markets, as well as weak economic conditions, we announced the delay of our multibillion dollar Echelon development project on the Las Vegas Strip. At such time, we did not anticipate the long-term effects of the economic recession and continued economic downturn, evidenced by lower occupancy rates, declining room rates and reduced consumer spending across the country, but particularly in the Las Vegas region; nor did we predict that the incremental supply becoming available on the Las Vegas Strip would face such depressed demand levels, thereby elongating the time for absorption of this additional supply into the market. As we do not yet believe that a significant level of economic recovery has occurred along the Las Vegas Strip, we do not expect to resume construction of Echelon for three to five years, as previously disclosed. We also believe financing for a development project like Echelon continues to be unavailable.

Nonetheless, we remain committed to having a significant presence on the Las Vegas Strip. During the suspension period, we continue to consider alternative development options for Echelon, which may include developing the project in phases, alternative capital structures for the project, scope modifications to the project, or additional strategic partnerships, among others. We can provide no assurances as to when, or if, construction will resume on the project, or if we will be able to obtain alternative sources of financing for the project. As we develop and explore the viability of alternatives for the project, we will monitor these assets for recoverability. If we are subject to a non-cash write-down of these assets, it could have a material adverse impact on our consolidated financial statements.

LVE Energy Partners, LLC (“LVE”) is a joint venture between Marina Energy LLC and DCO ECH Energy, LLC. Through our wholly-owned subsidiary, Echelon Resorts LLC (“Echelon Resorts”), we have entered into an Energy Sales Agreement (“ESA”) with LVE, to design, build, own (other than the underlying real property which is leased from Echelon Resorts) and operate a central energy center and related distribution system for our planned Echelon resort development. Pursuant to the ESA, LVE will provide chilled and hot water, electricity and emergency electricity generation to Echelon and potentially other joint venture entities associated with the Echelon development project or other third parties. The term of the ESA is 25 years, beginning when Echelon commences commercial operations. Assuming the central energy center is completed and functions as planned, we will pay a monthly service fee, which is comprised of a fixed capacity charge, an escalating operations and maintenance charge, and an energy charge. The aggregate of our monthly fixed capacity charge portion of the service fee will be \$23.4 million per annum (the “Annual Fixed Capacity Charge”). The Annual Fixed Capacity Charge, which will be payable for a 25-year period, was to commence in November 2010. However, LVE has suspended construction of the central energy center and the obligation to pay the Fixed Capacity Charge has not commenced.

On April 3, 2009, LVE notified us that, in its view, Echelon Resorts will be in breach of the ESA unless it recommences and proceeds with construction of the Echelon development project by May 6, 2009. We believe that LVE's position is without merit; however, in the event of litigation, we cannot state with certainty the eventual outcome nor estimate the possible loss or range of loss, if any, associated with this matter.

On March 7, 2011, Echelon Resorts and LVE entered into both a purchase option agreement (the “Purchase Option Agreement”) and a periodic fee agreement (the “Periodic Fee Agreement”). LVE has agreed not to initiate any litigation with respect to its April 3, 2009 claim of an alleged breach of the ESA and both Echelon Resorts and LVE have mutually agreed that neither LVE nor Echelon Resorts would give notice of, file or otherwise initiate any claim

or cause of action, in or before any court, administrative agency, arbitrator, mediator or other tribunal, that arises under the ESA, subject to certain exceptions, and that any statute of limitations or limitation periods for defenses, claims, causes of actions and counterclaims shall be tolled while the Periodic Fee Agreement is in effect. Under the Periodic Fee Agreement, Echelon Resorts agreed to pay LVE, beginning on March 4, 2011, a monthly periodic fee (the "Periodic Fee") and an operation and maintenance fee until Echelon Resorts either (i) resumes construction of the project or (ii) exercises its option to purchase LVE's assets pursuant to the terms of the Purchase Option Agreement. The amount of the Periodic Fee is fixed at \$11.9 million annually through November 2013. Thereafter, the amount of the Periodic Fee is estimated to be approximately \$10.8 million annually. The operation and maintenance fee cannot exceed \$0.6 million per annum without Echelon Resorts' prior approval. We have posted a letter of credit in the amount of \$6.0 million to secure Echelon Resorts' obligation to pay the Periodic Fee and the operation and maintenance fee.

Under the Purchase Option Agreement, Echelon Resorts has the right, at its sole discretion, upon written notice to LVE, to purchase the assets of LVE including the central energy center and the related distribution system for a price of \$195.1 million, subject to certain possible adjustments. The ESA will be terminated concurrent with the purchase of the LVE assets.

## Table of Contents

As of June 30, 2011, we have incurred approximately \$924.0 million in capitalized costs related to the Echelon project, including land, and not including approximately \$195.9 million associated with the construction costs of the central energy facility. As part of the delay of the project, we expect to additionally incur approximately \$0.3 million to \$3.0 million of capitalized costs annually, principally related to such items as offsite fabrication of a skylight and curtain wall as well as offsite improvements. In addition, we expect annual recurring project costs, consisting primarily of monthly charges related to construction of the central energy center, site security, property taxes, rent and insurance, of approximately \$15.0 million to \$17.0 million that will be charged to preopening or other expense as incurred during the project's suspension period.

In addition to the expansion projects mentioned above, we regularly evaluate opportunities for growth through the development of gaming operations in existing or new markets, along with opportunities associated with acquiring other gaming entertainment facilities.

### Other Events

#### Effective Control of Borgata

On March 24, 2010, as a result of the amendment to our operating agreement with MGM Resorts International ("MGM") (our original 50% partner in Borgata), which provided, among other things, for the termination of MGM's participating rights in the operations of Borgata, we effectively obtained control of Borgata. The amendment to the operating agreement was related to MGM's divestiture of its interest pursuant to a regulatory settlement.

As discussed above, due to our controlling interest in Borgata, we measured our previously held equity interest at a provisional fair value. Additionally, the financial position of Borgata is presented in our condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010; its results of operations for the three months ended June 30, 2011 are included in our condensed consolidated statement of operations for the three months ended June 30, 2011; its results of operations for the six months ended June 30, 2011 are included in our condensed consolidated statements of operations and cash flows for the six months ended June 30, 2011; its results of operations for the three months ended June 30, 2010 are included in our condensed consolidated statement of operations for the three months ended June 30, 2010; and its results of operations for the period from March 24 through June 30, 2010 are included in our condensed consolidated statements of operations and cash flows for the six months ended June 30, 2010.

At the date we obtained effective control, and applied the acquisition method of accounting, we were required to make significant estimates and assumptions regarding the provisional fair values of Borgata's assets and liabilities. This method also allowed us to refine these estimates over a one-year measurement period to reflect new information obtained about facts and circumstances that existed as of the date of effective control, which, if known, would have affected the measurement of the amounts recognized as of that date. Any changes to the provisional valuation during this one-year period are referred to as "measurement period adjustments". We recorded certain measurement period adjustments and retrospectively included the effects of those adjustments in the condensed consolidated balance sheet as of December 31, 2010 included herein.

## RESULTS OF OPERATIONS

### Summary of Operating Results

#### Three and six months ended June 30, 2011 and 2010

Throughout the discussion in this section, our results of operations for the six months ended June 30, 2010 are presented considering the pro forma effect of the consolidation of Borgata as if such had occurred on January 1, 2010, rather than March 24, 2010. This presentation is for the purposes of comparability, and all such results reflecting this pro forma are identified as such.

We believe that our key operating results for each of the three and six months ended June 30, 2011 and 2010 have begun to show positive trends. Although over the course of the past several years, the severe economic recession has

had a profound effect on consumer confidence, and has shifted spending away from discretionary items, such as leisure, hospitality, gaming and entertainment activities, these recent quarterly results indicate that we have realized some stabilizing trends in our business. Generally, the job market is strengthening, as the national unemployment rate has continued to decline throughout 2011. As the job market recovers and expands, we believe that consumer confidence will strengthen further. These and other positive trends reflect recoveries in our wholly-owned businesses.

Specifically, in our Las Vegas Locals region, visitor counts have been increasing or stable over the past eighteen months. Our Downtown Las Vegas segment is benefiting from the present strength of its Hawaiian customer base. The economy in the Midwest and South region has progressed a bit ahead of both the national and certainly of Las Vegas economies. Although we have gained market share and increased non-gaming revenues in Atlantic City, the entire market continues to experience a difficult period, due to increased local and regional competition, resulting in increased promotional slot credits and table games incentives.

Table of Contents

The following provides a summary of certain key operating results:

	Three Months Ended		Six Months Ended		
	June 30, 2011	2010	June 30, 2011	2010 Actual	2010 Pro Forma
	(In thousands)				
Net revenues	\$574,403	\$578,446	\$1,139,349	\$993,581	\$1,151,870
Operating Income	61,990	49,676	110,094	93,706	101,851
Net income (loss) attributable to Boyd Gaming Corporation	(2,951 )	3,382	(6,472 )	11,817	11,817

#### Net revenues

Net revenues were \$574.4 million for the three months ended June 30, 2011, compared to \$578.4 million for the comparable period in the prior year. The decline was relatively flat, as most regions of our business continue to stabilize. As discussed below, we saw marginal growth in our Downtown and Midwest and South regions, which was slightly offset by a slight decline in our Las Vegas Locals segment, and more significantly by a decrease in Atlantic City. While our Las Vegas Locals and Midwest and South segments experienced slight year-over-year declines in net revenues, our Downtown segment experienced a year-over-year increase.

Giving consideration to the pro forma effect of the consolidation of Borgata, net revenues were \$1.14 billion compared to \$1.15 billion for the six months ended June 30, 2011 and 2010, respectively, a slight decline, which was primarily driven by the competitive pressures in Atlantic City.

#### Operating income

Operating income increased by 24.8% to \$62.0 million during the three months ended June 30, 2011 compared to the corresponding period of the prior year primarily due to improved operating gaming margins, our ongoing cost containment efforts and lower depreciation and amortization expense, as discussed below.

For largely the same reasons, operating income increased by 8.1% to \$110.1 million during the six months ended June 30, 2011 as compared to \$101.9 million in the comparable period of the prior year, as adjusted to reflect the pro forma consolidation of Borgata during such entire period.

#### Net income (loss) attributable to Boyd Gaming Corporation

Net loss attributable to Boyd Gaming was \$3.0 million for the three months ended June 30, 2011, compared to net income of \$3.4 million for the corresponding period of the prior year, due primarily to increased interest expense on higher outstanding debt balances, and higher average interest rates related to our refinancing activities in 2010 and the adverse effect of unitary state income taxes.

Net loss attributable to Boyd Gaming was \$6.5 million for the six months ended June 30, 2011 compared to net income of \$11.8 million for the six months ended June 30, 2010. The decrease in this period is also due to higher interest costs, as interest expense increased significantly, as further discussed below.

#### Operating Revenues

Three and six months ended June 30, 2011 and 2010

The following analysis discusses our operating revenues, on a consolidated basis, which is further supplemented by operating segment detail below.

We derive the majority of our gross revenues from our gaming operations, which produced approximately 72% of gross revenues for the three months ended June 30, 2011 and 2010, and 72% and 73% of gross revenues for the six months ended June 30, 2011 and 2010, respectively. Food and beverage gross revenues, which produced approximately 14% of gross revenues for all of the three months ended June 30, 2011 and 2010, and the six months ended June 30, 2011 and 2010, respectively, represent the next most significant revenue source, followed by room and other, both of which separately contributed less than 10% of gross revenues during these respective periods.

**Three Months Ended June 30, 2011 and 2010****Gaming**

Gaming revenues are significantly comprised of the net win from our slot machine operations and table games win. The \$3.6 million, or 0.7%, decrease in gaming revenues during the three months ended June 30, 2011 as compared to the corresponding period of the prior year was due primarily to a 0.5% decrease in slot win, including a 1.9% decrease in slot handle, as well as a 1.5% decrease in table game win, including a 0.4% decrease in table game drop.

**Food and Beverage**

Food and beverage revenues increased 0.6% during the three months ended June 30, 2011 as compared to the corresponding period of the prior year, due to a corresponding increase in average covers and tickets.

**Room**

Room revenues increased 3.0% during the three months ended June 30, 2011 as compared to the corresponding period of the prior year, due to increased ADR and occupancy driven by destination and convention business.

**Other**

Other revenues have decreased 1.6% during the three months ended June 30, 2011 as compared to the corresponding period of the prior year, due primarily to timing of events.

**Six Months Ended June 30, 2011 and 2010****Gaming**

Gaming revenues decreased by \$9.9 million, or 1.0%, during the six months ended June 30, 2011 as compared to the corresponding period of the prior year, due primarily to a 3.5% decrease in table game win, including a 2.2% decrease in table game drop, offset by a 0.3% increase in slot win, despite a 1.0% decrease in slot handle.

Food and Beverage

64

---

Table of Contents

Food and beverage revenues increased 0.8% during the six months ended June 30, 2011 as compared to the corresponding period of the prior year, due to a corresponding increase in average covers and tickets, which reflect increased convention and meeting business.

**Room**

Room revenues increased 2.4% during the six months ended June 30, 2011 as compared to the corresponding period of the prior year, primarily due to increased overall average daily rates and occupancy.

**Other**

Other revenues have decreased 0.8% during the six months ended June 30, 2011 as compared to the corresponding period of the prior year, primarily due to a slight decline in retail sales.

**Revenues and Adjusted EBITDA by Reportable Segment**

We determine each of our properties' profitability based upon Adjusted EBITDA, which represents earnings before interest expense, income taxes, depreciation and amortization, deferred rent, preopening expenses, share-based compensation expense, and write-downs and other items, as applicable. Reportable Segment Adjusted EBITDA is the aggregate sum of the Adjusted EBITDA for each of the properties comprising our Las Vegas Locals, Downtown Las Vegas, Midwest and South and Atlantic City segments and also includes our share of Borgata's operating income, (during the period in which it was accounted for under the equity method of accounting), before net amortization, preopening and other items.

The following table presents our gross revenues and Adjusted EBITDA, by Reportable Segment, for the three and six months ended June 30, 2011 and 2010.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(In thousands)			
Gross revenues				
Las Vegas Locals	\$ 167,346	\$ 169,658	\$ 338,792	\$ 343,555
Downtown Las Vegas	62,911	61,007	124,538	120,720
Midwest and South	203,526	205,466	410,616	413,522
Atlantic City	239,609	238,924	461,525	260,927
Reportable Segment Gross Revenues	673,392	675,055	1,335,471	1,138,724
Other	1,485	1,581	3,040	3,555
Gross revenues	\$ 674,877	\$ 676,636	\$ 1,338,511	\$ 1,142,279
Adjusted EBITDA				
Las Vegas Locals	\$ 38,570	\$ 36,810	\$ 78,213	\$ 77,223
Downtown Las Vegas	9,366	9,310	18,370	17,682
Midwest and South	42,276	35,590	83,487	74,869
Atlantic City	38,657	42,960	70,339	47,863
Our share of Borgata's operating income before net amortization, preopening and other items	—	—	—	8,180
Adjusted EBITDA	\$ 128,869	\$ 124,670	\$ 250,409	\$ 225,817

Significant factors that affected our Reportable Segment Gross Revenues and Adjusted EBITDA for the three and six months ended June 30, 2011, as compared to the corresponding period of the prior year, are listed below:

Three months ended June 30, 2011 and 2010

Las Vegas Locals

Gross revenues declined slightly by 1.4% while Adjusted EBITDA increased 4.8% during the three months ended June 30, 2011, as compared to the corresponding period of the prior year, which reflect the stabilization of business volumes and the positive ongoing effects of our cost control measures. Growth in our convention and meeting business increased more than 20% during

65

---

Table of Contents

the second quarter. We continued to experience strong operating performances particularly at The Orleans, and multiple properties also reported year-over-year Adjusted EBITDA gains in the second quarter. Our management teams continue to focus on operating efficiently while maintaining a high level of customer service. During this quarter, our Las Vegas Locals business posted an Adjusted EBITDA margin of 23.0%, which represents a 130 basis-point increase over the second quarter of 2010.

Downtown Las Vegas

Gross revenues and Adjusted EBITDA increased 3.1% and 0.6%, respectively, during the three months ended June 30, 2011, as compared to the corresponding period of the prior year, due primarily to growth from our Hawaiian customers, offset by significantly higher fuel costs at our Hawaiian charter operation. Our Hawaiian customer base is essential to our downtown operations, and we continue to invest in them.

Midwest and South

Gross revenues declined to \$203.5 million during the three months ended June 30, 2011, from \$205.5 million, or by 0.9% , as compared to the three months ended June 30, 2010, while Adjusted EBITDA increased by 18.8% during the same respective periods. Results were impacted by strong performances at Treasure Chest, Delta Downs and Par-A-Dice, which wer offset by the closure of our property Sam's Town Hotel and Gambling Hall in Tunica during the month of May as a result of the flooding of the Mississippi River. All other five properties in this region posted positive growth during this period, as Adjusted EBITDA margin improved by 350 basis points due to improved flow through.

Atlantic City

Borgata's gross revenues for the three months ended June 30, 2011 were \$239.6 million, up 0.3% from \$238.9 million in the three months ended June 30, 2010, while Adjusted EBITDA declined 10.0% to \$38.7 million from \$43.0 million during the same respective periods. Competition remains elevated in the region, and we have responded by increasing investments in our customer base. In table games, the hold rate was 13%, in line with our long-term expectations; however, this rate was 80 basis points below prior-year levels. Slot win rose slightly, and table game volume was flat year-over-year.

Six Months Ended June 30, 2011 and 2010

Las Vegas Locals

Gross revenues declined 1.4% and Adjusted EBITDA increased 1.3% during the six months ended June 30, 2011, as compared to the corresponding period of the prior year, reflecting improved performance at The Orleans, and successful marketing initiatives. The region also experienced an increase in convention and meeting business.

Downtown Las Vegas

Gross revenues and Adjusted EBITDA increased 3.2% and 3.9%, respectively, during the six months ended June 30, 2011, as compared to the corresponding period of the prior year, due primarily to growth from our Hawaiian customers. Greater efficiencies in our operations contributed to strong flow-through in our results, which were also partially offset by significantly higher fuel costs at our Hawaiian charter operation. Jet fuel prices have risen sharply, and fierce competition on Hawaiian air routes limited our ability to increase fares.

Midwest and South

Gross revenues declined slightly by 0.7% during the six months ended June 30, 2011, as compared to the corresponding period of the prior year, reflecting the impact of severe winter weather, which resulted in reduced business volumes despite an increase in market share. Adjusted EBITDA increased by 11.5% during the six months ended June 30, 2011, as compared to the corresponding period of the prior year, as our business continues to grow across this region, particularly due to highly effective marketing and overall economic strength in southern Louisiana.

#### Atlantic City

Results were not consolidated fully during the six months ended June 30, 2010, however, on a comparable pro forma basis, gross revenues declined to \$461.5 million from \$463.3 million and Adjusted EBITDA declined to \$70.3 million from \$81.0 million, for the six months ended June 30, 2011 and 2010, respectively. Overall, results during the the current six months were adversely impacted by promotional spend, which increased to 23.8% of gross gaming revenue for the six months ended June 30, 2011 from 21.9% for the six months ended June 30, 2010. This spend represented increased promotional slot credit and table game incentives in response to the increasingly competitive environment in the Atlantic City and Eastern Pennsylvania gaming markets.

#### Other Costs and Expenses

The following costs and expenses, as presented in our condensed consolidated statements of operations, are further discussed below:

Table of Contents

	Three Months Ended		Six Months Ended		
	June 30, 2011	2010	June 30, 2011	2010 Actual	2010 Pro Forma
	(In thousands)				
Selling, general and administrative	\$96,783	\$99,666	\$192,571	169,944	198,925
Maintenance and utilities	36,773	37,970	74,188	62,109	75,631
Depreciation and amortization	48,488	55,408	99,072	95,454	112,208
Corporate expense	12,264	13,526	25,544	25,615	25,615
Preopening expenses	1,741	1,243	3,572	2,306	2,306
Write-downs and other items, net	2,262	1,991	6,969	3,592	3,660

The results for the three and six months ended June 30, 2011 and for the three months ended June 30, 2010, as reported above, reflect the consolidation of Borgata for the entire periods while the results for the six months ended June 30, 2010 reflect the consolidation of Borgata for the period from March 24, 2010 through June 30, 2010. The "Pro Forma" column in the six months ended June 30, 2010 column above reflects the results of operations as if Borgata had been consolidated for such entire period, and thus, for purposes of comparability, will be the basis for the six month analytical discussions below.

**Three months ended June 30, 2011 and 2010****Selling, general and administrative**

Selling, general and administrative expenses, as a percentage of gross revenues, declined to 14.3% during the three months ended June 30, 2011 from 14.7% during the three months ended June 30, 2010, due to disciplined and targeted marketing spend, and our ongoing cost containment efforts.

**Maintenance and Utilities**

Maintenance and utilities expenses, as a percentage of gross revenues, decreased to 5.4% during the three months ended June 30, 2011 from 5.6% during the three months ended June 30, 2010, due primarily to our consolidation of LVE, from which we recorded the unreimbursed expenses associated with the central energy facility at Echelon. Excluding the consolidation of LVE, maintenance and utilities expenses were relatively consistent during the three months ended June 30, 2011, as compared to the corresponding period of the prior year, as no major maintenance projects were undertaken in either period.

**Depreciation and Amortization**

Depreciation and amortization expense declined as a percentage of gross revenues during the three months ended June 30, 2011, as compared to the corresponding period of the prior year, representing 7.2% and 8.2%, respectively, as certain property and equipment became fully depreciated and there were no significant expansion capital expenditures placed into service.

**Corporate Expense**

Corporate expense represents unallocated payroll, professional fees, rent and various other administrative expenses that are not directly related to our casino and/or hotel operations, in addition to the corporate portion of share-based compensation expense. The decrease in corporate expense, as a percentage of gross revenues of 1.8% and 2.0%, during the three months ended June 30, 2011 and 2010, respectively, primarily reflects the benefits from certain marketing initiatives earned during the quarter, which offset our overall marketing spend.

**Preopening Expenses**

We expense certain costs of start-up activities as incurred. During the three months ended June 30, 2011 and 2010, we recorded preopening expenses related to our Echelon development project, expenses related to our efforts to develop

gaming activities in other jurisdictions and expenses related to other business development activities. The Period Fees, as discussed above, are included in the expenses related to our Echelon development project during the three months ended June 30, 2011; however, such amounts were eliminated upon the consolidation of LVE and not reflected in total preopening expenses.

Write-downs and Other Items, Net

During the three months ended June 30, 2011, write-downs and other charges primarily related to the insurance costs associated with the closure of Sam's Town Tunica during the month of May, as well as certain costs incurred in relation to acquisition activities. During the three months ended June 30, 2010, we recorded \$2.0 million of expenses related to the evaluation of various acquisition

## Table of Contents

opportunities and other business development activities.

Six months ended June 30, 2011 and 2010

Selling, general and administrative

Selling, general and administrative expenses, as a percentage of gross revenues, declined to 14.4% during the six months ended June 30, 2011 from 14.8% during the six months ended June 30, 2010, due to disciplined and targeted marketing spend, and our ongoing cost containment efforts.

Maintenance and Utilities

Maintenance and utilities expenses, as a percentage of gross revenues, decreased to 5.5% during the six months ended June 30, 2011 from 5.6% during the six months ended June 30, 2010, due primarily to our consolidation of LVE, from which we recorded the unreimbursed expenses associated with the central energy facility at Echelon. Excluding the consolidation of LVE, maintenance and utilities expenses were relatively consistent during the six months ended June 30, 2011, as compared to the corresponding period of the prior year, as no major maintenance projects were undertaken in either period.

Depreciation and Amortization

Depreciation and amortization expense declined as a percentage of gross revenues during the six months ended June 30, 2011, as compared to the corresponding period of the prior year, representing 7.4% and 8.3%, respectively, as there were no significant expansion capital expenditures and certain property and equipment became fully depreciated.

Corporate Expense

Corporate expense represents unallocated payroll, professional fees, rent and various other administrative expenses that are not directly related to our casino and/or hotel operations, in addition to the corporate portion of share-based compensation expense.

Corporate expense, as a percentage of gross revenues, was flat at 1.9% during the six months ended June 30, 2011 and 2010, reflecting the offset of increased share-based compensation costs due to a one-time adjustment to a specific vesting provision with benefits of certain marketing initiatives.

Preopening Expenses

We expense certain costs of start-up activities as incurred. During the six months ended June 30, 2011 and 2010, we recorded preopening expenses related to our Echelon development project, expenses related to our efforts to develop gaming activities in other jurisdictions and expenses related to other business development activities. The Period Fees, as discussed above, are included in the expenses related to our Echelon development project during the six months ended June 30, 2011; however, such amounts were eliminated upon the consolidation of LVE and not reflected in total preopening expenses.

Write-downs and Other Items, Net

During the six months ended June 30, 2011, we recorded a \$5 million impairment of the trademark valued under the acquisition accounting for Borgata, \$1.1 million associated with the insurance costs related to the temporary closure of Tunica, \$0.9 million of asset disposal costs, which were partially offset by the bargain purchase gain recorded upon the change in control of Borgata and various other measurement period adjustments. During the six months ended June 30, 2010, write-downs and other items, net primarily consisted of \$3.6 million of direct expenses related to evaluating various acquisition opportunities and other business development activities.

Operating Income from Borgata

Three and six months ended June 30, 2011 and 2010

Our share of Borgata's operating income represents the amounts recorded in our consolidated financial statements under the equity method, which is partially reflected in the six months ended June 30, 2010, as part of that period was

prior to our consolidation of the operating results of Borgata .

Other Expense (Income)

Interest Expense

The following table presents our interest expense for the three and six months ended June 30, 2011 and 2010.

Average interest rates						
Boyd Gaming Corporation	6.7	% 4.5	% 6.7	% 4.4	% 4.4	%
Borgata	9.5	% 2.9	% 9.6	% 2.8	% 2.8	%

The results for the three and six months ended June 30, 2011 and for the three months ended June 30, 2010, as reported above, reflect the consolidation of Borgata for the entire periods while the results for the six months ended June 30, 2010 reflect the consolidation of Borgata for the period from March 24, 2010 through June 30, 2010. The "Pro Forma" column in the six month ended June 30, 2010 column above reflects the results of operations as if Borgata had been consolidated for such entire period, and thus, for purposes of comparability, will be the basis for the six month analytical discussions below.

#### Three months ended June 30, 2011 and 2010

Interest expense was \$66.7 million for the three months ended June 30, 2011, a 92% increase as compared to the corresponding period of the prior year. The increase was primarily due to higher average interest rates on higher average outstanding Borgata debt balances, offset by lower Boyd debt balances during the three months ended June 30, 2011, compared to the corresponding period of the prior year. Average outstanding note balances and interest rates during this period are reflected in the table above. Interest on the non-recourse debt obligations also increased, due to the consolidation of LVE in 2010.

During the three months ended June 30, 2011 and 2010, we were a party to certain floating-to-fixed interest rate swap agreements with an aggregate notional amount of \$500 million, whereby we received payments based upon the three-month LIBOR and made payments based upon a stipulated fixed rate. As market interest rates during the period were significantly lower than the 5.1% weighted-average fixed rate associated with these swaps, the effect of the swaps increased our interest expense by \$6.1 million and \$5.6 million for the three months ended June 30, 2011 and 2010, respectively. Our interest rate swap agreements expired on June 30, 2011.

#### Six months ended June 30, 2011 and 2010

Interest expense was \$124.0 million for the six months ended June 30, 2011, an 80% increase as compared to the corresponding period of the prior year. The increase was primarily due to higher average interest rates on higher average outstanding Borgata debt balances, offset by lower Boyd debt balances during the six months ended June 30, 2011, compared to the corresponding period of the prior year. Average outstanding debt balances and interest rates during this period are reflected in the table above. Interest on the non-recourse debt obligations also increased, due to

the consolidation of LVE in 2010.

During the six months ended June 30, 2011 and 2010, we were a party to certain floating-to-fixed interest rate swap agreements with an aggregate notional amount of \$500 million, whereby we received payments based upon the three-month LIBOR and made payments based upon a stipulated fixed rate. As market interest rates during the period were significantly lower than the 5.1% weighted-average fixed rate associated with these swaps, the effect of the swaps increased our interest expense by \$11.8 million and \$11.2 million for the six months ended June 30, 2011 and 2010, respectively. Our interest rate swap agreements expired on

Table of Contents

June 30, 2011.

Fair Value Adjustment of Derivative Instruments

During 2010, in anticipation of the execution of our Amended Credit Facility, we de-designated all of our interest rate swap agreements as cash flow hedges. Concurrent with the de-designation of the hedging relationship, hedge accounting was suspended and the amount remaining in accumulated other comprehensive loss associated with this cash flow hedging relationship was frozen. This amount is being amortized into interest expense over the respective remaining term of the associated debt. Prospectively, all changes in the fair value of these interest rate swaps will be recognized immediately in earnings. This mark-to-market adjustment resulted in a realized loss of \$0.0 million and \$0.3 million during the three and six months ended June 30, 2011.

Gain on Early Retirements of Debt

We did not repurchase any of our senior subordinated or senior notes during the six months ended June 30, 2011. During the three and six months ended June 30, 2010, we purchased and retired \$17.5 million and \$33.0 million, respectively, principal amount of our senior subordinated notes. The total purchase price of the notes was \$15.5 million and \$28.9 million, respectively, resulting in a gain of \$1.9 million and \$3.9 million, respectively, net of associated deferred financing fees, which is recorded on our condensed consolidated statement of operations for the respective period. The transactions were funded by availability under our former bank credit facility.

Income Taxes

The effective tax rate during the three months ended June 30, 2011 was -19.25%, as compared to 29.0% during the three months ended June 30, 2010. The effective tax rate during the six months ended June 30, 2011 was 15.5%, as compared to 29.7% during the six months ended June 30, 2010. Our 2011 and 2010 tax benefit and provision, respectively, were favorably impacted by permanent adjustments related to our consolidating interests in the Borgata and LVE. We consolidate Borgata's and LVE's income or loss for financial statement purposes; however, under federal income tax statutes, we only receive a benefit from or are subject to income tax on our fifty percent interest in the Borgata and we exclude LVE's income in its entirety. In 2011 our tax benefit was adversely impacted by certain recurring permanent adjustments that are unaffected by our loss from continuing operations. Additionally, in 2011, and to a lesser extent in 2010, our state tax provision was adversely impacted by a statutory change in state income tax rates, changes in apportionment and the geographic mix of our income.

Adjusted Earnings (Loss) and Adjusted EPS

We believe that Adjusted Earnings (Loss) and Adjusted Earnings Per Share ("EPS") are important supplemental measures of operating performance to investors, and management believes that Adjusted Earnings (Loss) and Adjusted EPS are widely used measures of performance in the gaming industry. We use Adjusted Earnings (Loss) and Adjusted EPS in this Quarterly Report on Form 10-Q because we believe they are useful to investors in allowing greater transparency related to significant measures used by management in its financial and operational decision-making. Management believes it is appropriate to adjust net income (loss) attributable to Boyd Gaming Corporation for certain adjustments, which are eliminated from net income (loss) in order to enable investors to isolate the core operating results of the Company.

Adjusted Earnings (Loss) is net income (loss) before preopening expenses, adjustments to property tax accruals, net, change in value of derivative instruments, write-downs and other items, net, gain on early retirements of debt, and our share of Borgata's other items and write-downs, net.

The following tables present our Adjusted Earnings (Loss) and Adjusted Earnings per Share for the three and six months ended June 30, 2011 and 2010.

Adjusted earnings per share for the three months ended June 30, 2011 were computed using our diluted weighted average shares outstanding, although the presentation on our condensed consolidated statement of operations for such period does not consider the effect of common stock equivalents, as such were anti-dilutive to the net loss, as reported. However, as such net loss has been adjusted to the earnings per share amount, the dilutive effect is considered in the per share calculation above.

During the three and six months ended June 30, 2011 and 2010, the following items were included in the calculation of Adjusted Earnings and Adjusted EPS:

#### Adjustments Related to Boyd Gaming Corporation

##### Preopening Expenses, Excluding Impact of Consolidation of LVE

Preopening expenses are comprised of costs primarily related to maintenance of our Echelon development project and expenditures for the exploration of new business development initiatives.

##### Adjustments to Property Tax Accruals

Property tax accruals have been adjusted based on assessments from the relevant taxing authorities and changes in our estimate of past liabilities related to such assessments.

##### Write-Downs and Other Items, net

Write-downs and other items, net, is comprised of the bargain purchase gain recorded in connection with the valuation procedures on Borgata.

##### Change in Fair Value of Derivative Instruments

Change in fair value of derivative instruments is comprised of the charge to earnings for the change in fair value of our interest rate swaps that were de-designated as cash flow hedges during 2010.

(Gain) Loss on Early Retirements of Debt

(Gain) loss on early retirements of debt represents the difference between the principal amount of our senior subordinated notes repurchased and the purchase price of such notes.

## Table of Contents

### Acquisition Related Expenses

Acquisition related expenses are comprised of certain costs incurred related to the evaluation of various acquisition opportunities and other business development activities.

### Tunica Flood Expenses, net of Recoveries

These expenses relate to the insurance and other direct and non-reimbursable costs associated with the closure of Sam's Town Tunica during the month of May 2011 due to the flooding of the Mississippi River.

### Adjustments Related to Borgata

#### Preopening Expenses

Preopening expenses at Borgata related to costs incurred to open a new retail outlet during the quarter.

### Write -Downs and Other Items, net

Write-downs and other items represent the net losses upon the disposition or sale of certain assets as well as an impairment charge related to the trademark which resulted from a decline in revenue projections specific to Borgata.

### Valuation Adjustments Related to Consolidation, net

These adjustments represent the aggregate impact of the measurement activity associated with the changes from historical value to fair value of Borgata, upon consolidation, primarily representing depreciation and amortization expense resulting from the recordation of certain tangible and intangible assets.

## LIQUIDITY AND CAPITAL RESOURCES

### Financial Position

The significant change in our financial position relates to the classification of certain non-extending balances due under our Amended Credit Facility as a current liability, as such amounts come due within the next twelve months. We are evaluating our options with respect to funding repayment of this indebtedness when it becomes due, which include, borrowing against the availability under our Amended Credit Facility, securing new indebtedness, using portions of our available cash or any combination of these options.

At June 30, 2011, we reported LVE's total assets and total liabilities of \$249.6 million and \$265.1 million, respectively in our condensed consolidated balance sheet. However, LVE's financial position, including its working capital and indebtedness, are not discussed herein as such indebtedness is non-recourse to us and will not require our working capital or free cash flows in order to service such. Therefore, the assets and liabilities of LVE are completely disregarded from the discussion below, due to the irrelevance to our overall liquidity and capital resources.

### Working Capital

Historically, we have operated with minimal or negative levels of working capital in order to minimize borrowings and related interest costs under our Amended Credit Facility. As of June 30, 2011 and December 31, 2010, we had balances of cash and cash equivalents of \$175.8 million and \$145.6 million, respectively. In addition, we had working capital deficits of \$381.3 million and \$87.5 million as of June 30, 2011 and December 31, 2010, respectively, which has increased due to the classification of certain of our debt obligations becoming due in May 2012.

We and Borgata separately manage our working capital positions, including our cash and indebtedness levels. Our respective bank credit facilities generally provide any necessary funds for our day-to-day operations, interest and tax payments, as well as capital expenditures. On a daily basis, we evaluate our cash position and adjust the balance under our respective bank credit facilities as necessary, by either borrowing or paying it down with excess cash. We also plan the timing and the amounts of our capital expenditures. We each believe that our borrowing capacity under our respective bank credit facilities, subject to restrictive covenants, and cash flows from operating activities will be sufficient to meet our projected operating and maintenance capital expenditures for at least the next twelve months. The source of funds for the repayment of our debt or our development projects is derived primarily from cash flows

from operations and availability under our respective bank credit facilities, to the extent availability exists after we meet our respective working capital needs, and subject to restrictive covenants.

We or Borgata could also seek to secure additional working capital, repay our respective current debt maturities, or fund our respective development projects, in whole or in part, through incremental bank financing and additional debt or equity offerings. If availability does not exist under our respective bank credit facilities, or we are not otherwise able to draw funds on our respective bank credit facilities, additional financing may not be available to either us or Borgata, and if available, may not be on terms favorable to either us or Borgata.

Indebtedness

73

---

## Table of Contents

Our indebtedness primarily consists of amounts outstanding under our \$1.5 billion Amended Credit Facility (including \$500 million of term loans, and excluding the non-extending amounts of \$331.0 million) and \$956.4 million aggregate principal amount of our senior and senior subordinated notes, which are the obligations of Boyd, and a \$150 million bank credit facility and \$800 million aggregate principal amount of senior secured notes, all of which are the obligations of Borgata.

### Bank Credit Facility

#### Significant Terms

On December 3, 2010, we entered into an Amendment and Restatement Agreement with certain financial institutions (each a “Lender”), including Bank of America, N.A., as administrative agent and letter of credit issuer, and Wells Fargo Bank, National Association, as swing line lender (the “Amendment and Restatement Agreement”). Pursuant to the terms of the Amendment and Restatement Agreement, our First Amended and Restated Credit Agreement, dated as of May 24, 2007, as amended by the First Amendment and Consent to First Amended Credit Agreement, dated as of December 21, 2009 (as amended, the “Amended Credit Facility”), was amended and restated to, among other things, (i) reduce the aggregate commitments under the former credit facility and (ii) permit consenting Lenders to extend the maturity date of their commitments, new Lenders to issue revolving commitments and term loans and existing Lenders to increase their commitments (each, an “Extending Lender”) in each case with a maturity date five years from the restatement effective date.

Each of the Extending Lenders permanently reduced their commitments under the Amended Credit Facility by up to 50% of the amount thereof. As a result, the aggregate commitments under the Amended Credit Facility were reduced from \$3 billion to approximately \$1.5 billion (including \$500 million of term loans, and excluding \$331.0 million in non-extending amounts), which commitments may be increased from time to time by up to \$500 million (instead of \$1 billion commitment increases provided for under the former credit facility) through additional revolving credit or term loans under the Amended Credit Facility.

Pursuant to the terms of the Amended Credit Facility, the term loans amortize in an annual amount equal to 5% of the original principal amount thereof, which commenced on March 31, 2011, payable on a quarterly basis. The interest rate per annum applicable to revolving and term loans under the Amended Credit Facility are based upon, at our option, LIBOR or the “base rate,” plus an applicable margin in either case. The applicable margin under the Amended Credit Facility is a percentage per annum determined in accordance with a specified pricing grid based on the total leverage ratio. The applicable margin on the outstanding balance on the Extended Revolving Facility ranges from 2.50% to 3.50% (if using LIBOR), and from 1.50% to 2.50% (if using the base rate). The applicable margin on the outstanding balance of the loans and commitments of the non-extending lenders continues to range from 0.625% to 1.625% (if using LIBOR), and from 0.0% to 0.375% (if using the base rate). A fee of a percentage per annum (which ranges from 0.250% to 0.500%) determined by the level of the total leverage ratio is payable on the unused portions of the Amended Credit Facility.

The “base rate” under the Amended Credit Facility is the highest of (x) Bank of America's publicly-announced prime rate, (y) the federal funds rate plus 0.50%, or (z) the Eurodollar rate for a one month period plus 1.00%.

The letter of credit fees under the Amended Credit Facility remain the same as those under the Credit Facility; however, the margins payable to Extending Lenders are based on the margins applicable to the Extended Revolving Facility.

Subject to certain conditions, amounts outstanding under the Amended Credit Facility may be prepaid without premium or penalty, and the unutilized portion of any of the commitments may be terminated without penalty.

The blended interest rates for outstanding borrowings under our Amended Credit Facility were 3.2% and 3.3% at June 30, 2011 and December 31, 2010, respectively. At June 30, 2011, approximately \$1.43 billion was outstanding under our Amended Credit Facility, with \$15.6 million allocated to support various letters of credit, leaving remaining contractual availability of approximately \$555.7 million.

### Guarantees

Our obligations under the Amended Credit Facility, subject to certain exceptions, are guaranteed by certain of our subsidiaries and are secured by the capital stock of certain subsidiaries. In addition, subject to certain exceptions, we and each of the guarantors granted the administrative agent first priority liens and security interests on substantially all of our real and personal property (other than gaming licenses and subject to certain other exceptions) as additional security for the performance of the secured obligations under the Amended Credit Facility.

#### Financial and Other Covenants

The Amended Credit Facility contains certain financial and other covenants, including, without limitation, various covenants (i) requiring the maintenance of a minimum consolidated interest coverage ratio of 2.00 to 1.00, (ii) establishing a maximum permitted consolidated total leverage ratio (discussed below), (iii) establishing a maximum permitted secured leverage ratio (discussed below), (iv) imposing limitations on the incurrence of indebtedness, (v) imposing limitations on transfers, sales and other

## Table of Contents

dispositions and (vi) imposing restrictions on investments, dividends and certain other payments. Subject to certain exceptions, we may be required to repay the amounts outstanding under the Amended Credit Facility in connection with certain asset sales and issuances of certain additional secured indebtedness.

The minimum consolidated Interest Coverage Ratio (as defined in our Amended Credit Facility) is calculated as (a) twelve-month trailing Consolidated EBITDA (as defined in our Amended Credit Facility) to (b) consolidated interest expense (as also defined in our Amended Credit Facility).

The maximum permitted consolidated Total Leverage Ratio (as defined in our Amended Credit Facility) is calculated as Consolidated Funded Indebtedness to twelve-month trailing Consolidated EBITDA (all capitalized terms are defined in the Amended Credit Facility). Presently, and through December 31, 2011, our maximum Total Leverage Ratio is set at 7.75 to 1.00. Thereafter, on a scheduled basis in 0.25 basis point increments, the maximum ratio decreases to a low 5.50 to 1.00 at March 15, 2015 through the duration of the term.

The maximum permitted Secured Leverage Ratio (as defined in our Amended Credit Facility) is calculated as Secured Indebtedness to twelve-month trailing Consolidated EBITDA (all capitalized terms are defined in the Amended Credit Facility). Presently, and through March 31, 2012, our maximum Secured Leverage Ratio is set at 4.50 to 1.00. Thereafter, on a scheduled basis in 0.25 basis point increments, the maximum ratio decreases to a low 3.25 to 1.00 at June 30, 2014 through the duration of the term.

### Compliance with Financial Covenants

We believe that we were in compliance with the Amended Credit Facility covenants, including the minimum consolidated Interest Coverage Ratio, the maximum permitted consolidated Total Leverage Ratio and the maximum permitted Secured Leverage Ratio, which, at June 30, 2011, were 2.42 to 1.00, 6.95 to 1.00 and 4.14 to 1.00, respectively.

At June 30, 2011, assuming our twelve-month trailing Consolidated EBITDA remains constant, we estimate that we could draw an additional \$276 million of the availability under our Amended Credit Facility and maintain compliance with our Total Leverage Ratio.

### Debt Financing Costs

In conjunction with the Amendment and Restatement Agreement, we incurred approximately \$20.6 million in incremental debt financing costs, which have been deferred and are being amortized over the remaining term of the Amended Credit Facility.

### Senior Notes

#### 9.125% Senior Notes due December 2018

##### Significant Terms

On November 10, 2010, we issued, through a private placement, \$500 million aggregate principal amount of 9.125% senior notes due December 2018. The notes require semi-annual interest payments on December 1 and June 1 of each year, which commenced on June 1, 2011. The notes will mature on December 1, 2018 and are fully and unconditionally guaranteed, in a joint and several basis, by certain of our current and future domestic restricted subsidiaries, all of which are 100% owned by us. The notes contain certain restrictive covenants that, subject to exceptions and qualifications, among other things, limit our ability and the ability of our restricted subsidiaries (as defined in the indenture governing the notes) to incur additional indebtedness or liens, pay dividends or make distributions or repurchase our capital stock, make certain investments, and sell or merge with other companies. We believe that we are in compliance with these covenants at June 30, 2011. At any time prior to December 1, 2013, we may redeem up to 35% of the aggregate principal amount of the notes at a redemption price equal to 109.125% of the principal amount thereof, plus accrued and unpaid interest, if any, up to, but excluding, the applicable redemption date, with the net cash proceeds that we raise in one or more equity offerings. In addition, prior to December 1, 2014, we may redeem the notes, in whole or in part, at a redemption price equal to 100% of the principal amount thereof,

plus accrued and unpaid interest, if any, up to, but excluding, the applicable redemption date, plus a make whole premium. Subsequent to December 1, 2014, we may redeem all or a portion of the notes at redemption prices (expressed as percentages of the principal amount) ranging from 104.563% in 2014 to 100% in 2016 and thereafter, plus accrued and unpaid interest.

#### Registration Rights Agreement

In connection with the private placement of the notes, we entered into a registration rights agreement with the initial purchasers in which we agreed to file a registration statement with the SEC to permit the holders to exchange or resell the notes. We must use commercially reasonable efforts to file a registration statement and to consummate an exchange offer within 365 days after the issuance of the notes, subject to certain suspension and other rights set forth in the registration rights agreement. Under certain circumstances, including our determination that we cannot complete an exchange offer, we are required to file a shelf registration statement for the resale of the notes and to cause such shelf registration statement to be declared effective as soon as reasonably practicable (but in no event later than the 365th day following the issuance of the notes) after the occurrence of such circumstances.

Table of Contents

Subject to certain suspension and other rights, in the event that the registration statement is not filed or declared effective within the time periods specified in the registration rights agreement, the exchange offer is not consummated within 365 days after the issuance of the notes, or the registration statement is filed and declared effective but thereafter ceases to be effective or is unusable for its intended purpose for a period in excess of 30 days without being succeeded immediately by a post-effective amendment that cures such failure, the agreement provides that additional interest will accrue on the principal amount of the notes at a rate of 0.25% per annum during the 90-day period immediately following any of these events and will increase by 0.25% per annum at the end of each subsequent 90-day period, but in no event will the penalty rate exceed 1.00% per annum, until the default is cured. There are no other alternative settlement methods and, other than the 1.00% per annum maximum penalty rate, the agreement contains no limit on the maximum potential amount of consideration that could be transferred in the event we do not meet the registration statement filing requirements. We currently intend to file a registration statement, have it declared effective and consummate any exchange offer within these time periods. Accordingly, we do not believe that payment of additional interest under the registration payment arrangement is probable and, therefore, no related liability has been recorded in the condensed consolidated financial statements.

## Senior Subordinated Notes

## 6.75% Senior Subordinated Notes due April 2014

## Significant Terms

On April 15, 2004, we issued, through a private placement, \$350 million principal amount of 6.75% senior subordinated notes due April 2014. In July 2004, all of the notes, except for \$50,000 in aggregate principal amount of these notes, were exchanged for substantially similar notes that were registered with the SEC. The notes require semi-annual interest payments on April 15 and October 15 of each year, through April 2014, at which time the entire principal balance becomes due and payable. The notes contain certain restrictive covenants regarding, among other things, incurrence of debt, sales of assets, mergers and consolidations, and limitations on restricted payments (as defined in the indenture governing the notes). We believe that we are in compliance with these covenants at June 30, 2011. We may redeem all or a portion of the notes at redemption prices (expressed as percentages of the principal amount) ranging from 103.375% in 2009 to 100% in 2012 and thereafter, plus accrued and unpaid interest.

## 7.125% Senior Subordinated Notes due February 2016

## Significant Terms

On January 30, 2006, we issued \$250 million principal amount of 7.125% senior subordinated notes due February 2016. The notes require semi-annual interest payments on February 1 and August 1 of each year, through February 2016, at which time the entire principal balance becomes due and payable. The notes contain certain restrictive covenants regarding, among other things, incurrence of debt, sales of assets, mergers and consolidations, and limitations on restricted payments (as defined in the indenture governing the notes). We believe that we are in compliance with these covenants at June 30, 2011. We may redeem all or a portion of the notes at redemption prices (expressed as percentages of the principal amount) ranging from 103.563% in 2011 to 100% in 2014 and thereafter, plus accrued and unpaid interest.

## Indentures

The indentures governing the senior and senior subordinated notes each include permitted investment clauses, the most restrictive of which limits the amount of permitted investments to a basket of \$150 million, increased by a calculated amount including 50% of net income, as defined in the indentures, and net of previous permitted investments. Also, the indentures allow for the incurrence of additional indebtedness, if after giving effect to such incurrence, our coverage ratio (as defined in the indentures, essentially a ratio of consolidated EBITDA to fixed charges, including interest) for a trailing four quarter period on a pro forma basis would be at least 2.0 to 1.0. Such pro forma coverage ratio was above 2.0 to 1.0 at the dates in which these respective tranches of senior and senior subordinated notes were issued; and, at June 30, 2011, after giving effect to the repayment of certain indebtedness, as defined in the indentures, our coverage ratio was above 2.0 to 1.0.

Repurchases of Senior Subordinated Notes

We did not repurchase any of our senior subordinated or senior notes during the
