ITEM 7.01. Regulation FD Disclosure

Subsequent to December 31, 2017, the Company has realigned its operating segments by moving to a global service line reporting structure consisting of Crawford Claim Solutions, Crawford TPA Solutions: Broadspire, and Crawford Specialty Solutions. The Company's revised operating segments are comprised of the following:

Crawford Claims Solutions, which services the global property and casualty market. This is comprised of Claims Field Operations, WeGoLook and Catastrophe Services service lines previously reported within the U.S. Services and International segments.

Crawford TPA Solutions: Broadspire, which provides third party administration for workers' compensation, auto and liability, disability absence management, medical management, and accident and health to corporations, brokers and insurers worldwide. This is comprised of the previously reported Broadspire segment and third party administration services within the International segment.

Crawford Specialty Solutions, which consists of Global Technical Services, Contractor Connection, and Garden City Group service lines. This is comprised of the previously reported Garden City Group segment and the Global Technical Services and Contractor Connection service lines within U.S. Services and International segments.

Our discussion and analysis of segment operating expenses is comprised of two components: "Direct Compensation, Fringe Benefits & Non-Employee Labor" and "Expenses Other Than Direct Compensation, Fringe Benefits & Non-Employee Labor."

"Direct Compensation, Fringe Benefits & Non-Employee Labor" includes direct compensation, payroll taxes, and benefits provided to the employees of each segment, as well as payments to outsourced service providers that augment our staff in each segment. As a service company, these costs represent our most significant and variable operating expenses. As part of our segment realignment, costs of all administrative functions are managed centrally, including certain administrative functions whose costs were previously recorded within operating segments. Previously, direct compensation, payroll taxes, and benefits for certain of these functions were recorded as "Direct Compensation, Fringe Benefits & Non-Employee Labor" within our segment results. In the new structure, these administrative costs are considered indirect costs and are allocated to each segment based on usage and reflected within "Expenses Other Than Direct Compensation, Fringe Benefits & Non-Employee Labor" of each operating segment. In addition to allocated corporate and shared costs, "Expenses Other Than Direct Compensation, Fringe Benefits & Non-Employee Labor" includes travel and entertainment, office rent and occupancy costs, automobile expenses, office operating expenses, data processing costs, cost of risk, professional fees, and amortization and depreciation expense other than amortization of customer-relationship intangible assets.

The Company's financial statements for the succeeding interim and annual periods will disclose the operating segments under the new basis with prior periods restated to reflect the change. Attached hereto as Exhibit 99.1 and incorporated herein by this reference are the historical results of operations for each quarter of 2016 and 2017 revised to conform to the current presentation of the Company's reportable segments.
