(Unaudited)

1. Organization and Basis of Presentation and Consolidation

Wheeler Real Estate Investment Trust, Inc. (the “Trust” or “REIT”) is a Maryland corporation formed on June 23, 2011. The Trust serves as the general partner of Wheeler Real Estate Investment Trust, L.P. (the “Operating Partnership”) which was formed as a Virginia limited partnership on April 5, 2012. As of September 30, 2014, the Trust, through the Operating Partnership, owned and operated twenty-nine centers and three undeveloped properties in Virginia, North Carolina, South Carolina, Georgia, Florida, Oklahoma, Tennessee, Kentucky and New Jersey. Accordingly, the use of the word “Company” refers to the Trust and its consolidated subsidiaries, except where the context otherwise requires.

The condensed consolidated financial statements included in this Quarterly Report on Form 10-Q (the “Form 10-Q”) are unaudited. However, amounts presented in the condensed consolidated balance sheet as of December 31, 2013 are derived from the Company’s audited consolidated and combined financial statements as of that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (“GAAP”) for complete financial statements. The Company prepared the accompanying condensed consolidated financial statements in accordance with GAAP for interim financial statements. All material balances and transactions between the consolidated entities of the Company have been eliminated. You should read these condensed consolidated financial statements in conjunction with our 2013 Annual Report filed on Form 10-K for the year ended December 31, 2013 (the “2013 Form 10-K”).

2. Summary of Significant Accounting Policies

Rents and Other Tenant Receivables, net

Tenant receivables include base rents, tenant reimbursements and receivables attributable to recording rents on a straight-line basis. The Company determines an allowance for the uncollectible portion of accrued rents and accounts receivable based upon customer credit-worthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels, and current economic trends. The Company considers a receivable past due once it becomes delinquent per the terms of the lease. The Company’s standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease. As of September 30, 2014 and December 31, 2013, the Company’s allowance for uncollectible accounts totaled \$200,820 and \$182,078, respectively. During the three and nine months ended September 30, 2014, the Company recorded bad debt expenses in the amounts of \$46,774 and \$18,742, respectively. During the three and nine months ended September 30, 2013, the Company recorded bad debt expenses in the amount of \$32,017 and \$69,920, respectively, related to tenant receivables that were specifically identified as potentially uncollectible based on an assessment of the tenant’s credit-worthiness. During the three and nine months ended September 30, 2014 and 2013, the Company did not realize any recoveries related to tenant receivables previously written off.

Deferred Costs and Other Assets, net

The Company’s deferred costs and other assets consist primarily of internal and external leasing commissions, fees incurred in order to obtain long-term financing, leases in place intangible assets, legal and marketing costs and tenant relationship intangible assets associated with acquisitions, and various property escrow accounts for real estate taxes, insurance, tenant improvements and replacements. The Company records amortization of financing costs using the effective interest method over the terms of the respective loans or agreements. The Company’s lease origination costs consist primarily of commissions paid in connection with lease originations and renewals. The Company records amortization of lease origination costs on a straight-line basis over the terms of the related leases. The Company’s leases in place intangible asset relates to values assigned leases associated with acquired properties. Leases in place are amortized over the term of the respective leases, while legal and marketing and tenant relationship intangible assets are amortized over their estimated useful lives. Acquisition deposits and escrows relate to advance funding of acquisitions to be completed.

Future amortization of lease origination costs, leases in place, financing costs, legal and marketing costs and tenant relationships is as follows:

Income Taxes

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code and applicable Treasury regulations relating to REIT qualification. In order to maintain this REIT status, the regulations require the Company to distribute at least 90% of its taxable income to shareholders and meet certain other asset and income tests, as well as other requirements. Thus, the Company made no provision for federal income taxes for the REIT in the accompanying condensed consolidated financial statements. If the Company fails to qualify as a REIT, it will be subject to tax at regular corporate rates for the years in which it failed to qualify. If the Company loses its REIT status, it could not elect to be taxed as a REIT for five years unless the Company's failure to qualify was due to a reasonable cause and certain other conditions were satisfied.

Use of Estimates

The Company has made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reported periods. The Company's actual results could differ from these estimates.

Noncontrolling Interests

Noncontrolling interests is the portion of equity in the Operating Partnership not attributable to the Trust.

Accordingly, the Company has reported noncontrolling interests in equity on the September 30, 2014 unaudited condensed consolidated balance sheet but separate from the Company's shareholders' equity. On the September 30, 2014 unaudited condensed consolidated statements of operations, the subsidiaries are reported at the consolidated

amount, including both the amount attributable to the

Company and noncontrolling interests. The unaudited condensed consolidated statement of equity includes beginning balances, activity for the period and ending balances for shareholders' equity, noncontrolling interests and total equity. The noncontrolling interest of the Operating Partnership common unit holders is calculated by multiplying the noncontrolling interest ownership percentage at the balance sheet date by the Operating Partnership's net assets (total assets less total liabilities). The noncontrolling interest percentage is calculated at any point in time by dividing the number of units not owned by the Company by the total number of units outstanding. The noncontrolling interest ownership percentage will change as additional units are issued or as units are exchanged for the Company's Common Stock. In accordance with GAAP, any changes in the value from period to period are charged to additional paid-in capital.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update 2014-09, "Revenue from Contracts with Customers," which supersedes the revenue recognition requirements of Accounting Standards Codification ("ASC") Topic 605, "Revenue Recognition" and most industry-specific guidance on revenue recognition throughout the ASC. The new standard is principles based and provides a five step model to determine when and how revenue is recognized. The core principle of the new standard is that revenue should be recognized when a company transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The new standard also requires disclosure of qualitative and quantitative information surrounding the amount, nature, timing and uncertainty of revenues and cash flows arising from contracts with customers. The new standard is effective for the Company in the first quarter of the year ended December 31, 2017 and can be applied either retrospectively to all periods presented or as a cumulative-effect adjustment as of the date of adoption. Early adoption is not permitted. The Company is currently evaluating the impact of adoption of the new standard on its consolidated financial statements.

Reclassifications

Certain reclassifications have been made to prior period amounts to make their presentation comparable with the current period. These reclassifications had no impact on net income.

3. Investment Properties

Investment properties consist of the following:

	September 30, 2014 (unaudited)	December 31, 2013
Land	\$33,990,680	\$26,828,228
Land held for improvement	4,196,918	—
Buildings and improvements	106,701,707	80,003,805
Investment properties at cost	144,889,305	106,832,033
Less accumulated depreciation and amortization	(7,348,240)	(5,059,698)
Investment properties, net	\$137,541,065	\$101,772,335

A significant portion of the Company's land, buildings and improvements serve as collateral for its mortgage loans payable portfolio. Accordingly, restrictions exist as to the encumbered property's transferability, use and other common rights typically associated with property ownership.

Basic earnings per share for the Company's common shareholders is calculated by dividing income from continuing operations, excluding amounts attributable to preferred stockholders and the net loss attributable to noncontrolling interests, by the Company's weighted-average shares of common stock outstanding during the period. Executive Overview

The September 30, 2014 three and nine month periods include the combined operations of all properties owned at December 31, 2013 as described in our 2013 Form 10-K, and a partial quarter of operations for Cypress Shopping Center, Port Crossing Shopping Center, Harrodsburg Marketplace, LaGrange Marketplace, Freeway Junction, and Graystone Crossing. Conversely, the September 2013 three and nine month periods only include a full period of combined operations for all properties owned at December 31, 2012 as described in our 2012 Annual Report on Form 10-K ("2012 Form 10-K"), a full quarter of operations for the Bixby Commons property that was acquired in June 2013, and a partial quarter of operations for the Jenks Reasors, Forrest Gallery and Tampa Festival properties, which were all acquired in August and September 2013. In providing the following discussion and analysis of our results of operations, we have separately identified the activities of properties owned for the entire 2013 annual period (collectively referred to as "same stores") and of those properties acquired during 2013 and 2014 (collectively referred to as "new stores"). This illustrates the significant impact the properties acquired during 2013 had on our results of operations.

Leasing Activity

Renewals during the first nine months of 2014 were comprised of twenty-three deals totaling 106,470 square feet with a weighted average increase of \$0.15 per square foot. The rates on negotiated renewals resulted in a weighted average increase of \$0.93 per square foot on eleven renewals and a \$5.19 per square foot decrease on four renewals. Eight of the twenty-three renewals resulted in no changes to rent per square foot, while eleven renewals represented options being exercised.

New lease activity during the first nine months of 2014 was comprised of fourteen deals totaling 33,996 square feet with a weighted average rate of \$12.60 per square foot. There were no leases that expired during the period that were not renewed by the tenant.

Approximately 5.56% of our gross leasable area is subject to leases that expire during the twelve months ending September 30, 2015 that have not already been renewed. Based on recent market trends, we believe that these leases will be renewed at amounts and terms comparable to existing lease agreements.

Critical Accounting Policies

In preparing the condensed consolidated financial statements, we have made estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reported periods. Actual results may differ from these estimates. A summary of our critical accounting policies is included in our 2013 Form 10-K under “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” There have been no significant changes to these policies during the nine months ended September 30, 2014. Property Revenues

Total same store property revenues for the three and nine month periods ended September 30, 2014 were \$1.55 million and \$4.81 million, compared to \$1.57 million and \$4.77 million for the three and nine month periods ended September 30, 2013. Same store revenues fluctuated primarily due to the amount and timing of prior year tenant reimbursement reconciliation adjustments and contractual rent adjustments.

The three and nine month periods ended September 30, 2014 represent full periods of operations reported for the twelve acquisitions made in 2013, and a partial quarter of operations for the six acquisitions made in the three months ended September 30, 2014. These properties (new stores) contributed \$2.62 million and \$6.66 million in revenues for the three and nine month periods ended September 30, 2014, respectively, compared to \$408,442 and \$451,175 for the three and nine month periods ended September 30, 2013. The September 2013 periods only included a partial quarter of activity for the Jenks Reasors, Forrest Gallery, Tampa Festival property acquired during August and September 2013. Going forward we believe these properties will generate a significant amount of revenue for us and we will benefit from future contractual rent increases and expansion opportunities.

Property Expenses

Total same store operating expenses for the three and nine month periods ended September 30, 2014 were \$358,185 and \$1,031,529, respectively, compared to \$329,537 and \$915,107 for the three and nine month periods ended September 30, 2013, respectively. The increase for both periods was primarily due to timing of repairs and maintenance, and increases in snow removal and utility expenses which were caused by the unusually inclement weather experienced in our markets for the nine months ended September 30, 2014 as compared to the 2013 nine month period. Total snow removal for all properties was approximately \$98,400 during the September 2014 nine month period as compared to approximately \$11,400 during the September 2013 nine month period.

There were no significant unusual or non-recurring items included in new store property expenses for the three and nine month periods ended September 30, 2014.

Property Net Operating Income

Total property net operating income was \$3.01 million and \$8.48 million for the three and nine month periods ended September 30, 2014, respectively, compared to \$1.59 million and \$4.25 million for the three and nine month periods ended September 30, 2013, respectively. The September 2014 three and nine month period results represent increases of \$1.42 million and \$4.23 million, respectively, over the comparable September 2013 periods. New stores accounted for the majority of these increases by generating \$1.82 million and \$4.70 million in property net operating income for the three and nine month periods ended September 30, 2014, respectively, compared to \$354,703 and \$397,436 for the three and nine month periods ended September 30, 2013, respectively. The increases primarily resulted from a full period of operations for the September 2014 three and nine month periods related to the twelve assets acquired during 2013.

Other Operating Expenses

Same store other operating expenses for the three and nine month periods ended September 30, 2014 period were \$1.63 million and \$4.72 million, respectively, representing decreases of \$559,631 and \$656,739 respectively, over the three and nine month periods ended September 30, 2013. These reductions in same store operating expenses resulted from decreases in depreciation and amortization of \$130,097 and \$417,644, respectively, and decreases of \$415,775 and \$159,401, respectively, in general and administrative expenses for the three and nine months ended September 30, 2014. The decreases in same store depreciation and amortization expense for the three and nine month periods ended September 30, 2014, resulted from more assets becoming fully depreciated and amortized since the September 2013 period.

Total general and administrative expenses for the three and nine months ended September 30, 2014 increased \$431,338 and \$492,638, respectively. During the nine months ended September 30, 2014, we incurred approximately \$1.9 million of professional fees related to acquisitions and capital transactions, compared to approximately \$2.0 million for the 2013 period. The 2014 acquisition expenses were associated with the acquisitions completed in the three months ended September 30, 2014, primarily related to financial statement audits, appraisals and legal matters. The expenses associated with capital transactions primarily related to the legal fees incurred to register the underlying common shares that would result from common unit redemptions. Additionally, we incurred a significant amount of travel and other costs as a result of the April and September 2014 Series B Preferred Stock offerings, and an increase in our administrative services expense due to the increase in the number of properties owned. General and administrative expenses for the nine months ended September 30, 2014 also include approximately \$95,000 of franchise and other state taxes and \$190,000 of noncash share-based compensation that were not incurred during the 2013 period. Conversely, general and administrative expenses for the nine months ended September 30, 2013 included approximately \$1.12 million related to the Perimeter and Harp's legal matters. The Harp's legal matter was ultimately settled by a related party with no liability to us.

Interest Expense

Same store interest expense was \$781,445 and \$2.32 million for the three and nine month periods ended September 30, 2014, respectively, which represent increases of \$361,446 and \$903,960 as compared to \$419,999 and \$1,413,633 for the three and nine month periods ended September 30, 2013, respectively. The increase primarily resulted from the issuance of \$12.16 million in senior convertible and non-convertible notes in December 2013 and January 2014. Total interest expense for the three and nine months ended September 30, 2014 increased \$1.13 million and \$3.04 million, respectively. In addition to the impact of the senior debt, total interest expense was affected by the issuance of \$52.4 million of acquisition-related debt since September 2013.

Funds from Operations

We use Funds from Operations ("FFO"), a non-GAAP measure, as an alternative measure of our operating performance, specifically as it relates to results of operations and liquidity. We compute FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999 and April 2002). As defined by NAREIT, FFO represents net income (computed in accordance with

GAAP), excluding gains (or losses) from sales of property, plus real estate related depreciation and amortization (excluding amortization of loan origination costs) and after adjustments for unconsolidated partnerships and joint ventures. Most industry analysts and equity REITs, including us, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company's real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using GAAP net income alone as the primary measure

of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while historically real estate values have risen or fallen with market conditions. Accordingly, we believe FFO provides a valuable alternative measurement tool to GAAP when presenting our operating results.

During the three and nine month periods ended September 30, 2014, same store FFO increased \$22,522 and decreased \$747,633, respectively, primarily due to increases of \$361,446 and \$903,960, respectively, in same store interest expense, partially offset by decreases of \$415,775 and \$159,401, respectively, in corporate general and administrative expenses for the three and nine month periods ended September 30, 2014. Total FFO decreased \$155,711 for the three month period ended September 30, 2014, and increased \$743,365 for the nine month period ended September 30, 2014, primarily as a result of the additional FFO generated by the twelve properties acquired during 2013 and the six properties acquired during the September 2014 three month period. The increases in interest expense and corporate general and administrative expenses are discussed in the "Other Operating Expenses" section above. Excluding the impact of acquisition and legal related costs and share-based compensation, total core FFO for the three and nine month periods ended September 30, 2014 would have been \$(1,150,215) and \$(470,412), respectively, representing decreases of \$1,265,926 and \$1,042,666 over the September 2013 three and nine month periods, as shown in the table below:

Preferred stock dividends for the three and nine month periods ended September 30, 2014 include approximately \$461,800, representing a full quarter of dividends related to the September 2014 Series B convertible preferred stock offering. However, only a small portion of the proceeds generated in this offering were invested as of September 30, 2014. Additionally, the majority of the proceeds generated in the April 2014 Series B convertible preferred stock offering were invested during the three months ended September 30, 2014. Accordingly, the full impact on FFO of investing the proceeds of these offerings will be realized in subsequent periods.

Liquidity and Capital Resources

At September 30, 2014, our consolidated cash and cash equivalents totaled \$19.86 million compared to consolidated cash and cash equivalents of \$1.16 million at December 31, 2013. Cash flows from operating activities, investing activities and financing activities for the nine month periods ended September 30, 2014 and 2013 were as follows:

	Nine Months Ended September 30,		Period Over Period Change		
	2014	2013	\$	%	
Operating activities	\$(4,724,037)	\$(1,696,528)	\$(3,027,509)	178.45	%
Investing activities	\$(11,611,742)	\$(14,350,912)	\$2,739,170	(19.09))%
Financing activities	\$35,043,910	\$15,815,305	\$19,228,605	121.58	%
Operating Activities					

During the nine months ended September 30, 2014, our cash flows used by operating activities were \$4.72 million, compared to cash flows used in operating activities of \$1.70 million during the nine months ended September 30, 2013. Operating cash flows were primarily impacted by the \$2.78 million increase in our consolidated net loss due to the factors discussed in the Results of Operations section above, specifically the \$2.02 million increase in total property operations expenses associated with operating the REIT and the addition of seventeen properties since September 2013. Also impacting operating cash flows was approximately \$2.9 million paid in escrows on our two contemplated acquisitions which were completed subsequent to September 30, 2014, with the majority of it related to the Bryan Station acquisition that closed on October 2, 2014, but required the equity funds to be escrowed on September 30, 2014. However, our operating cash flows were positively impacted by the \$743,365 increase in FFO for the nine months ended September 30, 2014, compared to the same period in 2013, primarily resulting from the additional FFO generated by the seventeen properties acquired since September 2013.

Investing Activities

During the nine months ended September 30, 2014, our cash flows used in investing activities were \$11.61 million, compared to cash flows used in investing activities of \$14.35 million during the nine months ended September 30, 2013. The 2014 amount reflects the cash used to acquire the nine properties in the nine months ended September 30, 2014. The 2013 amount includes the cash used to acquire four properties in the nine months ended September 30, 2013.

Financing Activities

During the nine months ended September 30, 2014, our cash flows from financing activities were \$35.04 million, compared to \$15.82 million of cash flows from financing activities during the nine months ended September 30, 2013. During the nine months ended September 30, 2014, we received \$37.45 million from the completion of our Series B convertible preferred stock offerings in April and September 2014, and \$2.16 million of proceeds from the issuance of senior non-convertible notes in January 2014. These proceeds were partially offset by dividends and distributions, which increased to \$3.36 million in the nine months ended September 30, 2014 from \$1,853,682 during the nine months ended September 30, 2013 period as a result of the additional 4,120,350 shares of common stock outstanding during the September 2014 period as compared to the September 2013 period, and the Series B convertible preferred stock issued.

Refinancing activity during the nine months ended September 30, 2014 included the refinancing of two loans totaling \$4.03 million with new loans totaling \$4.31 million, and the payoff of a \$2.0 million line of credit, which was replaced with a new \$3.0 million line of credit. During the nine months ended September 30, 2013, we refinanced \$10.3 million in loans that matured during the period. Excluding the net impact of the refinancing transactions, principal payments on mortgage indebtedness increased to approximately \$1.64 million during the nine months ended September 30, 2014 from \$784,000 during the nine months ended September 30, 2013, which primarily relates to the \$52.4 million in acquisition-related loans resulting from the seventeen acquisitions made since September 2013. As of September 30, 2014 and December 31, 2013, our debt balances consisted of the following:

	September 30, 2014	December 31, 2013
Fixed-rate notes	\$129,792,557	\$94,562,503

The weighted average interest rate and term of our fixed-rate debt are 5.18% and 5.91 years, respectively, at September 30, 2014. We have \$7.56 million of debt maturing during the twelve months ending September 30, 2015. While we anticipate being able to refinance our maturing loans at reasonable market terms upon maturity, our inability to do so may materially impact our

financial position and results of operations. See the financial statements included elsewhere in this Form 10-Q for additional mortgage indebtedness details.

On July 2, 2014, we entered into a promissory note for \$660,000 to refinance the Starbucks/Verizon loan. The new loan matures on July 2, 2019 and requires monthly principal and interest payments of \$4,383 based on a 20 year amortization and a 5.00% fixed interest rate.

The Walnut Hill loan matured on April 11, 2014, and was subsequently extended until July 31, 2014. On July 31, 2014, we entered into a promissory note for \$3,650,000 to refinance the note that matured. The new loan matures on July 30, 2017 and requires monthly principal and interest payments of \$24,273 based on a 20 year amortization and a 5.50% fixed interest rate.

On September 16, 2014, we entered into a Promissory Note (the “Note”) for a \$3,000,000 line of credit. The Note matures on September 16, 2015, provides for an interest rate of 4.25% per annum and is guaranteed by a Deed of Trust and Assignment of Rents on real property. Concurrently with this transaction, we paid off our \$2,000,000 line of credit.

Future Liquidity Needs

The \$7.56 million in debt maturities, ongoing debt service and the \$0.42 per share targeted annual dividend we are currently paying represent the most significant factors outside of normal operating activities impacting cash flow over the next year. Our success in refinancing the debt and executing on our growth strategy will dictate our liquidity needs going forward. If we are unable to execute in these areas, our ability to grow and pay future dividends may be limited without additional capital.

On April 1, 2014, we announced that we had entered into a \$25 million secured guidance line credit facility with KeyBank National Association (“KeyBank”). We will be able to utilize this credit facility until December 31, 2015. We expect to use the facility for the acquisition of select grocery-anchored properties located in secondary and tertiary markets throughout the Northeast, Mid-Atlantic, Southeast and Southwest regions of the United States.

In addition to liquidity required to fund debt payments, distributions and acquisitions, we may incur some level of capital expenditures during the year for the existing thirty-three properties that cannot be passed on to our tenants. The majority of these expenditures occur subsequent to acquiring a new property that requires significant improvements to maximize occupancy and lease rates, with an existing property that needs a facelift to improve its marketability or when tenant improvements are required to make a space fit a particular tenant’s needs. Significant capital expenditures could also impact our ability to grow and pay future dividends.

Off-Balance Sheet Arrangements

As of September 30, 2014, we were not involved in any significant off-balance sheet arrangements that are likely to have a material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital resources or capital expenditures.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update 2014-09, “Revenue from Contracts with Customers,” which supersedes the revenue recognition requirements of Accounting Standards Codification (“ASC”) Topic 605, “Revenue Recognition” and most industry-specific guidance on revenue recognition throughout the ASC. The new standard is principles based and provides a five step model to determine when and how revenue is recognized. The core principle of the new standard is that revenue should be recognized when a company transfers promised goods or services to customers in an amount that reflects the consideration to which we expects to be entitled in exchange for those goods or services. The new standard also requires disclosure of qualitative and quantitative information surrounding the amount, nature, timing and uncertainty of revenues and cash flows arising from contracts with customers. The new standard is effective for us in the first quarter of the year ended December 31, 2017 and can be applied either retrospectively to all periods presented or as a cumulative-effect adjustment as of the date of adoption. Early adoption is not permitted. We are currently evaluating the impact of adoption of the new standard on its consolidated financial statements.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The management of the Trust, under the supervision and with the participation of our principal executive and financial officers, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such information is accumulated and communicated to the Trust's management, as appropriate, to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of September 30, 2014 (the end of the period covered by this Report).

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes the final outcome of such matters will not have a material adverse effect on our financial position, results of operation or liquidity.

On July 10, 2008, one of our subsidiaries, Perimeter Associates, LLC ("Perimeter"), sued a tenant for breach of contract, guaranty of the contract and fraud related to an executed lease. In response, on August 22, 2008, the defendant filed a counterclaim against Perimeter for breach of contract, unjust enrichment and fraud. On April 8, 2013, the court found in favor of the defendant and assessed damages against Perimeter in the amount of \$13,300. On or about May 8, 2013, Perimeter appealed the judgment of the lower court to the Oklahoma Supreme Court. Subsequent to the initial judgment, the defendant's attorney applied to the court to be reimbursed for approximately \$368,000 in legal fees incurred by the defendant during litigation. On July 9, 2013, the lower court awarded the defendant approximately \$267,000 of the defendant's legal fees. Perimeter expects to amend its appeal with the Oklahoma Supreme Court to include the issue of the award of legal fees. We have posted bonds for both judgments and have accrued for the judgments in our financial statements. We will continue to vigorously litigate the issues raised upon appeal.
