SKINVISIBLE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. DESCRIPTION OF BUSINESS, HISTORY AND SUMMARY OF SIGNIFICANT POLICIES

Description of business – Skinvisible, Inc., (referred to as the “Company”) is focused on the development and manufacture and sales of innovative topical, transdermal and mucosal polymer-based delivery system technologies and formulations incorporating its patent-pending formula/process for combining hydrophilic and hydrophobic polymer emulsions. The technologies and formulations have broad industry applications within the pharmaceutical, over-the-counter, personal skincare and cosmetic arenas. Additionally, the Company’s non-dermatological formulations, offer solutions for a broad spectrum of markets women’s health, pain management, and others. The Company maintains executive and sales offices in Las Vegas, Nevada.

History – Skinvisible, Inc. (referred to as the “Company”) was incorporated in Nevada on March 6, 1998, under the name of Microbial Solutions, Inc. The Company underwent a name change on February 26, 1999, when it changed its name to Skinvisible, Inc. The Company’s subsidiary’s name of Manloe Labs, Inc. was also changed to Skinvisible Pharmaceuticals, Inc.

On September 9, 2014, the Company formed Kinatri USA Inc., a new wholly-owned subsidiary, to market a premium line of scientifically formulated skincare products powered by our patented Invisicare® technology. As part of our strategic focus on revenue generation and creating shareholder value, Kintari USA Inc. products will be sold via network marketing.

The Kintari product portfolio consists of anti-aging products to help fight the signs of aging. These products have been developed using proven anti-aging ingredients with scientific evidence of their effectiveness at reducing the look of fine lines and wrinkles resulting in youthful looking skin. These potent ingredients will be powered by patented Invisicare technology, providing consumers with unique, effective products which we believe cannot be duplicated. Additional products will be added to enhance this product line as the company grows and expands.

Skinvisible, Inc. together with its subsidiary shall herein be collectively referred to as the “Company”.

Going concern – The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred cumulative net losses of \$27,330,955 since its inception and requires capital for its contemplated operational and marketing activities to take place. The Company’s ability to raise additional capital through the future issuances of common stock is unknown. The obtainment of additional financing, the successful development of the

Company's contemplated plan of operations, and its transition, ultimately, to the attainment of profitable operations are necessary for the Company to continue operations. The ability to successfully resolve these factors raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements of the Company do not include any adjustments that may result from the outcome of these aforementioned uncertainties.

Principles of consolidation – The consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany balances and transactions have been eliminated.

Use of estimates – The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments and short-term debt instruments with original maturities of three months or less to be cash equivalents. There are \$0 and \$196,602 in cash and cash equivalents as of September 30, 2015 and December 31, 2014, respectively.

Fair Value of Financial Instruments

The carrying amounts reflected in the balance sheets for cash, accounts payable and accrued expenses approximate the respective fair values due to the short maturities of these items.

Table of Contents

SKINVISIBLE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC, fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Revenue recognition

Product sales – Revenues from the sale of products (Invisicare® polymers) are recognized when title to the products are transferred to the customer and only when no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive reasonably assured payments for products sold and delivered.

Royalty sales – The Company also recognizes royalty revenue from licensing its patented product formulations only when earned, when no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive and retain reasonably assured payments.

Distribution and license rights sales – The Company also recognizes revenue from distribution and license rights only when earned (and are amortized over a five year period), when no further contingencies or material performance

obligations are warranted, and thereby have earned the right to receive and retain reasonably assured payments.

Costs of Revenue – Cost of revenue includes raw materials, component parts, and shipping supplies. Shipping and handling costs is not a significant portion of the cost of revenue.

Accounts Receivable – Accounts receivable is comprised of uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. The carrying amount of accounts receivable is reviewed periodically for collectability. If management determines that collection is unlikely, an allowance that reflects management’s best estimate of the amounts that will not be collected is recorded. Management reviews each accounts receivable balance that exceeds 30 days from the invoice date and, based on an assessment of creditworthiness, estimates the portion, if any, of the balance that will not be collected. As of September 30, 2015, the Company had not recorded a reserve for doubtful accounts. The Company has \$1,000,000 in convertible notes payable which are secured by the accounts receivable of a license agreement the Company has with Women's Choice Pharmaceuticals, LLC on its proprietary prescription product, ProCort®.

Inventory – Substantially all inventory consists of finished goods and are valued based upon first-in first-out ("FIFO") cost, not in excess of market. The determination of whether the carrying amount of inventory requires a write-down is based on an evaluation of inventory.

Goodwill and intangible assets – The Company follows Financial Accounting Standard Board’s (FASB) Codification Topic 350-10 (“ASC 350-10”), “*Intangibles – Goodwill and Other*”. According to this statement, goodwill and intangible assets with indefinite lives are no longer subject to amortization, but rather an annual assessment of impairment by applying a fair-value based test. Fair value for goodwill is based on discounted cash flows, market multiples and/or appraised values as appropriate. Under ASC 350-10, the carrying value of assets are calculated at the lowest level for which there are identifiable cash flows.

Table of Contents

SKINVISIBLE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Income taxes – The Company accounts for its income taxes in accordance with FASB Codification Topic ASC 740-10, “*Income Taxes*”, which requires recognition of deferred tax assets and liabilities for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Stock-based compensation – The Company follows the guidelines in FASB Codification Topic ASC 718-10 “*Compensation-Stock Compensation*”, which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including employee stock options and employee stock purchases related to a Employee Stock Purchase Plan based on the estimated fair values.

Stock based compensation expense recognized under ASC 718-10 for the year ended September 30, 2015 and December 31, 2014 totaled \$8,800 and \$54,450, respectively.

Earnings (loss) per share – The Company reports earnings (loss) per share in accordance with FASB Codification Topic ASC 260-10 “*Earnings Per Share*”, Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share has not been presented since the effect of the assumed exercise of options and warrants to purchase common shares (common stock equivalents) would have an anti-dilutive effect.

Further information concerning our business, including additional factors that could materially affect our financial results, is included herein and in our other filings with the SEC.

Company Overview

We, through our wholly owned subsidiary Skinvisible Pharmaceuticals Inc., are a pharmaceutical research and development (“R&D”) company that has developed and patented an innovative polymer delivery system, Invisicare® and formulated over forty topical skin products, which we out-license globally. We were incorporated in 1998, and target an estimated \$80 billion global skincare and dermatology market and a \$30 billion global over-the-counter market as well as other healthcare / medical and consumer goods markets.

With the research and development complete on forty products and numerous patents issued (technology and product patents), we are ready to monetize our investment. Our business model will continue to be to out-license our patented prescription and over-the-counter (“OTC”) products featuring Invisicare to established manufacturers and marketers of brands internationally and to maximize profits from the products we have already out-licensed. We have also formed a commercial subsidiary, Kintari USA Inc., in order to take our cosmeceutical and select OTC products with Invisicare

to market.

The opportunity for us to license our products continues to be a viable model as the need for pharmaceutical companies to access external R&D companies for new products due to their own down-sizing or elimination of internal R&D departments. The demand for our products is enhanced due to the granting of key US and international patents and the completed development of a number of unique products.

Our Plan for the Next Twelve Months

Our growth strategy is to:

1. Generate revenue from direct sales of our cosmeceutical/OTC product line;
2. Capitalize on the success of current licensees;
3. Increase the value of our current pipeline; and
4. Boost licensing revenues by securing additional licensees globally and develop a robust royalty revenue stream that will finance our future growth.

• **Kintari USA Inc.:**

On September 9, 2014, we formed Kinatri USA Inc., a new wholly-owned subsidiary of Kintari International Inc., wholly-owned subsidiary of Skinvisible Inc., to market a premium line of scientifically formulated skincare products powered by our patented Invisicare® technology. The company was officially launched January 15, 2015. As part of our strategic focus on revenue generation and creating shareholder value, Kintari USA Inc. products will be sold via network marketing. The products will be sold initially in the US and then in Canada in 2016.

The Kintari product portfolio consists of 2 anti-aging products to help fight the signs of aging. These products have been developed using proven anti-aging ingredients with scientific evidence of their effectiveness at reducing the look of fine lines and wrinkles resulting in youthful looking skin. These potent ingredients will be powered by patented Invisicare technology, providing consumers with unique, effective products which we believe cannot be duplicated. Additional products will be added to enhance this product line as the company grows and starting with our Skinbrella® SPF 30 sunscreen which was launched in April 2015.

• **Capitalize On Current Licensees:**

We have licensees around the globe. Two of these licensees are currently in the marketplace: Avon Products globally and Women's Choice Pharmaceuticals in the United States.

We continue to work diligently with our licensees to ensure they have a smooth manufacturing process, ongoing R&D support and marketing feedback.

Table of Contents

Avon Products, Inc:

Product: We have a long-term contract with Avon globally for over ten years to provide Invisicare polymer for their long-lasting lipsticks.

Sales: Invisicare polymers are purchased directly from Skinvisible.

Women's Choice Pharmaceuticals:

Product: ProCort®, long lasting prescription hemorrhoid cream launched in the United States August 2011.

Sales and Royalties: Skinvisible receives a royalty based on net sales of ProCort. This past year Women's Choice Pharmaceuticals LLC partnered with Advanced Medical Enterprises, LLC to market ProCort® in Puerto Rico. With over thirty pharmaceutical sales reps calling on OBGYNs in the US, Women's Choice has been successfully growing their sales of ProCort® and we look forward to increased growth for the rest of 2015. Women's Choice is seeking to form other strategic alliances in order to increase its sales efforts by targeting new territories and targeting medical specialists which previously were not called upon.

Product Updates:

We have additional information on specific products which add value to Skinvisible's product pipeline.

DermSafe® Hand Sanitizer

Skinvisible's hand sanitizer formulated with Invisicare® and chlorhexidine gluconate has received registration in Belgium on behalf of Skinvisible. This registration allows Skinvisible to make DermSafe® available in most of Europe through a simple registration process. The Company is currently seeking licensees and/or distributors to begin the sale of DermSafe in the EU. This registration has recently been granted for a ten year term to expire in 2024. The product will be sold through Kintari Canada Inc. when it launches in 2016.

Sunless Tanning Products: We have developed a new sunless tanning mousse / foam which uses a unique foam with Invisicare®, developed specifically for its foaming properties. This adds to Skinvisible's line of sunless tanning products which includes sunless tanning lotions (light, medium and dark), pre-sun moisturizer and after-sun moisturizer along with sunless tanning spray products for commercial use. The addition of a sunless tanning mousse enhances this line of products.

Sunscreen Products: We have developed 3 broad spectrum sunscreens, with SPF 15, 30 and 50 (the highest SPF allowed by the FDA). All are formulated with Avobenzone, the only UVA sun filter allowed under the US FDA monograph. This UVA/UVB sunscreen was granted a patent from the United States patent office in 2013. Avobenzone is known for breaking down in the sun after only two hours – thus the requirement to reapply every 2 hours. Skinvisible’s patent was granted based on Invisicare’s® minimum 8 hour photo stability. For countries outside the United States, Skinvisible has additionally patented UVA/UVB sunscreens formulated with Tinosorb S.

In March 25, 2014, we announced that we have successfully completed independent testing to validate our broad spectrum sunscreen claims according to new labeling guidelines by the FDA which are designed to help reduce the incidents of skin cancer in the U.S.

Table of Contents

Skinvisible sunscreens can be labeled with the following claims:

Claim # 1 – Broad-Spectrum: According to the FDA, in order for a sunscreen to be labeled “broad spectrum” it must prove it protects against both UVA and UVB rays by having an SPF (Sun Protection Factor) of at least 15 and a critical wave length of at least 370 nm. Skinvisible’s sunscreen has surpassed both of these criteria, allowing Skinvisible’s broad spectrum sunscreen label to also state “prevents sunburn, skin cancer and aging due to the sun.”

Claim # 2 – Water-Resistant 80 Minutes: The FDA sunscreen water resistant claim requires that a sunscreen must have the same SPF after being in water or sweating for 40 or 80 minutes. Skinvisible’s testing was conducted at an independent laboratory specializing in sunscreen testing. The test involved human subjects that applied sunscreen to their arm, followed by the immersion of the arm into a Jacuzzi for 80 minutes (10 minutes in / 10 minutes out). Skinvisible’s sunscreen successfully completed this testing and is allowed to use “Water-resistant for 80 Minutes” on its sunscreen label, the longest length of time allowed by the FDA.

Claim # 3 – Unique Patented Technology / Eight-Hour Photostability: As previously announced, Skinvisible was granted a patent from the United States Patent and Trademark Office entitled “Sunscreen Composition with Enhanced UVA Absorber Stability and Methods”, which provides protection until November 2029. Skinvisible successfully formulated a unique Invisicare® delivery system specifically for stabilizing avobenzone; the key sunscreen used in the USA. Data submitted to the US patent office proved that Skinvisible’s sunscreen provides a minimum of eight hours of photostability.

- **Increasing The Value Of Skinvisible’s Pipeline: Clinical Enhancement Of Pipeline**

We have a pipeline of over forty products which are available for licensing. Testing is conducted in-house generating proof of concept including release of the active ingredient as well as long term shelf life (stability). Additional studies conducted on specific products including skin sensitivity, toxicity and product efficacy are outsourced to FDA compliant laboratories. These studies are critical in attracting potential licensees. Our clinical strategy is to:

- Add new studies for our prescription products. Our clinical strategy is to increase the amount of outsourced studies, specifically for our prescription products. Additional studies including skin penetration and skin irritation studies will add to the integrity and value of our products available for licensing.
- Add new long-term efficacy studies for our DermSafe® hand sanitizer. In 2013, we commissioned an independent laboratory to further analyze the long-term effectiveness of DermSafe® when put in contact with two bacteria; the “super bug” MRSA and E. coli, the “restaurant bug” since it is often transmitted by food and food handlers. The long-term effectiveness of two bacteria; Methicillin-resistant Staphylococcus aureus or

MRSA (ATCC #33591) and Escherichia coli or E. coli (ATCC #43888") were tested up to four hours after application. The results showed that the individual arms of subjects which had DermSafe® applied and were even rinsed prior to each bacteria challenge, showed a 95.83% reduction at the 4 hour time point for MRSA and 99.38% for E. coli. In 2013, we obtained the registration rights for DermSafe® in Belgium. This designation allows for the sale and/ or registration of DermSafe in most EU countries. A strategy is being developed along with a larger global strategy to bring DermSafe to the EU and. Skinvisible has also commissioned further testing of DermSafe against the (Middle East Respiratory Syndrome Coronavirus (MERS-CoV); a SARS-like virus and the avian influenza A virus, H7N9.

- We continue to look for avenues to obtain orphan drug status for our Netherton syndrome product. Netherton syndrome is a disease caused by a genetic defect which causes the skin to continually exfoliate, never forming a skin bond. This leaves the patient highly susceptible to infection and dealing with a life-long condition that has no cure. Our product has shown excellent results in lab studies blocking the enzyme that breaks down the skin and we are seeking “Orphan Drug” designation in both the US (FDA) and Europe (EMA). We have reformulated our product to better meet the demands of this very debilitating disease and will be undergoing a clinical Netherton syndrome study with a subject before the end of 2015.

The advantages of obtaining Orphan Drug designation is that it provides various incentives including a reduction or elimination of registration and market authorization fees, protocol assistance, and seven years of market exclusivity for the product in the US and ten years in Europe. There can be no assurances that our project will be successful.

Table of Contents

• **Secure Additional Licensees:**

We are in discussions and undergoing internal discussions with various pharmaceutical companies for licenses.

To facilitate further expansion, we are seeking an exclusive license with a proven US or global based Pharmaceutical Company for our existing Rx product formulations. The licensee would be expected to pay all costs in getting FDA approval. The licensee would pay Skinvisible for the license in milestone payments as Clinical Phases are proven.

Results of Operations for the Three and Nine Months Ended September 30, 2015 and 2014

Revenues

Our revenue from product sales, royalties on patent licenses and license fees for the three months ended September 30, 2015 was \$30,377, an increase from \$22,303 for the same period ended September 30, 2014. Our revenue from product sales, royalties on patent licenses and license fees for the nine months ended September 30, 2015 was \$158,428, an increase from \$41,276 for the same period ended September 30, 2014.

The increase in revenue for the three and nine months ended September 30, 2015 was mainly due to an increase in product sales. With the launch of Kintari USA Inc., we expect increased revenue from our line of anti-aging products and select over-the-counter products.

Cost of Revenues

Our cost of revenues for the three months ended September 30, 2015 increased to \$9,859 from the prior year period when cost of revenues was \$674. Our cost of revenues for the nine months ended September 30, 2015 increased to \$56,047 from the prior year period when cost of revenues was \$3,907. Our cost of revenues increased for the three and nine months ended September 30, 2015 over the prior year period as a result of increased product sales. We expect this trend to continue with sales from Kintari USA Inc.

Gross Profit

Gross profit for the three months ended September 30, 2015 was \$20,518, or approximately 67% of sales. Gross profit for the three months ended September 30, 2014 was \$21,629, or approximately 96% of sales. Gross profit for the nine months ended September 30, 2015 was \$102,381, or approximately 65% of sales. Gross profit for the nine months ended September 30, 2014 was \$37,369, or approximately 90% of sales. Our gross profit margin fell in 2015 as compared with 2014 as a result of increased cost of revenues from product sales. We expect this trend to continue for the last quarter of 2015 and into 2016.

Operating Expenses

Operating expenses decreased to \$270,067 for the three months ended September 30, 2015 from \$382,781 for the same period ended September 30, 2014. Operating expenses increased to \$943,982 for the nine months ended September 30, 2015 from \$787,024 for the same period ended September 30, 2014.

Our operating expenses for the nine months ended September 30, 2015 consisted mainly of accrued salaries and wages of \$238,950, salaries and wages of \$153,828, commissions of \$115,483, consulting fees of \$105,234, travel expenses of \$64,875, depreciation and amortization expenses of \$43,377, rent of \$32,619, accounting and audit expenses of \$28,092, license and permit fees of \$20,232 and payroll tax expense of \$19,320. In comparison, our operating expenses for the nine months ended September 30, 2014 consisted mainly of salaries and wages of \$136,318, accrued salaries and wages of \$165,652, consulting fees of \$182,748, research and development of \$48,231, accounting and audit expenses of \$30,069, rent of \$31,368, depreciation and amortization expenses of \$28,027, legal fees of \$24,539 and travel of \$19,949.

Other Expenses

We had other expenses of \$231,707 for the three months ended September 30, 2015, compared with other expenses of \$204,928 for the three months ended September 30, 2014. This was largely the result of \$232,107 in interest expenses for the three months ended September 30, 2015 from \$200,944 in the prior period ended September 30, 2014.

We had other expenses of \$648,213 for the nine months ended September 30, 2015, compared with other expenses of \$556,658 for the nine months ended September 30, 2014. This was largely the result of \$650,079 in interest expenses for the nine months ended September 30, 2015 from \$551,872 in the prior period ended September 30, 2014.

We expect to continue to experience high interest payments in the future as a result of our outstanding liabilities. If we are unable to generate sufficient revenues and/or additional financing to service this debt, there is a risk the lenders will call the notes and we will be unable to repay the loans. If this happens, we could go out of business.

Net Loss

We recorded a net loss of \$481,256 for the three months ended September 30, 2015, as compared with a net loss of \$566,080 for the three months ended September 30, 2014. We recorded a net loss of \$1,489,814 for the nine months ended September 30, 2015, as compared with a net loss of \$1,306,313 for the nine months ended September 30, 2014.

Liquidity and Capital Resources

As of September 30, 2015, we had total current assets of \$97,729 and total assets in the amount of \$415,773. Our total current liabilities as of September 30, 2015 were \$5,373,229. We had a working capital deficit of \$5,275,500 as of September 30, 2015.

Operating activities used \$612,376 in cash for the nine months ended September 30, 2015. Our net loss of \$1,489,814 was the main component of our negative operating cash flow, offset mainly by amortization of debt discount of \$327,478, an increase in accounts payable and accrued liabilities of \$321,020 and an increase of accrued interest of \$149,788.

Cash flows used by investing activities during the nine months ended September 30, 2015 was \$5,726 as a result of the purchase of fixed and intangible assets.

Cash flows provided by financing activities during the nine months ended September 30, 2015 amounted to \$421,500 and consisted of \$431,000 in proceeds from notes payable and \$80,000 in proceeds from the sale of common stock, offset by \$89,500 in payments on notes payable.

During the year ended December 31, 2013, we entered into twenty-four 9% notes payable to investors and received total proceeds of \$1,000,000. The notes are due two years from the anniversary date of execution. The Notes are secured by the US Patent rights granted for the Company's Sunscreen Products: US patent number #8,128,913: "Sunscreen Composition with Enhanced UV-A Absorber Stability and Methods." As of September 30, 2015 several notes had reached their initial maturity date. All note holders executed agreements extending the note for an additional 12 months upon the same terms.

On May 19, 2014, we approved a financing plan to offer accredited investors up to an additional \$1,000,000 in secured promissory notes. For the period from May 19, 2014 to June 30, 2015, we entered into forty 9% notes payable to investors and received total proceeds of \$1,339,000. The notes are due two years from the anniversary date of execution. The Notes are secured by the US Patent rights granted for the Company's Sunscreen Products: US patent number #8,128,913: "Sunscreen Composition with Enhanced UV-A Absorber Stability and Methods".

On July 28, 2015, we entered into a convertible promissory note pursuant to which we borrowed \$47,500. Interest under the convertible promissory note is 8% per annum, and the principal and all accrued but unpaid interest is due on April 30, 2016. The note is convertible at any time following 180 days after the issuance date at noteholders option into shares of our common stock at a variable conversion price of 58% of the lowest average three day market price of our common stock during the 10 trading days prior to the notice of conversion, subject to adjustment as described in the note.

Table of Contents

The holder's ability to convert the note, however, is limited in that it will not be permitted to convert any portion of the note if the number of shares of our common stock beneficially owned by the holder and its affiliates, together with the number of shares of our common stock issuable upon any full or partial conversion, would exceed 9.99% of our outstanding shares of common stock. The holder has the right to waive this term upon 61 days' notice to us.

During the first 180 days following the date of the note we have the right to prepay the principal and accrued but unpaid interest due under the note, together with any other amounts we may owe the holder under the terms of the note, at a graduating premium ranging from 125% to 150%. After this initial 180 day period, we do not have a right to prepay the note.

There are certain covenants we agreed to, including without limitation, a right of first refusal in favor of the holder, price protection on dilutive issuances, a restriction on stock repurchases, a prohibition on borrowing under certain circumstances and the sale of our assets outside of the ordinary course of business.

All amounts due under the note become immediately due and payable by us upon the occurrence of an event of default, which includes (i) our failure to pay the amounts due at maturity, (ii) our failure to deliver shares of our common stock upon any conversion of the note, (iii) a breach of the covenants, representations or warranties, (iv) the appointment of a trustee, a judgment against us in excess of \$50,000 (subject to a cure period), a liquidation of our company or the filing of a bankruptcy petition, (v) failure to remain current in our reporting obligations under the Securities Exchange Act of 1934 or the removal of our common stock from quotation on the OTC markets, (vi) any restatement of our financial statements, or (vii) a reverse stock split without notice to the lender, as well as certain other provisions as set forth in the note.

On October 1, 2015, we entered into a convertible promissory note with Greg McCartney, our director. The \$10,800 face value promissory note is unsecured, due five years from issuance, and bears an interest rate of 10%. At the investor's option until the repayment date, the note may be converted to shares of our common stock at a fixed price of \$0.02 per share along with an additional warrant to purchase one share for every two shares issued at the exercise price of \$0.03 per share for three years after the conversion date.

On October 26, 2015, we entered into a convertible promissory note pursuant to which we borrowed \$135,000. Interest under the convertible promissory note is 9% per annum, and the principal and all accrued but unpaid interest is due on October 26, 2017. The note is convertible at any time following the third month anniversary after the issuance date at noteholders option into shares of our common stock at a variable conversion price of 90% of the average of the Trading Prices for the common stock during the five Trading Day period ending on the latest complete Trading Day prior to the Conversion Date, subject to adjustment as described in the note. The holder's ability to convert the note, however, is limited in that it will not be permitted to convert any portion of the note if the number of shares of our common stock beneficially owned by the holder and its affiliates, together with the number of shares of

our common stock issuable upon any full or partial conversion, would exceed 4.99% of our outstanding shares of common stock.

The note is secured by the accounts receivable of a license agreement we have with Women's Choice Pharmaceuticals, LLC on its proprietary prescription product, ProCort®. The form of convertible promissory note is attached as an exhibit to the Form 8-K we filed on January 1, 2013.

Based upon our current financial condition, we do not have sufficient cash to operate our business at the current level for the next twelve months. We intend to fund operations through increased sales and debt and/or equity financing arrangements, which may be insufficient to fund expenditures or other cash requirements. We plan to seek additional financing in a private equity offering to secure funding for operations. There can be no assurance that we will be successful in raising additional funding. If we are not able to secure additional funding, the implementation of our business plan will be impaired. There can be no assurance that such additional financing will be available to us on acceptable terms or at all.

Critical Accounting Policies

In December 2001, the SEC requested that all registrants list their most “critical accounting policies” in the Management Discussion and Analysis. The SEC indicated that a “critical accounting policy” is one which is both important to the portrayal of a company’s financial condition and results, and requires management’s most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

Going concern – The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. We have incurred cumulative net losses of \$27,330,955 since our inception and require capital for our contemplated operational and marketing activities to take place. Our ability to raise additional capital through the future issuances of common stock is unknown. The obtainment of additional financing, the successful development of our contemplated plan of operations, and our transition, ultimately, to the attainment of profitable operations are necessary for us to continue operations. The ability to successfully resolve these factors raise substantial doubt about our ability to continue as a going concern. These consolidated financial statements do not include any adjustments that may result from the outcome of these aforementioned uncertainties.

Product sales – Revenues from the sale of products (Invisicare® polymers) are recognized when title to the products are transferred to the customer and only when no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive reasonably assured payments for products sold and delivered.

Royalty sales – We also recognize royalty revenue from licensing our patented product formulations only when earned, with no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive and retain reasonably assured payments.

Distribution and license rights sales – We also recognize revenue from distribution and license rights only when earned (and are amortized over a five year period), with no further contingencies or material performance obligations are warranted, and thereby have earned the right to receive and retain reasonably assured payments.

Costs of Revenue – Cost of revenue includes raw materials, component parts, and shipping supplies. Shipping and handling costs is not a significant portion of the cost of revenue.

Accounts Receivable – Accounts receivable is comprised of uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. The carrying amount of accounts receivable is reviewed periodically for collectability. If management determines that collection is unlikely, an allowance that reflects management’s best estimate of the amounts that will not be collected is recorded. Management reviews each accounts receivable balance that exceeds 30 days from the invoice date and, based on an assessment of creditworthiness, estimates the portion, if any, of the balance that will not be collected. As of September 30, 2015, the Company had not recorded a reserve for doubtful accounts. The Company has \$1,000,000 in convertible notes payable which are secured by the accounts receivable of a license agreement the Company has with Women's Choice Pharmaceuticals, LLC on its proprietary prescription product, ProCort®.

Recently Issued Accounting Pronouncements

We do not expect the adoption of recently issued accounting pronouncements to have a significant impact on our results of operations, financial position or cash flow.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

A smaller reporting company is not required to provide the information required by this Item.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of September 30, 2015. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2015, our disclosure controls and procedures were not effective due to the presence of material weaknesses in internal control over financial reporting.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. Management has identified the following material weaknesses which have caused management to conclude that, as of September 30, 2015, our disclosure controls and procedures were not effective: (i) inadequate segregation of duties and effective risk assessment; and (ii) insufficient written policies and procedures for accounting and financial reporting with respect to the requirements and application of both US GAAP and SEC guidelines.

Remediation Plan to Address the Material Weaknesses in Internal Control over Financial Reporting

Our company plans to take steps to enhance and improve the design of our internal controls over financial reporting. During the period covered by this quarterly report on Form 10-Q, we have not been able to remediate the material weaknesses identified above. To remediate such weaknesses, we plan to implement the following changes during our fiscal year ending December 31, 2015: (i) appoint additional qualified personnel to address inadequate segregation of duties and ineffective risk management; and (ii) adopt sufficient written policies and procedures for accounting and financial reporting. The remediation efforts set out are largely dependent upon our securing additional financing to cover the costs of implementing the changes required. If we are unsuccessful in securing such funds, remediation efforts may be adversely affected in a material manner.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the three months ended September 30, 2015 that have materially affected, or are reasonable likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We are not a party to any pending legal proceeding. We are not aware of any pending legal proceeding to which any of our officers, directors, or any beneficial holders of 5% or more of our voting securities are adverse to us or have a material interest adverse to us.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The information set forth below relates to our issuances of securities without registration under the Securities Act of 1933 during the reporting period which were not previously included in a Quarterly Report on Form 10-Q or Current Report on Form 8-K.

During the three months ended September 30, 2015, we issued a total of 272,000 shares of common stock for the conversion of debts totaling \$9,600.

On October 1, 2015, we entered into a convertible promissory note with Greg McCartney, our director. The \$10,800 face value promissory note is unsecured, due five years from issuance, and bears an interest rate of 10%. At the investor's option until the repayment date, the note may be converted to shares of our common stock at a fixed price of \$0.02 per share along with an additional warrant to purchase one share for every two shares issued at the exercise price of \$0.03 per share for three years after the conversion date.

These securities were issued pursuant to Section 4(2) of the Securities Act and/or Rule 506 promulgated thereunder. The holders represented their intention to acquire the securities for investment only and not with a view towards distribution. The investors were given adequate information about us to make an informed investment decision. We did not engage in any general solicitation or advertising. We directed our transfer agent to issue the stock certificates with the appropriate restrictive legend affixed to the restricted stock.
