We use the term "twenty-foot equivalent unit", or TEU, the international standard measure of containers, in describing the capacity of our containerships, which are also referred to as our "vessels". We identify the classes of our vessels by the approximate average TEU capacity of the vessels in each class. However, the actual TEU capacity of a vessel may differ from the approximate average TEU capacity of the vessels in such vessel's class.

The information and the unaudited interim consolidated financial statements in this Report should be read in conjunction with the consolidated financial statements and related notes and the Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 20-F for the year ended December 31, 2018, filed with the U.S. Securities and Exchange Commission, or the SEC, on March 26, 2019, or our 2018 Annual Report. Unless otherwise indicated, all amounts in this Report are presented in U.S. dollars, or USD. We prepare our consolidated financial statements in accordance with United States generally accepted accounting principles, or U.S. GAAP.

#### 1. Significant accounting policies:

### (a) Basis of presentation:

Except for the changes described in note 1(b), the accompanying interim financial information of Seaspan Corporation (the "Company") has been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), on a basis consistent with those followed in the December 31, 2018 audited annual consolidated financial statements. The accompanying interim financial information is unaudited and reflects all adjustments, consisting of normal recurring adjustments, which, in the opinion of management, are necessary for a fair presentation of results for the interim periods presented. The unaudited interim consolidated financial statements do not include all the disclosures required under U.S. GAAP for annual financial statements and should be read in conjunction with the December 31, 2018 annual consolidated financial statements filed with the U.S. Securities and Exchange Commission in the Company's 2018 Annual Report on Form 20-F.

#### (b) Recently adopted accounting pronouncements:

Effective January 1, 2019, the Company adopted Accounting Standards Update ("ASU") 2016-02, "Leases", using the modified retrospective method, whereby a cumulative effect adjustment was made as of the date of initial application. The Company elected the practical expedient to use the effective date of adoption as the date of initial application. Accordingly, financial information and disclosures in the comparative period were not restated. The Company also elected to apply the package of practical expedients such that for any expired or existing leases, it did not reassess lease classification, initial direct costs or whether the relevant contracts are or contain leases. The Company did not use hindsight to reassess lease term or for the determination of impairment of right-of-use assets.

<sup>(1)</sup> Upon adoption of ASU 2016-02, the Company recorded non-cash right-of-use assets and operating lease liabilities on the balance sheet for its vessel sale-leaseback transactions and office leases under operating lease arrangements. Prior to January 1, 2019, operating leases were not included on the balance sheet and were recorded as operating lease expenses when incurred. The amount recognized as operating lease liabilities was based on the present value of future minimum lease payments, discounted using the lessor's rate implicit in the lease or the Company's incremental borrowing rate if the lessor's implicit rate is not readily determinable and includes any existing accrued payments related to lease liabilities. Minimum lease payments referenced to an indexed rate were determined based on the respective rates at the adoption date.

The accounting for lessors is largely unchanged under ASU 2016-12. The Company evaluated its lessor arrangements and determined that the amounts recognized and the pattern of recognition remain substantially the same as existing guidance which was previously used by the Company.

(c) Recent accounting pronouncements:

Measurement of credit loss

<sup>(2)</sup> Initial direct costs related to the Company's vessel sale-leaseback transactions under operating lease arrangements were reclassified from other assets to right-of-use assets.

<sup>(3)</sup> Deferred gain related to the Company's vessel sale-leaseback transactions was recognized through deficit on the initial date of application.

In June 2016, FASB issued ASU 2016-13, "Measurement of Credit Loss on financial Instruments". ASU 2016-13 replaces the current incurred loss impairment methodology with the expected credit loss impairment model ("CECL"), which requires consideration of a broader range of reasonable and supportable information to estimate expected credit losses over the life of the instrument instead of only when losses are incurred. This standard applies to financial assets measured at amortized cost basis and investments in leases recognized by the lessor. The revised guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2019. Early adoption is permitted for fiscal years, and interim period within those years, beginning after December 15, 2018. The Company is evaluating this accounting update to determine the impact it will have on its consolidated financial statements.

- 1. Significant accounting policies (continued):
- (c) Recent accounting pronouncements (continued): Fair value measurement

In August 2015, FASB issued ASU 2018-13, "Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement". ASU 2018-13 revises fair value disclosures, including requiring additional information on changes in unrealized gains and losses and significant unobservable inputs as it relates to Level 3 fair value measurements. The revised guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted upon issuance of this update. The Company is evaluating this accounting update to determine the impact it will have on its consolidated financial statements.

#### (d) Leases:

Leases are classified as operating leases or financing leases based on the lease term and fair value associated with the lease. The assessment is done at lease commencement and reassessed only when a modification occurs that is not considered a separate contract.

The Company derives its revenue primarily from the charter of its vessels. Each charter agreement is evaluated and

Lessor arrangements

classified as an operating or financing lease. Time charters classified as operating leases include a lease component associated with the use of the vessel and a non-lease component related to vessel management. Total consideration in the lease agreement is allocated between the lease and non-lease components based on their relative standalone selling prices. For arrangements where the timing and pattern of transfer to the lessee is consistent between the lease and non-lease components and the lease component, if accounted for separately, would be classified as an operating lease, the Company has elected to treat the lease and non-lease components as a single lease component. Revenue is recognized each day the vessels are on-hire, managed and performance obligations are satisfied. For financing leases that are classified as direct financing leases, the difference between the gross investment in the lease and the present value of the minimum lease payments and any unguaranteed residual value, if applicable, is recorded as unearned lease interest income. The discount rate used in determining the present values is the interest rate implicit in the lease. The lower of the fair value of the vessel based on information available at lease commencement date and the present value of the minimum lease payments computed using the interest rate implicit in the lease, represents the price, from which the carrying value of the vessel is deducted in order to determine the selling profit or loss. The unearned lease interest income including any selling profit and initial direct costs are deferred and amortized to income over the period of the lease so as to produce a constant periodic rate of return on the net investment in lease. Any selling loss related to direct financing leases are recognized at lease commencement date.

For financing leases that are classified as sales-type leases, any selling profit or loss are recognized at lease commencement date. Initial direct costs are expensed at lease commencement date if the fair value of the vessel is different from its carrying amount.

#### Lessee arrangements

Where the Company is the lessee, leases classified as operating leases are recorded as lease liabilities based on the present value of minimum lease payments over the lease term, discounted using the lessor's rate implicit in the lease or the Company's incremental borrowing rate, if the lessor's implicit rate is not readily determinable. The lease term includes all periods covered by renewal and termination options where the Company is reasonably certain to exercise the renewal options or not to exercise the termination options. Corresponding right-of-use assets are recognized consisting of the lease liabilities, initial direct costs and any lease incentive payments.

#### 1. Significant accounting policies (continued):

#### (d) Leases (continued):

Lease liabilities are drawn down as lease payments are made and right-of-use assets are depreciated over the term of the lease. Operating lease expenses are recognized on a straight-line basis over the term of the lease, consisting of interest accrued on the lease liability and depreciation of the right-of-use asset, adjusted for changes in index-based variable lease payments in the period of change.

Lease payments on short-term operating leases with lease terms twelve months or less are expensed as incurred. Transactions are determined to be sale-leaseback transactions when control of the vessel is transferred. For sale-leaseback transactions, where the Company is the seller-lessee, any gains or losses on sale is recognized upon transfer.

### 2. Acquisition of Greater China Intermodal Investments LLC:

On March 13, 2018, the Company acquired the remaining 89.2% that it did not own of Greater China Intermodal Investments LLC ("GCI") from affiliates of The Carlyle Group and the minority owners of GCI ("Carlyle Group"). GCI's fleet of 18 containerships, including two newbuilds, was comprised of 10000 TEU and 14000 TEU eco-class vessels.

The aggregate purchase price was \$498,050,000, comprised of:

Cash	\$331,904
1,986,449 of the Company's Series D preferred shares	47,158
2,514,996 of the Company's Class A common shares	13,908
Settlement of intercompany balances	41,279
Carrying value of previously held equity interest	61,891
Acquisition related transaction fees	1,910
Aggregate purchase price	\$498,050

Under the Agreement and Plan of Merger (the "Merger Agreement"), \$10,000,000 was deposited in escrow for settlement of potential indemnifiable damages. In March 2019, the deposit was released from escrow.

The value of the Company's Series D preferred shares and Class A common shares was determined based on the closing market price of those shares on March 13, 2018, the date the acquisition closed. The initial holders of the 1,986,449 Series D preferred shares have a right commencing on September 13, 2019 and ending on October 13, 2019 to cause the Company to repurchase any of these shares they hold at that time for a price of \$24.84 per share. Therefore, these Series D preferred shares are recorded as temporary equity.

The Company accounted for the transaction as an asset acquisition as substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable group of similar identifiable assets.

Debt assumed	1,038,081
Current liabilities	31,115
Other long-term liabilities	14,150
Net assets acquired	\$498,050

As a part of the acquisition, the Company purchased certain identifiable contracts (time charters) which had an estimated useful life of 5.3 years as at the date of acquisition and is recorded in Other Assets and Other Long-Term Liabilities.

### 3. Related party transactions:

- (a) Prior to March 13, 2018, the Company had a 10.8% equity interest in GCI. The Company purchased the remaining 89.2% interest in GCI on March 13, 2018 (see note 2) and consolidated GCI from the date of acquisition.
- (b) The Company incurred the following income or expenses with related parties:

The weighted average rate of interest, including the applicable margin, was 4.9% at March 31, 2019 (December 31, 2018 – 4.8%) for term loan credit facilities. Interest payments are made in monthly, quarterly or semi-annual payments.

### (c) Credit facilities – other

As of March 31, 2019, the Company's credit facilities, were secured by first-priority mortgages granted on 51 of its vessels together with other related security. The security for each of the Company's current secured credit facilities includes:

- A first priority mortgage on the collateral vessels funded by the related credit facility;
- An assignment of the Company's time charters and earnings related to the related collateral vessels;
- An assignment of the insurance on each of the vessels that are subject to a related mortgage;
- An assignment of the Company's related shipbuilding contracts and the corresponding refund guarantees;
- A pledge over shares of various subsidiaries; and
- A pledge over the related retention accounts.

The Company may prepay certain amounts outstanding without penalty, other than breakage costs in certain circumstances. In certain circumstances a prepayment may be required as a result of certain events, including the sale or loss of a vessel, a termination or expiration of a charter (and the

inability to enter into a charter suitable to lenders within a period of time). The amount that must be prepaid may be calculated based on the loan to market value. In these circumstances, valuations of our vessels are conducted on a "without charter" basis as required under the credit facility agreement.

Each credit facility, other than credit facilities of GCI's subsidiaries, contains financial covenants requiring the Company to maintain minimum liquidity, tangible net worth, interest coverage ratios, interest and principal coverage ratios, and debt-to-assets ratios, as defined. For GCI, each borrower under each facility is a special purpose entity and subsidiary of GCI. Each facility is guaranteed by GCI and as the guarantor, GCI must meet certain consolidated financial covenants under these term loan facilities including maintaining certain minimum tangible net worth, cash requirements and debt to asset ratios. Some of the facilities also have an interest and principal coverage ratio requirement for the subsidiary borrower. The Company was in compliance with these covenants at March 31, 2019.

#### (d) Senior unsecured notes

In December 2018, the Company entered into a repurchase plan for its senior unsecured notes which mature in April 2019. During the three months ended March 31, 2019, the Company repurchased \$8,998,000 senior unsecured notes. In March 2019, the repurchase plan was terminated.

#### (e) Fairfax Notes

On January 15, 2019, pursuant to a previous subscription agreement, the Company issued to Fairfax the 2026 Notes bearing interest at 5.5% for an aggregate principal of \$250,000,000 and the 2019 Warrants. The proceeds from the transaction were allocated to each security on a relative fair value basis. The 2019 Warrants were immediately exercised for additional proceeds of \$250,000,000.

The 2026 Notes and similar notes issued in 2018 (the "2025 Notes") allow Fairfax to call for early redemption of some or all of the Fairfax Notes on each respective anniversary date of issuance (the "Annual Put Right") by providing written notice between 150 days and 120 days prior to each applicable anniversary date. In February 2019, Fairfax waived its right to call for early redemption of the 2025 Notes and 2026 Notes on their respective 2020 anniversary dates. Therefore, the Fairfax Notes are not puttable until their respective anniversary dates in 2021.

The Fairfax Notes are secured by ownership interest in GCI. The indenture relating to the 2025 Notes provides that, subject to certain limitations, the Fairfax investors have the right to designate a maximum of two members to our board of directors.

## 10. Operating lease liabilities (continued):

Operating lease liabilities relate to vessel sale-leaseback transactions and office operating leases. Vessel sale-leaseback transactions under operating lease arrangements are in part, indexed to 3-months LIBOR, reset on a quarterly basis. For one of the Company's vessel operating leases, an option to repurchase the vessel exists at the end of its lease term. For all other arrangements, the lease may be terminated prior to the end of the lease term, at the option of the Company, by repurchasing the respective vessels on a specified repurchase date at a pre-determined fair value amount. For one of these arrangements, if the Company elects not to repurchase the vessel, the lessor may choose not to continue the lease until the end of its term.

Upon implementation of ASU 2016-02 on January 1, 2019, the lease terms were not reassessed. The Company continues to include the full term of the lease, including periods covered by the purchase options, in the measurement of lease liability as determined under ASC 840 Leases, for all vessel sale-leaseback transactions under operating lease arrangements existing at date of implementation.

Each sale-leaseback transaction contains financial covenants requiring the Company to maintain tangible net worth, interest coverage ratios and debt-to-assets ratios, as defined.

As at March 31, 2019, for the Company's operating leases, the weighted average remaining lease term is 8 years and the weighted average discount rate is 4.8%.

During the three months ended March 31, 2019, the Company amortized \$1,144,000 (March 31, 2018 - \$627,000) in share-based compensation expense related to the above share-based compensation awards.

At March 31, 2019, there was (i) \$5,678,000 (December 31, 2018 – \$1,474,000) of total unamortized compensation costs relating to unvested share-based compensation awards, which are expected to be recognized over a weighted-average period of 24 months and (ii) 1,308,836 (December 31, 2018 – 2,187,420) shares remaining for issuance under the Company's Stock Incentive Plan, as amended.

#### (a) Restricted shares and phantom share units:

Class A common shares are issued on a one-for-one basis in exchange for the cancellation of vested restricted shares and phantom share units. The restricted shares generally vest over one year and the phantom share units generally vest over three years. During the three months ended March 31, 2019, the fair value of restricted shares vested was \$1,408,000 (March 31, 2018 – \$841,000).

As vested outstanding phantom share units are only exchanged for common shares upon written notice from the holder, the phantom share units that are exchanged for common shares may include units that vested in prior periods.

At March 31, 2019, 517,002 (December 31, 2018 - 537,002) of the outstanding phantom share units were vested and available for exchange by the holder.

In March 2019, the Company cancelled 100,000 restricted shares previously issued to the former Chief Executive Officer ("former CEO") of the Company.

At March 31, 2019, 500,000 restricted shares were held by the Chief Executive Officer ("CEO") of the Company. These restricted shares vest over five years, up to a maximum amount each year. During the three months ended March 31, 2019, 100,000 of these restricted shares vested.

# (b) Stock options:

In January 2018, the Company granted to CEO of the Company, stock options to purchase 500,000 Class A common shares at an exercise price of \$7.20 per share. The stock options vest equally on each of the first five anniversaries of the CEO's start date in January 2018 and expire on January 8, 2028. As at March 31, 2019, 100,000 of these stock options are vested and exercisable.

#### 17. Leases:

Revenue consists of \$276,609,000 related to time charter revenue from operating leases and \$8,714,000 related to interest income from direct financing leases.

At March 31, 2019, the minimum future revenues to be received on committed time charters and to be earned related to interest income from direct financing leases are as follows:

	Time	Interest	
	charter	income to	
	revenue to	be earned

At December 31, 2018, the minimum future revenues to be received on committed time charter party agreements and to be earned related to interest income from direct financing leases are as follows:

2019	\$1,094,608
2020	977,926
2021	844,261
2022	688,537
2023	469,754
Thereafter	751 473

#### \$4,826,559

Minimum future revenues to be received on committed time charters assume 100% utilization and no renewals or extensions.

In March 2019, the Company entered into an agreement with a customer to modify seven of its time charters such that the existing time charters continued until March 31, 2019, subsequent to which the vessels were re-chartered to other customers. Pursuant to this agreement, on April 1, 2019, the Company received a settlement payment of \$227,000,000 (note 22(a)).

The Company is exposed to residual value risk associated with its leased assets under time charter agreements. Its risk management strategy seeks to reduce potential adverse effects on its performance resulting from decreases in the value of its assets after the end of each charter term. As part of its strategy, some of the Company's time charter agreements include terms that permit the vessels to be sold prior to the end of lease terms, subject to certain approvals. In addition, management implements processes and policies to minimize off-hire periods of its vessels after each lease term.

#### 20. Financial instruments:

#### (a) Fair value:

The carrying values of cash and cash equivalents, short-term investments, restricted cash, accounts receivable and accounts payable and accrued liabilities approximate their fair values because of their short term to maturity.

As of March 31, 2019, the fair value of the Company's revolving and term loan credit facilities, excluding deferred financing fees is \$2,589,044,000 (December 31, 2018 - \$2,875,691,000) and the carrying value is \$2,656,388,000 (December 31, 2018 - \$2,944,602,000). As of March 31, 2019, the fair value of the Company's operating lease liabilities is \$1,014,279,000 and the carrying value is \$1,025,819,000. As of March 31, 2019, the fair value of the Company's long-term obligations under other financing arrangements, excluding deferred financing fees, is \$647,425,000 (December 31, 2018 - \$660,919,000) and the carrying value is \$635,113,000 (December 31, 2018 - \$647,664,000). The fair value of the revolving and term loan credit facilities, operating lease liabilities and long-term obligations under other financing arrangements, excluding deferred financing fees, are estimated based on expected principal repayments and interest, discounted by relevant forward rates plus a margin appropriate to the credit risk of the Company. Therefore, the Company has categorized the fair value of these financial instruments as Level 2 in the fair value hierarchy.

As of March 31, 2019, the fair value of the Company's senior unsecured notes is \$391,752,000 (December 31, 2018 – \$400,049,000) and the carrying value is \$391,398,000 (December 31, 2018 – \$400,396,000). The fair value of senior unsecured notes is calculated based on a quoted price that is readily and regularly available in an active market. Therefore, the Company has categorized the fair value of these financial instruments as Level 1 in the fair value hierarchy.

As of March 31, 2019, the fair value of the Fairfax Notes is \$497,080,000 (December 31, 2018 – \$236,349,000) and the carrying value is \$335,793,000 (December 31, 2018 – \$166,608,000). The Annual Put Right features on the Fairfax Notes are considered embedded derivatives that are separately accounted for and are re-measured at fair value at the end of each reporting period. The fair value of the derivative put instruments at each reporting period is derived from the difference between the fair value of the Fairfax Notes and the fair value of a similar debt without Annual Put Rights, which are calculated using a trinomial tree. The assumptions used include our estimate of the risk-free yield curve, interest volatility and Company specific credit risk. The fair value of the Fairfax Notes and derivative put instruments are determined based on interest rate inputs that are unobservable. Therefore, the Company has categorized the fair value of these derivative financial instruments as Level 3 in the fair value hierarchy.

The Company's interest rate derivative financial instruments are re-measured to fair value at the end of each reporting period. The fair values of the interest rate derivative financial instruments have been calculated by discounting the future cash flow of both the fixed rate and variable rate interest rate payments. The discount rate was derived from a

yield curve created by nationally recognized financial institutions adjusted for the associated credit risk. The fair values of the interest rate derivative financial instruments are determined based on inputs that are readily available in public markets or can be derived from information available in publicly quoted markets. Therefore, the Company has categorized the fair value of these derivative financial instruments as Level 2 in the fair value hierarchy.

<sup>(1)</sup> Over the term of the interest rate swaps, the notional amounts increase and decrease. These amounts represent the peak notional amounts over the remaining term of the swap.

If interest rates remain at their current levels, the Company expects that \$31,182,000 would be settled in cash in the next 12 months on interest rate swaps maturing after March 31, 2019. The amount of the actual settlement may be different depending on the interest rate in effect at the time settlements are made.

#### (c) Derivative assets and liabilities:

The following provides information about the Company's derivatives:

<sup>&</sup>lt;sup>(2)</sup>Swap counterparty has an early termination right in August 2019, which may require the Company to settle the swap earlier than the termination date. The fair value liability as of March 31, 2019 for this swap is \$74,435,000 (December 31, 2018 - \$68,728,000).

# ITEM 2 — MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Overview

We are a leading independent charter owner and manager of containerships, which we charter primarily pursuant to long-term, fixed-rate time charters with major container liner companies. As of March 31, 2019, we operated a fleet of 112 containerships, which have an average age of approximately six years, on a TEU weighted basis.

We primarily deploy our vessels on long-term, fixed-rate time charters to take advantage of the stable cash flow and high utilization rates that are typically associated with long-term time charters. As of March 31, 2019, the charters on the 112 vessels in our operating fleet had an average remaining term of approximately four years, on a TEU weighted basis, excluding the effect of any charterers' options to extend certain time charters.

Customers for our operating fleet as at April 15, 2019 were as follows:

**Customers for Current Fleet** 

Arkas

CMA CGM

**COSCO** 

Hapag-Lloyd

**HMM** 

**KMTC** 

Maersk

MOL

**MSC** 

**ONE** 

Yang Ming Marine

Our primary objective is to continue to grow our business through accretive vessel acquisitions as market conditions allow. Please read "Our Fleet" for more information about our vessels and time-charter contracts. Most of our customers' containership business revenues are derived from the shipment of goods from the Asia Pacific region, primarily China, to various overseas export markets in the United States and in Europe.

#### Significant Developments

#### Fairfax Investment

On January 15, 2019, pursuant to a previous subscription agreement, we issued to Fairfax Financial Holdings Ltd. ("Fairfax"), in a private placement, \$250.0 million in debentures bearing interest at 5.5% ("2026 Notes") and warrants to purchase 38,461,539 Class A common shares at \$6.50 per share ("2019 Warrants"). The 2019 Warrants were immediately exercised for \$250.0 million in cash, resulting in total aggregate proceeds of \$500.0 million from this transaction.

Fairfax's total investment in us are summarized below:

Summary of Fairfax Investments<sup>(1)</sup>

# Debt Repayment

In January 2019, we prepaid \$147.0 million on the remaining principal balance of a secured reducing revolving credit facility. As a result of the repayment, eight vessels were unencumbered.

In March 2019, we prepaid \$25.6 million of a secured term loan facility. As a result of the prepayment, three vessels were unencumbered. We also prepaid \$59.0 million of another secured reducing revolving credit facility, releasing two vessels from security.

As of March 31, 2019, we had 37 unencumbered vessels.

Investment in Swiber Holdings Limited

<sup>&</sup>lt;sup>(2)</sup>Fairfax has the ability to call for early redemption of some or all of the 5.50% senior notes due 2025 ("2025 Notes") and 2026 Notes at each anniversary date of issuance, by providing written notice between 150 and 120 days prior to the applicable anniversary date (the "Annual Put Options"). In February 2019, Fairfax waived the Annual Put Options on the 2025 Notes and 2026 Notes related to their respective anniversary dates in 2020.

<sup>(3)</sup> Seven-year warrants to purchase 38,461,539 Class A common shares at an exercise price of \$6.50 per share, issued on February 14, 2018 and exercised on July 16, 2018.

<sup>(4)</sup> Seven-year warrants to purchase 38,461,539 Class A common shares at an exercise price of \$6.50 per share, which were exercised immediately upon issuance on January 15, 2019.

On October 3, 2018, we entered into a binding term sheet to invest up to \$200.0 million in Swiber Holdings Limited ("Swiber"). Upon closing, and pursuant to a definitive Investment Agreement entered into in March 2019, we will acquire an 80% post-restructured equity interest in Swiber for \$10.0 million. If certain milestones are met, an additional \$190.0 million will be invested in Swiber's LNG-to-power project in Vietnam.

#### Modification of Customer Time Charters

During the normal course of business, we modified our charter arrangements with one of our top five customers, such that the existing time charters as of seven vessels continued until the end of the day on March 31, 2019, after which all seven vessels were chartered to other customers, pursuant to new time charters. In connection with the modification, we received a payment of \$227.0 million on April 1, 2019. This payment was recorded in accounts receivable as at March 31, 2019. As of the date of filing, all seven of these vessels have been rechartered.

#### **Recent Developments**

Recent Additions to Senior Management

In April 2019, we appointed Peter Kristian Ellegaard as Executive Vice-President and General Counsel.

Receipt of Charter Modification Payment

On April 1, 2019, we received a \$227.0 million charter modification payment, which was recorded in accounts receivable at March 31, 2019.
