PART I

Item 1. Business

GENERAL

We are a specialty apparel retailer with a leading market share in women's plus-size specialty apparel. During our fiscal year ended January 28, 2012 ("Fiscal 2011") our business operations consisted primarily of three distinct core brands: LANE BRYANT®, FASHION BUG®, and CATHERINES PLUS SIZES®. These core brands operate retail stores and store-related e-commerce websites under our Retail Stores segment. Through our multiple channels, fashion content, and broad merchandise assortments, we seek to appeal to customers from a broad range of socioeconomic, demographic, and cultural groups. During Fiscal 2011 the sale of plus-size apparel represented approximately 84% of our total net sales. In addition to our Retail Stores segment we also derive revenues from sales of food and gifts through our FIGI'S® catalog and website, which operate under our Direct-to-Consumer segment.

LANE BRYANT is a widely recognized brand name in plus-size fashion. Through private labels such as LANE BRYANT and CACIQUE®, and select national brands, we offer fashionable and sophisticated apparel in plus-sizes 12-32, including intimate apparel, wear-to-work and casual sportswear, accessories, select footwear, and social occasion apparel. LANE BRYANT has a loyal customer base, generally ranging in age from 35 to 55 years old, which shops for fashionable merchandise in the moderate price range. Our 685 LANE BRYANT retail stores comprise 4.0 million square feet of real estate and are located in 46 states, in a combination of destination malls, lifestyle centers, and strip shopping centers. Our average LANE BRYANT store size is approximately 5,800 square feet. During Fiscal 2011 our lanebryant.com website averaged 2.7 million unique visitors per month with an established on-line community.

Our LANE BRYANT intimate apparel side-by-side store pairs LANE BRYANT's casual and wear-to-work sportswear assortments with an expanded line of CACIQUE intimates as well as additional national brands, presented in a double store-front. This larger footprint of approximately 7,200 square feet per combined store compares with the full-line LANE BRYANT store average footprint of approximately 5,500 square feet. Included in the 685 stores operated by LANE BRYANT as of January 28, 2012 are 136 stores operated in the side-by-side format.

LANE BRYANT OUTLET® is a national chain offering women's plus-size apparel in the outlet sales channel. Through our private labels we offer fashionable and sophisticated apparel in plus-sizes 12-32, including intimate apparel, wear-to-work and casual sportswear, accessories, select footwear, and social occasion apparel. Our 117 LANE BRYANT OUTLET retail stores comprise 0.7 million square feet of real estate and are located in 37 states throughout the country in outlet centers. Our average LANE BRYANT OUTLET store size is approximately 5,800 square feet.

FASHION BUG stores specialize in selling plus-size, misses, and junior apparel in sizes 6-30, serving women's lifestyle needs from weekend to business wear, as well as accessories, intimate apparel, and footwear. FASHION BUG customers generally range in age from 30 to 50 years old and shop in the low-to-moderate price range. Our 620 FASHION BUG retail stores comprise 5.4 million square feet of real estate and are located in 40 states, primarily in strip shopping centers. Our average FASHION BUG store size is approximately 8,600 square feet. During Fiscal 2011 our fashionbug.com website averaged 1.4 million unique visitors per month.

In December 2011 we announced that we are undertaking a comprehensive strategic and financial review of our operations to determine how best to enhance shareholder value. This review is continuing. As part of these efforts, we announced our plans to divest our FASHION BUG business and focus on the growth of our LANE BRYANT brand. We cannot assure that this review will result in any specific course of action or that the planned divestiture of FASHION BUG will occur. We have not reported a time frame for the completion of this strategic review. See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations; RECENT DEVELOPMENTS" and "OVERVIEW" below for further discussion of our management initiatives.

Table of Contents

CATHERINES PLUS SIZES carries a full range of plus sizes (16-34 and 0X-5X) and is particularly known for extended sizes (28-34). CATHERINES® offers classic apparel and accessories for wear-to-work and casual lifestyles. CATHERINES customers are generally in the 45 years old and older age group, shop in the moderate price range, and are concerned with comfort, fit, and value. Our 435 CATHERINES retail stores comprise 1.8 million square feet of real estate and are located in 44 states, primarily in strip shopping centers. Our average CATHERINES store size is approximately 4,100 square feet. Included in the 435 stores operated by CATHERINES as of January 28, 2012 are 15 stores operated in outlet locations. In March 2011 we announced our plans to close the 30 CATHERINES stores operating in outlet locations. We closed 15 of these stores during Fiscal 2011 and expect to close the remainder during Fiscal 2012. During Fiscal 2011 our catherines.com website averaged more than 0.8 million unique visitors per month.

During Fiscal 2011 we further enhanced our Retail Stores segment e-commerce operations by offering an expanded selection of new brands through our SONSI® website and the launch of new online outfitting technology that makes personalized style and fit recommendations. Our customers can use these recommendations within the outfitting tool to facilitate viewing and buying of complete outfits. In addition, we announced the launch of an international shipping program that enables customers in over 100 countries and territories worldwide to shop our brands online.

FIGI'S markets food and specialty gift products through its Figi's Gifts in Good Taste® catalog, its figis.com e-commerce website, and through third-party retailers' stores and e-commerce websites. FIGI'S specializes in dairy cheeses, smokehouse meats, holiday fare, bakery, chocolates, nuts, sweets, and snacks. FIGI'S also offers special gift assortments, collectibles, and exclusive and personalized items. FIGI'S® Gallery offers home decor, bedding, housewares, jewelry, garden accents, apparel, collectibles, gifts and other items through its catalog and figisgallery.com e-commerce website.

Financial information by business segment for each of our last three fiscal years is included in "Item 8. Financial Statements and Supplementary Data: Notes to Consolidated Financial Statements; NOTE 16. SEGMENT REPORTING" below.

Table of Contents

RETAIL STORES SEGMENT

Stores

Our store openings, closings, and number of locations over the past three fiscal years are as follows:

	Year Ended		
	January 28, 2012	January 29, 2011	January 30, 2010
Store Activity:			
Number of stores open at beginning of period	2,064	2,121	2,301
Stores opened	7	9	8
Stores converted ⁽¹⁾	—	28	(28)
Stores closed ⁽²⁾	(214)	(94)	(160)
Number of stores open at end of period	1,857	2,064	2,121

Number of Stores Open at End of Period by Brand:

LANE BRYANT ⁽³⁾	802	846	860
FASHION BUG	620	743	801
CATHERINES	435	475	460
Number of stores open at end of period	1,857	2,064	2,121

During Fiscal 2009 we decided to close our 49 PETITE SOPHISTICATE OUTLET stores and convert a majority of the locations to CATHERINES stores in outlet locations. We completed the conversion of 5 stores during Fiscal (1) 2009 and completed the remaining 28 conversions in February 2010. During Fiscal 2010 we also converted 5 FASHION BUG locations to LANE BRYANT OUTLET locations and converted 1 FASHION BUG location to a LANE BRYANT location.

Includes 124 FASHION BUG, 49 LANE BRYANT, 1 LANE BRYANT OUTLET, and 40 CATHERINES stores (including 15 CATHERINES stores in outlet locations) in Fiscal 2011; 52 FASHION BUG, 27 LANE BRYANT, (2) 1 LANE BRYANT OUTLET, and 14 CATHERINES stores in Fiscal 2010; and 22 FASHION BUG and 10 LANE BRYANT stores in Fiscal 2009 closed in connection with our store closing initiatives.

Includes LANE BRYANT OUTLET stores as follows: 117 in Fiscal 2011, 115 in Fiscal 2010, and 106 in Fiscal (3) 2009.

Our retail stores are currently located primarily in suburban areas and small towns. Approximately 80% of our retail stores are strip-center based, with the remainder located in community and regional malls. Approximately 57% of our LANE BRYANT stores are located in power-strip and lifestyle shopping centers, with the remaining stores located primarily in malls. We continually evaluate additional store locations that meet our financial and operational objectives.

In conjunction with our announcement in December 2011 that we plan to divest our FASHION BUG business we also announced that we intend to focus on the growth of our LANE BRYANT brand. Our plans for LANE BRYANT over the next few years include approximately 125 new locations and 125 relocations from malls into power-strip and lifestyle centers with stronger operating metrics, while closing approximately 50 stores through natural lease expirations. We plan to increase the percentage of LANE BRYANT stores located in strip and lifestyle centers to approximately 80% over the next few years. We believe that operating LANE BRYANT stores in power-strip and

lifestyle centers will support our expectation of increased profitability, with projected increases in sales and decreases in occupancy expenses as compared to malls. See “Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations; OVERVIEW” and “RESULTS OF OPERATIONS” below for additional information regarding our actual and planned store activities.

Table of Contents

Our retail store merchandise displays enable our customers to assemble coordinated and complete outfits that satisfy their lifestyle needs. We test and implement new store designs and fixture packages that are aimed at providing an effective merchandise presentation. We relocate or remodel our stores as appropriate to convey a fresh and contemporary shopping environment. We emphasize customer service, including the presence of helpful salespeople in the stores, layaway plans, customer loyalty programs, and acceptance of merchandise returns for cash or credit within a reasonable time period. Typically, our stores are open seven days per week, eleven hours per day Monday through Saturday and seven hours on Sunday.

Our retail stores operate under direct local management with guidance from our management operations team. Each store has a manager who is in daily operational control of and manages the specific location, including overseeing the duties of display, selling, and reporting through point-of-sale terminals. We employ district managers who regularly travel to all stores in their district to view store operations and provide guidance. Each district manager works with an average of 12 stores. Regional managers, who report to a Vice President of Stores, supervise the district managers. Generally, district managers are promoted from the pool of store managers and store managers are promoted from the pool of assistant store managers. Store management is motivated through internal advancement and promotion, competitive compensation, and various incentive, medical, and retirement plans. Store management also has access to centrally-developed resources on store operations, merchandising, and buying policies.

Merchandising and Buying

We employ a brand-specific merchandising and buying strategy that is focused on providing an attractive selection of plus-size apparel and accessories that reflect the fashion preferences of the core customer for each of our retail store brands. We believe that the specialization of marketers and buyers within each brand enhances each brand's identity and distinctiveness. We also use domestic and international fashion market guidance, fashion advisory services, and proprietary design. We seek to maintain high quality standards with respect to merchandise fabrication, construction, and fit.

We continually refine our merchandise assortments to reflect the needs and demands of our diverse customer groups and the demographics of each store location. At LANE BRYANT we offer a combination of fashion basics and current fashions in casual and wear-to-work apparel, footwear, and accessories and our CACIQUE brand of intimate apparel, as well as other national brand sportswear and shapewear that are designed to translate current trends into appropriate products for our customer. LANE BRYANT OUTLET features products developed exclusively for our outlet stores, which include updated key items and best-sellers from our full-line LANE BRYANT brand. Selected expanded categories, such as intimate apparel, footwear, social occasion, and accessories are also offered at LANE BRYANT OUTLET. At FASHION BUG we offer a broad assortment of weekend and business-wear apparel in plus, misses, junior, and junior plus sizes at low-to-moderate prices. FASHION BUG's merchandise typically reflects established fashion trends and includes a broad offering of ready-to-wear apparel as well as footwear, accessories, intimate apparel, and seasonal items, such as swimwear and outerwear. At CATHERINES we offer a broad assortment of plus-size merchandise in classic styles designed to provide "head-to-toe" dressing for our customers. CATHERINES features casual and career sportswear, dresses, intimate apparel, suits, and accessories in a variety of plus-sizes, including petites and extended sizes. CATHERINES has developed a unique expertise in the comfort, fit, design, and manufacturing of extended sizes, making it one of the few retailers to emphasize these sizes.

We use our distribution capabilities to stock our stores with products specifically targeted to the store's customer demographics. Our merchandising staff obtains store-wide and brand-wide inventory information generated by merchandise information systems that use our point-of-sale terminals. The status of our merchandise can be tracked from the placement of our initial order for the merchandise to the actual sale to our customer. Based on this data, our merchandise managers compare budgeted-to-actual sales and make merchandising decisions as needed, including

re-order, markdowns, and changes in the buying plans for upcoming seasons.

Table of Contents

Our stores typically experience peak sales during the Easter, Memorial Day, and December holiday seasons. We generally build inventory levels before these peak sales periods. To maintain current and fashionable inventory we reduce the price of slow-moving merchandise throughout the year. Much of our merchandise is developed for one or more of our four seasons: Spring, Summer, Fall, and Holiday. End-of-season sales are conducted with the objective of carrying an appropriate amount of seasonal merchandise over from one season to another. Retail Stores segment sales for the four quarters of Fiscal 2011, as a percent of annual Retail Stores segment sales, were 26.2%, 26.3%, 22.3%, and 25.1%, respectively.

Marketing and Promotions

We use several types of advertising to stimulate retail store customer traffic. We primarily use targeted direct-mail and e-mail advertising to preferred customers selected from a database of approximately 23.4 million private-label credit card, third-party credit card, and cash customers who have purchased merchandise from us within the past three years. We may also use radio, television, newspaper, internet advertising, fashion shows, social media, and other “grassroots” campaigns to stimulate traffic at certain strategic times of the year. We also use pricing policies, displays, store promotions, and convenient store hours and locations to attract customers. We maintain websites for our LANE BRYANT, FASHION BUG, and CATHERINES brands that provide information regarding current fashions and promotions and also provide internet shopping.

We offer our LANE BRYANT, FASHION BUG, and CATHERINES retail store customers various loyalty card programs. Customers who join these programs are entitled to various benefits, including discounts on purchases during the membership period. Customers join some of these programs by paying an annual membership fee. Other programs are offered that do not require the payment of a membership fee but allow cardholders to earn points for purchases using a private-label credit card, which may be redeemed for merchandise coupons upon the accumulation of a specified number of points. Additional information on our loyalty card programs is included in “Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations; Critical Accounting Policies; Loyalty Card Programs” and “Item 8. Financial Statements and Supplementary Data: Notes to Consolidated Financial Statements; NOTE 8. CUSTOMER LOYALTY CARD PROGRAMS” below.

Sourcing

To meet the demands of our customers we access both the overseas and domestic wholesale markets for our Retail Stores segment merchandise purchases. We primarily source from outside of the United States and source merchandise both through our overseas sourcing operation, where we are the importer of record, and from domestic vendors that also source merchandise from overseas. This allows us to maintain flexible lead times, respond quickly to current fashion trends, and replenish merchandise inventory as necessary. During Fiscal 2011 we purchased merchandise from approximately 420 suppliers located throughout the world. We also purchase a portion of our LANE BRYANT merchandise from Mast Industries, Inc. (“Mast”), a contract manufacturer and apparel importer that is an affiliate of Limited Brands, Inc. These purchases from Mast accounted for approximately 5% of our total Retail Stores merchandise purchases and approximately 10% of merchandise purchases for LANE BRYANT and LANE BRYANT OUTLET during Fiscal 2011. No other vendor accounted for more than 3% of total Retail Stores segment merchandise purchases during Fiscal 2011.

We pay for a majority of our merchandise purchases outside the United States on an open account basis. We pay for the remainder of our purchases outside the United States primarily through corporate-issued letters of credit where we are the importer of record. The geographic diversification of our sourcing network provides us with the flexibility to locate alternate sources for our products in order to meet our pricing targets.

To date, we have not experienced difficulties in purchasing merchandise overseas or importing such merchandise into the United States. Should events such as political instability or a natural disaster result in a disruption of normal activities in any single country with which we do business, we believe that we would have adequate alternative sources of supply.

Table of Contents

See “Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations; OVERVIEW” below for a discussion of the impact on our operations of cost increases associated with cotton-based raw materials.

Distribution and Logistics

We currently operate two distribution centers for our Retail Stores segment. For our LANE BRYANT (including CACIQUE) and LANE BRYANT OUTLET stores we operate a distribution center in Greencastle, Indiana. This facility is located on 126 acres of land and contains a building of approximately 865,000 square feet. We estimate that this facility has the capacity to service up to approximately 1,800 stores. For our FASHION BUG and CATHERINES stores we operate a distribution center in White Marsh, Maryland. The White Marsh facility is located on 28 acres of land and contains a building of approximately 513,000 square feet that is currently designed to service up to approximately 1,600 stores.

The vast majority of our merchandise purchases are received at these distribution facilities, where they are prepared for distribution to our stores. Automated sorting systems in the distribution centers enhance the flow of merchandise from receipt to quality control inspection, receiving, ticketing, packing, and final shipment. Merchandise is shipped to each store principally by common carriers. We use computerized automated distribution attributes to combine shipments when possible and improve the efficiency of the distribution operations.

During Fiscal 2011 we realigned our distribution center operations to support opportunities for operational efficiencies and cost reductions. We moved the servicing of our LANE BRYANT stores from White Marsh to Greencastle and the servicing of our FASHION BUG stores from Greencastle to White Marsh, which was completed during January 2012. We also plan to move the servicing of our CATHERINES stores from White Marsh to Greencastle, which we expect to complete by the end of April 2012. The realignment does not affect the distribution of products for our e-commerce operations.

We expect this realignment to result in cost savings through transportation cost reductions and faster shipments to stores, as our distribution center operations will be closer to the geographic center of each brand's operations. In addition, combining LANE BRYANT and LANE BRYANT OUTLET operations in Greencastle allows for brand synergies, including shared inventory where possible, in support of our "One Brand One Vision" initiative.

The realignment also supports our decision to divest our FASHION BUG operations. Subsequent to moving the servicing of the CATHERINES stores, White Marsh will service only the FASHION BUG stores, while servicing of the LANE BRYANT and CATHERINES stores will be located in Greencastle. We expect that this will facilitate inclusion of the White Marsh facility in the anticipated FASHION BUG divestiture should the need arise.

Inventory and fulfillment activities for our store-related e-commerce operations are handled by a third-party warehouse facility in Indianapolis, Indiana, using approximately 310,000 square feet of space for merchandise receipt, storage, picking, packing, shipping, and returns processing. Approximately half of the merchandise received by this third-party facility is shipped from our Greencastle and White Marsh distribution centers.

Once the inventory arrives in our stores, our point-of-sale systems, software, and data networks enable us to track inventory from store receipt to final sale. During Fiscal 2012 we plan to invest approximately \$30 million for a complete upgrade of distribution center equipment; store technology, including point-of-sale hardware, software, and data networks; the installation of a core merchandising platform, including enhanced planning and inventory capabilities; a new warehouse management system; and new purchasing and financial software. We expect to finance these capital expenditures through internally-generated funds. Such an upgrade has the potential to temporarily impair our ability to capture, process, and ship customer orders or may result in the incurrence of additional costs.

Table of Contents

DIRECT-TO-CONSUMER SEGMENT

Our Direct-to-Consumer segment consists primarily of the operations of our FIGI'S business, which markets food and specialty gift products through our Figi's Gifts in Good Taste catalog and related e-commerce website as well as through third-party retailers' stores and e-commerce websites. We also operate FIGI'S Gallery, which offers home decor, bedding, housewares, jewelry, garden accents, apparel, collectibles, gifts, and other items through its catalog and e-commerce website.

FIGI'S peak sales period is during the December holiday season, with approximately 75% of its annual sales occurring during our fourth quarter. FIGI'S offers interest-free, three-payment credit terms over three months to its customers, with the first payment due on a defined date 30 to 60 days after a stated holiday.

We own a 125,000 square-foot automated distribution center facility in Marshfield, Wisconsin that serves as the main distribution area for our FIGI'S operations and ships approximately 2,400,000 packages per year. A 122,000 square-foot leased facility in Stevens Point, Wisconsin and a 46,000 square-foot owned facility in Neillsville, Wisconsin also service FIGI'S. We believe that these facilities will continue to provide adequate capacity for our FIGI'S operations for the foreseeable future.

COMPETITION

The women's specialty retail apparel business is highly competitive, with numerous competitors, including individual and chain fashion specialty stores, department stores, discount stores, catalog retailers, and internet-based retailers, some of which may have greater financial resources, marketing capabilities, or brand recognition than we have. We cannot reasonably estimate the number of our competitors due to the large number of women's apparel retailers. The primary elements of competition are merchandise style, size, selection, fit, quality, display, and price; attractive website layout; efficient fulfillment of website mail orders; and personalized service to our customers. For our retail stores, store location, design, advertising, and promotion are also significant elements of competition.

EMPLOYEES

As of the end of Fiscal 2011 we employed approximately 23,000 associates, which included approximately 17,000 part-time employees. In addition, we hire a number of temporary employees during the December holiday season. As of the end of Fiscal 2011, 87 of our employees were represented by a union whose contract is currently due to expire in August 2012 and 14 of our employees were represented by a union whose contract is currently due to expire in August 2014. We believe that our overall relationship with these unions and our associates in general is satisfactory.

TRADEMARKS AND SERVICEMARKS

We own, or are in the process of obtaining, all rights to the trademarks and trade names we believe are necessary to conduct our business as presently operated. "FASHION BUG®", "FASHION BUG PLUS®", "L.A. BLUES®", "STUDIO 1940®", "RIGHT FIT BY FASHION BUG®", "CATHERINES®", "CATHERINES PLUS SIZES®", "MAGGIE BARNES®", "ANNA MAXWELL®", "LIZ&ME®", "SERENADA®", "RIGHT FIT BY CATHERINES®", "LANE BRYANT®", "LANE BRYANT OUTLET®", "LANE BRYANT WOMAN®", "VENEZIA®", "CACIQUE®", "RIGHT FIT BY LANE BRYANT®", "FIGI'S®", "GIFTS IN GOOD TASTE®", "SONS®", "SONSILIVING®", "INSIDE CURVE®", "ADDED DIMENSIONS®", "FIGI'S GALLERY", "PASSPORT COLLECTION BY LANE BRYANT®", "LOOPY®" "T3-TIGHTER TUMMY

TECHNOLOGY[®]", "SECRET SLIMMER[®]", "FASHION GENIUS[™]", and several other trademarks and servicemarks of lesser importance to us have been registered or are in the process of being registered with the United States Patent and Trademark Office and in other countries.

Table of Contents

We also own the following internet domain name registrations: cacique.com, catherines.com, charming.com, charmingshoppes.com, fashionbug.com, fashionbugplus.com, lanebryant.com, figis.com, sonsi.com, sonsiliving.com, figisgallery.com, loop18.com, and others of lesser importance.

EXECUTIVE OFFICES

Charming Shoppes, Inc. was incorporated in Pennsylvania in 1969. Our principal offices are located at 3750 State Road, Bensalem, Pennsylvania 19020. Our telephone number is (215) 245-9100.

AVAILABLE INFORMATION

Copies of our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, are available free of charge on or through our website at www.charmingshoppes.com as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission ("SEC"). Our historical filings can also be read and copied at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549 or can be accessed directly from the SEC's website at <http://www.sec.gov>. Information on the operation of the Public Reference Room can be obtained by calling the SEC at (800) 732-0330. See "PART III; Item 10. Directors, Executive Officers, and Corporate Governance" below for additional information that is available on our internet website.

Item 1A. Risk Factors

You should carefully consider and evaluate all of the information in this annual report on Form 10-K and the documents incorporated by reference into this report, including the risk factors listed below. Any of these risks could materially and adversely affect our business, financial condition, and results of operations, and could cause our actual results to differ materially from our plans, projections, or other forward-looking statements included in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" below and elsewhere in this Report on Form 10-K, and in our other public filings. The occurrence of one or more of these risks could also materially and adversely affect the price of our common stock.

RISKS RELATED TO OUR BUSINESS AND INDUSTRY

Ongoing economic conditions have adversely affected, and may continue to adversely affect, our business and results of operations.

Consumer spending habits, including spending for our products, are affected by, among other things, prevailing economic conditions, levels of employment, salary levels, wage rates, availability of consumer credit, consumer confidence, fluctuating fuel and energy costs, and consumer perception of economic conditions. Consumer discretionary spending, including purchases of women's apparel, tends to decline during periods of high unemployment, which can have an adverse impact on our results of operations. We could be required to take additional markdowns in response to lower-than-anticipated levels of demand for our products, and promotional activity by our competitors could have a further adverse impact on our results of operations.

We cannot reliably predict the extent to which current or future economic conditions will affect our business. A prolonged continuation of reduced consumer demand for our products could have a material adverse effect on our business, financial condition, and results of operations.

Table of Contents

Our business is dependent upon our ability to accurately predict rapidly changing fashion trends, customer preferences, and other fashion-related factors.

Customer tastes and fashion trends are volatile and tend to change rapidly, particularly for women's apparel. Our success depends in part on our ability to effectively predict and respond to quickly changing fashion tastes and consumer demands, and to translate market trends into appropriate, salable product offerings. These risks may increase as we shift a higher proportion of our product from third-party vendors and domestic sourcing to internally-designed merchandise and overseas sourcing. The increased lead times associated with overseas sourcing could increase our risk of misjudging fashion trends or styles. If we are unable to successfully predict or respond to changing styles or trends and misjudge the market for our products or any new product lines, our sales will be lower and we may be faced with a substantial amount of unsold inventory or missed sales opportunities. In response, we may be forced to rely on additional markdowns or promotional sales to dispose of excess or slow-moving inventory, which could have a material adverse effect on our business, financial condition, and results of operations. This could also impact our reputation with our customers, which could diminish brand loyalty.

Existing and increased competition in the women's retail apparel and direct-to-consumer markets may reduce our net revenues, profits, and market share.

The women's specialty retail apparel and direct-to-consumer markets are highly competitive. Our competitors include individual and chain fashion specialty stores, department stores, discount stores, catalog retailers, and internet-based retailers. As a result of this competition we are required to effectively market and competitively price our products to consumers in diverse markets, and we typically experience pricing pressures, which may require us to incur increased marketing expenditures. Our failure to effectively market our product could lower our sales and lead to loss of market share. Existing and increased competition could result in reduced sales and margins, which could have a material adverse effect on our business, financial condition, and results of operations.

We believe that the principal bases upon which we compete are merchandise style, size, selection, fit, quality, display, and price; attractive website layout; efficient fulfillment of website mail orders; and personalized service to our customers, as well as store location, design, advertising, and promotion. Other women's apparel and direct-to-consumer companies with greater financial resources, marketing capabilities, or brand recognition are our competitors in the plus-size business and they may be able to devote greater resources to the marketing and sale of their products, implement more aggressive pricing policies, introduce new products more quickly, and respond and adapt to future economic downturns more effectively. Additional competitors may also enter this market. We cannot give assurance that we will be able to compete successfully against existing or future competitors.

Our business plan is largely dependent upon continued growth in the plus-size women's apparel market.

Our business is primarily focused on sales of plus-size women's apparel, which represents a majority of our total net sales. Our results of operations could be adversely affected by a lack of continued growth in the plus-size women's apparel market.

We depend on key personnel and may not be able to retain or replace these employees or recruit additional qualified personnel.

Our success and our ability to execute our business strategy depend largely on the efforts and abilities of our executive officers and our management teams and our ability to attract, hire, and retain officers and management. We also must motivate employees to remain focused on our strategies and goals. If we cannot hire and retain effective management, we may be unable to compete effectively with other retailers. We do not maintain key-person life insurance policies

with respect to any of our employees.

Table of Contents

We may be unable to successfully execute on our business plans.

We cannot assure the successful execution and the realization of the benefits of our business plans, which may vary materially based on various factors. Our effort to improve our competitive position and results of operations are based on certain assumptions that may prove to be inaccurate. Our business plans are subject to numerous risks and uncertainties that may change over time, and we may not achieve the desired results.

In December 2011 we announced that we are undertaking a comprehensive strategic and financial review of our operations to determine how to best enhance shareholder value. As part of these efforts, we announced plans to divest our FASHION BUG business and focus on the growth of our LANE BRYANT brand. We cannot assure the successful implementation of, or management of the risks associated with, these plans or additional courses of action, if any, that may result from our planned comprehensive strategic review. In the meantime, the uncertainty associated with this process may adversely affect our employees, or may make them more susceptible to recruitment by our competitors or others, which could have an adverse effect on our operations.

We cannot assure the realization of the planned cost savings, operational efficiencies, and brand synergies as a result of our Fiscal 2011 realignment of our distribution center operations in Greencastle and White Marsh or our planned transformation of our information technology and distribution infrastructure. The failure to successfully manage the implementation of our planned transformational initiatives could result in a disruption of our operations or the incurrence of additional costs.

Improving our operating margins is dependent on our ability to successfully control our operating costs.

In order to improve our operating margins we need to successfully manage our operating costs. Our inability to successfully manage labor costs, occupancy costs, transportation costs, or other operating costs, or our inability to take advantage of opportunities to reduce operating costs, could decrease our operating margins and could adversely affect our results of operations. In addition, we may be unable to obtain adequate insurance coverage for our operations at a reasonable cost.

Certain key raw materials in our products, such as cotton, wool, and synthetic fabrics, are subject to availability constraints and price volatility. An increase in the cost or decrease in the availability of such raw materials could adversely affect our operating margins and our results of operations.

We are subject to the Fair Labor Standards Act and various state and Federal laws and regulations governing such matters as minimum wages, exempt status classification, overtime, and employee benefits. Changes in Federal or state laws or regulations regarding minimum wages, unionization, or other employee benefits could cause us to incur additional wage and benefit costs, which could adversely affect our results of operations.

We may not be able to obtain sufficient working capital financing on terms acceptable to us.

Our business requires substantial investment in our inventory for several months before sales of that inventory occur. Consequently, we require significant amounts of working capital financing. We depend on the availability of credit to fund our working capital, including credit we receive from our bankers, our factors, our suppliers and their agents, and on our ongoing payments from our strategic alliance related to private-label credit card sales. If we or our vendors are unable to obtain sufficient financing at an affordable cost, our ability to merchandise our retail stores or e-commerce businesses could be adversely affected.

Table of Contents

We cannot assure that we will realize the expected benefits from our private-label credit card programs.

We cannot assure that we will realize the expected benefits from the private-label credit card operating agreements with Alliance Data. A significant portion of our sales revenues is generated through our private-label credit cards. Therefore, changes in the private-label credit card programs that adversely impact our ability to facilitate customer credit may adversely impact our results of operations. Alliance Data has discretion over certain policies and arrangements with the cardholders and may change these policies and arrangements in ways that could affect our relationship with the cardholders. Any such changes could adversely affect our private-label credit card sales and our results of operations. Our ability to continue to offer private-label credit card programs to our customers will depend on the success of our strategic alliance with Alliance Data.

Credit card operations are subject to numerous Federal and state laws, including, in particular, the Dodd-Frank Wall Street Reform and Consumer Protection Act signed into law on July 21, 2010, that impose disclosure and other requirements upon the origination, servicing, and enforcement of credit accounts, and limitations on the amount of finance charges and fees that may be charged by a credit card provider. Alliance Data may be subject to regulations that may adversely impact its operation of the private-label credit card programs. To the extent that such limitations or regulations materially limit the availability of credit or increase the cost of credit to our cardholders or negatively impact provisions which affect our revenue streams associated with the private-label credit card operating agreements, our results of operations could be adversely affected. In addition, changes in credit card use, payment patterns, or default rates could be affected by a variety of economic, legal, social, or other factors over which we have no control and cannot predict with certainty. Such changes could also negatively impact the availability of credit or increase the cost of credit to our cardholders or negatively impact provisions that affect our revenue streams associated with the operating agreements.

Our operating results fluctuate from season to season.

Our retail store and direct-to-consumer operations experience seasonal fluctuations in net sales and consequently in operating income, with peak sales typically occurring during the Easter, Memorial Day, and December holiday seasons for our Retail Stores segment and in the December holiday season for our Direct-to-Consumer segment. In addition, extreme or unseasonable weather can affect our sales. Any decrease in net sales or margins during our peak selling periods, or in the availability of working capital needed in the months before these periods, could have a material adverse effect on our business, financial condition, and results of operations.

We usually order merchandise in advance of peak selling periods and sometimes before new fashion trends are confirmed by customer purchases. We must carry a significant amount of inventory, including perishable products for our FIGI'S food and gifts operations, before the peak selling periods. If we are not successful in selling our inventory, especially during our peak selling periods, we may be forced to rely on markdowns or promotional sales to dispose of the inventory or we may not be able to sell the inventory at all, which could have a material adverse effect on our business, financial condition, and results of operations.

Our operating results are dependent in part on our ability to effectively manage our inventory levels.

We must maintain the right mix and level of inventory to operate our business successfully. Excess inventory creates pricing pressures, while insufficient inventory could lead to decreased sales and a loss of customers. We continually evaluate our market and our customers' economic environments to determine our optimal inventory levels. If we do not correctly anticipate the demand for one or more of our products or delay placing seasonal inventory in our stores for too long, our results of operations and business could be adversely affected.

Table of Contents

Certain of our business processes that are dependent on technology are outsourced.

Certain of our business processes that are dependent on technology are outsourced to third parties. Such processes include payroll processing, credit card authorization and processing, our e-commerce platform, and certain other information technology functions. Although we make a diligent effort to ensure that all providers of outsourced services observe proper internal control practices and procedures, we cannot assure that failures will not occur. The failure of such third parties to provide adequate services could adversely affect our customers' shopping experience, our results of operations, liquidity, or our ability to provide adequate financial and management reporting.

As part of our announced transformational initiatives, we plan to upgrade our information technology infrastructure. Such technology systems changes are complex and could cause disruptions that may adversely affect our business. Although we strive to ensure the orderly implementation of various information technology systems upgrades, we may not be able to successfully execute these changes without potentially incurring a significant disruption to our business. Even if we are successful with implementation, we may not achieve the expected benefits from these initiatives, despite having expended significant capital. We may also determine that additional investment is required to bring our systems to their desired state, which could result in a significant additional investment of time and money and increased implementation risk. Furthermore, we intend to rely on third parties to fulfill contractual obligations related to some of these system upgrades. Failure of these third parties to fulfill their contractual obligations could lead to significant expenses or losses due to a disruption in business operations.

We could be materially and adversely affected if any of our distribution or fulfillment centers are shut down.

We operate distribution and fulfillment centers in Greencastle, Indiana; White Marsh, Maryland; Marshfield, Wisconsin; Stevens Point, Wisconsin; and Neillsville, Wisconsin and use a third-party fulfillment center in Indianapolis, Indiana that services our e-commerce operations. In addition, we use third-party freight consolidators and service providers in Los Angeles, California and North Bergen, New Jersey. Most of the merchandise we purchase is shipped either directly or via freight consolidators to our distribution and fulfillment centers. If any of our distribution centers, fulfillment centers, or freight consolidators were to shut down or lose significant capacity for any reason, the other locations may not be able to adequately support the resulting additional distribution demands, in part because of capacity constraints and in part because not all brands are supported at each location. As a result, we could incur significantly higher costs and experience longer lead times associated with distributing our products to our stores or customers during the time it takes for us to reopen or replace the affected distribution center, fulfillment center, or freight consolidator. Should the third-party fulfillment center that services our e-commerce operations cease providing fulfillment services the resultant failure to deliver e-commerce orders promptly could adversely affect our e-commerce operations and our results of operations.

Natural disasters, war, acts of terrorism, or other armed conflict may negatively impact the availability of merchandise and otherwise adversely impact our business.

The occurrence of, or threat of, a natural disaster, war, acts of terrorism, or other armed conflict on the United States or international economies could negatively affect our ability to obtain merchandise for sale. A significant portion of our merchandise is imported from other countries. If imported goods become difficult or impossible to bring into the United States and we cannot obtain such merchandise from other sources at similar costs, our net sales and profit margins may be adversely impacted. If commercial transportation is curtailed or substantially delayed our business may be adversely impacted, as we may have difficulty shipping merchandise to our distribution centers, fulfillment centers, freight consolidators, stores, or our direct-to-consumer customers. As a result of the occurrence of, or threat of, a natural disaster or acts of terrorism in the United States we may be required to suspend operations in some or all of our stores, which could have a material adverse impact on our business, financial condition, and results of

operations.

12

Table of Contents

Our inability to successfully manage customer service or fulfillment for our e-commerce websites could adversely impact our results of operations.

Successful operation of our e-commerce websites and our catalog business is dependent on our ability to maintain efficient and uninterrupted customer service and fulfillment operations. Inadequate systems capacity, a disruption or slowdown in telecommunications services, changes in technology, changes in government regulations, systems issues, security breaches, or customer privacy issues could result in reduced sales or increases in operating expenses as a result of our efforts or our inability to remedy such issues.

We rely on foreign sources of production.

We purchase a significant portion of our apparel directly in foreign markets and indirectly through domestic vendors with foreign sources. We face a variety of risks generally associated with doing business in foreign markets and importing merchandise from abroad. Such risks include (but are not necessarily limited to):

- political instability;
- increased security requirements applicable to imported goods;
- trade restrictions;
- imposition of or changes in duties, quotas, taxes, and other charges on imports;
- currency and exchange risks;
- issues relating to compliance with domestic or international labor standards;
- inability of our vendors to manufacture or deliver merchandise in a timely manner or to meet our quality standards;
- increased lead times;
- delays in shipping;
- increased costs of transportation; or
- other events, such as outbreaks of influenza or Severe Acute Respiratory Syndrome, that are outside of our control.

New governmental requirements could be proposed that would have an impact on the trading status of certain countries and could include retaliatory duties or other trade sanctions that, if enacted, could increase the cost of products purchased from suppliers in such countries or restrict the importation of products from such countries.

Our purchasing patterns are dictated by our seasonal inventory requirements. We typically enter into purchase commitments with our vendors for seasonal inventories up to six months ahead of when we take delivery of those products. Our purchase commitments with foreign vendors are primarily denominated in U.S. dollars and are settled in U.S. dollars. These arrangements tend to provide a natural hedge to the impacts of changes in the value of the U.S. dollar relative to the foreign currencies during the period from when we enter into purchase commitments with our vendors to when we take delivery of the products in the countries from which we source our products. However, changes in the value of the U.S. dollar relative to other currencies can impact the negotiated pricing for products when comparing one seasonal buying period to another. We have a network of countries and vendors from which we can source our product, but a weakening of the U.S. dollar in relation to those foreign currencies could increase the cost of our foreign-sourced products. The future performance of our business depends on our foreign suppliers and may be adversely affected by the factors listed above, which are beyond our control.

Table of Contents

Issues of global workplace conditions may adversely affect our business.

If any one of our manufacturers or vendors fails to operate in compliance with applicable laws and regulations, is perceived by the public as failing to meet certain United States labor standards, or employs unfair labor practices, our business could be adversely affected. Current global workplace concerns of the public include wages, working conditions, age of employees, and various other employment standards. These globalization issues may affect the available supply of certain manufacturers' products, which may result in increased costs to us. Furthermore, a negative customer perception of any of our key vendors or their products may result in a lower customer demand for our apparel.

We may be unable to protect our trademarks and other intellectual property rights.

Our trademarks and servicemarks are important to our success and our competitive position due to their name recognition with our customers. We devote substantial resources to the establishment and protection of our trademarks and servicemarks on a worldwide basis. Nevertheless, there can be no assurance that the actions we have taken to establish and protect our trademarks and servicemarks will be adequate to prevent imitation of our products by others or to prevent others from seeking to block sales of our products as a violation of their trademarks, servicemarks, or proprietary rights. Other retailers have been subject to unauthorized imitation, and imitation of our names, concepts, store designs, or merchandise in a manner that projects lesser quality or carries a negative connotation of our image could adversely affect our business, financial condition, and results of operations. Also, others may assert rights in, or ownership of, our trademarks and other proprietary rights and we may not be able to successfully resolve these types of conflicts to our satisfaction. In addition, the laws of certain foreign countries do not protect proprietary rights to the same extent as do the laws of the United States.

We may be subject to litigation and other regulatory proceedings that may negatively impact our results of operations.

From time to time, we are subject to litigation and regulatory actions relating to our business. We may also become subject to litigation trends, such as class-action suits brought under various consumer protection and employment laws, intellectual property infringement suits, or suits resulting from sales or acquisitions of business operations. The initiation or defense of litigation or regulatory actions requires us to make certain expenditures and can divert the attention of our management away from operating our business. In addition, an unfavorable decision or outcome could result in further, potentially significant, expenditures. See "Item 3. Legal Proceedings" below for a discussion of current legal proceedings in which we are involved.

We depend on strip shopping center and mall traffic and our ability to identify suitable store locations for our Retail Stores segment.

Our long-term growth plan for our Retail Stores segment depends on our ability to open and profitably operate new retail stores, to convert, where applicable, the formats of existing stores on a profitable basis, and to continue to expand our outlet distribution channel. In addition, we will need to identify, hire, and retain a sufficient number of qualified personnel to work in our stores.

Our sales are dependent in part on a high volume of strip shopping center and mall traffic. Strip shopping center and mall traffic may be adversely affected by, among other things, economic downturns, the closing of anchor stores, or changes in customer shopping preferences. A decline in the popularity of strip shopping center or mall shopping among our target customers could have a material adverse effect on our business. To take advantage of customer traffic and the shopping preferences of our customers we need to maintain or acquire stores in desirable locations. We cannot assure that desirable store locations will continue to be available. In addition, the timely opening of new store

locations could be adversely affected by delays in obtaining necessary permits and approvals, lack of availability of construction materials and labor, natural disasters, adverse weather conditions, or work stoppages. Our ability to acquire or maintain desirable store locations could be adversely affected by financial difficulties encountered by strip shopping center or mall landlords or by competition with other retailers for prime locations.

Table of Contents

Acquisition of additional store locations and our ability to profitably operate existing store locations are dependent on our ability to successfully negotiate lease terms for such locations. Our ability to operate successfully is dependent upon our ability to develop and maintain good relationships with our landlords. Consolidation in the commercial retail real estate industry could limit our future ability to negotiate favorable rental terms for new or existing store locations or to close under-performing stores on favorable terms. Should a significant consolidation occur, a large proportion of our store base could be concentrated with one or a few entities that could then be in a position to dictate unfavorable terms to us due to the significant leverage they would possess. If we are unable to negotiate favorable rental terms with these entities and are therefore unable to profitably operate our existing stores, our business, financial condition, and results of operations could be materially and adversely affected.

We may acquire or divest businesses or enter into joint ventures or strategic alliances, which may materially affect our business, financial condition, and results of operations.

We continually evaluate our portfolio of businesses and may decide to buy businesses or enter into joint ventures or other strategic alliances. Significant acquisitions and alliances may increase demands on management by diverting their attention away from running our core business, as well as on financial resources, information systems, and internal control systems. Our success with respect to acquisitions and alliances will depend, in part, on our ability to manage and integrate acquired businesses and alliances with our existing businesses and to successfully implement, improve, and expand our systems, procedures, and controls.

In addition, we may divest existing businesses, which would cause a decline in revenues and may cause our financial results to be more volatile. A divestiture could also divert management attention away from running our core business or negatively affect the price of our common stock, and could increase our reliance on growth in our remaining core business operations. In December 2011 we announced that we are undertaking a comprehensive strategic and financial review of our operations to enhance shareholder value. As part of these efforts, we announced our plans to divest our FASHION BUG business and focus on the growth of our LANE BRYANT brand. We may be unsuccessful in our efforts to divest FASHION BUG on a satisfactory basis and this could impede our efforts to focus on our LANE BRYANT brand.

If we fail to integrate and manage acquired businesses successfully or to manage the risks associated with divestitures (such as our planned divestiture of FASHION BUG), joint ventures, or other alliances, our business, financial condition, and results of operations could be materially and adversely affected.

OTHER RISKS

Anti-takeover provisions in our governing documents and Pennsylvania law may discourage other companies from attempting to acquire us.

Some provisions of our articles of incorporation and bylaws and of Pennsylvania law may discourage some transactions where we would otherwise experience a change in control, such as provisions that:

- do not permit cumulative voting;
- permit our board to issue “blank check” preferred stock without shareholder approval;
- require certain advance notice procedures with regard to the nomination of candidates for election as directors, other than nominations by or at the direction of our board;
- prevent our directors from being removed without cause except upon super-majority shareholder approval; and
- prevent a holder of 20% or more of our common stock from taking certain actions without certain approvals.

Table of Contents

Failure to comply with the provisions of the Sarbanes-Oxley Act of 2002 could adversely affect our business.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 we are required to include our assessment of the effectiveness of our internal control over financial reporting in our annual reports. Our independent registered public accounting firm is required to report on whether or not they believe that we maintained, in all material respects, effective internal control over financial reporting. If we are unable to maintain effective internal control over financial reporting we could be subject to regulatory sanctions and a possible loss of public confidence in the reliability of our financial reporting. Such a failure could result in our inability to provide timely and/or reliable financial information and could adversely affect our business.

We could be required to repurchase our 1.125% Senior Convertible Notes due May 1, 2014 for cash prior to maturity of the notes.

The holders of the outstanding principal amount of our 1.125% Senior Convertible Notes due May 1, 2014 (the “1.125% Notes”) could require us to repurchase the principal amount of the notes for cash before maturity upon the occurrence of a “fundamental change” as defined in the prospectus filed in connection with the 1.125% Notes (see “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 5. LONG-TERM DEBT” below). Such a repurchase would require significant amounts of cash, would be subject to important limitations on our ability to repurchase, such as the risk of our inability to obtain funds for such repurchase, and could adversely affect our financial condition.

New accounting rules or regulations or changes in existing rules or regulations could adversely impact our reported results of operations.

Changes to existing accounting rules or the adoption of new rules could have an adverse effect on our reported results of operations or financial condition, which could also have an adverse effect on the market price of our common stock.

Changes in estimates related to our evaluation of property, plant, equipment, goodwill, or intangible assets for impairment could adversely affect our reported results of operations.

We make certain significant assumptions, estimates, and projections related to the useful lives and valuation of our property, plant, and equipment and the valuation of goodwill and other intangible assets related to acquisitions. The carrying amount and/or useful life of these assets are subject to periodic and/or annual valuation tests for impairment. Impairment results when the carrying value of an asset exceeds the undiscounted (or for goodwill and indefinite-lived intangible assets the discounted) future cash flows associated with the asset. If actual experience were to differ materially from the assumptions, estimates, and projections used to determine useful lives or the valuation of property, plant, equipment, goodwill, or intangible assets, a write-down for impairment of the carrying value of the assets, or acceleration of depreciation or amortization of the assets, could result. Such a write-down or acceleration of depreciation or amortization could have an adverse impact on our reported results of operations.

Item 1B. Unresolved Staff Comments

Not applicable.

Item 2. Properties

We lease all of our stores. Typically, our store leases have initial terms of 5 to 10 years and generally contain provisions for co-tenancies, renewal options, additional rents based on a percentage of sales, and payment of real estate taxes and common area charges. In addition, we lease certain of our corporate office, distribution center, warehouse, and other administrative facilities. Additional information with respect to our real estate leases is included in “Item 8. Financial Statements and Supplementary Data: Notes to Consolidated Financial Statements; NOTE 15. LEASES” below. Additional information with respect to our planned store closings during Fiscal 2012 is included in “Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations; OVERVIEW” and “RESULTS OF OPERATIONS” below.

With respect to leased stores open as of January 28, 2012 the following table shows the number of store leases expiring during the calendar periods indicated, assuming the exercise of our renewal options:

Period	Number of Leases Expiring
2012 ⁽¹⁾	139
2013–2017	729
2018–2022	408
2023–2027	425
2028–2032	129
2033–2037	23
Thereafter	3

(1) Includes 31 stores on month-to-month leases.

Table of Contents

Additional information with respect to facilities that we own or lease is as follows:

Size in Sq. Feet	Location	Leased/ Owned	Description
865,000	Greencastle, IN	Owned	LANE BRYANT and LANE BRYANT OUTLET distribution center
513,000	White Marsh, MD	Owned	FASHION BUG and CATHERINES distribution center
288,000	Tucson, AZ	Leased	Currently idle ⁽¹⁾
145,000	Bensalem, PA	Owned	Corporate headquarters, technology center, and administrative offices
142,000	Bensalem, PA	Leased	FASHION BUG, CATHERINES, and LANE BRYANT OUTLET home offices and corporate administrative offices
135,000	Columbus, OH	Leased	LANE BRYANT home office
125,000	Marshfield, WI	Owned	FIGI'S distribution center
122,000	Stevens Point, WI	Leased	FIGI'S distribution and call centers
71,000	Marshfield, WI	Owned	FIGI'S warehouse
64,000	Marshfield, WI	Owned	FIGI'S administrative offices and call center
52,000	Tucson, AZ	Leased	Currently idle ⁽¹⁾
46,000	Neillsville, WI	Owned	FIGI'S distribution center
40,000	Marshfield, WI	Owned	FIGI'S warehouse
27,000	Hong Kong, PRC	Leased	International sourcing offices
16,000	Marshfield, WI	Owned	FIGI'S manufacturing facility
15,000	Tucson, AZ	Leased	Currently idle ⁽¹⁾
10,000	Tucson, AZ	Leased	Currently idle ⁽¹⁾
9,000	Bensalem, PA	Leased	Storage facility
8,000	Hangzhou, PRC	Leased	International sourcing offices
7,000	New Delhi, India	Leased	International sourcing offices
5,000	Tucson, AZ	Leased	Currently idle ⁽¹⁾

(1) Facilities retained in connection with the sale of our non-core catalog business in Fiscal 2008. In connection with the sale we retained certain components of their infrastructure and entered into transitional service agreements. Subsequent to the transitional period we discontinued the use of the facilities. With the exception of the 10,000 sq. ft. facility, which has a lease expiration date of January 31, 2019 with an option for an earlier buyout, the leases on these facilities expire on August 31, 2013.

Item 3. Legal Proceedings

In August 2009, former Store Sales Managers ("SSMs") Sharon Bates and Tamara Baggett, on behalf of themselves and similarly situated Catherines store managers, filed a collective action Complaint with the United States District Court, District of Connecticut ("Court"), against Catherines, Inc. ("Catherines"). The Complaint, as amended, alleged that the store managers were unlawfully denied overtime compensation. Ms. Bates' individual overtime claim was brought under the Connecticut Minimum Wage Act ("CMWA") and Ms. Baggett's individual overtime claim was brought under the New York Minimum Wage Act ("NYMWA"). In addition, both Plaintiffs asserted claims on behalf of themselves and other purportedly similarly-situated current and former SSMs under the Fair Labor Standards Act ("FLSA"). The Plaintiffs sought unpaid overtime wages, liquidated damages, interest and costs, attorneys' fees, an order enjoining Catherines from continuing its alleged illegal practices in violation of the FLSA, NYMWA and CMWA as to current and future SSMs, and such other relief as the Court deemed equitable. Catherines denied the allegations in the Complaint.

Table of Contents

On July 15, 2011 the Court entered an order granting preliminary approval to a settlement reached by the parties and on July 27, 2011 the parties signed a formal Settlement Agreement and Release. The Settlement Agreement received final court approval on November 21, 2011 and the settlement proceeds were fully distributed in January 2012. The settlement did not have a material impact on our financial condition or results of operations.

Except for ordinary routine litigation incidental to our business, there are no other material pending legal proceedings that we or any of our subsidiaries are a party to, or of which any of their property is the subject. There are no proceedings that, if adversely determined, are expected to have a material adverse effect on our financial condition or results of operations.

Item 4. Mine Safety Disclosures

Not Applicable.

Additional Part I Information - Executive Officers of the Registrant

The following list contains certain information relative to our executive officers. There are no family relationships among any of our executive officers.

Anthony M. Romano, 49, has served as President and Chief Executive Officer since March 2011. Before that he served as Chief Operating Officer and performed the function of Chief Executive Officer subsequent to the resignation of our former Chief Executive Officer from October 2010 to March 2011, and served as Executive Vice President - Global Sourcing and Business Transformation from February 2009 to March 2011. Before that he served as Executive Vice President, Chief Supply Chain Officer for Ann Taylor, Inc. from May 2005 through July 2008.

Bryan Q. Eshelman, 40, has served as Executive Vice President, Chief Supply Chain Officer since December 2011 and as Senior Vice President, Operations from October 2010 to December 2011. Before that he served as a Managing Director of AlixPartners, LLP from October 2008 to October 2010. Before that he served as Vice President, Practice Management Director from December 2007 to September 2008 and as National Director, Merchandising Technology from January 2006 to December 2007 for Kurt Salmon Associates, Inc.

Frederick Lamster, 58, has served as Executive Vice President, Human Resources since March 2010. Before that he served as Senior Vice President and Chief Human Resources Officer for Southpole, Inc. from February 2008 to March 2010 and as Senior Vice President, Human Resources for Aeropostale, Inc. from August 2005 to August 2007.

Eric M. Specter, 54, has served as Executive Vice President and Chief Financial Officer since January 1997, and he has been employed by us since 1983.

Colin D. Stern, 63, has served as Executive Vice President and General Counsel since 1990, and he has been employed by us since 1989. He has also served as Secretary since February 1998.

Brian P. Woolf, 62, has served as Group President - Lane Bryant, Lane Bryant Outlet, and Cacique since March 2011 and as President - Lane Bryant from July 2008 to March 2011. Before that he served as Chairman of the Board and Chief Executive Officer for Caché, a women's specialty retailer, from October 2000 to January 2008.

MaryEllen MacDowell, 61, has served as President - Fashion Bug since June 2010 and as President - Charming Outlets from January 2009 to June 2010. Before that she served as Senior Vice President and General Merchandise Manager of Apparel, Accessories, and Product Development for Lane Bryant from February 2007 to January 2009 and as Vice President and Divisional Merchandise Manager for Plus Sportswear, Dresses, and Swimwear for Fashion Bug from December 2002 to February 2007.

Table of Contents

Carol L. Williams, 63, has served as President - Catherines since October 2008. Before that she served as a consultant for Global Concepts from March 2006 to October 2008 and as President for May Department Stores International from November 2002 to March 2006.

John Lee, 44, has served as Vice President - Chief Accounting Officer since June 2010 and as Vice President - Corporate Accounting from October 2001 to June 2010.

PART II

Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters, and Issuer Purchases of Equity Securities

Our common stock is traded on the over-the-counter market and quoted on the NASDAQ Global Select Market ("NASDAQ") and on the Chicago Stock Exchange ("CHX") under the symbol "CHRS." The following table sets forth the high and low sale prices for our common stock during the indicated periods, as reported by NASDAQ:

	Fiscal 2011		Fiscal 2010	
	High	Low	High	Low
1 st Quarter	\$4.93	\$2.88	\$6.91	\$4.94
2 nd Quarter	4.63	3.57	6.14	3.27
3 rd Quarter	4.20	2.29	4.60	2.84
4 th Quarter	5.15	3.23	3.96	3.02

The approximate number of holders of record of our common stock as of March 14, 2012 was 1,475. This number excludes individual stockholders holding stock under nominee security position listings.

We have not paid any dividends since 1995, and we do not expect to declare or pay any dividends on our common stock in the foreseeable future. The payment of future dividends is within the discretion of our Board of Directors and will depend upon our future earnings, if any, our capital requirements, our financial condition, and other relevant factors. Our revolving credit facility allows the payment of dividends on our common stock subject to maintaining a minimum level of "Excess Availability" (as defined in the facility agreement) for six months preceding the payment of such dividends, as of the date of payment of such dividends, and on a projected pro forma basis for the 12 consecutive fiscal months thereafter. (See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations; FINANCIAL CONDITION; Financing; Revolving Credit Facility" and "Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 5. LONG-TERM DEBT" below).

Information regarding our equity compensation plans appears in "Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters" below.

On November 8, 2007 we publicly announced that our Board of Directors granted authority to repurchase shares of our common stock up to an aggregate value of \$200,000,000. Shares may be purchased in the open market or through privately-negotiated transactions, as market conditions allow. During Fiscal 2008 we repurchased a total of 505,406 shares of stock (\$5.21 average price paid per share) in the open market under this program. We have not repurchased any shares of our common stock under this program since Fiscal 2008. As of January 28, 2012, \$197,365,000 was available for future repurchases under this program. This repurchase program has no expiration date.

Table of Contents

- (1) See “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 9. SALE OF PROPRIETARY CREDIT CARD RECEIVABLES PROGRAMS” below.
- (2) See “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 10. IMPAIRMENT OF STORE ASSETS” below.
- Fiscal 2008 includes \$43,230 impairment charge related to CATHERINES goodwill, \$36,792 impairment charge related to 272 under-performing stores, and \$1,476 impairment charge related to certain acquired trademarks and tradenames. Fiscal 2007 includes \$18,172 impairment charge related to FIGI'S goodwill and \$9,025 impairment charge related to 136 under-performing stores.
- (3) See “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; “NOTE 11. RESTRUCTURING AND OTHER CHARGES” below.
- Includes \$3,210 impairment charge related to closing of 30 CATHERINES stores in outlet locations; \$3,058 of severance and retention costs (including \$2,898 related to departure of former CEO); \$2,194 of lease termination charges related to the closing of under-performing stores; and other net restructuring charges of \$314.
- Includes \$17,985 of accelerated depreciation and lease termination charges related to divestiture of non-core misses apparel assets; \$8,087 of professional fees, severance, and retention costs related to transformational initiatives announced in Fiscal 2008; \$3,197 of accelerated depreciation and lease termination charges related to closing of PETITE SOPHISTICATE and PETITE SOPHISTICATE OUTLET stores; \$1,342 for severance and accelerated depreciation related to shutdown of LANE BRYANT WOMAN catalog; and other restructuring charges of \$1,108.
- (6) Includes \$13,319 of severance costs (including \$9,446 related to resignation of former CEO); \$7,600 for lease termination costs and accelerated depreciation related to the closing of PETITE SOPHISTICATE stores; \$3,388 for accelerated depreciation and asset write-downs related to divestiture of non-core misses apparel assets; \$2,817 for asset write-downs, accelerated depreciation, relocation costs and severance related to relocation of CATHERINES operations; \$2,491 for severance and accelerated depreciation related to shutdown of LANE BRYANT WOMAN catalog; and \$3,530 of costs related to other initiatives.
- (7) Includes \$3,033 of severance, retention, and relocation costs related to consolidation of operating functions; and \$2,299 for accelerated depreciation related to the closing of our CATHERINES facility in Memphis, Tennessee.
- We sold our Crosstown Traders non-core misses apparel catalog titles during Fiscal 2008 and reported their results as discontinued operations. The loss for Fiscal 2008 includes a \$28,186 loss from discontinued operations and a \$46,736 loss on disposition. The loss for Fiscal 2007 includes impairment charges of \$75,740 (net of a tax benefit of \$4,307) related to Crosstown Traders goodwill and trademarks and a loss from discontinued operations of \$9,299 (net of a tax benefit of \$5,934).
- (9) Results may not add due to rounding.
- (11) Based on net income/(loss) from continuing operations.
- See “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations; RESULTS OF OPERATIONS; EBITDA and Adjusted EBITDA” below for a further discussion of EBITDA and Adjusted EBITDA, including a reconciliation of net loss to EBITDA and Adjusted EBITDA for Fiscal 2011, Fiscal 2010, and Fiscal 2009. A reconciliation of loss from continuing operations before extraordinary item to EBITDA and Adjusted EBITDA for Fiscal 2008 and Fiscal 2007 is as follows:

(In thousands)	Year Ended	
	January 31, 2009	February 2, 2008
Loss from continuing operations before extraordinary item	\$ (180,351)	\$ (4,163)
Income tax (benefit)/provision	(13,488)	11,238
Net interest expense and other income	15,030	9,256
Depreciation and amortization	93,741	94,470
EBITDA	(85,068)	110,801

Edgar Filing: CHARMING SHOPPES INC - Form 10-K

Restructuring and other charges	33,145	5,332
Impairment of store assets, goodwill, and trademarks	81,498	27,197
Adjusted EBITDA	\$29,575	\$143,330

(In thousands)	As Of January 28, 2012	January 29, 2011	January 30, 2010	January 31, 2009	February 2, 2008 ⁽¹⁾
Balance Sheet Data:					
Total assets	\$1,017,926	\$1,022,658	\$1,157,489	\$1,277,141	\$1,611,013
Current portion – long-term debt	4,682	11,449	6,265	6,746	8,827

Stockholders' equity	416,946	414,420	464,934	536,855	812,495

(1) Includes discontinued operations (see footnote (9) to the table above).

Table of Contents

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis of financial condition and results of operations ("MD&A") should be read in conjunction with the financial statements and accompanying notes included in "Item 8. Financial Statements and Supplementary Data" below. As used in this management's discussion and analysis, the terms "Charming Shoppes," "the Company," "we," "us," and "our" refer to Charming Shoppes, Inc. and its consolidated subsidiaries except where the context otherwise requires or as otherwise indicated.

FORWARD-LOOKING STATEMENTS

With the exception of historical information, the matters contained in the following analysis and elsewhere in this report, including information incorporated herein by reference, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements may include, but are not limited to, projections of revenues, income or loss, cost reductions, capital expenditures, liquidity, divestitures, financing needs or plans, store closings and openings, merchandise strategy, and plans for future operations, as well as assumptions relating to the foregoing. The words "expect," "could," "should," "project," "estimate," "predict," "anticipate," "plan," "intend," "believe" and similar expressions are also intended to identify forward-looking statements.

We operate in a rapidly changing and competitive environment. New risk factors emerge from time to time and it is not possible for us to predict all risk factors that may affect us. Forward-looking statements are inherently subject to risks and uncertainties, some of which we cannot predict or quantify. Future events and actual results, performance, and achievements could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements, which speak only as of the date on which they were made. Given those risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Factors that could cause our actual results of operations or financial condition to differ from those described in this report include, but are not necessarily limited to, those discussed in this MD&A, in "PART I Item 1A. Risk Factors," above, and in our other filings with the Securities and Exchange Commission. We assume no obligation to update or revise any forward-looking statement to reflect actual results or changes in, or additions to, the factors affecting such forward-looking statements.

CRITICAL ACCOUNTING POLICIES

We have prepared the financial statements and accompanying notes included in Item 8 of this report in conformity with United States generally accepted accounting principles. This requires us to make estimates and assumptions that affect the amounts reported in our financial statements and accompanying notes. These estimates and assumptions are based on historical experience, analysis of current trends, and various other factors that we believe to be reasonable under the circumstances. Actual results could differ from those estimates under different assumptions or conditions.

We periodically reevaluate our accounting policies, assumptions, and estimates and make adjustments when facts and circumstances warrant. Our significant accounting policies are described in the notes accompanying the financial statements included in Item 8 of this report. However, we consider the following accounting policies and related assumptions to be more critical to the preparation of our financial statements and accompanying notes and involve the most significant management judgments and estimates.

Revenue Recognition

Our revenues from merchandise sales are net of sales discounts, returns, and allowances and exclude sales tax. We record a reserve for estimated future sales returns based on an analysis of actual returns and we defer recognition of layaway sales to the date of delivery. A change in our actual rates of sales returns and layaway sales experience would affect the level of revenue recognized.

Table of Contents

Catalog and e-commerce revenues include shipping and handling fees billed to customers. These revenues are recognized after all of the following have occurred: execution of the customer's order, authorization of the customer's credit card has been received, and the product has been shipped to and received by the customer. We defer recognition of revenue for product shipped but not yet received by the customer based on an estimate of the number of days the shipments are in-transit. A change in the time it takes for customers to receive our products would affect the level of revenue recognized.

We sell gift cards to our Retail Stores segment customers through our stores, store-related websites, and through third parties. We recognize revenue from gift cards when the gift card is redeemed by the customer. Our gift cards do not contain expiration dates or inactivity fees. We recognize gift card breakage (unused gift card balances for which we believe the likelihood of redemption is remote) as net sales based on an analysis of historical redemption patterns. A change in the historical pattern of gift card redemptions would affect the level of revenue recognized.

Loyalty Card Programs

We offer our customers various loyalty card programs. Customers that join these programs are entitled to various benefits, including discounts on purchases, during the membership period. Customers join some of these programs by paying an annual membership fee. For these programs we recognize revenue as a component of net sales over the life of the membership period based on when the customer earns the benefits and when the fee is no longer refundable. Certain loyalty card customers earn points for purchases which may be redeemed for merchandise coupons upon the accumulation of a specified number of points. No membership fees are charged in connection with these programs. We recognize an accrual for discounts earned and not yet issued and discounts issued but not yet redeemed based on an analysis of historical redemption patterns. Costs we incur in connection with administering these programs are recognized in selling, general, and administrative expenses as incurred.

Accounts Receivable

Our FIGI'S food and gifts business offers credit to its customers using interest-free three-payment credit terms over three months, with the first payment due on a defined date 30 to 60 days after a stated holiday. A substantial portion of the FIGI'S business is conducted during the December holiday season. We evaluate the collectibility of our accounts receivable based on a combination of factors, including analysis of historical trends, aging of accounts receivable, write-off experience, past history of recoveries, and expectations of future performance. Significant changes in future performance relative to our historical experience could have an impact on the levels of our accounts receivable valuation reserves.

Inventories

We value our merchandise inventories at the lower of cost or market using the retail inventory method (average cost basis). We adjust the valuation of inventories at cost and the resulting gross margins in proportion to markdowns and shrinkage on our retail inventories. The retail inventory method results in the valuation of inventories at the lower of cost or market when markdowns are currently taken as a reduction of the retail value of inventories. The majority of these "permanent markdowns," and the resulting adjustments to the carrying cost of our inventories, are recorded in our inventory costing system when the actual ticketed selling price of an item is reduced and are therefore not subject to significant estimates on the part of management. However, at the end of each quarter we perform a review of merchandise that is currently on promotional markdowns (which is considered a "temporary markdown") and identify the merchandise that will not be sold again above its current promotional price. Because we have not yet recorded such promotional markdowns in our perpetual inventory system as permanent markdowns, we record a markdown reserve to properly record the inventory at the lower of cost or market using the retail inventory method.

Table of Contents

Our estimation of markdown reserves involves certain management judgments and estimates that can significantly affect the ending inventory valuation at cost, as well as the resulting gross margins. The markdown reserve will fluctuate depending on the level of seasonal merchandise on-hand, the level of promotional activity, and management's estimate of our ability to liquidate such promotional inventory above its current promotional price in the future. Our failure to properly estimate markdowns currently could result in an overstatement or understatement of inventory cost under the lower of cost or market principle. Our total reserves for these types of markdowns were \$16.4 million as of January 28, 2012 and \$19.5 million as of January 29, 2011. Historically, we have not had significant variances between our estimates of these markdown reserves and the actual markdown experience for which these reserves were established.

We perform physical inventory observations at least once annually at each of our stores. For stores with higher-than-average inventory loss rates, we may perform physical inventory observations more frequently. Actual inventory losses are recorded in our financial statements at the time these physical inventory observations are performed. During the periods between our physical inventory observations and our period-end reporting dates, we record a reserve for estimated inventory losses (shrinkage). Our estimates for shrinkage are based on actual inventory losses identified from the results of physical inventory counts at our stores and distribution centers. Historically, our physical inventory losses have averaged between 1% and 2% of our net sales. Our reserves for estimated inventory shrinkage were \$2.0 million as of January 28, 2012 and \$1.8 million as of January 29, 2011.

We defer into inventory cash received from vendors and recognize these amounts as a reduction of cost of goods sold as the inventory is sold. We defer the recognition of cash received from vendors during interim periods in order to better match the recognition of the cash consideration to the period the inventory is sold.

Impairment of Property, Plant, and Equipment, Intangible Assets, and Goodwill

We assess our property, plant, and equipment and amortizable intangible assets for recoverability whenever events or changes in circumstances indicate that the carrying amounts of these long-lived assets may not be recoverable. We consider historical performance and estimated future results in our evaluation of potential impairment and compare the carrying amount of the asset to the estimated future undiscounted cash flows expected to result from the use of the asset. If the estimated future undiscounted cash flows are less than the carrying amount of the asset, we write down the asset to its estimated fair value and recognize an impairment loss. Our estimate of fair value is generally based on either appraised value or the present value of future cash flows. The estimates and assumptions that we use to evaluate possible impairment require certain significant assumptions regarding factors such as future sales growth and operating performance, and they may change as new events occur or as additional information is obtained.

We test goodwill and other intangible assets for impairment at least annually or more frequently if there is an indication of possible impairment. We perform our annual impairment analysis during the fourth quarter of our fiscal year because our fourth quarter results of operations are significant to us and are an integral part of our analyses. In addition, we prepare our financial plan for the following fiscal year, which is an important part of our impairment analyses, during the fourth quarter of our fiscal year.

The process of evaluating goodwill for impairment involves the determination of the fair value of our reporting units. Inherent in such fair value determinations are certain judgments and estimates relating to future cash flows, including our interpretation of current economic indicators and market valuations, and assumptions about our strategic plans with regard to our operations. Changes in the significant assumptions and estimates that we use to determine fair values for purposes of our impairment analysis could result in a material effect on our consolidated financial position or results of operations.

Table of Contents

We principally use an income approach to estimate the fair value of our reporting units. We have consistently applied this methodology in previous goodwill impairment tests because we have concluded that the methodology is the most appropriate measure of fair value and is a methodology that market participants would use in valuing these reporting units. The income approach values a business enterprise by estimating annual future debt-free net cash flows available to the providers of the invested capital and discounting these cash flows to their present value at a discount rate that reflects both the current return requirements of the market and the risks inherent in the specific investment. The most significant assumptions used in estimating the fair value of our reporting units are the discount rate, the terminal value, and expected future revenues, gross margins, and operating margins, which vary among our reporting units.

For purposes of our annual impairment test of our goodwill performed as of January 28, 2012 we used a discount rate of 11.4%. Our estimates of future cash flows are based on our current budgets and are reflective of our current expectations as to sales growth rates and profitability. We believe that our estimates are appropriate under the circumstances. If actual results differ materially from our estimates, we may be required to recognize additional goodwill impairments. Given the significant excess of fair value over the book value of our reporting unit as reflected in our impairment analysis we have determined, based on the performance of various sensitivity analyses, that our conclusion would not be affected by other outcomes that are reasonably likely to occur.

Our identifiable intangible assets consist primarily of trademarks. These intangible assets arise primarily from the allocation of the purchase price of businesses acquired to identifiable intangible assets based on their respective fair market values at the date of acquisition. Amounts assigned to identifiable intangible assets, and their related useful lives, are derived from established valuation techniques and management estimates.

Consistent with prior periods and with the methodology used to initially establish and record the fair value of the trademarks noted above, we have applied the “relief-from-royalty” method of the income approach in measuring the fair value of our trademarks for the current-year impairment test. Under this method it is assumed that a company without the rights to the trademarks would license the right to use them for business purposes. The fair value of the trademarks is estimated by discounting the hypothetical royalty payments to their present value over the estimated economic life of the asset. These estimates can be affected by a number of factors including, but not limited to, general economic conditions and availability of market information, as well as our profitability. The most significant assumptions we use to evaluate the fair value of our trademarks are the discount rate, the royalty rate, and estimated future revenues associated with the use of the trademarks.

For purposes of our annual impairment test of our trademarks performed as of January 28, 2012 we used a discount rate of 11.4% and a royalty rate in the range of 4% –5%. Our estimates of future revenues associated with our trademarks are based on our current budgets and are reflective of our current expectations as to sales growth rates. We believe that our estimates are appropriate under these circumstances. Given the significant excess of fair value over the book value of our trademarks as reflected in our impairment analyses we have determined, based on the performance of various sensitivity analyses, that our conclusion would not be affected by other outcomes that are reasonably likely to occur.

Although we believe we have sufficient current and historical information available to us to test for impairment, it is possible that actual cash flows could differ from the estimated cash flows used in our impairment tests.

See “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; “NOTE 10. IMPAIRMENT OF STORE ASSETS” below for information regarding impairment losses recognized during Fiscal 2010 and Fiscal 2009.

Table of Contents

Costs Associated With Exit or Disposal Activities

We recognize liabilities for costs associated with an exit or disposal activity when the liabilities are incurred. Commitment to a plan by itself does not create an obligation that meets the definition of a liability. We recognize one-time benefit payments over time rather than “up front” if the benefit arrangement requires employees to render future service beyond a “minimum retention period.” The liability for one-time benefits is recognized as employees render service over the future service period, even if the benefit formula used to calculate an employee’s termination benefit is based on length of service. We use fair value for the initial measurement of liabilities associated with exit or disposal activities. Severance payments that are offered in accordance with an on-going benefit arrangement are recorded no later than the period when it becomes probable that the costs will be incurred and the costs can be reasonably estimated.

Stock-Based Compensation

We recognize the fair value of stock-based payments as compensation expense in our financial statements. Current grants of stock-based compensation consist primarily of stock appreciation rights (“SARs”) and restricted stock units (“RSUs”). We use the Black-Scholes valuation model to estimate the fair value of SARs. We recognize the related expense for stock-based compensation on a straight-line basis over the service period of the underlying awards except for awards that include a market condition, which are amortized on a graded vesting basis over their derived service period. Our initial estimates of compensation cost are based on the number of awards for which we expect the requisite service period to be completed. These initial estimates are revised if subsequent information indicates that the number of awards expected to vest differs from our initial estimates. We recognize the cumulative effect of such a change in estimated compensation expense in the period of the change.

The Black-Scholes model requires estimates or assumptions as to the dividend yield and price volatility of the underlying stock, the expected life of the award, and a relevant risk-free interest rate. Periodic amortization of compensation expense requires estimates as to the number of awards expected to be forfeited prior to completion of the requisite service period. The use of different option-pricing models and different estimates or assumptions could result in different estimates of compensation expense.

See “Item 8. Financial Statements and Supplementary Data; NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES; Stock-based Compensation” and “NOTE 7. STOCK-BASED COMPENSATION PLANS” below for further information on our stock-based compensation expense.

Insurance Liabilities

We use a combination of third-party insurance and/or self-insurance for certain risks, including workers’ compensation, medical, dental, automobile, and general liability claims. Our insurance liabilities are a component of “accrued expenses” on our consolidated balance sheet, and represent our estimate of the ultimate cost of uninsured claims incurred as of the balance sheet date. In estimating our self-insurance liabilities we use estimates of expected losses, which are based on analyses of historical data. Loss estimates are adjusted based upon actual claim settlements and reported claims. Although we do not expect the amounts ultimately paid to differ significantly from our estimates, self-insurance liabilities could be affected if future claim experience differs significantly from the historical trends and the actuarial assumptions used. We evaluate the adequacy of these liabilities on a regular basis, modifying our assumptions as necessary, updating our records of historical experience, and adjusting our liabilities as appropriate.

Operating Leases

We lease all of our store properties as well as certain of our other facilities. A majority of our store leases contain lease options that we can unilaterally exercise. The lease term we use for such operating leases includes lease option renewal periods only in instances in which the failure to exercise such options would result in an economic penalty for us and exercise of the renewal option is therefore reasonably assured at the lease inception date. Store leasehold improvement assets are depreciated over the shorter of their useful life or the lease term.

Table of Contents

For leases that contain rent escalations, the lease term for recognition of straight-line rent expense commences on the date we take possession of the leased property for construction purposes, which for stores is generally two months prior to a store opening date. Similarly, landlord incentives or allowances under operating leases (tenant improvement allowances) are recorded as a deferred rent liability and recognized as a reduction of rent expense on a straight-line basis over the lease term, commencing on the date we take possession of the leased property for construction purposes.

Senior Convertible Notes

Our cash-settled 1.125% Senior Convertible Notes (the “1.125% Notes”) are separated into their debt and equity components at issuance. The value assigned to the debt component is the estimated fair value, as of the issuance date, of a similar debt instrument without the conversion feature. As a result, the debt is recorded at a discount to adjust its below-market coupon interest rate to the market coupon interest rate for a similar debt instrument without the conversion feature. The difference between the proceeds for the convertible debt and the amount reflected as the debt component represents the value of the conversion feature and is recorded as additional paid-in capital. The debt is subsequently accreted to its par value over its expected life with an offsetting non-cash increase in interest expense on the income statement to reflect interest expense at the market rate for the debt component at the date of issuance.

Concurrent with the issuance of the 1.125% Notes we entered into privately negotiated common stock call options and warrants with affiliates of the initial purchasers. We accounted for the call options and warrants as equity instruments. Accordingly, the cost of the call options and the proceeds from the sale of the warrants are included in additional paid-in capital in our consolidated balance sheets.

The 1.125% Notes will have no impact on our diluted net income per share until the price of our common stock exceeds the conversion price of \$15.379 per share. Prior to conversion we will include any dilutive effect of the 1.125% Notes or the warrants in the calculation of diluted net income per share using the treasury stock method. The call options are excluded from the calculation of diluted net income per share because their effect would be anti-dilutive.

We monitor certain provisions of the 1.125% Notes, the call options, and the warrants for their ongoing treatment as equity instruments on a quarterly basis. Should the issuance of the 1.125% Notes, the purchase of the call options, or the sale of the warrants fail to continue to qualify as equity instruments, we would be required to recognize derivative instruments in connection with the transaction, include the effects of the transaction in assets or liabilities instead of equity, and recognize changes in the fair values of the assets or liabilities in consolidated net income as they occur until the requirements for treatment as equity instruments are again met.

See “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 5. LONG-TERM DEBT” below for further information regarding our 1.125% Notes and related call options and warrants.

Income Taxes

We recognize a tax benefit associated with uncertain tax positions when a tax position is more-likely-than-not to be sustained upon examination, based solely on its technical merits. We measure the recognized benefit as the largest amount of benefit which is more-likely-than-not to be realized on ultimate settlement, based on a cumulative probability basis. We recognize a tax position failing to qualify for initial recognition in the first interim period in which it meets the recognition standard described above, or is resolved through negotiation, litigation, or upon expiration of the statute of limitations. We de-recognize a previously recognized tax position if we subsequently

determine that the tax position no longer meets the more-likely-than-not threshold of being sustained. We consider a tax position to be “effectively settled” upon completion of an examination by a taxing authority without being legally extinguished. For tax positions considered effectively settled we recognize the full amount of the tax benefit, even if (1) the tax position is not considered more-likely-than-not to be sustained solely on the basis of its technical merits, and (2) the statute of limitations remains open.

Table of Contents

We recognize deferred tax assets for temporary differences that will result in deductible amounts in future years and for net operating loss and credit carryforwards. We recognize a valuation allowance to reduce deferred tax assets if, based on existing facts and circumstances, it is more-likely-than-not that some portion or all of our deferred tax assets will not be realized. During Fiscal 2008 we evaluated our assumptions regarding the recoverability of our deferred tax assets. Based on all available evidence we determined that the recoverability of our deferred tax assets is more-likely-than-not limited to our available tax loss carrybacks. Accordingly, we established a valuation allowance against our net deferred tax assets. In future periods we will continue to recognize a valuation allowance until such time as the certainty of future tax benefits can be reasonably assured. When our results of operations demonstrate a pattern of future profitability the valuation allowance may be adjusted, which would result in the reinstatement of all or a part of the net deferred tax assets.

RECENT DEVELOPMENTS

In December 2011 we announced that we are undertaking a comprehensive strategic and financial review of our operations to determine how best to enhance shareholder value. This review is continuing. As part of these efforts, we announced plans to divest our FASHION BUG business and focus on the growth of our LANE BRYANT brand. This review is expected to focus on optimizing the use of our strong cash position to drive the potential of the LANE BRYANT brand, as well as evaluating other alternatives to further enhance shareholder value. The results of operations of our FASHION BUG business are not reported as discontinued operations as the requirements for treating the business as held-for-sale were not met as of January 28, 2012. During the Fiscal 2011 Fourth Quarter we also announced our plans for realignment of our distribution center operations and transformational initiatives for our information technology and distribution infrastructure.

Our Board of Directors and management are exploring a full range of strategic alternatives for the Company, and have engaged Barclays Capital as a financial advisor to assist in the process. We cannot assure that this process will result in any specific course of action beyond the planned divestiture of FASHION BUG. Further, there can be no assurance that this review will result in any specific course of action or that the planned divestiture of FASHION BUG will occur. A time frame for the divestiture of FASHION BUG or the completion of the strategic review has not yet been determined. Additional discussion of our management initiatives is included in "OVERVIEW; Management Initiatives" below.

OVERVIEW

This overview of our Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") presents a summary of more detailed information contained elsewhere in this Report on Form 10-K. The intent of this overview is to put this detailed information into perspective and to introduce the discussion and analysis contained in this MD&A. Accordingly, this overview should be read in conjunction with the remainder of this MD&A and with the financial statements and other detailed information included in this Report on Form 10-K and should not be separately relied upon.

Table of Contents

Results of Operations

Our Fiscal 2011 Fourth Quarter operating results reflect continuing progress on our efforts to reduce operating expenses. Consolidated Adjusted EBITDA for the Fiscal 2011 Fourth Quarter increased by \$2.0 million to \$12.7 million as compared to the prior-year period (see “RESULTS OF OPERATIONS; EBITDA and Adjusted EBITDA” below for a reconciliation of EBITDA and Adjusted EBITDA measurements, which are not defined under Generally Accepted Accounting Principles ("GAAP"), to net loss, which is defined under GAAP). This increase was driven primarily by decreases in operating expenses as a result of the closing of under-performing stores, partially offset by a reduction in net sales and gross profit from the closing of under-performing stores and the impact on gross profit of increased promotional activity in the Fiscal 2011 Fourth Quarter. The \$2.0 million increase in EBITDA was below our expectations as we were unable to hold higher retail prices that were needed to offset higher product costs at our LANE BRYANT brand, resulting in increased promotional activity at LANE BRYANT to drive traffic and sell-through seasonal merchandise. However, we were able to absorb the impact of the promotional environment through the decreases in operating expenses.

The decrease in consolidated net sales for the Fiscal 2011 Fourth Quarter reflected the impact of 207 net store closings during the preceding 12-month period in connection with our store closing programs, partially offset by a 17% increase in e-commerce net sales as compared to the Fiscal 2010 Fourth Quarter and an increase of 1% in consolidated comparable store sales. The inclusion of e-commerce sales with the bricks and mortar comparable store sales would have resulted in a comparable sales increase of 3% for the Fiscal 2011 Fourth Quarter. Our December holiday seasonal fashion inventory assortments were generally well received by our customers, resulting in improved average unit retail, average dollar sales, and conversion rates during the Fiscal 2011 Fourth Quarter as compared to the prior-year period. However, Fiscal 2011 Fourth Quarter sales were negatively impacted by planned reductions in levels of clearance inventory as compared to the prior-year period as we continued to execute against our plan for tightly controlled inventories to drive higher gross margins.

Consolidated gross margin decreased for the Fiscal 2011 Fourth Quarter as compared to the Fiscal 2010 Fourth Quarter. Gross margin at our FASHION BUG and CATHERINES brands increased as a result of reduced promotional activity in the current-year period as compared to the prior-year period, particularly at FASHION BUG, as well as improved seasonal assortments and more disciplined inventory management. However, these increases were offset by the increased promotional activity at our LANE BRYANT brand. The decline in gross profit was primarily driven by the net closure of 207 stores over the preceding 12 months in connection with our store closing program. We continue to seek the proper balance of full-price, promotional, and clearance inventories. Early customer response to our Spring merchandise offerings was strong at the end of the Fiscal 2011 Fourth Quarter and we are confident in our merchandising assortments and operating strategies for the Spring season. However, we expect that the promotional environment that we experienced during the Fiscal 2011 Fourth Quarter will continue to a lesser extent into the Fiscal 2012 First Quarter as we cycle through our higher-priced product.

Our operating expenses (excluding current year restructuring and other charges of \$6.4 million and prior year restructuring charges of \$4.0 million and impairment charges of \$17.1 million) decreased by \$18.5 million for the Fiscal 2011 Fourth Quarter, driven primarily by the impact of 207 net store closures and expense reductions across all of our brands. Our occupancy and buying expenses decreased both in dollar amount and as a percentage of net sales as compared to the prior-year period, primarily related to lower rent expense as a result of the operation of fewer stores and the result of lease negotiations. Selling, general, and administrative expenses decreased in dollar amount as compared to the prior-year period, primarily as a result of a combination of lower store payroll attributable to operating fewer stores and lower advertising expenses, but decreased only slightly as a percentage of net sales, primarily as a result of the lack of leverage from a small increase in consolidated comparable store sales.

Depreciation and amortization expenses decreased by \$4.0 million for the Fiscal 2011 Fourth Quarter as compared to the prior-year period primarily as a result of the operation of fewer stores and the write-down of store assets during the Fiscal 2010 Fourth Quarter.

Table of Contents

Restructuring and other charges for the Fiscal 2011 Fourth Quarter were primarily for professional fees and retention costs related to our announced plans to divest our FASHION BUG business and to undertake a comprehensive strategic and financial review (see "RECENT DEVELOPMENTS" above), and for net lease termination costs in connection with our under-performing store closing programs. Fiscal 2010 Fourth Quarter charges were primarily for non-cash charges for the impairment of long-term assets related to the closing of 30 CATHERINES stores in outlet locations, as well as lease termination costs for the closing of under-performing stores.

As discussed in prior quarters of Fiscal 2011, our product pricing was affected by inflation in cotton costs that mostly impacted our Fall and December holiday seasons. Our Fiscal 2011 Fourth Quarter average unit retail selling price increased approximately 9%, which did not completely cover the increased product cost. At each of our brands we had been planning reduced levels of inventory and a shift from year-round merchandise to a higher level of seasonal, faster-turning styles, while being conservative in our expectations of our customers' willingness to pay higher prices. However, higher initial price points at the beginning of the Fiscal 2011 Fourth Quarter in response to the increase in cotton prices largely were not acceptable to our customers, which resulted in decreased traffic and increased promotional activity at LANE BRYANT at the end of the quarter in order to drive traffic and sell-through seasonal merchandise.

Although we are pleased with our progress on our initiatives to drive sustainable productivity and profitability, our results remain below our expectations. We will continue our efforts to achieve better results through the execution of core fundamentals, including fashionable, trend-right assortments coupled with disciplined inventory management, gross margin expansion, and additional decreases in operating expenses, along with our longer-term initiatives discussed in "Management Initiatives" below.

Financial Position and Liquidity

We ended Fiscal 2011 with \$168.6 million of cash as compared to \$117.5 million as of the end of Fiscal 2010 and ended Fiscal 2011 with a net cash position as compared to a net debt position as of the end of Fiscal 2010. Our cash position increased primarily as a result of improved operating results during Fiscal 2011, more disciplined inventory management, improved sell-through of our seasonal merchandise, and proceeds of \$7.5 million from the sale of our Hong Kong office premises. Our inventory management efforts resulted in an 8% decrease in inventory at cost on a comparable store basis at the end of Fiscal 2011 as compared to the end of the prior-year period.

As we continue to rationalize our store base, we expect to close approximately 90-105 unprofitable stores during Fiscal 2012. The majority of these stores have natural lease expirations in 2012. Lease termination costs for Fiscal 2012 are projected to be approximately \$4 million. During Fiscal 2011, we closed 214 stores, including 124 FASHION BUG stores.

On July 14, 2011 we entered into an amended and restated loan and security agreement for a \$200 million senior secured revolving credit facility, which replaced our \$225 million senior secured revolving credit facility and provides for committed revolving credit availability through July 14, 2016. See "FINANCING; Revolving Credit Facility" below for further discussion of the amended agreement. We ended Fiscal 2011 with no borrowings against the revolving credit facility and a total liquidity position of \$305.3 million (\$168.6 million of cash plus \$136.7 million of available borrowing capacity under our revolving credit facility).

Management Initiatives

As previously announced, we are currently engaged in a number of initiatives that we believe will improve our business and enhance shareholder value (see "RECENT DEVELOPMENTS" above). The first substantive step is the

divestiture of our FASHION BUG business. Although we have made progress in improving FASHION BUG's profitability, we believe that it does not fit within our future strategic plan. Concurrent with this process, we are assessing the appropriate expense structure that incorporates the planned divestiture of FASHION BUG.

Table of Contents

We believe that our financial and operational resources are better spent on focusing on our more profitable LANE BRYANT brand. We expect to invest in and focus on that business, using its strong consumer franchise and leading market position to drive our sales and profits. We expect to achieve our vision for the LANE BRYANT brand as the premier brand for women's fashion plus apparel through a number of initiatives, including:

- offering fashionable, on-trend, lifestyle merchandise collections;
- enhanced CACIQUE intimate apparel brand awareness and merchandise offerings;
- expansion to approximately 900 stores over the next few years, resulting in approximately 750 full-line LANE BRYANT stores and 150 LANE BRYANT OUTLET locations; and
- innovative digital sales initiatives like our recently launched Fashion Genius™ online outfitting technology.

Our plans for the next few years include approximately 125 new locations and 125 relocations from malls into power-strip and lifestyle centers with stronger operating metrics, while closing approximately 50 stores through natural lease expirations. Our current mix of LANE BRYANT stores in strip centers to malls is approximately 55% to 45%, and we plan to improve this mix to approximately 80% to 20% over the next few years. We believe that operating LANE BRYANT stores in power-strip and lifestyle centers will support increased profitability, with projected increases in sales and decreases in occupancy expenses as compared to malls.

Additionally, we are currently developing a new store design for the LANE BRYANT brand, reflective of our vision for LANE BRYANT as the premier brand for women's fashion plus apparel. The new store design will include visual packages that promote lifestyle storytelling experiences, and will be simplified for easy navigation to enhance our customers' shopping experience. We expect to launch our first new store under this design in Fall 2012. Following the execution of our broader plans for new and relocated stores, nearly one-third of our LANE BRYANT stores will be repositioned and represented by our fresh new store design.

Our CACIQUE intimate apparel brand, which offers key intimates categories and complementary products, has grown to approximately one-third of sales at our full-line LANE BRYANT chain. We are seeking to further grow CACIQUE revenue through enhanced product assortments. Further into the future we expect to explore additional sales distribution channels, such as potential mall-based stand-alone stores, sister brands, and international growth.

We are also executing on initiatives to simplify and continuously improve our business processes. These initiatives include investments in the transformation of our information technology and distribution infrastructure, which will support both our planned growth for LANE BRYANT and more efficient processes for our current business. During Fiscal 2012, in addition to investments in store growth at LANE BRYANT we plan to invest approximately \$30 million for a complete upgrade of distribution center equipment; store technology, including point-of-sale hardware, software, and data networks; the installation of a core merchandising platform, including enhanced planning and inventory capabilities; a new warehouse management system; and new purchasing and financial software.

Over the next few years, we expect our investments in the growth of LANE BRYANT to increase sales and reduce costs, driving incremental EBITDA of \$35 million. We expect the transformation of our information technology and distribution infrastructure to result in cost reductions of approximately \$25-\$30 million when fully realized in 2014.

Table of Contents

RESULTS OF OPERATIONS

EBITDA and Adjusted EBITDA

We define EBITDA as net income/(loss) before (i) income taxes; (ii) net interest expense/other income; and (iii) depreciation and amortization, except for amortization of stock-based compensation, which is a component of selling, general, and administrative expenses. We define Adjusted EBITDA as EBITDA before certain items, such as (i) gain on repurchases of 1.125% Senior Convertible Notes; (ii) restructuring and other charges; (iii) impairment of store assets, goodwill, and trademarks; (iv) gain from sale of office premises; and (v) sale of proprietary credit card receivables programs. EBITDA and Adjusted EBITDA are not defined under Generally Accepted Accounting Principles (“GAAP”) and our computation may not be comparable to similar measures reported by other companies.

We believe that Adjusted EBITDA, along with other measures, provides a useful pretax measure of our ongoing operating performance and our ability to meet debt service and capital requirements on a comparable basis excluding the impact of certain items and capital-related non-cash charges. We use Adjusted EBITDA to monitor and evaluate the performance of our business operations and we believe that it enhances our investors’ ability to analyze trends in our business, compare our performance to other companies in our industry, and evaluate our ability to service our debt and capital needs. In addition, we use Adjusted EBITDA as a component of our compensation programs.

Although Adjusted EBITDA provides useful information on an operating cash flow basis, it is a limited measure in that it excludes the impact of cash requirements for interest expense, income taxes, capital expenditures, and certain other items requiring cash outlays. Therefore, Adjusted EBITDA should be used as a supplement to results of operations and cash flows as reported under GAAP and should not be used as a singular measure of operating performance or as a substitute for GAAP results.

The tables on the following five pages show details of our consolidated net sales and a reconciliation of our income/(loss) from continuing operations to EBITDA and Adjusted EBITDA for the periods indicated.

(1) “Comparable store sales” is not a measure that has been defined under generally accepted accounting principles. The method of calculating comparable store sales varies across the retail industry and, therefore, our calculation of comparable store sales is not necessarily comparable to similarly-titled measures reported by other companies. We define comparable store sales as sales from stores operating in both the current and prior-year periods. Sales from new stores are added to the comparable store sales base 13 months after their open date. Sales from stores that are relocated within the same mall or strip-center, remodeled, or have a square footage change of less than 20% are included in the calculation of comparable store sales. Sales from stores that are relocated outside the existing mall or strip-center, or have a square footage change of 20% or more, are excluded from the calculation of comparable store sales until 13 months after the relocated store is opened. Stores that are temporarily closed for a period of 4 weeks or more are excluded from the calculation of comparable store sales for the applicable periods in the year of

closure and the subsequent year. Direct-to-Consumer segment catalog and internet sales are excluded from the calculation of comparable store sales.

(2) Includes LANE BRYANT OUTLET stores.

(3) Includes CATHERINES stores in outlet locations, which were converted from PETITE SOPHISTICATE OUTLET stores during the Fiscal 2009 Fourth Quarter and Fiscal 2010 First Quarter.

(4) Includes PETITE SOPHISTICATE OUTLET stores, which were closed or converted to CATHERINES stores in outlet locations during the Fiscal 2009 Fourth Quarter and Fiscal 2010 First Quarter.

Table of Contents

Retail Store Activity

The following table sets forth information with respect to retail store activity for Fiscal 2011 and planned activity for Fiscal 2012:

	LANE BRYANT ⁽¹⁾	FASHION BUG	CATHERINES	Total
Fiscal 2011				
Stores at January 29, 2011	846	743	475	2,064
Stores opened	6	1	—	7
Stores closed ⁽²⁾	(50) (124) (40) (214

(1)Includes LANE BRYANT OUTLET stores.

Table of Contents

Total Retail Stores segment consolidated net sales decreased primarily as a result of the impact of 207 net store closings during the preceding 12-month period, which was partially offset by a 16% increase in store-related e-commerce net sales for Fiscal 2011 as compared to Fiscal 2010. Consolidated comparable store sales were flat for Fiscal 2011 as a result of a decrease in comparable store sales at our FASHION BUG brand. The inclusion of e-commerce sales with the bricks and mortar comparable store sales would have resulted in a comparable sales increase of 1% for Fiscal 2011.

LANE BRYANT sales increased as compared to the prior-year period primarily as a result of a 3% increase in comparable store sales and a 16% increase in store-related e-commerce net sales, which were substantially offset by the impact of 44 net store closings during the preceding 12-month period. The inclusion of LANE BRYANT e-commerce sales with the LANE BRYANT bricks and mortar comparable store sales would have resulted in a comparable sales increase of 4% for Fiscal 2011. Improvements in average dollar sale, units per transaction, and conversion rate were partially offset by declines in traffic levels as compared to the prior-year period.

FASHION BUG sales decreased as compared to the prior-year period primarily as a result of the impact of 123 net store closings during the preceding 12-month period and a 4% decrease in comparable store sales, partially offset by a 9% increase in store-related e-commerce net sales. The decrease in comparable store sales was partially attributable to higher levels of promotional sales in the prior-year period to sell-through seasonal merchandise. The inclusion of FASHION BUG e-commerce sales with the FASHION BUG bricks and mortar comparable store sales would have resulted in a comparable sales decrease of 4% for Fiscal 2011. A decrease in traffic levels as compared to the prior-year period was partially offset by improvements in average dollar sale and conversion rate.

CATHERINES sales decreased as compared to the prior-year period primarily as a result of the impact of 40 net store closings during the preceding 12-month period (including 15 under-performing CATHERINES stores in outlet locations closed as part of our store closing initiative), partially offset by a 26% increase in store-related e-commerce net sales and a 2% increase in comparable store sales. The inclusion of CATHERINES e-commerce sales with the CATHERINES bricks and mortar comparable store sales would have resulted in a comparable sales increase of 3% for Fiscal 2011. Improvements in average dollar sale and units per transaction were more than offset by a decrease in traffic levels as compared to the prior-year period.

Retail Stores segment e-commerce net sales for Fiscal 2011 represented 8% of Retail Stores segment net sales as compared to 7% of Retail Stores segment net sales for the prior-year period. The improvement in e-commerce net sales was driven primarily by our LANE BRYANT and CATHERINES brands and reflects our continuing efforts to enhance our customers' on-line shopping experience. These efforts include an expanding selection of new brands through our SONSI website and the September 2011 launch of a new online outfitting technology that makes personalized style and fit recommendations. Customers can use these recommendations within the outfitting tool to facilitate viewing and buying of complete outfits. During October 2011 we also announced the launch of an international shipping program that enables customers in over 100 countries and territories worldwide to shop our brands online. Our e-commerce business continues to be a key focus for us.

During Fiscal 2011 we recognized revenues of \$18.1 million in connection with our loyalty card programs as compared to revenues of \$18.7 million during Fiscal 2010.

For our Direct-to-Consumer segment, the increase in net sales was attributable to a planned increase in the circulation of our FIGI'S and Gallery Spring and Fall season catalogs. The Direct-to-Consumer segment generates a substantial portion of its sales during the December holiday season.

Table of Contents

Gross Profit

	Year Ended		Year Ended		Change as a	
(Dollars in millions)	January 28, 2012	% of Net Sales	January 29, 2011	% of Net Sales	Percentage of Net Sales	
Consolidated gross profit	\$999.1	50.1	% \$1,015.0	49.2	% 0.9	%

Consolidated gross profit as a percentage of net sales ("gross margin") increased primarily as a result of improved merchandising and inventory management, despite a challenging product cost and promotional environment. Improvements in gross margins at our FASHION BUG and CATHERINES brands were partially offset by a decrease at our LANE BRYANT brand. The gross margin for Fiscal 2011 was moderately affected by cost increases associated with cotton, wool, and synthetic fabrics, as discussed in the overview above.

For our Retail Stores segment, gross margin increased 150 basis points as compared to the prior-year period. Gross margins increased 420 basis points for FASHION BUG and 140 basis points for CATHERINES, but decreased 60 basis points for LANE BRYANT as compared to the prior-year period. Improved assortments and disciplined inventory management resulted in improved sell-through of seasonal merchandise and fewer promotional markdowns at FASHION BUG and CATHERINES during Fiscal 2011 as compared to the prior-year period. As discussed in the overview above, LANE BRYANT's gross margin decreased slightly primarily as a result of a combination of increased promotional activity in the Fiscal 2011 Fourth Quarter to drive traffic and sell through seasonal merchandise, as well as the impact of higher product costs that we were unable to fully offset through higher selling prices.

Gross profit for the Direct-to-Consumer segment decreased in dollar amount and as a percentage of net sales primarily as a result of higher catalog-related advertising expenses and higher costs for food and inbound freight. Additionally, growth in non-food catalog sales, which carries a lower margin than food sales, has outpaced growth in food sales.

Occupancy and Buying

	Year Ended		Year Ended		Change as a	
(Dollars in millions)	January 28, 2012	% of Net Sales	January 29, 2011	% of Net Sales	Percentage of Net Sales	
Consolidated occupancy and buying	\$340.2	17.1	% \$365.7	17.7	% (0.6)%

Consolidated occupancy and buying expenses decreased in dollar amount and decreased as a percentage of net sales primarily as a result of 207 net store closings during the preceding twelve-month period as part of our initiative to close under-performing stores, as well as from rent reductions secured from landlords as a result of lease negotiations.

Occupancy and buying expenses for our Retail Stores segment as a percentage of Retail Stores net sales decreased 70 basis points as compared to the prior-year period. Occupancy and buying expenses as a percentage of net sales decreased 150 basis points for LANE BRYANT and decreased 70 basis points for CATHERINES, which also benefited from leverage on increased comparable store sales as well as increases in store-related e-commerce net sales. For FASHION BUG, buying and occupancy expenses decreased in dollar amount but increased 40 basis points as a percentage of net sales as a result of negative leverage from a decrease in comparable store sales.

Occupancy and buying expenses for our Direct-to-Consumer segment for Fiscal 2011 were comparable to the prior-year period.

Table of Contents

Selling, General, and Administrative

(Dollars in millions)	Year Ended January 28, 2012	% of Net Sales	Year Ended January 29, 2011	% of Net Sales	Change as a Percentage of Net Sales
Consolidated selling, general, and administrative	\$577.5	29.0	% \$599.1	29.1	% (0.1)%

Consolidated selling, general, and administrative expenses for Fiscal 2011 decreased in dollar amount and were comparable to the prior-year period as a percentage of net sales primarily as a result of expense savings from operating fewer stores in Fiscal 2011, partially offset by an increase in employee incentive-related expenses. Credit income increased in Fiscal 2011 as a result of higher private-label credit card sales as compared to the prior-year period.

Retail Stores segment selling, general, and administrative expenses for Fiscal 2011 decreased 50 basis points as a percentage of Retail Stores net sales as compared to the prior-year period. Selling, general, and administrative expenses as a percentage of net sales decreased 60 basis points for LANE BRYANT and decreased 120 basis points for CATHERINES primarily as a result of leverage from increases in comparable store sales and store-related e-commerce net sales. Selling, general, and administrative expenses increased 30 basis points as a percentage of net sales for FASHION BUG primarily as a result of negative leverage from the decrease in comparable store sales but decreased in dollar amount as a result of expense savings from operating fewer stores.

Selling, general, and administrative expenses for our Direct-to-Consumer segment increased 20 basis points in Fiscal 2011 as compared to the prior-year period primarily as a result of selling expenses related to our SONSI social media website, which was launched in the latter part of Fiscal 2010.

Depreciation and Amortization

(Dollars in millions)	Year Ended January 28, 2012	% of Net Sales	Year Ended January 29, 2011	% of Net Sales	Change as a Percentage of Net Sales
Depreciation and amortization	\$56.7	2.8	% \$68.3	3.3	% (0.5)%

Depreciation and amortization expense decreased primarily as a result of our operation of fewer stores in Fiscal 2011 as compared to the prior-year period and the write-down of store assets during the Fiscal 2010 Fourth Quarter.

Gain from Sale of Office Premises

During Fiscal 2011 we sold our offices in Hong Kong, which served as the home office for our international sourcing operations, for gross proceeds of \$7.5 million and recognized a gain on the sale of \$5.2 million. Our international sourcing operations now utilize leased space in Hong Kong.

Restructuring and Other Charges

Restructuring and other charges for Fiscal 2011 were primarily for professional fees and retention costs related to our announced plans to divest our FASHION BUG business and to undertake a comprehensive strategic review (see "RECENT DEVELOPMENTS" above), lease termination costs in connection with our under-performing store closing programs, and non-cash store impairment charges.

Restructuring and other charges for Fiscal 2010 consisted primarily of non-cash impairment charges for long-term assets related to the closing of 30 CATHERINES stores in outlet locations, cash severance and non-cash equity compensation costs in connection with the resignation of our former CEO, lease termination costs related to our store closing program, and accretion charges on lease termination costs for our store closing program announced in March 2010.

Table of Contents

Gain on Repurchases of 1.125% Senior Convertible Notes

During Fiscal 2010 we repurchased 1.125% Notes with an aggregate principal amount of \$49.2 million and recognized a gain on the repurchases of \$1.9 million, net of unamortized issue costs.

Income Tax Provision/(Benefit)

The income tax provision/(benefit) continues to reflect the impact of a valuation allowance recorded against our net deferred tax assets, as well as the availability of net operating loss carryforwards. Accordingly, the income tax provision for Fiscal 2011 resulted primarily from (1) certain state and foreign income taxes payable as well as required deferred taxes; and (2) an increase in our liability for unrecognized tax benefits, interest, and penalties associated with uncertain tax positions. These items were partially offset as a result of our ability to use additional income tax credits in the tax years that were under examination. The income tax provision for Fiscal 2011 was also unfavorably impacted by a net non-cash provision of \$7.8 million to increase the valuation allowance against our net deferred tax assets.

The income tax benefit for Fiscal 2010 resulted primarily from (1) a reduction in our valuation allowance associated with our net operating loss carrybacks and the utilization of certain income tax credits in an amended income tax return; and (2) a net decrease in our liability for unrecognized tax benefits, interest, and penalties associated with uncertain tax positions. These items were partially offset by certain state and foreign income taxes payable as well as required deferred taxes. The income tax benefit for Fiscal 2010 was unfavorably impacted by a net non-cash provision of \$23.3 million to increase the valuation allowance against our net deferred tax assets.

Comparison of Fiscal 2010 to Fiscal 2009

Net Sales

	Year Ended		Year Ended		Change From Prior Period		
(Dollars in millions)	January 29, 2011	% of Net Sales	January 30, 2010	% of Net Sales ⁽¹⁾	Dollars	Percent	
LANE BRYANT ⁽²⁾	\$977.9	47.4	% \$945.9	45.8	% \$32.0	3.4	%
FASHION BUG	668.7	32.4	692.1	33.5	(23.4)	(3.4))
CATHERINES	300.0	14.6	292.9	14.2	7.1	2.4)
Other Retail Stores ⁽³⁾	—	—	16.7	0.8	(16.7)	(100.0))
Total Retail Stores	1,946.6	94.4	1,947.6	94.3	(1.0)	(0.1))
Direct-to-Consumer	115.2	5.6	116.6	5.6	(1.4)	(1.2))
Corporate and Other ⁽⁴⁾	—	—	0.4	—	(0.4)	(100.0))
Consolidated net sales	\$2,061.8	100.0	% \$2,064.6	100.0	% \$(2.8)	(0.1))%

(1) Results may not add due to rounding.

(2) Includes LANE BRYANT OUTLET stores.

(3) Includes PETITE SOPHISTICATE OUTLET stores, which were closed during the Fiscal 2009 Fourth Quarter.

(4) Revenues related to our figure magazine, which was discontinued in the Fiscal 2009 First Quarter.

Total Retail Stores segment consolidated net sales decreased primarily as a result of the impact of 85 net store closings during Fiscal 2010, which was offset by a 3% increase in Retail Stores segment comparable store sales and a 38% increase in store-related e-commerce net sales for Fiscal 2010 as compared to Fiscal 2009. Our efforts during Fiscal 2010 to improve our merchandise assortments, particularly in the second half of the year, resulted in the improvement

in comparable store sales as compared to Fiscal 2009. The inclusion of e-commerce sales with the bricks and mortar comparable store sales would have resulted in a comparable sales increase of 5% for Fiscal 2010. We also stabilized and began to grow our customer base in Fiscal 2010 through additional investments in marketing.

Table of Contents

LANE BRYANT sales increased as compared to Fiscal 2009 primarily as a result of a 40% increase in store-related e-commerce net sales and a 3% increase in comparable store sales, partially offset by 20 net store closings during Fiscal 2010. Comparable store sales were positive in the last three quarters of Fiscal 2010 (particularly in the Fiscal 2010 Fourth Quarter) as compared to double-digit decreases in the comparable prior-year periods as a result of our efforts to improve merchandise assortments in Fiscal 2010. The inclusion of LANE BRYANT e-commerce sales with the LANE BRYANT bricks and mortar comparable store sales would have resulted in a comparable sales increase of 6% for Fiscal 2010. Traffic levels, conversion rate, and units per transaction improved at LANE BRYANT while average dollar sale decreased as compared to Fiscal 2009.

FASHION BUG sales decreased primarily as a result of 52 net store closings during Fiscal 2010, partially offset by a 4% increase in comparable store sales and a 32% increase in store-related e-commerce net sales. The increase in comparable store sales was a result of improvements in merchandise assortments, including the re-introduction of juniors assortments to 485 stores during the second half of Fiscal 2010, and increased promotional sales to sell-through seasonal merchandise. The inclusion of FASHION BUG e-commerce sales with the FASHION BUG bricks and mortar comparable store sales would have resulted in a comparable sales increase of 5% for Fiscal 2010. Conversion rate and units per transaction improved while traffic and average dollar sale decreased as compared to Fiscal 2009.

CATHERINES sales increased slightly as compared to Fiscal 2009 primarily as a result of the conversion of 28 PETITE SOPHISTICATE OUTLET stores to CATHERINES stores in outlet locations during the Fiscal 2010 First Quarter and a 38% increase in store-related e-commerce net sales, which more than offset 13 net store closings during Fiscal 2010 and a 2% decrease in comparable store sales. Comparable store sales decreased as a result of a lack of seasonal merchandise offerings during the first three quarters of Fiscal 2010 (particularly in the Fiscal 2010 Third Quarter). However, comparable store sales were positive for the Fiscal 2010 Fourth Quarter as a result of improvements in merchandise offerings. The inclusion of CATHERINES e-commerce sales with the CATHERINES bricks and mortar comparable store sales would have resulted in flat comparable sales for Fiscal 2010. Conversion rate and units per transaction improved while traffic levels and average dollar sale decreased as compared to Fiscal 2009.

Retail Stores segment e-commerce net sales for Fiscal 2010 represented 7% of Retail Stores segment net sales as compared to 5% of Retail Stores segment net sales for Fiscal 2009. The improvement in e-commerce net sales reflects our continuing efforts to enhance our customers' on-line shopping experience, which began in Fiscal 2009 with the redesign of our websites and conversion to a new technology platform and continued with the introduction in Fiscal 2010 of a universal shopping cart with customer-friendly shipping options. We also added new search and navigation technology during Fiscal 2010, making it easier for our customers to search our product offerings.

During Fiscal 2010 we recognized revenues of \$18.7 million in connection with our loyalty card programs as compared to revenues of \$19.7 million during Fiscal 2009.

For our Direct-to-Consumer segment, improvements in sales for our FIGI'S catalog as a result of increased catalog circulation were offset by the closing of our LANE BRYANT WOMAN catalog business, which we completed during the Fiscal 2009 Second Quarter.

Gross Profit

(Dollars in millions)	Year Ended January 29, 2011	% of Net Sales	Year Ended January 30, 2010	% of Net Sales	Change as a Percentage of Net Sales
Consolidated gross profit	\$1,015.0	49.2	% \$1,023.6	49.6	% (0.4)%

Table of Contents

Consolidated gross profit as a percentage of net sales decreased primarily as a result of increased promotional activity to sell-through seasonal merchandise and to drive traffic and sales at our Retail Stores segment. These impacts were partially offset by more efficient buying associated with the shift of a higher percentage of apparel product to our direct sourcing operation, which is a component of our “Corporate and other” segment, and an improved gross profit for FIGI’S.

For our Retail Stores segment, gross profit as a percentage of Retail Stores net sales decreased 150 basis points as compared to the prior-year period. Gross profit as a percentage of net sales decreased 230 basis points for LANE BRYANT, decreased 70 basis points for FASHION BUG, and decreased 190 basis points for CATHERINES. As noted above, the decrease in Retail Stores segment gross profit was primarily the result of increased promotional activity, particularly during the Fiscal 2010 Second and Fourth Quarters, to sell-through and ensure a minimal carryover of seasonal merchandise.

Gross profit for the Direct-to-Consumer segment as a percentage of net sales increased as compared to the prior-year period primarily as a result of costs incurred in the prior-year period related to the shutdown of our LANE BRYANT WOMAN catalog business, which we completed during the Fiscal 2009 Second Quarter, and improved results for FIGI’S for Fiscal 2010.

Occupancy and Buying

(Dollars in millions)	Year Ended January 29, 2011	% of Net Sales	Year Ended January 30, 2010	% of Net Sales	Change as a Percentage of Net Sales
Consolidated occupancy and buying	\$365.7	17.7	% \$390.2	18.9	% (1.2) %

Consolidated occupancy and buying expenses decreased in dollar amount and decreased as a percentage of net sales primarily as a result of 85 net store closings during the preceding twelve-month period as part of our initiative to close under-performing stores, as well as from rent reductions secured from landlords.

Occupancy and buying expenses for our Retail Stores segment as a percentage of Retail Stores net sales decreased 110 basis points. Occupancy and buying expenses as a percentage of net sales decreased 160 basis points for LANE BRYANT and decreased 90 basis points for FASHION BUG. Occupancy and buying expenses as a percentage of net sales increased 10 basis points for CATHERINES primarily as a result of costs to convert 28 PETITE SOPHISTICATE OUTLET stores to CATHERINES stores in outlet locations opened in Fiscal 2010, which were partially offset by the favorable impact of store closings and reductions in occupancy-related costs.

Occupancy and buying expenses for our Direct-to-Consumer segment as a percentage of net sales decreased 310 basis points primarily as a result of the shutdown during the Fiscal 2009 Third Quarter of the retained leased facilities from the sale of our non-core misses apparel catalog business. Lease termination costs related to the shutdown of the retained leased facilities were recognized in Fiscal 2009 as part of restructuring and other charges (see “Restructuring and Other Charges” below).

Selling, General, and Administrative

(Dollars in millions)	Year Ended January 29, 2011	% of Net Sales	Year Ended January 30, 2010	% of Net Sales	Change as a Percentage of Net Sales
Consolidated selling, general, and administrative	\$599.1	29.1	% \$582.9	28.2	% 0.9 %

Consolidated selling, general, and administrative expenses increased as a percentage of net sales and increased in dollar amount primarily as a result of additional advertising expenses during Fiscal 2010, including our Spring 2010 national television campaign.

Table of Contents

Retail Stores segment selling, general, and administrative expenses increased 40 basis points as a percentage of Retail Stores net sales as compared to the prior-year period. Selling, general, and administrative expenses as a percentage of net sales decreased 20 basis points for LANE BRYANT, increased 80 basis points for FASHION BUG, and increased 170 basis points for CATHERINES.

Selling, general, and administrative expenses for our Direct-to-Consumer segment increased as compared to the prior-year period primarily as a result of e-commerce marketing expenses and increased payroll expenses incurred during Fiscal 2010. Fiscal 2009 expenses included payments received from transitional service agreements that terminated during the Fiscal 2009 Third Quarter related to the non-core misses apparel catalog business that we sold during Fiscal 2008.

Depreciation and Amortization

(Dollars in millions)	Year Ended		Year Ended		Change as a	
	January 29, 2011	% of Net Sales	January 30, 2010	% of Net Sales	Percentage of Net Sales	
Depreciation and amortization	\$68.3	3.3	% \$76.3	3.7	% (0.4)%

Depreciation and amortization expense decreased primarily as a result of operating fewer stores in Fiscal 2010 as compared to Fiscal 2009 and the write-down of store assets during the Fiscal 2009 Fourth Quarter.

Sale of Proprietary Credit Card Receivables Programs

During Fiscal 2009 we sold our proprietary credit card receivables programs and recognized one-time net charges of \$14.2 million as a result of the sale, primarily related to reimbursement to the buyer for system conversion costs, as well as legal and professional services, severance, and retention costs associated with the sale of the programs (see “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 9. SALE OF PROPRIETARY CREDIT CARD RECEIVABLES PROGRAMS” below).

Impairment of Store Assets

In the Fiscal 2010 Fourth Quarter we performed an impairment review of our long-term assets, goodwill, and other intangible assets. As a result of this review we identified 157 stores with asset carrying values in excess of such stores’ respective forecasted undiscounted cash flows. Accordingly, we recognized a non-cash impairment charge of \$17.1 million during Fiscal 2010 to write down the long-lived assets at these stores to their respective fair values. We determined that our goodwill and other indefinite-lived intangible assets were not impaired as of the Fiscal 2010 Fourth Quarter.

In the Fiscal 2009 Fourth Quarter we performed an impairment review of our long-term assets, goodwill, and other intangible assets. As a result of this review we identified 89 stores with asset carrying values in excess of such stores’ respective forecasted undiscounted cash flows. Accordingly, we recognized a non-cash impairment charge of \$15.7 million during Fiscal 2009 to write down the long-lived assets at these stores to their respective fair values. We determined that our goodwill and other indefinite-lived intangible assets were not impaired as of the Fiscal 2009 Fourth Quarter. See “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 10. IMPAIRMENT OF STORE ASSETS” below for further information regarding our Fiscal 2010 and Fiscal 2009 impairment charges.

Table of Contents

Restructuring and Other Charges

During Fiscal 2010 we recognized charges primarily for the impairment of long-term assets related to the closing of 30 CATHERINES stores in outlet locations, cash severance and non-cash equity compensation costs related to the resignation of our former chief executive officer during the Fiscal 2010 Third Quarter, and lease termination costs in connection with our program announced in March 2010 to close under-performing stores. During Fiscal 2009 we recognized charges primarily for (1) lease termination costs related to the retained leased facilities from the sale of the non-core misses apparel catalog business; (2) costs related to our transformational initiatives; (3) non-cash accelerated depreciation related to fixed assets retained from the sale of the non-core misses apparel catalog business; (4) retention costs and non-cash accelerated depreciation for the planned closing of the LANE BRYANT WOMAN catalog operations; and (5) costs for lease terminations and non-cash accelerated depreciation related to the closure of under-performing stores. See “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 11. RESTRUCTURING AND OTHER CHARGES” below for further information regarding our Fiscal 2010 and Fiscal 2009 restructuring and other charges.

Gain on Repurchases of 1.125% Senior Convertible Notes

During Fiscal 2010 we repurchased 1.125% Notes with an aggregate principal amount of \$49.2 million and recognized a gain on the repurchases of \$1.9 million, net of unamortized issue costs. Approximately \$1.6 million of the aggregate purchase price for Fiscal 2010 was accounted for as a reduction of stockholders’ equity. During Fiscal 2009 we repurchased 1.125% Notes with an aggregate principal amount of \$85.4 million and recognized a gain on the repurchases of \$14.0 million, net of unamortized issue costs. Approximately \$1.3 million of the aggregate purchase price for Fiscal 2009 was accounted for as a reduction of stockholders’ equity.

Income Tax Benefit

The income tax benefit for Fiscal 2010 resulted primarily from (1) a reduction in our valuation allowance associated with our net operating loss carrybacks and the utilization of certain income tax credits in an amended income tax return, and (2) a net decrease in our liability for unrecognized tax benefits, interest, and penalties associated with uncertain tax positions. These items were offset by certain state and foreign income taxes payable as well as required deferred taxes. The Fiscal 2010 income tax benefit was unfavorably impacted by a net non-cash provision of \$23.3 million to increase the valuation allowance against our net deferred tax assets.

The income tax benefit for Fiscal 2009 was primarily the result of our ability to carry back our remaining Fiscal 2008 net operating loss (“NOL”) beyond the original two years normally allowable to up to three additional preceding years to offset taxable income in those years and record an income tax receivable. This carryback was made possible by H.R. 3548, the “Worker, Homeownership, and Business Assistance Act of 2009” (the “Act”). The Act was signed into law on November 6, 2009 and contained a number of tax law changes, including a provision that permitted companies to carry back applicable 2008 or 2009 NOLs up to five years, instead of the general two-year carryback. The tax effects of the Act included the re-measurement of existing current and deferred tax assets and liabilities, as well as related valuation allowances. As such, during the Fiscal 2009 Fourth Quarter we were able to reduce the valuation allowance previously established for these NOLs and to recognize an income tax benefit of \$29.5 million. The Fiscal 2009 income tax benefit was unfavorably impacted by a net non-cash provision of \$13.5 million to increase the valuation allowance against our net deferred tax assets. The income tax benefit for Fiscal 2009 was also unfavorably impacted by a net increase in our liability for unrecognized tax benefits, interest, and penalties, as well as state and foreign income taxes payable.

Table of Contents

Comparison of Fourth Quarter Fiscal 2011 to Fourth Quarter Fiscal 2010

Net Sales

(Dollars in millions)	Thirteen Weeks Ended			Thirteen Weeks Ended		Change From Prior Period		
	January 28, 2012	% of Net Sales		January 29, 2011	% of Net Sales	Dollars	Percent	
LANE BRYANT ⁽¹⁾	\$256.1	45.8	%	\$255.1	44.3	% \$1.0	0.4	%
FASHION BUG	143.5	25.7		163.6	28.4	(20.1)	(12.3))
CATHERINES	70.4	12.6		69.7	12.1	0.7	1.0	
Total Retail Stores	470.0	84.1		488.4	84.8	(18.4)	(3.8))
Direct-to-Consumer	89.1	15.9		87.4	15.2	1.7	1.9	
Consolidated net sales	\$559.1	100.0	%	\$575.8	100.0	% \$(16.7)	(2.9))%

(1)Includes LANE BRYANT OUTLET stores.

The decrease in Retail Stores segment net sales for the Fiscal 2011 Fourth Quarter as compared to the Fiscal 2010 Fourth Quarter reflects the impact of 207 net store closings during the preceding 12-month period, partially offset by a 17% increase in store-related e-commerce net sales and a 1% increase in comparable store sales. The inclusion of e-commerce sales with the bricks and mortar comparable store sales would have resulted in a comparable sales increase of 3% for the Fiscal 2011 Fourth Quarter.

LANE BRYANT sales increased slightly as compared to the prior-year period primarily as a result of a 2% increase in comparable store sales and a 16% increase in store-related e-commerce net sales, which were substantially offset by the impact of 44 net store closings during the preceding 12-month period. The inclusion of LANE BRYANT e-commerce sales with the LANE BRYANT bricks and mortar comparable store sales would have resulted in a comparable sales increase of 4% for the Fiscal 2011 Fourth Quarter. An improvement in conversion rate and a slight increase in average dollar sale were offset by decreases in traffic levels and units per transaction as compared to the prior-year period.

FASHION BUG sales decreased primarily as a result of 123 net store closings during the preceding 12-month period and a 2% decrease in comparable store sales. The decrease in comparable store sales primarily reflects the impact of increased levels of clearance sales in the prior-year period as a result of our efforts to liquidate slow-moving seasonal merchandise. The inclusion of FASHION BUG e-commerce sales with the FASHION BUG bricks and mortar comparable store sales would have resulted in a comparable sales decrease of 1% for the Fiscal 2011 Fourth Quarter. Decreases in traffic levels and units per transaction as compared to the prior-year period were partially offset by an improvement in average dollar sale.

CATHERINES sales increased as compared to the prior-year period as a 5% increase in comparable store sales and a 29% increase in store-related e-commerce net sales were partially offset by the impact of 40 net store closings during the preceding 12-month period (including 15 under-performing CATHERINES stores in outlet locations closed as part of our store closing initiative). The inclusion of CATHERINES e-commerce sales with the CATHERINES bricks and mortar comparable store sales would have resulted in a comparable sales increase of 7% for the Fiscal 2011 Fourth Quarter. Improvements in average dollar sale and units per transaction were partially offset by a decrease in traffic levels as compared to the prior-year period.

Table of Contents

Retail Stores segment e-commerce net sales for the Fiscal 2011 Fourth Quarter represented 10% of Retail Stores segment net sales as compared to 8% of Retail Stores segment net sales for the prior-year period. The improvement in e-commerce net sales reflects our continuing efforts to enhance our customers' on-line shopping experience. These efforts include an expanding selection of new brands through our SONSI website and the September 2011 launch of a new online outfitting technology that makes personalized style and fit recommendations. Customers can use these recommendations within the outfitting tool to facilitate viewing and buying of complete outfits. During October 2011 we also announced the launch of an international shipping program that enables customers in over 100 countries and territories worldwide to shop our brands online. Similar to our bricks-and-mortar business, higher price points contributed to a greater-than-planned decrease in traffic levels at our e-commerce websites.

During the Fiscal 2011 Fourth Quarter we recognized revenues of \$4.5 million in connection with our loyalty card programs as compared to revenues of \$4.8 million during the Fiscal 2010 Fourth Quarter.

For our Direct-to-Consumer segment, the increase in net sales was attributable to a planned increase in the circulation of our FIGI'S and Gallery catalogs. The Direct-to-Consumer segment generates a substantial portion of its sales during the December holiday season.

Gross Profit

	Thirteen Weeks Ended		Thirteen Weeks Ended		Change as a
(Dollars in millions)	January 28, 2012	% of Net Sales	January 29, 2011	% of Net Sales	Percentage of Net Sales
Consolidated gross profit	\$235.1	42.0	% \$247.6	43.0	% (1.0)%

The decrease in our consolidated gross margin for the Fiscal 2011 Fourth Quarter was primarily a result of decreases at our LANE BRYANT brand and our Direct-to-Consumer segment, which were partially offset by improvements at our FASHION BUG and CATHERINES brands. The decrease in consolidated gross profit dollars was primarily driven by the net closure of 207 stores over the preceding 12 months in connection with our store closing program. The Fiscal 2011 Fourth Quarter gross margin was moderately affected by cost increases associated with cotton, wool, and synthetic fabrics, as discussed in the overview above.

For our Retail Stores segment, gross margin for the Fiscal 2011 Fourth Quarter decreased 60 basis points as compared to the prior-year period. Gross margin decreased 360 basis points for LANE BRYANT primarily as a result of a combination of increased promotional activity in the Fiscal 2011 Fourth Quarter to drive traffic and sell through seasonal merchandise, as well as the impact of higher product costs that we were unable to fully offset through higher selling prices, as discussed in the overview above. Gross margin increased 320 basis points for FASHION BUG and increased 50 basis points for CATHERINES. Improved assortments and more disciplined inventory management resulted in improved sell-through of seasonal merchandise and fewer promotional markdowns during the current-year period as compared to the prior-year period, particularly at FASHION BUG as well as at CATHERINES.

Gross profit for the Direct-to-Consumer segment for the Fiscal 2011 Fourth Quarter decreased both in dollar amount and as a percentage of net sales primarily as a result of higher catalog-related advertising expenses and higher costs for food and inbound freight. Additionally, growth in non-food catalog sales, which carries a lower margin than food sales, has outpaced growth in food sales.

Occupancy and Buying

	Thirteen Weeks Ended		Thirteen Weeks Ended		Change as a
--	-------------------------	--	-------------------------	--	-------------

Edgar Filing: CHARMING SHOPPES INC - Form 10-K

(Dollars in millions)	January 28, 2012	% of Net Sales	January 29, 2011	% of Net Sales	Percentage of Net Sales
Consolidated occupancy and buying	\$80.1	14.3	% \$88.9	15.4	% (1.1)%

52

Table of Contents

Consolidated occupancy and buying expenses for the Fiscal 2011 Fourth Quarter decreased in dollar amount and decreased as a percentage of net sales primarily as a result of 207 net store closings during the preceding twelve-month period as part of our initiative to close under-performing stores, as well as from rent reductions secured from landlords as a result of lease negotiations.

Occupancy and buying expenses for the Fiscal 2011 Fourth Quarter for our Retail Stores segment as a percentage of Retail Stores net sales decreased 70 basis points. Occupancy and buying expenses as a percentage of net sales decreased 130 basis points for LANE BRYANT and decreased 60 basis points for CATHERINES, which also benefited from leverage on increased comparable store sales as well as increases in store-related e-commerce net sales. For FASHION BUG, buying and occupancy expenses decreased in dollar amount but increased 30 basis points as a percentage of net sales as a result of negative leverage from a decrease in comparable store sales.

Occupancy and buying expenses for the Fiscal 2011 Fourth Quarter for our Direct-to-Consumer segment were comparable to the prior-year period.

Selling, General, and Administrative

	Thirteen Weeks Ended		Thirteen Weeks Ended		Change as a
(Dollars in millions)	January 28, 2012	% of Net Sales	January 29, 2011	% of Net Sales	Percentage of Net Sales
Consolidated selling, general, and administrative	\$ 142.3	25.5	% \$ 148.0	25.7	% (0.2)%

Consolidated selling, general, and administrative expenses for the Fiscal 2011 Fourth Quarter decreased in dollar amount and were comparable to the prior-year period as a percentage of net sales primarily as a result of expense savings from operating fewer stores in the Fiscal 2011 Fourth Quarter, partially offset by an increase in marketing and employee incentive-related expenses. Credit income increased as a result of higher private-label credit card sales as compared to the prior-year period.

Retail Stores segment selling, general, and administrative expenses for the Fiscal 2011 Fourth Quarter decreased 30 basis points as a percentage of Retail Stores net sales as compared to the prior-year period. Selling, general, and administrative expenses decreased 210 basis points for FASHION BUG primarily as a result of expense savings from operating fewer stores, and decreased 210 basis points for CATHERINES primarily as a result of positive leverage from the increase in comparable store sales and e-commerce sales. Although LANE BRYANT experienced an increase in comparable store sales, their selling, general, and administrative expenses for the Fiscal 2011 Fourth Quarter increased 120 basis points as a percentage of net sales, primarily as a result of increases in marketing, store payroll, and incentive-related expenses as compared to the prior-year period.

Selling, general, and administrative expenses for the Fiscal 2011 Fourth Quarter for our Direct-to-Consumer segment decreased 100 basis points as a percentage of net sales as compared to the prior-year period primarily as a result of leverage from an increase in Direct-to-Consumer segment net sales and a decrease in incentive-related compensation.

Depreciation and Amortization

	Thirteen Weeks Ended		Thirteen Weeks Ended		Change as a
(Dollars in millions)	January 28, 2012	% of Net Sales	January 29, 2011	% of Net Sales	Percentage of Net Sales
Depreciation and amortization	\$ 14.2	2.5	% \$ 18.2	3.2	% (0.7)%

Depreciation and amortization expense for the Fiscal 2011 Fourth Quarter decreased primarily as a result of our operation of fewer stores as compared to the prior-year period and the write-down of store assets during the Fiscal 2010 Fourth Quarter.

Table of Contents

Restructuring and Other Charges

Restructuring and other charges for the Fiscal 2011 Fourth Quarter were primarily for lease termination costs in connection with our under-performing store closing programs and professional fees and retention costs related to our announced plans to divest our FASHION BUG business and to undertake a comprehensive strategic review (see "RECENT DEVELOPMENTS" above).

Restructuring and other charges for the Fiscal 2010 Fourth Quarter consisted primarily of non-cash impairment charges for long-term assets related to the closing of 30 CATHERINES stores in outlet locations, as well as lease termination costs for the closing of under-performing stores.

Income Tax Provision/(Benefit)

The income tax provision/(benefit) continues to reflect the impact of a valuation allowance recorded against our net deferred tax assets. Accordingly, the income tax provision for the Fiscal 2011 Fourth Quarter resulted primarily from (1) certain state and foreign income taxes payable as well as required deferred taxes; and (2) an increase in our liability for unrecognized tax benefits, interest, and penalties associated with uncertain tax positions.

The income tax benefit for the Fiscal 2010 Fourth Quarter was primarily a result of a net decrease in our liability for unrecognized tax benefits, interest, and penalties associated with uncertain tax positions, which was partially offset by required deferred taxes.

LIQUIDITY AND CAPITAL RESOURCES

The primary sources of funding for our working capital requirements are our available cash balances, cash flow from operations (including our private-label credit card programs), and our revolving credit facility. The following table highlights certain information related to our liquidity and capital resources:

(Dollars in millions)	January 28, 2012	January 29, 2011	January 30, 2010	
Cash and cash equivalents	\$168.6	\$117.5	\$186.6	
Available borrowing capacity under revolving credit facility	\$136.7	\$153.8	\$145.7	
Working capital	\$297.3	\$276.6	\$331.4	
Current ratio	2.1	2.1	2.2	
Long-term debt to equity ratio	37.4	% 39.7	% 47.3	%

As of January 28, 2012, \$39.7 million of our cash and cash equivalents was held by our foreign subsidiary. If these foreign cash and cash equivalents were repatriated to the United States, we may be required to pay income taxes on the amounts repatriated. We do not intend to repatriate our foreign cash and cash equivalents.

Cash Provided by Operating Activities

Our net cash provided by operating activities was \$93.2 million for Fiscal 2011 as compared to cash provided by operating activities of \$5.3 million for Fiscal 2010. The increase in cash provided by operating activities as compared to the prior-year period was primarily the result of improved operating results and a reduction in our investment in inventories net of accounts payable in the current-year period as a result of our more disciplined inventory management. Cash provided by operating activities for Fiscal 2011 included \$1.6 million of Federal income tax

refunds, while cash provided by operations for Fiscal 2010 included \$45.0 million of Federal income tax refunds related to a NOL carryback for Fiscal 2008 and an amended return. Overall, inventories decreased 8% on a comparable store cost basis from the end of Fiscal 2010 to the end of Fiscal 2011.

Table of Contents

Net cash provided by operating activities was \$114.2 million for Fiscal 2009. The decrease in cash provided by operating activities for Fiscal 2010 as compared to Fiscal 2009 is primarily the result of the Fiscal 2009 receipt of \$85.4 million of net proceeds from the sale of our retained interests in our proprietary credit card receivables programs (the remaining \$51.3 million of the net proceeds from the sale was recorded as cash from investing activities). Cash provided by operating activities for Fiscal 2009 also included Federal income tax refunds of \$27.7 million. In addition, in accordance with our Fiscal 2010 in-stock inventory initiative, we used net cash of \$14.7 million for investments in inventories during Fiscal 2010. Inventories increased 5% on a comparable store cost basis from the end of Fiscal 2009 to the end of Fiscal 2010. We also used cash of \$19.0 million during Fiscal 2010 for a net reduction in accounts payable as compared to a \$27.3 million increase in accounts payable for Fiscal 2009.

Cash Provided/(Used) by Investing Activities

Gross capital expenditures, excluding construction allowances received from landlords, were \$34.9 million for Fiscal 2011, \$35.8 million for Fiscal 2010, and \$22.7 million for Fiscal 2009. Capital expenditures net of construction allowances received from landlords were \$31.8 million for Fiscal 2011, \$32.8 million for Fiscal 2010, and \$18.4 million for Fiscal 2009. During Fiscal 2011 we also acquired \$2.9 million of equipment through a capital lease and we received proceeds of \$7.5 million from the sale of our offices in Hong Kong.

We anticipate that our projected gross capital expenditures for Fiscal 2012 will be approximately \$80-\$85 million before construction allowances received from landlords and we anticipate that our Fiscal 2012 capital expenditures net of construction allowances received from landlords will be approximately \$75-\$80 million. We expect to invest approximately \$30 million for store development, primarily for our LANE BRYANT brand, for 20 new store openings and 20-25 store relocations; for store remodels and store refurbishments; and for fixturing for new merchandise assortments. In addition, we plan to invest approximately \$30 million for a complete upgrade to distribution center equipment; store technology, including point-of-sale hardware, software, and data networks; the installation of a core merchandising platform, including enhanced planning and inventory capabilities; a new warehouse management system; and new purchasing and financial software. The remainder of the capital expenditures will be primarily for infrastructure and lifecycle management. We expect to finance these capital expenditures through internally-generated funds.

Net cash used by investing activities included \$7.7 million of proceeds for Fiscal 2011 and \$1.2 million of proceeds for Fiscal 2010 from the sale of capital assets. Net cash provided by investing activities for Fiscal 2009 included \$51.3 million from the sale of our proprietary credit card receivables programs (see also "Cash Provided by Operating Activities" above), \$6.3 million from net sales of available-for-sale securities, and \$3.2 million of proceeds from the sale of capital assets.

Cash Used by Financing Activities

During Fiscal 2011 we used \$11.4 million of cash for scheduled repayments of long-term borrowings and \$1.9 million of cash for payments of deferred financing fees related to our amended revolving credit facility (see FINANCING; Revolving Credit Facility" below). During Fiscal 2010 we repurchased 1.125% Senior Convertible Notes due May 2014 (the "1.125% Notes") with an aggregate principal amount of \$49.2 million for an aggregate purchase price of \$38.3 million. In addition, we used \$6.3 million for scheduled repayments of other long-term borrowings. During Fiscal 2009 we repurchased 1.125% Notes with an aggregate principal amount of \$85.4 million for an aggregate purchase price of \$50.6 million. In addition, we used \$7.1 million for scheduled repayments of other long-term borrowings and \$7.3 million for deferred financing costs related to our previous revolving credit facility.

Repurchases of Common Stock

In November 2007 our Board of Directors authorized a \$200 million share repurchase program to make share repurchases from time to time in the open market or through privately-negotiated transactions. The timing of such repurchases and the number of shares repurchased will depend on market conditions. We intend to hold shares repurchased as treasury shares. We have not repurchased any shares of common stock subsequent to Fiscal 2008.

Table of Contents

Our amended revolving credit facility allows the repurchase of our common stock subject to maintaining a minimum level of “Excess Availability” (as defined in the facility agreement) for the six months preceding the date of such repurchase, as of the date of such repurchase, and on a projected pro forma basis for the 12 consecutive fiscal months thereafter. The agreement allows common stock repurchases at lower levels of “Excess Availability” subject to maintaining a minimum “Fixed Charge Coverage Ratio” (as defined in the facility agreement) on a pro forma basis for the 12 months immediately preceding such repurchase. See “PART II, Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters, and Issuer Purchases of Equity Securities” above for additional information regarding our share repurchases.

Dividends

We have not paid any dividends since 1995, and we do not expect to declare or pay any dividends on our common stock in the foreseeable future. The payment of future dividends is within the discretion of our Board of Directors and will depend upon our future earnings, if any; our capital requirements; our financial condition; and other relevant factors. Our amended revolving credit facility allows the payment of dividends on our common stock subject to maintaining a minimum level of “Excess Availability” (as defined in the facility agreement) for the six months preceding the payment of such dividends, as of the date of payment of such dividends, and on a projected pro forma basis for the 12 consecutive fiscal months thereafter. The agreement allows the payment of dividends at lower levels of “Excess Availability” subject to maintaining a minimum “Fixed Charge Coverage Ratio” (as defined in the facility agreement) on a pro forma basis for the 12 months immediately preceding such payment.

Table of Contents

Debt, Lease, and Purchase Commitments

As of January 28, 2012 our commitments for future payments under our long-term debt obligations, minimum lease payments under our capital leases and operating leases, and payments due under our letters of credit, long-term deferred compensation plan, unrecognized tax benefits, split-dollar life insurance premiums, and purchase obligations were as follows:

(In millions)	Payments Due by Period				
	Total	Less Than One Year	One to Three Years	Three To Five Years	More than Five Years
Long-term debt, including current portion ⁽¹⁾	\$ 154.6	\$4.0	\$ 150.6	\$—	\$—
Capital leases	6.9	3.1	2.8	1.0	—
Operating leases	570.5	175.6	220.7	121.6	52.6
Revolving credit facility ⁽²⁾	—	—	—	—	—
Letters of credit ⁽²⁾	—	—	—	—	—
Stand-by letters of credit ⁽²⁾	18.1	18.1	—	—	—
Long-term deferred compensation ⁽³⁾	0.3	0.2	0.1	—	—
Unrecognized tax benefits ⁽⁴⁾	11.5	11.5	—	—	—
Split-dollar life insurance premiums ⁽⁵⁾	16.4	1.3	2.7	2.7	9.7
Purchase commitments ⁽⁶⁾	359.3	359.3	—	—	—
Total	\$1,137.6	\$573.1	\$376.9	\$125.3	\$62.3

Amounts represent the expected cash payments (including interest) on our long-term debt (including our

(1) convertible debt through maturity and excluding capital leases) and do not include any fair value adjustments, bond premiums, discounts, or revolving credit facilities.

We currently have a \$200 million revolving credit facility that expires on July 14, 2016, which provides for cash (2) borrowings and the ability to issue up to \$100 million of letters of credit. As of January 28, 2012 there were no borrowings outstanding under this facility.

Includes our non-qualified deferred compensation plan. We have estimated the projected payment obligations for participant-planned in-service distributions of the deferred compensation plan liability as of January 28, 2012. The (3) above estimate excludes \$8.6 million of benefit distribution obligations because the value of the obligations and the timing of payments may vary annually due to changes in the fair value of the plan assets and/or assumptions for participant retirement/termination.

We have recorded liabilities for unrecognized tax benefits of \$29.3 million and accrued interest and penalties of \$16.0 million as of January 28, 2012 (see “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 4. INCOME TAXES” below). These liabilities are included in “Other (4) long-term liabilities” on our consolidated balance sheet. With the exception of \$11.5 million of unrecognized tax benefits that are reasonably possible of being recognized within 12 months, we have excluded these liabilities from this table because we cannot make reasonably reliable estimates of the amounts and/or periods that we expect to pay or settle these liabilities.

(5) Amounts represent insurance premiums related to split-dollar life insurance agreements with former executive employees.

(6) Purchase commitments include agreements to purchase goods or services in the ordinary course of business.

FINANCING

Off-Balance-Sheet Financing

Operating Leases

We lease substantially all of our operating stores and certain administrative facilities under non-cancelable operating lease agreements. Additional details on these leases, including minimum lease commitments, are included in “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 15. Leases” below.

Table of Contents

Proprietary Credit Card Receivables Programs

During Fiscal 2009 we sold our proprietary credit card receivables programs to World Financial Network Bank (“WFNB”), a subsidiary of Alliance Data Systems Corporation (“Alliance Data”) and entered into ten-year operating agreements with Alliance Data for the provision of private-label credit card programs for our customers. Gross proceeds from the transaction were \$166.6 million. Approximately \$22.0 million of the gross proceeds were paid to a third-party administrative services provider for the programs to fund the early termination of a multi-year service contract and approximately \$8.0 million of the gross proceeds were paid to Alliance Data to reimburse them for transition services to be provided to them by the third-party service provider. We recognized one-time net charges as a result of the sale of \$14.2 million, primarily related to reimbursement to Alliance Data for system conversion costs related to the assumption of third-party transitional services, as well as legal and professional services, severance, and retention costs associated with the sale of the programs. In addition, on the sale date, we surrendered the charter of the Spirit of America National Bank (the “Bank”), our wholly-owned credit card bank, and merged the remaining assets and liabilities of the Bank into another non-banking subsidiary.

The transaction consisted of the sale of our proprietary credit card portfolio, along with certain other assets and liabilities that were required to support these card programs, including our consolidated balance sheet asset “Investment in asset-backed securities.” The components of the investment in asset-backed securities comprising the net sales proceeds were \$51.2 million of outstanding trust certificates owned by Charming Shoppes Receivables Corp. (“CSRC”), \$60.9 million of cash account balances in the Charming Shoppes Master Trust (the “Trust”) that had been funded by CSRC, an interest-only strip of \$21.7 million, and other retained interests of \$2.8 million.

Prior to the sale of our proprietary credit card receivables programs, our asset securitization program primarily involved the sale of proprietary credit card receivables to a special-purpose entity, which in turn transferred the receivables to a separate and distinct qualified special-purpose entity (“QSPE”). The QSPE’s assets and liabilities were not consolidated in our balance sheet and the receivables transferred to the QSPE were isolated for purposes of the securitization program. We used our asset securitization facilities to fund the credit card receivables generated by our FASHION BUG, LANE BRYANT, CATHERINES, and PETITE SOPHISTICATE proprietary credit card programs. Prior to the sale of our Crosstown Traders misses apparel catalog credit card receivables we were also using an asset securitization facility to fund the credit card receivables generated by the Crosstown Traders credit card program.

Prior to the sale of the proprietary credit card receivables programs we managed the programs to enhance customer loyalty and to allow us to integrate our direct-mail marketing strategy when communicating with our core customers. We also earned revenue from operating the programs. As discussed above, we utilized asset securitization as the primary funding source for our proprietary credit card receivables programs. As a result, our primary source of benefits was derived from the excess spread revenues we received from monthly securitization distributions associated with the collections on managed outstanding receivables.

In addition to the actual net excess spread revenues we recognized a beneficial interest in the QSPE as an “interest-only strip” (“I/O strip”), which represented the estimated present value of cash flows we expected to receive over the estimated period the receivables were outstanding. We also recognized a servicing liability, which represented the present value of the excess of the costs of servicing over the servicing fees we expected to receive, and was recorded at estimated fair value. We amortized the I/O strip and the servicing liability on a straight-line basis over the expected life of the proprietary credit card receivables.

The proprietary credit card programs also generated other net revenues, which included revenue from additional products and services that customers purchased with their credit cards and interest income earned on funds invested in

the credit entities. The credit contribution was net of expenses associated with operating the program. Except for net fees associated with the fee-based loyalty programs that we included in net sales, we included the net credit contribution as a reduction of selling, general, and administrative expenses in our consolidated statements of operations and comprehensive income.

Table of Contents

Further details of our asset securitization program prior to the sale of the program are as follows:

(In millions)	Year Ended January 30, 2010 ⁽¹⁾
Net securitization excess spread	\$63.7
revenues	
Net changes to the I/O strip and servicing	2.5
liability	
Other credit card revenues, net ⁽²⁾	8.8
Total proprietary credit card revenues	75.0
Less total credit card program	
expenses	42.3
Net credit contribution	\$32.7
Average managed credit card receivables outstanding during period ⁽¹⁾	\$496.9

(1) Through October 30, 2009 (the date of sale of the proprietary credit card receivables programs).

(2) Excludes inter-company merchant fees between our credit entities and our retail entities.

As of the date of sale, Alliance Data assumed the servicing obligations for the Trust and we have no further obligations with respect to financing our credit card programs. The ten-year operating agreements may be terminated early by either party for cause upon the occurrence of certain events as specified in the agreements including, but not limited to: unsatisfactory performance by WFNB under the terms of the agreements; substantial declines in private-label credit card sales volume or substantial closings of sales channels; and events of insolvency or other material defaults.

Under the operating agreements WFNB offers private-label credit cards bearing our retail brand names. We receive ongoing payments from WFNB related to private-label credit card sales, reimbursement of some private-label credit card program marketing costs, and net revenue sharing associated with marketing of certain enhancement services to cardholders. The level of ongoing payments we receive may increase or decrease as a result of changes in the performance of the private-label credit card programs or changes in the legal and regulatory requirements affecting WFNB in its conduct of the program.

Payments from WFNB under the operating agreements are recognized as a reduction of selling, general, and administrative expenses, similar to revenues associated with our proprietary credit card receivables programs prior to the sale. With the sale of the proprietary credit card receivables programs to WFNB, the majority of the expenses associated with the proprietary credit card receivables programs were eliminated.

Additional information regarding our asset securitization facilities, including the sale of our proprietary credit card receivables programs, is included in “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 9. SALE OF PROPRIETARY CREDIT CARD RECEIVABLES PROGRAMS” and “NOTE 14. ASSET SECURITIZATION” below.

Revolving Credit Facility

On July 14, 2011 we entered into an amended and restated loan and security agreement (the “Amended Agreement”) for a \$200 million senior secured revolving credit facility (the “Amended Facility”). The Amended Facility replaced our \$225 million senior secured revolving credit facility and provides for committed revolving credit availability through July 14, 2016. In addition, the Amended Agreement includes an option allowing us to increase our credit facility to an amount not in excess of \$300 million, based on certain terms and conditions. The Amended Facility may be used for

working capital and other general corporate purposes, and provides that up to \$100 million of the \$200 million may be used for letters of credit. See “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 5. LONG-TERM DEBT” below for further details regarding the amended credit facility. There were no borrowings outstanding under the credit facility as of January 28, 2012.

Table of Contents

The Amended Agreement provides for customary representations and warranties and affirmative covenants, and contains customary negative covenants. The Amended Agreement also provides for certain rights and remedies if there is an occurrence of one or more events of default under the terms of the agreement. Under certain conditions the maximum amount available under the agreement may be reduced or terminated by the lenders and the obligation to repay amounts outstanding under the agreement may be accelerated. At all times we are required to maintain Excess Availability (as defined in the Amended Agreement) of at least the greater of 10% of the Borrowing Base (as defined in the Amended Agreement) or \$15 million. As of January 28, 2012, the Excess Availability under the credit facility was \$166.4 million and we were in compliance with all of the covenants included in the facility.

Long-term Debt

In Fiscal 2007 we issued \$275.0 million in aggregate principal amount of 1.125% Senior Convertible Notes due May 1, 2014 (the “1.125% Notes”) in a private offering for resale to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended. The 1.125% Notes were issued at par, and interest is payable semiannually in arrears on May 1 and November 1, beginning November 1, 2007. The 1.125% Notes will mature on May 1, 2014, unless earlier repurchased by us or converted. See “CRITICAL ACCOUNTING POLICIES; Senior Convertible Notes” above and “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES” and “NOTE 5. LONG-TERM DEBT” below for further information related to the 1.125% Notes.

During Fiscal 2010 we repurchased 1.125% Notes with an aggregate principal amount of \$49.2 million. During Fiscal 2009 we repurchased 1.125% Notes with an aggregate principal amount of \$85.4 million. We may elect to repurchase additional notes in privately negotiated transactions or in the open market under circumstances that we believe to be favorable to us.

See “PART I; Item 1A. Risk Factors” above for a discussion of the potential impact to our liquidity as a result of the occurrence of a “fundamental change” as defined in the prospectus filed in connection with our 1.125% Senior Convertible Notes due May 1, 2014.

In Fiscal 2012 we plan to continue to utilize our combined financial resources to fund our inventory and inventory-related purchases, advertising and marketing initiatives, store development and infrastructure strategies, and the transformation of our information technology and distribution infrastructure. We believe our cash and cash equivalents, our operating agreements with Alliance Data related to our private-label credit cards, and our revolving credit facility, as well as the availability of capital lease financing will provide adequate liquidity for our business operations and growth opportunities during Fiscal 2012. However, our liquidity is affected by many factors, including some that are based on normal operations and some that are related to our industry and the economy.

We may seek, as we believe appropriate, additional debt or equity financing to provide capital for corporate purposes or to fund strategic business opportunities. We may also elect to redeem debt financing prior to maturity or to purchase additional 1.125% Senior Convertible Notes under circumstances that we believe to be favorable to us. At this time we cannot determine the timing or amount of such potential capital requirements, which will depend on a number of factors, including demand for our merchandise, industry conditions, competitive factors, the market value of our outstanding debt, the condition of financial markets, and the nature and size of strategic business opportunities that we may elect to pursue.

MARKET RISK

As of January 28, 2012 there were no borrowings outstanding under our revolving credit facility. Future borrowings made under the facility, if any, could be exposed to variable interest rates.

We are not subject to material foreign exchange risk, as our foreign transactions are primarily U.S. Dollar-denominated and our foreign operations do not constitute a material part of our business.

MANAGEMENT’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management, including our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect our transactions and dispositions of our assets; (ii) provide reasonable assurance that our transactions are recorded as necessary to permit preparation of our financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and our Board of Directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Further, because of changes in conditions or the degree of compliance with policies and procedures, the effectiveness of internal control over financial reporting may vary over time.

Management, including our Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of our internal control over financial reporting as of January 28, 2012. In making this assessment, our management, including our Chief Executive Officer and Chief Financial Officer, used the criteria set forth in “Internal Control – Integrated Framework,” issued by the Committee of Sponsoring Organizations of the Treadway Commission (the “COSO criteria”). Based on this assessment, management, including our Chief Executive Officer and Chief Financial Officer, concluded that our internal control over financial reporting was effective as of January 28, 2012.

Ernst & Young LLP, our independent registered public accounting firm, has audited our internal control over financial reporting, as stated in their report that appears on the following page.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL
CONTROL OVER FINANCIAL REPORTING

The Board of Directors and Stockholders
Charming Shoppes, Inc.

We have audited Charming Shoppes, Inc. and subsidiaries' internal control over financial reporting as of January 28, 2012, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO Criteria"). Charming Shoppes, Inc. and subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Charming Shoppes, Inc. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of January 28, 2012, based on the COSO Criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Charming Shoppes, Inc. and subsidiaries as of January 28, 2012 and January 29, 2011, and the related consolidated statements of operations and comprehensive income, stockholders' equity, and cash flows for each of the three fiscal years in the period ended January 28, 2012 of Charming Shoppes, Inc. and subsidiaries and our report dated March 27, 2012 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Charming Shoppes, Inc.

We have audited the accompanying consolidated balance sheets of Charming Shoppes, Inc. and subsidiaries as of January 28, 2012 and January 29, 2011, and the related consolidated statements of operations and comprehensive income, stockholders' equity, and cash flows for each of the three fiscal years in the period ended January 28, 2012. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Charming Shoppes, Inc. and subsidiaries at January 28, 2012 and January 29, 2011, and the consolidated results of their operations and their cash flows for each of the three fiscal years in the period ended January 28, 2012, in conformity with U. S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Charming Shoppes, Inc. and subsidiaries' internal control over financial reporting as of January 28, 2012, based on criteria established in "Internal Control – Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 27, 2012 expressed an unqualified opinion thereon.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fiscal Year

We have a 52-53 week fiscal year ending on the Saturday nearest to January 31. A 52-week fiscal year consists of four 13-week quarters and a 53-week period consists of three 13-week quarters and a 14-week fourth quarter. As used herein, the terms “Fiscal 2011,” “Fiscal 2010,” and “Fiscal 2009” refer to our fiscal years ended January 28, 2012, January 29, 2011, and January 30, 2010.

Business

We operate retail specialty stores located throughout the continental United States and related websites that merchandise plus-size, junior, and misses sportswear, dresses, coats, and intimate apparel, as well as accessories and casual footwear, at a wide range of prices. We also conduct a direct marketing operation that merchandises food and specialty gifts throughout the continental United States through our FIGI’S Gifts in Good Taste catalog and related website. During Fiscal 2009 we discontinued our LANE BRYANT WOMAN catalog.

Principles of Consolidation

The consolidated financial statements include the accounts of Charming Shoppes, Inc. and our wholly-owned and majority-owned subsidiaries. All inter-company accounts and transactions have been eliminated. The terms “the Company,” “we,” “us,” and “our” refer to Charming Shoppes, Inc., and, where applicable, our consolidated subsidiaries.

Business Segments and Related Disclosures

We determine our operating segments based on the way our chief operating decision-makers review our results of operations. We consider our retail stores and store-related e-commerce as operating segments that are similar in terms of economic characteristics, production processes, and operations. Accordingly, we have aggregated our retail stores and store-related e-commerce into a single reporting segment (the “Retail Stores” segment). Our catalog and catalog-related e-commerce operations are separately reported under the Direct-to-Consumer segment.

The Retail Stores segment derives its revenues from sales through retail stores and store-related e-commerce sales under our LANE BRYANT (including LANE BRYANT OUTLET), FASHION BUG, and CATHERINES PLUS SIZES brands, and previously our PETITE SOPHISTICATE OUTLET brand, which was discontinued during Fiscal 2009. The Direct-to-Consumer segment derives its revenues from catalog sales and catalog-related e-commerce sales under our FIGI’S title, and previously our LANE BRYANT WOMAN title, which was discontinued during Fiscal 2009. Our foreign sourcing operations do not constitute a material geographic segment.

See “NOTE 16. SEGMENT REPORTING” below for further information regarding our operations by business segment.

Foreign Operations

We use a December 31 fiscal year for our foreign subsidiaries in order to expedite our year-end closing. There were no intervening events or transactions with respect to our foreign subsidiaries during the period from January 1, 2012 to January 28, 2012 that would have a material effect on our financial position or results of operations.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires that our management make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash Equivalents

We consider all highly-liquid investments with a maturity of three months or less when purchased to be cash equivalents. These amounts are stated at cost, which approximates market value.

Accounts Receivable

Our FIGI'S food and gifts business offers credit to its customers using interest-free, three-payment credit terms over three months, with the first payment due on a defined date 30 to 60 days after a stated holiday. A substantial portion of the FIGI'S business is conducted during the December holiday season. We evaluate the collectibility of our accounts receivable based on a combination of factors, including analysis of historical trends, aging of accounts receivable, write-off experience, past history of recoveries, and expectations of future performance.

Inventories

We value merchandise inventories for our Retail Stores and Direct-to-Consumer segments at the lower of cost or market using the retail inventory method (average cost basis). Under the retail inventory method the valuation of inventories at cost and the resulting gross margins are adjusted in proportion to markdowns currently taken and shrinkage on the retail value of inventories. In addition to markdowns that have been taken (i.e., selling price permanently reduced on the selling floor) we accrue an estimate for promotional markdowns not yet recorded for seasonal merchandise that will not be sold again above its current promotional price.

We purchase inventory and track inventory quantities on hand by season in order to determine aged seasonal inventory. We liquidate aged seasonal inventory through markdowns or sale to liquidators. We account for store inventory shrinkage based on physical inventories conducted at least once annually on a store-by-store basis, with supplemental observations in locations exhibiting high shrinkage rates. We account for distribution and fulfillment center inventory shrinkage based on cycle counts on a center-by-center basis. Actual inventory losses are recorded in our financial statements at the time these physical inventory observations are performed. We determine interim shrinkage estimates based on the actual inventory losses identified by the physical inventory counts at our stores and distribution centers and record a reserve for estimated inventory losses (shrinkage).

We recognize abnormal amounts of idle facility expense, freight, handling costs, and wasted materials costs as current-period expenses rather than capitalizing them into inventory.

We record cash consideration received from vendors as a reduction of inventory and recognize it in cost of goods sold as inventory is sold. We defer the recognition of cash received from vendors during interim periods in order to better match the recognition of the cash consideration to the period the inventory is sold.

Our deferred cash received from vendors included in inventory was as follows:

(In thousands)	January 28, 2012	January 29, 2011
Deferred cash received from vendors	\$5,311	\$7,247

CHARMING SHOPPES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEAR ENDED JANUARY 28, 2012
 (Continued)

Prepayments and Other

Prepayments and other includes prepaid taxes, insurance, rent, marketing, deferred advertising costs, and other prepaid expenses. Prepayments and other also includes third-party credit card receivables and income taxes receivable.

Deferred and Non-Deferred Advertising Costs

With the exception of direct-response advertising, we expense advertising costs when the related advertising takes place. We capitalize all direct costs incurred in the development, production, and circulation of our direct-mail catalogs until the related catalog is mailed. These capitalized costs are amortized as a component of cost of goods sold over the expected sales realization cycle of the catalog, which is generally within one to six months. Advertising costs are net of restricted and unrestricted marketing expense reimbursements we receive under our operating agreements related to the sale of our proprietary credit card receivables programs (see “NOTE 9. SALE OF PROPRIETARY CREDIT CARD RECEIVABLES PROGRAMS” below).

Our initial estimation of the expected sales realization cycle for a particular catalog merchandise offering is based primarily on our historical sales and sell-through experience with similar catalog merchandise offerings, our understanding of then-prevailing merchandise trends and influences, our assessment of prevailing economic conditions, and various competitive factors, as well as on other possible factors. We continually track our subsequent sales realization, compile customer feedback for indications of future performance, reassess the marketplace, compare our findings to our previous estimate, and adjust our amortization accordingly.

(In thousands)	Year Ended		
	January 28, 2012	January 29, 2011	January 30, 2010
Advertising costs charged to expense	\$61,345	\$68,100	\$66,533

Property and Depreciation

For financial reporting purposes we compute depreciation and amortization primarily using the straight-line method over the estimated useful lives of the assets. We amortize leasehold improvements over the shorter of their useful lives or the related lease term as determined under our operating lease accounting policy (see “Lease Accounting” below). We use accelerated depreciation methods for income tax reporting purposes.

We assess our long-lived assets for recoverability whenever events or changes in circumstances indicate that the carrying amounts of long-lived assets may not be recoverable. We consider historical performance and future estimated results when evaluating an asset for potential impairment, and we compare the carrying amount of the asset to the estimated future undiscounted cash flows expected to result from the use of the asset. If the estimated future undiscounted cash flows are less than the carrying amount of the asset, we write down the asset to its estimated fair value and recognize an impairment loss. Our estimate of fair value is generally based on either appraised value or the present value of future cash flows and is a “Level 3” fair value measurement (based on unobservable inputs that are not corroborated by market data). The estimates and assumptions that we use to evaluate possible impairment require certain significant assumptions regarding factors such as future sales growth and operating performance, and they may change as new events occur or as additional information is obtained.

See “NOTE 10. IMPAIRMENT OF STORE ASSETS” below for further details regarding the recognition of impairment losses related to our long-lived assets.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

Lease Accounting

We lease substantially all of our store properties as well as certain of our other facilities and account for these leases as operating leases. A majority of our store leases contain lease options that we can unilaterally exercise. The lease term we use for such leases includes lease option renewal periods only in instances in which the failure to exercise such options would result in an economic penalty for us and exercise of the renewal option is therefore reasonably assured at the lease inception date.

For leases that contain rent escalations, the lease term for recognition of straight-line rent expense commences on the date we take possession of the leased property for construction purposes, which for stores is generally two months prior to a store opening date. Similarly, landlord incentives or allowances under operating leases (tenant improvement allowances) are recorded as a deferred rent liability. The deferred rent liability is amortized as a reduction of rent expense on a straight-line basis over the lease term, commencing on the date we take possession of the leased property for construction purposes.

Contingent rent is determined on a store-by-store basis based on criteria set forth in the lease. Generally, a landlord is due incremental rent when a store exceeds a sales threshold that is determined in the lease.

Goodwill and Other Intangible Assets

We own trademarks, tradenames, and internet domain names that we obtained primarily from our acquisition of LANE BRYANT. We also own trademarks, tradenames, internet domain names, and customer relationships for our FIGI'S catalog and related website. The values of these intangible assets were determined by management with the assistance of an independent appraiser using a discounted cash flow method, based on the estimated future benefits to be received from the assets. We allocated the excess of the cost of the acquisitions over the estimated fair value of the identifiable tangible and intangible net assets acquired to goodwill. We amortize separate intangible assets that are not deemed to have an indefinite life on a straight-line basis over their useful lives. We do not amortize goodwill. Our goodwill as of January 28, 2012 and January 29, 2011 is attributable to our LANE BRYANT operations within our Retail Stores segment.

Our LANE BRYANT, FIGI'S, and other trademarks, tradenames, and internet domain names are well-recognized in the marketplace, and we expect to renew and protect these assets indefinitely. Therefore, we are not amortizing the appraised value of these trademarks, tradenames, and internet domain names. We periodically review these assets for indicators of a limited useful life. The customer relationships for our FIGI'S business have been amortized on a straight-line basis over their estimated useful life of four years and were fully amortized as of the end of Fiscal 2009. We test our goodwill and our indefinite-lived intangible assets for impairment at least annually or more frequently if there is an indication of possible impairment. We perform our annual impairment analysis during the fourth quarter of our fiscal year because our fourth quarter results of operations are significant to us and are an integral part of our analyses. In addition, we prepare our financial plan for the following fiscal year, which is an important part of our impairment analyses, during the fourth quarter of our fiscal year.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

Our impairment test for goodwill involves a two-step process. The first step of the test involves comparing the fair values of the applicable reporting units with their aggregate carrying values, including goodwill. We determine the fair value of our reporting units using principally an income approach to valuation, which uses a discounted cash flow method to estimate the fair value of the reporting unit. If the carrying amount of a reporting unit exceeds the reporting unit's fair value, we perform the second step of the goodwill impairment test to determine the amount of impairment loss. The second step of the goodwill impairment test involves comparing the implied fair value of the affected reporting unit's goodwill with the carrying value of that goodwill.

Our identifiable intangible assets consist primarily of trademarks. These intangible assets arise primarily from the allocation of the purchase price of businesses acquired to identifiable intangible assets based on their respective fair market values at the date of acquisition. Amounts assigned to identifiable intangible assets, and their related useful lives, are derived from established valuation techniques and management estimates.

Consistent with the methodology used to initially establish and record the fair value of the trademarks, we apply the "relief-from-royalty" method of the income approach in measuring the fair value of our tradenames for impairment testing. Under this method it is assumed that a company, without the rights to the trade names, would license the right to utilize them for business purposes. The fair value is estimated by discounting the hypothetical royalty payments to their present value over the estimated economic life of the asset.

We assigned the values of goodwill and other indefinite-lived intangible assets recognized in connection with our acquisitions of LANE BRYANT, CATHERINES, and FIGI'S to the respective reporting units within our reportable business segments. The calculation of the estimated fair value of our reporting units for the purpose of evaluating goodwill for impairment and the fair values of other intangible assets require estimates, assumptions, and judgments, and are "Level 3" fair value measurements (based on unobservable inputs that are not corroborated by market data). The results of our evaluations might have been materially different if different estimates, assumptions, and judgments had been used.

Asset Securitization

Prior to the Fiscal 2009 sale of our proprietary credit card receivables programs (see "NOTE 9. SALE OF PROPRIETARY CREDIT CARD RECEIVABLES PROGRAMS" below) we accounted for these programs as asset securitizations. Asset securitization primarily involved the sale of proprietary credit card receivables to a separate and distinct special-purpose entity, which in turn transferred the receivables to a separate and distinct qualified special-purpose entity ("QSPE"). The QSPE's assets and liabilities were not consolidated in our balance sheets and the receivables transferred to the QSPE were isolated for purposes of the securitization program. The QSPE issued asset-backed certificates that represented undivided interests in those credit card receivables transferred into the QSPE. These certificates were sold to investors and we retained any undivided interests that remained unsold. We included these remaining undivided interests and any other retained interests in "Investment in asset-backed securities" in our accompanying consolidated balance sheets. The carrying value of these retained interests approximated their fair value.

We initially measured servicing assets and liabilities recognized in connection with our asset securitizations at fair value using a "Level 3" fair value measurement (based on unobservable inputs that are not corroborated by market data). Subsequent to initial recognition of the servicing assets or liabilities, we amortized the servicing assets or

liabilities in proportion to, and over the period of, estimated net servicing income or loss and assessed the assets or liabilities for impairment or increased obligation based on fair value at each reporting date. See “NOTE 14. ASSET SECURITIZATION” below for further details regarding recognition and measurement of our servicing assets and liabilities.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

Transaction expenses related to securitizations were deferred and amortized over the reinvestment period of the transaction. Net securitization income, including revaluation of our interest-only strip, was included as a reduction of selling, general, and administrative expenses in our accompanying consolidated statements of operations and comprehensive income.

Insurance Liabilities

We use a combination of third-party insurance and/or self-insurance for certain risks, including workers' compensation, medical, dental, automobile, and general liability claims. Our insurance liabilities are a component of "Accrued expenses" in our consolidated balance sheets and represent an estimate of the ultimate cost of uninsured claims incurred as of the balance sheet date. In estimating our self-insurance liabilities we use estimates of expected losses, which are based on analyses of historical data. Loss estimates are adjusted based upon actual claim settlements and reported claims. We evaluate the adequacy of these liabilities on a regular basis, modifying our assumptions as necessary, updating our records of historical experience, and adjusting our liabilities as appropriate.

Senior Convertible Notes

We account for our 1.125% Senior Convertible Notes (the "1.125% Notes") as cash-settled convertible securities, which are separated into their debt and equity components. The value assigned to the debt component is the estimated fair value, as of the issuance date, of a similar debt instrument without the conversion feature. As a result, the debt is recorded at a discount to adjust its below-market coupon interest rate to the market coupon interest rate for a similar debt instrument without the conversion feature. The difference between the proceeds for the convertible debt and the amount reflected as the debt component represents the value of the conversion feature and is recorded as additional paid-in capital. The debt is subsequently accreted to its par value over its expected life with an offsetting non-cash increase in interest expense on the income statement to reflect interest expense at the market rate for the debt component at the date of issuance.

Concurrent with the issuance of the 1.125% Notes we entered into privately-negotiated common stock call options and warrants with affiliates of the initial purchasers. We accounted for the call options and warrants as equity instruments and included the cost of the call options and the proceeds from the sale of the warrants in additional paid-in capital in our consolidated balance sheets.

The 1.125% Notes will have no impact on our diluted net income per share until the price of our common stock exceeds the conversion price. Prior to conversion we will include any dilutive effect of the 1.125% Notes or the warrants in the calculation of diluted net income per share using the treasury stock method. The call options are excluded from the calculation of diluted net income per share because their effect would be anti-dilutive.

We monitor the 1.125% Notes, call options, and warrants for compliance with the requirements for recognizing them as equity instruments on a quarterly basis. Should the issuance of the 1.125% Notes, the purchase of the call options, or the sale of the warrants fail to continue to qualify for treatment as equity instruments, we would be required to recognize derivative instruments in connection with the transactions, include the effects of the transactions in assets or liabilities instead of equity, and recognize changes in the fair values of the assets or liabilities in consolidated net income as they occur until the requirements for treatment as equity instruments are again met.

Revenue Recognition

Revenues from merchandise sales are net of discounts, returns and allowances, and coupons, and exclude sales tax. We record a reserve for estimated future sales returns based on an analysis of actual returns received, and we defer recognition of layaway sales to the date of delivery. Revenues from sales of gift cards are recorded as deferred revenue and recognized upon the redemption of the gift cards.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

Catalog and e-commerce revenues include shipping and handling fees billed to customers. These revenues are recognized after the following have occurred: execution of the customer's order, authorization of the customer's credit card has been received, and the product has been shipped to and received by the customer. We record a reserve for estimated future sales returns based on an analysis of actual returns.

We sell gift cards to our Retail Stores segment customers through our stores and our retail-store-related websites, as well as through third parties. We recognize revenue from gift cards when the gift card is redeemed by the customer. Our gift cards do not contain expiration dates or inactivity fees. We recognize gift card breakage (unused gift card balances for which we believe the likelihood of redemption is remote) as net sales based on an analysis of historical redemption patterns.

Loyalty Card Programs

We offer our customers various loyalty card programs (see "NOTE 8. CUSTOMER LOYALTY CARD PROGRAMS" below). Customers that join these programs are entitled to various benefits, including discounts on purchases, during the membership period. Customers join some of these programs by paying an annual membership fee. For these programs we recognize revenue as a component of net sales over the life of the membership period based on when the customer earns the benefits and when the fee is no longer refundable. Certain loyalty card customers earn points for purchases which may be redeemed for merchandise coupons upon the accumulation of a specified number of points. No membership fees are charged in connection with these programs. We recognize an accrual for discounts earned and not yet issued and discounts issued but not yet redeemed based on an analysis of historical redemption patterns. Costs we incur in connection with administering these programs are recognized in selling, general, and administrative expenses as incurred.

Cost of Goods Sold

Cost of goods sold includes merchandise costs net of discounts and allowances, freight, inventory shrinkage, and shipping and handling costs associated with our catalog and e-commerce businesses. We capitalize net merchandise costs and freight as inventory costs. Cost of goods sold also includes certain costs incurred in connection with our customer loyalty card programs (see "Loyalty Card Programs" above) and the costs of producing and distributing our merchandise catalogs (see "Deferred and Non-Deferred Advertising Costs" above).

Occupancy and Buying Expenses

Occupancy expenses include rent; real estate taxes; insurance; common area maintenance; utilities; maintenance; and depreciation for our stores, warehouse and fulfillment center facilities, and equipment. Buying expenses include payroll; payroll-related costs; and operating expenses for our buying departments and distribution centers. Occupancy and buying expenses are treated as period costs and are not capitalized as part of inventory.

Stock-based Compensation

Current grants of stock-based compensation consist primarily of stock appreciation rights ("SARs") and restricted stock units ("RSUs"). We use the Black-Scholes valuation model to estimate the fair value of SARs. We amortize stock-based compensation on a straight-line basis over the requisite service period of an award except for awards that

include a market condition, which are amortized on a graded vesting basis over their derived service period. The Black-Scholes model requires estimates or assumptions as to the dividend yield and price volatility of the underlying stock, the expected life of the award, and a relevant risk-free interest rate, which are more fully described in “NOTE 7. STOCK-BASED COMPENSATION PLANS” below. Stock-based compensation for performance-based awards is initially determined using an estimate of performance levels expected to be achieved and is periodically reviewed and adjusted as required.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

During Fiscal 2009 we also granted cash-settled RSUs under our 2003 Non-Employee Directors Compensation Plan. We record stock-based compensation related to cash-settled RSUs as a liability and adjust the liability and related compensation expense for changes in the market value of our common stock.

We present gross excess tax benefits related to stock-based compensation as cash flows from financing activities in our statements of cash flows and we reflect write-offs of deferred tax assets related to an excess of stock-based compensation recognized in the financial statements over amounts deductible for tax purposes as cash flows used by operating activities.

Costs Associated With Exit or Disposal Activities

We recognize liabilities for costs associated with exit or disposal activities when the liabilities are incurred and value the liabilities at fair value. One-time benefit payments are recognized as employees render service over future periods if the benefit arrangement requires employees to render future service beyond a minimum retention period. We record severance payments that are offered in accordance with an on-going benefit arrangement no later than the period when it becomes probable that the costs will be incurred and the costs are reasonably estimable.

Income Taxes

We recognize a tax benefit for a tax position that is more-likely-than-not to be sustained upon examination, based solely on its technical merits. We measure the recognized benefit as the largest amount that is more-likely-than-not to be realized on ultimate settlement, based on a cumulative probability basis. We record interest and penalties related to unrecognized tax benefits in income tax expense.

For tax positions that initially fail to qualify for recognition, we recognize a benefit in the first interim period in which the position meets the "more-likely-than-not" threshold or is resolved through negotiation, litigation, or upon expiration of the statute of limitations. We de-recognize a previously recognized tax benefit if we subsequently determine that the tax position no longer meets the "more-likely-than-not" threshold of being sustained.

We consider a tax position to be "effectively settled" upon completion of an examination by a taxing authority without being legally extinguished. For tax positions considered effectively settled we recognize the full amount of the tax benefit, even if (1) the tax position is not considered more-likely-than-not to be sustained solely on the basis of its technical merits, and (2) the statute of limitations remains open.

We recognize deferred tax assets for temporary differences that will result in deductible amounts in future years and for net operating loss and credit carryforwards. We recognize a valuation allowance against our deferred tax assets if, based on existing facts and circumstances, it is more-likely-than-not that some portion or all of the deferred tax assets will not be realized and we adjust the allowance for changes in our estimate of the portion of deferred tax assets that are more-likely-than-not to be realized.

We permanently reinvest undistributed profits from our international operations and therefore have not provided for incremental United States income taxes on such undistributed profits.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEAR ENDED JANUARY 28, 2012
 (Continued)

Net Income/(Loss) Per Share

Net income/(loss) per share is based on the weighted-average number of common shares outstanding during each fiscal year. Common shares that we hold as treasury stock are excluded from the computation of net income/(loss) per share. Net income per share assuming dilution is based on the weighted-average number of common shares and share equivalents outstanding. Common share equivalents include the effect of dilutive stock options, SARs, and stock awards, using the treasury stock method. Share equivalents are not included in the weighted-average shares outstanding for determining net loss per share, as the result would be anti-dilutive.

Our 1.125% Notes do not impact our diluted net income per share unless the price of our common stock exceeds the conversion price of \$15.379 per share because we expect to settle the principal amount of the 1.125% Notes in cash upon conversion. Our call options are not included in the calculation of diluted net income per share because their effect would be anti-dilutive. Should the price of our common stock exceed \$21.607 per share we would include the dilutive effect of the additional potential shares that may be issued related to our warrants, using the treasury stock method.

Comprehensive Income

The consolidated statements of operations and comprehensive income include transactions from non-owner sources that affect stockholders' equity. Unrealized gains and losses recognized in comprehensive income are reclassified to net income upon their realization.

Deferred Debt Acquisition Costs

Debt acquisition costs other than costs related to the equity component of our 1.125% Notes are deferred and amortized to interest expense on a straight-line basis over the life of the related debt agreement. Debt acquisition costs related to the equity component of our 1.125% Notes have been recognized as a reduction of additional paid-in capital (see "NOTE 5. LONG-TERM DEBT" below).

Costs of Computer Software Developed or Obtained for Internal Use

Costs related to the development of internal-use software, other than those incurred during the application development stage, are expensed as incurred. Costs incurred during the application development stage are capitalized and amortized over the estimated useful life of the software.

Split-dollar Life Insurance Agreements

We recognize a liability for future benefits payable to employees under our split-dollar life insurance agreements with former executive employees. Additional information related to our split-dollar life insurance agreements is as follows:

(In thousands)	January 28, 2012	January 29, 2011
Net cash surrender value of split-dollar life insurance agreements ⁽¹⁾	\$36,650	\$39,981
Liability for benefits payable under split-dollar life insurance agreements ⁽²⁾	12,618	12,096

(1) Included in "Prepayments and other" in the accompanying consolidated balance sheets.

(2) Included in "Accrued expenses" and "Other non-current liabilities" in the accompanying consolidated balance sheets.

 (Continued)

Impact of Recent Accounting Pronouncements

In September 2011 the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-08, "Intangibles – Goodwill and Other (Topic 350): Testing Goodwill for Impairment." Topic 350 currently requires entities to test goodwill on an annual basis by comparing the fair value of a reporting unit to its carrying value including goodwill (step one). Step two of the test must be performed to measure the amount of impairment. Under ASU 2011-08 entities are not required to calculate the fair value of a reporting unit unless they conclude that it is more likely than not (i.e. there is a greater than 50% likelihood) that the unit's carrying value is greater than its fair value based on an assessment of events and circumstances. ASU 2011-08 includes examples of events and circumstances that entities should consider to determine whether they have to perform step one of the goodwill impairment test. ASU 2011-08 is effective for our fiscal year which begins on January 29, 2012. Early adoption is permitted for interim or annual reports that have not been issued.

NOTE 2. ACCOUNTS RECEIVABLE

Accounts receivable consist of trade receivables from sales through our FIGI'S catalog and website. Details of our accounts receivable are as follows:

(In thousands)	January 28, 2012	January 29, 2011
Due from customers	\$45,067	\$42,235
Allowance for doubtful accounts	(5,688) (5,667

(In thousands)	January 28, 2012	January 29, 2011
Income taxes receivable, net	\$10,048	\$10,733

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEAR ENDED JANUARY 28, 2012
 (Continued)

We continue to have a valuation allowance established against our net deferred tax assets. Accordingly, during Fiscal 2011 and Fiscal 2010 we increased our valuation allowance and recognized a non-cash provision of \$7,846,000 and \$23,327,000, respectively. During Fiscal 2009 we increased our valuation allowance and recognized a non-cash provision of \$13,481,000, net of a \$29,461,000 benefit resulting from the carryback of our remaining Fiscal 2008 NOLs. On November 6, 2009, the “Worker, Homeownership, and Business Assistance Act of 2009” (the “Act”) was signed into law. This Act contained a number of tax law changes, including a provision that permits companies to carry back applicable 2008 or 2009 NOLs up to five years, instead of the general two-year carryback. We recognized the tax effects of the Act, including the re-measurement of existing current and deferred tax assets and liabilities, as well as related valuation allowances, in the interim period that included the enactment date of the change. Accordingly, during the Fiscal 2009 Fourth Quarter we reclassified our Fiscal 2008 NOL carryforward from deferred tax assets to income tax receivable, reduced the valuation allowance previously established for these NOLs, and recognized an income tax benefit.

In future periods we will continue to recognize a valuation allowance until such time as the certainty of future tax benefits can be reasonably assured. When our results demonstrate a pattern of future profitability the valuation allowance may be adjusted, which would result in the reinstatement of all or a part of the net deferred tax assets.

As of January 28, 2012 we have U.S. Federal net operating loss carryforwards of \$142,208,000 and state net operating loss carryforwards of \$103,907,000 that are available to offset future U.S. Federal and state taxable income. The majority of the U.S. Federal net operating losses have a twenty-year carryforward period, and expire between Fiscal 2029 and Fiscal 2031. The state net operating losses have carryforward periods of five to twenty years, with varying expiration dates and amounts as follows: \$14,763,000 in one to five years, \$19,238,000 in six to ten years, \$18,485,000 in eleven to fifteen years, and \$51,421,000 in sixteen to twenty years. There are other state net operating losses not included in the above amounts that have not been valued as a result of our certainty that they will not be realized in the future.

Reconciliation of the change in our liability for unrecognized tax benefits:

	Year Ended		
(In thousands)	January 28, 2012	January 29, 2011	January 30, 2010
Gross unrecognized tax benefits, beginning of year	\$28,793	\$29,773	\$29,179
Additions/(reductions) for tax positions related to prior years	465	(1,387) 4,140
Additions for tax positions related to current year	1,194	1,234	183
Reductions resulting from lapse of applicable statute of limitations	—	(696) (287
Settlements	(1,127) (131) (3,442
Gross unrecognized tax benefits, end of year	\$29,325	\$28,793	\$29,773

The portion of the liability for gross unrecognized tax benefits that, if recognized, would decrease our provision for income taxes and increase our net income was \$19,180,000 as of January 28, 2012 and \$19,055,000 as of January 29, 2011.

A substantial portion of the “Other” deferred tax assets included in the components of deferred tax assets and liabilities above represents deferred tax assets related to unrecognized tax benefits.

CHARMING SHOPPES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEAR ENDED JANUARY 28, 2012
 (Continued)

Reconciliation of accrued interest and penalties:

(In thousands)	Year Ended		
	January 28, 2012	January 29, 2011	January 30, 2010
Accrued interest and penalties, beginning of year	\$14,755	\$18,071	\$12,731
Interest and penalties recognized during year	1,285	(3,316) 5,340
Accrued interest and penalties, end of year	\$16,040	\$14,755	\$18,071

The interest and penalties recognized for the year ended January 29, 2011 include reductions in conjunction with the filing of tax accounting method changes. The interest and penalties recognized for the year ended January 30, 2010 include the impact of the reopening of statutes of limitations caused by amended returns and our Fiscal 2008 loss carryback claim.

Our liabilities for unrecognized tax benefits and accrued interest and penalties are included in "Other non-current liabilities" on our consolidated balance sheets.

As of January 28, 2012 it is reasonably possible that the total amount of unrecognized tax benefits will decrease within the next twelve months by as much as \$11,491,000 as a result of resolutions of audits related to U.S. Federal and state tax positions.

As of January 28, 2012, \$39,720,000 of our cash and cash equivalents was held by our foreign subsidiary. If these foreign cash and cash equivalents were repatriated to the United States, we may be required to pay income taxes on the amounts repatriated. We do not intend to repatriate our foreign cash and cash equivalents.

Our U.S. Federal income tax returns for Fiscal 2004 and beyond remain subject to examination by the U.S. Internal Revenue Service ("IRS") due to statute of limitations and the filing of amended returns and NOL carryback claims. We file returns in numerous state jurisdictions, with varying statutes of limitations. Our state tax returns for Fiscal 2007 and subsequent years, depending upon the jurisdiction, generally remain subject to examination. The statute of limitations on a limited number of returns for years prior to Fiscal 2007 has been extended by agreement between us and the particular state jurisdiction. The earliest year still subject to examination by state tax authorities is Fiscal 2003.

NOTE 5. LONG-TERM DEBT

(In thousands)	January 28, 2012	January 29, 2011
1.125% Senior Convertible Notes, due May 1, 2014	\$ 140,451	\$ 140,451
6.07% mortgage note, due October 11, 2014	8,248	9,035
6.53% mortgage note, due November 1, 2012	1,050	2,450
7.77% mortgage note, due December 1, 2011	—	5,793
Capital lease obligations	6,262	6,749
Total long-term debt principal	156,011	164,478
Less unamortized discount on 1.125% Senior Convertible Notes	(17,690)	(24,679)
Long-term debt – carrying value	138,321	139,799
Current portion	(4,682)	(11,449)
Net long-term debt	\$ 133,639	\$ 128,350

During Fiscal 2007 we issued \$275,000,000 in aggregate principal amount of 1.125% Senior Convertible Notes due May 1, 2014 (the “1.125% Notes”). The 1.125% Notes will mature on May 1, 2014 unless earlier repurchased by us or converted. As of January 28, 2012 we had an aggregate total of \$841,000 of unamortized underwriting fees and transaction costs, which are included in “Other assets” on our condensed consolidated balance sheets and are being amortized to interest expense on an effective interest rate basis over the life of the notes.

Holders of the 1.125% Notes may convert their notes based on a conversion rate of 65.0233 shares of our common stock per \$1,000 principal amount of notes (the equivalent of \$15.379 per share), subject to adjustment upon certain events, only under the following circumstances as more fully described in the Indenture for the 1.125% Notes (the “Indenture”): (i) during specified periods, if the price of our common stock reaches specified thresholds; (ii) if the trading price of the 1.125% Notes is below a specified threshold; (iii) at any time after November 15, 2013; or (iv) upon the occurrence of certain corporate transactions.

Upon conversion we intend to deliver an amount in cash equal to the lesser of the aggregate principal amount of notes to be converted or our total conversion obligation. If our conversion obligation exceeds the aggregate principal amount of the 1.125% Notes we will deliver shares of our common stock in respect of the excess. However, we have the option, subject to the approval of our Board of Directors, to elect to satisfy our conversion obligation entirely in shares of our common stock. In connection with a “Fundamental Change” as defined in the Indenture, we also will deliver upon conversion of the notes additional shares of common stock as described in the Indenture.

In addition, upon a change in control, liquidation, dissolution, or de-listing of our common stock before maturity of the 1.125% Notes (each of which would constitute a “Fundamental Change” as defined in the Indenture), we may be required to repurchase for cash all or a portion of the 1.125% Notes for 100% of the principal amount of the notes plus accrued and unpaid interest, if any, up to but excluding the date of purchase. As of January 28, 2012 none of the conditions allowing holders of the 1.125% Notes to convert or to require us to repurchase the 1.125% Notes had been met.

Concurrent with the issuance of the 1.125% Notes we entered into privately negotiated common stock call options with affiliates of the initial purchasers. The call options allowed us to purchase up to 17,881,000 shares of our common stock at an initial strike price of \$15.379 per share. The call options expire on May 1, 2014 and must be

net-share settled. The cost of the call options was \$90,475,000.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

In addition, we sold warrants to affiliates of certain of the initial purchasers that gave them the option to purchase up to 18,775,000 shares of our common stock at an initial strike price of \$21.607 per share. The warrants expire on various dates from July 30, 2014 through December 18, 2014 and must be net-share settled. We received \$53,955,000 in cash proceeds from the sale of these warrants.

The call options and warrants are intended to reduce the potential dilution to our common stock upon conversion of the 1.125% Notes by effectively increasing the initial conversion price of the notes to \$21.607 per share, representing a 73% conversion premium over the closing price of \$12.49 per share for our common stock on April 30, 2007. We used a portion of the net proceeds from the 1.125% Notes to pay the \$36,520,000 net cost of the call options and warrants. The cost of the call options and the proceeds from the sale of the warrants are included in additional paid-in capital in our accompanying condensed consolidated balance sheets.

During Fiscal 2010 we repurchased \$49,185,000 aggregate principal amount of 1.125% Notes with \$10,094,000 of unamortized discount for a purchase price of \$38,260,000 and recognized a gain of \$1,907,000 net of unamortized issue costs. During Fiscal 2009 we repurchased \$85,364,000 aggregate principal amount of 1.125% Notes with \$20,923,000 of unamortized discount for a purchase price of \$50,633,000 and recognized a gain of \$13,979,000 net of unamortized issue costs. Approximately \$1,584,000 of the Fiscal 2010 aggregate purchase price and \$1,256,000 of the Fiscal 2009 aggregate purchase price was accounted for as a reduction of stockholders' equity. In conjunction with the repurchases we unwound a portion of our positions in the call options and warrants that we had purchased and sold in Fiscal 2007 to hedge the impact of the convertible debt (see above), which had an immaterial impact on our consolidated financial statements.

The 1.125% Notes will have no impact on our diluted net income per share until the price of our common stock exceeds the conversion price of \$15.379 per share because the principal amount of the 1.125% Notes will be settled in cash upon conversion. Prior to conversion we will include the effect of the additional shares that may be issued if our common stock price exceeds \$15.379 per share using the treasury stock method. For the first \$1.00 by which the price of our common stock exceeds \$15.379 per share there would be dilution of approximately 558,000 shares. Further increases in the share price would result in additional dilution at a declining rate, such that a price of \$21.607 per share would result in cumulative dilution of approximately 2,633,000 shares. Should the stock price exceed \$21.607 per share we would also include the dilutive effect of the additional potential shares that may be issued related to the warrants using the treasury stock method. The 1.125% Notes and warrants would have a combined dilutive effect such that, for the first \$1.00 by which the stock price exceeds \$21.607 per share, there would be cumulative dilution of approximately 3,346,000 shares prior to conversion. Further increases in the share price would result in additional dilution at a declining rate.

The call options are not included in the calculation of diluted net income per share because their effect would be anti-dilutive. Upon conversion of the 1.125% Notes the call options will serve to neutralize the dilutive effect of the notes up to a stock price of \$21.607 per share. For the first \$1.00 by which the stock price exceeds \$21.607 per share the call options would reduce the cumulative dilution of approximately 3,346,000 shares in the example above to approximately 425,000 shares.

The preceding calculations assume that the average price of our common stock exceeds the respective conversion prices during the period for which diluted net income per share is calculated and exclude any potential adjustments to the conversion ratio provided under the terms of the 1.125% Notes. The calculations include the impact of our

repurchases of a portion of the 1.125% Notes discussed above.

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

Inasmuch as our 1.125% Notes are cash-settled convertible securities, they are separated into their debt and equity components (see “NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES; Senior Convertible Notes” above). Upon maturity of the 1.125% Notes we will be obligated to repay to holders of the notes the principal value of the notes outstanding as of January 28, 2012 less the principal value of any additional notes that we repurchase prior to maturity.

The principal value, unamortized discount, and net carrying amount of the liability component and the carrying amount of the equity component of the 1.125% Notes were as follows:

(In thousands)	January 28, 2012	January 29, 2011
Principal amount of 1.125% Senior Convertible Notes	\$140,451	\$140,451
Unamortized discount	(17,690)	(24,679)
Liability component of 1.125% Senior Convertible Notes	\$122,761	\$115,772
Equity component of 1.125% Senior Convertible Notes	\$88,875	\$88,875

The contractual interest expense, amortization of debt discount, and effective interest rate for the 1.125% Notes were as follows:

(Dollars in thousands)	Year Ended January 28, 2012	January 29, 2011	January 30, 2010
Contractual interest expense	\$1,580	\$1,797	\$2,590
Amortization of debt discount	6,989	7,332	9,885
Total interest expense	\$8,569	\$9,129	\$12,475
Effective interest rate	7.4	% 7.4	% 7.4

On July 14, 2011 we entered into an amended and restated loan and security agreement (the “Amended Agreement”) for a \$200,000,000 senior secured revolving credit facility (the “Amended Facility”). The Amended Facility replaces our \$225,000,000 senior secured revolving credit facility and provides for committed revolving credit availability through July 14, 2016. The amount of credit available from time to time under the Amended Facility is determined as a percentage of the value of eligible inventory, accounts receivable, and cash, as reduced by certain reserves (the “Borrowing Base.”). In addition, the Amended Agreement includes an option allowing us to increase our credit facility to an amount not in excess of \$300,000,000, based on certain terms and conditions. The Amended Facility may be used for working capital and other general corporate purposes, and provides that up to \$100,000,000 of the \$200,000,000 may be used for letters of credit.

The Amended Agreement provides for borrowings under either “Base Rate” loans or “Eurodollar Rate” loans. Borrowings under Base Rate loans are variable and will generally accrue interest at a margin ranging from 1.0% to 1.5% over the Base Rate (as defined in the Agreement). Eurodollar Rate loans will generally accrue interest at a margin ranging from 2.0% to 2.5% over the London Interbank Offered Rate (“LIBOR”) as adjusted for reserves. The applicable margin will be adjusted each fiscal month based on our Monthly Average Liquidity (as defined in the Amended Agreement) for the preceding month. We are also required to pay a monthly unused line fee ranging from 0.375% to 0.5% of the amount by which the maximum credit available under the Amended Facility exceeds the average daily principal balance of any outstanding revolving loans and letters of credit. As of January 28, 2012 the applicable rates under the

facility were 4.25% (Base Rate plus 1%) for Base Rate Loans and 2.27% (LIBOR plus 2%) for Eurodollar Rate Loans.

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

The Amended Agreement provides for customary representations and warranties and affirmative covenants. The Amended Agreement also contains customary negative covenants providing limitations, subject to negotiated exceptions, for sales of assets; encumbrances; indebtedness; loans, advances and investments; acquisitions; guarantees; new subsidiaries; dividends and redemptions; transactions with affiliates; changes in business; certain actions affecting subsidiaries; credit card agreements; private-label credit cards; and changes in control of certain of our subsidiaries. At all times we are required to maintain Excess Availability (as defined in the Amended Agreement) of at least the greater of 10% of the Borrowing Base or \$15,000,000. The Amended Agreement also provides for certain rights and remedies if there is an occurrence of one or more events of default under the terms of the Amended Agreement. Under certain conditions the maximum amount available under the Amended Agreement may be reduced or terminated by the lenders and the obligation to repay amounts outstanding under the Amended Agreement may be accelerated.

In connection with the Amended Agreement we executed an Amended and Restated Guarantee (the "Amended Guarantee"). Pursuant to the Amended Guarantee, we and most of our subsidiaries jointly and severally guaranteed the borrowings and obligations under the Amended Agreement, subject to standard insolvency limitations. In accordance with the Amended Guarantee, collateral for the borrowings under the Amended Agreement consists of pledges by us and certain of our subsidiaries of the capital stock of each such entity's subsidiaries. The Amended Agreement also provides for a security interest in substantially all of our assets excluding, among other things, equipment, real property, and stock or other equity and assets of excluded subsidiaries. Excluded subsidiaries are not Guarantors under the Amended Agreement and the Amended Guarantee.

As of January 28, 2012 we had an aggregate total of \$3,916,000 of unamortized deferred debt acquisition costs related to the facility that will be amortized on a straight-line basis over the life of the Amended Facility as interest expense. There were no borrowings outstanding under the facility as of January 28, 2012.

During Fiscal 2011 we acquired \$2,883,000 of technology equipment under capital leases. Our capital leases generally have initial terms of 60 months and contain a bargain purchase option. As of January 28, 2012 the imputed interest rate on our outstanding capital leases was 6.3%.

Repayment of the 6.07% mortgage note is based on a 15-year amortization schedule, with 119 monthly installments of principal and interest of \$110,000 and a balloon payment of \$5,923,000 in October 2014. The note may be prepaid upon the payment of a premium or, upon certain other events, without the payment of a premium. The note is secured by a mortgage on real property at our distribution center in Greencastle, Indiana and an Assignment of Lease and Rents and Security Agreement related to the Greencastle facility.

The 6.53% mortgage note has a ten-year term with 120 monthly installments of principal of \$117,000 plus interest. The note is secured by a mortgage on land, a building, and certain fixtures we own at our distribution center in White Marsh, Maryland.

The 7.77% mortgage note had a ten-year term with 119 monthly installments of principal and interest of \$103,000 and a balloon payment of \$5,220,000, which we paid in December 2011. The note was secured by a mortgage on land, buildings, and fixtures we own at our offices in Bensalem, Pennsylvania and by leases we owned or rents we received, if any, from tenants of the Bensalem facility.

(1) Includes aggregate imputed interest of \$594.

NOTE 6. STOCKHOLDERS' EQUITY

Our authorized shares consist of:

1,000,000 shares of Series Participating Preferred Stock, \$1.00 par value, of which 500,000 shares of Participating Series A Junior Preferred Stock, \$1.00 par value, have been authorized;
 300,000,000 shares of common stock, \$0.10 par value.

In November 2007 our Board of Directors authorized a \$200,000,000 share repurchase program. We may make share purchases from time to time in the open market or through privately-negotiated transactions and expect to fund the repurchases primarily from operating cash flow. The timing of such repurchases and the number of shares repurchased will depend on market conditions and we intend to hold shares repurchased as treasury shares. This repurchase program has no expiration date. As of January 28, 2012, \$197,365,000 was available for future repurchases under this program.

As of January 28, 2012 we held an aggregate total of 38,617,180 treasury shares with an aggregate cost of \$348,400,000. Our amended and restated loan and security agreement (the "Amended Agreement") allows the repurchase of our common stock subject to maintaining a minimum level of "Excess Availability" (as defined in the Amended Agreement) for the six months preceding the date of such repurchase, as of the date of such repurchase, and on a projected pro forma basis for the 12 consecutive fiscal months thereafter. The Amended Agreement allows common stock repurchases at lower levels of "Excess Availability" subject to maintaining a minimum "Fixed Charge Coverage Ratio" (as defined in the Amended Agreement) on a pro forma basis for the 12 months immediately preceding such repurchase.

NOTE 7. STOCK-BASED COMPENSATION PLANS

2010 Stock Award and Incentive Plan

The 2010 Stock Award and Incentive Plan (the “2010 Plan”) was approved by our Board of Directors and shareholders in Fiscal 2010. The 2010 Plan replaces our 2004 Stock Award and Incentive Plan (the “2004 Plan”) and no new awards will be granted under the 2004 Plan. Shares for equity awards to our non-employee directors under our 2003 Non-Employee Directors Compensation Plan (the “2003 Plan”), including grants of awards in Fiscal 2010, will also be drawn from the 2010 Plan and no further awards will be granted from remaining shares which were reserved under the 2003 Plan. In addition, no further awards will be granted under our 1988 Key Employee Stock Option Plan (the “1988 Plan”). The 2004 Plan, 2003 Plan, and 1988 Plan are further described below.

The number of shares reserved for issuance under the 2010 Plan consist of 4,000,000 shares plus (i) 2,414,004 shares remaining available under the 2004 Plan, which have been transferred to the 2010 plan, and (ii) shares subject to outstanding awards under the 2004 Plan and predecessor plans (2000 Associates’ Stock Incentive Plan and 1993 Employees’ Stock Incentive Plan, which are described below, and 1999 Associates’ Stock Incentive Plan) that are canceled, forfeited, or otherwise become available under the share recapture provisions of the 2010 Plan. Unissued shares remaining available under the 2003 Plan and 1988 Plan as of June 24, 2010 were not added to the shares authorized under the 2010 Plan.

The 2010 Plan provides for a broad range of awards, including stock options; stock appreciation rights (“SARs”); restricted stock units (“RSUs”); restricted stock awards (“RSAs”); deferred stock; other stock-based awards; dividend equivalents; performance shares or other stock-based performance awards; cash-based performance awards; and shares issuable in lieu of rights to cash compensation. Stock options include both incentive stock options and non-qualified stock options. Executive officers and other employees of Charming Shoppes, Inc. and its subsidiaries, non-employee directors, consultants, and others who provide substantial services to us are eligible for awards under the 2010 Plan.

The 2010 Plan includes a limitation on the amount of awards that may be granted to any one participant in a given fiscal year in order to qualify awards as “performance-based” compensation not subject to the limitation on deductibility under Section 162(m) of the Internal Revenue Code. The 2010 Plan does not allow the amendment or replacement of options or SARs previously granted under the 2010 Plan in a transaction that constitutes a “re-pricing” under generally accepted accounting principles without shareholder approval and does not authorize loans to participants.

Additional information related to the 2010 Plan is as follows:

	Year Ended	
	January 28, 2012	January 29, 2011
RSUs granted	657,691	324,206
Weighted average market price at date of grant	\$3.89	\$4.76
Shares issued under RSUs	304,926	—
Cancellations of RSUs	34,250	—
RSUs outstanding at end of period	642,721	324,206
SARs exercisable at year-end	39,159	—

2004 Stock Award and Incentive Plan

The 2004 Plan replaced our 2000 Associates' Stock Incentive Plan (the "2000 Plan") and our 1993 Employees' Stock Incentive Plan (the "1993 Plan"), which are described below, and our 1999 Associates' Stock Incentive Plan. In 2009 our shareholders re-approved the material terms of the performance goals under the 2004 Plan in order to preserve our Federal income tax deduction for performance-based awards under the plan. As a result of the adoption of our 2010 Plan (described above), no further awards will be granted under the 2004 Plan. The plan was administered by our Board of Directors and its Compensation Committee.

The 2004 Plan provided for the grant of options (including both incentive and non-qualified stock options), RSAs, SARs, RSUs, and a variety of other types of awards. Awards representing an aggregate of up to 6,500,000 shares of our common stock, together with shares remaining available under the 1993 Plan and shares recaptured from outstanding awards under the 1993 Plan, 1999 Plan, and 2000 Plan, could be issued under this plan. Of the aggregate shares available, up to 2,000,000 shares could be issued in connection with "full-value" awards (equity awards for which a participant does not pay at least the grant-date fair market value of the award, such as RSAs or RSUs). Additional shares could be used for full-value awards by reducing the number of shares that remained available for options, SARs, and other non-full-value awards by three shares for each share to be used for full-value awards in excess of the 2,000,000 share limit.

The aggregate number of shares subject to awards granted under the 2004 Plan in any fiscal year could not exceed 2% of our common stock on a fully diluted basis as of the last day of the preceding fiscal year. The 2004 Plan prohibits the amendment or replacement of options or SARs granted under the plan in a transaction that constitutes a "re-pricing" under generally accepted accounting principles without shareholder approval.

Additional information related to our 2004 Plan is as follows:

	Year Ended		
	January 28, 2012	January 29, 2011	January 30, 2010
RSUs granted	—	300,417	—
Weighted average market price at date of grant	\$—	\$5.15	\$—
Shares issued under RSAs/RSUs	281,282	256,485	253,671
Cancellations of RSAs/RSUs	56,656	63,396	258,761
RSAs/RSUs outstanding at year-end	354,863	692,801	712,265
SARs exercisable at year-end	1,160,423	911,660	314,919

2003 Non-Employee Directors Compensation Plan

Directors who are not employed by our company are eligible to participate in the 2003 Plan. Our Board of Directors administers the plan and approves the form and amount of awards under the plan. This plan provided for the grant of

stock options, SARs, RSAs, RSUs, or deferred shares of up to an aggregate total of 600,000 shares of our common stock. No more than 50% of the shares reserved for issuance under the plan could be issued as restricted stock awards or RSUs. As a result of the adoption of the 2010 Plan (see above), shares for equity awards to our non-employee directors under the 2003 Plan, including grants of awards in Fiscal 2010, will also be drawn from the 2010 Plan and no further awards will be granted from remaining shares which were reserved under the 2003 Plan. The 2003 Plan is a sub-plan under the 2010 Plan and represents the policy-governing directors' compensation, which is subject to modification or replacement from time to time by the Board of Directors.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEAR ENDED JANUARY 28, 2012
 (Continued)

Under the 2003 Plan annual RSUs for a number of shares equivalent to \$135,000 of aggregate market value on the date of grant were granted to each non-employee director serving at the date of our Annual Meeting of Shareholders. On January 18, 2012 our Board of Directors amended the 2003 Plan to provide that the automatic annual grant of RSUs to non-employee directors will take place on June 1 each year rather than at the date of the Annual Meeting of Shareholders. The RSUs continue to vest in one year on June 1 as is currently the practice. Each RSU represents a right to receive one share of common stock or cash of equal value, at the company's option, at the date of vesting or, if deferred by the director, at a later date after termination of service. Non-employee directors could also elect to receive deferred shares of common stock of an equivalent market value instead of cash director's fees.

The exercise price of options or SARs granted under the 2003 Plan could not be less than the fair market value of our common stock on the date of grant. The maximum term of options and SARs issued under the plan is ten years. The plan includes a provision that options previously granted under the plan will not be amended or replaced in a transaction that constitutes a "re-pricing" as defined in the plan without shareholder approval.

Additional information related to our 2003 Plan is as follows:

	Year Ended January 28, 2012	January 29, 2011	January 30, 2010
Shares issued under RSAs/RSUs	—	—	15,334
Options exercisable at year-end	69,000	120,658	263,158

2000 Associates' Stock Incentive Plan

The 2000 Plan provided for the grant of options, SRS, RSAs, deferred stock, or other stock-based awards of up to an aggregate total of 5,000,000 shares of our common stock. The form of the grants, exercise price, and maximum term, where applicable, were at the discretion of our Board of Directors and its Compensation Committee. As a result of our adoption of the 2004 Plan, we no longer issue options or awards under this plan. Additional information related to our 2000 Plan is as follows:

	Year Ended January 28, 2012	January 29, 2011	January 30, 2010
Shares issued under RSAs	—	—	58,560
Options exercisable at year-end	—	214,300	439,060

 (Continued)

1993 Employees' Stock Incentive Plan

The 1993 Plan provided for the grant of options or RSAs for up to an aggregate total of 10,898,726 shares of common stock plus 1,843,258 unissued shares available under our discontinued 1990 Employees' Stock Incentive Plan. The form of the grants and exercise price, where applicable, were at the discretion of our Board of Directors and its Compensation Committee. The maximum term of options issued under the 1993 Plan was ten years. As a result of the adoption of the 2004 Plan, we no longer issue options or RSAs under this plan.

Additional information related to our 1993 Plan is as follows:

	Year Ended January 28, 2012	January 29, 2011	January 30, 2010
Shares issued under RSAs	—	—	73,440
Options exercisable at year-end	—	149,640	280,640

1988 Key Employee Stock Option Plan

Our 1988 Plan provided for the grant of options to our key employees to purchase up to an aggregate total of 3,000,000 shares of our common stock. The exercise price of options granted under this plan was \$1.00 per share. As a result of the adoption of the 2010 Plan we no longer issue options under this plan. Additional information related to our 1988 Plan is as follows:

	Year Ended January 28, 2012	January 29, 2011	January 30, 2010
Options exercisable at year-end	—	5,884	8,504

The shares issued and options granted under the above plans are subject to forfeiture if the employees do not remain employed by us for a specified period of time. Service-based awards issued under the 2010 Plan and 2004 plan generally vest over 4 to 5 years. Under the 2003 Plan, shares issued and options granted are subject to forfeiture if the individual does not remain a Director of the Company for a specified period of time except, under certain circumstances, in the case of retirement or voluntary termination. Options issued under the 1988 Plan are service-based and generally vest over 5 years.

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Life (Years)
Ranges of Exercise Prices			
\$1.00– \$5.00:			
Options/SARs outstanding	5,321,259	\$3.26	5.0
Options/SARs exercisable	1,226,685	2.63	3.9
\$5.01– \$10.00:			
Options/SARs outstanding	755,055	\$5.44	5.0
Options/SARs exercisable	234,061	5.85	4.6
\$10.01– \$11.28:			
Options outstanding	15,000	\$11.28	4.4
Options exercisable	15,000	11.28	4.4

The table below summarizes certain additional information with respect to our options, SARs and awards:

	Year Ended		
(In thousands)	January 28, 2012	January 29, 2011	January 30, 2010
Aggregate intrinsic value of options/SARs outstanding at year-end ⁽¹⁾	\$8,531	\$—	\$20,610
Aggregate intrinsic value of options/SARs exercisable at year-end ⁽¹⁾	2,545	—	—
Aggregate market value of unvested stock awards at year-end	4,938	3,112	4,157
Aggregate intrinsic value of options/SARs exercised during the year ⁽²⁾	2,232	78	65
Aggregate market value of stock awards vested during the year	2,290	1,538	875

(1) Aggregate market value at year-end less aggregate exercise price.

(2) Aggregate market value on date of exercise less aggregate exercise price.

Total stock-based compensation expense was as follows:

	Year Ended		
(In thousands)	January 28, 2012	January 29, 2011	January 30, 2010
Stock-based compensation expense, excluding cash-settled RSUs	\$5,155	\$4,698	\$6,844
Stock-based compensation expense, cash-settled RSUs	—	4	819
Total stock-based compensation expense	\$5,155	\$4,702	\$7,663

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

Total stock-based compensation expense not yet recognized, related to the non-vested portion of SARs and awards outstanding, was \$10,701,000 as of January 28, 2012. The weighted-average period over which we expect to recognize this compensation expense is approximately 3 years.

In applying the Black-Scholes model to determine the fair value of SARs we used the following assumptions: historically estimated stock price volatilities of 81.3% to 94.2%; a dividend yield of 0.0%; an expected life, based on historical experience, of 7.0 years; and risk-free interest rates of 1.38% to 3.6%. For our Employee Stock Purchase Plan we used historically estimated stock price volatilities of 54.2% to 190.2%; a dividend yield of 0.0%; actual life of 3.0 months; and risk-free interest rates of 0.0% to 0.19%.

The weighted average grant date fair values for options and SARs granted, using the Black-Scholes model and assumptions described above, are as follows:

	Year Ended		
	January 28, 2012	January 29, 2011	January 30, 2010
Exercise price equal to market price	\$3.19	\$4.06	\$1.35

Employee Stock Purchase Plan

Our 1994 Employee Stock Purchase Plan permits employees to purchase shares of our common stock during quarterly offering periods at a price equal to 85% of the lower of the stock's market price on the first day of, or the fifth business day after the end of, the offering period. Employees purchase shares through accumulation of payroll deductions of up to 10% of the employee's compensation during each offering period. An aggregate total of 2,000,000 shares are reserved for grant under this plan. Additional information related to our Employee Stock Purchase Plan is as follows:

	Year Ended		
	January 28, 2012	January 29, 2011	January 30, 2010
Shares purchased	156,281	138,415	257,238
Weighted average market price at date of grant	\$3.57	\$4.49	\$2.57

As of January 28, 2012 the following shares were available for future grants under our stock-based compensation plans:

NOTE 8. CUSTOMER LOYALTY CARD PROGRAMS

We offer our customers various loyalty card programs. Customers that join these programs are entitled to various benefits, including discounts on purchases, during the membership period. Customers join some of these programs by paying an annual membership fee. For these programs we recognize revenue as a component of net sales over the life of the membership period based on when the customer earns the benefits and when the fee is no longer refundable. We recognize costs we incur in connection with administering these programs as selling, general, and administrative expenses when incurred.

Our FASHION BUG brand offers a customer loyalty card program that we operate under our FASHION BUG private-label credit card program. Like our other loyalty programs, this program entitles customers to various discounts and other benefits upon payment of an annual membership fee. The program provides customers with the option to cancel their membership within 30 days, entitling them to a full refund of their annual fee. The FASHION BUG brand also offers a loyalty card program that does not charge membership fees.

Our CATHERINES brand offers a loyalty card program that entitles customers to various discounts and other benefits upon payment of an annual membership fee.

Our LANE BRYANT brand offers a loyalty program in connection the LANE BRYANT proprietary credit card. Cardholders earn points for purchases using the credit card, which may be redeemed for merchandise coupons upon the accumulation of a specified number of points. No membership fees are charged in connection with this program.

Additional information with respect to our various loyalty card programs is as follows:

(In thousands)	Year Ended		
	January 28, 2012	January 29, 2011	January 30, 2010
FASHION BUG loyalty card revenues recognized	\$8,570	\$9,187	\$10,772
CATHERINES loyalty card revenues recognized	9,523	9,473	8,882
Accrual at end of year for discounts earned but not yet issued and discounts issued but not yet redeemed	2,618	2,277	3,161

NOTE 9. SALE OF PROPRIETARY CREDIT CARD RECEIVABLES PROGRAMS

In Fiscal 2009 we sold our proprietary credit card receivables programs to World Financial Network Bank (“WFNB”), a subsidiary of Alliance Data Systems Corporation (“Alliance Data”), and entered into ten-year operating agreements (the “operating agreements”) with Alliance Data for the provision of private-label credit card programs for our customers. We received net cash proceeds of \$136,647,000 related to the transaction and recognized one-time net charges as a result of the sale of \$14,237,000, primarily related to reimbursement to Alliance Data for system conversion costs related to assumption of the third-party transitional services, as well as legal and professional services, severance, and retention costs associated with the sale of the programs. Further information regarding our proprietary credit card receivables programs is included in “NOTE 14. ASSET SECURITIZATION” below.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEAR ENDED JANUARY 28, 2012
 (Continued)

The transaction consisted of the sale of our proprietary credit card portfolio, along with certain other assets and liabilities that are required to support these card programs, including our consolidated balance sheet asset “Investment in asset-backed securities.” The components of the investment in asset-backed securities comprising the net sales proceeds were \$51,250,000 of outstanding trust certificates owned by Charming Shoppes Receivables Corp. (“CSRC”), \$60,922,000 of cash account balances in the Charming Shoppes Master Trust (the “Trust”) that had been funded by CSRC, an interest-only strip of \$21,714,000, and other retained interests of \$2,761,000.

Gross proceeds from the transaction were \$166,647,000. Approximately \$22,000,000 of the gross proceeds were paid to a third-party administrative services provider for the programs to fund the early termination of a multi-year service contract and approximately \$8,000,000 of the gross proceeds were paid to Alliance Data to reimburse them for transition services to be provided to them by the third-party service provider. In addition, on the sale date, we surrendered the charter of the Spirit of America National Bank (the “Bank”), our wholly-owned credit card bank, and merged the remaining assets and liabilities of the Bank into another non-banking subsidiary.

We receive ongoing payments from Alliance Data under the operating agreements based on credit sales generated by our private-label credit card customers. These payments are recognized as a reduction of selling, general and administrative expenses, similar to revenues associated with our proprietary credit card receivables program prior to the sale. Alliance Data assumed the servicing obligations for the Trust effective as of the date of sale. Therefore, we have no further obligations with respect to financing our credit card programs. The operating agreements may be terminated early by either party for cause upon the occurrence of certain events as specified in the agreements including, but not limited to: unsatisfactory performance by WFNB under the terms of the agreements; substantial declines in private-label credit card sales volume or substantial closings of sales channels; and events of insolvency or other material defaults.

NOTE 10. IMPAIRMENT OF STORE ASSETS

During Fiscal 2010 we performed an impairment review of long-lived assets and identified 157 stores with asset carrying values in excess of such stores’ respective forecasted undiscounted cash flows. During Fiscal 2009 we performed an impairment review of long-lived assets and identified 89 stores with asset carrying values in excess of such stores’ respective forecasted undiscounted cash flows. Accordingly, we recognized non-cash impairment charges to write down the long-lived assets (primarily leasehold improvements) at these stores to their respective fair values. Due to the nature of the assets being written down (primarily leasehold improvements) and our past history of abandoning such assets, we have determined the fair value of the assets to be minimal.

The non-cash impairment charges recognized in connection with these write-downs were as follows:

	Year Ended		
(in thousands)	January 28, 2012	January 29, 2011	January 30, 2010
Impairment of store assets	\$—	\$17,054	\$15,741

Fiscal 2011 Announcements

Fiscal 2011 Transformational Initiatives

In December 2011 we announced that we are undertaking a comprehensive strategic and financial review of our operations to determine how best to enhance shareholder value. As part of these efforts, we announced plans to divest our FASHION BUG business and focus on the growth of our LANE BRYANT brand. This review is expected to focus on optimizing the use of our cash position to drive the potential of the LANE BRYANT brand, as well as evaluating other alternatives to further enhance shareholder value. A time frame for the divestiture of FASHION BUG or the completion of the strategic review has not yet been determined. During the year ended January 28, 2012 we recognized professional fees and retention costs of \$6,194,000 related to our plans to divest our FASHION BUG

business and to undertake our comprehensive strategic review. The results of operations of our FASHION BUG business are not reported as discontinued operations as the requirements for treating the business as held-for-sale were not met as of January 28, 2012.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

Fiscal 2011 Store Impairment Charges

During the Fiscal 2011 Third Quarter we performed an impairment review of long-lived assets for FASHION BUG and identified 18 stores with asset carrying values in excess of such stores' respective forecasted undiscounted cash flows. Accordingly, during the year ended January 28, 2012 we recognized non-cash impairment charges of \$654,000 to write down the long-lived assets (primarily leasehold improvements) at these stores to their respective fair values. Due to the nature of the assets being written down and our past history of abandoning such assets, we have determined the fair value of the assets to be minimal.

Fiscal 2011 Closure of Under-performing Stores

During the Fiscal 2011 Fourth Quarter we approved the planned closing of 18 under-performing FASHION BUG stores and closed all of these under-performing stores by the end of the Fiscal 2011 Fourth Quarter.

Fiscal 2010 Announcements

Fiscal 2010 Closure of Under-performing Stores

During the Fiscal 2010 Fourth Quarter we announced the planned closing of approximately 215 under-performing stores, of which a majority are FASHION BUG stores. We closed 200 of these under-performing stores in Fiscal 2011. Included in the 215 under-performing store closures are 30 CATHERINES stores in outlet locations that did not meet our profitability objectives and therefore will be closed by the end of Fiscal 2012. As a result of the decision to close the CATHERINES stores in outlet locations, we recognized a non-cash impairment charge of \$3,210,000. We expect to incur approximately \$4,200,000 for lease termination and other costs primarily related to the closing of the CATHERINES stores in outlet locations over the next year to complete the above closures.

Fiscal 2010 Departure of Former CEO

As a result of the resignation of our former chief executive officer during the Fiscal 2010 Third Quarter we recognized severance and related costs, including accelerated stock compensation costs, in accordance with the severance agreement. The liability as of January 28, 2012 represents the remaining severance obligation that is scheduled to be paid to him through the end of the Fiscal 2012 Third Quarter.

Fiscal 2009 Announcements

Fiscal 2009 Closure of Under-performing Stores

During the Fiscal 2009 Fourth Quarter we performed an impairment review of long-lived assets and identified 89 stores with asset carrying values in excess of such stores' respective forecasted undiscounted cash flows (see "NOTE 10. IMPAIRMENT OF STORE ASSETS" above). In conjunction with that review we announced a store closing program for approximately 40 – 50 of those impaired stores. As a result of the decision to close these stores we incurred lease termination charges and expect to close approximately 26 stores that remained open as of January 28, 2012 by the end of Fiscal 2012.

Closing of PETITE SOPHISTICATE OUTLET Stores

To further focus on our core brands, we closed our PETITE SOPHISTICATE OUTLET stores during Fiscal 2009 and converted a majority of the space to CATHERINES stores in outlet locations during Fiscal 2010. As a result of the decision to close and convert these stores, we recognized non-cash depreciation, lease termination costs, and other closure costs.

Fiscal 2007 and Fiscal 2008 Announcements

Fiscal 2008 Departure of Former CEO

As a result of the resignation of our former chief executive officer, during Fiscal 2008 we recognized severance and related costs, including accelerated stock compensation costs, in accordance with the employment agreement. The liability for the severance obligation was paid during Fiscal 2009 and Fiscal 2010 in accordance with her separation agreement.

Non-core Misses Apparel Assets

As part of the September 18, 2008 definitive agreement for the sale of the Crosstown Traders apparel catalogs, we retained certain components of the infrastructure of the Crosstown Traders apparel catalogs. Accordingly, we entered into transitional service agreements with an affiliate of Orchard Brands (the purchaser) to provide certain services, including information technology, use of existing facilities, and financial services. Subsequent to the transitional period, which ended during the Fiscal 2009 Third Quarter, we were responsible for the remaining lease liabilities for the retained facilities. Additionally, we recognized non-cash accelerated depreciation related to the retained fixed assets over the transitional services period. We recognized a lease termination liability of approximately \$11,141,000 as a result of the termination of the transitional service agreements when we ceased to use the retained leased facilities. The lease termination liability represents the present value of the remaining lease liability, less estimated sub-lease rental income, discounted using a credit-adjusted risk-free rate, and was initially recorded at fair value using a "Level 3" fair value measurement (based on unobservable inputs that are not corroborated by market data).

Transformational Costs

We began to execute on a multi-year strategy in Fiscal 2008 with the assistance of experienced third-party retail consultants to ensure the viability of the Company and our brands, enhance our competitive position, and to improve our financial results over time. The strategy encompassed refocusing on our core retail brands; simplifying the business by eliminating distractions and divesting non-core assets; substantially reducing operating expenses and streamlining operations; and maintaining and protecting our strong balance sheet and liquidity position.

Shutdown of LANE BRYANT WOMAN Catalog

During Fiscal 2008 we decided to discontinue our LANE BRYANT WOMAN catalog. As a result of this decision we recognized a markdown allowance of \$4,220,000 to properly state inventory at the lower of cost or market. Additionally, we recognized severance and retention costs for the elimination of approximately 100 positions and non-cash accelerated depreciation related to fixed assets that we ceased to use after the closure of the catalog. We completed the shutdown of LANE BRYANT WOMAN catalog during Fiscal 2009.

Fiscal 2008 Elimination of Positions

In Fiscal 2008 we announced a workforce reduction of approximately 225 positions, which represented both terminations and elimination of open positions. Accordingly, we recognized severance costs related to the terminated

employees. We completed the payment of severance for the terminated employees in Fiscal 2009.

Fiscal 2008 Closure of Under-performing Stores

In Fiscal 2008 we announced a store closing program for approximately 100 under-performing stores. As a result of the decision to close these stores we incurred non-cash accelerated depreciation in Fiscal 2009. We completed the under-performing store closing program in Fiscal 2009.

figure Magazine Shutdown Costs

In Fiscal 2008 we decided to shutdown our figure magazine operation. As a result of this decision, we incurred contract termination costs in accordance with the terms of our third-party agreement. We completed the shutdown of the figure magazine in Fiscal 2009.

NOTE 12. EMPLOYEE RETIREMENT BENEFIT PLANS

We provide a comprehensive retirement benefit program for our employees. The program includes a 401(k) employee savings plan under which eligible participating employees may elect to contribute up to 80% of their compensation to an investment trust. The 401(k) plan includes a provision for a matching company contribution. As of the beginning of April 2009 we suspended the existing matching company contribution of 50% of the participant's elective contribution on up to 6% of the participant's compensation. Effective January 2012 we reinstated a matching company contribution of 50% of the participant's elective contribution on up to 2% of the participant's compensation. Participating employees are immediately vested in their own contributions. Full vesting in the matching company contribution occurs on the earlier of the participant's attainment of 5 years of service or upon retirement, death, or disability, as defined in the plan. Company matching contributions are made in cash, and the available trust investment options do not include investment in our own common stock. The program also provides for a noncontributory profit-sharing plan that covers substantially all full-time employees who meet age and service requirements. Contributions to the profit-sharing plan are completely discretionary and are determined by our Board of Directors on an annual basis. There were no contributions to the profit-sharing plan during Fiscal 2011, Fiscal 2010, or Fiscal 2009.

We also provide a non-qualified deferred compensation plan to officers and certain key executives. Under this plan participants may contribute up to 77% of their base compensation and 90% of bonus compensation. This plan includes a provision for matching company contributions. As of the beginning of April 2009 we suspended the existing matching company contribution of 50% of the participant's contribution on up to 6% of the participant's compensation, less any matching contributions made for the participant under our 401(k) plan. Subsequent to April 2009, no matching company contributions have been made to the plan through January 28, 2012.

Through December 31, 2008 we also provided a non-qualified defined contribution supplemental retirement plan for certain management and key executives. Under this plan we contributed amounts to participant accounts based on age and years of plan service, as well as earnings as defined in the plan. We discontinued the plan effective as of December 31, 2008 and ceased making retirement credits to the plan. In addition, we reduced the interest rate to be credited on participants' accounts under the plan to 3.5% and participants' accounts became fully vested. Distribution of participant accounts occur over one-to-three years based on the account balance.

	January 28, 2012	January 29, 2011	January 30, 2010
401(k) plan	\$88	\$0	\$145
Non-qualified deferred compensation plan	253	(138) 248
Non-qualified supplemental retirement plan	0	36	357
Total retirement benefit plans expenses/(income)	\$341	\$(102) \$750

The accrued benefits liabilities for our non-qualified plans were as follows:

(In thousands)	January 28, 2012	January 29, 2011
Non-qualified deferred compensation plan	\$8,911	\$10,279
Non-qualified supplemental retirement plan	—	671
Total accrued non-qualified plan benefits	\$8,911	\$10,950

NOTE 13. NET LOSS PER SHARE

(In thousands, except per share amounts)	Year Ended		
	January 28, 2012	January 29, 2011	January 30, 2010
Basic weighted average common shares outstanding	116,691	115,829	115,626
Dilutive effect of SARs, stock options, and awards	—	(1) —	(1) —
Diluted weighted average common shares and equivalents outstanding	116,691	115,829	115,626
Net loss used to determine basic and diluted net loss per share	\$(2,017) \$(53,982) \$(77,962
SARs and stock options with weighted average exercise price greater than market price, excluded from computation of diluted net loss per share:			
Number of shares	—	(1) —	(1) —
Weighted average exercise price per share	\$—	\$—	\$—

(1) SARs, Stock options, and awards are excluded from the computation of diluted net loss per share as their effect would have been anti-dilutive.

Our 1.125% Notes will not impact our diluted net income per share until the price of our common stock exceeds the conversion price of \$15.379 per share because we expect to settle the principal amount of the 1.125% Notes in cash upon conversion. Our call options are not included in the diluted net income per share calculation as their effect would be anti-dilutive. Should the price of our common stock exceed \$21.607 per share we would also include the dilutive effect of the additional potential shares that may be issued related to the warrants, using the treasury stock method. See “NOTE 5. LONG-TERM DEBT” above for further information regarding our 1.125% Notes, call options, and warrants.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEAR ENDED JANUARY 28, 2012
 (Continued)

Grants of stock awards under our restricted stock award programs generally require continuing employment for a specified period of time as a condition for vesting of the award. Grants that have not vested and are subject to a risk of forfeiture are included in the calculation of diluted net income per share using the treasury stock method if the impact of the award is dilutive. Upon vesting, shares issued under these award programs are included in the calculation of basic net income/(loss) per share.

NOTE 14. ASSET SECURITIZATION

Prior to the sale of our proprietary credit card receivables programs (see "NOTE 9. SALE OF PROPRIETARY CREDIT CARD RECEIVABLES PROGRAMS" above) our FASHION BUG, LANE BRYANT, CATHERINES, and PETITE SOPHISTICATE proprietary credit card receivables were originated by Spirit of America National Bank (the "Bank"), our wholly-owned credit card bank. The Bank transferred its interest in all of the receivables associated with these programs to the Charming Shoppes Master Trust (the "Trust") through Charming Shoppes Receivables Corp., a separate and distinct special-purpose entity.

Prior to the sale of our proprietary credit card receivables programs we accounted for the securitization of our proprietary credit card receivables as follows:

Qualified Special-Purpose Entities ("QSPEs") sold interests in the receivables on a revolving basis for a specified term. At the end of the revolving period, an amortization period began during which the QSPEs made principal payments to the parties that entered into the securitization agreement with the QSPEs. All assets of the QSPEs (including the receivables) were isolated and supported the securities issued by those entities.

We recorded gains or losses on the securitization of our proprietary credit card receivables based on the estimated fair value of the assets retained and liabilities incurred in the sale. Gains represented the present value of the estimated cash flows that we retained over the estimated outstanding period of the receivables. This excess cash flow essentially represented an "interest-only strip" ("I/O strip"), consisting of the present value of the finance charges and late fees in excess of the amounts paid to certificate holders, credit losses, and servicing fees.

We used various valuation assumptions in determining the fair value of our I/O strip. We estimated the values for these assumptions using historical data, the impact of the economic environment on the performance of the receivables sold, and the impact of the potential volatility of the market for similar instruments in assessing the fair value of the retained interests.

In addition, we recognized a servicing liability because the servicing fees we expected to receive from the securitizations did not provide adequate compensation for servicing the receivables. The servicing liability represented the present value of the excess of our cost of servicing over the servicing fees received and was recorded at its estimated fair value. Because quoted market prices were generally not available for the servicing of proprietary credit card portfolios of comparable credit quality, we determined the fair value of the cost of servicing by calculating all costs associated with billing, collecting, maintaining, and providing customer service during the expected life of the securitized credit card receivable balances. We discounted the amount of these costs in excess of the servicing fees over the estimated life of the receivables sold. The discount rate and estimated life assumptions used for the present value calculation of the servicing liability were consistent with those used for the I/O strip.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEAR ENDED JANUARY 28, 2012
 (Continued)

We recognized the following activity related to the I/O strip:

	Year Ended January 30, 2010 ⁽¹⁾
(In thousands)	
Value of the I/O strip at beginning of year	\$19,298
Additions to the I/O strip	19,402
Amortization of the I/O strip	(21,925)
Valuation adjustments	4,939
Sale of asset securitization program	(21,714)
Value of the I/O strip at end of year	\$—
(1) Through October 30, 2009 (the date of sale of the proprietary credit card receivables programs).	

We recognized the following activity related to the servicing liability:

	Year Ended January 30, 2010 ⁽¹⁾
(In thousands)	
Value of the servicing liability at beginning of year	\$3,046
Additions to the servicing liability	2,978
Amortization of the servicing liability	(3,040)
Sale of asset securitization program	(2,984)
Value of the servicing liability at end of year	\$—
(1) Through October 30, 2009 (the date of sale of the proprietary credit card receivables programs).	

We amortized the I/O strip and servicing liability on a straight-line basis over the expected life of the credit card receivables, which was generally less than one year. We estimated the expected life primarily by using the historical average of principal payments as a percent of outstanding trust receivables sold. The amortization of the servicing liability was included in selling, general, and administrative expenses in our consolidated statements of operations and comprehensive income and the value of the servicing liability was included in accrued expenses on our consolidated balance sheets.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

The impact of our securitization activity on our consolidated statements of operations and comprehensive income was as follows (all items are included in selling, general, and administrative expenses):

	Year Ended January 30, 2010 ⁽¹⁾
(In thousands)	
Gain on sale of receivables to the Trust	\$19,402
Amortization of the I/O strip	(21,925)
Valuation adjustments of the I/O strip	4,939
Residual cash flow earned related to I/O interest ⁽²⁾	68,326
Additions to the servicing liability	(2,978)
Amortization of the servicing liability	3,040
Decrease in selling, general, and administrative expenses	\$70,804
(1) Through October 30, 2009 (the date of sale of the proprietary credit card receivables programs).	
(2) Includes servicing fees of \$7,228.	

The cash flow related to our sale of the receivables to the Trust, the activity related to amortization and valuation adjustments to the I/O Strip and servicing liability, and the activity related to the excess spread revenues have been treated as operating cash flows. These activities have been included in net cash provided by operating activities on the consolidated statements of cash flows.

Our sales of certificates issued by the Trust, which have been reported as investing cash flows, were as follows:

	Year Ended January 30, 2010 ⁽¹⁾
(In thousands)	
Sales of certificates issued by the Trust	\$51,400
(1) Through October 30, 2009 (the date of sale of the proprietary credit card receivables programs).	

The following table presents additional information relating to the receivables in our Trust prior to the sale of the credit card portfolio:

	Year Ended January 30, 2010 ⁽¹⁾
(In thousands)	
Proceeds from sales of new receivables to QSPE	\$530,544
Collections reinvested in revolving-period securitizations	674,185
Cash flows received on retained interests	68,326
Servicing fees received	7,228
Net credit losses	37,035
(1)	

Through October 30, 2009 (the date of sale of the proprietary credit card receivables programs).

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

We were the servicer of the receivables transferred to the QSPEs and we received a servicing fee of approximately 2% of the investor interest. We held certificates and retained interests in our securitizations (see below), which were sold to Alliance Data in connection with the sale of our proprietary credit card receivables programs (see “NOTE 9. SALE OF PROPRIETARY CREDIT CARD RECEIVABLES PROGRAMS” above).

The key assumptions used to value our retained interest were as follows:

	October 30, 2009 ⁽¹⁾			
Payment rate	11.2	% -	13.8	%
Residual cash flows discount rate	15.5	% -	16.5	%
Net credit loss percentage	7.3	% -	12.0	%
Average life of receivables sold (years)	0.6	-	0.7	

(1) The date of sale of the proprietary credit card receivables programs.

CSRC and Charming Shoppes Seller, Inc., our consolidated wholly-owned indirect subsidiaries, were separate special-purpose entities (“SPEs”) created for the securitization program. Our investment in asset-backed securities, which were first and foremost available to satisfy the claims of the respective creditors of these separate corporate entities, including certain claims of investors in the QSPEs, consisted of the following:

(In thousands)	October 30, 2009 ⁽¹⁾
Trading securities:	
I/O strip	\$21,714
Retained interest (primarily collateralized cash)	63,683
Available-for-sale securities:	
Ownership interest	51,250
Investment in asset-backed securities	\$136,647

(1) The date of sale of the proprietary credit card receivables programs.

NOTE 15. LEASES

We lease substantially all of our store properties under non-cancelable operating lease agreements. These leases generally have initial periods of 5 to 20 years and contain provisions for co-tenancies, renewal options, additional rents based on a percentage of sales, and payment of real estate taxes and common area charges. We also lease certain other buildings and equipment.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEAR ENDED JANUARY 28, 2012

Our rent expense was as follows:

(In thousands)	Year Ended January 28, 2012	January 29, 2011	January 30, 2010
Minimum rent	\$167,422	\$182,532	\$197,986
Percentage rent	5,181	3,468	3,422
Other occupancy costs ⁽¹⁾	72,850	81,145	91,595
	\$245,453	\$267,145	\$293,003

(1) Primarily real estate taxes and common area maintenance charges.

Minimum annual rent commitments for all non-cancelable leases for the next five fiscal years and thereafter are as follows:

(In thousands)	Year Ended February 2, 2013	February 1, 2014	January 31, 2015	January 30, 2016	January 28, 2017	Thereafter
Minimum annual rent commitments	\$175,576	\$127,244	\$93,421	\$70,760	\$50,851	\$52,595

Deferred rent liabilities related to rent escalations and landlord incentives or allowances included in other non-current liabilities on our consolidated balance sheets were as follows:

(In thousands)	January 28, 2012	January 29, 2011
Deferred rent liabilities	\$84,871	\$99,518

NOTE 16. SEGMENT REPORTING

We operate and report in two segments: Retail Stores and Direct-to-Consumer. We determine our operating segments based on the way our chief operating decision-makers review our results of operations. We consider our retail stores and store-related e-commerce as operating segments that are similar in terms of economic characteristics, production processes, and operations. Accordingly, we have aggregated our retail stores and store-related e-commerce into a single reporting segment (the "Retail Stores" segment). Our catalog and catalog-related e-commerce operations are separately reported under the Direct-to-Consumer segment.

The accounting policies of the segments are generally the same as those described in "NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES" above. Our chief operating decision-makers evaluate the performance of our operating segments based on a measure of their contribution to operations, which consists of net sales less the cost of merchandise sold and certain directly identifiable and allocable operating costs. We do not allocate certain corporate costs, such as shared services, information systems support, and insurance to our Retail Stores or Direct-to-Consumer segments. Operating costs for our Retail Stores segment consist primarily of store selling, buying, occupancy, and warehousing. For our Direct-to-Consumer segment, operating costs consist primarily of catalog development, production, and circulation; e-commerce advertising; warehousing; and order processing.

Table of Contents

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED JANUARY 28, 2012
(Continued)

Corporate and Other net sales consist primarily of revenue related to our figure magazine, which we discontinued during Fiscal 2009. Corporate and Other operating costs include unallocated general and administrative expenses; shared services; insurance; information systems support; corporate depreciation and amortization; corporate occupancy; and other non-routine charges. Operating contribution for the Retail Stores and Direct-to-Consumer segments less Corporate and Other net expenses equals income/(loss) before interest and income taxes.

Operating segment assets are those directly used in, or allocable to, that segment's operations. Operating assets for the Retail Stores segment consist primarily of inventories; the net book value of store facilities; goodwill; and intangible assets. Operating assets for the Direct-to-Consumer segment consist primarily of trade receivables; inventories; deferred advertising costs; the net book value of catalog operating facilities; and intangible assets. Corporate and Other assets include corporate cash and cash equivalents; the net book value of corporate facilities; deferred income taxes; and other corporate long-lived assets.

Selected financial information for our operations by reportable segments and a reconciliation of the information by segment to our consolidated totals is shown in the table on the next page.

YEAR ENDED JANUARY 28, 2012
(Continued)

NOTE 17. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts and estimated fair values of our financial instruments are as follows:

(In thousands)	January 28, 2012		January 29, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets:				
Cash and cash equivalents	\$ 168,607	\$ 168,607	\$ 117,482	\$ 117,482
Liabilities:				
1.125% Senior Convertible Notes, due May 1, 2014	122,761	(1) 127,810	115,772	(1) 118,681
6.07% mortgage note, due October 11, 2014	8,248	8,119	9,035	8,887
6.53% mortgage note, due November 1, 2012	1,050	1,050	2,450	2,451
7.77% mortgage note, due December 1, 2011	—	—	5,793	5,921

(1) Net of unamortized discount of \$17,690 at January 28, 2012 and \$24,679 at January 29, 2011 (see “NOTE 5. LONG-TERM DEBT” above).

The fair value of cash and cash equivalents approximates their carrying amount because of the short maturities of such instruments. The fair value of the 1.125% Senior Convertible Notes is based on quoted market prices for the securities. The fair values of the mortgage notes are based on estimated current interest rates that we could obtain on similar borrowings.

NOTE 18. GAIN FROM SALE OF OFFICE PREMISES

During Fiscal 2011 we sold office premises in Hong Kong, which served as the home office for our international sourcing operations, for gross proceeds of \$7,512,000 and recognized a gain on the sale of \$5,185,000. Our international sourcing operations now utilize leased space in Hong Kong.

NOTE 19. QUARTERLY FINANCIAL INFORMATION (Unaudited)

(In thousands, except per share amounts)	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Fiscal Year Ended January 28, 2012				
Net sales	\$ 504,353	\$ 499,202	\$ 429,711	\$ 559,105
Gross profit	285,321	245,906	232,814	235,093
Net income/(loss) ⁽¹⁾	26,038	(1,911)	(12,990)	(13,154)

Item 9. Changes In and Disagreements With Accountants on Accounting and Financial Disclosure

Not applicable.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports we file under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), as appropriate and in such a manner as to allow timely decisions regarding required disclosure. Our Disclosure Committee, which is made up of several key management employees and reports directly to the CEO and CFO, assists our management, including our CEO and CFO, in fulfilling their responsibilities for establishing and maintaining such controls and procedures and providing accurate, timely, and complete disclosure.

As of the end of the period covered by this report on Form 10-K (the "Evaluation Date"), our Disclosure Committee, under the supervision and with the participation of management, including our CEO and CFO, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our management, including our CEO and CFO, has concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective.

Evaluation of Internal Control Over Financial Reporting

The following reports as of January 28, 2012 appear in this Report on Form 10-K on the pages indicated, and are incorporated herein by reference:

Table of Contents

PART III

Item 10. Directors, Executive Officers, and Corporate Governance

Information regarding our directors, executive officers, and corporate governance, including Section 16(A) beneficial ownership reporting compliance, will be included in our Report on Form 10-K/A that will be filed with the Securities and Exchange Commission within 120 days of the end of the fiscal year covered by this Report, which is incorporated herein by reference. Information regarding Executive Officers is also included under “Additional Part I Information – Executive Officers of the Registrant,” in Part I of this Report.

We have adopted the Charming Shoppes, Inc. Complete Business Ethics and Standards of Conduct Policy (the “Policy”) that applies to all of our directors, officers, and associates, including our principal executive officer, principal financial officer, and principal accounting officer. The Policy has been filed as Exhibit 14 to this report on Form 10-K. We have also adopted the Charming Shoppes, Inc. Complete Principles of Corporate Governance (the “Principles”) and charters (the “Charters”) for the audit committee, the compensation committee, and the corporate governance and nominating committee of our Board of Directors. The Policy, Principles, and Charters are available on our internet website, www.charmingshoppes.com, in the “About Us” section, under “Corporate Governance”. A copy of the Policy, Principles, and Charters are also available, at no charge, upon written request to Charming Shoppes, Inc., Attn. Director of Investor Relations, 3750 State Road, Bensalem, PA, 19020.

Our Board of Directors has sole authority for making any amendments to, or granting waivers from, any provision of the Policy that affects our executive officers or directors, including our principal executive officer, principal financial officer, or principal accounting officer. We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding any such amendment or waiver by disclosing the nature of such amendment or waiver in a report on Form 8-K within four business days.

Item 11. Executive Compensation

Information regarding executive compensation will be included in our Report on Form 10-K/A that will be filed with the Securities and Exchange Commission within 120 days of the end of the fiscal year covered by this Report, which is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Information regarding the security ownership of certain beneficial owners and management and securities authorized for issuance under equity compensation plans will be included in our Report on Form 10-K/A that will be filed with the Securities and Exchange Commission within 120 days of the end of the fiscal year covered by this Report, which is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Information regarding certain relationships and director independence will be included in our Report on Form 10-K/A that will be filed with the Securities and Exchange Commission within 120 days of the end of the fiscal year covered by this Report, which is incorporated herein by reference.

Item 14. Principal Accountant Fees and Services

Information regarding principal accountant fees and services will be included in our Report on Form 10-K/A that will be filed with the Securities and Exchange Commission within 120 days of the end of the fiscal year covered by this Report, which is incorporated herein by reference.
