

Ryerson Holding Corp  
Form 10-Q  
August 09, 2016

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2016

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Commission File Number 001-34735

RYERSON HOLDING CORPORATION

(Exact name of registrant as specified in its charter)

DELAWARE 26-1251524  
(State or other jurisdiction of (I.R.S. Employer

incorporation or organization) Identification No.)

227 W. Monroe St., 27<sup>th</sup> Floor

Chicago, Illinois 60606

(Address of principal executive offices)

(312) 292-5000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer

Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

**APPLICABLE ONLY TO CORPORATE ISSUERS:**

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of August 8, 2016, there were 37,099,700 shares of Common Stock, par value \$0.01 per share, outstanding.

## RYERSON HOLDING CORPORATION AND SUBSIDIARY COMPANIES

## Notes to Condensed Consolidated Financial Statements (Unaudited)

## NOTE 1: FINANCIAL STATEMENTS

Ryerson Holding Corporation (“Ryerson Holding”), a Delaware corporation, is the parent company of Joseph T. Ryerson & Son, Inc. (“JT Ryerson”), a Delaware corporation. Affiliates of Platinum Equity, LLC (“Platinum”) own approximately 21,037,500 shares of our common stock, which is approximately 66% of our issued and outstanding common stock.

Ryerson Holding conducts materials distribution operations in the United States through JT Ryerson, in Canada through its indirect wholly-owned subsidiary Ryerson Canada, Inc., a Canadian corporation (“Ryerson Canada”) and in Mexico through its indirect wholly-owned subsidiary Ryerson Metals de Mexico, S. de R.L. de C.V., a Mexican corporation (“Ryerson Mexico”). In addition to our North American operations, we conduct materials distribution operations in China through Ryerson China Limited (“Ryerson China”). Unless the context indicates otherwise, Ryerson Holding, JT Ryerson, Ryerson Canada, Ryerson China, and Ryerson Mexico together with their subsidiaries, are collectively referred to herein as “Ryerson,” “we,” “us,” “our,” or the “Company.”

The following table shows our percentage of sales by major product lines for the three and six months ended June 30, 2016 and 2015, respectively:

Product Line	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Carbon Steel Flat	26 %	24 %	26 %	24 %
Carbon Steel Plate	10	11	10	11
Carbon Steel Long	14	15	14	16
Stainless Steel Flat	16	17	16	17
Stainless Steel Plate	4	4	4	4
Stainless Steel Long	4	3	4	3
Aluminum Flat	16	17	16	16
Aluminum Plate	3	3	3	3
Aluminum Long	5	4	5	4
Other	2	2	2	2
Total	100%	100 %	100%	100 %

Results of operations for any interim period are not necessarily indicative of results of any other periods or for the year. The condensed consolidated financial statements as of June 30, 2016 and for the three-month and six-month periods ended June 30, 2016 and 2015 are unaudited, but in the opinion of management include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of results for such periods. The year-end condensed consolidated balance sheet data contained in this report was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. These condensed consolidated financial statements should be read in conjunction with the consolidated financial

statements and related notes contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

NOTE 2: RECENT ACCOUNTING PRONOUNCEMENTS

Impact of Recently Issued Accounting Standards—Adopted

In April 2015, the FASB issued Accounting Standards Update (“ASU”) 2015-03, “Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs.” The update requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of the related debt liability instead of being presented as an asset. Debt disclosures will include the face amount of the debt liability and the effective interest rate. The update is effective for fiscal years beginning after December 15, 2015 and represents a change in accounting principle. In addition, this update requires retrospective application, which resulted in the reclassification of \$11.0 million of capitalized debt issuance costs from deferred charges and other assets to long-term debt at December 31, 2015.

In April 2015, the FASB issued ASU 2015-05, “Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement.” The amendments in this update provide guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, the update specifies that the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. The update further specifies that the customer should account for a cloud computing arrangement as a service contract if the arrangement does not include a software license. ASU 2015-05 is effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. We adopted this guidance for our fiscal year beginning January 1, 2016. The adoption of this guidance did not have an impact on our consolidated financial statements.

In September 2015, the FASB issued ASU 2015-16, “Business Combinations: Simplifying the Accounting for Measurement-Period Adjustments.” The amendment eliminates the requirement that an acquirer in a business combination account for measurement-period adjustments retrospectively. Instead the acquirer will recognize a measurement-period adjustment during the period in which it determines the amount of the adjustment. The update is effective for fiscal years beginning after December 15, 2015. We adopted this guidance for our fiscal year beginning January 1, 2016. The adoption of this guidance did not have a material impact on our consolidated financial statements on prior acquisitions.

In March 2016, the FASB issued ASU 2016-09, “Compensation – Stock Compensation: Improvements to Employee Share-Based Payment Accounting.” The amendment simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The update is effective for interim and annual periods beginning after December 15, 2016. Early adoption is permitted. We early adopted this guidance as of April 1, 2016. The adoption of this guidance did not have a material impact on our consolidated financial statements.

#### Impact of Recently Issued Accounting Standards—Not Yet Adopted

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers,” which creates Accounting Standards Codification (“ASC”) 606 “Revenue from Contracts with Customers” and supersedes the revenue recognition requirements in ASC 605 “Revenue Recognition.” The guidance in ASU 2014-09 and subsequently issued amendments (including ASU 2016-08, “Revenue from Contracts with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net)” and ASU 2016-10, “Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing”) outlines a comprehensive model for all entities to use in accounting for revenue arising from contracts with customers as well as required disclosures. Entities have the option of using either a full retrospective or modified approach to adopt the new guidance. The new revenue standard is effective for interim reporting periods within annual reporting periods beginning after December 15, 2017. Early adoption is permitted. We will adopt this guidance for our fiscal year beginning January 1, 2018. We are still assessing the impact of adoption on our consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, “Presentation of Financial Statements – Going Concern (Subtopic 205-40), Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern.” The guidance in ASU 2014-15 sets forth management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern as well as required disclosures. ASU 2014-15 indicates that, when preparing financial statements for interim and annual periods, management should evaluate whether conditions or events, in the aggregate, raise substantial doubt about the entity’s ability to continue as a going concern one year from the date the financial statements are issued or are available to be issued. This evaluation should include consideration of conditions and events that are either known or are reasonably knowable at the date the financial statements are issued or are available to be issued, as well as whether it is probable that management’s plans to address the substantial doubt will

be implemented and, if so, whether it is probable that the plans will alleviate the substantial doubt. ASU 2014-15 is effective for annual periods ending after December 15, 2016, and interim periods and annual periods thereafter. Early adoption is permitted. We will adopt this guidance for our fiscal year ending December 31, 2016. The adoption of this guidance is not expected to have an impact on our consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities." The amendments in ASU 2016-01 change the accounting for non-consolidated equity investments that are not accounted for under the equity method of accounting by requiring changes in fair value to be recognized in net income. Under current guidance, changes in fair value for investments of this nature are recognized in accumulated other comprehensive income as a component of stockholders' equity. Additionally, ASU 2016-01 simplifies the impairment assessment of equity investments without readily determinable fair values; requires entities to use the exit price when estimating the fair value of financial instruments; and modifies various presentation disclosure requirements for financial instruments. The amendments should be applied by means of a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. The amendments related to equity securities without readily determinable fair values (including disclosure requirements) should be applied prospectively to equity investments that exist as of the date of adoption. The update is effective for interim and annual reporting

periods beginning after December 15, 2017. Early adoption is permitted. We will adopt this guidance for our fiscal year beginning January 1, 2018. We are still assessing the impact of adoption on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, "Leases" codified in ASC 842, "Leases." The guidance requires that lessees will be required to recognize assets and liabilities on the balance sheet for the rights and obligations created by all leases with terms of more than 12 months. The amendment also will require disclosures designed to give financial statement users information on the amount, timing, and uncertainty of cash flows arising from leases. These disclosures include qualitative and quantitative information. The update is effective for interim and annual reporting periods beginning after December 15, 2018. Entities are required to use a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements, and have the option to use certain relief. Full retrospective application is prohibited. Early adoption is permitted. We will adopt this guidance for our fiscal year beginning January 1, 2019. We are still assessing the impact of adoption on our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-07, "Investments – Equity Method and Joint Ventures: Simplifying the Transition to the Equity Method of Accounting." The amendment eliminates the retroactive adjustments to an investment upon it qualifying for the equity method of accounting as a result of an increase in the level of ownership interest or degree of influence by the investor. ASU 2016-07 requires that the equity method investor add the cost of acquiring the additional interest in the investee to the current basis of the investor's previously held interest and adopt the equity method of accounting as of the date the investment qualifies for equity method accounting. The update is effective for interim and annual reporting periods beginning after December 15, 2016. Early adoption is permitted. We will adopt this guidance for our fiscal year beginning January 1, 2017, including interim periods within that reporting period. The adoption of this guidance is not expected to have a material impact on our consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments – Credit Losses: Measurement of Credit Losses on Financial Instruments." The amendment requires financial assets measured at amortized cost basis to be presented at the net amount expected to be collected, thus eliminating the probable initial recognition threshold and instead reflecting the current estimate of all expected credit losses. The amendment also requires that credit losses relating to available-for-sale debt securities be recorded through an allowance for credit losses rather than a write-down, thus enabling the ability to record reversals of credit losses in current period net income. The update is effective for interim and annual reporting periods beginning after December 15, 2019. An entity will apply the amendment through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective (that is, a modified-retrospective approach). A prospective transition approach is required for debt securities for which an other-than-temporary impairment had been recognized before the effective date. The effect of a prospective transition approach is to maintain the same amortized cost basis before and after the effective date of this Update. Early adoption is permitted only for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. We will adopt this guidance for our fiscal year beginning January 1, 2020. We are still assessing the impact of adoption on our consolidated financial statements.

## NOTE 3: INVENTORIES

The Company primarily uses the last-in, first-out (LIFO) method of valuing inventory. Interim LIFO calculations are based on actual inventory levels.

Inventories, at stated LIFO value, were classified at June 30, 2016 and December 31, 2015 as follows:

	June 30, December 31,	
	2016	2015
	(In millions)	
In process and finished products	\$599.9	\$ 555.8

If current cost had been used to value inventories, such inventories would have been \$142 million and \$122 million lower than reported at June 30, 2016 and December 31, 2015, respectively. Approximately 91% of inventories are accounted for under the LIFO method at June 30, 2016 and December 31, 2015. Non-LIFO inventories consist primarily of inventory at our foreign facilities using the weighted-average cost and the specific cost methods. Substantially all of our inventories consist of finished products.

Inventories are stated at the lower of cost or market value. We record amounts required, if any, to reduce the carrying value of inventory to its lower of cost or market as a charge to cost of materials sold. The lower of cost or market reserve totaled \$36.2 million and \$37.9 million at June 30, 2016 and December 31, 2015, respectively.

The Company has consignment inventory at certain customer locations, which totaled \$8.3 million and \$9.9 million at June 30, 2016 and December 31, 2015, respectively.

## NOTE 4: GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill, which represents the excess of cost over the fair value of net assets acquired, amounted to \$103.2 million at June 30, 2016 and December 31, 2015. Pursuant to ASC 350, “Intangibles – Goodwill and Other,” we review the recoverability of goodwill annually as of October 1 or whenever significant events or changes occur which might impair the recovery of recorded amounts. The most recently completed impairment test of goodwill was performed as of October 1, 2015, and it was determined that no impairment existed in 2015.

Other intangible assets with finite useful lives continue to be amortized over their useful lives. We review the recoverability of our long-lived assets whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable.

## NOTE 5: ACQUISITIONS

On August 3, 2015, the Company acquired all of the issued and outstanding capital stock of Southern Tool Steel, Inc. (“Southern Tool”). Southern Tool is a distributor of long products, predominantly processed bars and tool steel, and is based in Chattanooga, TN. The acquisition is not material to our consolidated financial statements.

## NOTE 6: LONG-TERM DEBT

Long-term debt consisted of the following at June 30, 2016 and December 31, 2015:

	June 30, 2016	December 31, 2015
	(In millions)	
Ryerson Credit Facility	\$330.1	\$ 272.2
9.00% Senior Secured Notes due 2017	—	569.9
11.25% Senior Notes due 2018	48.5	170.4
11.00% Senior Secured Notes due 2022	650.0	—
Foreign debt	18.5	22.0
Unamortized debt issuance costs and discounts	(18.7 )	(11.0 )
Total debt	1,028.4	1,023.5
Less: Short-term foreign debt	18.5	22.0
Total long-term debt	\$1,009.9	\$ 1,001.5

Ryerson Credit Facility

On July 24, 2015, Ryerson terminated its \$1.35 billion revolving credit facility agreement (the “Old Credit Facility”) and entered into a new \$1.0 billion revolving credit agreement (the “Ryerson Credit Facility”). Borrowings under the Ryerson Credit Facility were used to repay indebtedness under the Old Credit Facility. The Ryerson Credit Facility has a maturity date of the earlier of (a) July 24, 2020 or (b) 60 days prior to the stated maturity of any outstanding indebtedness with a principal amount of \$50,000,000 or more. As a result of the Ryerson Credit Facility, the Company recorded a \$2.9 million charge in the third quarter of 2015 to write-off a portion of the issuance costs associated with the Old Credit Facility.

At June 30, 2016, Ryerson had \$330.1 million of outstanding borrowings, \$16 million of letters of credit issued and \$219 million available under the Ryerson Credit Facility compared to \$272.2 million of outstanding borrowings, \$17 million of letters of credit issued and \$185 million available at December 31, 2015. Total credit availability is limited by the amount of eligible accounts receivable, inventory, and qualified cash pledged as collateral under the agreement insofar as Ryerson is subject to a borrowing base comprised of the aggregate of these three amounts, less applicable reserves. Eligible accounts receivable, at any date of determination, is comprised of the aggregate value of all accounts directly created by a borrower (and in the case of Canadian accounts, a Canadian guarantor) in the ordinary course of business arising out of the sale of goods or the rendering of services, each of which has been invoiced, with such receivables adjusted to exclude various ineligible accounts, including, among other things, those to which a borrower (or guarantor, as applicable) does not have sole and absolute title and accounts arising out of a sale to an employee, officer, director, or affiliate of a borrower (or guarantor, as applicable). Eligible inventory, at any date of determination, is comprised of the aggregate value of all inventory owned by a borrower (and in the case of Canadian accounts, a Canadian guarantor), with such inventory adjusted to exclude various ineligible inventory, including, among other things, (i) any inventory that is classified as “supplies” or is unsaleable in the ordinary course of business, (ii) 50% of the value of any inventory that (A) has not been sold or processed within a 180 day period and (B) which is calculated to have more than 365 days of supply based upon the immediately preceding 6 months consumption, and (iii) 50% of the value of inventory classified as partial inventory pieces on the basis that the inventory has been cut below sales lengths customary for such inventory. Qualified cash consists of cash in an eligible deposit account that is subject to customary restrictions and liens in favor of the lenders. The weighted average interest rate on the borrowings under the Ryerson Credit Facility was 2.3 percent and 2.1 percent at June 30, 2016 and December 31, 2015, respectively.

The \$1.0 billion Ryerson Credit Facility has an allocation of \$875 million to the Company’s subsidiaries in the United States and an allocation of \$125 million to Ryerson Holding’s Canadian subsidiary that is a borrower. Amounts outstanding under the Ryerson Credit Facility bear interest at (i) a rate determined by reference to (A) the base rate (the highest of the Federal Funds Rate plus 0.50%, Bank of America, N.A.’s prime rate and the one-month LIBOR rate plus 1.00%) or (B) a LIBOR rate or, (ii) for Ryerson Holding’s Canadian subsidiary that is a borrower, (A) a rate determined by reference to the Canadian base rate (the greatest of the Federal Funds Rate plus 0.50%, Bank of America-Canada Branch’s “base rate” for pricing loans in U.S. Dollars made at its “base rate” and the 30 day LIBOR rate plus 1.00%), (B) the prime rate (the greatest of the Bank of Canada overnight rate plus 0.50%, Bank of America-Canada Branch’s “prime rate” for commercial loans made by it in Canada in Canadian Dollars and the one-month Canadian bankers’ acceptance rate plus 1.00%) or (C) the bankers’ acceptance rate. The spread over the base rate and prime rate is between 0.25% and 0.75% and the spread over the LIBOR and for the bankers’ acceptances is between 1.25% and 1.75%, depending on the amount available to be borrowed under the Ryerson Credit Facility. Overdue amounts and all amounts owed during the existence of a default bear interest at 2% above the rate otherwise applicable thereto. Ryerson also pays commitment fees on amounts not borrowed at a rate of 0.25%.

Borrowings under the Ryerson Credit Facility are secured by first-priority liens on all of the inventory, accounts receivables, lockbox accounts and related assets of the borrowers and the guarantors.

The Ryerson Credit Facility also contains covenants that, among other things, restrict Ryerson and its restricted subsidiaries with respect to the incurrence of debt, the creation of liens, transactions with affiliates, mergers and consolidations, sales of assets and acquisitions. The Ryerson Credit Facility also requires that, if availability under the Ryerson Credit Facility declines to a certain level, Ryerson maintain a minimum fixed charge coverage ratio as of the end of each fiscal quarter, and includes defaults upon (among other things) the occurrence of a change of control of Ryerson and a cross-default to other financing arrangements.

The Ryerson Credit Facility contains events of default with respect to, among other things, default in the payment of principal when due or the payment of interest, fees and other amounts due thereunder after a specified grace period,

material misrepresentations, failure to perform certain specified covenants, certain bankruptcy events, the invalidity of certain security agreements or guarantees, material judgments and the occurrence of a change of control of Ryerson. If such an event of default occurs, the lenders under the Ryerson Credit Facility will be entitled to various remedies, including acceleration of amounts outstanding under the Ryerson Credit Facility and all other actions permitted to be taken by secured creditors.

The lenders under the Ryerson Credit Facility have the ability to reject a borrowing request if any event, circumstance or development has occurred that has had or could reasonably be expected to have a material adverse effect on the Company. If Ryerson Holding, JT Ryerson, any of the other borrowers or any restricted subsidiaries of JT Ryerson becomes insolvent or commences bankruptcy proceedings, all amounts borrowed under the Ryerson Credit Facility will become immediately due and payable.

Proceeds from borrowings under the Ryerson Credit Facility and repayments of borrowings thereunder that are reflected in the Condensed Consolidated Statements of Cash Flows represent borrowings under the Company's revolving credit agreement with original maturities greater than three months. Net proceeds (repayments) under the Ryerson Credit Facility represent borrowings under the Ryerson Credit Facility with original maturities less than three months.

2017, 2018 and 2022 Notes

On October 10, 2012, JT Ryerson issued \$300 million in aggregate principal amount of the 11.25% Senior Notes due 2018 (the “2018 Notes”). The remaining \$48.5 million of the 2018 Notes bears interest at a rate of 11.25% per annum. The 2018 Notes are fully and unconditionally guaranteed on a senior unsecured basis by all of our existing and future domestic subsidiaries that are co-borrowers or that have guarantee obligations under the Ryerson Credit Facility. The 2018 Notes are not secured.

The 2018 Notes became redeemable, in whole or in part, on October 15, 2015, at specified redemption prices. If a change of control occurs, JT Ryerson must offer to purchase the 2018 Notes at 101% of their principal amount, plus accrued and unpaid interest.

On May 24, 2016, JT Ryerson issued \$650 million in aggregate principal amount of the 2022 Notes (the “2022 Notes”). The 2022 Notes bear interest at a rate of 11.00% per annum. The 2022 Notes are fully and unconditionally guaranteed on a senior secured basis by all of our existing and future domestic subsidiaries that are co-borrowers or that have guarantee obligations under the Ryerson Credit Facility.

The net proceeds from the issuance of the 2022 Notes, along with borrowings under the Ryerson Credit Facility, was used to (i) repurchase and/or redeem in full the \$569.9 million balance of JT Ryerson’s 9.00% Senior Secured Notes due 2017 (the “2017 Notes”), plus accrued and unpaid interest thereon up to, but not including, the repayment date, (ii) repurchase \$95.0 million of the 2018 Notes, and (iii) pay related fees, expenses and premiums.

The Company applied the provisions of ASC 470-50, “Modifications and Extinguishments” in accounting for the issuance of the 2022 Notes, redemption of the 2017 Notes and partial repurchase of the 2018 Notes. The evaluation of the accounting under ASC 470-50 was performed on a creditor by creditor basis in order to determine if the terms of the debt were substantially different and, as a result, whether to apply modification or extinguishment accounting. For the lenders where it was determined that the terms of the debt were not substantially different, modification accounting was applied. For the remaining lenders, extinguishment accounting was applied. In connection with this debt modification and extinguishment, the Company recorded a \$15.7 million loss within other income and (expense), net on the Condensed Consolidated Statement of Comprehensive Income during 2016, primarily attributed to the costs incurred with third parties for arrangement fees, legal and other services related to the modified debt, as well as redemption fees paid to the creditors and unamortized debt issuance costs written off related to the extinguished debt. Additionally, the costs incurred with third parties for arrangement fees, legal and other services related to the extinguished debt and redemption fees paid to the creditors related to the modified debt were capitalized and are being amortized over the life of the modified debt using the effective interest method.

The 2022 Notes and the related guarantees are secured by a first-priority security interest in substantially all of JT Ryerson’s and each guarantor’s present and future assets located in the United States (other than receivables, inventory, money, deposit accounts and related general intangibles, certain other assets and proceeds thereof), subject to certain exceptions and customary permitted liens. The 2022 Notes and the related guarantees are also secured on a second-priority basis by a lien on the assets that secure JT Ryerson’s and the Company’s obligations under the Ryerson Credit Facility.

The 2022 Notes will be redeemable, in whole or in part, at any time on or after May 15, 2019 at certain redemption prices. The redemption price for the 2022 Notes if redeemed during the twelve months beginning (i) May 15, 2019 is 105.50%, (ii) May 15, 2020 is 102.75%, and (iii) May 15, 2021 and thereafter is 100.00%. JT Ryerson may redeem some or all of the 2022 Notes before May 15, 2019 at a redemption price of 100.00% of the principal amount, plus accrued and unpaid interest, if any, to the redemption date, plus a “make-whole” premium. In addition, JT Ryerson may redeem up to 35% of the 2022 Notes before May 15, 2019 with respect to the 2022 Notes with the net cash proceeds

from certain equity offerings at a price equal to 111.00%, with respect to the 2022 Notes, of the principal amount thereof, plus any accrued and unpaid interest, if any. JT Ryerson may be required to make an offer to purchase the 2022 Notes upon the sale of assets or upon a change of control.

The 2018 Notes and 2022 Notes contain customary covenants that, among other things, limit, subject to certain exceptions, our ability, and the ability of our restricted subsidiaries, to incur additional indebtedness, pay dividends on our capital stock or repurchase our capital stock, make investments, sell assets, engage in acquisitions, mergers or consolidations or create liens or use assets as security in other transactions. Subject to certain exceptions, JT Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset.

As of June 30, 2016, zero, \$48.5 million and \$650.0 million of the original outstanding principal amount of the 2017 Notes, 2018 Notes and 2022 Notes remain outstanding, respectively. The Company has repurchased and in the future may repurchase long-term notes in the open market.

During the first six months of 2016, a principal amount of \$27.0 million of the 2018 Notes were repurchased for \$18.2 million and retired, resulting in the recognition of an \$8.8 million gain within other income and (expense), net on the Condensed Consolidated Statement of Comprehensive Income. Including the \$15.7 million loss on the redemption of the \$569.9 million balance of the 2017 Notes and repurchase of \$95.0 million of the 2018 Notes, the Company recognized a total net loss of \$6.9 million within other income and (expense), net on the Condensed Consolidated Statement of Comprehensive Income during the first six months of 2016.

During the first six months of 2015, a principal amount of \$16.8 million of the 2017 Notes were repurchased for \$17.0 million and retired, resulting in the recognition of a \$0.2 million loss within other income and (expense), net on the Condensed Consolidated Statement of Comprehensive Income. During the first six months of 2015, a principal amount of \$28.3 million of the 2018 Notes were repurchased for \$28.8 million and retired, resulting in the recognition of a \$0.5 million loss within other income and (expense), net on the Condensed Consolidated Statement of Comprehensive Income.

#### Foreign Debt

At June 30, 2016, Ryerson China's foreign borrowings were \$18.4 million, which were owed to banks in Asia at a weighted average interest rate of 4.4% per annum and secured by inventory and property, plant and equipment. At December 31, 2015, Ryerson China's foreign borrowings were \$21.8 million, which were owed to banks in Asia at a weighted average interest rate of 4.3% per annum and secured by inventory and property, plant and equipment. Other foreign borrowings were \$0.1 million and \$0.2 million at June 30, 2016 and December 31, 2015, respectively.

Availability under the foreign credit lines was \$27 million and \$23 million at June 30, 2016 and December 31, 2015, respectively. Letters of credit issued by our foreign subsidiaries were \$1 million and \$2 million at June 30, 2016 and December 31, 2015, respectively.

#### NOTE 7: EMPLOYEE BENEFITS

The following table summarizes the components of net periodic benefit cost for the three and six months ended June 30, 2016 and 2015 for the Ryerson pension plans and postretirement benefits other than pension:

	Three Months Ended			
	June 30, Pension Benefits		Other Benefits	
	2016	2015	2016	2015
	(In millions)			
<b>Components of net periodic benefit (credit) cost</b>				
Service cost	\$1	\$—	\$—	\$—
Interest cost	7	10	—	1
Expected return on assets	(11)	(12)	—	—
Recognized actuarial (gain) loss	3	4	(2)	(2)
Net periodic benefit (credit) cost	\$—	\$2	\$(2)	\$(1)

	Six Months Ended			
	June 30, Pension Benefits		Other Benefits	
	2016	2015	2016	2015

Edgar Filing: Ryerson Holding Corp - Form 10-Q

	(In millions)			
Components of net periodic benefit (credit) cost				
Service cost	\$1	\$1	\$—	\$—
Interest cost	14	19	1	2
Expected return on assets	(22)	(24)	—	—
Prior service credit	—	—	—	(1 )
Recognized actuarial (gain) loss	6	7	(4)	(4 )
Amortization of prior service credit	—	—	(1)	—
Net periodic benefit (credit) cost	\$(1 )	\$3	\$(4)	\$(3 )

The Company has contributed \$10 million to the pension plan fund through the six months ended June 30, 2016 and anticipates that it will have a minimum required pension contribution funding of approximately \$12 million for the remaining six months of 2016.

NOTE 8: COMMITMENTS AND CONTINGENCIES

From time to time, we are named as a defendant in legal actions incidental to our ordinary course of business. We do not believe that the resolution of these claims will have a material adverse effect on our financial position, results of operations or cash flows. We maintain liability insurance coverage to assist in protecting our assets from losses arising from or related to activities associated with business operations.

In October 2011, the United States Environmental Protection Agency (the “EPA”) named us as one of more than 100 businesses that may be a potentially responsible party for the Portland Harbor Superfund Site (“Portland Harbor”). On February 9, 2016, the EPA published its Final Remedial Investigation Report. On June 8, 2016, the EPA published both the Draft Feasibility Study and associated Superfund Proposed Plan (“Proposed Plan”). The Proposed Plan includes a combination of dredging, capping and enhanced natural recovery that would take approximately seven years to construct plus additional time for monitored natural recovery, at an estimated overall cost of \$745.7 million. The public comment period on the Proposed Plan commenced on June 9, 2016, and is scheduled to close on September 6, 2016. The EPA has not yet allocated responsibility for the contamination among the potentially responsible parties, including JT Ryerson. We do not currently have sufficient information available to us to determine whether the Proposed Plan will be executed as currently proposed, whether and to what extent JT Ryerson may be held responsible for any of the identified contamination, and how much (if any) of the final plan’s costs might ultimately be allocated to JT Ryerson and therefore, management cannot predict the ultimate outcome of this matter or estimate a range of potential loss at this time.

There are various claims and pending actions against the Company. The amount of liability, if any, for those claims and actions at June 30, 2016 is not determinable but, in the opinion of management, such liability, if any, will not have a material adverse effect on the Company’s financial position, results of operations or cash flows.

#### NOTE 9: DERIVATIVES AND FAIR VALUE MEASUREMENTS

##### Derivatives

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed by using derivative instruments are interest rate risk, foreign currency risk, and commodity price risk. Interest rate swaps are entered into to manage interest rate risk associated with the Company’s floating-rate borrowings. We use foreign currency exchange contracts to hedge our Canadian subsidiaries’ variability in cash flows from the forecasted payment of currencies other than the functional currency. From time to time, we may enter into fixed price sales contracts with our customers for certain of our inventory components. We may enter into metal commodity futures and options contracts periodically to reduce volatility in the price of metals. We may also enter into natural gas and diesel fuel price swaps to manage the price risk of forecasted purchases of natural gas and diesel fuel. The Company currently does not account for its derivative contracts as hedges but rather marks them to market with a corresponding offset to current earnings. The Company regularly reviews the creditworthiness of its derivative counterparties and does not expect to incur a significant loss from the failure of any counterparties to perform under any agreements.

The following table summarizes the location and fair value amount of our derivative instruments reported in our Condensed Consolidated Balance Sheets as of June 30, 2016 and December 31, 2015:

	Asset Derivatives				Liability Derivatives			
	June 30, 2016		December 31, 2015		June 30, 2016		December 31, 2015

	assets	5.1	assets	—	liabilities	0.3	liabilities	3.5
Total derivatives		\$5.1		\$0.1		\$0.4		\$3.5

As of June 30, 2016 and December 31, 2015, the Company's foreign currency exchange contracts had a U.S. dollar notional amount of \$1.5 million and \$1.6 million, respectively. As of June 30, 2016 and December 31, 2015, the Company had 2,608 tons and 177 tons, respectively, of nickel futures or option contracts related to forecasted purchases. As of June 30, 2016 and December 31, 2015, the Company had 24,910 tons and 15,120 tons, respectively, of hot roll coil option contracts related to forecasted purchases and sales. The Company has aluminum price swaps related to forecasted purchases, which had a notional amount of 12,166 tons and 13,878 tons as of June 30, 2016 and December 31, 2015, respectively. As of June 30, 2016 and December 31, 2015, the Company has 273,000 gallons and 533,000 gallons, respectively, of diesel fuel hedge contracts related to forecasted purchases.

The following table summarizes the location and amount of gains and losses reported in our Condensed Consolidated Statements of Comprehensive Income for the three and six months ended June 30, 2016 and 2015:

Derivatives not designated as hedging instruments under ASC 815	Location of Gain/(Loss) Recognized in Income on Derivatives	Amount of Gain/(Loss) Recognized in Income on Derivatives

Fair Value Measurements

To increase consistency and comparability in fair value measurements, ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

1. Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date.
2. Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.
3. Level 3 – unobservable inputs, such as internally-developed pricing models for the asset or liability due to little or no market activity for the asset or liability.

The following table presents assets and liabilities measured and recorded at fair value on our Condensed Consolidated Balance Sheet on a recurring basis and their level within the fair value hierarchy as of June 30, 2016:

	At June 30, 2016		
	Level 1	Level 2	Level 3
	(In millions)

-----------------------------	-----	--------	------

Edgar Filing: Ryerson Holding Corp - Form 10-Q

The following table presents assets and liabilities measured and recorded at fair value on our Condensed Consolidated Balance Sheet on a recurring basis and their level within the fair value hierarchy as of December 31, 2015:

	At December 31, 2015		
	Level 1	Level 2	Level 3
	(In millions)		
<b>Assets</b>			
Prepaid and other current assets:			
Common stock – available-for-sale investment	\$2.2	\$—	\$—
Mark-to-market derivatives:			
Foreign exchange contracts	\$—	\$0.1	\$—
<b>Liabilities</b>			
Mark-to-market derivatives:			
Commodity contracts	\$—	\$3.5	\$—

The fair value of each derivative contract is determined using Level 2 inputs and the market approach valuation technique, as described in ASC 820. The Company has various commodity derivatives to lock in nickel prices for varying time periods. The fair value of these derivatives is determined based on the spot price each individual contract was purchased at and compared with the one-month daily average actual spot price on the London Metals Exchange for nickel on the valuation date. The Company also has commodity derivatives to lock in hot roll coil and aluminum prices for varying time periods. The fair value of hot roll coil and aluminum derivatives is determined based on the spot price each individual contract was purchased at and compared with the one-month daily average actual spot price on the New York Mercantile Exchange and the London Metals Exchange, respectively, for the commodity on the valuation date. The Company has various commodity derivatives to lock in diesel prices for varying time periods. The fair value of these derivatives is determined based on the spot price each individual contract was purchased at and compared with the one-month daily average actual spot price of the Platts Index for Gulf Coast Ultra Low Sulfur Diesel on the valuation date. In addition, the Company has numerous foreign exchange contracts to hedge our Canadian subsidiaries' variability in cash flows from the forecasted payment of currencies other than the functional currency, the Canadian dollar. The Company defines the fair value of foreign exchange contracts as the amount of the difference between the contracted and current market value at the end of the period. The Company estimates the current market value of foreign exchange contracts by obtaining month-end market quotes of foreign exchange rates and forward rates for contracts with similar terms. The Company uses the exchange rates provided by Reuters. Each contract term varies in the number of months, but on average is between 3 to 12 months in length.

The carrying and estimated fair values of our financial instruments at June 30, 2016 and December 31, 2015 were as follows:

At June 30, 2016		At December 31, 2015	
Carrying	Fair	Carrying	Fair
Amount	Value	Amount	Value

Edgar Filing: Ryerson Holding Corp - Form 10-Q

	(In millions)			
Cash and cash equivalents	\$74.5	\$74.5	\$63.2	\$63.2
Restricted cash	1.1	1.1	1.2	1.2
Receivables less provision for allowances, claims and				
doubtful accounts	360.9	360.9	305.7	305.7
Accounts payable	281.3	281.3	206.3	206.3
Long-term debt, including current portion	1,028.4	1,052.0	1,023.5	855.3

The estimated fair value of the Company’s cash and cash equivalents, receivables less provision for allowances, claims and doubtful accounts and accounts payable approximate their carrying amounts due to the short-term nature of these financial instruments. The estimated fair value of the Company’s long-term debt and the current portions thereof is determined by using quoted market prices of Company debt securities (Level 2 inputs).

Assets Held for Sale

The Company had \$4.2 million of assets held for sale, classified within “prepaid expenses and other current assets,” as of June 30, 2016 and December 31, 2015. The Company recorded a net impairment charge of zero and \$0.9 million in the six months ended June 30, 2016 and 2015, respectively, related to certain assets held for sale in order to recognize the assets at their fair value less cost to sell in accordance with ASC 360-10-35-43, “Property, Plant and Equipment – Other Presentation Matters.” The fair values less costs to sell of long-lived assets held for sale are assessed each reporting period that they remain classified as held for sale. Any increase or decrease in the held for sale long-lived asset’s fair value less cost to sell is reported as an adjustment to its carrying amount, except that the adjusted carrying amount cannot exceed the carrying amount of the long-lived asset at the time it was initially classified as held for sale. The fair values of each property were determined based on appraisals obtained from a third-party, pending sales contracts, or recent listing agreements with third-party brokerage firms.

The following table presents those assets that were measured at fair value on our Condensed Consolidated Balance Sheet on a non-recurring basis and their level within the fair value hierarchy at June 30, 2016:

## Available-For-Sale Investments

The Company has classified investments made during 2010 and 2012 as available-for-sale at the time of their purchase. Investments classified as available-for-sale are recorded at fair value with the related unrealized gains and losses included in accumulated other comprehensive income. Management evaluates investments in an unrealized loss position on whether an other-than-temporary impairment has occurred on a periodic basis. Factors considered by management in assessing whether an other-than-temporary impairment has occurred include: the nature of the investment; whether the decline in fair value is attributable to specific adverse conditions affecting the investment; the financial condition of the investee; the severity and the duration of the impairment; and whether we intend to sell the investment or will be required to sell the investment before recovery of its amortized cost basis. When it is determined that an other-than-temporary impairment has occurred, the investment is written down to its market value at the end of the period in which it is determined that an other-than-temporary decline has occurred. As of June 30, 2016, the investment has been in an unrealized loss position from its adjusted cost basis for twelve months. Based on the duration and severity of our unrealized loss, management determined that an other-than-temporary impairment occurred and thus recognized a \$2.8 million impairment charge within other income and (expense), net in the second quarter of 2016. The investment was also in a gross unrealized loss position for twelve months as of March 31, 2015. Based on the duration and severity of our unrealized loss, management determined that an other-than-temporary impairment occurred and thus recognized a \$12.3 million impairment charge within other income and (expense), net in the first quarter of 2015. Management does not currently intend to sell the investment before recovery of its adjusted cost basis. Realized gains and losses are recorded within the Condensed Consolidated Statement of Comprehensive Income upon sale of the security and are based on specific identification.

The Company's available-for-sale securities as of June 30, 2016 can be summarized as follows:

	At June 30, 2016			
	Gross		Gross	
		Unrealized	Unrealized	Fair
	Cost	Gains	Losses	Value
	(In millions)			
Common stock	\$2.3	\$ —	\$ —	\$ 2.3

The Company's available-for-sale securities as of December 31, 2015 can be summarized as follows:

	At December 31, 2015			
	Cost	Gross	Gross	Fair
			Unrealized	Value
			Unrealized	

Edgar Filing: Ryerson Holding Corp - Form 10-Q

	Gains	Losses	
	(In millions)		
Common stock	\$5.1	\$ —	(2.9 ) \$ 2.2

There is no maturity date for these investments and there have been no sales during the six months ended June 30, 2016.

## NOTE 10: STOCKHOLDERS' EQUITY (DEFICIT), ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS) AND REDEEMABLE NONCONTROLLING INTEREST

The following table details changes in these accounts:

	Ryerson Holding Corporation Stockholders					Accumulated Other Comprehensive Income (Loss)							Redeemable Noncontrolling Interest

NOTE 11: RELATED PARTIES

JT Ryerson was party to a corporate advisory services agreement with Platinum Advisors, an affiliate of Platinum, pursuant to which Platinum Advisors provided JT Ryerson certain business, management, administrative and financial advice. On July 23, 2014, JT Ryerson's Board of Directors approved the termination of this services agreement contingent on the closing of the initial public offering of Ryerson Holding common stock, which occurred on August 13, 2014. As consideration for terminating the advisory fee services agreement, Platinum Advisors and its affiliates were paid \$15.0 million in August 2014, with an additional and final payment of \$10.0 million paid in August 2015.

## NOTE 12: INCOME TAXES

For the three months ended June 30, 2016, the Company recorded income tax expense of \$4.3 million compared to \$10.2 million in the prior year. The \$4.3 million tax expense for the three months ended June 30, 2016 primarily represents taxes at local statutory rates where the Company operates, but generally excludes any tax benefit for losses in jurisdictions with historical losses.

For the six months ended June 30, 2016, the Company recorded income tax expense of \$12.4 million compared to \$10.0 million in the prior year. The \$12.4 million tax expense for the six months ended June 30, 2016 primarily represents taxes at local statutory rates where the Company operates, but generally excludes any tax benefit for losses in jurisdictions with historical losses.

In accordance with FASB ASC 740, "Income Taxes," the Company assesses the realizability of its deferred tax assets. The Company records a valuation allowance when, based upon the evaluation of all available evidence, it is more-likely-than-not that all or a portion of the deferred tax assets will not be realized. In making this determination, we analyze, among other things, our recent history of earnings, the nature and timing of reversing book-tax temporary differences, tax planning strategies and future income. The Company maintains a valuation allowance on certain foreign and U.S. federal and state deferred tax assets until such time as in management's judgment, considering all available positive and negative evidence, the Company determines that these deferred tax assets are more likely than not realizable. The valuation allowance is reviewed quarterly and will be maintained until sufficient positive evidence exists to support the reversal of some or all of the valuation allowance. The valuation allowance was \$23.6 million and \$22.6 million at June 30, 2016 and December 31, 2015, respectively.

## NOTE 13: EARNINGS PER SHARE

Basic earnings per share attributable to Ryerson Holding's common stock is determined based on earnings for the period divided by the weighted average number of common shares outstanding during the period. Diluted earnings per share attributable to Ryerson Holding's common stock considers the effect of potential common shares, unless inclusion of the potential common shares would have an antidilutive effect.

The following table sets forth the calculation of basic and diluted earnings per share:

Basic and diluted earnings per share	Three Months Ended		Six Months Ended June 30,	
	June 30, 2016	2015	2016	2015
	(In millions, except share and per share data)			
<b>Numerator:</b>				
Net income attributable to Ryerson Holding Corporation	\$5.6	\$15.8	\$19.1	\$13.3
<b>Denominator:</b>				
Weighted average shares outstanding	32,099,700	32,037,500	32,099,700	32,037,500

Weighted average shares outstanding adjusted for dilutive securities	32,236,523	32,037,500	32,152,708	32,037,500

Edgar Filing: Ryerson Holding Corp - Form 10-Q

Earnings per share

Basic	\$0.17	\$0.49	\$0.60	\$0.41
Diluted	\$0.17	\$0.49	\$0.59	\$0.41

## NOTE 14: CONDENSED CONSOLIDATING GUARANTOR FINANCIAL STATEMENTS

On October 10, 2012, JT Ryerson issued the 2018 Notes. The 2018 Notes are fully and unconditionally guaranteed on a senior unsecured basis by all of our existing and future domestic subsidiaries that are co-borrowers or guarantee obligations under the Ryerson Credit Facility. On December 30, 2014, Ryerson Holding entered into agreements with JT Ryerson, as issuer, Wells Fargo Bank, as trustee, and each of the guarantors party to the 2018 Notes, whereby Ryerson Holding provided unconditional guarantees of the 2018 Notes, jointly and severally with the other guarantors of the 2018 Notes.

Each guarantor of the 2018 Notes is 100% owned by Ryerson Holding and the guarantees are joint and several. JT Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset. Presented below is the condensed consolidating financial information of Ryerson Holding and its subsidiaries as of June 30, 2016 and December 31, 2015 and for the three and six month periods ended June 30, 2016 and 2015.
