Higher One Holdings, Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

1. Nature of Business and Organization

Higher One Holdings, Inc., or HOH, is a leading provider of technology, data analytics and payment services to the higher education industry. HOH, through its subsidiaries, provides a comprehensive suite of disbursement, payment and data analytics solutions specifically designed for higher education institutions and their students. We have developed and acquired proprietary software-based solutions to provide these services. HOH is incorporated in Delaware and maintains its headquarters in New Haven, Connecticut. HOH has a wholly-owned subsidiary, Higher One, Inc., or HOI, which has two wholly-owned subsidiaries, Higher One Machines, Inc., or HOMI, and Higher One Real Estate, Inc., or Real Estate Inc. HOI and HOMI together own 99% of Higher One Financial Technology Private Limited, or HOFTPL. Real Estate Inc. has a 98% ownership interest in Higher One Real Estate SP, LLC, or Real Estate LLC. HOMI and HOFTPL perform certain of our operational support functions. Real Estate Inc. and Real Estate LLC were each formed to hold and operate certain of our real estate.

2. Significant Accounting Policies

Basis of Presentation and Consolidation

The accompanying unaudited condensed consolidated financial statements and the related interim information contained within the notes to such condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, and the applicable rules of the Securities and Exchange Commission, or the SEC, for interim information and quarterly reports on Form 10-Q.

The unaudited condensed consolidated financial statements have been prepared on a consistent basis with the audited consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2014, and in the opinion of management, include all normal recurring adjustments that are necessary for the fair statement of our interim period results reported herein. The December 31, 2014 condensed consolidated balance sheet data included in this Form 10-Q was derived from our audited financial statements but does not include all disclosures required by GAAP. Due to seasonal fluctuations and other factors, the results of operations for the three months ended March 31, 2015 are not necessarily indicative of the results to be expected for the full year.

The unaudited condensed consolidated financial statements reflect our financial position and results of operations, including our majority and wholly-owned subsidiaries. Intercompany transactions and balances have been eliminated in consolidation.

The preparation of financial statements in conformity with GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could materially differ from management's estimates.

Goodwill and Intangible Assets

Goodwill represents the excess of the fair value of consideration transferred over the fair values assigned to the underlying net identifiable assets of acquired businesses. We test goodwill for impairment annually on October 31, or whenever events or changes in circumstances indicate that impairment may have occurred, by comparing its fair value to its carrying value. Impairment may result from, among other things, deterioration in the performance of an acquired

business, adverse market conditions, adverse changes in applicable laws or regulations, including changes that restrict the activities of an acquired business, and a variety of other circumstances.

As a result of changes instituted by our chief operating decision maker (and as further described in Note 7), we now have three reportable segments: Disbursements, Payments and Data Analytics, which are organized according to the type of service that each offers to our target markets – higher education institutions and their students. Each of these business units is also an operating segment and a reporting unit for purposes of our goodwill impairment testing. As a result of the change in our operating segments and reporting units, we have compared the fair value of our reporting units to the carrying value of our reporting units and determined that there was no impairment of goodwill.

Basic and Diluted Net Income Available to Common Stockholders per Common Share

Basic net income per common share excludes dilution for potential common stock issuances and is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted net income per common share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of diluted net income per common share, the basic weighted-average number of shares is increased by the dilutive effect of restricted stock, warrants and stock options using the treasury-stock method. The treasury-stock method assumes that the options or warrants are exercised at the beginning of the period (or date of issue, if later), and that we use those proceeds to purchase common stock for treasury at the average price for the reporting period.

5

Higher One Holdings, Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

The effect of stock options and warrants to purchase our common stock totaling 5,063,524 and 4,175,053 were not included in the computation of diluted net income per common share for the three months ended March 31, 2015 and 2014, respectively, as their effect would be anti-dilutive. Anti-dilutive securities are securities that upon conversion or exercise increase earnings per share (or reduce the loss per share). In periods when we recognize a net loss, we exclude the impact of outstanding stock awards from the diluted loss per share calculation as their inclusion would have an anti-dilutive effect.

Comprehensive Income

There are no comprehensive income items other than net income. There are no recorded unrealized gains or losses on the investments in marketable securities as of the balance sheet dates. Comprehensive income equals net income for all periods presented.

Other Arrangements

We accept payments on behalf of educational institutions and subsequently remit these payments to the education institutions. The amounts received are maintained in segregated accounts for the benefit of either the institution or the payer. There were approximately \$165.7 million and \$127.3 million of such funds as of March 31, 2015 and December 31, 2014, respectively. These deposits are not our funds and therefore are not included in the accompanying condensed consolidated balance sheets.

Recent Accounting Pronouncements

There were no accounting standards adopted during 2014 or during the three months ended March 31, 2015 which had a material impact on our consolidated financial position, results of operations or liquidity.

In May 2014, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU, No. 2014-09, Revenue From Contracts With Customers, that outlines a single model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The ASU is based on the principle that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to fulfill a contract. Entities have the option of using either a full retrospective or a modified retrospective approach for the adoption of the new standard. This standard is currently effective for fiscal periods beginning after December 15, 2016; however, in April 2015, the FASB proposed a one-year deferral of the effective date of this standard and early adoption is prohibited. We are currently assessing the impact that this standard will have on our consolidated financial statements.

In June 2014, the FASB issued Accounting Standards Update No. 2014-12, Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period, which updated the accounting standards related to stock compensation. The update clarifies the accounting for share-based payments with a performance target that could be achieved after the requisite service period. Specifically, the update specifies the performance target should not be reflected in estimating the grant-date fair value of the award. Instead, the probability of achieving the performance target should impact vesting of the award. The standard is effective for interim and annual periods beginning after December 15, 2015 and early adoption is permitted. We do not expect the adoption of this standard to have a material effect on our financial condition and results of operations.

In April 2015, the FASB issued Accounting Standard Update No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. This standard is effective for fiscal periods beginning after December 15, 2015 and early adoption is permitted. We do not believe this standard will have a significant impact on our consolidated financial statements or disclosures.

6

Higher One Holdings, Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

3. Investments in Marketable Securities and Fair Value Measurements

The following table reflects the assets carried at fair value measured on a recurring basis (in thousands). There were no liabilities carried at fair value measured on a recurring basis at either March 31, 2015 or December 31, 2014:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
Fair values at March 31, 2015				
Assets:				
Certificate of deposit	\$250	\$ -	\$ 250	\$ -
Fair values at December 31, 2014				
Assets:				
Certificate of deposit	\$249	\$ -	\$ 249	\$ -

We had no unrealized gains or losses from investments as of March 31, 2015 or December 31, 2014, and there is no difference between the amortized cost and fair value of the securities we held. The carrying amounts of our cash equivalents, accounts receivable, accounts payable and accrued expenses approximates fair value because of the short-term nature of these instruments. The carrying amount of our debt outstanding under our Credit Facility (defined below) approximates fair value as a result of our amendment to the credit facility in February 2015. Our loan receivable related to our New Markets Tax Credit financing is a debt instrument that we classify as held to maturity and is recorded at amortized cost. The carrying value of both our loan receivable and loan payable related to our New Markets Tax Credit financing approximates fair value as of March 31, 2015. The fair value of our loan payable and loan receivable related to our New Markets Tax Credit financing was estimated using discounted cash flow analysis based on rates for similar types of arrangements and are considered Level 3 measurements.

4. Real Estate Development Project

At the end of 2011, we completed a real estate development project and moved our headquarters into two commercial buildings located in New Haven, Connecticut. During the three months ended March 31, 2014, we received a payment of \$3.5 million associated with state historic tax credits which were generated by the project.

In connection with the project, we provided separate guarantees to each of two departments of the state of Connecticut. One guaranty relates to our obligation to repay a grant if we fail to meet certain criteria, including a specified minimum average employment level in Connecticut for the years 2015 – 2018. The other guaranty relates to our obligation to repay sales and use tax exemptions if we fail to meet certain criteria, including a minimum employment threshold. The maximum potential amount of repayments for these guarantees is approximately \$7.0 million. During the year ended December 31, 2014, we recorded a liability, and corresponding increase in our fixed asset balance, totaling \$1.3 million, which represents our best estimate of expected repayments resulting from these

guarantees. A portion of the liability (\$1.1 million) is recorded within deferred revenue and other non-current liabilities as it would not be due until 2019 and the remaining balance (\$0.2 million) is recorded in accrued expenses in our condensed consolidated balance sheets as of both March 31, 2015 and December 31, 2014.

We also provided a guaranty related to tax credits that are expected to be generated by an investment made by an unrelated entity into the real estate development project. In the event that we cause a recapture or disallowance of the tax credits expected to be generated under this program, we will be required to repay the disallowed or recaptured tax credits plus an amount sufficient to pay the taxes on such repayment, to the counterparty of the guaranty agreement. This guaranty will remain in place through 2018. The maximum potential amount of future payments of this guaranty is approximately \$6.0 million. We currently believe that the requirement to make a payment under this guaranty is remote and we have thus not recorded any liability on our condensed consolidated balance sheet in connection with this guaranty.

Higher One Holdings, Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

5. Credit Facility

In October 2012, HOI entered into a five-year, \$200.0 million, senior secured revolving credit facility, or the Credit Facility.

We amended the Credit Facility in February 2015, which modified certain of the financial covenants and other terms of the agreement as follows:

the revolving credit facility was reduced to \$140.0 million, with \$35.0 million of such facility reserved only for the resolution of the certain regulatory matters, as defined. The revolving credit facility subsequently reduces to \$130.0 million and \$120.0 million as of December 31, 2015 and 2016, respectively;

requires us to maintain a debt to consolidated EBITDA ratio, or leverage ratio, of 2.75 to 1.00 or less for the evaluation periods from March 31, 2015 through September 30, 2016, and of 2.50 to 1.00 or less thereafter;

requires us to maintain consolidated EBITDA, as defined in the Credit Facility, as amended, on a consolidated basis for the prior four fiscal quarters of at least the following amounts (i) \$45.0 million as of March 31, 2015 and June 30, 2015, (ii) \$40.0 million as of September 30, 2015 and December 31, 2015, and (iii) \$35 million as of March 31, 2016 and all future evaluation periods;

allow, at our option, amounts outstanding under the October 2012 Facility to accrue interest at a rate equal to either (i) the London Interbank Offered Rate, or LIBOR, plus a margin of 4% or (ii) a fluctuating base rate tied to the federal funds rate, the administrative agent's prime rate and LIBOR, plus a margin of 3%;

allow for the payment of up to \$75 million related to the settlement of certain regulatory matters, as defined;

allow for the exclusion from the computation of consolidated EBITDA of up to \$75 million of income statement charges related to certain regulatory matters, as defined; and

automatically and permanently reduce the revolving credit facility, dollar for dollar up to a maximum reduction in the revolving credit facility of \$20.0 million, to the extent that the loss related to those certain regulatory matters is less than \$70.0 million.

The Credit Facility permits the issuance of letters of credit of up to \$20.0 million and swing line loans of up to \$10.0 million to fund working capital needs. Loans drawn under the Credit Facility are payable in a single maturity on October 16, 2017. In connection with the February 2015 Amendment, we paid down the outstanding balance of the Credit Facility by \$35 million, expensed approximately \$0.4 million of previously deferred financing costs and incurred new financing costs of approximately \$4.5 million in February 2015, which are included in deferred costs as of March 31, 2015 in the accompanying condensed consolidated balance sheet.

As of March 31, 2015, there were \$59.0 million in borrowings outstanding, at a weighted average interest rate of 4.2%, under the Credit Facility. We are in compliance with all of the applicable affirmative, negative and financial covenants of the Credit Facility. As of March 31, 2015, our trailing twelve month consolidated EBITDA (as defined in the Credit Facility) was \$57.1 million.

6. Commitments and Contingencies

From time to time we are subject to litigation relating to matters in the ordinary course of business, as well as regulatory examinations, information gathering requests, inquiries and investigations.

Regulatory Examinations and Other Matters

As previously disclosed, the Federal Reserve Bank of Chicago notified us and a former bank partner of potential violations of the Federal Trade Commission Act relating to marketing and disclosure practices related to the OneAccount during the period it was offered by such former bank partner. On May 9, 2014, the Federal Reserve Banks of Chicago (the responsible Reserve Bank for a former bank partner) and Philadelphia (the responsible Reserve Bank for a current bank partner) notified us that the Staff of the Board of Governors of the Federal Reserve System intended to recommend that the Board of Governors of the Federal Reserve System, or the Board of Governors, seek an administrative order against us with respect to asserted violations of the Federal Trade Commission Act. The cited violations relate to our activities with both a former and current bank partner and our marketing and disclosure practices related to the process by which students may select the OneAccount option for financial aid refund. We are in discussions with the Staff of the Board of Governors and the Reserve Banks on this matter. The Staff of the Board of Governors has asserted that any administrative order may seek damages, including customer restitution and civil money penalties, totaling as much as \$35 million, and changes to certain of our business practices.

8

Higher One Holdings, Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

Approximately 55% of the OneAccounts are held at our bank partner regulated by the FDIC and we may need to provide restitution to those OneAccounts held at that bank partner. As previously disclosed, in the event we do provide restitution to these OneAccounts on the same basis as an order from the Board of Governors, it is reasonably possible that our loss related to this matter will increase accordingly and increase our total exposure by an additional amount of approximately \$35 million, or approximately \$70 million in total. Related to this matter, following a recently conducted compliance examination, the San Francisco Regional Office of the FDIC notified us that it is prepared to recommend to the Director of the Division of Depositor and Consumer Protection that administrative enforcement action be taken against us for alleged violations of the Federal Trade Commission Act principally relating to our marketing and enrollment practices related to the OneAccount. Any such enforcement action could result in orders to pay restitution and civil money penalties. We are in the process of responding to the FDIC's notification and we believe that these allegations are similar and related to the Federal Reserve Board allegations previously disclosed and discussed above.

During the year ended December 31, 2014, we recorded a liability of \$8.75 million related to these matters, which was shown as an allowance for customer restitution on our consolidated statement of operations. While we believe that it is probable that we will have a loss related to these regulatory matters, in view of the inherent difficulty of predicting the outcomes of regulatory matters, we cannot predict the eventual outcomes of these pending matters, the timing of the ultimate resolution of these matters or an exact amount of loss associated with these matters. The liability, which was recorded at June 30, 2014, and continues to be recorded at March 31, 2015, reflects the minimum amount we expect to pay related to these matters, although there is a reasonable possibility that the liability will increase in future periods. The ultimate amount of restitution or civil money penalties is subject to many uncertainties and therefore impossible to predict. As disclosed in "Note 5 – Credit Facility" of our consolidated financial statements, we amended our Credit Facility in February 2015. The amendment allows, among other things, for the payment of up to \$75 million in connection with the resolution of the regulatory matters described above.

In July 2014, we received a civil investigative demand from the Office of the Attorney General of the Commonwealth of Massachusetts pursuant to the Commonwealth's Consumer Protection Act. The Massachusetts Attorney General has informed us that its investigation relates to our debt collection practices. We have provided information requested by the civil investigative demand, which included information and records about us and certain of our business practices, particularly as they relate to Massachusetts residents, institutes of higher education and students. We cannot predict whether we will become subject to any other action by the Massachusetts Attorney General or any other state agencies.

Consumer Class Action

HOI and HOH were defendants in a series of putative class action lawsuits filed in 2012. The Judicial Panel on Multidistrict Litigation transferred all of these cases to the District of Connecticut for coordinated or consolidated pretrial proceedings. The proceedings are referred to as the "In re Higher One OneAccount Marketing and Sales Practices Litigation" or the MDL. Plaintiffs filed a consolidated amended complaint in the MDL that generally alleged, among other things, violations of state consumer protection statutes (predicated, in part, on alleged violations of ED rules and violations of the federal Electronic Funds Transfer Act) and various common law claims. On April 22, 2013, we filed a motion to dismiss the case, which the court denied as moot on March 11, 2014 in light of the parties' settlement, discussed below.

In October 2013, we reached an agreement in principle on the key terms of a settlement that would resolve all of the above class action litigation that was filed against us in 2012. In February 2014, we executed a settlement agreement, the terms of which included a payment of \$15.0 million to a settlement fund, an agreement to pay the cost of notice to

the class, and an agreement to make and/or maintain certain practice changes. We made the payment of \$15.0 million to the settlement fund in February 2014. On December 15, 2014, the Court granted final approval of the settlement. The Court also entered judgment on that day. No appeals of the judgment were filed, and the settlement has now become final. During the year ended December 31, 2013, we recorded an accrual of \$16.3 million to reflect the estimated cost of the resolution, inclusive of additional legal and other administrative costs, based on the agreement in principle. This estimate is consistent with our current cost estimate based on the final, approved settlement agreement.

Securities Class Action

On May 27, 2014, a putative class action captioned Brian Perez v. Higher One Holdings, Inc., No. 3:14-cv-755-AWT, was filed by HOH shareholder Brian Perez in the United States District Court for the District of Connecticut. On December 17, 2014, Mr. Perez was appointed lead plaintiff. On January 20, 2015, Mr. Perez filed an amended complaint. HOH former shareholder Robert Lee was added as a named plaintiff in the amended complaint. HOH and certain employees and board members have been named as defendants. Mr. Perez and Mr. Lee generally allege that HOH and the other named defendants made certain misrepresentations in public filings and other public statements in violation of the federal securities laws and seek an unspecified amount of damages. Mr. Perez and Mr. Lee seek to represent a class of any person who purchased HOH securities between August 7, 2012 and August 6, 2014. All defendants have moved to dismiss the Complaint. HOH intends to vigorously defend itself against these allegations. HOH is currently unable to predict the outcome of this lawsuit and therefore cannot determine the likelihood of loss nor estimate a range of possible loss.

Derivative Actions

On March 6, 2015, HOH shareholder Jason Sabel filed a derivative action in the United States District Court for the District of Connecticut captioned Jason Sabel, derivatively on behalf of Higher One Holdings, Inc. v. Sheinbaum, et al., No. 13:15-cv-00346, against certain of HOH's directors and executive officers and HOH as a nominal defendant. Mr. Sabel is seeking to remedy alleged breaches of certain fiduciary duties by named directors and executive officers that allegedly occurred from approximately February 2014 to the date of the filing. This action relates to the allegations in Perez v. Higher One Holdings, Inc., the securities class action described above. On April 17, 2015, the parties filed a joint motion to stay the action pending the outcome of the motion to dismiss the securities class action. The motion to stay the action is pending. HOH is currently unable to predict the outcome of this lawsuit.

On May 5, 2015, HOH shareholder Bobby Clay filed a derivative action in the United States District Court for the District of Connecticut captioned Bobby Clay, derivatively on behalf of Higher One Holdings, Inc. v. Sheinbaum, et al., No. 3:15-cv-00666, against certain of HOH's directors and executive officers and HOH as a nominal defendant. Mr. Clay is seeking to remedy alleged breaches of certain fiduciary duties by named directors and executive officers that allegedly occurred from approximately March 2014 to the date of the filing. Like the Sabel case described above, this action relates to the allegations in Perez v. Higher One Holdings, Inc., the securities action described above. None of the defendants have been served with the Complaint. HOH is currently unable to predict the outcome of this lawsuit.

Cybersecurity subpoena

The SEC has informed us that it opened an investigation on January 20, 2015 into the adequacy of our disclosures of cybersecurity risks. In connection with this investigation into the adequacy of our disclosures, the SEC issued us a subpoena, on January 22, 2015, seeking documents related to our cybersecurity, including, among other things, documents related to cybersecurity policies, procedures, practices and training materials; risk assessments, audits, tests or reviews; monetary and other resources allocated to cybersecurity; any cybersecurity incidents and any costs or damages associated with cybersecurity incidents; and insurance policies that cover or mitigate our cybersecurity risk. We are complying with the subpoena and are producing responsive documents to the SEC. We are not aware of any issue or event that caused the SEC to open the investigation, but responding to an investigation of this type can be both costly and time-consuming and at this time we are unable to estimate either the likelihood of a favorable or unfavorable outcome of this matter or our potential cost or exposure.

TouchNet

In February 2009 and September 2010, Higher One, Inc. filed two separate complaints against TouchNet Information Systems, Inc., or TouchNet, in the United States District Court for the District of Connecticut alleging patent infringement related to TouchNet's offering for sale and sales of its "eRefund" product in violation of two of our patents. In the complaints, we sought judgments that TouchNet has infringed two of our patents, a judgment that TouchNet pay damages and interest on damages to compensate us for infringement, an award of our costs in connection with these actions and an injunction barring TouchNet from further infringing our patents. TouchNet answered the complaint and asserted a number of defenses and counterclaims, including that it does not infringe our patent, that our patent is invalid or unenforceable and certain allegations of unfair competition and state and federal antitrust violations. In addition, TouchNet's counterclaims sought dismissal of our claims with prejudice, declaratory judgment that TouchNet does not infringe our patent and that our patent is invalid or unenforceable, as well as an award of fees and costs related to the action, and an injunction permanently enjoining us from suing TouchNet regarding infringement of our patent. The parties are currently in the discovery stage of the proceeding. We intend to pursue the matter vigorously. There can be no assurances of our success in these proceedings.

In accordance with applicable accounting guidance, we establish a liability for a matter of the type described above if and when it presents loss contingencies that are both probable and reasonably estimable.

7. Segments

As a result of changes instituted by our chief operating decision maker in 2015, including the type of financial information being reviewed on a regular basis and the way in which resource allocation decisions are made, we now have three reportable segments, Disbursements, Payments and Data Analytics, which are organized according to the type of service that each offers to our target markets – higher education institutions and their students. Each of our reportable segments is also an operating segment and a reporting unit. The Disbursements segment includes our Refund Management® disbursement service, which is offered to higher education institution clients, and the OneAccount, an FDIC-insured online checking account that is offered to students, as well as faculty, staff and alumni. The Payments segment includes our CASHNet® payment processing suite and our Campus Solutions suite, both of which enable higher education institutions to accept online payments, automate certain billing and processing functions and offer tuition payment plans. The Data Analytics segment offers our Campus Labs analytics solutions suite for assessment in higher education, which combine data collection, reporting, organization and campus-wide integration.

We allocate all revenue and all operating expenses to these three reportable segments. Shared costs, such as legal, finance, human resources and other corporate services are allocated in their entirety to the segments. The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies. Segment assets are not reviewed by the chief operating decision maker and therefore are not allocated to the reportable segments. Segment income from operations excludes interest, taxes, and other income, which are not allocated to any particular business segment.

A summary of our segments for the three months ended March 31, 2015 and 2014 is as follows (in thousands):

	Three Months Ended March 31,	
	2015	2014
Revenue		
Disbursements	\$39,211	\$43,145
Payments	22,297	20,062
Data Analytics	4,010	3,349
Total revenues	\$65,518	\$66,556
Depreciation and amortization		
Disbursements	\$2,134	\$1,637
Payments	2,280	2,239
Data Analytics	756	579
Total depreciation and amortization	\$5,170	\$4,455
Income from operations		
Disbursements	\$8,905	\$14,631
Payments	3,247	1,550
Data Analytics	659	404
Total income from operations	12,811	16,585
Interest income	20	19
Interest expense	(1,380)	(823)
Other income	77	78

Net income before income taxes \$11,528 \$15,859

8. Subsequent Event

In April 2015, we entered into an agreement with a third-party service provider to operate our customer care center, in order to provide live-agent, chat and interactive voice response services for the disbursements line of business, including the OneAccount product. In connection with this agreement, we plan to reduce our employee workforce across our customer care department. We expect to begin the transition to the third-party service provider in July 2015 and to substantially complete the employee reduction by November 2015. However, the timing of this transition and of certain employee reductions may vary. We estimate we will recognize costs of approximately \$1.0 million during fiscal year 2015, consisting primarily of one-time termination benefits and other charges related to this plan. Such costs are expected to be substantially accrued and paid through the end of the first quarter of 2016.

11

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with our audited consolidated financial statements and related notes as included in our annual report on Form 10-K for the year ended December 31, 2014 and information contained elsewhere in such annual report on Form 10-K and in this quarterly report on Form 10-Q. The discussion contains forward-looking statements (as defined in the Private Securities Litigation Reform Act of 1995) involving risks, uncertainties and assumptions that could cause our results to differ materially from expectations. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "believes," "anticipates," "plans," "expects," "should" and similar expressions are intended to identify forward-looking statements. Factors that might cause these differences include those described under "Risk Factors" and elsewhere in the annual report on Form 10-K and in this quarterly report on Form 10-Q. The forward-looking statements included in this quarterly report on Form 10-Q are made only as of the date of this report. We do not undertake any obligation to update or supplement any forward-looking statements to reflect subsequent events or circumstances, except as required by law. We cannot assure you that projected results will be achieved or that anticipated events will occur.

Overview General

Based on market share and the number of campuses using our products and services, we believe we are a leading provider of technology-based refund disbursement, payment processing and data analytics services to higher education institutions and their students. We believe that none of our competitors match our ability to provide solutions for higher education institutions' financial services needs, including compliance monitoring. Consequently, we provide the most comprehensive suite of disbursement and payment solutions specifically designed for higher education institutions and their students. We also provide campus communities with convenient, cost-competitive and student-oriented banking services, which include extensive user-friendly features.

Our products and services for our higher education institution clients include our Disbursement solutions suite which includes our Refund Management® disbursement service, our CASHNet® payment processing suite and our Campus Labs® analytics solutions suite. Through our bank partners, we offer the OneAccount, which includes an FDIC-insured checking account, a debit MasterCard® ATM card and other retail banking services, to the students of our higher education institution clients that use our Refund Management disbursement service.

As of March 31, 2015, more than 800 campuses serving approximately 5.1 million students purchased our Refund Management disbursement service. In total, there are more than 1,900 campuses servicing approximately 13 million students contracted to use at least one of our services. As of March 31, 2015, we also serviced approximately 2.2 million OneAccounts.

Our revenue fluctuates as a result of seasonal factors related to the academic year. A large portion of our revenue is either directly or indirectly dependent on academic financial aid received by students and in turn the number of students enrolled at our higher education institution clients. Higher education institutions typically disburse financial aid refunds to students at the start of each academic term. Distribution of financial aid disbursements through our Refund Management disbursement service (1) indirectly generates revenue through deposits of financial aid into OneAccounts, which generates account revenue, and (2) directly generates revenue through our higher education institution clients' use of the Refund Management disbursement service, which generates higher education institution revenue.

While revenue fluctuates over the course of our fiscal year, many of our expenses remain relatively constant, resulting in disparities in our net income and adjusted net income from quarter to quarter. Typically, the second quarter accounts for the smallest proportion of our revenues. This is primarily because the majority of financial aid is

disbursed outside of this time period and higher education institutions tend to enroll more new students during the first and third fiscal quarters. We expect this trend to continue going forward.

Department of Education

In early 2014, the Department of Education, or ED, formed a negotiated rulemaking committee. Our Chief Operating Officer was selected by ED to serve on the committee as a primary negotiator. The committee convened in February, March, April and May of 2014 to discuss and work toward revising existing regulations to potentially address, among other things, consumer safeguards regarding debit and prepaid cards associated with Title IV Cash Management (including fees associated with such debit and prepaid cards), marketing of financial products (including sending unsolicited cards to students and co-branding of the card and materials) by institutions and their preferred banks or contractors, ATM access and availability, revenue sharing arrangements, and the potential for a government-sponsored debit or prepaid card solution. The negotiated rulemaking committee concluded its efforts in May 2014 and a consensus was not reached on any proposed regulations. Since that time, there have been no proposed regulations related to Title IV Cash Management published in the Federal Register. Should ED issue a Notice of Proposed Rulemaking on Title IV Cash Management regulations, complete the public comment process and publish a final rule in the Federal Register by November 1, 2015, we believe new Title IV Cash Management regulations would likely not go into effect until July 1, 2016. Several of the views expressed at the sessions were unfavorable to certain of our current business practices.

12

Regulatory Matters

The Federal Reserve Bank of Chicago notified us and a former bank partner of potential violations of the Federal Trade Commission Act relating to marketing and disclosure practices related to the OneAccount during the period it was offered by such former bank partner. On May 9, 2014, the Federal Reserve Banks of Chicago (the responsible Reserve Bank for a former bank partner) and Philadelphia (the responsible Reserve Bank for a current bank partner) notified us that the Staff of the Board of Governors of the Federal Reserve System intended to recommend that the Board of Governors of the Federal Reserve System, or the Board of Governors, seek an administrative order against us with respect to asserted violations of the Federal Trade Commission Act. The cited violations relate to our activities with both a former and current bank partner and our marketing and disclosure practices related to the process by which students may select the OneAccount option for financial aid refund. We are in discussions with the Staff of the Board of Governors and the Reserve Banks on this matter. The Staff of the Board of Governors has asserted that any administrative order may seek damages, including customer restitution and civil money penalties, totaling as much as \$35 million, and changes to certain of our business practices.

Approximately 55% of the OneAccounts are held at our bank partner regulated by the FDIC and we may need to provide restitution to those OneAccounts held at that bank partner. As previously disclosed, in the event we do provide restitution to these OneAccounts on the same basis as an order from the Board of Governors, it is reasonably possible that our loss related to this matter will increase accordingly and increase our total exposure by an additional amount of approximately \$35 million, or approximately \$70 million in total. Related to this matter, following a recently conducted compliance examination, the San Francisco Regional Office of the FDIC notified us that it is prepared to recommend to the Director of the Division of Depositor and Consumer Protection that administrative enforcement action be taken against us for alleged violations of the Federal Trade Commission Act principally relating to our marketing and enrollment practices related to the OneAccount. Any such enforcement action could result in orders to pay restitution and civil money penalties. We are in the process of responding to the FDIC's notification and we believe that these allegations are similar and related to the Federal Reserve Board allegations previously disclosed and discussed above.

During the year ended December 31, 2014, we recorded a liability of \$8.75 million related to these matters, which was shown as an allowance for customer restitution on our consolidated statement of operations. While we believe that it is probable that we will have a loss related to these regulatory matters, in view of the inherent difficulty of predicting the outcomes of regulatory matters, we cannot predict the eventual outcome of these pending matters, the timing of the ultimate resolution of these matters or an exact amount of loss associated with these matters. The liability, which was recorded at June 30, 2014, and continues to be recorded at March 31, 2015, reflects the minimum amount we expect to pay related to these matters, although there is a reasonable possibility that the liability will increase in future periods. The ultimate amount of restitution or civil money penalties is subject to many uncertainties and therefore impossible to predict. As disclosed in "Note 5 – Credit Facility" of our consolidated financial statements, we amended our Credit Facility in February 2015. The amendment allows, among other things, for the payment of up to \$75 million in connection with the resolution of the regulatory matters described above.

We believe that our cash flows from operations, together with our existing liquidity sources, will be sufficient to fund our operations and anticipated capital expenditures over the next twelve months. However, we may be required to pay material customer restitution and civil money penalties related to certain regulatory proceedings as described above. While the ultimate amounts of customer restitution or civil money penalties are subject to many uncertainties and therefore are impossible to predict, we believe that our cash flows from operations and liquidity sources available through our Credit Facility, as amended, will allow us to pay such customer restitution and civil money penalties.

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

Results of Operations for the Three Months Ended March 31, 2015 and 2014

The following tables summarize key components of our results of operations for the periods indicated, both in dollars and as a percentage of total revenue:

	Three Months Ended March 31, (unaudited)				2015 % of Revenue	2014 % of Revenue
	2015	2014	\$	%		
	(in thousands)		Change	Change		
Revenue:						
Account revenue	\$37,528	\$41,662	\$(4,134)	(9.9 %)	57.3 %	62.6 %
Payment transaction revenue	17,324	14,620	2,704	18.5 %	26.4 %	22.0 %
Higher education institution revenue	10,426	9,979	447	4.5 %	15.9 %	15.0 %
Other revenue	240	295	(55)	(18.6 %)	0.4 %	0.4 %

Income tax expense	4,668	6,149	(1,481)	(24.1 %)	7.1 %	9.2 %
Net income	\$6,860	\$9,710	\$(2,850)	(29.4 %)	10.5 %	14.6 %

The following table summarizes our revenue by our different lines of business:

	Three Months Ended March 31, (unaudited)				% of Revenue	% of Revenue
	2015	2014	\$	%		
	(in thousands)		Change	Change		
Disbursements	\$39,211	\$43,145	\$(3,934)	(9.1 %)	59.9 %	64.9 %
Payments	22,297	20,062	2,235	11.1 %	34.0 %	30.1 %
Data Analytics	4,010	3,349	661	19.7 %	6.1 %	5.0 %
Revenue	65,518	66,556	(1,038)	(1.6 %)	100.0 %	100.0 %

Three Months Ended March 31, 2015 Compared to the Three Months Ended March 31, 2014

Revenue

Disbursements Revenue

The decrease in disbursements revenue during the three months ended March 31, 2015, was primarily due to a decrease in account revenue, as a result of fewer dollars spent by OneAccounts, which had the effect of reducing both interchange revenue and service fee revenue when compared to the same period in the prior year. There was an approximate 10% decrease in the total dollars deposited into OneAccounts compared to the same period in the prior year, which led to a similar decrease in amounts spent from OneAccounts. The amounts deposited and spent from OneAccounts typically move by similar amounts though may vary by several percentage points from one reporting period to the next depending on specific deposit and spending behavior. The decrease in dollars deposited into OneAccounts was the result of fewer financial aid refunds being deposited to OneAccounts, partially offset by an increase in the amount of non-financial aid deposits made into OneAccounts. In addition, while there was an increase in financial aid disbursements for institutions that became clients after March 31, 2014, the increase associated with these new institutions was offset by decreases in financial aid distributed both for those institutions that were clients last year and this year and also those institutions that are no longer using our refund management service. We experienced an approximate 7% increase in amounts deposited to OneAccounts from non-financial aid refund sources. Deposits from non-financial aid refund sources constituted approximately 15% of all deposits made to OneAccounts during the three months ended March 31, 2015, an increase from 12% during the comparable prior year period.

The higher education institution revenue earned from our Refund Management services was \$1.6 million during each of the three months ended March 31, 2015 and 2014.

Payments Revenue

The increase in payments revenue was due to higher payment transaction revenue, primarily due to an increase in the dollar volume of transactions processed through the SmartPay payment module during the three months ended March 31, 2015. The increase in payment transaction volume was primarily due to increases in volume at higher education institution clients that were processing payments during each of the three months ended March 31, 2015. Payment transaction revenue also increased as certain Campus Solutions contracts were not assigned to us until the second quarter of 2014, and therefore revenue was not recorded on these contracts during the prior year period.

Higher education institution revenue in the payments line of business was \$4.9 million during the three months ended March 31, 2015, a decrease of approximately \$0.2 million from the same period in the prior year. The decrease is the result of our decision to no longer provide disbursement services to those clients of the Campus Solutions business which did not sign contracts to use Higher One's Refund Management disbursement services. We ceased providing disbursement services to those clients on the Campus Solutions refund disbursement platform in the fourth quarter of 2014 and therefore earned no revenue related to these services during the three months ended March 31, 2015, compared to approximately \$0.3 million during the three months ended March 31, 2014.

Data Analytics Revenue

The increase in data analytics revenue was due primarily to sales of Campus Labs modules to new higher education institution clients over the past twelve months.

Cost of Revenue

During the three months ended March 31, 2015, our gross margin percentage decreased to 57.0%, largely as a result of a decrease in margin associated with the OneAccount and Refund Management services.

While revenue associated with our disbursements line of business decreased as described above, our cost of revenue to support that line of business increased to \$16.7 million during the three months ended March 31, 2015, from \$16.5 million in the comparable prior year period. The increase in our cost of revenue is primarily due to higher customer service related costs.

Our cost of revenue to support the payments line of business, including the CASHNet suite of payment products and Campus Solutions products increased to approximately \$11.0 million during the three months ended March 31, 2015, from \$10.6 million in the comparable prior year period. The increase in costs was primarily related to the growth of SmartPay transaction volume described above in "Revenue – Payments Revenue." This increase was partially offset by a net decrease in costs associated with the Campus Solutions contracts that were assigned to us and with the Campus Solutions refund disbursement platform of approximately \$0.4 million compared to the three months ended March 31, 2014.

Our cost of revenue to support the data analytics line of business was \$0.4 million in each of the three months ended March 31, 2015 and 2014. The majority of the data analytics costs are due to acquisition-related amortization of intangible assets.

General and Administrative Expense

The increase in general and administrative expenses was primarily attributable to the following two factors: (i) our total personnel costs increased by approximately \$1.8 million, including a \$0.6 million increase in stock-based compensation expenses, and (ii) increases in depreciation and amortization totaling approximately \$0.9 million, including amortization related to internal use software.

Product Development Expense

The decrease in product development expense was primarily due to a decrease in transition-related product development expenses associated with the Campus Solutions acquisition which we incurred in the prior year period, but not in the current year period.

Sales and Marketing Expense

The decrease in sales and marketing expense was due to decreases in both personnel related costs as well as external advertising and marketing costs.

Interest Expense

Our interest expense increased compared to the prior period due primarily to additional amortization of deferred financing costs. As a result of the February 2015 amendment to our credit facility, including the reduction in the amount available to be drawn under the facility, we expensed approximately \$0.4 million of deferred financing costs. In addition, amortization of deferred financing costs increased \$0.2 million as a result of fees paid in connection with the February 2015 amendment. The average interest rate during the three months ended March 31, 2015 was 3.1%, an increase from 2.4% for the three months ended March 31, 2014. The average amount outstanding on our Credit Facility was \$75.3 million during the three months ended March 31, 2015, compared to an average of \$95.6 million during the three months ended March 31, 2014.

Income Tax Expense

The change in income tax expense was primarily due to the decrease in net income before taxes. The effective tax rates for the three months ended March 31, 2015 and 2014 were 40.5% and 38.8%, respectively. The increase in the effective tax rate is the result of non-deductible expenses increasing relative to net income before taxes. Our

non-deductible expenses for 2015 are expected to approximately equal our non-deductible expenses for the prior year, but as a result of a decrease in net income before taxes compared to 2014, these non-deductible expenses have a greater impact on our tax rate for the year. Our effective tax rate is expected to be between 39% and 41% for the 2015 fiscal year.

16

Liquidity and Capital Resources

Sources of Liquidity

Our primary sources of liquidity are cash flows from operations and borrowings under our Credit Facility, as defined below. As of March 31, 2015, we had \$15.0 million in cash and cash equivalents, \$0.3 million in available-for-sale investments and approximately \$81.0 million in borrowing capacity available under our Credit Facility, \$35.0 million of which is restricted as described below. Our primary liquidity requirements are for working capital, capital expenditures, product development expenses and general corporate needs. As of March 31, 2015, we had working capital deficit of \$12.8 million.

Senior Secured Revolving Credit Facility

In October 2012, we entered into a five-year senior secured revolving credit facility in an amount of \$200.0 million, or the Credit Facility. As of March 31, 2015, we had \$59.0 million in borrowings outstanding, at a weighted average interest rate of 2.4%, under the Credit Facility. The Credit Facility permits the issuance of letters of credit of up to \$20.0 million and swing line loans of up to \$10.0 million to fund working capital needs. Loans drawn under the Credit Facility are payable in a single maturity on October 16, 2017. We amended the Credit Facility in February 2015, which modified certain of the financial covenants and other terms of the agreement as described in “Note 5 – Credit Facility” of our notes to consolidated financial statements. In connection with the February 2015 Amendment, we paid down the outstanding balance of the Credit Facility by \$35 million, expensed approximately \$0.4 million of previously deferred financing costs and incurred new financing costs of approximately \$4.5 million in February 2015, which are included in deferred costs as of March 31, 2015 in the accompanying condensed consolidated balance sheet

Each of HOH, HOMI, Real Estate Inc. and Real Estate LLC, or together with HOI, the Loan Obligors, is a guarantor of HOI’s obligations under the Credit Facility. Loans drawn under the Credit Facility are secured by a perfected first priority security interest in all of the capital stock of HOI and its domestic subsidiaries, and substantially all of each Loan Obligor’s tangible and intangible assets, including intellectual property. We pay a commitment fee of 0.5% on the daily average undrawn portion of revolving commitments under the Credit Facility, which accrues and is payable quarterly in arrears.

The Credit Facility contains certain affirmative covenants including covenants to furnish the lenders with financial statements and other financial information and to provide the lenders notice of material events and information regarding collateral. The Credit Facility also contains certain negative covenants that, among other things, restrict our ability, subject to certain exceptions, to incur additional indebtedness, grant liens on our assets, undergo fundamental changes, make investments, sell assets, make restricted payments, change the nature of our business and engage in transactions with our affiliates. In addition, the Credit Facility contains certain financial covenants in addition to the covenants described above, including a requirement to maintain a fixed charge coverage ratio of at least 1.25 to 1.00. We were in compliance with each of the applicable affirmative, negative and financial covenants of the Credit Facility as of March 31, 2015. As of March 31, 2015, our trailing twelve month consolidated EBITDA was \$57.1 million. Our leverage ratio was 1.03 to 1.00 as of March 31, 2015.

Cash Flows

The following table presents information regarding our cash flows and cash and cash equivalents for the three months ended March 31, 2015 and 2014:

	Three Months Ended March 31,		
	2015	2014	\$ Change
	(unaudited)		
	(in thousands)		
Net cash provided by (used in):			
Operating activities	\$16,169	\$(1,410)	\$17,579
Investing activities	(1,983)	1,071	(3,054)
Financing activities	(39,226)	5,022	(44,248)
Change in cash and cash equivalents	(25,040)	4,683	(29,723)
Cash and cash equivalents, end of period	\$14,982	\$10,951	\$4,031

The increase in net cash provided by operating activities was primarily the result of changes in working capital balances during the three months ended March 31, 2015, compared to the prior year. The consumer class action litigation settlement of \$15.0 million was paid in cash during the three months ended March 31, 2014. This payment is a significant component of the overall change in working capital balances and increase in cash provided by operating activities compared to the prior year. Also, our income receivable balance has decreased from the prior year due to an acceleration in the settlement of the revenue proceeds associated with the Campus Solutions business compared to the prior year.

The change in cash provided by (used in) investing activities primarily relates to the receipt of \$3.5 million associated with state historic tax credits generated by the construction of our headquarters during the three months ended March 31, 2015. In addition, our purchases of fixed assets decreased by \$0.5 million during the three months ended March 31, 2015 compared to the prior year period.

The change in cash provided by (used in) financing activities primarily relates to the cash used in connection with the February 2015 amendment to our credit facility described above which totaled \$39.5 million. In the prior year, we had net borrowings of \$5.0 million on our Credit Facility.

We believe that our cash flows from operations, together with our existing liquidity sources, will be sufficient to fund our operations and anticipated capital expenditures over the next twelve months. As described in "Management's Discussion and Analysis of Financial Condition and Results of Operations – Overview" we may be required to pay material customer restitution and civil money penalties related to certain regulatory proceedings. Please refer to the "Regulatory Matters" section within "Management's Discussion and Analysis of Financial Condition and Results of Operations – Overview" for the impact that such regulatory matters may have on our liquidity.

Supplemental Financial and Operating Information

	Three Months Ended March 31, 2015 2014 (unaudited) (in thousands)	
Adjusted EBITDA	\$20,256	\$22,676
Adjusted net income	\$9,850	\$12,220
Number of students enrolled at Refund Management client higher education institutions at end of period	5,096	5,083
Number of OneAccounts at end of period	2,179	2,292

We define adjusted EBITDA as net income before interest, income taxes and depreciation and amortization, or EBITDA, further adjusted to remove the effects of stock-based compensation expense. Neither EBITDA nor adjusted EBITDA should be considered an alternative to net income, operating income or any other measure of financial performance calculated and presented in accordance with GAAP. Our EBITDA and adjusted EBITDA may not be comparable to similarly titled measures of other organizations because other organizations may not calculate EBITDA and adjusted EBITDA in the same manner as we do. In addition, adjusted EBITDA may not be identical to the corresponding measure used in our various agreements, in particular our Credit Facility.

The following table presents a reconciliation of net income, the most comparable GAAP measure, to EBITDA and adjusted EBITDA for each of the periods indicated:

	Three Months Ended March 31, 2015 2014 (unaudited) (in thousands)	
Net income	\$6,860	\$9,710
Interest income	(20)	(19)
Interest expense	1,380	823
Income tax expense	4,668	6,149
Depreciation and amortization	5,170	4,455
EBITDA	18,058	21,118
Stock-based compensation expense	2,198	1,558
Adjusted EBITDA	\$20,256	\$22,676

The following table presents adjusted EBITDA for each of our three lines of business for each of the periods indicated:

	Three Months Ended March 31, 2015 2014 (unaudited)	
--	---	--

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

(in thousands)

Disbursements	\$12,376	\$17,280
Payments	6,199	4,318
Data Analytics	1,681	1,078
Total Adjusted EBITDA	\$20,256	\$22,676

19

We define adjusted net income as net income, adjusted to eliminate (a) stock-based compensation expense related to incentive stock option grants and (b) after giving effect to tax adjustments, (1) stock-based compensation expense related to non-qualified stock option and restricted stock grants, and (2) amortization expenses related to acquired intangible assets and financing costs. Adjusted net income should not be considered as an alternative to net income, operating income or any other measure of financial performance calculated and presented in accordance with GAAP. Our adjusted net income may not be comparable to similarly titled measures of other organizations because other organizations may not calculate adjusted net income in the same manner as we do.

The following table presents a reconciliation of net income, the most comparable GAAP measure, to adjusted net income for each of the periods indicated:

	Three Months Ended March 31, 2015 2014 (unaudited) (in thousands)	
Net income	\$6,860	\$9,710
Stock-based compensation expense - incentive stock option grants	296	425
Stock-based compensation expense - non-qualified stock option and restricted stock grants	1,902	1,133
Amortization of acquired intangible assets	1,820	2,135
Amortization of deferred finance costs	659	123
Total pre-tax adjustments	4,677	3,816
Tax rate	38.5 %	38.5 %
Less: tax adjustment (a)	1,687	1,306
Adjusted net income	\$9,850	\$12,220

(a) We have tax effected, utilizing an estimated statutory rate, all of the pre-tax adjustments, except for stock-based compensation expense for incentive stock options which are generally not tax deductible.

Contractual Obligations

Except for the decrease in the amount owed under our Credit Facility, there have been no material changes to our contractual commitments from those disclosed in our annual report on Form 10-K for the year ended December 31, 2014.

Off-Balance Sheet Arrangements

We are not a party to any material off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Policies

The significant accounting policies and basis of preparation of our consolidated financial statements are described in “Note 2 – Significant Accounting Policies” of our notes to consolidated financial statements included in each of our Annual Report on Form 10-K for the year ended December 31, 2014 and in this Quarterly Report on Form 10-Q. Under accounting principles generally accepted in the United States, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and disclosure of contingent assets and liabilities in our financial statements. Actual results could differ materially from those estimates.

We believe the judgments, estimates and assumptions associated with the following critical accounting policies have the greatest potential impact on our consolidated financial statements:

- Provision for operational losses - Stock-based compensation
- Goodwill and intangible assets - Income taxes
- Business combinations - Revenue
- Loss contingencies

For a complete discussion of these critical accounting policies, refer to “Critical Accounting Policies” within “Item 7 - Management’s Discussion and Analysis of Financial Condition and Results of Operations” included within our annual report on Form 10-K for the year ended December 31, 2014. As of March 31, 2015, there have been no material changes to any of the Critical Accounting Policies described above, except for changes to our accounting policy for goodwill and intangible assets summarized below.

Goodwill and Intangible Assets

As of December 31, 2014, we had one operating segment and reporting unit for purposes of our goodwill testing as a result of the integrated way that the entire business was managed at that point in time. We performed the annual impairment test as of October 31, 2014 and determined that the fair value of our reporting unit at the time exceeded its carrying value by more than 30%. As we only had one operating segment and one reporting unit at that time, we primarily relied on the indicated fair value of the enterprise from the trading price of our common stock. As a result of changes in our operating segments and reporting units in 2015, we now have three operating segments, which are also reporting units. As a result of the change in our operating segments, we have compared the fair value of our reporting units to the carrying value of our reporting units and determined that there was no impairment of goodwill. However, the excess of fair value compared to carrying value does vary by reporting unit and the goodwill related to our Disbursements reporting unit could be susceptible to impairment in the future, particularly depending on the conclusion of those matters described above in Management’s Discussion and Analysis of Financial Condition and Results of Operations “Overview – Department of Education” and “Overview – Regulatory Matters.” Adverse conclusion on either or both of those matters could reduce the fair value of our reporting unit below the carrying value of the reporting unit.

We assess the impairment of identifiable intangible assets and goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider important which could trigger an impairment review include the following:

- significant underperformance relative to historical or projected future operating results;
- significant changes in the manner of our use of the acquired assets or the strategy for our overall business; and
- significant negative industry or economic trends.

When we determine that the carrying value of intangible assets may not be recoverable based upon the existence of one or more of the above indicators of potential impairment, we assess whether an impairment has occurred based on whether net book value of the assets exceeds related projected undiscounted cash flows from these assets. We consider

a number of factors, including past operating results, budgets, economic projections, market trends and product development cycles in estimating future cash flows. Differing estimates and assumptions as to any of the factors described above could result in an impairment charge which would have a material and adverse effect on our results of operations.

21

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our principal market risk relates to interest rate sensitivity, which is the risk that future changes in interest rates will reduce our net income or net assets. Our Credit Facility accrues interest at a rate equal to a base rate plus a margin of 3% or London Interbank Offered Rate plus a margin of 4%. Based upon a sensitivity analysis at April 1, 2015, assuming average outstanding borrowings during the three months ended March 31, 2015 of \$75.3 million, a hypothetical 50 basis point increase in interest rates would result in an increase in interest expense of approximately \$0.4 million for an annual period.

Item 4. Controls and Procedures

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act) as of March 31, 2015. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of March 31, 2015, our disclosure controls and procedures were effective to provide reasonable assurance that information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure, and ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There has been no change in our internal controls over financial reporting during the three months ended March 31, 2015 identified in connection with the evaluation required by Rules 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonable likely to materially affect, our internal controls over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The following information supplements and amends our discussion set forth under Part I, Item 3. “Legal Proceedings” in our Annual Report on Form 10-K for the year ended December 31, 2014.

As described in “Note 5 – Credit Facility” and “Note 6 – Commitments and Contingencies” to our condensed consolidated financial statements and the “Regulatory Matters” section within “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Overview”, the Federal Reserve Banks of Chicago and Philadelphia and the San Francisco Regional Office of the FDIC have each notified us of potential violations of the Federal Trade Commission Act relating to marketing and disclosure practices related to the OneAccount during the period it was offered by certain of our current or former bank partners. Please refer to the aforementioned sections for relevant information concerning this matter.

In addition, see “Note 6 – Commitments and Contingencies” to our condensed consolidated financial statements for other developments related to our legal proceedings.

Item 1A. Risk Factors

There have been no material changes to our risk factors from those disclosed in our annual report on Form 10-K for the year ended December 31, 2014, other than the following:

Reviews, examinations and enforcement actions by regulatory authorities under banking and consumer protection laws and regulations, and possible changes to those laws and regulations by legislative or regulatory action, may result in changes to our business practices or may expose us to the risk of fines, restitution and litigation.

Our operations and the operations of our Bank Partners are subject to the jurisdiction and examination of federal, state and local regulatory authorities, including the FDIC, which is WEX Bank's primary federal regulator, the OCC, which is Axiom's primary federal regulator, and the Federal Reserve Bank, which is Customers Bank and Cole Taylor's primary federal regulator. Our business practices, including the terms of our products, are reviewed and approved by our Bank Partners and subject to both periodic and special reviews by such regulatory authorities, which can range from investigations into specific consumer complaints or concerns to broader inquiries into our practices generally. We and our Bank Partners are subject to ongoing and routine examination by the FDIC, OCC and Federal Reserve Bank. If, as part of any ongoing or future examination or review, the regulatory authorities conclude that we are not complying with applicable laws or regulations, they could request or impose a wide range of remedies, including, but not limited to, requiring changes to the terms of our products (such as decreases in fees or changes to the manner in which OneAccounts are marketed to students), the imposition of fines or penalties or the institution of enforcement proceedings or other similar actions against us alleging that our current or past practices constitute unfair or deceptive acts or practices. As part of an enforcement action, the regulators can seek restitution for affected customers and impose civil money penalties. In addition, negative publicity relating to any specific inquiry or investigation or any related fine could adversely affect our stock price, our relationships with various industry participants, including our Bank Partners, or our ability to attract new clients and retain existing clients, which could have a material adverse effect on our business, financial condition and results of operations.

In February 2011, the New York Regional Office of the FDIC notified us that it was prepared to recommend to the Director of FDIC Supervision that an enforcement action be taken against us for alleged violations of certain applicable laws and regulations principally relating to our compliance management system and policies and practices for past overdraft charging on persistently delinquent accounts, collections and transaction error resolution. We responded to the FDIC's notification and voluntarily initiated a plan in December 2011, which provided credits to certain current and former customers that were previously assessed certain insufficient fund fees. As a result of this plan, we recorded a reduction in our revenue of approximately \$4.7 million in 2011. On August 8, 2012, we received a Consent Order, Order for Restitution, and Order to Pay Civil Money Penalty, or the Consent Order, dated August 7, 2012, issued by the FDIC to settle such alleged violations. Pursuant to the terms of the Consent Order, we neither admitted nor denied any charges when agreeing to the terms of the Consent Order. Under the terms of the Consent Order, we were required to, among other things, review and revise our compliance management system and, to date, we have substantially revised our compliance management system. Additionally, the Consent Order provided for restrictions on the charging of certain fees. The Consent Order further provided that we shall make restitution to less than 2% of our customers since 2008 for fees previously assessed, which restitution has been completed through the voluntary customer credit plan described above, and we paid a civil money penalty of \$0.1 million. We remain subject to the jurisdiction and examination of the FDIC and further action could be taken to the extent we do not comply with the terms of the Consent Order or if the FDIC were to identify additional violations of certain applicable laws and regulations.

Consistent with the FDIC's continuing supervision over us, following a recently conducted compliance examination, the San Francisco Regional Office of the FDIC notified us that it is prepared to recommend to the Director of the Division of Depositor and Consumer Protection that administrative enforcement action be taken against us for alleged violations of the Federal Trade Commission Act principally relating to our marketing and enrollment practices related

to the OneAccount. Any such enforcement action could result in orders to pay restitution and civil money penalties. We are in the process of responding to the FDIC's notification and we believe that these allegations are similar and related to the Federal Reserve Board allegations previously disclosed and discussed below.

The Federal Reserve Bank of Chicago notified us and a former bank partner of potential violations of the Federal Trade Commission Act relating to marketing and disclosure practices related to the OneAccount during the period it was offered by such former bank partner. On May 9, 2014, the Federal Reserve Banks of Chicago (the responsible Reserve Bank for a former bank partner) and Philadelphia (the responsible Reserve Bank for a current bank partner) notified us that the staff of the Board of Governors of the Federal Reserve System intended to recommend that the Board of Governors of the Federal Reserve System, or the Board of Governors, seek an administrative order against us with respect to asserted violations of the Federal Trade Commission Act. The cited violations relate to our activities with both a former and current bank partner and our marketing and disclosure practices related to the process by which students may select the OneAccount option for financial aid refund. We are in discussions with the Staff of the Board of Governors and the Reserve Banks on this matter. The Staff of the Board of Governors has asserted that any administrative order may seek damages, including customer restitution and civil money penalties, totaling as much as \$35 million, and changes to certain of our business practices.

23

Approximately 55% of the OneAccounts are held at our bank partner regulated by the FDIC and we will need to consider voluntarily providing restitution to those OneAccounts held at that bank partner. In the event we do provide restitution to these OneAccounts on the same basis as an order from the Board of Governors or if the FDIC were to elect to seek a similar administrative action against us as has been proposed by the staff of the Board of Governors, it is reasonably possible that our loss related to this matter will increase accordingly and increase our total exposure by an additional restitution amount of approximately \$35 million, or approximately \$70 million in total.

During the year ended December 31, 2014, we recorded a liability of \$8.75 million related to these matters, which was shown as a reduction of revenue on our consolidated statement of operations. While we believe that it is probable that we will have a loss related to these regulatory matters, in view of the inherent difficulty of predicting the outcomes of regulatory matters, we cannot predict the eventual outcome of these pending matters, the timing of the ultimate resolution of these matters or an exact amount of loss associated with these matters. The liability reflects the minimum amount we expect to pay related to these matters, although there is a reasonable possibility that the liability will increase in future periods. The ultimate amount of restitution or civil money penalties is subject to many uncertainties and therefore impossible to predict. As disclosed in “Note 5 – Credit Facility” of our consolidated financial statements, we amended our Credit Facility in February 2015. The amendment allows, among other things, for the payment of up to \$75 million in connection with the resolution of the regulatory matters described above.

Any enforcement action arising out of these matters could include demands for civil money penalties, changes to certain of our business practices, and customer restitution. An action instituted against us that results in significant changes to our practices, the imposition on us of fines or penalties, or an obligation for us to pay restitution or civil money penalties could have a material adverse effect on our business, financial condition and results of operations.

Please also refer to the “Regulatory Matters” section within, “Management's Discussion and Analysis of Financial Condition and Results of Operations – Overview” of this quarterly report on Form 10-Q for information related to the notifications that we received from the Staff of the Board of Governors of the Federal Reserve System and the San Francisco Regional Office of the FDIC, each of which asserted violations of the Federal Trade Commission Act.

In a separate regulatory matter, we are currently considering the merits of voluntarily refunding certain fees previously assessed to accountholders as a result of a separate compliance examination which was completed in 2013.

Additionally, since 2012, we have received and responded to inquiries and information requests from certain federal legislators and regulatory agencies. These requests sought information related to our financial aid refund processing and the related services which we provide to students. Certain federal legislators have also sent communications regarding similar matters to various federal agencies, including ED and the CFPB. These inquiries or others could lead to further action by these or other governmental actors or agencies, including the introduction of legislation or new regulations, which could have a material adverse effect on our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.
