1. Organization and Basis of Presentation and Consolidation

Wheeler Real Estate Investment Trust, Inc. (the "Trust", the "REIT", or "Company") is a Maryland corporation formed on June 23, 2011. The Trust serves as the general partner of Wheeler REIT, L.P. (the "Operating Partnership"), which was formed as a Virginia limited partnership on April 5, 2012. As of March 31, 2019, the Trust, through the Operating Partnership, owned and operated sixty-two centers, one office building and six undeveloped properties in Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Oklahoma, Tennessee, Kentucky, New Jersey, Pennsylvania and West Virginia. Accordingly, the use of the word "Company" refers to the Trust and its consolidated subsidiaries, except where the context otherwise requires.

On October 24, 2014, the Trust, through the Operating Partnership, acquired (i) Wheeler Interests, LLC ("WI"), an acquisition and asset management firm, (ii) Wheeler Real Estate, LLC ("WRE"), a real estate leasing, management and administration firm and (iii) WHLR Management, LLC ("WM" and collectively with WI and WRE the "Operating Companies"), a real estate business operations firm, from Jon S. Wheeler, the Company's then Chairman and CEO, resulting in the Company becoming an internally-managed REIT. Accordingly, the responsibility for identifying targeted real estate investments, the handling of the disposition of real estate investments our Board of Directors chooses to sell, administering our day-to-day business operations, including but not limited to, leasing, property management, payroll and accounting functions, acquisitions, asset management and administration are now handled internally.

The Operating Companies perform property management and leasing functions for certain related and non-related third parties (the "Non-REIT Properties"), primarily through WRE. The Company converted WRE to a Taxable REIT Subsidiary ("TRS") to accommodate serving the Non-REIT Properties since applicable REIT regulations consider the income derived from these services to be "bad" income subject to taxation. The regulations allow for costs incurred by the Company commensurate with the services performed for the Non-REIT Properties to be allocated to a TRS.

During January 2014, the Company acquired Wheeler Development, LLC ("WD") and converted it to a TRS. The Company began performing development activities for both REIT Properties and Non-REIT Properties during 2015.

The condensed consolidated financial statements included in this Quarterly Report on Form 10-Q (the "Form 10-Q") are unaudited and the results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for future periods or the year. However, amounts presented in the condensed consolidated balance sheet as of December 31, 2018 are derived from the Company's audited consolidated financial statements as of that date, but do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. The Company prepared the accompanying condensed consolidated financial statements in accordance with GAAP for interim financial statements. The condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary to reflect a fair statement of the results for the interim periods presented, and all such adjustments are of a normal recurring nature. All material balances and transactions between the consolidated entities of the Company have been eliminated. You should read these condensed consolidated financial statements in conjunction with our 2018 Annual Report filed on Form 10-K for the year ended December 31, 2018 (the "2018 Form 10-K").

2. Summary of Significant Accounting Policies
Investment Properties

The Company records investment properties and related intangibles at fair value upon acquisition. Investment properties include both acquired and constructed assets. Improvements and major repairs and maintenance are

capitalized when the repair and maintenance substantially extends the useful life, increases capacity or improves the efficiency of the asset. All other repair and maintenance costs are expensed as incurred. The Company capitalizes interest on projects during periods of construction until the projects reach the completion point that corresponds with their intended purpose.

The Company allocates the purchase price of acquisitions to the various components of the asset based upon the fair value of each component which may be derived from various observable or unobservable inputs and assumptions. Also, the Company may utilize third party valuation specialists. These components typically include buildings, land and any intangible assets related to out-of-market leases, tenant relationships and in-place leases the Company determines to exist. The Company determines fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and

available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Factors considered by management in the analysis of determining the as-if-vacant property value include an estimate of carrying costs during the expected lease-up periods considering market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and estimates of lost rentals at market rates during the expected lease-up periods, tenant demand and other economic conditions. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Intangibles related to out-of-market leases, tenant relationships and in-place lease value are recorded as acquired lease intangibles and are amortized as an adjustment to rental revenue or amortization expense, as appropriate, over the remaining terms of the underlying leases. Premiums or discounts on acquired out-of-market debt are amortized to interest expense over the remaining term of such debt.

The Company records depreciation on buildings and improvements utilizing the straight-line method over the estimated useful life of the asset, generally 5 to 40 years. The Company reviews depreciable lives of investment properties periodically and makes adjustments to reflect a shorter economic life, when necessary. Tenant allowances, tenant inducements and tenant improvements are amortized utilizing the straight-line method over the term of the related lease or occupancy term of the tenant, if shorter.

Amounts allocated to buildings are depreciated over the estimated remaining life of the acquired building or related improvements. The Company amortizes amounts allocated to tenant improvements, in-place lease assets and other lease-related intangibles over the remaining life of the underlying leases. The Company also estimates the value of other acquired intangible assets, if any, and amortizes them over the remaining life of the underlying related intangibles.

The Company reviews investment properties for impairment on a property-by-property basis whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable, but at least annually. These circumstances include, but are not limited to, declines in the property's cash flows, occupancy and fair market value. The Company measures any impairment of investment property when the estimated undiscounted future operating income before depreciation and amortization, plus its residual value, is less than the carrying value of the property. Estimated discounted operating income before depreciation and amortization includes various level 3 fair value assumptions including renewal and renegotiations of current leases, estimates of operating costs and fluctuating market conditions. The renewal and renegotiations of leases in some cases must be approved by additional third parties outside the control of the Company and the tenant. If such renewed or renegotiated leases are approved at amounts below correct estimates, then impairment adjustments may be necessary in the future. To the extent impairment has occurred, the Company charges to income the excess of the carrying value of the property over its estimated fair value. The Company estimates fair value using unobservable data such as operating income, estimated capitalization rates, or multiples, leasing prospects and local market information. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets Held For Sale and Discontinued Operations

The Company may decide to sell properties that are held for use. The Company records these properties as held for sale when management has committed to a plan to sell the assets, actively seeks a buyer for the assets, and the

consummation of the sale is considered probable and is expected within one year. Properties classified as held for sale are reported at the lower of their carrying value or their fair value, less estimated costs to sell. When the carrying value exceeds the fair value, less estimated costs to sell an impairment charge is recognized. The Company estimates fair value, less estimated closing costs based on similar real estate sales transactions. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets held for sale are presented as discontinued operations in all periods presented if the disposition represents a strategic shift that has, or will have, a major effect on the Company's financial position or results of operations. This includes the net gain (or loss) upon disposal of property held for sale, the property's operating results, depreciation and interest expense.

2. Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents and Restricted Cash

The Company considers all highly liquid investments purchased with an original maturity of 90 days or less to be cash and cash equivalents. Cash equivalents are carried at cost, which approximates fair value. Cash equivalents consist primarily of bank operating accounts and money markets. Financial instruments that potentially subject the Company to concentrations of credit risk include its cash and cash equivalents and its trade accounts receivable. The Company places its cash and cash equivalents with institutions of high credit quality.

Restricted cash represents amounts held by lenders for real estate taxes, insurance, reserves for capital improvements, leasing costs and tenant security deposits.

The Company places its cash and cash equivalents and restricted cash on deposit with financial institutions in the United States, which are insured by the Federal Deposit Insurance Company ("FDIC") up to \$250 thousand. The Company's credit loss in the event of failure of these financial institutions is represented by the difference between the FDIC limit and the total amounts on deposit. Management monitors the financial institutions credit worthiness in conjunction with balances on deposit to minimize risk.

Tenant Receivables and Unbilled Rent

Tenant receivables include base rents, tenant reimbursements and receivables attributable to recording rents on a straight-line basis. The Company determines an allowance for the uncollectible portion of accrued rents and accounts receivable based upon customer credit-worthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels, and current economic trends. The Company considers a receivable past due once it becomes delinquent per the terms of the lease. The Company's standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease. As of March 31, 2019 and December 31, 2018, the Company's allowance for uncollectible accounts totaled \$1.03 million and \$1.26 million, respectively. Upon adoption of ASC Topic 842 "Leases," reserves for uncollectible accounts were recorded and reclassified to revenue. Prior to adoption, reserves for uncollectible accounts were recorded as an operating expense, provision for credit losses. The standard also provides guidance on calculating reserves; however, those did not impact the Company. During the three months ended March 31, 2019 and 2018, the Company recorded a provision for credit losses in the amount of \$90 thousand and \$98 thousand, respectively, related to tenant receivables that were specifically identified as potentially uncollectible based on an assessment of the tenant's credit-worthiness. These are included in rental revenues on the condensed consolidated statements of operations. During the three months ended March 31, 2019 and 2018, the Company did not realize any recoveries related to tenant receivables previously written off.

Notes Receivable

Notes receivable represent financing to Sea Turtle Development as discussed in Note 4 for development of the project. The notes are secured by a 2nd deed of trust on the underlying real estate known as Sea Turtle Development. The Company evaluates the collectability of both the interest and principal of the notes receivable based primarily upon the projected fair market value of the project at stabilization. The notes receivable are determined to be impaired when, based upon current information, it is no longer probable that the Company will be able to collect all contractual amounts due from the borrower. The amount of impairment loss recognized is measured as the difference between the carrying amount of the loan and its estimated realizable value.

Above and Below Market Lease Intangibles, net

The Company determines the above and below market lease intangibles upon acquiring a property. Above and below market lease intangibles are amortized over the life of the respective leases. Amortization of above and below market lease intangibles is recorded as a component of rental revenues.

Deferred Costs and Other Assets, net

The Company's deferred costs and other assets consist primarily of leasing commissions, leases in place, capitalized legal and marketing costs, tenant relationship and ground lease sandwich interest intangibles associated with acquisitions. The Company's lease origination costs consist primarily of the portion of property acquisitions allocated to lease originations and

commissions paid to third parties in connection with lease originations. The Company generally records amortization of lease origination costs on a straight-line basis over the terms of the related leases. Amortization of lease origination costs, leases in place, legal and marketing costs, tenant relationships and ground lease sandwich interest represents a component of depreciation and amortization expense.

Revenue Recognition

Lease Contract Revenue

The Company has two classes of underlying assets relating to rental revenue activity, retail and office space. The Company retains substantially all of the risks and benefits of ownership of these underlying assets and accounts for these leases as operating leases. The Company combines lease and nonlease components in lease contracts, which includes combining base rent and tenant reimbursement revenue.

The Company accrues minimum rents on a straight-line basis over the terms of the respective leases which results in an unbilled rent asset or deferred rent liability being recorded on the balance sheet. At March 31, 2019 and December 31, 2018, there were \$3.54 million and \$3.12 million, respectively, in unbilled rent which is included in "rents and other tenant receivables, net." Additionally, certain of the lease agreements contain provisions that grant additional rents based on tenants' sales volumes (contingent or percentage rent). Percentage rents are recognized when the tenants achieve the specified targets as defined in their lease agreements as variable lease income.

The Company's leases generally require the tenant to reimburse the Company for a substantial portion of its expenses incurred in operating, maintaining, repairing, insuring and managing the shopping center and common areas (collectively defined as Common Area Maintenance or "CAM" expenses). This significantly reduces the Company's exposure to increases in costs and operating expenses resulting from inflation or other outside factors. These reimbursements are considered nonlease components which the Company combines with the lease component. The Company calculates the tenant's share of operating costs by multiplying the total amount of the operating costs by a fraction, the numerator of which is the total number of square feet being leased by the tenant, and the denominator of which is the average total square footage of all leasable buildings at the property. The Company also receives escrow payments for these reimbursements from substantially all its tenants throughout the year. The Company recognizes tenant reimbursements as variable lease income. The Company recognizes differences between estimated recoveries and the final billed amounts in the subsequent year. These differences were not material for the three months ended March 31, 2019 and 2018.

Additionally, the Company has tenants who pay real estate taxes directly to the taxing authority. The Company excludes these Company costs paid directly by the tenant to third parties on the Company's behalf from both variable revenue payments recognized and the associated property operating expenses. The Company does not evaluate whether certain sales taxes and other similar taxes are the Company's costs or tenants costs. Instead, the Company accounts for these costs as tenant costs.

The Company recognizes lease termination fees, which is included in "other revenue" on the condensed consolidated statements of operations, in the year that the lease is terminated and collection of the fee is reasonably assured. Upon early lease termination, the Company provides for losses related to unrecovered intangibles and other assets.

Asset Management Fees

Asset management fees are generated from Non-REIT Properties. The Non-REIT Properties pay WRE property management and/or asset management fees of 3% and 2% of collected revenues, respectively for services performed. Revenues are governed by the management fee agreements for the various properties. Obligations under the agreements include and are not limited to: managing of maintenance, janitorial, security, landscaping, vendors and back office (collecting rents, paying bills), etc. Each of the obligations are bundled together to be one service and are satisfied over time. Non-REIT Properties are billed monthly and typically pay monthly for these services.

Commissions

Commissions are generated from Non-REIT Properties. The Non-REIT Properties pay WRE leasing commissions based on the total contractual revenues to be generated under the new/renewed lease agreement (6% for new leases and 3% for renewals). Revenues are governed by the leasing commission agreements for the various properties. Obligations under the agreements include and are not limited to: monitoring upcoming vacancies, new tenant identification, proposal preparation, lease negotiation and document preparation. Each of the obligations are bundled together to be one service as the overall objective of these services is to maintain the overall occupancy of the property. Revenue is recognized and billed upon lease execution.

The below table disaggregates the Company's revenue by type of service for the three months ended March 31, 2019 and 2018 (in thousands, unaudited):

	Three Months Ended March 31, 2019 2018	
Minimum rent	\$12,461	\$12,610
Tenant reimbursements - variable lease revenue	3,287	3,222

Total	\$15,995	\$16,293

Income Taxes

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code and applicable Treasury regulations relating to REIT qualification. In order to maintain this REIT status, the regulations require the Company to distribute at least 90% of its taxable income to shareholders and meet certain other asset and income tests, as well as other requirements. The TRS' have accrued \$22 thousand and \$13 thousand, respectively, for federal and state income taxes as of March 31, 2019 and December 31, 2018. If the Company fails to qualify as a REIT, it will be subject to tax at regular corporate rates for the years in which it fails to qualify. If the Company loses its REIT status, it could not elect to be taxed as a REIT for five years unless the Company's failure to qualify was due to a reasonable cause and certain other conditions were satisfied.

Taxable REIT Subsidiary Cost Allocation

The Company's overall philosophy regarding cost allocation centers around the premise that the Trust exists to acquire, lease and manage properties for the benefit of its investors. Accordingly, a majority of the Company's operations occur at the property level. Each property must carry its own weight by absorbing the costs associated with generating its revenues. Additionally, leases generally allow the Company to pass through to the tenant most of the costs involved in operating the property, including, but not limited to, the direct costs associated with owning and maintaining the property (landscaping, repairs and maintenance, taxes, insurance, etc.), property management and certain administrative costs.

Service vendors bill the majority of the direct costs of operating the properties directly to the REIT Properties and Non-REIT Properties and each property pays them accordingly. The Non-REIT Properties pay WRE property management and/or asset management fees of 3% and 2% of collected revenues, respectively. The Non-REIT Properties also pay WRE leasing commissions based on the total contractual revenues to be generated under the new/renewed lease agreement (6% for new leases and 3% for renewals).

 2. Summary of Significant Accounting Policies (continued)

Costs incurred to manage, lease and administer the Non-REIT Properties are allocated to the TRS. These costs include compensation and benefits, property management, leasing and other corporate, general and administrative expenses associated with generating the TRS' revenues.

Financial Instruments

The carrying amount of financial instruments included in assets and liabilities approximates fair market value due to their immediate or short-term maturity.

Use of Estimates

The Company has made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reported periods. The Company's actual results could differ from these estimates.

Advertising Costs For Leasing Activities

The Company expenses advertising and promotion costs as incurred. The Company incurred advertising and promotion costs associated with leasing activities of \$49 thousand and \$43 thousand for the three months ended March 31, 2019 and 2018, respectively.

Corporate General and Administrative Expense

A detail for the "corporate general & administrative" ("CG&A") line item from the condensed consolidated statements of operations is presented below (in thousands, unaudited):

	Three Months Ended March 31, 2019 2018	
Compensation and benefits	\$676	\$1,001
Professional fees	599	861
Corporate administration	305	342
Capital related costs	74	53

	1,814	2,544
Less: Allocation of CG&A to Non-REIT management and leasing services	—	(36)
Total	\$1,814	\$2,508

An allocation of professional fees, compensation and benefits, corporate administration and travel is included in Non-REIT management and leasing services on the condensed consolidated statements of operations, which can vary period to period depending on the relative operational fluctuations of these respective services.

Leases Commitments

The Company determines if an arrangement is a lease at inception. Operating leases, in which the Company is the lessee, are included in operating lease right-of-use (“ROU”) assets and operating lease liabilities on our condensed consolidated balance sheets.

Table of Contents

(Unaudited)
2. Summary of Significant Accounting Policies (continued)

ROU assets represent the right to use an underlying asset for the lease term and the lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. The operating lease ROU assets include any lease payments made and excludes lease incentives. The Company's lease terms may include options to extend the lease when it is reasonably certain that the company will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

The company elects the practical expedient to combine lease and associated nonlease components. The lease components are the majority of its leasing arrangements and the Company accounts for the combined component as an operating lease. In the event the Company modifies existing ground leases or enters into new ground leases, such leases may be classified as finance leases.

Noncontrolling Interests

Noncontrolling interests is the portion of equity in the Operating Partnership not attributable to the Trust. The ownership interests not held by the parent are considered noncontrolling interests. Accordingly, noncontrolling interests have been reported in equity on the condensed consolidated balance sheets but separate from the Company's equity. On the condensed consolidated statements of operations, the subsidiaries are reported at the consolidated amount, including both the amount attributable to the Company and noncontrolling interests. Condensed consolidated statements of equity includes beginning balances, activity for the period and ending balances for shareholders' equity, noncontrolling interests and total equity.

The noncontrolling interest of the Operating Partnership common unit holders is calculated by multiplying the noncontrolling interest ownership percentage at the balance sheet date by the Operating Partnership's net assets (total assets less total liabilities). The noncontrolling interest percentage is calculated at any point in time by dividing the number of units not owned by the Company by the total number of units outstanding. The noncontrolling interest ownership percentage will change as additional units are issued or as units are exchanged for the Company's common stock \$0.01 par value per share ("Common Stock"). In accordance with GAAP, any changes in the value from period to period are charged to additional paid-in capital.

Adoption of ASC Topic 842, "Leases"

In February 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-02, "Leases (Topic 842)", to increase transparency and comparability among organizations by requiring the recognition of ROU assets and lease liabilities on the balance sheet. The Company adopted ASU 2016-02 as of January 1, 2019 using the modified retrospective approach within ASU 2018-11, which allows for the application date to be the beginning of the reporting period in which the entity first applies the new standard. The Company did not have a cumulative-effect adjustment as of the adoption date. In addition, the Company implemented internal controls to enable the preparation of financial information upon adoption.

The Company elected the package of transition practical expedients where the company is either the lessee or lessor, which among other things, allowed the Company to carry forward the historical lease classifications and use hindsight in determining the lease terms.

The standard had a material impact on the Company's condensed consolidated balance sheets, but did not have a material impact on the condensed consolidated statements of operations. The most significant impact was the recognition of ROU assets and lease liabilities of approximately \$11.90 million and \$11.99 million, respectively, for operating leases as of January 1, 2019, calculated based on an incremental borrowing rate of 4.84%. The difference between the ROU assets and lease liabilities at adoption represents the accrued straight-line rent liability previously recognized under ASC 840. The standard had no impact on the Company's cash flows.

Recent Accounting Pronouncements

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments". This update enhances the methodology of measuring expected credit losses to include the use of forward-looking information to better calculate credit loss estimates. The guidance will apply to most financial assets

measured at amortized cost and certain other instruments, such as accounts receivable and loans. The guidance will require that the Company estimate the lifetime expected credit loss with respect to these receivables and record allowances that, when deducted from the balance of the receivables, represent the net amounts expected to be collected. The Company will also be required to disclose information about how it developed the allowances, including changes in the factors that influenced the Company's estimate of expected credit losses and the reasons for those changes. The guidance would be effective for interim and annual reporting periods beginning after December 15, 2019. The Company is currently in the process of evaluating the impact the adoption of the guidance will have on its consolidated financial statements.

In August 2018, the FASB issued ASU 2018-13, "Fair Value Measurement (Topic 820)". This update modifies the disclosure requirements on fair value measurements in Topic 820 with several removals and additions for disclosures. The guidance will add disclosures related to the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements. The guidance would be effective for interim and annual reporting periods beginning after December 15, 2019. The Company anticipates that there will be no material impact on its consolidated financial statements upon adoption of the guidance.

Other accounting standards that have been issued or proposed by the FASB or other standard-setting bodies are not currently applicable to the Company or are not expected to have a significant impact on the Company's financial position, results of operations and cash flows.

Reclassifications

The Company has reclassified certain prior period amounts in the accompanying condensed consolidated financial statements in order to be consistent with the current period presentation. These reclassifications had no effect on net income, total assets, total liabilities or equity. Tenant reimbursements and provision for credit losses were reclassified to rental revenues on the condensed consolidated statements of operations to conform to 2019 presentation as a result of adopting ASU 2016-02, "Leases (Topic 842)." The reclassifications within the condensed consolidated statement of cash flows pertain to the straight-line expense operating activity adjustment and the presentation of discontinued operations within operating and financing activities. This reclassification did not impact cash provided by (used in) operating, investing, or financing activities.

3. Real Estate

Investment properties consist of the following (in thousands):

	March 31, 2019 (unaudited)	December 31, 2018
Land and land improvements	\$ 97,279	\$ 98,846
Buildings and improvements	367,786	374,485

Investment properties, net	\$ 422,838	\$ 433,142

The Company's depreciation expense on investment properties was \$3.19 million and \$3.17 million for the three months ended March 31, 2019 and 2018, respectively.

A significant portion of the Company's land, buildings and improvements serves as collateral for its mortgage loans payable portfolio. Accordingly, restrictions exist as to the encumbered property's transferability, use and other

common rights typically associated with property ownership.

Assets Held for Sale

At December 31, 2018, assets held for sale included six undeveloped land parcels (the "Land Parcels"), Graystone Crossing and Jenks Plaza. Graystone Crossing and Jenks Plaza were sold during the three months ended March 31, 2019. Additionally, in 2019 the Board committed to a plan to sell Perimeter Square which is classified as assets held for sale as of March 31, 2019.

January 12, 2018	Chipotle Ground Lease at Conyers Crossing	1,270	1,055	1,160

The sale of the Chipotle ground lease at Conyers Crossing, Jenks Plaza and Graystone Crossing did not represent a strategic shift that has a major effect on the Company's financial position or results of operations. Accordingly, the operating results of these properties remains classified within continuing operations for all periods presented.

4. Notes Receivable

On September 29, 2016, the Company entered into an \$11.00 million note receivable for the partial funding of the Sea Turtle Development and a \$1.00 million note receivable in consideration for the sale of 10.39 acres of land owned by the Company. Sea Turtle Development was a related party as Jon Wheeler, the Company's former CEO and shareholder of the Company, is the managing member as discussed in Note 11. Both promissory notes are collateralized by a 2nd deed of trust on the property and accrue interest at a rate of 12% annually. Interest only payments at a rate of 8% are due on the notes at the beginning of every calendar quarter starting October 2016. Interest at a rate of 4% accrues and is due at maturity. The notes mature the earlier of September 29, 2021 or the disposition of the property.

As of March 31, 2019, the Company in total has recognized \$7.00 million in impairment charges on the notes receivable reducing the carrying value to \$5.00 million. In 2018, the Company placed the notes receivable on nonaccrual status and has not recognized \$355 thousand of interest income due on the notes for the three months ended March 31, 2019 and 2018.

As of March 31, 2019, the Company believes the estimated fair market value of the development upon stabilization and lease up at a future date will provide for the cash required to repay the \$5.00 million carrying value of the notes receivable in the event of a sale. The Company's estimated fair value of the project is based upon cash flow models that include information available to the Company at March 31, 2019, including assumptions on future lease up and the estimated fair value at full stabilization. Capitalization rates utilized in these models are based upon rates that the Company believes to be within a reasonable range of current market rates for the respective project. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. If the holder of the \$20.00 million 1st deed of trust proceeds to foreclosure, this may have an adverse effect on assumptions used in the Company's fair value analysis leading to further impairment.

KeyBank Credit Agreement

On December 21, 2017, the Company entered into an Amended and Restated Credit Agreement to the KeyBank Credit Agreement (the “Amended and Restated Credit Agreement”). The revolving facility will mature on December 21, 2019, but may be extended at the Company’s option for an additional one-year period, subject to certain customary conditions. The interest rate remains the same at Libor plus 250 basis points based on the Company’s Consolidated Leverage Ratio (as defined in the Amended and Restated Credit Agreement). The unutilized amounts available to the Company under the Amended and Restated Credit Agreement accrue fees which are paid at a rate of 0.25%.

At December 31, 2018, a \$3.83 million over advance (the “Overadvance”) on the Borrowing Base Availability (as defined in the Amended and Restated Credit Agreement) existed as a result of the 2018 refinancing of six assets off the KeyBank Line of Credit. The Company was to repay the Overadvance of \$3.83 million by February 28, 2019 or otherwise properly balance the Borrowing Base Availability.

On March 11, 2019, KeyBank extended the time which the Company is to repay the Overadvance to March 31, 2019 or otherwise properly balance the Borrowing Base Availability.

On March 19, 2019, the Company made a \$850 thousand principal payment.

As of March 31, 2019, \$51.25 million is borrowed on the KeyBank Line of Credit pursuant to the Amended and Restated Credit Agreement, which is collateralized by 10 properties and, of this amount \$2.98 million is the remaining Overadvance currently due. At March 31, 2019, the outstanding borrowings are accruing interest at 5.00%. The Amended and Restated Credit Agreement contains certain financial covenants that the Company must meet, including minimum leverage, fixed charge coverage and debt service coverage ratios as well as a minimum tangible net worth requirement. The Company was in compliance with the financial covenants as of March 31, 2019. The Amended and Restated Credit Agreement also contains certain events of default, and if they occur, may cause KeyBank to terminate the Amended and Restated Credit Agreement and declare amounts owed to become immediately due and payable. As of March 31, 2019, the Company has not received any notice of default under the Amended and Restated Credit Agreement.

Revere Term Loan

On January 29, 2019, the Company entered into a Sixth Amendment to Loan Documents to the Revere Term Loan (the “Revere Sixth Amendment”). The Revere Sixth Amendment extended the maturity date to April 1, 2019 from February 1, 2019 and creates an additional “Exit Fee” of \$20 thousand.

As of March 31, 2019, the Revere Term Loan has been paid in full using proceeds from the following:

- \$323 thousand with proceeds from the sale of Jenks Plaza on January 11, 2019;
- \$30 thousand in conjunction with the sale of a Harbor Pointe parcel on February 7, 2019;
- \$300 thousand in monthly scheduled principal payments; and,
- \$406 thousand, the remaining principal balance and the \$20 thousand Exit Fee on March 29, 2019 from operating cash flows.

First National Bank Line of Credit

On January 11, 2019, the Company paid \$1.51 million on the First National Bank Line of Credit, the portion collateralized by Jenks Plaza, as detailed in Note 3.

Perimeter Square Refinance and Construction Loan

On January 15, 2019, the Company renewed the promissory notes for \$6.25 million and \$247 thousand at Perimeter Square. The loans mature in March 2019 with interest only payments beginning February 15, 2019. The loans bear interest at 6.50%. See Note 12 regarding extension of loan subsequent to March 31, 2019.

Harbor Pointe

On February 7, 2019, the principal balance on the Harbor Pointe loan was paid in full with the sale of a 1.28 acre parcel located at the property, as detailed in Note 3.

Graystone Crossing

On March 18, 2019, the principal balance on the Graystone Crossing loan was paid in full with the sale of the property, as detailed in Note 3.

Loan Covenants

Certain of the Company's loans payable have covenants with which the Company is required to comply. As of March 31, 2019, the Company believes it is in compliance with covenants and is not considered in default on any loans.

Debt Maturity

The Company's scheduled principal repayments on indebtedness as of March 31, 2019, including assets held for sale, are as follows (in thousands, unaudited):

For the remaining nine months ended December 31, 2019	\$83,751
December 31, 2020	22,138
December 31, 2021	10,554
December 31, 2022	8,075
December 31, 2023	84,900
December 31, 2024	43,537
Thereafter	106,971
Total principal repayments and debt maturities	\$359,926

We have considered our short-term (one year or less) liquidity needs and the adequacy of our estimated cash flows from operating activities and other expected financing sources to meet these needs. In particular, we have considered our scheduled debt maturities and principal payments for the year ended March 31, 2020 of \$90.83 million, including \$51.25 million on the KeyBank Line of Credit which is collateralized by ten properties within our portfolio. The Company plans to pay this obligation through a combination of refinancings, dispositions and operating cash. The KeyBank Line of Credit may be extended at the Company's option for an additional one year period, subject to certain customary conditions. The \$6.50 million in Perimeter Square loans will be paid upon sale of the center, see subsequent events Note 12. The Senior convertible notes and DF I-Moyock loans fully amortize through their respective maturities. All loans due to mature are collateralized by properties within our portfolio. Additionally, the Company expects to meet the short-term liquidity requirements, through a combination of the following:

- suspension of Series A Preferred, Series B Preferred and Series D Preferred dividends;
- available cash and cash equivalents;
- cash flows from operating activities;

refinancing of maturing debt; and
intended sale of six undeveloped land parcels and sale of additional properties, if necessary.

Management is currently working with lenders to refinance certain properties off of the KeyBank Line of Credit in an effort to reduce the balance prior to maturity. The loans are expected to have customary interest rates similar to current loans. They are subject to formal lender commitment, definitive documentation and customary conditions.

8. Equity and Mezzanine Equity

Series A Preferred Stock

At March 31, 2019 and December 31, 2018, the Company had 562 shares of Series A Preferred Stock, without par value (“Series A Preferred”) issued and outstanding and 4,500 shares authorized with a \$1,000 liquidation preference per share, or \$562 thousand in aggregate. The Series A Preferred accrues cumulative dividends at a rate of 9% per annum, which is paid quarterly. The Company has the right to redeem the 562 shares of Series A Preferred, on a pro rata basis, at any time at a price equal to 103% of the purchase price for the Series A Preferred plus any accrued but unpaid dividends.

Series B Preferred Stock

At March 31, 2019 and December 31, 2018, the Company had 1,875,748 shares and 5,000,000 shares of Series B Convertible Preferred Stock, without par value (“Series B Preferred”) issued and authorized with a \$25.00 liquidation preference per share, or \$46.90 million in aggregate. The Series B Preferred bears interest at a rate of 9% per annum. The Series B Preferred has no redemption rights. However, the Series B Preferred is subject to a mandatory conversion once the 20-trading day volume-weighted average closing price of our Common Stock, exceeds \$58 per share; once this weighted average closing price is met, each share of our Series B Preferred will automatically convert into shares of our Common Stock at a conversion price equal to \$40.00 per share of Common Stock. In addition, holders of our Series B Preferred also have the option, at any time, to convert shares of our Series B Preferred into shares of our Common Stock at a conversion price of \$40.00 per share of Common Stock. Upon any voluntary or involuntary liquidation, dissolution or winding up of our company, the holders of shares of our Series B Preferred shall be entitled to be paid out of our assets a liquidation preference of \$25.00 per share, plus an amount equal to all accumulated, accrued and unpaid dividends to and including the date of payment. The Series B Preferred has no maturity date and will remain outstanding indefinitely unless subject to a mandatory or voluntary conversion as described above.

In conjunction with the 2014 issuance of Series B Preferred, 1,986,600 warrants were issued. Each warrant permitted investors to purchase 0.125 share of Common Stock at an exercise price of \$44 per share of Common Stock, subject to adjustment. The warrants expired on April 29, 2019.

Series D Preferred Stock - Redeemable Preferred Stock

At March 31, 2019 and December 31, 2018, the Company had 3,600,636 issued and 4,000,000 authorized shares of Series D Preferred with a \$25.00 liquidation preference per share, or \$94.40 million and \$91.98 million in aggregate, respectively. Until September 21, 2023, the holders of the Series D Preferred are entitled to receive cumulative cash dividends at a rate of 8.75% per annum of the \$25.00 liquidation preference per share (equivalent to the fixed annual amount of \$2.1875 per share) (the "Initial Rate"). Commencing September 21, 2023, the holders will be entitled to cumulative cash dividends at an annual dividend rate of the Initial Rate increased by 2% of the liquidation preference per annum on each subsequent anniversary thereafter, subject to a maximum annual dividend rate of 14%. Dividends are payable quarterly in arrears on or before January 15th, April 15th, July 15th and October 15th of each year. On or after September 21, 2021, the Company may, at

its option, redeem the Series D Preferred, for cash at a redemption price of \$25.00 per share, plus an amount equal to all accrued and unpaid dividends, if any, to and including the redemption date. The holder of the Series D Preferred may convert shares at any time into shares of the Company's Common Stock at an initial conversion rate of \$16.96 per share of Common Stock. On September 21, 2023, the holders of the Series D Preferred may, at their option, elect to cause the Company to redeem any or all of their shares at a redemption price of \$25.00 per share, plus an amount equal to all accrued and unpaid dividends, if any, to and including the redemption date, payable in cash or in shares of Common Stock, or any combination thereof, at the holder's option.

Dividends on the Series D Preferred cumulate from the end of the most recent dividend period for which dividends have been paid. Dividends on the Series D Preferred cumulate whether or not (i) we have earnings, (ii) there are funds legally available for the payment of such dividends and (iii) such dividends are authorized by our Board of Directors or declared by us. Dividends on the Series D Preferred Stock do not bear interest. If the Company, fails to pay any dividend within three (3) business days after the payment date for such dividend, the then-current dividend rate increases following the payment date by an additional 2.0% of the \$25.00 stated liquidation preference per share, or \$0.50 per annum, until we pay the dividend, subject to our ability to cure the failure. On December 20, 2018, the Company suspended the Series D Preferred dividend. As such, the Series D Preferred shares began accumulating dividends at 10.75% beginning January 1, 2019 and will continue to accumulate dividends at this rate until all accumulated dividends have been paid.

Holders of shares of the Series D Preferred have no voting rights. However, if dividends on the Series D Preferred are in arrears for six or more consecutive quarterly periods, the number of directors on our Board of Directors will automatically be increased by two, and holders of shares of the Series D Preferred and the holders of shares of Parity Preferred Stock upon which like voting rights have been conferred and are exercisable (voting together as a single class) will be entitled to vote, at a special meeting called upon the written request of the holders of at least 20% of such stock or at our next annual meeting and at each subsequent annual meeting of stockholders, for the election of two additional directors to serve on our Board of Directors, until all unpaid dividends on such Series D Preferred and Parity Preferred Stock, if any, have been paid or declared and a sum sufficient for the payment thereof set apart for payment. The Series D Preferred Directors will be elected by a plurality of the votes cast in the election. For the avoidance of doubt, the Board of Directors shall not be permitted to fill the vacancies on the Board of Directors as a result of the failure of the holders of 20% of the Series D Preferred Stock and Parity Preferred Stock to deliver such written request for the election of the Series D Preferred Directors.

The changes in the carrying value of the Series D Preferred for the three months ended as of March 31, 2019 and 2018 is as follows:

Earnings per share

Basic earnings per share for the Company's common shareholders is calculated by dividing income (loss) from continuing operations, excluding amounts attributable to preferred stockholders and the net income (loss) attributable to noncontrolling interests, by the Company's weighted-average shares of Common Stock outstanding during the period. Diluted earnings per share is computed by dividing the net income (loss) attributable to common shareholders, excluding amounts attributable to preferred shareholders and the net income (loss) attributable to noncontrolling interests, by the weighted-average number of common shares including any dilutive shares.

As of March 31, 2019, the below shares are able to be converted to Common Stock. The common units, convertible preferred stock, cumulative convertible preferred stock, and warrants have been excluded from the Company's diluted earnings per share calculation because their inclusion would be antidilutive.

2015 Long-Term Incentive Plan

On June 4, 2015, the Company's shareholders approved the 2015 Long-Term Incentive Plan (the "2015 Incentive Plan"). The 2015 Incentive Plan allows for issuance of up to 125,000 shares of the Company's Common Stock to employees, directors, officers and consultants for services rendered to the Company. The 2015 Incentive Plan replaced the 2012 Stock Incentive Plan ("Stock Incentive Plan").

As of March 31, 2019, there are 41,104 shares available for issuance under the Company's 2015 Incentive Plan. There were no shares issued during the three months ended March 31, 2019 and 2018.

9. Leases Commitments

The Company has ground leases and an administrative office lease, both of which are accounted for as operating leases. Most leases include one or more options to renew, with renewal terms that can extend the lease term from 5 to 50 years. The following properties are subject to leases which require the Company to make fixed annual rental payments and variable lease payments, which are immaterial and include escalation clauses and renewal options as follows (unaudited, in thousands):

10. Commitments and Contingencies

Insurance

The Company carries comprehensive liability, fire, extended coverage, business interruption and rental loss insurance covering all of the properties in its portfolio under a blanket insurance policy, in addition to other coverages, such as trademark and pollution coverage that may be appropriate for certain of its properties. Additionally, the Company carries a directors', officers', entity and employment practices liability insurance policy that covers such claims made against the Company and its directors and officers. The Company believes the policy specifications and insured limits are appropriate and adequate for its properties given the relative risk of loss, the cost of the coverage and industry practice; however, its insurance coverage may not be sufficient to fully cover its losses.

Concentration of Credit Risk

The Company is subject to risks incidental to the ownership and operation of commercial real estate. These risks include, among others, the risks normally associated with changes in the general economic climate, trends in the retail industry, creditworthiness of tenants, competition for tenants and customers, changes in tax laws, interest rates, the availability of financing and potential liability under environmental and other laws.

The Company's portfolio of properties is dependent upon regional and local economic conditions and is geographically concentrated in the Northeast, Mid-Atlantic, Southeast and Southwest, which markets represented approximately 4%, 19%, 76% and 1%, respectively, of the total annualized base rent of the properties in its portfolio as of March 31, 2019. The Company's geographic concentration may cause it to be more susceptible to adverse developments in those markets than if it owned a more geographically diverse portfolio. Additionally, the Company's retail shopping center properties depend on anchor stores or major tenants to attract shoppers and could be adversely affected by the loss of, or a store closure by, one or more of these tenants.

Regulatory and Environmental

As the owner of the buildings on our properties, the Company could face liability for the presence of hazardous materials (e.g., asbestos or lead) or other adverse conditions (e.g., poor indoor air quality) in its buildings. Environmental laws govern the presence, maintenance, and removal of hazardous materials in buildings, and if the

Company does not comply with such laws, it could face fines for such noncompliance. Also, the Company could be liable to third parties (e.g., occupants of the buildings) for damages related to exposure to hazardous materials or adverse conditions in its buildings, and the Company could incur material expenses with respect to abatement or remediation of hazardous materials or other adverse conditions in its buildings. In addition, some of the Company's tenants routinely handle and use hazardous or regulated substances and wastes as part of their operations at our properties, which are subject to regulation. Such environmental and health and safety laws and regulations could subject the Company or its tenants to liability resulting from these activities. Environmental liabilities could affect a tenant's ability to make rental payments to the Company, and changes in laws could increase the potential liability for noncompliance. This may result in significant unanticipated expenditures or may otherwise materially and adversely affect the Company's operations. The Company is not aware of any material contingent liabilities, regulatory matters or environmental matters that may exist.

10. Commitments and Contingencies (continued)

Litigation

The Company is involved in various legal proceedings arising in the ordinary course of its business, including, but not limited to commercial disputes. The Company believes that such litigation, claims and administrative proceedings will not have a material adverse impact on its financial position or its results of operations. The Company records a liability when it considers the loss probable and the amount can be reasonably estimated. In addition, the below legal proceedings are in process.

In May 2018, former Chief Executive Officer and President Jon S. Wheeler filed suit against the Company in the Circuit Court for the City of Virginia Beach, Virginia, asserting claims for breaches of his employment agreement with the Company and retaliatory termination. The Company is vigorously defending the claims set forth in the lawsuit. The non-jury trial of the lawsuit was scheduled for April 17-18, 2019, but was continued over the Company's objections. The new trial date is December 17-18, 2019. At this juncture, the outcome of the matter cannot be predicted.

On or about June 28, 2018, JCP Investment Partnership, LP and JCP Investment Partnership II, Master Fund LP filed suit against the Company in the Circuit Court for Baltimore County, Maryland, alleging the Company failed to maintain the designated asset coverage ratio under the Articles Supplementary governing the issuance of the Company's Series D Preferred Stock, and is therefore required to redeem those Preferred Shares at the price of \$25.00 per share. The Company has filed an answer denying liability and, the parties are engaging in discovery. Trial has been scheduled for March 2-6, 2020. At this early juncture, the outcome of the matter cannot be predicted.

In September, 2018, former Chief Executive Officer and President Jon S. Wheeler filed claims for defamation and tortious interference with contract expectancy, prospective business relationships and economic advantage in the Circuit Court for the City of Virginia Beach, Virginia, asserting current CEO and President David Kelly defamed him in communications with an industry association. The Company's D&O carrier has retained counsel for Mr. Kelly, who is vigorously defending the lawsuit. The parties are presently engaging in discovery. At this juncture, the outcome of the matter cannot be predicted.

In April, 2019, BOKF, N.A. (Bank of Arkansas) filed suit against WD-I Associates, LLC, Jon S. Wheeler and the Company's subsidiary - Wheeler Real Estate, LLC in the Court of Common Pleas for Beaufort County, South Carolina. The lawsuit alleges that WD-I and Jon S. Wheeler are in default as to certain construction loans made by BOKF to WD-I Associates, LLC, which Jon Wheeler personally guaranteed. The Complaint seeks approximately \$21.00 million in damages for the defaults. Wheeler Real Estate, LLC is named as a nominal defendant, only for purposes of providing an accounting for that period in which it served as the management company for WD-I Associates. Subsidiaries of the Company loaned \$11.00 million and \$1.00 million, respectively, to WD-I, and both those loans are also in default. Wheeler Real Estate, LLC will shortly file its response to the Complaint. At this early juncture, we express no opinion as to the outcome of this matter, but no damages are sought from Wheeler Real Estate, LLC.

Harbor Pointe Tax Increment Financing

On September 1, 2011, the Grove Economic Development Authority issued the Grove Economic Development Authority Tax Increment Revenue Note, Taxable Series 2011 in the amount of \$2,415,000, bearing a variable interest rate of 2.29%, not to exceed 14% and payable in 50 semi-annual installments. The proceeds of the bonds were to

provide funding for the construction of public infrastructure and other site improvements and to be repaid by incremental additional property taxes generated by development. Harbor Pointe Associates, LLC, then owned by an affiliate of Jon Wheeler, entered into an Economic Development Agreement with the Grove Economic Development Authority for this infrastructure development and in the event the ad valorem taxes were insufficient to cover annual debt service, Harbor Pointe Associates, LLC would reimburse the Grove Economic Development Authority (the "Agreement"). In 2014, Harbor Pointe Associates, LLC was acquired by the Company.

The total debt service shortfall over the life of the bond is uncertain as it is based on ad valorem taxes, assessed property values, property tax rates, LIBOR and future potential development ranging until 2036. The Company's future total principal obligation under the Agreement will be no more than \$2.28 million, the principal amount of the bonds, as of March 31, 2019. In addition, the Company may have an interest obligation on the note based on the principal balance and LIBOR rates in effect at future payment dates. During the three months ended March 31, 2019 and 2018, the Company did not fund any debt service shortfalls. No amounts have been accrued for this as of March 31, 2019 as a reasonable estimate of future debt service shortfalls cannot be determined based on variables noted above.

11. Related Party Transactions

The following summarizes related party activity for the three months ended March 31, 2019 and 2018 and as of March 31, 2019 and December 31, 2018. The amounts disclosed below reflect the activity between the Company and its affiliates (in thousands).

	March 31, 2019 2018 (unaudited)	
Amounts paid to affiliates	\$ —	\$ 8
Amounts received from affiliates	\$ 6	\$ 87
	March 31, December 31, 2019 2018 (unaudited)	
Notes receivable	\$ 5,000	\$ 5,000

As discussed in Note 4, the Company loaned \$11.00 million for the partial funding of Pineland Station Shopping Center in Hilton Head, South Carolina to be known in the future as Sea Turtle Development and loaned \$1.00 million for the sale of land to be used in the development. As of March 31 2019, the Company in total has recognized \$7.00 million in impairment charges on the notes receivable reducing the carrying value to \$5.00 million, as discussed in greater detail in Note 4. The Company has placed the notes receivable on nonaccrual status and has not recognized \$355 thousand of interest income due on the notes for the three months ended March 31, 2019 and 2018. In February 2018, the Company's agreement to perform development, leasing, property and asset management services for Sea Turtle Development was terminated. Sea Turtle Development is a related party as Jon Wheeler, the Company's former CEO and shareholder of the Company, is the managing member. Prior to the termination of the agreements, development fees of 5% of hard costs incurred were due to the Company. Leasing, property and asset management fees were consistent with those charged for services provided to non-related properties. The Company recovered \$0 thousand and \$77 thousand in amounts due from related parties for the three months ended March 31, 2019 and 2018, respectively, which were previously reserved. The recovery is included in "asset management fees" on the condensed consolidated statements of operations. The total allowance on related party receivables at March 31, 2019 and December 31, 2018 is \$2.20 million. There were no additional reserves recorded for the three months ended March 31, 2019 and the year ended December 31, 2018.

12. Subsequent Events

Publicly Traded Warrants (CUSIP No.: 963025119) (NASDAQ: WHLRW)

On April 29, 2019, the 1,986,600 warrants exchangeable into 248,325 shares of Common Stock expired.

Perimeter Square

In April 2019, the Company executed a contract for the sale of Perimeter Square for \$7.43 million. It is expected to close in the second quarter of 2019. In addition, the Company extended the \$6.50 million in Perimeter Square loans to June 5, 2019.

JANAF

In April 2019, the Company absorbed an approximately 30,000 square foot outparcel at JANAF as a result of an unlawful detainer with a delinquent tenant, Mariner Finance, LLC.

12. Subsequent Events (continued)

KeyBank Line of Credit

On April 25, 2019, the Company entered into a First Amendment to the Amended and Restated Credit Agreement (the "First Amendment"). In conjunction with the First Amendment, the Company made a \$1.00 million principal payment on the KeyBank Line of Credit and will begin making monthly principal payments of \$250 thousand on May 1, 2019. The First Amendment, among other provisions, waives the Overadvance (as defined in the Amended and Restated Credit Agreement) and replaced the Borrowing Base Availability (as defined in the Amended and Restated Credit Agreement) with an interest coverage ratio. Additionally, the KeyBank Line of Credit shall be reduced to \$27.00 million by July 31, 2019, \$7.50 million by September 30, 2019 and the interest rate increases to Libor plus 350 basis points on August 31, 2019 if the outstanding balance is not below \$11.00 million.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion of our financial condition and results of operations in conjunction with our unaudited condensed consolidated financial statements and the notes thereto included in this Form 10-Q, along with the consolidated financial statements and the notes thereto and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our 2018 Form 10-K for the year ended December 31, 2018. For more detailed information regarding the basis of presentation for the following information, you should read the notes to the unaudited condensed consolidated financial statements included in this Form 10-Q.

This Form 10-Q contains forward-looking statements within the meaning of the federal securities laws, including discussion and analysis of our financial condition, anticipated capital expenditures required to complete projects, amounts of anticipated cash distributions to our shareholders in the future and other matters. These forward-looking statements are not historical facts but are the intent, belief or current expectations of our management based on its knowledge and understanding of our business and industry. Forward-looking statements are typically identified by the use of terms such as “may,” “will,” “should,” “potential,” “predicts,” “anticipates,” “expects,” “intends,” “plans,” “believes,” “estimates” or the negative of such terms and variations of these words and similar expressions, although not all forward-looking statements include these words. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. Forward-looking statements that were true at the time made may ultimately prove to be incorrect or false. You are cautioned not to place undue reliance on forward-looking statements, which reflect our management’s view only as of the date of this Form 10-Q. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.

The forward-looking statements should be read in light of these factors and the factors identified in the “Risk Factors” sections in our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission (“SEC”) on February 28, 2019.

Total Revenue

Total revenue was \$16.00 million for the three months ended March 31, 2019 compared to \$16.29 million for the three months ended March 31, 2018 representing a decrease of \$298 thousand. The decrease of \$163 thousand in other revenues is primarily a result of early lease termination fees received during the three months ended March 31, 2018 on the Southeastern Grocers ("SEG") recaptures. The rent adjustments for certain SEG leases, sold properties and vacant anchor spaces attributed to the decrease in rental revenues which was partially offset by a full quarter of JANAF operations.

Total Operating Expenses

Total operating expenses for the three months ended March 31, 2019 were \$12.38 million representing a decrease of \$2.24 million over the three months ended March 31, 2018. The decrease of \$1.66 million noted in depreciation and amortization is a result of the write-off of lease intangibles from early terminations of leases in 2018.

Corporate general and administrative expenses for the three months ended March 31, 2019 decreased \$694 thousand as a result of the following:

- \$313 thousand decrease in compensation and benefits primarily driven by the decrease in employee share based compensation and severance;

31

\$246 thousand decrease in professional fees associated with hiring of KeyBanc Advisors in 2018, SOX internal audit compliance and legal costs due to insurance reimbursement; and \$103 thousand decrease in taxes and licenses.

Gain on Disposal of Properties

The gain on disposal of properties increase of \$784 thousand for the three months ended March 31, 2019 is a result of the 2019 sales of Jenks Plaza and Graystone Crossing, net of the 2018 sale of the Chipotle ground lease at Conyers Crossing.

Interest Expense

Interest expense for the three months ended March 31, 2019 was \$4.79 million representing an increase of \$216 thousand over the three months ended March 31, 2018. The increase is primarily attributable to a full quarter of interest expense on JANAF accompanied by increases in LIBOR on variable rate debt and refinancing of properties on the KeyBank Line of Credit to higher fixed rate loans in 2018.

Same Store and New Store Operating Income

Net operating income (“NOI”) is a widely-used non-GAAP financial measure for REITs. The Company believes that NOI is a useful measure of the Company's property operating performance. The Company defines NOI as property revenues (rental and other revenues) less property and related expenses (property operation and maintenance and real estate taxes). Because NOI excludes general and administrative expenses, depreciation and amortization, interest expense, interest income, provision for income taxes, gain or loss on sale or capital expenditures and leasing costs, it provides a performance measure, that when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate properties and the impact to operations from trends in occupancy rates, rental rates and operating costs, providing perspective not immediately apparent from net income. The Company uses NOI to evaluate its operating performance since NOI allows the Company to evaluate the impact of factors, such as occupancy levels, lease structure, lease rates and tenant base, have on the Company's results, margins and returns. NOI should not be viewed as a measure of the Company's overall financial performance since it does not reflect general and administrative expenses, depreciation and amortization, involuntary conversion, interest expense, interest income, provision for income taxes, gain or loss on sale or disposition of assets, and the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties. Other REITs may use different methodologies for calculating NOI, and accordingly, the Company's NOI may not be comparable to that of other REITs.

The following table is a reconciliation of same store and new store NOI from the most directly comparable GAAP financial measure of net income (loss). Same stores consist of those properties owned during all periods presented in their entirety, while new stores consist of those properties acquired during the periods presented. The new store category represents the JANAF acquisition that occurred in January 2018 and there were no 2019 acquisitions.

Property Revenues

Total same store property revenues for the three months months ended March 31, 2019 decreased to \$13.22 million compared to \$13.87 million for the three months ended March 31, 2018. The \$650 thousand decrease is primarily a result of rent modifications to certain 2018 SEG leases, reduced rent at the three SEG recaptured and backfilled locations, incremental vacancies as well as the impact from properties that were sold during the year.

The three months ended March 31, 2019 represents a full period of activity for JANAF shopping center. This property (new stores) contributed \$2.72 million in revenues for the three months ended March 31, 2019 compared to \$2.28 million for the three months ended March 31, 2018.

Property Expenses

Total same store property expenses for the three months ended March 31, 2019 were relatively flat at \$3.93 million compared to \$3.97 million for the three months ended March 31, 2018. Total property expenses increased primarily due to new store increases of \$166 thousand.

There were no significant unusual or non-recurring items included in new store property expenses for the three months ended March 31, 2019 and 2018.

Property Net Operating Income

Total property net operating income was \$11.21 million for the three months ended March 31, 2019 compared to \$11.56 million for the three months ended March 31, 2018, respectively, representing a decrease of \$341 thousand. Same stores accounted for a \$611 thousand decrease partially offset by the additional \$270 thousand in property NOI provided by new stores.

Funds from Operations (FFO)

We use FFO, a non-GAAP measure, as an alternative measure of our operating performance, specifically as it relates to results of operations and liquidity. We compute FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999, April 2002 and December 2018). As defined by NAREIT, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus real estate related depreciation and amortization (excluding amortization of loan origination costs), plus impairment of goodwill, impairment of real estate related long-lived assets and after adjustments for unconsolidated partnerships and joint ventures. Most industry analysts and equity REITs, including us, consider FFO to be an appropriate supplemental measure of

operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company's real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using GAAP net income alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while historically real estate values have risen or fallen with market conditions. Accordingly, we believe FFO provides a valuable alternative measurement tool to GAAP when presenting our operating results.

Below is a comparison of same and new store FFO, which is a non-GAAP measurement, for the three month periods ended March 31, 2019 and 2018:

	Three Months Ended March 31,						Period Over Period Changes	
	Same Store		New Store		Total		\$	%
	2019	2018	2019	2018	2019	2018		
	(in thousands, unaudited)							
Net Income (Loss)	\$633	\$(1,932)	\$22	\$60	\$655	\$(1,872)	\$ 2,527	134.99 %
Depreciation and amortization of real estate assets	4,743	6,495	1,073	981	5,816	7,476	(1,660)	(22.20)%
Gain on disposal of properties	(1,839)	(1,055)	—	—	(1,839)	(1,055)	(784)	(74.31)%
FFO	\$3,537	\$3,508	\$1,095	\$1,041	\$4,632	\$4,549	\$ 83	1.82 %

Total FFO increased \$83 thousand for the three month period ended March 31, 2019 compared to the same period in 2018, primarily due to incremental new store FFO of \$54 thousand resulting from a full quarter of JANAF activity and \$29 thousand increase in same store FFO.

We believe the computation of FFO in accordance with NAREIT's definition includes certain items that are not indicative of the results provided by our operating portfolio and affect the comparability of our period-over-period performance. These items include, but are not limited to, legal settlements, non-cash share-based compensation expense, non-cash amortization on loans and acquisition costs. Therefore, in addition to FFO, management uses Adjusted FFO ("AFFO"), which we define to exclude such items. Management believes that these adjustments are appropriate in determining AFFO as they are not indicative of the operating performance of our assets. In addition, we believe that AFFO is a useful supplemental measure for the investing community to use in comparing us to other REITs as many REITs provide some form of adjusted or modified FFO. However, there can be no assurance that AFFO presented by us is comparable to the adjusted or modified FFO of other REITs.

Total AFFO for the three month periods ended March 31, 2019 and 2018 is shown in the table below:

	Three Months Ended March 31,	
	2019	2018

Recurring capital expenditures and tenant improvement reserves	(284)	(290)
AFFO	\$1,064	\$1,966

Other nonrecurring and non-cash expenses are severance costs we believe will not be incurred on a go forward basis.

The preferred stock accretion adjustments represent the amortization of offering costs associated with raising the Series B Preferred Stock and Series D Preferred Stock.

AFFO for the three months ended March 31, 2019 was \$1.06 million compared to \$1.97 million for the three months ended March 31, 2018 a decrease of \$902 thousand. The decrease was driven by the increase in Preferred Dividends of \$450 thousand related to the increased dividend rate on the Preferred Series D in 2019, the decrease of \$341 thousand in property NOI, the increase in interest expense of \$203 thousand, net loan amortization; offset by a decrease in corporate general & administrative.

Liquidity and Capital Resources

At March 31, 2019, our consolidated cash, cash equivalents and restricted cash totaled \$18.61 million compared to consolidated cash, cash equivalents and restricted cash of \$18.00 million at December 31, 2018. Cash flows from operating activities, investing activities and financing activities for the three month periods ended March 31, 2019 and 2018 were as follows:

	Three Months Ended March 31,		Period Over Period Change	
	2019	2018	\$	%
	(in thousands, unaudited)			
Operating activities	\$2,697	\$6,474	\$(3,777)	(58.34)%
Investing activities	\$3,318	\$(23,465)	\$26,783	114.14 %
Financing activities	\$(5,409)	\$22,051	\$(27,460)	(124.53)%

Operating Activities

During the three months ended March 31, 2019, our cash flows from operating activities were \$2.70 million, compared to cash flows from operating activities of \$6.47 million during the three months ended March 31, 2018, representing a decrease of \$3.78 million. This decrease is primarily a result of same store decreases in property NOI of

\$611 thousand and reduction of accounts payable, accrued expenses and other liabilities of \$2.15 million in addition to timing of receivables and deferred costs.

Investing Activities

During the three months ended March 31, 2019, our cash flows provided by investing activities were \$3.32 million, compared to cash flows used in investing activities of \$23.47 million during the three months ended March 31, 2018, representing an increase in cash provided of \$26.78 million due to the following:

- \$23.15 million in cash outflows used for the acquisition of JANAF in 2018;
- \$1.19 million decrease in cash outflows used for capital expenditures primarily a result of the redevelopment of Columbia Fire House as well as Perimeter Centre tenant improvements in 2018; and
- \$2.44 million increase in cash received as a result of the 2019 sales of Jenks Plaza, Graystone and Harbor Pointe land parcel, compared to the 2018 sale of the Chipotle ground lease at Conyers Crossing.

Financing Activities

During the three months ended March 31, 2019, our cash flows used in financing activities were \$5.41 million, compared to \$22.05 million of cash flows provided by financing activities during the three months ended March 31, 2018, representing a decrease of \$27.46 million due to the following:

- \$21.16 million decrease in proceeds from sale of preferred stock due to the 2018 Series D Preferred offering;
- \$7.40 million decrease in loan proceeds due to the \$6.50 million JANAF Bravo Loan and \$903 thousand Columbia Fire House Construction Loan advances occurring in 2018;
- \$4.50 million increase in loan principal payments primarily a result of the pay off of the Revere Term Loan and pay-down of Senior Convertible Notes and the KeyBank Line of Credit;
- \$5.48 million decrease in cash outflows for dividends and distributions primarily as a result of suspending the Preferred Stock dividends in 2019.

We intend to continue managing our debt prudently so as to maintain a conservative capital structure and minimize leverage within our company. As of March 31, 2019 and December 31, 2018, our debt balances, excluding unamortized debt issuance costs, consisted of the following (in thousands):

	March 31, 2019	December 31, 2018
	(unaudited)	
Fixed-rate notes	\$ 277,343	\$ 286,611
Adjustable-rate mortgages	24,791	26,503
Fixed-rate notes, assets held for sale	6,540	4,396
Floating-rate line of credit	51,252	52,102
Total debt	\$ 359,926	\$ 369,612

The weighted-average interest rate and term of our fixed-rate debt including assets held for sale are 4.74% and 5.01 years, respectively, at March 31, 2019. We have \$83.75 million of debt maturing, including scheduled principal repayments, during the nine months ending December 31, 2019. While we anticipate being able to refinance our maturing loans at reasonable market terms upon maturity, our inability to do so may materially impact our financial position and results of operations. See Note 6 included in this Form 10-Q for additional mortgage indebtedness details.

Future Liquidity Needs

The primary liquidity needs of the Company, in addition to the funding of our ongoing operations, at March 31, 2019 are \$90.83 million in debt maturities and principal payments due in the twelve months ended March 31, 2020 and covenant requirements as detailed in our Amended and Restated Credit Agreement as described in Note 6. Included in the \$90.83 million is \$51.25 million on the KeyBank Line of Credit. The KeyBank Line of Credit is collateralized by ten properties within our portfolio. Subsequent to March 31, 2019, the Company made an additional \$1.00 million principal payment on the KeyBank Line of Credit and entered into an agreement with KeyBank to begin making monthly principal payments of \$250 thousand in addition to lowering the amount borrowed on the KeyBank Line of

Credit by certain dates. The Company plans to meet these deadlines through monthly principal payments, refinances and sales of properties. In addition, the Key Bank Line of Credit may be extended at the Company's option for an additional one year period, subject to certain customary conditions. Subsequent to March 31, 2019, the \$6.50 million in Perimeter Square loans were extended to June 2019. The Company has a contract to sell the Perimeter Square property and the loans will be paid off upon the sale. Additionally, \$735 thousand in maturing debt fully

amortizes through regularly scheduled principal payments. Management intends to refinance the \$21.97 million Rivergate loan, maturing in December 2019.

In addition to liquidity required to fund debt payments we may incur some level of capital expenditures during the year for our existing properties that cannot be passed on to our tenants. The majority of these expenditures occur subsequent to acquiring a new property that requires significant improvements to maximize occupancy and lease rates, with an existing property that needs a facelift to improve its marketability or when tenant improvements are required to make a space fit a particular tenant's needs.

To meet these future liquidity needs, the Company had \$4.16 million in cash and cash equivalents, \$14.45 million held in lender reserves for the purpose of tenant improvements, lease commissions, real estate taxes and insurance at March 31, 2019 and intends to use cash generated from operations during the year ending March 31, 2020. In addition, the Board suspended Series A Preferred, Series B Preferred and Series D Preferred dividend payments beginning with the fourth quarter 2018 dividend. The Board plans to revisit the dividend payment policy with respect to the Series A Preferred, Series B Preferred and Series D Preferred on an ongoing basis. The Board believes that the dividend suspension will provide the Company with additional funds to meet its ongoing liquidity needs, approximately (\$3.49 million a quarter).

Additionally, the Company plans to undertake measures to grow its operations and increase liquidity through backfilling vacant anchor spaces, replacing tenants who are in default of their lease terms, increasing future lease revenue through tenant improvements partially funded by restricted cash, disposition of assets and refinancing properties.

Our success in refinancing the debt, and executing on our strategy will dictate our liquidity needs going forward. If we are unable to execute in these areas, our ability to grow and reinstate dividends may be limited without additional capital.

Off-Balance Sheet Arrangements

As of March 31, 2019, we have no off-balance sheet arrangements that are likely to have a material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital resources or capital expenditures.

On September 1, 2011, the Grove Economic Development Authority issued the Grove Economic Development Authority Tax Increment Revenue Note, Taxable Series 2011 in the amount of \$2,415,000, bearing a variable interest rate of 2.29%, not to exceed 14% and payable in 50 semi-annual installments. The proceeds of the bonds were to provide funding for the construction of public infrastructure and other site improvements and to be repaid by incremental additional property taxes generated by development. Harbor Pointe Associates, LLC, then owned by an affiliate of Jon Wheeler, entered into an Economic Development Agreement with the Grove Economic Development Authority for this infrastructure development and in the event the ad valorem taxes were insufficient to cover annual debt service, Harbor Pointe Associates, LLC would reimburse the Grove Economic Development Authority (the "Agreement"). In 2014, Harbor Pointe Associates, LLC was acquired by the Company.

The total debt service shortfall over the life of the bond is uncertain as it is based on ad valorem taxes, assessed property values, property tax rates, LIBOR and future potential development ranging until 2036. The Company's future total principal obligation under the Agreement will be no more than \$2.28 million, the principal amount of the bonds, as of March 31, 2019. In addition, the Company may have an interest obligation on the note based on the principal balance and LIBOR rates in effect at future payment dates. During the three months ended March 31, 2019 and 2018, the Company did not fund any debt service shortfalls. No amounts have been accrued for this as of March 31, 2019 as a reasonable estimate of future debt service shortfalls cannot be determined based on variables noted above.

Recent Accounting Pronouncements

See Note 2 to the condensed consolidated financial statements beginning on page 7 of this Current Report on Form 10-Q, this note provides a description of the accounting standard adopted for leases, ASU 2016-02, "Leases (Topic 842)".

Critical Accounting Policies

In preparing the condensed consolidated financial statements, we have made estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reported periods. Actual results may differ from these estimates. A summary of our critical accounting policies is included in our 2018 Form 10-K under "Management's Discussion and Analysis of Financial Condition and Results of Operations." There have been no significant changes to these policies during the three months ended March 31, 2019, with the exception of those policies surrounding our lessee and lessor activities, These policy

changes were made as part of adopting ASU 2016-02, "Leases (Topic 842)." The most significant impact of adoption was the recognition of ROU assets and lease liabilities of approximately \$11.90 million and \$11.99 million, respectively, for operating leases which the Company is the lessee as of January 1, 2019. The policy changes had no impact on our cash flows and an immaterial impact on the condensed consolidated statement of operations. For additional disclosure regarding recent accounting pronouncements and the anticipated impact they will have on our operations, please refer to Note 2 of the condensed consolidated financial statements included in this Form 10-Q. Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The management of the Trust or the Company, under the supervision and with the participation of our principal executive and financial officers, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such information is accumulated and communicated to the Trust's management, as appropriate, to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of March 31, 2019 (the end of the period covered by this Form 10-Q).

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

In May 2018, former Chief Executive Officer and President Jon S. Wheeler filed suit against the Company in the Circuit Court for the City of Virginia Beach, Virginia, asserting claims for breaches of his employment agreement with the Company and retaliatory termination. The Company is vigorously defending the claims set forth in the lawsuit. The non-jury trial of the lawsuit was scheduled for April 17-18, 2019, but was continued over the Company's objections. The new trial date is December 17-18, 2019. At this juncture, the outcome of the matter cannot be predicted.

On or about June 28, 2018, JCP Investment Partnership, LP and JCP Investment Partnership II, Master Fund LP filed suit against the Company in the Circuit Court for Baltimore County, Maryland, alleging the Company failed to maintain the designated asset coverage ratio under the Articles Supplementary governing the issuance of the Company's Series D Preferred Stock, and is therefore required to redeem those Preferred Shares at the price of \$25.00 per share. The Company has filed an answer denying liability and, the parties are engaging in discovery. Trial has been scheduled for March 2-6, 2020. At this early juncture, the outcome of the matter cannot be predicted.

In September, 2018, former Chief Executive Officer and President Jon S. Wheeler filed claims for defamation and tortious interference with contract expectancy, prospective business relationships and economic advantage in the Circuit Court for the City of Virginia Beach, Virginia, asserting current CEO and President David Kelly defamed him in communications with an industry association. The Company's D&O carrier has retained counsel for Mr. Kelly, who is vigorously defending the lawsuit. The parties are presently engaging in discovery. At this juncture, the outcome of the matter cannot be predicted.

In April, 2019, BOKF, N.A. (Bank of Arkansas) filed suit against WD-I Associates, LLC, Jon S. Wheeler and the Company's subsidiary - Wheeler Real Estate, LLC in the Court of Common Pleas for Beaufort County, South Carolina. The lawsuit alleges that WD-I and Jon S. Wheeler are in default as to certain construction loans made by BOKF to WD-I Associates, LLC, which Jon Wheeler personally guaranteed. The Complaint seeks approximately \$21.00 million in damages for the defaults. Wheeler Real Estate, LLC is named as a nominal defendant, only for purposes of providing an accounting for that period in which it served as the management company for WD-I Associates. Subsidiaries of the Company loaned \$11.00 million and \$1.00 million, respectively, to WD-I, and both those loans are also in default. Wheeler Real Estate, LLC will shortly file its response to the Complaint. At this early juncture, we express no opinion as to the outcome of this matter, but no damages are sought from Wheeler Real Estate, LLC.

In addition to the above, we are subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes the final outcome of such matters will not have a material adverse effect on our financial position, results of operation or liquidity.
