UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF  
1934

For the quarterly period ended June 30, 2018

Or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_ .

Commission file number: 002-25577

DIODES INCORPORATED

(Exact name of registrant as specified in its charter)

Delaware 95-2039518  
(State or other jurisdiction of (I.R.S. Employer  
incorporation or organization) Identification Number)

4949 Hedgcoxe Road, Suite 200

Plano, Texas

75024

Edgar Filing: DIODES INC /DEL/ - Form 10-Q

(Address of principal executive offices) (Zip code)

(972) 987-3900

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer

Accelerated filer

Non-accelerated filer

(Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of the registrant's Common Stock outstanding as of August 3, 2018 was 50,088,309.

DIODES INCORPORATED AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 – Nature of Operations, Basis of Presentation and Recently Issued Accounting Pronouncements

Nature of Operations

Diodes Incorporated, together with its subsidiaries (collectively, the “Company,” “we” or “our”) (Nasdaq: DIOD), is a leading global manufacturer and supplier of high-quality, application-specific standard products within the broad discrete, logic, analog and mixed-signal semiconductor markets. We serve the consumer electronics, computing, communications, industrial, and automotive markets. Our products include diodes, rectifiers, transistors, MOSFETs, protection devices, function-specific arrays, single gate logic, amplifiers and comparators, Hall-effect and temperature sensors, power management devices, including LED drivers, AC-DC converters and controllers, DC-DC switching and linear voltage regulators, and voltage references along with special function devices, such as USB power switches, load switches, voltage supervisors, and motor controllers. Our corporate headquarters and Americas’ sales office are located in Plano, Texas and Milpitas, California. Design, marketing, and engineering centers are located in Plano; Milpitas; Taipei, Taoyuan City and Zhubei City, Taiwan; Manchester, England; and Neuhaus, Germany. Our wafer fabrication facilities are located in Manchester and in Shanghai, China. We have assembly and test facilities located in Shanghai, Jinan and Chengdu, China, as well as in Hong Kong, Neuhaus and Taipei. Additional engineering, research and development, sales, warehouse, and logistics offices are located in Taipei; Hong Kong; Manchester; Shanghai; Shenzhen, Yangzhou, China; Seongnam-si, South Korea; and Munich, Germany, with support offices throughout the world.

Basis of Presentation

The condensed consolidated financial data at December 31, 2017 is derived from audited financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the Securities and Exchange Commission (“SEC”) on February 20, 2018 (“Form 10-K”). The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with United States Generally Accepted Accounting Principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q. They do not include all information and footnotes necessary for a fair presentation of financial position, operating results and cash flows in conformity with GAAP for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes contained in our Form 10-K. All significant intercompany balances and transactions have been eliminated in consolidation. In the opinion of management, all adjustments (consisting of normal recurring adjustments and accruals) considered necessary for a fair presentation of the operating results for the period presented have been included in the interim period. Operating results for the three and six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for other interim periods or the year ending December 31, 2018.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates. As permitted under GAAP, interim accounting for certain expenses, including income taxes, are based on full year forecasts. For interim financial reporting purposes, income taxes are recorded based upon estimated annual effective income tax rates taking into consideration discrete items occurring in a quarter.

Dollar amounts and share amounts are presented in thousands, except per share amounts, unless otherwise noted. Certain prior year's balances have been reclassified to conform to the current financial statement presentation.

#### Recently Issued Accounting Pronouncements

The Financial Accounting Standards Board ("FASB") issued the following Accounting Standards Updates ("ASU") which could have potential impact on the Company's financial statements:

#### Recently Adopted Standards

ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606) - On January 1, 2018, we adopted the comprehensive new revenue recognition standard issued by the FASB. This standard is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This standard sets forth a five-step revenue recognition model which replaces the previous revenue recognition guidance in its entirety and is intended to eliminate numerous industry-specific pieces of revenue recognition guidance. The adoption of this standard did not have a material impact on our condensed consolidated financial position, reported revenue, results of operations or cash flows as of and for the three or six months ended June 30, 2018. See Note 7 for our expanded revenue disclosures required by the new standard.

ASU No. 2016-15, Statement of Cash Flows (Topic 230) Classification of Certain Cash Receipts and Cash Payments – In November 2016, the FASB issued guidance on the presentation of restricted cash which requires that on the statement of cash flows, amounts generally described as restricted cash or restricted cash equivalents should be included within the beginning and ending balances of cash and cash equivalents. We adopted this guidance in the first quarter of 2018 on a retrospective basis. As a result, restricted cash amounts that have historically been included in prepaid expenses on our consolidated balance sheets are now included with cash and cash equivalents on the consolidated statements of cash flows. As of June 30, 2018 and December 31, 2017 we had restricted cash of approximately \$1.4 million. Restricted cash is pledged as collateral when we enter into agreements with banks for certain banking facilities.

#### Standards Effective in Future Years

ASU No. 2016-02, Leases (Topic 842) (“ASU 2016-02”) - In February 2016, the FASB issued ASU 2016-02, which amends the accounting treatment for leases and requires, among other things, lessees to recognize a right-of-use asset and lease liability for most lease arrangements. The amendments are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Lessees (for capital and operating leases) and lessors (for sales-type, direct financing, and operating leases) must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The ASU will become effective for the Company for interim and annual reporting periods in fiscal years beginning after December 15, 2018. The standard offers a number of practical expedients for transition and certain expedients specific to lessees or lessors. Both lessees and lessors are permitted to make an election to apply a package of practical expedients available for implementation under the standard. For transition, the Company will recognize all effects of transition in the beginning of the adoption reporting period on January 1, 2019.

The Company will continue its implementation work of ASU 2016-02 in 2018, including enhancements to the Company’s internal control framework, accounting systems and related documentation surrounding its lease accounting processes and the preparation of any additional disclosures that will be required.

ASU 2018-10, Codification Improvements to Topic 842, Leases (“ASU 2016-02”) - In July 2018 the FASB issued ASU 2018-10, to add clarity to certain areas within ASU 2016-02. The effective date and transition requirements will be the same as ASU 2016-02. The Company will evaluate and adopt this ASU in conjunction with ASU 2016-02.

ASU 2018-11, Leases (Topic 842): Targeted Improvements (“ASU 2018-11”) - In July 2018, the FASB issued ASU 2018-11, which now allows entities the option of recognizing the cumulative effect of applying the new standard as an adjustment to the opening balance of retained earnings in the year of adoption (January 1, 2019) while continuing to present all prior periods under previous lease accounting guidance. The Company will evaluate and adopt this ASU in conjunction with ASU 2016-02.

ASU No. 2018-07, Compensation—Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting (“ASU 2018-07”) - In June 2018, the FASB issued ASU 2018-07, which simplifies several aspects of the accounting for nonemployee share-based payment transactions resulting from expanding the scope of Topic 718, Compensation—Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. ASU 2018-07 is effective for public business entities for fiscal years beginning after December 15, 2018, including interim periods within that fiscal year. We are currently assessing the effect this guidance may have on our consolidated financial statements.

## NOTE 2 – Earnings per Share

Earnings per share (“EPS”) is calculated by dividing net income attributable to common stockholders by the weighted-average number of shares of Common Stock outstanding during the period. Diluted EPS is calculated similarly but includes potential dilution from the exercise of stock options and stock awards, except when the effect would be anti-dilutive.

The table below sets forth the reconciliation between net income and the weighted average shares outstanding used for calculating basic and diluted EPS:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
<b>Earnings (numerator)</b>				
Net income attributable to common stockholders	\$25,068	\$13,179	\$43,594	\$14,396
<b>Shares (denominator)</b>				
Weighted average common shares outstanding (basic)	49,680	48,518	49,509	48,418
Dilutive effect of stock options and stock awards outstanding	1,112	1,426	1,218	1,389
Adjusted weighted average common shares outstanding (diluted)	50,792	49,944	50,727	49,807
<b>Earnings per share attributable to common stockholders</b>				
Basic	\$0.50	\$0.27	\$0.88	\$0.30
Diluted	\$0.49	\$0.26	\$0.86	\$0.29
<b>Stock options and stock awards excluded from EPS</b>				
calculation because the effect would be anti-dilutive	24	854	13	801

## NOTE 3 – Inventories

The table below sets forth inventories which are stated at the lower of cost or market value:

	June 30, 2018	December 31, 2017
Finished goods	\$73,179	\$81,194
Work-in-progress	55,475	52,578
Raw materials	94,132	82,734
Total	\$222,786	\$216,506

## NOTE 4 – Goodwill and Intangible Assets

The table below sets forth the changes in goodwill:

Balance at December 31, 2017	\$134,187
Foreign currency translation adjustment	(1,358 )
Balance at June 30, 2018	\$132,829

The table below sets forth the value of intangible assets, other than goodwill:

	June 30, 2018	December 31, 2017
Intangible assets subject to amortization:		
Gross carrying amount	\$238,867	\$234,533
Accumulated amortization	(97,505 )	(88,059 )
Foreign currency translation adjustment	(8,254 )	(8,249 )
Total	133,108	138,225
Intangible assets with indefinite lives:		
Gross carrying amount	14,883	19,217
Foreign currency translation adjustment	(1,050 )	(997 )
Total	13,833	18,220
Total intangible assets, net	\$146,941	\$156,445

The table below sets forth amortization expense related to intangible assets subject to amortization:

Amortization expense	2018	2017
Three months ended June 30	\$4,678	\$4,646
Six months ended June 30,	\$9,445	\$9,404

NOTE 5 – Income Tax Provision

Tax Cuts and Jobs Act

The Tax Cuts and Jobs Act (the “Tax Act”) was enacted on December 22, 2017. The Tax Act reduced the U.S. federal corporate tax rate from 35% to 21% effective January 1, 2018, required companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax deferred, provided an exemption from U.S. federal tax for dividends received from foreign subsidiaries, and created new taxes on certain foreign sourced earnings. As of the completion of these financial statements and related disclosures, we have not completed our accounting for the tax effects of the Tax Act on our 2017 tax year. We have not made any adjustments to the provisional tax expense of \$45.9 million we recorded in the fourth quarter of 2017 to account for the tax effects of the Tax Act. The Company expects to finalize the accounting for the effects of the Tax Act on the 2017 tax year no later than the fourth quarter of 2018, in accordance with Securities and Exchange Commission Staff Accounting Bulletin No. 118. Future adjustments made to the provisional effects will be reported as a component of income tax expense from continuing operations in the reporting period in which any such adjustments are determined.

We incorporated the effects of the Tax Act into our 29.9% estimated annual effective tax rate for 2018. As shown below, the actual 29.5% effective tax rate for the quarter ended June 30, 2018, varies from the estimated annual tax rate due to discrete items related to stock-based compensation activity during the quarter (accounted for under ASU 2016-09).

The table below sets forth information related to our income tax expense:

	Three Months Ended		Six Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
Domestic pre-tax income (loss)	\$5,350	\$(22,032)	\$(4,022 )	\$(35,243)
Foreign pre-tax income	\$31,070	\$41,895	\$66,745	\$57,208
Income tax provision	\$10,753	\$6,039	\$18,536	\$6,599
Effective tax rate	29.5 %	30.4 %	29.6 %	30.0 %
Impact of tax holidays on tax expense	\$70	\$(857 )	\$(742 )	\$(1,820 )
Earnings per share impact of tax holidays:				
Basic	\$-	\$0.02	\$0.01	\$0.04
Diluted	\$-	\$0.02	\$0.01	\$0.04

The decrease in the effective tax rate for the three and six months ended June 30, 2018 when compared to the three and six months ended June 30, 2017, is primarily attributable to a decrease due to differences in stock-based compensation activity during the comparable periods, offset by an increase due to the “GILTI” tax, which is a new tax on global intangible low-taxed income of non-U.S. subsidiaries that was created by the Tax Act and to which the Company is subject effective January 1, 2018.

Our undistributed foreign earnings continue to be indefinitely reinvested in foreign operations, with limited exceptions related to earnings of European subsidiaries. Any future distributions of foreign earnings will not be subject to additional U.S. income tax, but may be subject to non-U.S. withholding taxes.

We file income tax returns in the U.S. federal jurisdiction and in various state and foreign jurisdictions. We are no longer subject to U.S. federal income tax examinations by tax authorities for tax years before 2008, or for the 2010 and 2011 tax years. We are no longer subject to China income tax examinations by tax authorities for tax years before 2007. With respect to state and local jurisdictions and countries outside of the U.S. (other than China), with limited exceptions, the Company is no longer subject to income tax audits for years before 2012. Although the outcome of tax audits is always uncertain, the Company believes that adequate amounts of tax, interest and penalties, if any, have been provided for in the Company’s reserve for any adjustments that may result from currently pending tax audits. The Company recognizes accrued interest and penalties related to unrecognized tax benefits in interest expense. As of June 30, 2018, the gross amount of unrecognized tax benefits was approximately \$32.3 million.

It is reasonably possible that the amount of the unrecognized benefit with respect to certain of the Company’s unrecognized tax positions will significantly increase or decrease within the next 12 months. At this time, an estimate of the range of the reasonably possible outcomes cannot be made.

#### NOTE 6 – Share-Based Compensation

The table below sets forth the line items where share-based compensation expense was recorded

	Three Months Ended		Six Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
Cost of goods sold	\$80	\$153	\$170	\$311
Selling, general and administrative	4,031	3,993	9,484	7,297

Edgar Filing: DIODES INC /DEL/ - Form 10-Q

Research and development	689	688	1,426	1,357
Total share-based compensation expense	\$4,800	\$4,834	\$11,080	\$8,965

The table below sets forth share-based compensation expense by type:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Stock options	\$84	\$301	\$275	\$598
Share grants	4,716	4,533	10,805	8,367
Total share-based compensation expense	\$4,800	\$4,834	\$11,080	\$8,965

-11-

---

Stock Options. Approximately \$3.0 million in cash proceeds was received from stock option exercises during the six months ended June 30, 2018.

As of June 30, 2018, there was no unrecognized share-based compensation expense related to unvested stock options.

Share Grants. Restricted stock awards and restricted stock units generally vest in equal annual installments over a four-year period. We also have share grants that are performance based that vest upon achievement of certain performance criteria. Our Chief Executive Officer had a grant of 600,000 performance-based stock units that vested upon the Company reaching \$1.0 billion in revenue. Based on the Company reaching approximately \$1.1 billion in revenue in 2017, our Chief Executive Officer's grant of 600,000 performance-based stock units were released to the Chief Executive Officer, upon filing of the Company's Annual Report on Form 10-K, in February 2018. The expense related to the 600,000 performance-based units was all recognized in previous periods. During the six months ended June 30, 2018, we issued 357,520 stock awards. This was primarily made up of the annual grant for officers and directors.

As of June 30, 2018, total unrecognized share-based compensation expense related to share grants was approximately \$15.1 million, before income taxes, and is expected to be recognized over a weighted average period of approximately 2.3 years.

Stock Modification. During the six months ended June 30, 2018 we modified previously granted stock option and stock awards for two corporate officers who retired. The result of the modification was the acceleration of the vesting of 7,500 stock options and 79,720 stock awards for the corporate officers. The incremental expense recorded for this modification was approximately \$1.8 million, which was expensed in SG&A in the six months ended June 30, 2018.

## NOTE 7 – Segment Information and Revenue

Segment Reporting. For financial reporting purposes, we operate in a single segment, standard semiconductor products, through our various manufacturing and distribution facilities. We aggregate our products because the products are similar and have similar economic characteristics, use similar production processes and share the same customer type. Our primary operations include operations in Asia, North America and Europe. During the three and six months ended June 30, 2018, one customer, a broad-based global distributor that sells to thousands of different end users, accounted for 10.9% and 10.7% or \$33.3 million and \$61.7 million, respectively, of our revenue. For the three months ended June 30, 2017, the same customer accounted for 10.0% or \$26.6 million of our revenue. The customer did not account for 10% or greater of our outstanding accounts receivable at June 30, 2018 or 2017. No customers accounted for 10% or greater of our revenue for the six months ended June 30, 2017.

The tables below set forth net sales based on the location of the subsidiary producing the net sale.

Changes in Accounting Policies. Effective January 1, 2018, we adopted a comprehensive new revenue recognition standard. The details of the significant changes to our accounting policies resulting from the adoption of the new standard are set out below. We adopted the standard using a modified retrospective method. There was no change in our revenue reported for the three and six months ended June 30, 2017. The adoption of this standard did not have a material impact on our condensed consolidated financial position, reported revenue, results of operations or cash flows as of and for the three or six months ended June 30, 2018.

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer, and is the unit of account under ASC 606. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. Generally speaking, our performance obligations represent a promise to transfer various semiconductor products, and have the same pattern of revenue recognition. Our performance obligations are satisfied at either a point in time, or over time as work progresses. The vast majority of our revenue from products and services is accounted for at a

point in time. Substantially all of our revenue in direct and Distributor sales is recognized at a point in time. Further, the payment terms on our sales are based on negotiations with our customers.

Customers can order different types of semiconductors in a single contract (purchase order), and each line on a purchase order represents a separate performance obligation. Depending on the terms of an arrangement, we may also be responsible for shipping and handling activities. In accordance with ASC 606-10-25-18B, we have elected to account for shipping and handling as activities to fulfill our promise to transfer the good(s). As such, shipping and handling activities do not represent a separate performance obligation, and are accrued as a fulfillment cost. Further, although we offer warranties on our products, our warranties are considered to be assurance-type in nature and do not cover anything beyond ensuring that the product is functioning as intended. Based on the guidance in ASC 606, assurance-type warranties do not represent separate performance obligations; therefore, the primary performance obligation in the majority of our contracts is the delivery of a specific good through the purchase order submitted by our customer.

We record allowances/reserves for a number of items. The following items are the largest dollar items for which we record allowances/reserves with ship and debit making up the vast majority: (i) ship and debit, which arise when we issue credit to certain distributors upon their shipments to their end customers; (ii) stock rotation, which are contractual obligations that permit certain distributors, up to four times a year, to return a portion of their inventory based on historical shipments to them in exchange for an equal and offsetting order; and (iii) price protection, which arise when market conditions cause average selling prices to decrease and we issue credit to certain distributors on their inventory. Ship and debit reserves are recorded as a reduction to net sales with a corresponding reduction to accounts receivable. Stock rotation reserves are recorded as a reduction to net sales. Price protection reserves are recorded as a reduction to net sales with a corresponding increase in accrued liabilities.

We also assess our customer's ability and intention to pay, which is based on a variety of factors including our customer's historical payment experience, their financial condition and the condition of the global economy and financial markets. Payment terms and conditions typically vary depending on negotiations with the customer.

**Disaggregation of Revenue.** We disaggregate revenue from contracts with customers into direct sales and distribution sales ("Distributors") and by geographic area. Direct sales customers consist of those customers using our product in their manufacturing process, and Distributors are those customers who resell our products to third parties. We sell our products to customers in multiple areas of the world including Asia, Europe, and North America. Across these regions, we sell products to end users in a variety of markets such as consumer electronics, computing, communications, industrial and automotive. Further, most of our contracts are fixed-price arrangements, and are short term in nature, ranging from days to several months.

The tables below set forth the amount of net sales by type, direct sales or Distributor and the location of the customer based on the location to where the products were shipped for the three and six months ended June 30, 2018 and 2017:

(1) Represents countries with less than 3% of the total net sales each.

Contract Balances. The timing of revenue recognition, billings, and cash collections can result in billed accounts receivable, unbilled receivables (contract assets), and customer advances and deposits (contract liabilities) on the condensed consolidated balance sheets. However, billing generally occurs at or near the same time as revenue recognition, resulting in limited activity related to contract assets and liabilities. Contract asset and liability balances for the periods ended June 30, 2018, and December 31, 2017 were immaterial to our condensed consolidated financial statements.

Other Practical Expedients Elected. The Company decided to make use of the following practical expedients available under ASC 606:

• Sales tax excluded from the transaction price - The FASB decided to provide in ASU 2016-12 a practical expedient that permits entities to exclude from the transaction price all sales taxes that are assessed by a governmental authority and that are imposed on and concurrent with a specific revenue-producing transaction and collected by the entity from a customer (for example, sales, use, value added, and some excise taxes);

• Incremental contract costs - Expense the incremental costs of obtaining a contract, when occurred, the amortization period of the asset that the entity otherwise would have recognized is one year or less; and

-16-

---

Portfolio approach - This guidance specifies the accounting for an individual contract with a customer. However, as a practical expedient, an entity may apply this guidance to a portfolio of contracts (or performance obligations) with similar characteristics if the entity reasonably expects that the effects on the financial statements of applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts (or performance obligations) within that portfolio.

#### NOTE 8 – Commitments and Contingencies

Purchase commitments – As of June 30, 2018, we had approximately \$20.8 million in non-cancelable purchase contracts related to capital expenditures, primarily related to our manufacturing facilities in Asia.

Defined Benefit Plan - We have a contributory defined benefit plan that covers certain employees in the United Kingdom. As of June 30, 2018, the unfunded liability for this defined benefit plan was approximately \$25.2 million. We are obligated to make annual contributions, each year through December 2029, of approximately GBP 2 million (approximately \$2.8 million based on a GBP: USD exchange rate of 1.4:1). The trustees are required to review the funding position every three years, and the most recent review was carried out as of April 5, 2016. The outcome of a review can result in a change in the amount of the payment.

Contingencies – From time to time, we are involved in various legal proceedings that arise in the normal course of business. While we intend to defend any lawsuit vigorously, we presently believe that the ultimate outcome of any current pending legal proceeding will not have any material adverse effect on our financial position, cash flows or operating results. However, litigation is subject to inherent uncertainties, and unfavorable rulings could occur. An unfavorable ruling could include monetary damages, which could impact on our business and operating results for the period in which the ruling occurs or future periods. Based on information available, we evaluate the likelihood of potential outcomes of all pending disputes. We record an appropriate liability when the amount of any liability associated with a pending dispute is deemed probable and reasonably estimable. In addition, we do not accrue for estimated legal fees and other directly related costs as they are expensed as incurred. The Company is not currently a party to any pending litigation that the Company considers material.

#### Note 9 – Derivative Financial Instruments

Hedges of Foreign Currency Risk - We are exposed to fluctuations in various foreign currencies against our different functional currencies. We use foreign currency forward agreements to manage this exposure. At June 30, 2018, we had outstanding foreign currency forward contracts that are intended to preserve the economic value of foreign currency denominated monetary assets and liabilities; these instruments are not designated for hedge accounting treatment in accordance with ASC 815. There is no fair value of our foreign exchange hedges and therefore they are not recorded in our condensed consolidated balance sheets.

The table below sets forth outstanding foreign currency forward contracts at June 30, 2018 and December 31, 2017:  
-17-

Hedges of Interest Rate Risk - The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish these objectives, the Company primarily uses interest rate swaps, including interest rate collars, as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

The table below sets forth information related to the number of and the notional amount of our interest rate related derivative instruments:

	Number of Instruments		Notional Amount	
	June 30, 2018	December 31, 2017	June 30, 2018	December 31, 2017
Interest rate swaps and collars	14	14	\$ 220,000	\$ 220,000

The table below sets forth the fair value of the Company's interest rate related derivative financial instruments as well as their classification on our condensed consolidated balance sheets:

<b>Six Months Ended</b>			
Foreign currency forward contracts	\$(5,370)	\$(70)	Foreign currency (loss) gain, net

At June 30, 2018 and December 31, 2017, the fair value of derivatives in a net asset position, which includes accrued interest but excludes any adjustments for nonperformance risk, related to these agreements was \$7.2 million and \$3.9 million, respectively. As of June 30, 2018 and December 31, 2017, the Company had not posted any collateral related to these agreements.

#### NOTE 10 – Employee Benefit Plans

##### Deferred Compensation

We maintain a Non-Qualified Deferred Compensation Plan (the “Deferred Compensation Plan”) for executive officers, key employees and members of the Board of Directors. The Deferred Compensation Plan allows eligible participants to defer the receipt of eligible compensation, including equity awards, until designated future dates. We offset our obligations under the Deferred Compensation Plan by investing in the actual underlying investments. These investments are classified as trading securities and are carried at fair value. At June 30, 2018 and December 31, 2017, these investments totaled approximately \$9.5 million and \$8.8 million, respectively. All gains and losses in these investments are materially offset by corresponding gains and losses in the Deferred Compensation Plan liabilities.

#### NOTE 11 – Related Parties

We conduct business with a related party company, Lite-On Semiconductor Corporation and its subsidiaries and affiliates (collectively, “LSC”), and Nuvoton Technology Corporation and its subsidiaries and affiliates (collectively, “Nuvoton”). LSC is our largest stockholder, owning approximately 16% of our outstanding Common Stock as of June 30, 2018, and is a member of the Lite-On Group of companies. Raymond Soong, the Chairman of our Board of Directors, is the Chairman of LSC, and is the Chairman of Lite-On Technology Corporation (“LTC”), a significant shareholder of LSC. C.H. Chen, our former President and Chief Executive Officer and currently the Vice Chairman of our Board of Directors, is also Vice Chairman of LSC and a board member of LTC. Dr. Keh-Shew Lu, our President and Chief Executive Officer and a member of our Board of Directors, is a board member of LTC, and a board member of Nuvoton. We consider our relationships with LSC and Nuvoton to be mutually beneficial, and we plan to continue our strategic alliance with LSC and Nuvoton. We purchase wafers from Nuvoton for use in our production process.

We also conduct business with Keylink International (B.V.I.) Inc. and its subsidiaries and affiliates (collectively, “Keylink”). Keylink is our 5% joint venture partner in our Shanghai assembly and test facilities. We sell products to, and purchase inventory from Keylink. In addition, our subsidiaries in China lease their manufacturing facilities in Shanghai from, and subcontract a portion of our manufacturing process (metal plating and environmental services) to, Keylink. We also pay a consulting fee to Keylink. The aggregate amounts paid to Keylink for the three months ended June 30, 2018 and 2017 were approximately \$4.2 million and \$4.5 million, respectively. The aggregate amounts for these services for the six months ended June 30, 2018 and 2017 were approximately \$8.8 million and \$7.9 million, respectively. In addition, Chengdu Ya Guang Electronic Company Limited (“Ya Guang”) is our 2% joint venture partner in one of our Chengdu assembly and test facilities and is our 5% joint venture partner in our other Chengdu assembly and test facility; however, we have no material transactions with Ya Guang. We also purchase materials from Jiyuan Crystal

Photoelectric Frequency Technology Ltd., a frequency control product manufacturing company in which we have made an equity investment and account for using the equity method of accounting.

The Audit Committee of the Board reviews all related party transactions for potential conflict of interest situations on an ongoing basis, all in accordance with such procedures as the Audit Committee may adopt from time to time.

The table below sets forth net sales to and purchases from related parties:

NOTE 12 – Restructuring Costs

In February 2017, the Company announced its plan to transfer its wafer fabrication operation located in Lee's Summit, MO. ("KFAB") to other Company-owned wafer fabrication plants and external foundries. The Company ceased production operations at KFAB late in third quarter 2017 and vacated the premises in November 2017. Employees were provided retention and standard severance packages. During the six months ended June 2017, the Company received \$6.0 million of insurance proceeds as a result of the fires sustained at the KFAB facility during 2016 of which \$4.2 million is recorded in Cost of Goods Sold and \$1.8 million is recorded in Other Income. During the six months ended June 30, 2018, the Company received \$2.9 million of insurance proceeds as a result of the aforementioned fire. This \$2.9 million is recorded in other income.

The table below sets forth the restructuring costs, recorded in restructuring expense in the condensed consolidated statements of operations, incurred during the three and six months ended June 30, 2018 and 2017:

-20-

---

	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Early supply contract termination	\$-	\$(246 )	\$-	\$1,985
Cost of equipment relocation	526	72	220	72
Asset retirement obligation	-	234	-	234
Retention costs	-	1,778	(14 )	1,778
	\$526	\$1,838	\$206	\$4,069

In connection with the KFAB closure, during the six months ended June 30, 2017, the Company also recorded separation costs of \$0.5 million in cost of goods sold, \$0.09 million in selling, general and administrative expense and \$0.02 million in research and development expense.

The table below sets forth the costs accrued and paid related to the KFAB restructuring:

	Retention Costs	Equipment Relocation	Total
Beginning balance, January 1, 2018	\$ 659	\$ 645	\$1,304
Costs accrued	(14 )	526	512
Restructuring costs paid	(645 )	(1,171 )	(1,816)
Balance at June 30, 2018	\$ -	\$ -	\$-

This asset retirement obligation is for the estimated amounts to be paid to contractors to remediate the KFAB facility upon vacating the property. The table below sets forth the asset retirement obligation related to the KFAB restructuring:

Asset retirement obligation, January 1, 2018	\$389
Reversal of accrual	(389)
Asset retirement obligation, June 30, 2018	\$-

In connection with the asset retirement obligation as of June 30, 2018, the offsetting asset has been fully amortized.

#### NOTE 13 - Subsequent Events

In July 2018, our 60% owned subsidiary, ERIS Technology Corporation (“Eris”), acquired from Yea Shin Technology Corporation (“Yea Shin”) and its shareholders 60% of Yea Shin’s outstanding shares for 193.9 million Taiwan dollars (or approximately \$6.4 million) in cash. Yea Shin operates a wafer fabrication facility located in Tao Yuan county,

Taiwan that was established in May 1993. The purpose of the acquisition is to expand the current wafer production capacity of Eris.

Eris also entered into a property purchase agreement with Yong Xiang Development Corporation ("Yong Xiang") to purchase the plant and facility leased by it to Yea Shin. The total purchase price of the property is approximately 776 million Taiwan dollars (or approximately \$25.5 million). Eris expects to complete the purchase of the facility no later than December 31, 2020.

Eris has leased from Yong Xiang the plant and facility until the purchase has been completed. The monthly lease payment is approximately 1.2 million Taiwan dollars (or approximately \$0.04 million) for the first 8.5 months and approximately 1.0 million Taiwan dollars (or approximately \$0.03 million) for the remaining period. Total lease commitment is approximately \$1.1 million assuming the lease term is through December 31, 2020.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Except for the historical information contained herein, the matters addressed in this Item 2 constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as identified under the heading "Cautionary Statement for Purposes of the "Safe Harbor" Provision of the Private Securities Litigation Reform Act of 1995" herein. Such forward-looking statements are subject to a variety of risks and uncertainties, including those discussed below under the heading "Risk Factors" and elsewhere in this Quarterly Report on Form 10-Q, that could cause actual results to differ materially from those anticipated by our management. The Private Securities Litigation Reform Act of 1995 (the "Act") provides certain "safe harbor" provisions for forward-looking statements. All forward-looking statements made in this Quarterly Report on Form 10-Q are made pursuant to the Act. We undertake no obligation to publicly release the results of any revisions to our forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unexpected events. Unless the context otherwise requires, the words "Diodes," the "Company," "we," "us" and "our" refer to Diodes Incorporated and its subsidiaries. Dollar amounts and share amounts are presented in thousands, except per share amounts, unless otherwise noted.

This management's discussion should be read in conjunction with the management's discussion included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 ("Form 10-K"), previously filed with Securities and Exchange Commission ("SEC") on February 20, 2018.

Factors Relevant to Our Results of Operations for the Three Months Ended June 30, 2018

- During the second quarter of 2018, revenue was a record high of \$304.1 million, an increase of 15.1% from the \$264.2 million in the second quarter of 2017 and an increase of 10.8% from the \$274.5 million in the first quarter of 2018;
- Gross profit was a record high of \$107.3 million, compared to \$90.1 million of gross profit in the second quarter of 2017 and \$98.6 million in the first quarter of 2018;
- Gross profit margin was 35.3%, compared to gross profit margin of 34.1% in the second quarter of 2017 and 35.9% in the first quarter of 2018;
- Net income was \$25.1 million, or \$0.49 per diluted share, compared to net income of \$13.2 million, or \$0.26 per diluted share, in the first quarter of 2017 and net income of \$18.5 million, or \$0.37 per diluted share, in the first quarter 2018; and,
- Cash flow from operations was \$34.4 million while net cash flow was negative \$30.0 million, which includes \$21.4 million of capital expenditures and the pay down of \$36.0 million of long-term debt.

Outlook and Factors Relevant to Our Ongoing Results of Operations

- Looking ahead to the third quarter of 2018, we expect to extend our growth momentum with continued strength across our target geographies and end markets; and,
- Most of our products are manufactured in China. In the second quarter of 2018, approximately 10% of our products were imported into the United States. The Office of the United States Trade Representative ("USTR") has implemented duties of 25% on \$34 billion, and has proposed duties on an additional \$16 billion of products, imported into the U.S. from China. These duties are a response to what the USTR considers to be certain unfair trade practices by China. The Company has reviewed the most recent USTR list of proposed duties issued on June 15, 2018 and has determined that a number of the Company's products being imported from China to the U.S. are subject to new duties. The USTR has proposed tariffs on an additional \$200 billion of products manufactured in China and

imported into the United States. These tariffs are not yet in effect and remain subject to further review, including a comment process and public hearing. After completion of this process, the USTR will issue a final determination on the products that would be subject to additional duties. The likelihood and timing of such proposed new duties being implemented is uncertain, as the U.S. and China continue to negotiate the issues. Management is currently assessing the potential impacts of the new duties on the Company's products if they are ultimately implemented by USTR.

Overview

We are a leading global manufacturer and supplier of high-quality, application-specific standard products within the broad discrete, logic, analog and mixed-signal semiconductor markets. For detailed information, see Note 1 – Nature of Operations, Basis of

Presentation and Recently Issued Accounting Pronouncements, included in the condensed consolidated financial statements in Item 1 above. Our products are sold primarily throughout Asia, North America and Europe. We believe that our focus on application-specific standard products utilizing innovative, highly efficient packaging and cost-effective process technologies, coupled with our collaborative, customer-focused product development, provides us with a meaningful competitive advantage relative to other semiconductor companies.

#### Results of Operations for the Three Months Ended June 30, 2018 and 2017

The following table sets forth the percentage that certain items in the statements of operations bear to net sales.

	Percent of Net Sales Three Months Ended June 30, 2018 2017	
Net sales	100%	100%
Cost of goods sold	(65 )	(66 )
Gross profit	35	34
Total operating expense	23	25
Income from operations	12	9
Total other expense	-	(2 )
Income before income taxes and noncontrolling interest	12	7
Income tax provision	(4 )	(2 )
Net income	8	5
Net income attributable to common stockholders	8	5

The following table and discussion explains in greater detail our consolidated operating results and financial condition for the three months ended June 30, 2018, compared to the three months ended June 30, 2017. This discussion should be read in conjunction with the condensed consolidated financial statements and notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q.

(dollars in thousands)

	Three Months Ended June 30,			% Change
	2018	2017	Increase/(Decrease)	
Net sales	\$304,085	\$264,224	\$ 39,861	15.1 %
Cost of goods sold	196,817	174,085	22,732	13.1 %
Gross profit	107,268	90,139	17,129	19.0 %
Total operating expense	69,424	66,311	3,113	4.7 %
Interest income	443	308	135	43.8 %
Interest expense	(2,544 )	(3,447 )	(903 )	(26.2 %)
Foreign currency gain (loss), net	300	(1,628 )	(1,928 )	(118.4 %)
Other income	377	802	(425 )	(53.0 %)
Income tax provision	10,753	6,039	4,714	78.1 %

Net sales increased approximately \$39.9 million for the three months ended June 30, 2018, compared to the same period last year, primarily due to strong growth in the automotive and industrial end markets, which contributed to

new record revenue levels being achieved across all regions.

Cost of goods sold increased approximately \$22.7 million for the three months ended June 30, 2018, compared to the same period last year. As a percent of sales, cost of goods sold was 65% for the three months ended June 30, 2018 compared to 66% for the same period last year. Average unit cost increased approximately 25.2% for the three months ended June 30, 2018, compared to the same period last year. For the three months ended June 30, 2018, gross profit increased approximately 19.0% when compared to the same period last year. Gross profit margin for the three month periods ended June 30, 2018 and 2017 was 35.3% and 34.1%, respectively. The increase in gross profit margin was related to favorable product mix, increased contribution from the Pericom products as well improved capacity utilization.

Operating expenses for the three months ended June 30, 2018 increased approximately \$3.1 million, or 4.7%, compared to the same period last year. Selling, general and administrative expenses (“SG&A”) increased approximately \$2.5 million and research and development expenses (“R&D”) increased approximately \$2.3 million. Amortization of acquisition related intangibles was

-23-

---

relatively flat. SG&A, as a percentage of sales, was 13.9% and 15.0% for the three months ended June 30, 2018 and 2017, respectively. R&D, as a percentage of sales, was 7.3% and 7.5% for the three months ended June 30, 2018 and 2017, respectively.

Interest income increased 43% for the three months ended June 30, 2018 compared to the same period last year, due to the investment of excess cash in short-term investments. Interest expense decreased 26.2% for the three months ended June 30, 2018 compared to the same period last year. The decrease in interest expense for the three months ended June 30, 2018 was due to lower levels of debt partially offset by higher interest rates on the floating rate portion of the borrowings to effect the Pericom acquisition. Foreign currency gain (loss), net was a net gain of \$0.3 million for the three months ended June 30, 2018 compared to a net loss of (\$1.6) million for the same period last year, reflecting the effectiveness of our currency hedges partially offset by losses due to stronger European and Great Britain currencies and the Taiwan dollar, when compared to the U.S. dollar.

We recognized an income tax expense of approximately \$10.8 million and \$6.0 million for the three months ended June 30, 2018 and 2017, respectively. The increase in income taxes for 2018 compared to 2017 is attributable to the increase in pretax net income.

#### Results of Operations for the Six Months Ended June 30, 2018 and 2017

	Percent of Net Sales Six Months Ended June 30,	
	2018	2017
Net sales	100%	100%
Cost of goods sold	(64)	(67)
Gross profit	36	33
Total operating expense	25	26
Income from operations	11	7
Total other expense	-	(3)
Income before income taxes and noncontrolling interest	11	4
Income tax provision	(3)	(1)
Net income	8	3
Net income attributable to common stockholders	8	3

The following table and discussion explains in greater detail our consolidated operating results and financial condition for the six months ended June 30, 2018, compared to the six months ended June 30, 2017. This discussion should be read in conjunction with the condensed consolidated financial statements and notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q.

(dollars in thousands)

	Six Months Ended June 30,			
	2018	2017	Increase/(Decrease)	% Change
Net sales	\$578,597	\$500,527	\$78,070	15.6%
Cost of goods sold	372,734	336,477	36,257	10.8%

Edgar Filing: DIODES INC /DEL/ - Form 10-Q

Gross profit	205,863	164,050	41,813	25.5%
Total operating expense	141,079	130,865	10,214	7.8%
Interest income	957	603	354	58.7%
Interest expense	(5,301)	(6,932)	(1,631)	(23.5%)
Foreign currency gain (loss), net	(2,729)	(5,422)	(2,693)	(49.7%)
Other income	5,012	531	4,481	843.9%
Income tax provision	18,536	6,599	11,937	180.9%

Net sales increased approximately \$78.1 million for the six months ended June 30, 2018, compared to the same period last year, due to strong growth in the automotive and industrial markets, contributing to record revenue levels being reached in Europe and North America.

Cost of goods sold increased approximately \$36.3 million for the six months ended June 30, 2018, compared to the same period last year. As a percent of sales, cost of goods sold was 64% for the six months ended June 30, 2018 compared to 67% for the same period last year. Average unit cost increased approximately 19.2% for the six months ended June 30, 2018, compared to the same period last year. For the six months ended June 30, 2018, gross profit increased approximately 25.5% when compared to the same period last year. Gross profit margin for the three month periods ended June 30, 2018 and 2017 was 35.6% and 32.8%,

respectively. The increase in gross profit margin was related to favorable product mix, increased contribution from the Pericom products as well improved capacity utilization.

Operating expenses for the six months ended June 30, 2018 increased approximately \$10.2 million, or 7.8%, compared to the same period last year. SG&A increased approximately \$9.9 million and R&D increased approximately \$4.4 million. The increase in SG&A was partially driven by \$2.6 million of expenses related to officer retirements, including cash payments and the costs from the acceleration of share-based vesting. Amortization of acquisition related intangibles was relatively flat. SG&A, as a percentage of sales, was 15.4% and 15.9% for the six months ended June 30, 2018 and 2017, respectively. R&D, as a percentage of sales, was 7.3% and 7.6% for the six months ended June 30, 2018 and 2017, respectively.

Interest income increased \$0.4 million for the six month ended June 30, 2018 compared to the same period last year, due to higher amounts of cash invested on a short-term basis. The decrease in interest expense for the six months ended June 30, 2018 was due to lower levels of debt partially offset by higher interest rates on the floating rate portion of the borrowings to effect the Pericom acquisition. Expense related to foreign currency decreased \$2.7 million, reflecting the effectiveness of our currency hedges.

We recognized an income tax expense of approximately \$18.5 million and \$6.6 million for the six months ended June 30, 2018 and 2017, respectively. The increase in income taxes for 2018 compared to 2017 is attributable to the increase in pretax net income.

## Financial Condition

### Liquidity and Capital Resources

Our primary sources of liquidity are cash and cash equivalents, funds from operations and, if necessary, borrowings under our credit facilities. We currently have a U.S. banking credit facility (the "U.S. Credit Facility") under which we may draw up to \$250 million on a revolving basis, in addition to a \$250 million term loan included in the U.S. Credit Facility. The U.S. Credit Facility matures October 26, 2021. The term loan portion of the U.S. Credit Facility is repayable in part through quarterly installments that increase over time from \$4.7 million in the first three quarters of 2018 to \$9.4 million per quarter in the final year of the U.S. Credit Facility. We may from time to time request increases in the aggregate commitments under the U.S. Credit Facility of up to \$200 million, subject to the lenders electing to increase their commitments or by means of the addition of new lenders, and subject to at least half of each increase in aggregate commitments being in the form of term loans, with the remaining amount of each increase being an increase in the amount of the revolving portion of the U.S. Credit Facility. The U.S. Credit Facility bears interest at LIBOR or similar indices plus a specified margin based on our consolidated leverage ratio. The U.S. Credit Facility contains certain financial and non-financial covenants, including, but not limited to, a maximum consolidated leverage ratio, a minimum consolidated fixed charge coverage ratio, and restrictions on liens, indebtedness, investments, fundamental changes, dispositions, and restricted payments (including dividends and share repurchases). At June 30, 2018, we owed \$182.9 million under the U.S. Credit Facility, \$47.5 million of which was drawn under the revolving portion and \$135.4 million of which was outstanding under the term loan.

In addition to our U.S. Credit Facility, we maintain credit facilities with several financial institutions through our foreign entities worldwide totaling \$116.9 million as of June 30, 2018. As of June 30, 2018, in addition to the U.S. Credit Facility, our Asia subsidiaries had unused and available credit lines of up to an aggregate of approximately \$112.2 million, with several financial institutions. In some cases, our foreign credit lines are unsecured, uncommitted and may be repayable on demand. Our foreign credit lines include two Taiwanese credit facilities that are

collateralized by assets. Our foreign credit lines bear interest at LIBOR or similar indices plus a specified margin. At June 30, 2018, \$4.7 million was outstanding on these credit lines. In addition to our credit lines, during the second quarter of 2018, our 60% owned subsidiary, ERIS Technology Corporation, borrowed \$4.3 million on a long-term basis in order to make an investment. That investment was made in the third quarter of July 2018. The \$4.3 million loan matures in 2033, but will be increasing over time as the amount of investment grows. (See Note 13 - Subsequent Events in the “Notes to the Condensed Consolidated Financial Statements” for additional information related to this investment).

Our primary liquidity requirements have been to meet our inventory and capital expenditure needs and to fund on-going operations. At June 30, 2018 and December 31, 2017, our working capital was \$380.8 million and \$415.2 million, respectively. We expect cash generated by our operations together with existing cash, cash equivalents, short-term investments and available credit facilities to be sufficient to cover cash needs for working capital and capital expenditures for at least the next 12 months.

Capital expenditures for the six months ended June 30, 2018 and 2017 were \$47.5 million and \$57.7 million, respectively. For the first six months of 2018 capital expenditures were approximately 8.2% of our net sales, which is at the high end of our capital spending target range of 5% to 9% of net sales. This increase in capital expenditures was to put capacity in place for the expected strong revenue growth in the remainder of 2018.

Our undistributed foreign earnings continue to be indefinitely reinvested in foreign operations, with limited exceptions related to earnings of European subsidiaries. As of June 30, 2018, our foreign subsidiaries held approximately \$149.7 million of cash, cash equivalents and investments of which approximately \$88.3 million would be subject to a potential non-U.S. withholding tax if distributed outside the country in which the cash is currently held. Of this total, \$79.9 million is held in China.

As of June 30, 2018, we had short-term investments totaling \$7.2 million. These investments are highly liquid with maturity dates greater than three months at the date of purchase. We generally can access these investments in a relatively short time frame but in doing so we generally forfeit all earned and future interest income.

#### Share Repurchase Program

During 2015, our Board of Directors (“Board”) approved a stock repurchase program. The Board authorized the repurchase of up to an aggregate of \$100.0 million of our outstanding Common Stock. The share repurchase program is expected to continue through the end of 2019 unless extended or shortened by the Board. Currently there is approximately \$62.3 million available for repurchase of outstanding Common Stock under this publicly announced repurchase program. No shares were repurchased during the three months ended June 30, 2018.

#### Discussion of Cash Flow

Our primary source of liquidity is cash flow from operations. Additional sources of liquidity are cash and cash equivalents, short-term investments and our credit facilities. Our cash and cash equivalents decreased from \$203.8 million at December 31, 2017 to \$152.4 million at June 30, 2018.

The table below sets forth a summary of the condensed consolidated statements of cash flows:

	Six Months Ended June 30,		
	2018	2017	Change
Cash flows from operating activities	\$88,381	\$65,437	\$22,944
Net cash and cash equivalents used in investing activities	(53,627)	(30,150)	(23,477)
Net cash and cash equivalents used in financing activities	(83,430)	(23,409)	(60,021)
Effect of exchange rate changes on cash and cash equivalents	(2,753 )	6,331	(9,084 )
Net (decrease) increase in cash and cash equivalents,			
including restricted cash	\$(51,429)	\$18,209	\$(69,638)

#### Operating Activities

Cash flows from operating activities for the six months ended June 30, 2018 was \$88.4 million. Cash flows from operating activities resulted from net income of \$44.2 million, depreciation and amortization of \$51.3 million, share-based compensation of \$11.1 million and a decrease in noncash working capital accounts of \$17.6 million. Net cash provided by operating activities for the six months ended June 30, 2017 was \$65.4 million. For the six months ended June 30, 2017, net cash flow provided by operating activities resulted from net income of \$15.4 million, depreciation and amortization of \$46.4 million, share-based compensation of \$9.0 million and a decrease in noncash working capital accounts of \$5.7 million.

#### Investing Activities

Net cash and cash equivalents used in investing activities was \$53.6 million for the six months ended June 30, 2018. Net cash and cash equivalents used in investing activities was primarily due to the purchase of property, plant and equipment of \$53.0 million during the six months ended June 30, 2018. Net cash used in investing activities was \$30.2 million for the six months ended June 30, 2017, and was primarily for the purchase of property, plant and equipment of \$43.9 million, and for purchases of short-term investments of \$9.8 million during the six months ended June 30, 2017, partially offset by \$24.1 million of proceeds received upon the maturity of short-term investments.

#### Financing Activities

Net cash and cash equivalents used in financing activities was \$83.4 million for the six months ended June 30, 2018. Net cash and cash equivalents used in the six months ended June 30, 2018 consisted primarily of repayments of long-term debt, net of \$82.5 million, taxes paid on net share settlement of \$8.6 million, partially offset by proceeds from short-term line of credit of \$3.4 million. Net cash and cash equivalents used in financing activities was \$23.4 million for the six months ended June 30, 2017 and consisting primarily of repayments on lines of credit and long-term debt, partially offset by proceeds from the issuance of Common Stock.

“safe harbor” provisions for forward-looking statements. All forward-looking statements made in this Quarterly Report on Form 10-Q are made pursuant to the Act.

All forward-looking statements contained in this Quarterly Report on Form 10-Q are subject to, in addition to the other matters described in this Quarterly Report on Form 10-Q, a variety of significant risks and uncertainties. The following discussion highlights some of these risks and uncertainties. Further, from time to time, information provided by us or statements made by our employees may contain forward-looking information. There can be no assurance that actual results or business conditions will not differ materially from those set forth or suggested in such forward-looking statements as a result of various factors, including those discussed below.

For more detailed discussion of these factors, see the “Risk Factors” discussion in Item 1A of our most recent Annual Report on Form 10-K as filed with the SEC and in Part II, Item 1A of this report. The forward-looking statements included in this Quarterly Report on Form 10-Q are made only as of the date of this report, and we undertake no obligation to update the forward-looking statements to reflect subsequent events or circumstances.

## Risk Factors

### RISKS RELATED TO OUR BUSINESS

The success of our business depends on the strength of the global economy and the stability of the financial markets, and any weaknesses in these areas may have a material adverse effect on our net sales, operating results and financial condition.

During times of difficult market conditions, our fixed costs combined with lower net sales and lower profit margins may have a negative impact on our business, operating results and financial condition.

Downturns in the highly cyclical semiconductor industry or changes in end-market demand could adversely affect our operating results and financial condition.

The semiconductor business is highly competitive, and increased competition may harm our business, operating results and financial condition.

One of our external suppliers is also a related party. The loss of this supplier could harm our business, operating results and financial condition.

Delays in initiation of production at facilities due to implementing new production techniques or resolving problems associated with technical equipment malfunctions could adversely affect our manufacturing efficiencies, operating results and financial condition.

We are and will continue to be under continuous pressure from our customers and competitors to reduce the price of our products, which could adversely affect our growth and profit margins.

Our customers require our products to undergo a lengthy and expensive qualification process without any assurance of product sales and may demand to audit our operations from time to time. A failure to qualify a product or a negative audit finding could adversely affect our net sales, operating results and financial condition.

Our customer orders are subject to cancellation or modification usually with no penalty. High volumes of order cancellation or reduction in quantities ordered could adversely affect our net sales, operating results and financial condition.

Production at our manufacturing facilities could be disrupted for a variety of reasons, including natural disasters and other extraordinary events, which could prevent us from producing enough of our products to maintain our sales and satisfy our customers' demands and could adversely affect our operating results and financial condition.

New technologies could result in the development of new products by our competitors and a decrease in demand for our products, and we may not be able to develop new products to satisfy changes in demand, which would adversely affect our net sales, market share, operating results and financial condition.

We may be adversely affected by any disruption in our information technology systems, which could adversely affect our cash flows, operating results and financial condition.

We may be subject to claims of infringement of third-party intellectual property rights or demands that we license third-party technology, which could result in significant expense, reduction in our intellectual property rights and a negative impact on our business, operating results and financial condition.

We depend on third-party suppliers for timely deliveries of raw materials, manufacturing services, product and process development, parts and equipment, as well as finished products from other manufacturers, and our reputation with customers, operating results and financial condition could be adversely affected if we are unable to obtain adequate supplies in a timely manner.

If we do not succeed in continuing to vertically integrate our business, we will not realize the cost and other efficiencies we anticipate, which could adversely affect our ability to compete, our operating results and financial condition.

Part of our growth strategy involves identifying and acquiring companies. We may be unable to identify suitable acquisition candidates or consummate desired acquisitions and, if we do make any acquisitions, we may be unable to successfully integrate any acquired companies with our operations, which could adversely affect our business, operating results and financial condition.

We are subject to litigation risks, including securities class action litigation, which may be costly to defend and the outcome of which is uncertain and could adversely affect our business and financial condition.

-28-

---

We are subject to many environmental laws and regulations that could result in significant expenses and could adversely affect our business, operating results and financial condition.

Our products, or products we purchase from third parties for resale, may be found to be defective and, as a result, warranty claims and product liability claims may be asserted against us and we may not have recourse against our suppliers, which may harm our business, reputation with our customers, operating results and financial condition.

We may fail to attract or retain the qualified technical, sales, marketing, finance and management/executive personnel required to operate our business successfully, which could adversely affect our business, operating results and financial condition.

We may not be able to achieve future growth, and any such growth may place a strain on our management and on our systems and resources, which could adversely affect our business, operating results and financial condition.

Obsolete inventories as a result of changes in demand for our products and change in life cycles of our products could adversely affect our business, operating results and financial condition.

If OEMs do not design our products into their applications, our net sales may be adversely affected.

We are subject to interest rate risk that could have an adverse effect on our cost of working capital and interest expenses, which could adversely affect our business, operating results and financial condition.

Our hedging strategies may not be successful in mitigating our risks associated with interest rates or foreign exchange exposure or our counterparties might not perform as agreed.

We may have a significant amount of debt with various financial institutions worldwide. Any indebtedness could adversely affect our business, operating results, financial condition and our ability to meet payment obligations under such debt.

Restrictions in our credit facilities may limit our business and financial activities, including our ability to obtain additional capital in the future.

Our business benefits from certain Chinese government incentives. Expiration of, or changes to, these incentives could adversely affect our operating results and financial condition.

We operate a global business through numerous foreign subsidiaries, and there is a risk that tax authorities will challenge our transfer pricing methodologies or legal entity structures, which could adversely affect our operating results and financial condition.

The value of our benefit plan assets and liabilities is based on estimates and assumptions, which may prove inaccurate and the actual amount of expenses recorded in the consolidated financial statements could differ materially from the assumptions used.

Changes in actuarial assumptions for our defined benefit plan could increase the volatility of the plan's asset value, require us to increase cash contributions to the plan and have a negative impact on our cash flows, operating results and financial condition.

Certain of our customers and suppliers require us to comply with their codes of conduct, which may include certain restrictions that may substantially increase our cost of doing business as well as have an adverse effect on our operating efficiencies, operating results and financial condition.

Compliance with government regulations and customer demands regarding the use of "conflict minerals" may result in increased costs and may have a negative impact on our business, operating results and financial condition.

There are risks associated with previous and future acquisitions. We may ultimately not be successful in overcoming these risks or any other problems encountered in connection with acquisitions.

If we fail to maintain an effective system of internal controls or discover material weaknesses in our internal control over financial reporting, we may not be able to report our financial results accurately or detect fraud, which could harm our business and the trading price of our Common Stock.

Terrorist attacks, or threats or occurrences of other terrorist activities, whether in the U.S. or internationally, may affect the markets in which our Common Stock trades, the markets in which we operate and our operating results and financial condition.

System security risks, data protection breaches, cyber-attacks and other related cybersecurity issues could disrupt our internal operations, and any such disruption could reduce our expected net sales, increase our expenses, damage our reputation and adversely affect our stock price.

## RISKS RELATED TO OUR INTERNATIONAL OPERATIONS

Our international operations subject us to risks that could adversely affect our operations.

We have significant operations and assets in China, the U.K., Germany, Hong Kong and Taiwan and, as a result, will be subject to risks inherent in doing business in those jurisdictions, which may adversely affect our financial performance and operating results.

Significant uncertainties related to changes in governmental policies and participation in international trading partnerships or economic unions currently exist, and, depending upon how such uncertainties are resolved, the changes could have a material adverse effect on us.

A slowdown in the Chinese economy could limit the growth in demand for electronic devices containing our products, which would have a material adverse effect on our business, operating results and prospects.

Economic regulation in China could materially and adversely affect our business, operating results and prospects.

We could be adversely affected by violations of the United States' Foreign Corrupt Practices Act, the U.K.'s Bribery Act 2010, China's anti-corruption campaign and similar worldwide anti-bribery laws.

We are subject to foreign currency risk as a result of our international operations.

China is experiencing rapid social, political and economic change, which has increased labor costs and other related costs that could make doing business in China less advantageous than in prior years. Increased labor costs in China could adversely affect our business, operating results and financial condition.

We may not continue to receive preferential tax treatment in Asia, thereby increasing our income tax expense and reducing our net income.

The distribution of any earnings of certain foreign subsidiaries may be subject to foreign income taxes, thus reducing our net income.

## RISKS RELATED TO OUR COMMON STOCK

Variations in our quarterly operating results may cause our stock price to be volatile.

We may enter into future acquisitions and take certain actions in connection with such acquisitions that could adversely affect the price of our Common Stock.

Our directors, executive officers and significant stockholders hold a substantial portion of our Common Stock, which may lead to conflicts with other stockholders over corporate transactions and other corporate matters.

We were formed in 1959, and our early corporate records are incomplete. As a result, we may have difficulty in assessing and defending against claims relating to rights to our Common Stock purporting to arise during periods for which our records are incomplete.

Non-cash tender offers, debt equity swaps or equity exchanges to consummate our business activities are likely to have the effect of diluting the ownership interest of existing stockholders, including qualified stockholders who receive shares of our Common Stock in such business activities.

Anti-takeover effects of certain provisions of Delaware law and our Certificate of Incorporation and Bylaws, may hinder a take-over attempt.

Section 203 of Delaware General Corporation Law may deter a take-over attempt.

Certificate of Incorporation and Bylaw Provisions may deter a take-over attempt.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes to our market risks as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC on February 20, 2018.

Item 4. Controls and Procedures.

Our Chief Executive Officer, Keh-Shew Lu, and Chief Financial Officer, Richard D. White, with the participation of our management, carried out an evaluation, as of June 30, 2018, of the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e).) Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer believe that, as of the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures are effective at the reasonable assurance level to ensure that information required to be included in this report is:

• recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms; and

• accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions on required disclosure.

Disclosure controls and procedures, no matter how well designed and implemented, can provide only reasonable assurance of achieving an entity's disclosure objectives. The likelihood of achieving such objectives is affected by limitations inherent in disclosure controls and procedures. These include the fact that human judgment in decision-making can be faulty and that breakdowns in internal control can occur because of human failures such as simple errors, mistakes or intentional circumvention of the established processes.

Changes in Controls over Financial Reporting

There was no change in our internal control over financial reporting, known to our Chief Executive Officer or Chief Financial Officer, that occurred in the three months ended June 30, 2018, which has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II—OTHER INFORMATION

### Item 1. Legal Proceedings.

The Company is not currently a party to any pending litigation that we consider material.

From time to time, we are involved in various legal proceedings that arise in the normal course of business. While we intend to defend any lawsuit vigorously, we presently believe that the ultimate outcome of any current pending legal proceeding will not have any material adverse effect on our financial position, cash flows or operating results. However, litigation is subject to inherent uncertainties, and unfavorable rulings could occur. An unfavorable ruling could include monetary damages, which could impact our business and operating results for the period in which the ruling occurs or future periods.

### Item 1A. Risk Factors.

Other than the following, there have been no material changes from the risk factors disclosed in the “Risk Factors” section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, filed with the SEC on February 20, 2018.

Tariffs or other restrictions imposed by the United States Trade Representative may affect our operations in the U.S. and may disrupt our activities in the U.S. and may have an adverse impact on our profitability and results of operations.

The U.S. government has recently imposed new or higher tariffs on specified products imported from China in response to what it characterizes as unfair trade practices, and has proposed tariffs on additional products from China. China has responded by proposing new or higher tariffs on specified products imported from the United States.

Most of our products are manufactured in China and a portion are then imported into the U.S. The Office of the United States Trade Representative (“USTR”) on June 20, 2018 published notice of the imposition of an additional 25 percent ad valorem duty on products from China with an annual trade value of approximately \$34 billion. The June 20 notice also sought public comments on another proposed action in the form of an additional 25 percent ad valorem duty on products of China with an annual trade value of \$16 billion, the public comment process is ongoing. On July 10, 2018, the USTR published a request for comments on a proposal to take further action in the form of an additional 10 percent ad valorem duty on products from China with an additional annual trade value of approximately \$200 billion, with public hearings on this matter scheduled for August 22-23, 2018. The impacts on us of the recently imposed and proposed tariffs are uncertain because of the dynamic nature of governmental actions and responses, as well as possible exemptions for certain products. If the U.S. and China are able to negotiate the issues to restore a mutually advantageous and fair trading regime, the increased duties should be eliminated, but given the uncertainties, there can be no assurance of whether, or when, this will be accomplished. We are endeavoring to understand the impacts of the recently imposed and proposed U.S. duties on products imported from China, and our review is in the preliminary stage. Once we have a reasonable basis to assess the impacts, we intend to take whatever actions we deem

appropriate to mitigate those impacts and protect our competitive position in the marketplace.

It is not clear at this time what the ultimate outcome of this will be, but given the importance of our Chinese operations and related sales, and existing and possible future restrictions with regard to transactions with Chinese entities, it is very possible that our operating results and/or financial condition may be adversely affected.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

## Item 6. Exhibits.

\* A certification furnished pursuant to Item 601(b)(2) of the Regulation S-K will not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.

PLEASE NOTE: It is inappropriate for investors to assume the accuracy of any covenants, representations or warranties that may be contained in agreements or other documents filed as exhibits to this Quarterly Report on Form 10-Q. In certain instances the disclosure schedules to such agreements or documents contain information that modifies, qualifies and creates exceptions to the representations, warranties and covenants. Moreover, some of the representations and warranties may not be complete or accurate as of a particular date because they are subject to a contractual standard of materiality that is different from those generally applicable to stockholders and/or were used for the purpose of allocating risk among the parties rather than establishing certain matters as facts. Accordingly, you should not rely on the representations and warranties as characterizations of the actual state of facts at the time they were made or otherwise.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
