QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended December 31, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from to

Commission file number 000-25711

EXTREME NETWORKS, INC.

(Exact name of registrant as specified in its charter)

DELAWARE	77-0430270
[State or other jurisdiction of incorporation or organization]	[I.R.S Employer Identification No.]

6480 Via Del Oro,

San Jose, California	95119
[Address of principal executive office]	[Zip Code]

Registrant's telephone number, including area code: (408) 579-2800

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 229.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" and "an emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer		Accelerated filer
Non-accelerated filer	(Do not check if a smaller reporting company)	Smaller reporting company
Emerging growth company		

If an emerging growth company, indicate by checkmark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of the Registrant's Common Stock, $.001 par value, outstanding at February 2, 2018, was 115,267,499

EXTREME NETWORKS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business and Basis of Presentation

Extreme Networks, Inc., together with its subsidiaries (collectively referred to as "Extreme" or the "Company") is a leader in providing software-driven networking solutions for enterprise customers. The Company conducts its sales and marketing activities on a worldwide basis through distributors, resellers and the Company's field sales organization. Extreme was incorporated in California in 1996 and reincorporated in Delaware in 1999.

The unaudited condensed consolidated financial statements of Extreme included herein have been prepared under the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted under such rules and regulations. The condensed consolidated balance sheet at June 30, 2017 was derived from audited financial statements as of that date but does not include all disclosures required by generally accepted accounting principles for complete financial statements. These interim financial statements and notes should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2017.

The unaudited condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments that, in the opinion of management, are necessary for a fair presentation of the results of operations and cash flows for the interim periods presented and the financial condition of Extreme at December 31, 2017. The results of operations for the three and six months ended December 31, 2017 are not necessarily indicative of the results that may be expected for fiscal 2018 or any future periods.

Effective July 1, 2017, the Company adopted the requirements of Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers. All amounts and disclosures set forth in this Form 10-Q have been updated to comply with the new standards, as indicated by the "as adjusted" footnote.

Fiscal Year

The Company uses a fiscal calendar year ending on June 30. All references herein to "fiscal 2018" or "2018" represent the fiscal year ending June 30, 2018. All references herein to "fiscal 2017" or "2017" represent the fiscal year ending June 30, 2017.

Principles of Consolidation

The consolidated financial statements include the accounts of Extreme and its wholly-owned subsidiaries. All inter-company accounts and transactions have been eliminated.

The Company predominantly uses the United States Dollar as its functional currency. The functional currency for certain of its foreign subsidiaries is the local currency. For those subsidiaries that operate in a local currency functional environment, all assets and liabilities are translated to United States Dollars at current month end rates of exchange; and revenue and expenses are translated using the monthly average rate.

Accounting Estimates

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Estimates are used for, but are not limited to, the accounting for the allowances for doubtful accounts and sales returns, determining the fair value of acquired assets and assumed liabilities, estimated selling prices, inventory valuation and purchase commitments, depreciation and amortization, impairment of long-lived assets including goodwill, warranty accruals, restructuring liabilities, measurement of share-based compensation costs and income taxes. Actual results could differ from these estimates.

Reclassification

Certain amounts from prior years have been reclassified to conform to the current year's presentation in the accompanying condensed consolidated statements of cash flow. The reclassification had no impact on previously reported net loss or accumulated deficit.

2. Business Combinations

The Company completed three acquisitions during the six months ended December 31, 2017. The acquisitions have been accounted for using the acquisition method of accounting. The purchase price has been allocated on a preliminary basis to tangible and identifiable intangible assets acquired and liabilities assumed. The fair value of working capital related items, such as other current assets and accrued liabilities, approximated their book values at the date of acquisition. Inventories were valued at fair value using the net realizable value approach. The fair value of property and equipment was determined using a cost approach. The fair value of the acquired deferred revenue was estimated using the cost build-up approach. The cost build-up approach determines fair value using estimates of the costs required to provide the contracted deliverables plus an assumed profit. The total costs including the assumed profit were adjusted to present value using a discount rate considered appropriate. The resulting fair value approximates the amount that the Company would be required to pay to a third party to assume the obligation. Valuations of the intangible assets were valued using income approaches based on management projections, which we consider to be Level 3 inputs. The Company also continues to analyze the tax implications of the acquisition of the intangible assets which may ultimately impact the overall level of goodwill associated with the acquisition.

The final purchase price allocation is pending the finalization of valuations, which may result in an adjustment to the preliminary purchase price allocation. Also, additional information which existed as of the acquisition dates, but was unknown to the Company at that time, may become known to the Company during the remainder of the measurement period (up to one year from the acquisition dates), and may result in a change in the purchase price allocation. While management believes that its preliminary estimates and assumptions underlying the valuations are reasonable, different estimates and assumptions could result in different valuations assigned to the individual assets acquired and liabilities assumed, and the resulting amount of goodwill. Results of operations of the acquired entities are included in the Company’s operations beginning with the closing date of each acquisition.

Fiscal 2018 Acquisitions

Data Center Business

On October 27, 2017 (the “Brocade Closing”), the Company completed its acquisition of the data center business (the “Data Center Business”) of Brocade Communication Systems, Inc.’s (“Brocade”), pursuant to an Asset Purchase Agreement (the “Brocade APA”) dated as of October 3, 2017, by and between the Company and Brocade. Under the terms and conditions of the Brocade APA, the Company acquired customers, employees, technology and other assets of the Data Center Business as well as assumed certain contracts and other liabilities of the Data Center Business.

The fair value of consideration transferred on the Brocade Closing date includes:

- upfront cash closing payment equal to $23.0 million,
- deferred payments of $1.0 million per quarter for the next twenty full fiscal quarters of the Company following the acquisition date discounted to their present value,
- contingent consideration in the form of quarterly earnout payments equal to 50% of the profits of the Data Center Business for the five-year period commencing at the end of the first full fiscal quarter of the Company following the acquisition of the Data Center Business discounted to their present value,
- an amount payable due to the excess working capital acquired over the target working capital agreed upon in the Brocade APA, and,
-

portion of the fair value of replacement stock awards granted to employees assumed from Brocade for which their services were provided prior to the Brocade Closing date.

The components of aggregate estimated purchase consideration are as follows (in thousands):

Estimated purchase consideration	October 27, 2017
Cash paid to sellers at closing	$23,000
Deferred payments	18,430
Contingent consideration	34,100
Working capital adjustment	6,534
Replacement of stock-based awards	2,273
Aggregate estimated purchase consideration	$84,337

The following table below summarizes the preliminary allocation as of October 27, 2017 of the tangible and identifiable intangible assets acquired and liabilities assumed:

	Preliminary Allocation as of October 27, 2017
Accounts receivables	$ 33,488
Inventories	19,973
Prepaid expenses and other current assets	988
Property and equipment	29,160
Other assets	4,734
Accounts payable and accrued expenses	(15,850)
Deferred revenue	(33,519)
Net tangible assets acquired	38,974
Identifiable intangible assets	28,600
Goodwill	16,763
Total intangible assets acquired	45,363
Total net assets acquired	$ 84,337

The following table presents details of the identifiable intangible assets acquired as part of the acquisition (in thousands, except years):

Intangible Assets	Estimated Useful Life (in years)	Amount
Developed technology	2 - 5	$21,800
Customer relationships	5	5,400
Trade names	4	1,400
Total identifiable intangible assets		$28,600

The amortization for the developed technology is recorded in “Cost of revenues” for product and the amortization for the remaining intangibles is recorded in “Amortization of intangibles” in the accompanying condensed consolidated statements of operations. The goodwill recognized is attributable primarily to expected synergies and the assembled workforce of the Data Center Business. The Company anticipates both the goodwill and intangible assets to be fully deductible for income tax purposes.

The results of operations of the Data Center Business are included with those of the Company beginning October 28, 2017. The associated expenses of the Data Center Business have been incorporated with the results of operations of the Company as a product line and, therefore, stand-alone operating results are not available. In the three and six months ended December 31, 2017 the Company incurred $32.5 million and $33.8 million, respectively, of acquisition and integration related expenses associated with the acquisition of the Data Center Business, including a $25.0 consent fee paid to terminate a previous asset purchase agreement entered into by the Company to purchase the Data Center Business from Broadcom Corporation, in anticipation of Broadcom’s proposed acquisition of Brocade. The fee was paid to allow the Company to buy the Data Center Business directly from Brocade. Such acquisition-related costs are included in “Acquisition and integration costs, net of bargain purchase gain” in the accompanying condensed consolidated statements of operations. The costs, which the Company expensed as incurred, consist primarily of professional fees to financial and legal advisors and IT consultants and companies.

Campus Fabric Business

On July 14, 2017, (the “Avaya Closing Date”) the Company completed its acquisition of Avaya Inc.’s. (“Avaya”) fabric-based secure networking solutions and network security solutions business (the “Campus Fabric Business”) that had been announced on March 7, 2017. Upon the terms and subject to the conditions of the Asset Purchase Agreement (the “Avaya APA”), the Company acquired the customers, employees, technology and other assets of the

Campus Fabric Business, as well as assumed certain contracts and other liabilities of the Campus Fabric Business, for total provisional consideration of $79.8 million, calculated as $100.0 million, less adjustments set forth in the Avaya APA related to net working capital, deferred revenue, certain assumed lease obligations and certain assumed pension obligations for transferring employees of the Campus Fabric Business. Pursuant to certain ancillary agreements, Avaya will also provide the Company with transition services for a period of time following the Avaya Closing Date. As a condition of the Avaya APA, the Company had made deposits of $10.2 million in the third quarter of fiscal 2017, which were applied to the purchase price upon the Avaya Closing Date.

The following table below summarizes the preliminary allocation as of December 31, 2017 of the tangible and identifiable intangible assets acquired and liabilities assumed:

	Preliminary Allocation as of September 30, 2017	Change during three months ended December 31, 2017		Preliminary Allocation as of December 31, 2017
Accounts receivables	$ 18,112	$ 183	(a)	$ 18,295
Inventories	16,605	(1,060)	(b)(c)	15,545
Prepaid expenses and other current assets	673	—		673
Property and equipment	3,768	—		3,768
Other assets	2,568	2,743	(c)	5,311
Accounts payable and accrued expenses	(29,716)	(2,203)	(d)(f)	(31,919)
Deferred revenue	(10,214)	163	(d)(e)	(10,051)
Other long-term liabilities	(6,608)	1,403	(f)	(5,205)
Net tangible assets acquired	(4,812)	1,229		(3,583)
Identifiable intangible assets	44,000	2,900	(g)	46,900
In-process research and development	2,300	200	(g)	2,500
Goodwill	38,338	(4,329)		34,009
Total intangible assets acquired	84,638	(1,229)		83,409
Total net assets acquired	$ 79,826	$ —		$ 79,826

The changes during the period in the table above include: a) additional information on accounts receivable as of the acquisition date, b) additional receipts of product, c) a reclassification from inventories to other assets related to service parts, d) a reclassification from deferred revenue to accounts payable, e) an adjustment of the fair value of deferred maintenance revenue, f) a reclassification from long-term liabilities to short-term related to liabilities assumed, g) revised net realizable value based on usefulness of identifiable intangible assets and in-process research and development acquired.

The following table presents details of the identifiable intangible assets acquired as part of the acquisition (in thousands, except years):

Intangible Assets	Estimated Useful Life (in years)	Amount
Developed technology	6	$37,400
Customer relationships	4	5,100
Trademarks	5	2,600
Backlog	1	1,800
Total identifiable intangible assets		$46,900

The amortization for the developed technology is recorded in “Cost of revenues” for product and the amortization for the remaining intangibles is recorded in “Amortization of intangibles” in the accompanying condensed consolidated statement of operations. The goodwill recognized is attributable primarily to expected synergies and the assembled workforce of the Campus Fabric Business. The Company anticipates both the goodwill and intangible assets to be fully deductible for income tax purposes.

The Company also acquired an indefinite lived asset of $2.5 million which represents the fair value of in-process research and development activities. Once the related research and development efforts are completed, the Company will determine whether the asset will continue to be an indefinite lived asset or become a finite lived asset and apply the appropriate accounting accordingly.

The results of operations of the Campus Fabric Business are included in the accompanying condensed consolidated results of operations beginning July 14, 2017. The associated expenses of the Campus Fabric Business have been incorporated with the results of operations of the Company as a product line and, therefore, stand-alone operating results are not available. In the three and six months ended December 31, 2017, the Company incurred $6.6 million and $9.5 million, respectively, of acquisition and integration related expenses associated with the acquisition of the Campus Fabric Business. Such acquisition-related costs are included in “Acquisition and integration costs, net of bargain purchase gain” in the accompanying condensed consolidated statements of operations. The costs, which the Company expensed as incurred, consist primarily of professional fees to financial and legal advisors and IT consultants and companies.

Capital Financing Business

On December 1, 2017, Company completed its acquisition of a capital financing business (the “CF Business”), pursuant to a Bill of Sale and Assignment and Assumption Agreement (the “Assumption Agreement”) between the Company and Broadcom. Under the terms and conditions of the Assumption Agreement, the Company acquired customers, employees, contracts and lease equipment of the CF Business equal to the earn out payments to Broadcom of 90% of acquired financing receivables to be collected commencing at the closing date.

Net assets acquired included financing receivables of $13.8 million, lease equipment of $3.5 million and identifiable intangible assets of $0.6 million, and the fair value of the contingent consideration was $12.9 million. As the preliminary fair value of the net assets acquired exceeded the fair value of the purchase consideration, the Company recorded a gain from the bargain purchase of $4.9 million in “Acquisition and integration costs, net of bargain purchase gain” in the accompanying condensed consolidated statements of operations for the second quarter of fiscal 2018. Acquisition and integration related expenses associated with the acquisition of the CF Business were immaterial.

Fiscal 2017 Acquisition

On October 28, 2016, the Company completed the acquisition of the wireless local area network business (“WLAN Business”) from Zebra Technologies Corporation. Under the terms of the WLAN Asset Purchase Agreement, the Company acquired customers, employees, technology and other assets as well as assumed certain contracts and other liabilities of the WLAN Business, for a net cash consideration to $49.5 million. The following table below summarizes the final allocation of the tangible and identifiable intangible assets acquired and liabilities assumed:

	Final Allocation as of October 28, 2016
Accounts receivables, net	$ 14,636
Inventories	13,593
Other current assets	808
Property and equipment	3,159
Other assets	7,634
Deferred revenue	(14,159)
Other liabilities	(7,201)
Total tangible assets acquired and liabilities assumed	18,470
Identifiable intangible assets	20,300
In-process research and development	1,400
Goodwill	9,339
Total intangible assets acquired	31,039
Total net assets acquired	$ 49,509

Pro forma financial information

The following unaudited pro forma results of operations are presented as though the acquisitions of the Data Center Business, CF Business, Campus Fabric Business and WLAN Businesses had occurred as of the beginning of the earliest period presented after giving effect to purchase accounting adjustments relating to inventories, deferred revenue, depreciation and amortization on acquired property and equipment and intangibles, acquisition costs, interest income and expense and related tax effects.

The pro forma results of operations are not necessarily indicative of the combined results that would have occurred had the acquisition been consummated as of the earliest period presented, nor are they necessarily indicative of future

operating results. The unaudited pro forma results do not include the impact of synergies, nor any potential impacts on current or future market conditions which could alter the unaudited pro forma results.

The unaudited pro forma financial information for the three and six months ended December 31, 2017, combines the results for Extreme for the three and six months ended December 31, 2017, which include the results of the Data Center Business, CF Business and Campus Fabric Business subsequent to the acquisition date and their historical results up to the acquisition date.

The unaudited pro forma financial information for the three and six months ended December 31, 2016, combines the historical results for Extreme for those periods, as adjusted for the adoption of ASC 606, with the historical results of the Data Center Business, CF Business and Campus Fabric Business for the three and six months ended December 31, 2016, as well as the historical results of the WLAN Business up to the acquisition date.

Pro forma results of operations from the Data Center Business, CF Business, Campus Fabric Business and WLAN Business acquisitions included in the pro forma results of operations for the three and six months ended December 31, 2016 or 2017 have not

been adjusted for the adoption of ASC 606 because the Company determined that it is impractical to estimate the impact of the adoption.

The following table summarizes the unaudited pro forma financial information (in thousands, except per share amounts):

	Three Months Ended		Six Months Ended	
	December 31,	December 31,	December 31,	December 31,
	2017	2016 (As adjusted)	2017	2016 (As adjusted)
Net revenues	$252,532	$ 311,503	$537,040	$ 644,435
Net income (loss)	$1,152	$ (62,134)	$(7,622)	$ (95,972)
Net income (loss) per share - basic	$0.01	$ (0.58)	$(0.07)	$ (0.90)
Net income (loss) per share - diluted	$0.01	$ (0.58)	$(0.07)	$ (0.90)
Shares used in per share calculation - basic	113,621	107,425	112,931	106,690
Shares used in per share calculation - diluted	119,656	107,425	112,931	106,690

3. Summary of Significant Accounting Policies

For a description of significant accounting policies, see Note 3, Summary of Significant Accounting Policies, to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2017. Except for the following policies, there have been no material changes to the Company's significant accounting policies since the filing of the Annual Report on Form 10-K.

Revenue Recognition

The Company accounts for revenue in accordance with ASC Topic 606, Revenue from Contracts with Customers, which the Company adopted on July 1, 2017, using the retrospective method. The Company derives the majority of its revenue from sales of its networking equipment, with the remaining revenue generated from service fees relating to maintenance contracts, professional services, and training for its products. The Company sells its products and maintenance contracts direct to customers and to partners in two distribution channels, or tiers. The first tier consists of a limited number of independent distributors that stock its products and sell primarily to resellers. The second tier of the distribution channel consists of a non-stocking distributors and value-added resellers that sell directly to end-users. Products and services may be sold separately or in bundled packages.

The Company considers customer purchase orders, which in some cases are governed by master sales agreements, to be the contracts with a customer. For each contract, the Company considers the promise to transfer products and services, each of which are distinct, to be the identified performance obligations. In determining the transaction price the Company evaluates whether the price is subject to refund or adjustment to determine the net consideration to which the Company expects to be entitled.

For all of the Company's sales and distribution channels, revenue is recognized when control of the product is transferred to the customer (i.e., when the Company's performance obligation is satisfied), which typically occurs at shipment for product sales. Revenue from maintenance contracts is recognized over time as the Company's performance obligations are satisfied. This is typically the contractual service period, which ranges from one to three years. For product sales to value-added resellers of the Company, non-stocking distributors and end-user customers, the Company generally does not grant return privileges, except for defective products during the warranty period, nor does the Company grant pricing credits. Sales incentives and other programs that the Company may make available

to these customers are considered to be a form of variable consideration and the Company maintains estimated accruals and allowances using the expected value method. There were no material changes in the current period to the estimated transaction price for performance obligations which were satisfied or partially satisfied during previous periods.

Sales to stocking distributors are made under terms allowing certain price adjustments and limited rights of return (known as "stock rotation") of the Company's products held in their inventory. Revenue from sales to distributors is recognized upon the transfer of control to the distributor. Frequently, distributors need to sell at a price lower than the contractual distribution price in order to win business, and submit rebate requests for Company pre-approval prior to selling the product through at the discounted price. At the time the distributor invoices its customer or soon thereafter, the distributor submits a rebate claim to the Company to adjust the distributor's cost from the contractual price to the pre-approved lower price. After the Company verifies that the claim was pre-approved, a credit memo is issued to the distributor for the rebate claim. In determining the transaction price, the Company considers these rebate adjustments to be variable consideration. Such price adjustments are estimated using the expected value method based on an analysis of actual claims, at the distributor level over a trailing twelve-month period of time considered adequate to account for current pricing and business trends. Stock rotation rights grant the distributor the ability to return certain specified amounts of inventory. Stock rotation adjustments are an additional form of variable consideration and are also estimated using the expected value

method based on historical return rates. There were no material changes in the current period to the estimated variable consideration for performance obligations which were satisfied or partially satisfied during previous periods.

Performance Obligations. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer, and is the unit of account in ASC Topic 606. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. Certain of the Company's contracts have multiple performance obligations, as the promise to transfer individual goods or services is separately identifiable from other promises in the contracts and, therefore, is distinct. For contracts with multiple performance obligations, the Company allocates the contract's transaction price to each performance obligation based on its relative standalone selling price. The stand-alone selling prices are determined based on the prices at which the Company separately sells these products. For items that are not sold separately, the Company estimates the stand-alone selling prices using the best estimated selling price approach.

The Company's performance obligations are satisfied at a point in time or over time as work progresses. Substantially all of the Company's product sales revenues as reflected on the consolidated statements of operations for the three-month and six-month periods ended December 31, 2017, and 2016 are recognized at a point in time. Substantially all of the Company's service revenue is recognized over time. For revenue recognized over time, the Company uses an input measure, days elapsed, to measure progress.

On December 31, 2017, the Company had $152.4 million of remaining performance obligations, which is comprised of deferred maintenance revenue and services not yet delivered. The Company expects to recognize approximately 54 percent of its remaining performance obligations as revenue in fiscal 2018, an additional 31 percent by fiscal 2019 and 15 percent of the balance thereafter.

Contract Balances. The timing of revenue recognition, billings and cash collections results in billed accounts receivable and deferred revenue in the consolidated balance sheet. Services provided under renewable support arrangements of the Company are billed in accordance with agreed-upon contractual terms, which are typically at periodic intervals (e.g., quarterly or annually). The Company sometimes receives payments from its customers in advance of services being provided, resulting in deferred revenues. These liabilities are reported on the consolidated balance sheet on a contract-by-contract basis at the end of each reporting period.

Revenue recognized for the six-month periods ended December 31, 2017 and 2016, that was included in the deferred revenue balance at the beginning of each period was $53.1 million and $49.7 million respectively. Revenue recognized for the three-month periods ended December 31, 2017 and 2016, that was included in the deferred revenue balance at the beginning of each period was $36.9 million and $33.5 million, respectively.

Contract Costs. The Company recognizes the incremental costs of obtaining contracts as an expense when incurred if the amortization period of the assets that the Company otherwise would have recognized is one year or less. Management expects that commission fees paid to sales representative as a result of obtaining service contracts and contract renewals are recoverable and therefore the Company capitalized them as contract costs in the amount of $3.0 million and $2.5 million at December 31, 2017 and June 30, 2017, respectively. Capitalized commission fees are amortized on a straight-line basis over the average period of service contracts of approximately three years, and are included in "Sales and marketing" in the accompanying condensed consolidated statements of operations. Amortization recognized during the three-month period ended December 31, 2017 and 2016, was $0.5 million and $0.4 million, respectively. Amortization recognized during the six-month period ended December 31, 2017 and 2016, was $0.9 million and $0.7 million, respectively. There was no impairment loss in relation to the costs capitalized.

Revenue by Category: The following table sets forth the Company's revenue disaggregated by sales channel and geographic region based on the billing addresses of its customers (in thousands, unaudited):

	Three Months Ended

Business Combinations

The Company applies the acquisition method of accounting for business combinations. Under this method of accounting, all assets acquired and liabilities assumed are recorded at their respective fair values at the date of the completion of the transaction. Determining the fair value of assets acquired and liabilities assumed requires management's judgment and often involves the use of significant estimates and assumptions, including assumptions with respect to future cash inflows and outflows, discount rates, intangibles and other asset lives, among other items. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Market participants are assumed to be buyers and sellers in the principal (most advantageous) market for the asset or liability. Additionally, fair value measurements for an asset assume the highest and best use of that asset by market participants. As a result, we may have been required to value the acquired assets at fair value measures that do not reflect its intended use of those assets. Use of different estimates and judgments could yield different results.

Any excess of the purchase price over the fair value of the net assets acquired is recognized as goodwill. If the fair value of net assets acquired exceeds the fair value of purchase price, a gain on bargain purchase is recognized in the statements of operations. Although we believe the assumptions and estimates we have made are reasonable and appropriate, they are based in part on historical experience and information that may be obtained from the management of the acquired company and are inherently uncertain. Unanticipated events and circumstances may occur that may affect the accuracy or validity of such assumptions, estimates or actual results. As a result, during the measurement period, which may be up to one year from the acquisition date, we may record adjustments to the assets acquired and liabilities assumed with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to our consolidated statements of operations.

4.Recent Accounting Pronouncements

Recently Issued Accounting Pronouncements

In August 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update (ASU) 2017-12, Derivatives and Hedging (Topic 815) – Targeted Improvements to Accounting for Hedging Activities ("ASU 2017-12"), which is intended to allow companies to better align risk management activities and financial reporting for

hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results by expanding and refining hedge accounting for both nonfinancial and financial risk components and aligning the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. The guidance is effective for fiscal years beginning after December 15, 2018. The Company is evaluating the accounting, transition and disclosure requirements of the standard and cannot currently estimate the financial statement impact of adoption. This guidance is effective for the Company beginning with its fiscal year 2020.

In May 2017, the FASB issued ASU 2017-09, Compensation—Stock Compensation (Topic 718) - Scope of Modification Accounting (“ASU 2017-09”) which amends the scope of modification accounting for share-based payment arrangements and provides guidance on the types of changes to the terms or conditions of share-based payment awards to which an entity would be required to apply modification accounting under ASC 718. Specifically, an entity would not apply modification accounting if the fair value, vesting conditions, and classification of the awards are the same immediately before and after the modification. The guidance is effective prospectively for fiscal years beginning after December 15, 2017, and interim periods within that reporting period. Early

adoption is permitted, including adoption in any interim period. The Company does not expect the adoption of this guidance to have a material effect on our financial statements. This guidance will be effective for the Company beginning with its fiscal year 2019.

In January 2016, the FASB issued ASU No. 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities, which provides guidance for the recognition, measurement, presentation, and disclosure of financial assets and liabilities. The Company is currently assessing the impact that adopting this new accounting standard will have on its consolidated financial statements and footnote disclosures. This guidance will become effective for the Company beginning with its fiscal year 2019.

In February 2016, the FASB issued ASU No. 2016-02 (Topic 842), Leases ("ASU 2016-02") which requires the identification of arrangements that should be accounted for as leases by lessees. In general, for lease arrangements exceeding a twelve-month term, these arrangements must now be recognized as assets and liabilities on the balance sheet of the lessee. Under ASU 2016-02, a right-of-use asset and lease obligation will be recorded for all leases, whether operating or financing, while the statement of operations will reflect lease expense for operating leases and amortization/interest expense for financing leases. The balance sheet amount recorded for existing leases at the date of adoption of ASU 2016-02 must be calculated using the applicable incremental borrowing rate at the date of adoption. In addition, ASU 2016-02 requires the use of the modified retrospective method, which will require adjustment to all comparative periods presented in the consolidated financial statements. The Company is currently assessing the impact that adopting this new accounting standard will have on its consolidated financial statements and footnote disclosures. This guidance will become effective for the Company beginning with its fiscal year 2020.

Recently Adopted Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), to clarify the principles of recognizing revenue and create common revenue recognition guidance between U.S. GAAP and International Financial Reporting Standards. Under ASU 2014-09, revenue is recognized when a customer obtains control of promised goods or services and is recognized at an amount that reflects the consideration expected to be received in exchange for such goods or services. In addition, ASU 2014-09 requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

The Company adopted Topic 606 on July 1, 2017, using the full retrospective method. This adoption primarily affected the Company's accounting for distributor and resellers revenues from a primarily "sell-through" model, where revenue is recognized upon the sale from the distribution channel to the end customer, to the "sell-in" method where revenue is recognized upon transfer of control to its customers, including distributors. Under the sell-in method, the Company is required to make estimates at the time of shipment to its distributors of variable consideration as well as estimated returns under stock rotation rights granted to the distributors. Additionally, the Company capitalizes contract acquisition costs such as commissions paid for maintenance services contracts in excess of one year. Following the adoption of ASU 2014-09, the revenue recognition for the Company's other sales arrangements remained materially consistent with our historical practice.

Upon adoption of Topic 606, we applied the standard's practical expedients that allows a) an entity to use the transaction price at the date the contract was completed rather than estimating variable consideration amounts in the comparative reporting periods, b) that permits the omission of prior-period information about our performance obligations, and c) that allows the Company to reflect the aggregate effect of all modifications that occur before the beginning of the earliest period presented when identifying the satisfied and unsatisfied performance obligations, determining the transaction price and allocating the transaction price to the satisfied and unsatisfied performance obligations.

See the tables at the end of this note for the effects of the adoption of ASU 2014-09 on our condensed consolidated financial statements as of June 30, 2017, and for the three and six months ended December 31, 2016. See Note 3. "Summary of Significant Accounting Policies" to our condensed consolidated financial statements for further discussion of the effects of the adoption of ASU 2014-09 on our significant accounting policies.

Adjustments to Previously Reported Financial Statements from the Adoption of Accounting Pronouncements

The following table presents the effect of the adoption of ASU 2014-09 on our condensed consolidated balance sheet (unaudited) as of June 30, 2017, (in thousands):

	As of June 30, 2017		
	As Reported	Adjustment	As Adjusted
Accounts receivable, net	$120,770	$ (27,655)	$93,115
Inventories	45,880	1,530	47,410
Total current assets	324,967	(26,125)	298,842
Other assets	22,586	2,479	25,065

The following tables present the effect of the adoption of ASU 2014-09 on our condensed consolidated statement of cash flows (unaudited) for the six months ended December 31, 2016 (in thousands):

	Six Months Ended December 31, 2016		
	As Reported	Adjustment	As Adjusted
Cash flows from operating activities			
Net loss	$(15,090)	$ 5,119	$(9,971)
Changes in operating assets and liabilities, net			
Accounts receivable	(18,737)	10,981	(7,756)
Inventories	6,004	(1,691)	4,313
Prepaid and other assets	7,004	(181)	6,823
Deferred distributors revenue, net of cost of sales to distributors	14,516	(14,516)	—
Other current and long term liabilities	7,587	288	7,875
Net cash provided by operating activities	19,288	—	19,288
Cash flows from investing activities	(55,750)	—	(55,750)

Cash flows from financing activities	46,241	—	46,241
Foreign currency effect on cash	(115)	—	(115)
Net increase in cash and cash equivalents	$9,664	$—	$9,664

5. Balance Sheet Accounts
Cash, Cash Equivalents and Marketable Securities

The following is a summary of cash, cash equivalents and marketable securities (in thousands):

	December 31, 2017	June 30, 2017
Cash	$ 122,608	$ 126,159
Cash equivalents	4,500	4,291
Total cash and cash equivalents	127,108	130,450
Marketable securities (consisting of available-for-sale securities)	1,104	—
Total cash, cash equivalents and marketable securities	$ 128,212	$ 130,450

The Company considers highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents. Marketable securities are recorded in “Prepaid expense and other current assets” in the accompanying condensed consolidated balance sheet as these original maturities are greater than three months, but less than one year at the balance sheet date. Marketable securities are classified as available-for-sale and reported at fair value with unrealized gains and losses included in “Accumulated other comprehensive loss” in the accompanying condensed consolidated balance sheets.

Inventories

The Company values its inventory at lower of cost or net realizable value. Cost is computed using standard cost, which approximates actual cost, on a first-in, first-out basis. The Company has established inventory allowances primarily determined by the demand of inventory or when conditions exist that suggest that inventory may be in excess of anticipated demand or is obsolete based upon assumptions about future demand. At the point of the loss recognition, a new, lower-cost basis for that inventory is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis. Any written down or obsolete inventory subsequently sold has not had a material impact on gross margin for any of the periods disclosed.

Inventories consist of the following (in thousands):

	December 31, 2017	June 30, 2017 (As Adjusted)
Finished goods	$ 67,244	$ 46,620
Raw materials	16,133	790
Total Inventories	$ 83,377	$ 47,410

Property and Equipment, Net

Property and equipment consist of the following (in thousands):

	December 31,	June 30,

	2017	2017
Computers and equipment	$ 63,539	$ 34,716
Purchased software	16,329	11,785
Office equipment, furniture and fixtures	17,272	10,852
Leasehold improvements	29,319	23,046
Total property and equipment	126,459	80,399
Less: accumulated depreciation and amortization	(57,894)	(50,159)
Property and equipment, net	$ 68,565	$ 30,240

Intangibles

The following tables summarize the components of gross and net intangible asset balances (dollars in thousands)

	Weighted Average Remaining Amortization Period	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
December 31, 2017				
Developed technology	4.5 years	$ 116,000	$ 48,334	$ 67,666
Customer relationships	3.9 years	51,410	38,674	12,736
Maintenance contracts	0.8 years	17,000	14,166	2,834
Trademarks	3.9 years	9,100	3,411	5,689
Backlogs	— years	1,800	1,800	—
License agreements	6.1 years	2,445	1,255	1,190
Other intangibles	2.2 years	1,382	1,072	310
Total intangibles, net with finite lives		199,137	108,712	90,425
In-process research and development, with indefinite life		2,500	—	2,500
Total intangibles, net		$ 201,637	$ 108,712	$ 92,925

	Weighted Average Remaining Amortization Period	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
June 30, 2017				
Developed technology	5.3 years	$ 55,400	$ 42,689	$ 12,711
Customer relationships	3.3 years	40,300	37,567	2,733
Maintenance contracts	1.3 years	17,000	12,467	4,533
Trademarks	4.3 years	5,100	2,846	2,254
License agreements	6.4 years	2,445	1,120	1,325
Other intangibles	2.7 years	1,382	1,001	381
Total intangibles, net with finite lives		121,627	97,690	23,937
In-process research and development, with indefinite life		1,400	—	1,400
Total intangibles, net		$ 123,027	$ 97,690	$ 25,337

During the six months ended December 31, 2017, in-process research and development of $1.4 million was reclassified to developed technology upon completion of the project and is being amortized over its estimated useful life.

The amortization expense of intangibles for the periods presented is summarized below (in thousands):

	Three Months Ended		Six Months Ended	
	December 31,	December 31,	December 31,	December 31,
	2017	2016	2017	2016
Amortization in “Cost of revenues: Product”	$3,866	$ 1,720	$6,663	$ 5,276
Amortization of intangibles	2,746	2,175	4,360	6,317
Total amortization	$6,612	$ 3,895	$11,023	$ 11,593

The amortization expense that is recognized in "Cost of revenues: Product" is comprised of amortization for developed technology, license agreements and other intangibles.

Goodwill

The following table summarizes goodwill for the periods presented (in thousands):

	December 31, 2017
Balance as of June 30, 2017	$ 80,216
Additions due to acquisitions	50,772
Balance at end of period	$ 130,988

19

During the six months ended December 31, 2017, the Company completed acquisitions of the Campus Fabric Business and the Data Center Business, resulting in an additional goodwill of $34.0 million and $16.8 million, respectively. See Note 2 for additional information related to the acquisitions.

Deferred Revenue

The Company offers for sale to its customers, renewable support arrangements that range from one to five years as well as deferred revenue for professional and training services.

Debt

The Company's debt is comprised of the following (in thousands):

	December 31, 2017	June 30, 2017
Current portion of long-term debt:		
Term Loan	$ 22,964	$ 12,444
Less: unamortized debt issuance costs	(538)	(164)
Current portion of long-term debt	$ 22,426	$ 12,280
Long-term debt, less current portion:		
Term Loan	$ 152,062	$ 71,268
Revolver	10,000	10,000
Less: unamortized debt issuance costs	(1,350)	(846)
Total long-term debt, less current portion	160,712	80,422
Total debt	$ 183,138	$ 92,702

In connection with the closing of Campus Fabric Business discussed in Note 2, the Company entered into the Second Amendment to the Amended and Restated Credit Agreement ("Second Amendment"), which amended the Amended and Restated Credit Agreement, dated as of October 28, 2016 (the "Credit Facility, as amended"), by and among the Company, as borrower, Silicon Valley Bank, as administrative agent and collateral agent, and lenders. Among other things, the Second Amendment (i) increased the amount of the available borrowing under the Credit Facility from $140.5 million to $243.7 million, composed of (a) the five-year term loan ("Term Loan") in a principal amount of up to $183.7 million and (b) the five-year revolving credit facility ("Revolver") in a principal amount of up to $60.0 million, (ii) extends the maturity date under the existing Term Loan and the termination date under the existing Revolver, (iii) provides for an uncommitted additional incremental loan facility in the principal amount of up to $50.0 million ("Incremental Facility"), and (iv) joins certain additional banks, financial institutions and institutional lenders as lenders pursuant to the terms of the Credit Facility, as amended. On July 14, 2017, the Company borrowed $80.0 million under the Term Loan which was used to fund the purchase of Campus Fabric Business.

In connection with the closing of the acquisition of the Data Center Business discussed in Note 2, the Company entered into the Third Amendment to the Credit Facility (the "Third Amendment") on October 26, 2017. Among other things, the Third Amendment (i) amends the negative covenant governing dispositions to increase the general dispositions basket for the fiscal year of the Company ending June 30, 2018, and (ii) amends certain definitions and provisions to update certain references to the Brocade Purchase Agreement (as defined above). On the Brocade Closing Date, the Company borrowed $20.0 million on the Term Loan to partially fund the acquisition of the Data Center Business.

Borrowings under the Term Loan bear interest, at our option, at a rate equal to either the LIBOR rate (subject to a 0.0% LIBOR floor), plus an applicable margin (currently 3.25% per annum based on a stated consolidated leverage ratio) or the adjusted base rate, plus an applicable margin (currently 1.25% per annum based on the Company's consolidated leverage ratio). Borrowings under the Revolver bear interest, at the Company's option, at a rate equal to either the LIBOR rate (subject to a 0.0% LIBOR floor), plus an applicable margin (currently 3.25% per annum based on a stated consolidated leverage ratio) or the adjusted base rate, plus an applicable margin (currently 1.25% per annum based on a stated consolidated leverage ratio). The Revolver has a commitment fee payable on the undrawn amount ranging from 0.375% to 0.50% per annum based upon a stated consolidated leverage ratio.

The Company had $1.2 million of outstanding letters of credit and $48.8 million of availability under the Revolver as of December 31, 2017.

Guarantees and Product Warranties

Networking products may contain undetected hardware or software errors when new products or new versions or updates of existing products are released to the marketplace. The Company's standard hardware warranty period is typically 12 months from the

date of shipment to end-users and 90 days for software. For certain access products, the Company offers a limited lifetime hardware warranty commencing on the date of shipment from the Company and ending five (5) years following the Company's announcement of the end of sale of such product. Upon shipment of products to its customers, the Company estimates expenses for the cost to repair or replace products that may be returned under warranty and accrue a liability in cost of product revenue for this amount. The determination of the Company's warranty requirements is based on actual historical experience with the product or product family, estimates of repair and replacement costs and any product warranty problems that are identified after shipment. The Company estimates and adjusts these accruals at each balance sheet date in accordance with changes in these factors.

Upon issuance of a standard product warranty, the Company discloses and recognizes a liability for the obligations it assumes under the product warranty. The following table summarizes the activity related to the Company's product warranty liability during the three and six months ended December 31, 2017 and 2016 (in thousands):

	Three Months Ended		Six Months Ended	
	December 31, 2017	December 31, 2016 (As adjusted)	December 31, 2017	December 31, 2016 (As adjusted)
Balance beginning of period	$13,499	$ 9,017	$10,584	$ 9,998
Warranties assumed due to acquisition	526	2,034	3,682	2,034
New warranties issued	1,657	1,176	3,929	2,104
Warranty expenditures	(2,672)	(1,437)	(5,185)	(3,346)
Balance end of period	$13,010	$ 10,790	$13,010	$ 10,790

To facilitate sales of its products in the normal course of business, the Company indemnifies its resellers and end-user customers with respect to certain matters. The Company has agreed to hold the customer harmless against losses arising from a breach of intellectual property infringement or other. These agreements may limit the time within which an indemnification claim can be made and the amount of the claim. It is not possible to estimate the maximum potential amount under these indemnification agreements due to the limited history of prior indemnification claims and the unique facts and circumstances involved in each particular agreement. Historically, payments made by the Company under these agreements have not had a material impact on its operating results or financial position.

Other long-term liabilities

The following is a summary of long-term liabilities (in thousands):

	December 31, 2017	June 30, 2017
Acquisition related deferred payments, less current portion	$ 15,037	$ —
Acquisition-related contingent consideration obligations, less current portion	36,130	—
Other	13,180	8,526
Total other accrued liabilities	$ 64,347	$ 8,526

Advertising

All advertising costs are expensed as incurred. Advertising expenses for three and six months ended December 31, 2017 and 2016, were immaterial.

Concentrations

The Company may be subject to concentration of credit risk as a result of certain financial instruments consisting of accounts receivable and marketable securities. The Company does not invest an amount exceeding 10% of its combined cash or cash equivalents in the securities of any one obligor or maker, except for obligations of the United States government, obligations of United States government agencies and money market accounts.

The Company performs ongoing credit evaluations of its customers and generally does not require collateral in exchange for credit.

The following table sets forth major customers accounting for 10% or more of our net revenue:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2017	2016 (As adjusted)	2017	2016 (As adjusted)
Westcon Group Inc.	14%	12%	15%	12%
Tech Data Corporation	12%	15%	12%	16%
Jenne Corporation	*	13%	10%	14%
Avnet	*	*	*	10%

*Less than 10% of net revenue

The following customers account for more than 10% of the Company's accounts receivable outstanding as of December 31, 2017, Westcon Group 24%, Tech Data 21% and Avnet 11%.

6. Fair Value Measurements

A three-tier fair value hierarchy is utilized to prioritize the inputs used in measuring fair value. The hierarchy gives the highest priority to quoted prices in active markets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels are defined as follows:

- Level 1 Inputs - unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs - quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; and
- Level 3 Inputs - unobservable inputs reflecting the Company's own assumptions in measuring the asset or liability at fair value.

The following table presents the Company's fair value hierarchy for its financial assets and liabilities measured at fair value on a recurring basis (in thousands):

December 31, 2017	Level 1	Level 2	Level 3	Total
Assets				
Investments:				
Money market funds	$4,500	$ —	$—	$4,500
Marketable securities	1,104	—	—	1,104
Total assets measured at fair value	$5,604	$ —	$—	$5,604
Liabilities				
Acquisition-related contingent consideration obligations	$—	$ —	$47,030	$—
Total liabilities measured at fair value	$—	$ —	$47,030	$—

June 30, 2017	Level 1	Level 2	Level 3	Total

Assets				
Investments:				
Money market funds	$4,291	$ —	$—	$4,291
Investment in non-marketable equity	—	—	3,000	3,000
Total assets measured at fair value	$4,291	$ —	$3,000	$7,291

Level 1 investments:

During the first quarter of fiscal 2018, pursuant to the sale of an investment in non-marketable equity securities, the Company received 41,685 shares of a company publicly traded on the London Stock Exchange. As of December 31, 2017, the shares received have a fair value of $1.1 million. (See below, Level 3 investments)

22

Level 2 investments:

The Company includes U.S. government and sovereign obligations, most government agency securities, investment-grade corporate bonds, and state, municipal and provincial obligations for which quoted prices are available as Level 2. There were no transfers of assets or liabilities between Level 1 and Level 2 for the periods presented.

The fair value of the borrowings under the Credit Facility, as amended is estimated based on valuations provided by alternative pricing sources supported by observable inputs which is considered Level 2. Due to the short duration until maturity of the credit facility, the fair value approximates the face amount of the Company's indebtedness of $185.0 million and $93.7 million as of December 31, 2017 and June 30, 2017, respectively. Such amounts are immaterial for all periods presented.

Level 3 investments:

Certain of the Company's assets, including intangible assets and goodwill are measured at fair value on a non-recurring basis if impairment is indicated.

As of June 30, 2017, the Company reflected its non-marketable equity investment as Level 3 in the fair value hierarchy as it is based on unobservable inputs that market participants would use in pricing this asset due to the absence of recent comparable market transactions and inherent lack of liquidity. During fiscal 2015, the Company purchased a $3.0 million equity interest in a company that operated in the enterprise software platform industry. The Company did not enter into any other transactions with the investee during fiscal 2017 or the first quarter of fiscal 2018. During the three months ended September 30, 2017, the investee was acquired by a third party. The Company received $6.8 million as consideration for its equity interest in the investee, including $5.4 million in cash and 65,937 shares the third party's common stock with a market value of $1.4 million. During the first quarter of fiscal 2018, the Company received $5.8 million of the consideration, consisting of $4.9 million in cash and 41,685 shares with a market value of $0.9 million. The remainder of the consideration consisting of $0.5 million and $0.5 million of cash and shares, respectively, will remain in escrow for a period of 18 months from the date of sales for general representations and warranties. A gain of $3.8 million related to this sale was recorded in "Other income (expense), net" in the accompanying condensed consolidated statements of operations for the six months ended December 31, 2017. The 41,685 shares received and held as of December 31, 2017 were considered Level 1 investments as these have quoted prices in active markets.

During the quarter ended December 31, 2017, the Company recorded a liability for contingent consideration related to its acquisitions of the Data Center Business and the CF Business (see Note 2 for additional information related to the acquisitions). The fair value measurement of the contingent consideration obligations is determined using Level 3 inputs. The fair value of contingent consideration obligations is based on a discounted cash flow model. These fair value measurements represent Level 3 measurements as they are based on significant inputs not observable in the market. Significant judgment is employed in determining the appropriateness of these assumptions as of the acquisition date and for each subsequent period. Accordingly, changes in assumptions could have a material impact on the amount of contingent consideration expense the Company records in any given period. Changes in the value of the contingent consideration obligations would be recorded in general and administrative expenses in the accompanying condensed consolidated statements of operations.

The change in the acquisition-related contingent consideration obligations is as follows (in thousands):

	Three Months Ended

	December 31, 2017
Beginning balance	$ —
Initial fair value measurements	47,030
Change in fair value	—
Ending balance	$ 47,030

There were no transfers of assets or liabilities between Level 2 and Level 3 during the first six months of fiscal year 2018 or 2017. There were no impairments recorded for the first six months of fiscal 2018 or 2017.

7.Share-based Compensation

Shares reserved for issuance

The Company had reserved for issuance for the periods noted (in thousands):

	December 31, 2017	June 30, 2017
2014 Employee Stock Purchase Plan	6,517	7,785
Employee stock options and awards outstanding	10,900	9,726
2013 Equity Incentive Plan shares available for grant	12,242	7,629
Total shares reserved for issuance	29,659	25,140

Share-based compensation expense recognized in the condensed consolidated financial statements by line item caption is as follows (in thousands):

	Three Months Ended		Six Months Ended	
	December 31, 2017	December 31, 2016	December 31, 2017	December 31, 2016
Cost of product revenue	$134	$ 122	$226	$ 190
Cost of service revenue	296	186	429	418
Research and development	1,829	906	2,880	1,968
Sales and marketing	2,699	1,180	4,342	2,321
General and administrative	2,067	987	3,951	1,959
Total share-based compensation expense	$7,025	$ 3,381	$11,828	$ 6,856

During the six months ended December 31, 2017 or 2016, the Company did not capitalize any share-based compensation expense in inventory, as the amounts were immaterial.

Stock Awards

Stock awards may be granted under the 2013 Equity Incentive Plan (the "2013 Plan") on terms approved by the Compensation Committee of the Board of Directors. Stock awards generally provide for the issuance of restricted stock units ("RSUs") including performance or market-based RSUs which vest over a fixed period of time or based upon the satisfaction of certain performance criteria. The Company uses the straight-line method for expense attribution, and beginning with fiscal 2017, the Company does not estimate forfeitures, but accounts for them as incurred.

The following table summarizes stock award activity for the six months ended December 31, 2017 (in thousands, except grant date fair value):

	Number of Shares	Weighted-Average Grant Date Fair Value	Aggregate Fair Market Value
Non-vested stock awards outstanding at June 30, 2017	6,664	$ 4.66	$ 61,440
Granted	3,726	11.13	
Vested	(1,871)	3.78	

Cancelled	(160)		5.17	
Non-vested stock awards outstanding at December 31, 2017	8,359	$	7.73	$ 104,653

24

The following table summarizes stock option activity for the six months ended December 31, 2017(in thousands, except per share and contractual term):

	Number of Shares	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Options outstanding at June 30, 2017	3,062	$ 4.06	4.19	$ 15,868
Exercised	(517)	4.42		
Cancelled	(4)	4.31		
Options outstanding at December 31, 2017	2,541	$ 3.99	3.28	$ 21,687
Vested and expected to vest at December 31, 2017	2,541	$ 3.99	3.28	$ 21,687
Exercisable at December 31, 2017	2,126	$ 4.24	3.08	$ 17,599

The fair value of each stock option grant under the 2013 Plan and 2005 Equity Incentive Plan is estimated on the date of grant using the Black-Scholes-Merton option valuation model with the weighted average assumptions noted in the following table. The Company uses the Monte-Carlo simulation model to determine the fair value and the derived service period of stock awards with market conditions, on the date of the grant. The expected term of options granted is derived from historical data on employee exercise and post-vesting employment termination behavior. The risk-free rate is based upon the estimated life of the option and the U.S. Treasury yield curve in effect at the time of grant. Expected volatility is based on the historical volatility on the Company's stock.

The fair value of each RSUs grant with performance-based vesting criteria ("PSUs") under the 2013 Plan is estimated on the date of grant using the Monte-Carlo simulation model to determine the fair value and the derived service period of stock awards with market conditions, on the date of the grant.

During the first quarter of fiscal 2018, the Company approved the grant of 1,154,014 stock awards to its vice president level employees or above ("VPs"), including 560,344 stock awards to its Executive Officers, and 939,925 stock awards to its other employees. Fifty percent (50%) of the stock awards granted to the VPs, except the chief executive officer, were in the form of PSUs, with grant date fair values of $10.90, and fifty percent (50%) of the stock awards granted were in the form of service-based RSUs. The Company's chief executive officer received sixty percent (60%) of his stock award grant in the form of PSUs, while forty percent (40%) of this award were in the form of RSUs, with a grant date fair value of $10.90. The RSUs vest from the original grant date as to one-third (1/3) on the one year anniversary and one-twelfth (1/12) each quarter thereafter, subject to continued service to the Company. No PSUs were granted during the second quarter of fiscal 2018.

For the PSUs referenced in the preceding paragraph, they will be considered earned once the Company's combined earnings per share equals or exceeds $0.32 for two consecutive quarters. (the "FY18 Performance Threshold"). Once the FY18 Performance Threshold is satisfied the PSUs shall vest with respect to the number of RSUs granted on the same date that have vested as of the date the FY18 Performance Threshold is satisfied and thereafter shall vest on the same schedule as the RSUs, subject to continued service to the Company. If the FY18 Performance Threshold is not met by the third anniversary of the grant date the award is canceled. In addition, the FY18 Performance Threshold shall be deemed satisfied upon the closing of a Change in Control (within the meaning of the Company's 2013 Equity Incentive Plan) in the event the per share consideration received by the Company's stockholders equals or exceeds $16.00 per share.

During the three months and six months ended December 31, 2017, none of the PSU grants referenced above achieved their FY18 Performance Threshold.

During the first quarter of fiscal 2017, the Company approved the grant of 1,505,120 stock awards to its VPs, including 680,000 stock awards to its Executive Officers, and 1,053,300 stock awards to other Company employees. Fifty percent (50%) of the stock awards granted to the VPs were in the form of PSUs, with grant date fair values ranging from $3.02 to $3.09, and fifty percent (50%) of the stock awards granted were in the form of RSUs. The RSUs vest from the original grant date as to one-third (1/3) on the one year anniversary and one-twelfth (1/12) each quarter thereafter, subject to continued service to the Company. No PSUs were granted during the second quarter of fiscal 2017.

The PSUs were considered earned once the Company's stock price equaled or exceeded $5.00 per share for 30 consecutive trading days after January 1, 2017 (the "FY17 Performance Threshold"). Once the FY17 Performance Threshold goal was attainted the PSUs began to vest on the same schedule as the RSUs that were granted at the same time, subject to continued service to the Company.

During the quarter ended March 31, 2017, all of the PSU grants referenced above achieved their FY17 Performance Threshold and as such, began vesting and will be released on the schedule as noted, subject to continued service to the Company.

The fair value of each share purchase option under the Company's Employee Stock Purchase Plan ("ESPP") is estimated on the date of grant using the Black-Scholes-Merton option valuation model with the weighted average assumptions noted in the following table. The expected term of the ESPP represents the term of the offering period of each option. The risk-free rate is based upon the estimated life and on the U.S. Treasury yield curve in effect at the time of grant. Expected volatility is based on the historical volatility on the Company's stock.

There were no shares granted under the ESPP during the three months ended December 31, 2017 or 2016. The weighted-average fair value of shares granted under the Company's 2014 ESPP during the six months ended December 31, 2017 and 2016, was $2.41 and $1.00, respectively. There were 1,267,930 and 1,103,599 shares issued under the Company's 2014 ESPP during the six months ended December 31, 2017 and 2016, respectively.

	Employee Stock Purchase Plan Six Month Ended			
	December 31, 2017		December 31, 2016	
Expected life	0.50 years		0.50 years	
Risk-free interest rate	1.15	%	0.40	%
Volatility	42	%	40	%
Dividend yield	—	%	—	%

8. Restructuring Charges

No restructuring charges were recorded during the three or six months ended December 31, 2017.

For the three and six months ended December 31, 2016, the Company recorded $1.9 million in restructuring and other charges including accelerated depreciation of leasehold improvements and fixed assets in the amount of $1.7 million and adjustments to estimated sub-lease income to be received related to the estimated future obligations for non-cancelable lease payments for excess facilities of $0.1 million.

Restructuring liabilities consisted of obligations pertaining to the estimated future obligations for non-cancelable lease payments, as well as severance and benefits obligations. The restructuring liabilities are recorded in "Other accrued liabilities" and "Other long-term liabilities" in the accompanying condensed consolidated balance sheets.

In fiscal 2017, the Company announced a reduction-in-force ("RIF"). The Company recorded $5.6 million in severance and benefits charges, net during the year ended June 30, 2017. Cash payments of $2.2 million were paid during the first six months of fiscal 2018. The balance of cash payments for the RIF was immaterial as of December 31, 2017. The excess facilities payments will continue through fiscal year 2023.

Total restructuring and related liabilities consist of (in thousands):

	Excess Facilities	Severance Benefits	Other	Total
Balance as of June 30, 2017	$ 2,184	$ 1,853	$ 85	$ 4,122
Period payments	(397)	(1,770)	(73)	(2,240)
Balance as of December 31, 2017	$ 1,787	$ 83	$ 12	$ 1,882

Less: current portion included in other accrued liabilities	473
Restructuring accrual included in other long-term liabilities	$1,409

9. Commitments and Contingencies

Purchase Commitments

The Company currently has arrangements with contract manufacturers and suppliers for the manufacture of its products. Those arrangements allow the contract manufactures to procure long lead-time component inventory based upon a rolling production forecast provided by the Company. The Company is obligated to purchase long lead-time component inventory that its contract manufacturer procures in accordance with the Company's forecast, unless the Company gives notice of order cancellation outside of applicable component lead-times. As of December 31, 2017, the Company had non-cancelable commitments to purchase $145.3 million of such

inventory. As of December 31, 2017 the Company had non-cancelable software and maintenance support commitments to purchase $19.0 million of software and support services.

Legal Proceedings

The Company may from time to time be party to litigation arising in the course of its business, including, without limitation, allegations relating to commercial transactions, business relationships or intellectual property rights. Such claims, even if not meritorious, could result in the expenditure of significant financial and managerial resources. Litigation in general, and intellectual property and securities litigation in particular, can be expensive and disruptive to normal business operations. Moreover, the results of legal proceedings are difficult to predict.

In accordance with applicable accounting guidance, the Company records accruals for certain of its outstanding legal proceedings, investigations or claims when it is probable that a liability will be incurred and the amount of loss can be reasonably estimated. The Company evaluates, at least on a quarterly basis, developments in legal proceedings, investigations or claims that could affect the amount of any accrual, as well as any developments that would result in a loss contingency to become both probable and reasonably estimable. When a loss contingency is not both probable and reasonably estimable, the Company does not record a loss accrual. However, if the loss (or an additional loss in excess of any prior accrual) is at least a reasonable possibility and material, then the Company would disclose an estimate of the possible loss or range of loss, if such estimate can be made, or disclose that an estimate cannot be made. The assessment whether a loss is probable or a reasonable possibility, and whether the loss or a range of loss is estimable, involves a series of complex judgments about future events. Even if a loss is reasonably possible, the Company may not be able to estimate a range of possible loss, particularly where (i) the damages sought are substantial or indeterminate, (ii) the proceedings are in the early stages, or (iii) the matters involve novel or unsettled legal theories or a large number of parties. In such cases, there is considerable uncertainty regarding the ultimate resolution of such matters, including the amount of any possible loss, fine or penalty. Accordingly, for current proceedings, except as noted below, the Company is currently unable to estimate any reasonably possible loss or range of possible loss. However, an adverse resolution of one or more of such matters could have a material adverse effect on the Company's results of operations in a particular quarter or fiscal year.

Brazilian Tax Assessment Matter

On May 28, 2007, the Public Treasury Department of the State of Sao Paolo, Brazil (the “Tax Authority”) assessed our Brazilian subsidiary, Enterasys Networks do Brasil Ltda. (“Enterasys Brasil”), based on an alleged underpayment of taxes. The Tax Authority also charged interest and penalties with respect to the assessment (collectively, the “ICMS Tax Assessment”). The Tax Authority denied Enterasys Brasil the use of certain presumed tax credits granted by the State of Espirito Santo, Brazil under the terms of the FUNDAP program for the period from February 2003 to December 2004. The value of the disallowed presumed tax credits is BRL 3.4 million (approximately U.S. $1.0 million), excluding interest and penalties. All currency conversions in this Legal Proceedings section are as of December 31, 2017.

Unable to resolve the matter at the administrative level, on October 1, 2014, Enterasys Brasil filed a lawsuit in the 11th Public Treasury Court of the Sao Paolo State Court of Justice (Judiciary District of Sao Paolo) to overturn or reduce the ICMS Tax Assessment. As part of this lawsuit, Enterasys Brasil requested a stay of execution, so that no tax foreclosure could be filed and no guarantee would be required until the court issued its final ruling. On or about October 6, 2014, the court granted a preliminary injunction staying any execution on the assessment, but requiring that Enterasys Brasil deposit the assessed amount with the court. Enterasys Brasil appealed this ruling and, on or about January 28, 2015, the appellate court ruled that no cash deposit (or guarantee) was required. In a decision dated August 28, 2017, and published on October 3, 2017, the court validated the assessment and penalty imposed by the Tax Authority, but ruled that the Tax Authority was charging an unlawfully high interest rate on the tax assessment

and penalty amounts, and ordered the interest rate reduced to the maximum Federal rate. The August 28, 2017 decision, were it to become final, would require Enterasys Brasil to pay a total of BRL 16.7 million (approximately U.S. $5.1 million), which includes penalties, court costs, attorneys' fees, and accrued interest as of December 31, 2017. The Company believes the ICMS Tax Assessment against Enterasys Brasil is without merit, has appealed the lower court's decision and has requested a stay of execution.

Based on the currently available information, the Company believes the ultimate outcome of the ICMS Tax Assessment litigation will not have a material adverse effect on the Company's financial position or overall results of operations. However, due to the complexities and uncertainty surrounding the judicial process in Brazil and the nature of the claims asserted, there can be no assurance of a favorable outcome for Enterasys Brasil, which recorded an accrual of BRL 9.4 million (approximately U.S. $2.9 million) as of the date the Company acquired Enterasys Networks.

The Company made a demand on April 11, 2014 for a defense from, and indemnification by, the former equity holder of Enterasys Networks, Inc. ("Seller") in connection with the ICMS Tax Assessment. Seller agreed to assume the defense of the ICMS Tax Assessment on May 20, 2014. In addition, through the settlement of an indemnification-related lawsuit with the Seller on June 18, 2015, Seller agreed to continue to defend the Company with respect to the ICMS Tax Assessment and to indemnify the Company for losses related thereto subject to certain conditions. These conditions include the offsetting of foreign income tax benefits realized by

the Company in connection with the acquisition of Enterasys. Based upon current projections of the foreign income tax benefits to be realized, and the potential liability in the event of an adverse final judgment in the ICMS Tax Assessment litigation, the Company does not presently anticipate that any amounts under the indemnification will be due from the Seller in connection with the ICMS Tax Assessment.

In re Extreme Networks, Inc. Securities Litigation

On October 23 and 29, 2015, putative class action complaints alleging violations of securities laws were filed in the U.S. District Court for the Northern District of California against the Company and three of its former officers (Charles W. Berger, Kenneth B. Arola, and John T. Kurtzweil). Subsequently, the cases were consolidated (In re Extreme Networks, Inc. Securities Litigation, No. 3:15-CY-04883-BLF). Plaintiffs allege that defendants violated the securities laws by disseminating materially false and misleading statements and concealing material adverse facts regarding the Company's financial condition, business operations and growth prospects. Plaintiffs seek unspecified damages on behalf of a purported class of investors who purchased the Company's common stock from September 12, 2013 through April 9, 2015. On June 28, 2016, the Court appointed a lead plaintiff. On September 26, 2016, the lead plaintiff filed a consolidated complaint. On November 10, 2016, defendants filed a motion to dismiss, which the Court granted with leave to amend on April 27, 2017. On June 2, 2017, the lead plaintiff filed an amended complaint, which, on July 10, 2017, defendants again moved to dismiss. The Court held a hearing on Defendants' motion to dismiss on December 14, 2017, and a ruling is expected in the next few months. The Company believes plaintiffs' claims are without merit and intends to defend them vigorously.

On February 18, 2016, a shareholder derivative case was filed in the Superior Court of California, Santa Clara County (Shaffer v. Kispert et al., No. 16 CV 291726). The complaint names current and former officers and directors as defendants, and seeks recovery on behalf of the Company based on substantially the same allegations as the securities class action litigation described above. The parties have agreed to stay the case pending further activities in the securities class action litigation, and the court signed a stipulation and order to that effect.

XR Communications, LLC d/b/a Vivato Technologies, LLC v. Extreme Networks, Inc.

On April 19, 2017, XR Communications, LLC ("XR") (d/b/a Vivato Technologies) sued the Company in the Central District of California (XR Communications, LLC, dba Vivato Technologies v. Extreme Networks, Inc., No. 2:17-cv-2953-AG). The operative Second Amended Complaint asserts infringement of U.S. Patent Nos. 7,062,296, 7,729,728, and 6,611,231 based on the Company's manufacture, use, sale, offer for sale, and/or importation into the United States of certain access points and routers supporting multi-user, multiple-input, multiple-output technology. XR seeks unspecified damages, on-going royalties, pre- and post-judgment interest, and attorneys' fees (but no injunction). On July 24, 2017, the Company filed its answer. In an order entered on October 23, 2017, the court scheduled a claim construction hearing for April 10, 2018, and ordered any trial of this matter to commence no earlier than March 19, 2019. The Company believes the claims are without merit and intends to defend them vigorously.

Indemnification Obligations

Subject to certain limitations, the Company may be obligated to indemnify its current and former directors, officers and employees. These obligations arise under the terms of its certificate of incorporation, its bylaws, applicable contracts, and applicable law. The obligation to indemnify, where applicable, generally means that the Company is required to pay or reimburse, and in certain circumstances the Company has paid or reimbursed, the individuals' reasonable legal expenses and possibly damages and other liabilities incurred in connection with certain legal matters. For example, the Company currently is paying or reimbursing legal expenses being incurred by certain current and former officers and directors in connection with the shareholder litigation described above. The Company also procures Directors and Officers insurance to help cover its defense and/or indemnification costs, although its ability to

recover such costs through insurance is uncertain. While it is not possible to estimate the maximum potential amount that could be owed under these indemnification agreements due to the Company's limited history with prior indemnification claims, indemnification (including defense) costs could, in the future, have a material adverse effect on the Company's consolidated financial position, results of operations and cash flows.

10. Income Taxes

For the three months ended December 31, 2017 and 2016, the Company recorded income tax benefit of $1.6 million and income tax provision of $1.2 million, respectively. For the six months ended December 31, 2017 and 2016, the Company recorded income tax provision of $0.1 million and $2.1 million, respectively.

The income tax provisions for the three months ended December 31, 2017 and 2016, consisted primarily of taxes on the income of the Company’s foreign subsidiaries as well as tax expense associated with the establishment of a U.S. deferred tax liability for amortizable goodwill resulting from the acquisition of Enterasys Networks, Inc., the Zebra WLAN Business and the Campus Fabric Business. The tax provision for the three months ended December 31, 2017 is offset by a tax benefit of $2.5 million resulting from the reduction of the U.S. Federal tax rate from 35% to 21% applied to our deferred tax liability related to amortizable goodwill as required by the recently enacted U.S. tax legislation discussed below. The income tax provisions for both fiscal years were calculated based on the actual results of operations for the three months ended December 31, 2017 and 2016, and therefore may not reflect the annual effective tax rate.

The income tax provisions for the six months ended December 31, 2017 and 2016 consisted primarily of taxes on the income of the Company’s foreign subsidiaries as well as tax expense associated with the establishment of a U.S. deferred tax liability for amortizable goodwill resulting from the acquisitions referenced above. The income tax provision for the six months ended December 31, 2017 is offset by the tax benefit of $2.5 million resulting from the U.S. Federal tax legislation referenced above.

On December 22, 2017, the President of the United States signed and enacted into law H.R. 1, the Tax Cuts and Jobs Act (“TCJA”), which, except for certain provisions, is effective for tax years beginning on or after January 1, 2018. As a fiscal year taxpayer, the Company will not be subject to the majority of the tax law provisions until fiscal year 2019; however, there are certain significant items of impact that will be recognized in fiscal year 2018. Because a change in tax law is accounted for in the period of enactment, the effects of the TCJA, a tax benefit of $2.5 million, have been reflected in the second quarter of fiscal 2018.

The TCJA’s primary change is a reduction in the U.S. Federal statutory corporate tax rate from 35% to 21%, including a pro rata reduction from 35% to 28% for the Company in fiscal 2018. As a result, the Company has recognized a tax benefit in the amount of $2.5 million in the second quarter of fiscal 2018 due to the revaluation of the Company's deferred tax liability related to amortizable goodwill to reflect the lower statutory rate. Because the U.S. deferred tax assets are offset by a full valuation allowance, the reduction in deferred tax assets for the lower rate was fully offset by a corresponding reduction in valuation allowance resulting in no additional tax provision.

The TCJA moves the U.S. from a global taxation regime to a modified territorial regime. Under the territorial regime, the company’s foreign earnings will generally not be subject to tax in the US. As part of transitioning to this new regime, U.S. companies are required to pay tax on historical earnings generated offshore that have not been repatriated to the U.S. (“Transition Tax”). The Company has estimated as of the second quarter of fiscal 2018, there will be no incremental tax provision relating to the Transition Tax given the Company’s ability to utilize existing tax attributes to offset the impact of the deemed repatriation.

The TCJA makes broad and complex changes to the U.S. tax code, and in certain instances, lacks clarity and is subject to interpretation until additional U.S. Treasury guidance is issued. On December 22, 2017, the SEC issued guidance under Staff Accounting Bulletin No. 118, Income Tax Accounting Implications of the Tax Cuts and Jobs Act (“SAB 118”), which allows registrants to record provisional amounts during a one year “measurement period” similar to that used when accounting for business combinations. However, the measurement period is deemed to have ended earlier when the registrant has obtained, prepared and analyzed the information necessary to finalize its accounting. During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared or analyzed. The SAB summarizes a three-step process to be applied at each reporting period to account for and qualitatively disclose: (1) the effects of the change in tax law for which accounting is complete; (2) provisional amounts (or adjustments to provisional amounts) for the effects of the tax law where accounting is not complete, but that a reasonable estimate has been determined; and (3) a reasonable estimate cannot yet be made and

therefore taxes are reflected in accordance with law prior to the enactment of the TCJA.

Amounts recorded where accounting is complete in the three and six months ended December 31, 2017 principally relate to the reduction in the U.S. federal tax rate to 21 percent, which resulted in the Company reporting an income tax benefit of $2.5 million to remeasure deferred taxes liabilities associated with indefinitely lived intangible assets that will reverse at the new 21% rate. Absent this deferred tax liability, the Company is in a net deferred tax asset position that is offset by a full valuation allowance. Though the impact of the rate change related to net deferred tax assets has a net tax effect of zero, the accounting to determine the gross change in the deferred tax position and the offsetting valuation is not yet complete. In accordance with Staff Accounting Bulletin ("SAB") 118, the estimated income tax impact associated with the Transition Tax of zero represents our best estimate based on interpretation of the U.S. legislation as we are still accumulating data to finalize the underlying calculation. In accordance with SAB 118, estimated income tax impact associated with the Transition Tax is considered provisional and will be finalized prior to the end of the measurement period. The ultimate impact may differ from these provisional amounts, due to, among other things, additional analysis, changes in interpretations and assumptions the Company has made, additional regulatory guidance that may be issued, and actions the Company may take as a result of the TCJA.

With respect to provisions of the TCJA effective for tax years beginning on or after January 1, 2018, the company anticipates several new provisions may potentially impact tax provisions in future periods including limitations on the deductibility of interest expense and certain executive compensation, a minimum tax on certain foreign earnings (i.e., global intangible low-taxed income or “GILTI”), as well as a base-erosion and anti-abuse tax (“BEAT”). The GILTI provisions require the Company to include in its U.S. income tax return foreign subsidiary earnings in excess of an allowable return on the foreign subsidiary’s tangible assets. Based on initial assessment and interpretation of the new provision, the Company expects that it will be subject to incremental U.S. tax on GILTI income beginning in fiscal 2019. The Company may elect to account for GILTI tax as a component of tax expense in the period in which it is incurred or account for the GILTI tax in the measurement of deferred taxes. The Company is continuing to evaluate this particular provision and therefore has not yet elected a method but will do so once our analysis is complete.. The BEAT provisions in the Tax Reform Act eliminate the deduction of certain base-erosion payments made to related foreign corporations, and impose a minimum tax if greater than regular tax. There is a reasonable amount of uncertainty surrounding the interpretation of this new provision, however, based on initial assessment and a conservative interpretation of the new provision, the Company expects that it will be subject to the incremental U.S. tax on BEAT income beginning in fiscal 2019.

The Company has provided a full valuation allowance against all of its U.S. federal and state deferred tax assets as well as the deferred tax assets in Australia, Brazil and Japan. A valuation allowance is determined by assessing both negative and positive evidence to determine whether it is “more likely than not” that the deferred tax assets are recoverable; such assessment is required on a jurisdiction by jurisdiction basis. The Company's inconsistent earnings in recent periods, including a cumulative loss over the last three years, coupled with its difficulty in forecasting future revenue trends as well as the cyclical nature of its business represent sufficient negative evidence to require a full valuation allowance against its U.S. federal and state net deferred tax assets as well as the above mentioned foreign jurisdictions. This valuation allowance will be evaluated periodically and can be reversed partially or in whole if business results and the economic environment have sufficiently improved to support realization of some or all of the Company's deferred tax assets.

The acquisition of Enterasys in October 2013 included a U.S. parent company as well as its wholly-owned domestic and foreign subsidiaries. The Company elected to treat this stock acquisition as an asset purchase by filing the required election forms under IRC Sec 338(h)(10). Additionally, the Company completed asset purchases of the Zebra WLAN Business, the Campus Fabric Business and the Brocade Data Center Business in October 2016, July 2017 and October 2017, respectively. The Company has estimated the value of the intangible assets from these transactions and is amortizing the amounts over 15 years for tax purposes. During the three and six months ended December 31, 2017, the Company deducted $2.1 million and $3.7 million of tax amortization expense respectively, for each period related to capitalized goodwill resulting from these acquisitions. As of December 31, 2017, the Company recorded a deferred tax liability of $4.9 million related to this goodwill amortization which is not considered a future source of taxable income in evaluating the need for a valuation allowance against its deferred tax assets.

The Company had $19.0 million of unrecognized tax benefits as of December 31, 2017. The future impact of the unrecognized tax benefit of $18.9 million, if recognized, would result in adjustments to deferred tax assets and corresponding adjustments to the valuation allowance. The Company does not anticipate any events to occur during the next twelve months that would reduce the unrealized tax benefit as currently stated in the Company’s balance sheet.

The Company’s policy is to accrue interest and penalties related to the underpayment of income taxes as a component of tax expense in the accompanying condensed consolidated statements of operations.

In general, the Company’s U.S. federal income tax returns are subject to examination by tax authorities for fiscal years 2001 forward due to net operating losses and the Company's state income tax returns are subject to examination for fiscal years 2000 forward due to net operating losses. The Company is currently under examination by the state of

North Carolina for the fiscal years ended 2014, 2015 and 2016.

11. Net Loss Per Share

Basic earnings per share is calculated by dividing net earnings by the weighted average number of common shares outstanding during the period. Dilutive earnings per share is calculated by dividing net earnings by the weighted average number of common shares used in the basic earnings per share calculation plus the dilutive effect of shares subject to repurchase, options, warrants and unvested restricted stock units.

The following table presents the calculation of net loss per share of basic and diluted (in thousands, except per share data):

	Three Months Ended		Six Months Ended	
	December 31,	December 31,	December 31,	December 31,
	2017	2016 (As adjusted)	2017	2016 (As adjusted)
Net loss	$(31,923)	$(4,229)	$(27,547)	$(9,971)
Weighted-average shares used in per share calculation - basic and diluted	113,621	107,425	112,931	106,690
Net loss per share - basic and diluted	$(0.28)	$(0.04)	$(0.24)	$(0.09)

The following securities were excluded from the computation of net loss per diluted share of common stock for the periods presented as their effect would have been anti-dilutive (in thousands):

	Three Months Ended		Six Months Ended	
	December 31,	December 31,	December 31,	December 31,
	2017	2016	2017	2016
Options to purchase common stock	2,622	2,301	2,781	2,762
Restricted stock units	7,950	28	7,162	79
Employee Stock Purchase Plan shares	834	330	906	330
Total shares excluded	11,406	2,659	10,849	3,171

12. Foreign Exchange Forward Contracts

The Company uses derivative financial instruments to manage exposures to foreign currency. The Company’s objective for holding derivatives is to use the most effective methods to minimize the impact of these exposures. The Company does not enter into derivatives for speculative or trading purposes. The fair value of the Company’s derivatives in a gain position are recorded in “Prepaid expenses and other current assets” and derivatives in a loss position are recorded in “Other accrued liabilities” in the accompanying condensed consolidated balance sheets. Changes in the fair value of derivatives are recorded in “Other income (expense), net” in the accompanying condensed consolidated statements of operations. The Company enters into foreign exchange forward contracts to mitigate the effect of gains and losses generated by foreign currency transactions related to certain operating expenses and re-measurement of certain assets and liabilities denominated in foreign currencies. These derivatives do not qualify as hedges.

As of December 31, 2017, forward foreign currency contracts had a notional principal amount of $1.5 million and an immaterial unrealized gain. These contracts have maturities of less than 60 days. Changes in the fair value of these foreign exchange forward contracts are offset largely by re-measurement of the underlying assets and liabilities. As of December 31, 2016, the Company did not have any derivative instruments outstanding.

Foreign currency transactions gains and losses from operations was loss of $0.6 million and gain of $1.1 million for the three months ended December 31, 2017 and 2016, respectively. Foreign currency transactions gains and losses from operations was loss of $1.1 million and gain of $0.8 million for the six months ended December 31, 2017 and 2016, respectively.

13. Disclosure about Segments of an Enterprise and Geographic Areas

The Company operates in one segment, the development and marketing of network infrastructure equipment. The Company conducts business globally and is managed geographically. Revenue is attributed to a geographical area based on the location of its customers. The Company operates in three geographical areas: Americas, which includes the United States, Canada, Mexico, Central America and South America; EMEA, which includes Europe, Russia, Middle East and Africa; and APAC which includes Asia Pacific, South Asia, India, Australia and Japan.

The Company attributes revenues to geographic regions and channels based on the customer's ship-to location as follows (in thousands):

	Three Months Ended December 31, 2017			December 31, 2016 (As adjusted)		
	Distributor	Direct	Total	Distributor	Direct	Total
Americas:						
United States	$56,269	$54,559	$110,828	$39,063	$38,396	$77,459
Other	1,155	5,698	6,853	2,827	3,243	6,070
Total Americas	57,424	60,257	117,681	41,890	41,639	83,529
EMEA:	55,956	33,624	89,580	36,070	24,361	60,431
APAC:	5,131	18,731	23,862	1,613	10,804	12,417
Total net revenues	$118,511	$112,612	$231,123	$79,573	$76,804	$156,377

	Six Months Ended December 31, 2017			December 31, 2016 (As adjusted)		
	Distributor	Direct	Total	Distributor	Direct	Total
Americas:						
United States	$98,661	$105,549	$204,210	$66,054	$65,225	$131,279
Other	15,491	12,093	27,584	4,220	12,871	17,091
Total Americas	114,152	117,642	231,794	70,274	78,096	148,370
EMEA:	107,188	61,527	168,715	67,369	40,890	108,259
APAC:	8,395	33,934	42,329	3,065	19,287	22,352
Total net revenues	$229,735	$213,103	$442,838	$140,708	$138,273	$278,981

The Company’s long-lived assets are attributed to the geographic regions as follows (in thousands):

Long Lived Assets	December 31, 2017	June 30, 2017 (As adjusted)
Americas	$ 187,617	$ 67,369
EMEA	10,066	8,998
APAC	8,075	4,275
Total long lived assets	$ 205,758	$ 80,642

14.Subsequent Event

On January 31, 2018, the Company approved and on February 2, 2018 began executing a reduction-in-force (the “Plan”) to re-align the Company’s resources as a result of the Company’s recent acquisitions of the Campus Fabric Business and the Data Center Business. The Plan is expected to reduce the overall costs of the Company and to accelerate the

achievement of the Company's operating margin target objectives. The Company expects to incur charges of approximately $4.0 million in connection with the Plan. Upon completion of the Plan, the potential savings expected to be achieved as a result of reduced employee related expenses and lower operating costs will yield annualized savings of $7.0 - $9.0 million. The costs associated with this Plan primarily include employee severance and benefits expenses. The amount and timing of the actual charges may vary due to required consultation activities with certain employees as well as compliance with statutory severance requirements in local jurisdictions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This quarterly report on Form 10-Q, including the following sections, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including in particular, our expectations regarding market demands, customer requirements and the general economic environment, future results of operations, and other statements that include words such as "may," "will," "should," "expect," "plan," "intend," "anticipate," "believe," "estimate," " "potential," "continue" and similar expressions. These forward-looking statements involve risks and uncertainties. We caution investors that actual results may differ materially from those projected in the forward-looking statements as a result of certain risk factors identified in the section entitled "Risk Factors" in this Quarterly Report on Form 10-Q for the second quarter of fiscal six months ended December 31, 2016, our Annual Report on Form 10-K for the fiscal year ended June 30, 2017, and other filings we have made with the Securities and Exchange Commission. These risk factors, include, but are not limited to: fluctuations in demand for our products and services; a highly competitive business environment for network switching equipment; our effectiveness in controlling expenses; the possibility that we might experience delays in the development or introduction of new technology and products; customer response to our new technology and products; fluctuations in the global economy; risks related to pending or future litigation; a dependency on third parties for certain components and for the manufacturing of our products and our ability to receive the anticipated benefits of the acquisition of the Zebra Business.

Business Overview

Extreme Networks, Inc., together with its subsidiaries (collectively referred to as "Extreme" and as "we", "us" and "our") is a leader in providing software-driven networking solutions for enterprise customers. Providing a combined end-to-end solution from the data center to the access point, Extreme designs, develops and manufactures wired and wireless network infrastructure equipment and develops the software for network management, policy, analytics, security and access controls. We strive to help our customers and partners Connect Beyond the Network™ by building world-class software and network infrastructure solutions that solve the wide range of problems faced by information technology ("IT") departments.

Enterprise network administrators from the data center to the access layer need to respond to the rapid digital transformational trends of cloud, mobility, big data, social business and the ever-present need for network security. Accelerators such as Internet of Things ("IoT"), artificial intelligence ("AI"), bring your own device ("BYOD"), machine learning, cognitive computing, and robotics add complexity to challenge the capabilities of traditional networks. Technology advances have a profound effect across the entire enterprise network by placing unprecedented demands on network administrators to enhance management capabilities, scalability, programmability, agility, and analytics of the enterprise networks they manage.

We believe that understanding the following key developments is helpful to an understanding of our operating results for the fiscal quarter ended December 31, 2017.

Industry Developments

The networking industry appears to be invigorated by a wave of technological change:

- Ethernet (wired and wireless) has solidified its role in both public and private networks through its scalability, adaptability and cost-effectiveness. At the same time, the enterprises and service providers expect the technology to follow a price-performance curve that mandates continued innovation by Ethernet vendors.
- The mobile workforce continues to proliferate. Employees expect high-quality and secure access to corporate resources in a BYOD world across a diversity of endpoints such as laptops, tablets, smart phones and wearables, whether they are within the corporate firewall or on-the-go. With ExtremeManagement, IT departments focus their

investment decisions on this mobile workforce, taking a unified view of wireless access, from the campus core and the data center. Networking vendors offer end-to-end solutions that permit IT managers to meet employee expectations and to maximize IT return on investment.

- Verticals such as healthcare, education, manufacturing, government, and hospitality, which includes sports and entertainment venues and retail are connecting with their customers and guests beyond the network. These enterprises are investing in guest and location technologies that connect with their customers via their mobile devices over their WLAN. This allows them to obtain rich analytics for contextual marketing, which in turn, enables them to deliver a personalized brand experience. ExtremeGuest™ and ExtremeLocation™ have been built on cloud-based technology for simple implementation and fast release to market to better provide necessary insights into guest demographics and location-based analytics.

- Growing usage of the cloud. Enterprises have migrated increasing numbers of applications and services to either private clouds or public clouds offered by third parties. In either case, the network infrastructure must adapt to this new dynamic environment. Intelligence and automation are key if enterprises are to derive maximum benefit from their cloud deployments. Ethernet speeds, scaling from 10 Gigabits per second ("G") to 40G and even 100G, provide the infrastructure for both private and public clouds. In addition, there is growing interest in software-defined networking ("SDN") approaches that may include technologies such as OpenFlow, OpenStack, and CloudStack for increased network agility.
- Vendor consolidation is expected to continue. Consolidation of vendors within the enterprise network equipment market and between adjacent markets (storage, security, wireless & voice software and applications) continues to gain momentum. We identified this trend in 2013 with our acquisition of Enterasys. Further, we believe customers are demanding more end-to-end, integrated networking solutions. To address this demand, we acquired the wireless local area network business (the "WLAN Business") from Zebra Technologies Corporation in October 2016, Avaya's fabric-based secure networking solutions and network security solutions business (the "Campus Fabric Business") in July 2017, and Brocade's data center business (the "Data Center Business") in October 2017.

We seek to differentiate ourselves in the market by delivering a value proposition based on a software-driven approach to network management, control and analytics.

Our key points of differentiation include:

- Data Center to access edge wired and wireless solutions. The addition of the WLAN Business, the Campus Fabric Business and the Data Center Business will allow Extreme to offer a complete, unified portfolio of software-driven network access solutions. We offer the latest in wireless access points for both outdoor and indoor use plus a complete line of switches for the Campus, Core and Data Center.
- Multi-vendor management from a "single pane-of-glass". Extreme's Management Center ("EMC") is a single unified management system that is designed to provide visibility, security, and control across the entire network. This can make the network easier to manage and troubleshoot, often with lower operating expenses. Extreme's software can manage third-party vendors' network devices, including Campus Fabric products, enabling our customers to potentially maximize device lifespan and protect investments.
- Software-driven vertical solutions. Extreme's software-driven solutions are designed to be easily adaptable to vertical solutions in industries such as healthcare, education, manufacturing, retail, transportation and logistics, government and hospitality. Extreme solutions are also designed to be well-suited for vertical-specific partners in these industries.
- Application-aware Quality of Service ("QoS") and analytics. Extreme has innovative analytic software that enables our customers to see application usage across the network and apply policies that maximize network capabilities. This allows our customers to improve the user experience.
- Built-in identity and access control. ExtremeControl™, a network access control, and identity management solution is delivered with the wired and wireless hardware. This may reduce the need to add on expensive software or hardware that may require complex compatibility testing.
- Easier policy assignment and SDN. ExtremeControl™ and ExtremeManagement™ software allow our customers to assign policy across the entire network. The SDN component adds versatility for implementing policies that increase network utilization.
- 100% in-sourced tech support. ExtremeWorks™ delivers best in class customer support in the industry with 92% first call resolution through a 100% in-sourced support model.

Extreme sells products primarily through an ecosystem of channel partners which combine our Ethernet, wireless and management and software analytics products with their vertical-specific offerings to create IT solutions for end user customers.

Acquisitions

Campus Fabric

On July 14, 2017 (“Avaya Closing Date”), we completed the acquisition of Avaya Inc’s. fabric-based secure networking solutions and network security solutions business (the “Campus Fabric Business”), that had been announced on March 7, 2017, and funds were remitted to Avaya pursuant to the Avaya Purchase Agreement. We acquired customers, employees, technology and other assets, as well as assumed contracts and other liabilities of the Campus Fabric Business, for a purchase price of $79.8 million,

including all adjustments. Pursuant to certain ancillary agreements, Avaya also provides us transition services for a period of time following the Avaya Closing Date. See Note 2. Business Combination for additional information.

The acquisition was accounted for using the acquisition method of accounting whereby the acquired assets and liabilities of the Campus Fabric Business is recorded at their respective fair values and added to those of ours including an amount for goodwill representing the difference between the acquisition consideration and the fair value of the identifiable net assets. Results of operations of the Campus Fabric Business are included in our operations beginning with the Avaya Closing Date.

During the three months and six months ended December 31, 2017, we recognized acquisition and integration costs of $6.6 million and $9.5 million, respectively, related to the Campus Fabric Business which is included in "Acquisition and integration costs, net of bargain purchase gain" in the accompanying condensed consolidated statements of operations.

Data Center Business

On October 27, 2017 ("Brocade Closing Date"), we completed our acquisition of Brocade Communication Systems, Inc.'s ("Brocade") Data Center Business that had been announced on October 3, 2017. Upon the terms and subject to the conditions of the Brocade Asset Purchase Agreement, we acquired customers, employees, technology and other assets of the Data Center Business, as well as assumed certain contracts and other liabilities of the Data Center Business, for an upfront cash closing payment equal to $23.0 million, plus deferred payments of $20.0 million to be paid $1.0 million per quarter for 20 quarters following the Brocade Closing Date, plus quarterly earn out payments equal to 50% of profits of the Data Center Business for the five-year period commencing at the end of our first full fiscal quarter following the Brocade Closing Date. Pursuant to certain ancillary agreements, Brocade also provides us with transition services for a period of time following the Brocade Closing Date. See Note 2. Business Combination for additional information.

The acquisition was accounted for using the acquisition method of accounting whereby the acquired assets and liabilities of the Data Center Business is recorded at their respective fair values and added to those of ours including an amount for goodwill representing the difference between the acquisition consideration and the fair value of the identifiable net assets. Results of operations of the Data Center Business are included in our operations beginning with the Closing Date.

During the three and six months ended December 31, 2017, we recognized acquisition costs of $32.5 million and $33.8 million, respectively, including a $25.0 million consent fee paid to Broadcom Corporation ("Broadcom"), to terminate a previous asset purchase agreement entered into by the Company to purchase the Data Center Business from Broadcom, in anticipation of Broadcom's acquisition of Brocade. The fee was paid to Broadcom to allow the Company to buy the Data Center Business directly from Brocade. Acquisitions costs are included in "Acquisition and integration costs, net of bargain purchase gain" in the accompanying condensed consolidated statements of operations.

Key Financial Metrics

During the second quarter of fiscal 2018, we reflected the following results:

- Net revenues of $231.1 million compared to $156.4 million in the second quarter of fiscal 2017.
- Product revenues of $174.9 million compared to $118.1 million in the second quarter of fiscal 2017.
- Service revenues of $56.3 million compared to $38.3 million in the second quarter of fiscal 2017.
- Total gross margin of 55.8% of net revenues compared to 50.9% of net revenues in the second quarter of fiscal 2017.
- Operating loss of $31.1 million compared to operating loss $3.0 million in the second quarter of fiscal 2017.

- Net loss of $31.9 million compared to a net loss of $4.2 million in the second quarter of fiscal 2017.
- Cash flow provided by operating activities of $14.2 million compared to $19.3 million in the six months ended December 31, 2016.
- Cash, cash equivalents and marketable securities of $128.2 million compared to $130.5 million as of June 30, 2017.

Net Revenues

35

The following table presents net product and service revenue for the periods presented (dollars in thousands):

	Three Months Ended				Six Months Ended			
	December 31,	December 31,	$	%	December 31,	December 31,	$	%
	2017	2016 (As adjusted)	Change	Change	2017	2016 (As adjusted)	Change	Change
Net Revenues:								
Product	$174,850	$ 118,055	$56,795	48.1 %	$339,624	$ 208,148	$131,476	63.2 %
Percentage of net revenue	75.7 %	75.5 %			76.7 %	74.6 %		
Service	56,273	38,322	17,951	46.8 %	103,214	70,833	32,381	45.7 %
Percentage of net revenue	24.3 %	24.5 %			23.3 %	25.4 %		
Total net revenues	$231,123	$ 156,377	$74,746	47.8 %	$442,838	$ 278,981	$163,857	58.7 %

Product revenues increased $56.8 million or 48.1% for the three months ended December 31, 2017 as compared to the corresponding period of fiscal 2017. Product revenues increased $131.5 million or 63.2% for the six months ended December 31, 2017as compared to the corresponding period of fiscal 2017. The increase in product revenues for both periods of fiscal 2018 were attributable to low single digit organic growth and growth related to the acquisitions of the WLAN Business, Campus Fabric Business and the Data Center Business.

Service revenues increased $18.0 million, or 46.8% for the three months ended December 31, 2017 as compared to the corresponding period of fiscal 2017. Service revenues increased $32.4 million or 45.7% for the six months ended December 31, 2017 as compared to the corresponding period of fiscal 2017. The increase in service revenue for both periods of fiscal 2018 were due to the increased number of service contracts acquired as a result of the acquisitions of the WLAN Business, Campus Fabric Business and the Data Center Business.

The following table presents the product and service, gross profit and the respective gross profit percentages for the periods presented (dollars in thousands):

	Three Months Ended				Six Months Ended			
	December 31,	December 31,	$	%	December 31,	December 31,	$	%
	2017	2016 (As adjusted)	Change	Change	2017	2016 (As adjusted)	Change	Change
Gross profit:								
Product	$96,378	$55,428	$40,950	73.9%	$181,107	$101,272	$79,835	78.8%
Percentage of product revenue	55.1 %	47.0 %			53.3 %	48.7 %		
Service	32,608	24,224	8,384	34.6%	60,260	44,266	15,994	36.1%
Percentage of service revenue	57.9 %	63.2 %			58.4 %	62.5 %		
Total gross profit	$128,986	$79,652	$49,334	61.9%	$241,367	$145,538	$95,829	65.8%
Percentage of net revenue	55.8 %	50.9 %			54.5 %	52.2 %		

Product gross profit increased $41.0 million or 73.9% for the three months ended December 31, 2017 as compared to the corresponding period in fiscal 2017, primarily due to the acquisitions of the WLAN Business, the Campus Fabric Business and the Data Center Business and the corresponding revenues attributed to those acquisitions, more favorable manufacturing costs due to cost reduction efforts and a decrease in integration costs of $3.9 million including excess inventory charges related to the discontinuance of certain product lines due to the acquisition of the

Data Center Business as opposed to the same charges incurred related to the acquisition of the WLAN Business in the corresponding period in fiscal 2017. The increases in product gross profit were partially offset by increases in amortization of developed technology intangibles of $2.2 million and warranty charges of $1.0 million.

Product gross profit increased $79.8 million or 78.8% for the six months ended December 31, 2017 as compared to the corresponding period of fiscal 2017, primarily due to the acquisitions of the WLAN Business, Campus Fabric Business and the Data Center Business and the corresponding revenues attributed to those acquisitions and more favorable manufacturing costs due to cost reduction efforts. The increases in product gross profit were partially offset by increases in warranty charges of $2.7 million, royalty charges of $1.4 million, amortization of developed technology intangibles of $1.1 million, and integration costs of $0.9 million including excess inventory charges related to the discontinuance of certain product lines due to the acquisitions of the Campus Fabric Business and the Data Center Business as opposed to the same charges incurred related to the acquisition of the WLAN Business in the corresponding period in fiscal 2017.

Service gross profit increased $8.4 million or 34.6% for the three months ended December 31, 2017 as compared to the corresponding period in fiscal 2017, primarily due to the acquisitions of the WLAN Business, Campus Fabric Business and the Data Center Business as a result of higher number of maintenance contracts.

Service gross profit increased $16.0 million or 36.1% for the six months ended December 31, 2017 as compared to the corresponding period in fiscal 2017, primarily due the acquisitions of the WLAN Business, Campus Fabric Business and the Data Center Business as a result of higher number of maintenance contracts.

Operating Expenses

The following table presents operating expenses for the periods presented (dollars in thousands):

	Three Months Ended				Six Months Ended			
	December 31,	December 31,	$	%	December 31,	December 31,	$	%
	2017	2016 (As adjusted)	Change	Change	2017	2016 (As adjusted)	Change	Change
Research and development	$45,907	$ 24,013	$21,894	91.2 %	$80,192	$ 42,312	$37,880	89.5 %
Sales and marketing	65,659	41,025	24,634	60.0 %	121,220	77,884	43,336	55.6 %
General and administrative	11,669	9,397	2,272	24.2 %	23,854	17,684	6,170	34.9 %
Acquisition and integration costs, net of bargain purchase gain	34,115	4,169	29,946	718.3 %	38,359	6,490	31,869	491.0 %
Restructuring and related charges, net of reversals	—	1,853	(1,853)	(100.0)%	—	1,853	(1,853)	(100.0)%
Amortization of intangibles	2,746	2,175	571	26.3 %	4,360	6,317	(1,957)	(31.0)%
Total operating expenses	$160,096	$ 82,632	$77,464	93.7 %	$267,985	$ 152,540	$115,445	75.7 %

Research and Development Expenses

Research and development expenses consist primarily of salaries and related personnel expenses, consultant fees and prototype expenses related to the design, development, and testing of our products.

Research and development expenses increased by $21.9 million or 91.2% for the three months ended December 31, 2017 as compared to the corresponding period of fiscal 2017. The increase in research and development expenses was due to higher personnel costs (which consists of compensation, benefits and non-cash stock based compensation) of $18.5 million due to increased headcount related to the acquisitions of the WLAN Business, the Campus Fabric Business and the Data Center Business, $2.8 million in increased facility and information technology costs, $0.4 million in increased supplies and equipment costs and $0.2 million in increased travel and other costs.

Research and development expenses increased by $37.9 million or 89.5% for the six months ended December 31, 2017as compared to the corresponding period of fiscal 2017. The increase in research and development expenses was due to higher personnel costs (which consists of compensation, benefits and non-cash stock based compensation) of $29.7 million due to increased headcount related to the acquisitions of the WLAN Business, the Campus Fabric Business and the Data Center Business, $5.3 million in increased facility and information technology costs, $1.8 million in increased supplies and equipment costs and $1.1 million in increased travel and other costs.

Sales and Marketing Expenses

Sales and marketing expenses consist of salaries, commissions and related expenses for personnel engaged in marketing and sales functions, as well as trade shows and promotional expenses.

Sales and marketing expenses increased by $24.6 million or 60.0% for the three months ended December 31, 2017 as compared to the corresponding period of fiscal 2017 three and six months ended December 31, 2017 primarily as a result of the acquisitions of the WLAN Business, the Campus Fabric Business and the Data Center Business. The increase consisted of higher personnel costs including benefits and non-cash stock compensation of $18.5 million, $3.0 million in increased travel, meeting and conference costs, and $1.8 million in increased facility and information technology costs and $0.9 million in additional professional fees.

Sales and marketing expenses increased by $43.3 million or 55.6% for the six months ended December 31, 2017 as compared to the corresponding period of fiscal 2017 three and six months ended December 31, 2017 primarily as a result of the acquisitions of the WLAN Business, the Campus Fabric Business and the Data Center Business. The increase consisted of higher personnel costs including benefits and non-cash stock compensation of $30.9 million, $6.7 million in increased travel, meeting and conference costs, $3.4 million in increased facility and information technology costs and $2.1 million in additional professional fees.

General and Administrative Expenses

General and administrative expense consists primarily of personnel costs, legal and professional service costs, share-based compensation, travel and facilities and information technology costs.

General and administrative expenses increased by $2.3 million or 24.2% for the three months ended December 31, 2017 as compared to the corresponding period of fiscal 2017 primarily due to $1.6 million in higher compensation, benefits and non-cash stock based compensation, $0.7 million in higher bad debts provision, $0.3 million in higher professional fees and $0.3 million in reduced facility and information technology costs.

General and administrative expenses increased by $6.2 million or 34.9% for the six months ended December 31, 2017 as compared to the corresponding period of fiscal 2017 primarily due to $3.8 million in higher compensation, benefits and non-cash stock based compensation, $1.3 million in higher professional fees and $1.1 million in higher bad debts provision.

Acquisition and Integration Costs, Net of Bargain Purchase Gain

During the three months ended December 31, 2017 and 2016, we recorded $34.1 million and $4.2 million, respectively, of acquisition and integration costs.

For the three months ended December 31, 2017, we incurred $4.6 million of acquisition and $1.9 million of integration costs related to the acquisition of the Campus Fabric Business and $30.3 million of acquisition and $2.2 million of integration costs related to the acquisition of the Data Center Business. The Data Center Business acquisition costs includes a $25.0 million consent fee paid to Broadcom, to terminate a previous asset purchase agreement entered into by the Company to purchase the Data Center Business from Broadcom, in anticipation of Broadcom’s acquisition of Brocade. The fee was paid to Broadcom to allow the Company to buy the Data Center Business directly from Brocade. Included in Acquisition and Integration Costs is a gain on bargain purchase of $4.9 million related to the acquisition of the capital financing business (“CF Business”).

Expenses for the three months ended December 31, 2016 consisted primarily of legal and accounting services associated with the acquisition of the WLAN Business.

During the six months ended December 31, 2017 and 2016, we recorded $38.4 million and $6.5 million, respectively, of acquisition and integration costs.

For the six months ended December 31, 2017, we incurred $5.9 million of acquisition and $3.4 million of integration costs related to the acquisition of the Campus Fabric Business and $31.6 million of acquisition and $2.2 million of integration costs related to the acquisition of the Data Center Business. We also recorded a gain on bargain purchase of $4.9 million related to the acquisition of the CF Business.

Expenses for the six months ended December 31, 2016 consisted primarily of legal and accounting services associated with the acquisition of the WLAN Business.

Restructuring and Related Charges, Net of Reversals

No restructuring charges were recorded for the three or six months ended December 31, 2017.

For the three and six months ended December 31, 2016, we incurred $1.9 million in restructuring and other charges including accelerated depreciation of leasehold improvements and fixed assets in the amount of $1.7 million and adjustments to estimated sub-lease income to be received related to the estimated future obligations for non-cancelable lease payments for excess facilities of $0.1 million.

Amortization of Intangibles

During the three months ended December 31, 2017 and 2016, we recorded $2.7 million and $2.2 million, respectively, of amortization of our intangibles. The increase was mainly due to additional amortization related to the acquired intangibles from the Campus Fabric and the Data Center Business, partially offset by the acquired intangibles from the Enterasys acquisition becoming fully amortized.

During the six months ended December 31, 2017 and 2016, we recorded $4.4 million and $6.3 million, respectively of amortization expense as operating expenses in the accompanying condensed consolidated statements of operations. The reduction was due to the acquired intangibles from the Enterasys acquisition becoming fully amortized, partially offset by additional amortization related to the acquired intangibles from the Campus Fabric and the Data Center Business.

Interest Expense

During the three months ended December 31, 2017 and 2016, we recorded $2.5 million and $1.2 million, respectively, in interest expense. The increase in interest expense was primarily in connection with the increased balance of our Credit Facility due to the acquisitions of the Campus Fabric Business and the Data Center Business.

During the six months ended December 31, 2017 and 2016, we recorded $4.7 million and $1.8 million, respectively, in interest expense. The increase in interest expense was primarily in connection with the increased balance of our Credit Facility due to the acquisitions of the WLAN Business, the Campus Fabric Business and the Data Center Business.

Other Income (Expense), Net

During the three months ended December 31, 2017 and 2016, we recorded expense of $0.6 million and income of $1.0 million, respectively, in other income (expense), net. The change was primarily due to foreign exchange gains and losses from the revaluation of certain assets and liabilities denominated in foreign currencies into U.S. Dollars.

During the six months ended December 31, 2017 and 2016, we recorded income of 2.5 million and $0.8 million, respectively, in other income (expense), net. The income for fiscal 2018 period was primarily driven by a gain of $3.8 million due to the sale of non-marketable equity investment, partially offset by foreign exchange losses. The income for fiscal 2017 period was primarily due to foreign exchange gains from the revaluation of certain assets and liabilities denominated in foreign currencies into U.S. Dollars.

Provision (Benefit) for Income Taxes

For the three months ended December 31, 2017 and 2016, we recorded an income tax benefit of $1.6 million and an income tax provision of $1.2 million, respectively, which consisted primarily of taxes on the income of our foreign subsidiaries as well as tax expense associated with the establishment of a U.S. deferred tax liability for amortizable goodwill resulting from the acquisition of Enterasys, the WLAN Business and the Campus Fabric Business. The tax provision for the three months ended December 31, 2017 is offset by a tax benefit resulting from the reduction of the U.S. Federal tax rate from 35% to 21% applied to our deferred tax liability related to amortizable goodwill as required by the recently enacted U.S. tax legislation discussed in Note 10 of the accompanying condensed consolidated financial statements. The income tax provisions for both fiscal years were calculated based on the actual results of operations for the three months ended December 31, 2017 and 2016, and therefore may not reflect the annual effective tax rate.

For the six months ended December 31, 2017 and 2016, we recorded an income tax provision of $0.1 million and $2.1 million, respectively, which consisted primarily of taxes on the income of the Company's foreign subsidiaries as well as tax expense associated with the establishment of a U.S. deferred tax liability for amortizable goodwill resulting from the acquisitions referenced above. The income tax provision for the six months ended December 31, 2017 is offset by the tax benefit referenced above.

On December 22, 2017, the President of the United States signed and enacted into law H.R. 1, the Tax Cuts and Jobs Act ("TCJA"), which, except for certain provisions, is effective for tax years beginning on or after January 1, 2018. As a fiscal year taxpayer, we will not be subject to the majority of the tax law provisions until fiscal year 2019; however, there are certain significant items of impact that will be recognized in fiscal year 2018. Because a change in tax law is accounted for in the period of enactment, the effects of the TCJA, a tax benefit of $2.5 million, have been reflected in the second quarter of fiscal 2018. See Note 10 to the consolidated financial statements includes a detailed discussion of the various provisions of the new U.S. tax legislation.

Critical Accounting Policies and Estimates

Our unaudited condensed consolidated financial statements and the related notes included elsewhere in this report are prepared in accordance with accounting principles generally accepted in the United States. The preparation of these unaudited condensed consolidated financial statements requires us to make estimates and assumptions that affect the

reported amounts of assets, liabilities, revenue, costs and expenses, and related disclosures. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. In many instances, we could have reasonably used different accounting estimates, and in other instances changes in the accounting estimates are reasonably likely to occur from period to period. Accordingly, actual results could differ significantly from the estimates made by our management. On an ongoing basis, we evaluate our estimates and assumptions. To the extent that there are material differences between these estimates and actual results, our future financial statement presentation, financial condition, results of operations and cash flows will be affected.

As discussed in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our Annual Report on Form 10-K for the year ended June 30, 2017, we consider the following accounting policies to be the most critical in understanding the judgments that are involved in preparing our consolidated financial statements:

- Revenue Recognition
- Goodwill
- Share-based Payments

- Business Combinations
- Restructuring Charges

The following critical accounting policies are the only change since the filing of our last Annual Report on Form 10-K.

Revenue Recognition

We account for revenue in accordance with ASC Topic 606, Revenue from Contracts with Customers, which we adopted on July 1, 2017, using the full retrospective method. The adoption of this ASC, which we opted to early adopt pursuant to the guidance, requires us, among other things to restate prior periods to conform to current presentation and the adoption of ASC 606 is considered an accounting change. Under ASC 606 revenue is recognized when a customer obtains control of promised goods or services and is recognized at an amount that reflects the consideration expected to be received in exchange for such goods or services.

We derive the majority of our revenue from sales of our networking equipment, with the remaining revenue generated from service fees relating to maintenance contracts, professional services, and training for our products. We sell our products and maintenance contracts to partners in two distribution channels, or tiers. The first tier consists of a limited number of independent distributors that stock our products and sell primarily to resellers. The second tier of the distribution channel consists of a non-stocking distributors and value-added resellers that sell directly to end-users. Products and services may be sold separately or in bundled packages.

We consider customer purchase orders, which in some cases are governed by master sales agreements, to be the contracts with a customer. For each contract, we consider the promise to transfer products, each of which are distinct, to be the identified performance obligations. In determining the transaction price we evaluate whether the price is subject to refund or adjustment to determine the net consideration to which we expect to be entitled.

For all of our sales and distribution channels, revenue is recognized when control of the product is transferred to the customer (i.e. when our performance obligation is satisfied), which typically occurs at shipment for product sales. For product sales to our value-added resellers, non-stocking distributors and end-user customers, we generally do not grant return privileges, except for defective products during the warranty period. Sales incentives and other programs that we may make available to these customers are considered to be a form of variable consideration and we maintain estimated accruals and allowances using the expected value method.

Sales to stocking distributors are made under terms allowing certain price adjustments and limited rights of return (known as “stock rotation”) of the Company’s products held in their inventory. Revenue from sales to distributors is recognized upon the transfer of control to the distributor. Frequently, distributors need to sell at a price lower than the contractual distribution price in order to win business, and submits rebate requests for Company pre-approval prior to selling the product through at the discounted price. At the time the distributor invoices its customer or soon thereafter, the distributor submits a rebate claim to the Company to adjust the distributor’s cost from the contractual price to the pre-approved lower price. After the Company verifies that the claim was pre-approved, a credit memo is issued to the distributor for the rebate claim. In determining the transaction price, the Company considers these rebate adjustments to be variable consideration. Such price adjustments are estimated using the expected value method based on an analysis of actual claims, at the distributor level over a trailing twelve-month period of time considered adequate to account for current pricing and business trends. Stock rotation rights grant the distributor the ability to return certain specified amounts of inventory. Stock rotation adjustments are an additional form of variable consideration and are also estimated using the expected value method based on historical return rates The Company did not experience significant differences in its estimates during the six months ended December 31, 2017. For additional information, see Note 3, Summary of Significant Accounting Policies.

Business Combinations

We apply the acquisition method of accounting for business combinations. Under this method of accounting, all assets acquired and liabilities assumed are recorded at their respective fair values at the date of the completion of the transaction. Determining the fair value of assets acquired and liabilities assumed requires management's judgment and often involves the use of significant estimates and assumptions, including assumptions with respect to future cash inflows and outflows, discount rates, intangibles and other asset lives, among other items. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Market participants are assumed to be buyers and sellers in the principal (most advantageous) market for the asset or liability. Additionally, fair value measurements for an asset assume the highest and best use of that asset by market participants. As a result, we may have been required to value the acquired assets at fair value measures that do not reflect its intended use of those assets. Use of different estimates and judgments could yield different results. Any excess of the purchase price over the fair value of the net assets acquired is recognized as goodwill. If the fair value of net assets acquired exceeds the fair value of purchase price, a gain on bargain purchase is recognized in the statements of operations. Although we believe the assumptions and estimates we have made are reasonable and appropriate, they are based in part

on historical experience and information that may be obtained from the management of the acquired company and are inherently uncertain. Unanticipated events and circumstances may occur that may affect the accuracy or validity of such assumptions, estimates or actual results. As a result, during the measurement period, which may be up to one year from the acquisition date, we may record adjustments to the assets acquired and liabilities assumed with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to our consolidated statements of operations.

New Accounting Pronouncements

See Note 4 of the accompanying condensed consolidated financial statements for a full description of new accounting pronouncements, including the respective expected dates of adoption and effects on results of operations and financial condition.

Liquidity and Capital Resources

The following summarizes information regarding our cash, cash equivalents, marketable securities, and working capital (in thousands):
