QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2015  
OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_  
Commission File Number 1-3876

---

HOLLYFRONTIER CORPORATION  
(Exact name of registrant as specified in its charter)

---

Delaware 75-1056913  
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

2828 N. Harwood, Suite 1300 75201  
Dallas, Texas (Zip Code)  
(Address of principal executive offices)  
(214) 871-3555  
(Registrant’s telephone number, including area code)

---

(Former name, former address and former fiscal year, if changed since last report)

---

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Edgar Filing: HollyFrontier Corp - Form 10-Q

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company   
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

182,905,387 shares of Common Stock, par value \$.01 per share, were outstanding on October 30, 2015.

FORWARD-LOOKING STATEMENTS

References herein to HollyFrontier Corporation (“HollyFrontier”) include HollyFrontier and its consolidated subsidiaries. In accordance with the Securities and Exchange Commission’s (“SEC”) “Plain English” guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In this document, the words “we,” “our,” “ours” and “us” refer only to HollyFrontier and its consolidated subsidiaries or to HollyFrontier or an individual subsidiary and not to any other person with certain exceptions. Generally, the words “we,” “our,” “ours” and “us” include Holly Energy Partners, L.P. (“HEP”) and its subsidiaries as consolidated subsidiaries of HollyFrontier, unless when used in disclosures of transactions or obligations between HEP and HollyFrontier or its other subsidiaries. This document contains certain disclosures of agreements that are specific to HEP and its consolidated subsidiaries and do not necessarily represent obligations of HollyFrontier. When used in descriptions of agreements and transactions, “HEP” refers to HEP and its consolidated subsidiaries.

This Quarterly Report on Form 10-Q contains certain “forward-looking statements” within the meaning of the federal securities laws. All statements, other than statements of historical fact included in this Form 10-Q, including, but not limited to, those under “Results of Operations,” “Liquidity and Capital Resources” and “Risk Management” in Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and those in Part II, Item 1 “Legal Proceedings” are forward-looking statements. Forward-looking statements use words such as “anticipate,” “project,” “expect,” “plan,” “goal,” “forecast,” “intend,” “should,” “would,” “could,” “believe,” “may,” and similar expressions and state regarding our plans and objectives for future operations. These statements are based on management’s beliefs and assumptions using currently available information and expectations as of the date hereof, are not guarantees of future performance and involve certain risks and uncertainties. All statements concerning our expectations for future results of operations are based on forecasts for our existing operations and do not include the potential impact of any future acquisitions. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we cannot assure you that our expectations will prove to be correct. Therefore, actual outcomes and results could materially differ from what is expressed, implied or forecast in these statements. Any differences could be caused by a number of factors including, but not limited to:

- risks and uncertainties with respect to the actions of actual or potential competitive suppliers of refined petroleum products in our markets;
- the demand for and supply of crude oil and refined products;
- the spread between market prices for refined products and market prices for crude oil;
- the possibility of constraints on the transportation of refined products;
  - the possibility of inefficiencies, curtailments or shutdowns in refinery operations or pipelines;
- effects of governmental and environmental regulations and policies;
- the availability and cost of our financing;
- the effectiveness of our capital investments and marketing strategies;
- our efficiency in carrying out construction projects;
- our ability to acquire refined product operations or pipeline and terminal operations on acceptable terms and to integrate any existing or future acquired operations;
- the possibility of terrorist attacks and the consequences of any such attacks;
- general economic conditions; and
- other financial, operational and legal risks and uncertainties detailed from time to time in our SEC filings.

Cautionary statements identifying important factors that could cause actual results to differ materially from our expectations are set forth in this Form 10-Q, including without limitation, the forward-looking statements that are referred to above. This summary discussion should be read in conjunction with the discussion of the known material risk factors and other cautionary statements under the heading “Risk Factors” included in Item 1A of our Annual Report

Edgar Filing: HollyFrontier Corp - Form 10-Q

on Form 10-K for the year ended December 31, 2014 and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2015 and in conjunction with the discussion in this Form 10-Q in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” under the heading “Liquidity and Capital Resources.” All forward-looking statements included in this Form 10-Q and all subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. The forward-looking statements speak only as of the date made and, other than as required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Content

PART I. FINANCIAL INFORMATION

DEFINITIONS

Within this report, the following terms have these specific meanings:

“BPD” means the number of barrels per calendar day of crude oil or petroleum products.

“BPSD” means the number of barrels per stream day (barrels of capacity in a 24 hour period) of crude oil or petroleum products.

“Biodiesel” means a clean alternative fuel produced from renewable biological resources.

“Black wax crude oil” is a low sulfur, low gravity crude oil produced in the Uintah Basin in Eastern Utah that has certain characteristics that require specific facilities to transport, store and refine into transportation fuels.

“Cracking” means the process of breaking down larger, heavier and more complex hydrocarbon molecules into simpler and lighter molecules.

“Crude oil distillation” means the process of distilling vapor from liquid crudes, usually by heating, and condensing the vapor slightly above atmospheric pressure turning it back to liquid in order to purify, fractionate or form the desired products.

“Ethanol” means a high octane gasoline blend stock that is used to make various grades of gasoline.

“FCC,” or fluid catalytic cracking, means a refinery process that breaks down large complex hydrocarbon molecules into smaller more useful ones using a circulating bed of catalyst at relatively high temperatures.

“Hydrodesulfurization” means to remove sulfur and nitrogen compounds from oil or gas in the presence of hydrogen and a catalyst at relatively high temperatures.

“Hydrogen plant” means a refinery unit that converts natural gas and steam to high purity hydrogen, which is then used in the hydrodesulfurization, hydrocracking and isomerization processes.

“Isomerization” means a refinery process for rearranging the structure of C5/C6 molecules without changing their size or chemical composition and is used to improve the octane of C5/C6 gasoline blendstocks.

“LPG” means liquid petroleum gases.

“Lubricant” or “lube” means a solvent neutral paraffinic product used in commercial heavy duty engine oils, passenger car oils and specialty products for industrial applications such as heat transfer, metalworking, rubber and other general process oil.

“MSAT2” means Control of Hazardous Air Pollutants from Mobile Sources, a rule issued by the U.S. Environmental Protection Agency to reduce hazardous emissions from motor vehicles and motor vehicle fuels.

“MMBTU” means one million British thermal units.

## Edgar Filing: HollyFrontier Corp - Form 10-Q

“Refinery gross margin” means the difference between average net sales price and average product costs per produced barrel of refined products sold. This does not include the associated depreciation and amortization costs.

“Sour crude oil” means crude oil containing quantities of sulfur greater than 0.4 percent by weight, while “sweet crude oil” means crude oil containing quantities of sulfur equal to or less than 0.4 percent by weight.

“Vacuum distillation” means the process of distilling vapor from liquid crudes, usually by heating, and condensing the vapor below atmospheric pressure turning it back to a liquid in order to purify, fractionate or form the desired products.

“WCS” means Western Canada Select crude oil and is made up of Canadian heavy conventional and bitumen crude oils blended with sweet synthetic and condensate diluents.

“WTI” means West Texas Intermediate and is a grade of crude oil used as a common benchmark in oil pricing. WTI is a sweet crude oil and has a relatively low density.

“WTS” means West Texas Sour, a medium sour crude oil.

HOLLYFRONTIER CORPORATION  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

NOTE 1: Description of Business and Presentation of Financial Statements

References herein to HollyFrontier Corporation (“HollyFrontier”) include HollyFrontier and its consolidated subsidiaries. In accordance with the Securities and Exchange Commission’s (“SEC”) “Plain English” guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In these financial statements, the words “we,” “our,” “ours” and “us” refer only to HollyFrontier and its consolidated subsidiaries or to HollyFrontier or an individual subsidiary and not to any other person, with certain exceptions. Generally, the words “we,” “our,” “ours” and “us” include Holly Energy Partners, L.P. (“HEP”) and its subsidiaries as consolidated subsidiaries of HollyFrontier, unless when used in disclosures of transactions or obligations between HEP and HollyFrontier or its other subsidiaries. These financial statements contain certain disclosures of agreements that are specific to HEP and its consolidated subsidiaries and do not necessarily represent obligations of HollyFrontier. When used in descriptions of agreements and transactions, “HEP” refers to HEP and its consolidated subsidiaries.

We are principally an independent petroleum refiner that produces high-value light products such as gasoline, diesel fuel, jet fuel, specialty lubricant products, and specialty and modified asphalt. We own and operate petroleum refineries that serve markets throughout the Mid-Continent, Southwest and Rocky Mountain regions of the United States. As of September 30, 2015, we:

owned and operated a petroleum refinery in El Dorado, Kansas (the “El Dorado Refinery”), two refinery facilities located in Tulsa, Oklahoma (collectively, the “Tulsa Refineries”), a refinery in Artesia, New Mexico that is operated in conjunction with crude oil distillation and vacuum distillation and other facilities situated 65 miles away in Lovington, New Mexico (collectively, the “Navajo Refinery”), a refinery located in Cheyenne, Wyoming (the “Cheyenne Refinery”) and a refinery in Woods Cross, Utah (the “Woods Cross Refinery”);

owned and operated NK Asphalt Partners (“NK Asphalt”) which operates various asphalt terminals in Arizona, New Mexico and Oklahoma; and

owned a 39% interest in HEP, a consolidated variable interest entity (“VIE”), which includes our 2% general partner interest. HEP owns and operates logistic assets consisting of petroleum product and crude oil pipelines and terminal, tankage and loading rack facilities that principally support our refining and marketing operations in the Mid-Continent, Southwest and Rocky Mountain regions of the United States and Alon USA, Inc.’s (“Alon”) refinery in Big Spring, Texas. Additionally, HEP owns a 75% interest in UNEV Pipeline, LLC (“UNEV”), which owns a 427-mile, 12-inch refined products pipeline from Salt Lake City, Utah to Las Vegas, Nevada, together with terminal facilities in the Cedar City, Utah and North Las Vegas areas (the “UNEV Pipeline”); a 50% interest in Frontier Pipeline Company, which owns a 289-mile crude oil pipeline from Casper, Wyoming to Frontier Station, Utah (the “Frontier Pipeline”); and a 25% interest in SLC Pipeline LLC (the “SLC Pipeline”), which owns a 95-mile intrastate pipeline system that serves refineries in the Salt Lake City area.

We have prepared these consolidated financial statements without audit. In management’s opinion, these consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of our consolidated financial position as of September 30, 2015, the consolidated results of operations and comprehensive income for the three and nine months ended September 30, 2015 and 2014 and consolidated cash flows for the nine months ended September 30, 2015 and 2014 in accordance with the rules and regulations of the SEC. Although certain notes and other information required by generally accepted accounting principles in the United States (“GAAP”) have been condensed or omitted, we believe that the disclosures in these consolidated financial statements are adequate to make the information presented not misleading. These consolidated financial statements should be read in conjunction with

our Annual Report on Form 10-K for the year ended December 31, 2014 that has been filed with the SEC.

Our results of operations for the nine months ended September 30, 2015 are not necessarily indicative of the results of operations to be realized for the year ending December 31, 2015.

**Accounts Receivable:** Our accounts receivable consist of amounts due from customers that are primarily companies in the petroleum industry. Credit is extended based on our evaluation of the customer's financial condition, and in certain circumstances collateral, such as letters of credit or guarantees, is required. We reserve for doubtful accounts based on our historical loss experience as well as specific accounts identified as high risk, which historically have been minimal. Credit losses are charged to the allowance for doubtful accounts when an account is deemed uncollectible. Our allowance for doubtful accounts was \$2.3 million at September 30, 2015 and \$2.4 million at December 31, 2014.

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

**Inventories:** Inventories are stated at the lower of cost, using the last-in, first-out (“LIFO”) method for crude oil, unfinished and finished refined products and the average cost method for materials and supplies, or market. In periods of rapidly declining prices, LIFO inventories may have to be written down to market value due to the higher costs assigned to LIFO layers in prior periods. In addition, the use of the LIFO inventory method may result in increases or decreases to cost of sales in years that inventory volumes decline as the result of charging cost of sales with LIFO inventory costs generated in prior periods. An actual valuation of inventory under the LIFO method is made at the end of each year based on the inventory levels at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and are subject to the final year-end LIFO inventory valuation.

**Goodwill:** We have goodwill that primarily arose from our merger with Frontier Oil Corporation on July 1, 2011. Goodwill represents the excess of the cost of an acquired entity over the fair value of the assets acquired and liabilities assumed. Goodwill is not subject to amortization and is tested annually or more frequently if events or circumstances indicate the possibility of impairment. As of September 30, 2015, there have been no impairments to goodwill.

We performed our annual goodwill impairment testing as of July 1, 2015, which entailed an assessment of our reporting unit fair values relative to their respective carrying values that were derived using a combination of both income and market approaches. Our income approach utilizes the discounted future expected cash flows. Our market approach, which includes both the guideline public company and guideline transaction methods, utilizes pricing multiples derived from historical market transactions of other like-kind assets. Our discounted cash flows reflect estimates of future cash flows based on both historical and forward crack-spreads, forecasted production levels, operating costs and capital expenditures. Our goodwill is allocated by reporting unit as follows: El Dorado, \$1.7 billion; Cheyenne, \$0.3 billion; and HEP, \$0.3 billion. Based on our testing as of July 1, 2015, the fair value of our Cheyenne reporting unit exceeded its carrying cost by approximately 8%. The fair value of our El Dorado and HEP reporting units substantially exceeded their respective carrying values. As of September 30, 2015, there have been no impairments to goodwill.

Historically, the refining industry has experienced significant fluctuations in operating results over an extended business cycle including changes in prices of crude oil and refined products, changes in operating costs including natural gas and higher costs of complying with government regulations. It is reasonably possible that at some future downturn in refining operations that the goodwill related to our Cheyenne Refinery will be determined to be impaired. Such impairment charges could be material.

#### New Accounting Pronouncements

##### Revenue Recognition

In May 2014, an accounting standard update (ASU 2014-09, “Revenue from Contracts with Customers”) was issued requiring revenue to be recognized when promised goods or services are transferred to customers in an amount that reflects the expected consideration for these goods or services. This standard has an effective date of January 1, 2018, and we are evaluating the impact of this standard.

#### NOTE 2: Holly Energy Partners

HEP, a consolidated VIE, is a publicly held master limited partnership that was formed to acquire, own and operate the petroleum product and crude oil pipeline and terminal, tankage and loading rack facilities that support our refining and marketing operations in the Mid-Continent, Southwest and Rocky Mountain regions of the United States. HEP also owns and operates refined product pipelines and terminals, located primarily in Texas, that serve Alon's refinery in Big Spring, Texas.

As of September 30, 2015, we owned a 39% interest in HEP, including the 2% general partner interest. As the general partner of HEP, we have the sole ability to direct the activities that most significantly impact HEP's financial performance, and therefore we consolidate HEP. See Note 16 for supplemental guarantor/non-guarantor financial information, including HEP balances included in these consolidated financial statements.

Table of Contents

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

HEP has two primary customers (including us) and generates revenues by charging tariffs for transporting petroleum products and crude oil through its pipelines, by charging fees for terminalling refined products and other hydrocarbons, and storing and providing other services at its storage tanks and terminals. Under our long-term transportation agreements with HEP (discussed further below), we accounted for 82% of HEP's total revenues for the nine months ended September 30, 2015. We do not provide financial or equity support through any liquidity arrangements and / or debt guarantees to HEP.

HEP has outstanding debt under a senior secured revolving credit agreement and its senior notes. With the exception of the assets of HEP Logistics Holdings, L.P., one of our wholly-owned subsidiaries and HEP's general partner, HEP's creditors have no recourse to our other assets. Any recourse to HEP's general partner would be limited to the extent of HEP Logistics Holdings, L.P.'s assets, which other than its investment in HEP are not significant. Furthermore, our creditors have no recourse to the assets of HEP and its consolidated subsidiaries. See Note 9 for a description of HEP's debt obligations.

HEP has risk associated with its operations. If a major customer of HEP were to terminate its contracts or fail to meet desired shipping or throughput levels for an extended period of time, revenue would be reduced and HEP could suffer substantial losses to the extent that a new customer is not found. In the event that HEP incurs a loss, our operating results will reflect HEP's loss, net of intercompany eliminations, to the extent of our ownership interest in HEP at that point in time.

Frontier Pipeline Transaction

On August 31, 2015, HEP purchased a 50% interest in Frontier Pipeline Company, owner of the Frontier Pipeline, from an affiliate of Enbridge, Inc. for \$54.6 million. Frontier Pipeline will continue to be operated by an affiliate of Plains All American Pipeline, L.P., which owns the remaining 50% interest. The 289-mile crude oil pipeline, which runs from Casper, Wyoming to Frontier Station, Utah, has a 72,000 barrels per day capacity. The Frontier Pipeline supplies Canadian and Rocky Mountain crudes to Salt Lake City area refiners through a connection to the SLC Pipeline.

El Dorado Asset Transaction

On November 1, 2015, HEP acquired from us newly constructed naphtha fractionation and hydrogen generation units at our El Dorado Refinery for cash consideration of \$62.0 million. In connection with this transaction, we entered into 15-year tolling agreements containing minimum quarterly throughput commitments that provide minimum annualized payments to HEP of \$15.3 million.

Transportation Agreements

HEP serves our refineries under long-term pipeline and terminal, tankage and throughput agreements expiring from 2019 through 2026. Under these agreements, we pay HEP fees to transport, store and throughput volumes of refined product and crude oil on HEP's pipeline and terminal, tankage and loading rack facilities that result in minimum annual payments to HEP including UNEV (a consolidated subsidiary of HEP). Under these agreements, the agreed upon tariff rates are subject to annual tariff rate adjustments on July 1 at a rate based upon the percentage change in Producer Price Index or Federal Energy Regulatory Commission index. As of September 30, 2015, these agreements result in minimum annualized payments to HEP of \$236.6 million.

Our transactions with HEP including fees paid under our transportation agreements with HEP and UNEV are eliminated and have no impact on our consolidated financial statements.

NOTE 3: Financial Instruments

Our financial instruments consist of cash and cash equivalents, investments in marketable securities, accounts receivable, accounts payable, debt and derivative instruments. The carrying amounts of cash and cash equivalents, accounts receivable and accounts payable approximate fair value. HEP's outstanding credit agreement borrowings also approximate fair value as interest rates are reset frequently at current interest rates.

Fair value measurements are derived using inputs (assumptions that market participants would use in pricing an asset or liability, including assumptions about risk). GAAP categorizes inputs used in fair value measurements into three broad levels as follows:

Level 1) Quoted prices in active markets for identical assets or liabilities.

Level 2) Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, similar assets and liabilities in markets that are not active or can be corroborated by observable market data.

Table of Contents

## HOLLYFRONTIER CORPORATION

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

(Level 3) Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes valuation techniques that involve significant unobservable inputs.

The carrying amounts and estimated fair values of investments in marketable securities, derivative instruments and senior notes at September 30, 2015 and December 31, 2014 were as follows:

| Financial Instrument       | Carrying Amount<br>(In thousands) | Fair Value | Fair Value by Input Level |           |         |
|----------------------------|-----------------------------------|------------|---------------------------|-----------|---------|
|                            |                                   |            | Level 1                   | Level 2   | Level 3 |
| September 30, 2015         |                                   |            |                           |           |         |
| Assets:                    |                                   |            |                           |           |         |

## Level 1 Financial Instruments

Our NYMEX futures contracts are exchange traded and are measured and recorded at fair value using quoted market prices, a Level 1 input.

## Level 2 Financial Instruments

Investments in marketable securities and derivative instruments consisting of commodity price swaps, forward sales and purchase contracts and HEP's interest rate swaps are measured and recorded at fair value using Level 2 inputs.

The fair values of the commodity price and interest rate swap contracts are based on the net present value of expected future cash flows related to both variable and fixed rate legs of the respective swap agreements. The measurements are computed using market-based observable inputs, quoted forward commodity prices with respect to our commodity price swaps and the forward London Interbank Offered Rate (“LIBOR”) yield curve with respect to HEP’s interest rate swaps. The fair value of the marketable securities and senior notes is based on values provided by a third-party, which were derived using market quotes for similar type instruments, a Level 2 input.

#### Level 3 Financial Instruments

We at times have forward commodity sales and purchase contracts for which quoted forward market prices are not readily available. The forward rate used to value these forward sales and purchase contracts are derived using a projected forward rate using quoted market rates for similar products, adjusted for regional pricing and grade differentials, a Level 3 input.

## NOTE 4: Earnings Per Share

Basic earnings per share is calculated as net income attributable to HollyFrontier stockholders divided by the average number of shares of common stock outstanding. Diluted earnings per share assumes, when dilutive, the issuance of the net incremental shares from restricted shares and performance share units. The following is a reconciliation of the components of the basic and diluted per share computations for net income attributable to HollyFrontier stockholders:

|                                                                                          | Three Months Ended                    |           | Nine Months Ended |           |
|------------------------------------------------------------------------------------------|---------------------------------------|-----------|-------------------|-----------|
|                                                                                          | September 30,                         |           | September 30,     |           |
|                                                                                          | 2015                                  | 2014      | 2015              | 2014      |
|                                                                                          | (In thousands, except per share data) |           |                   |           |
| Net income attributable to HollyFrontier stockholders                                    | \$196,322                             | \$175,006 | \$784,022         | \$503,496 |

| <sup>(1)</sup> Excludes anti-dilutive restricted and performance share units of:         | 263                                   | 195       | 335               | 214       |

## NOTE 5: Stock-Based Compensation

As of September 30, 2015, we have two principal share-based compensation plans (collectively, the “Long-Term Incentive Compensation Plan”).

The compensation cost charged against income for these plans was \$6.4 million and \$6.0 million for the three months ended September 30, 2015 and 2014, respectively, and \$18.9 million and \$18.2 million for the nine months ended September 30, 2015 and 2014, respectively. Our accounting policy for the recognition of compensation expense for awards with pro-rata vesting is to expense the costs ratably over the vesting periods.

Table of Contents

HOLLYFRONTIER CORPORATION  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited) Continued

Additionally, HEP maintains a share-based compensation plan for Holly Logistic Services, L.L.C.'s non-employee directors and certain executives and employees. Compensation cost attributable to HEP's share-based compensation plan was \$1.3 million and \$0.8 million for the three months ended September 30, 2015 and 2014, respectively, and \$3.0 million and \$2.5 million for the nine months ended September 30, 2015 and 2014, respectively.

**Restricted Stock and Restricted Stock Units**

Under our Long-Term Incentive Compensation Plan, we grant certain officers and other key employees restricted stock and restricted stock unit awards with awards generally vesting over a period of one to three years. Restricted stock award recipients are generally entitled to all the rights of absolute ownership of the restricted shares from the date of grant including the right to vote the shares and to receive dividends. Upon vesting, restrictions on the restricted shares lapse at which time they convert to common shares. In addition, we grant non-employee directors restricted stock unit awards, which typically vest over a period of one year and are payable in stock. The fair value of each restricted stock and restricted stock unit award is measured based on the grant date market price of our common shares and is amortized over the respective vesting period.

A summary of restricted stock and restricted stock unit activity and changes during the nine months ended September 30, 2015 is presented below:

| Restricted Stock and Restricted Stock Units    | Grants  | Weighted<br>Average Grant<br>Date Fair Value | Aggregate<br>Intrinsic Value<br>(\$000) |
|------------------------------------------------|---------|----------------------------------------------|-----------------------------------------|
| Outstanding at January 1, 2015 (non-vested)    | 669,777 | \$44.12                                      |                                         |
| Granted                                        | 12,969  | 40.33                                        |                                         |
| Vesting (transfer/conversion to common stock)  | (8,699  | ) 44.08                                      |                                         |
| Forfeited                                      | (16,166 | ) 43.83                                      |                                         |
| Outstanding at September 30, 2015 (non-vested) | 657,881 | \$44.05                                      | \$31,920                                |

For the nine months ended September 30, 2015, 8,699 restricted stock and restricted stock units vested having a grant date fair value of \$0.4 million. As of September 30, 2015, there was \$9.8 million of total unrecognized compensation cost related to non-vested restricted stock and restricted stock unit grants. That cost is expected to be recognized over a weighted-average period of 1.1 years.

**Performance Share Units**

Under our Long-Term Incentive Compensation Plan, we grant certain officers and other key employees performance share units, which are payable in stock upon meeting certain criteria over the service period, and generally vest over a period of three years. Under the terms of our performance share unit grants, awards are subject to "financial performance" and "market performance" criteria. Financial performance is based on our financial performance compared to a peer group of independent refining companies, while market performance is based on the relative standing of total shareholder return achieved by HollyFrontier compared to peer group companies. The number of shares ultimately issued under these awards can range from zero to 200% of target award amounts. As of September 30, 2015, estimated share payouts for outstanding non-vested performance share unit awards averaged approximately 33% of target amounts.

Edgar Filing: HollyFrontier Corp - Form 10-Q

A summary of performance share unit activity and changes during the nine months ended September 30, 2015 is presented below:

| Performance Share Units                        | Grants  |   |
|------------------------------------------------|---------|---|
| Outstanding at January 1, 2015 (non-vested)    | 725,054 |   |
| Granted                                        | 4,242   |   |
| Forfeited                                      | (27,131 | ) |
| Outstanding at September 30, 2015 (non-vested) | 702,165 |   |

As of September 30, 2015, there was \$12.4 million of total unrecognized compensation cost related to non-vested performance share units having a grant date fair value of \$43.68 per unit. That cost is expected to be recognized over a weighted-average period of 1.3 years.

## NOTE 6: Cash and Cash Equivalents and Investments in Marketable Securities

Our investment portfolio at September 30, 2015 consisted of cash, cash equivalents and investments in marketable securities.

We currently invest in marketable debt securities with the maximum maturity or put date of any individual issue generally not greater than one year from the date of purchase, which are usually held until maturity. All of these instruments are classified as available-for-sale. As a result, they are reported at fair value using quoted market prices. Interest income is recorded as earned. Unrealized gains and losses, net of related income taxes, are reported as a component of accumulated other comprehensive income. Upon sale or maturity, realized gains on our marketable debt securities are recognized as interest income. These gains are computed based on the specific identification of the underlying cost of the securities, net of unrealized gains and losses previously reported in other comprehensive income. Unrealized gains and losses on our available-for-sale securities are due to changes in market prices and are considered temporary.

The following is a summary of our marketable securities:

|                                                  | Amortized<br>Cost<br><br>(In thousands) | Gross<br>Unrealized<br>Gain | Gross<br>Unrealized<br>Loss | Fair Value<br>(Net Carrying<br>Amount) |

(1) Other raw materials and unfinished products include feedstocks and blendstocks, other than crude.

(2) Finished products include gasolines, jet fuels, diesels, lubricants, asphalts, LPG's and residual fuels.

(3) Process chemicals include additives and other chemicals.

Inventories, which are valued at the lower of LIFO cost or market, reflect a valuation reserve of \$480.9 million and \$397.5 million at September 30, 2015 and December 31, 2014, respectively. The December 31, 2014 market reserve of \$397.5 million was reversed due to the sale of inventory quantities that gave rise to the 2014 reserve. A new market reserve of \$480.9 million was established as of September 30, 2015 based on market conditions and prices at that time. The effect of the change in lower of cost or market reserve was a \$225.5 million and \$83.4 million increase to cost of products sold for the three and nine months ended September 30, 2015, respectively.

## NOTE 8: Environmental

Environmental costs are charged to operating expenses if they relate to an existing condition caused by past operations and do not contribute to current or future revenue generation. We have ongoing investigations of environmental matters at various locations as part of our assessment process to determine the amount of environmental obligation we may have, if any, with respect to these matters for which we have recorded the estimated cost of the studies. Liabilities are recorded when site restoration and environmental remediation, cleanup and other obligations are either known or considered probable and can be reasonably estimated. Such estimates are undiscounted and require judgment with respect to costs, time frame and extent of required remedial and cleanup activities and are subject to periodic adjustments based on currently available information. Recoveries of environmental costs through insurance, indemnification arrangements or other sources are included in other assets to the extent such recoveries are considered probable.

We expensed \$3.0 million and zero for the three months ended September 30, 2015 and 2014, respectively, and \$7.6 million and \$1.3 million for the nine months ended September 30, 2015 and 2014, respectively, for environmental remediation obligations. The accrued environmental liability reflected in our consolidated balance sheets was \$103.7 million and \$104.5 million at September 30, 2015 and December 31, 2014, respectively, of which \$84.0 million and \$81.8 million, respectively, were classified as other long-term liabilities. These accruals include remediation and

monitoring costs expected to be incurred over an extended period of time (up to 30 years for certain projects). The amount of our accrued liability could increase in the future when the results of ongoing investigations become known, are considered probable and can be reasonably estimated.

(Unaudited) Continued

NOTE 9: Debt

HollyFrontier Credit Agreement

We have a \$1 billion senior unsecured revolving credit facility maturing in July 2019 (the “HollyFrontier Credit Agreement”), which may be used for revolving credit loans and letters of credit from time to time and is available to fund general corporate purposes. Indebtedness under the HollyFrontier Credit Agreement is recourse to HollyFrontier and guaranteed by certain of our wholly-owned subsidiaries. At September 30, 2015, we were in compliance with all covenants, had no outstanding borrowings and had outstanding letters of credit totaling \$6.0 million under the HollyFrontier Credit Agreement.

HEP Credit Agreement

HEP has an \$850 million senior secured revolving credit facility that matures in November 2018 (the “HEP Credit Agreement”) and is available to fund capital expenditures, investments, acquisitions, distribution payments and working capital and for general partnership purposes. It is also available to fund letters of credit up to a \$50 million sub-limit. At September 30, 2015, HEP was in compliance with all of its covenants, had outstanding borrowings of \$654.0 million and no outstanding letters of credit under the HEP Credit Agreement. In April 2015, HEP amended its credit agreement, increasing the size of the credit facility from \$650 million to \$850 million.

HEP’s obligations under the HEP Credit Agreement are collateralized by substantially all of HEP’s assets. Indebtedness under the HEP Credit Agreement involves recourse to HEP Logistics Holdings, L.P., its general partner, and is guaranteed by HEP’s wholly-owned subsidiaries. Any recourse to the general partner would be limited to the extent of HEP Logistics Holdings, L.P.’s assets, which other than its investment in HEP are not significant. HEP’s creditors have no recourse to our other assets. Furthermore, our creditors have no recourse to the assets of HEP and its consolidated subsidiaries.

HollyFrontier Senior Notes

In June 2015, we redeemed our \$150.0 million aggregate principal amount of 6.875% senior notes maturing November 2018 at a redemption cost of \$155.2 million at which time we recognized a \$1.4 million early extinguishment loss consisting of a \$5.2 million debt redemption premium, net of an unamortized premium of \$3.8 million.

HollyFrontier Financing Obligation

We have a financing obligation that relates to a sale and lease-back of certain crude oil tankage that we sold to an affiliate of Plains All American Pipeline, L.P. (“Plains”) in October 2009 for \$40.0 million. Monthly lease payments are recorded as a reduction in principal over the 15-year lease term ending in 2024.

HEP Senior Notes

HEP’s 6.5% senior notes (\$300 million aggregate principal amount maturing March 2020) (the “HEP Senior Notes”) are unsecured and impose certain restrictive covenants, including limitations on HEP’s ability to incur additional indebtedness, make investments, sell assets, incur certain liens, pay distributions, enter into transactions with affiliates, and enter into mergers. At any time when the HEP Senior Notes are rated investment grade by both Moody’s and Standard & Poor’s and no default or event of default exists, HEP will not be subject to many of the foregoing covenants. Additionally, HEP has certain redemption rights under the HEP Senior Notes.

In March 2014, HEP redeemed its \$150.0 million aggregate principal amount of 8.25% senior notes maturing March 2018 at a redemption cost of \$156.2 million, at which time HEP recognized a \$7.7 million early extinguishment loss consisting of a \$6.2 million debt redemption premium and unamortized discount and financing costs of \$1.5 million. HEP funded the redemption with borrowings under the HEP Credit Agreement.

Indebtedness under the HEP Senior Notes involves recourse to HEP Logistics Holdings, L.P., its general partner, and is guaranteed by HEP's wholly-owned subsidiaries. However, any recourse to the general partner would be limited to the extent of HEP Logistics Holdings, L.P.'s assets, which other than its investment in HEP, are not significant. HEP's creditors have no recourse to our other assets. Furthermore, our creditors have no recourse to the assets of HEP and its consolidated subsidiaries.

We capitalized interest attributable to construction projects of \$0.1 million and \$2.9 million for the three months ended September 30, 2015 and 2014, respectively, and \$5.5 million and \$9.0 million for the nine months ended September 30, 2015 and 2014, respectively.

#### NOTE 10: Derivative Instruments and Hedging Activities

##### Commodity Price Risk Management

Our primary market risk is commodity price risk. We are exposed to market risks related to the volatility in crude oil and refined products, as well as volatility in the price of natural gas used in our refining operations. We periodically enter into derivative contracts in the form of commodity price swaps, forward purchase and sales and futures contracts to mitigate price exposure with respect to:

- our inventory positions;
- natural gas purchases;
- costs of crude oil and related grade differentials;
- prices of refined products; and
- our refining margins.

##### Accounting Hedges

We have swap contracts serving as cash flow hedges against price risk on forecasted purchases of natural gas and WTI crude oil and forecasted sales of refined product. We also have forward sales contracts that lock in the prices of future sales of refined product. These contracts have been designated as accounting hedges and are measured at fair value with offsetting adjustments (gains/losses) recorded directly to other comprehensive income. These fair value adjustments are later reclassified to earnings as the hedging instruments mature. On a quarterly basis, hedge ineffectiveness is measured by comparing the change in fair value of the swap contracts against the expected future cash inflows/outflows on the respective transaction being hedged. Any hedge ineffectiveness is also recognized in earnings.

HOLLYFRONTIER CORPORATION  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited) Continued

In 2013, we dedesignated certain commodity price swaps (long positions) that previously received hedge accounting treatment. These contracts now serve as economic hedges against price risk on forecasted natural gas purchases totaling 21,600,000 MMBTU's to be purchased ratably through 2017. As of September 30, 2015, we have an unrealized loss of \$2.4 million classified in accumulated other comprehensive income that relates to the application of hedge accounting prior to dedesignation that is amortized as a charge to operating expenses as the contracts mature.

**Economic Hedges**

We also have swap contracts that serve as economic hedges (derivatives used for risk management, but not designated as accounting hedges) to fix our purchase price on forecasted purchases of WTI crude oil, and to lock in basis spread differentials on forecasted purchases of crude oil and natural gas. Also, we have NYMEX futures contracts to lock in prices on forecasted purchases of inventory. These contracts are measured at fair value with offsetting adjustments (gains/losses) recorded directly to income.

The following table presents the pre-tax effect on income due to maturities and fair value adjustments of our economic hedges:

| Location of Gain (Loss) Recognized in Income | Three Months Ended<br>September 30, |          | Nine Months Ended<br>September 30, |         |

**Interest Rate Risk Management**

HEP uses interest rate swaps to manage its exposure to interest rate risk.

As of September 30, 2015, HEP had three interest rate swap contracts that hedge its exposure to the cash flow risk caused by the effects of LIBOR changes on \$305.0 million in credit agreement advances. The first interest rate swap effectively converts \$155.0 million of LIBOR based debt to fixed-rate debt having an interest rate of 0.99% plus an applicable margin of 2.00% as of September 30, 2015, which equaled an effective interest rate of 2.99%. This swap matures in February 2016. HEP has two additional interest rate swaps with identical terms which effectively convert \$150.0 million of LIBOR based debt to fixed rate debt having an interest rate of 0.74% plus an applicable margin of 2.00% as of September 30, 2015, which equaled an effective interest rate of 2.74%. Both of these swap contracts mature in July 2017. All of these swap contracts have been designated as cash flow hedges. To date, there has been no ineffectiveness on these cash flow hedges.

HOLLYFRONTIER CORPORATION  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited) Continued

The following table presents the fair value and balance sheet locations of our outstanding derivative instruments. These amounts are presented on a gross basis with offsetting balances that reconcile to a net asset or liability position in our consolidated balance sheets. We present on a net basis to reflect the net settlement of these positions in accordance with provisions of our master netting arrangements.

## HOLLYFRONTIER CORPORATION

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

At September 30, 2015, we had a pre-tax net unrealized loss of \$22.5 million classified in accumulated other comprehensive income that relates to all accounting hedges having contractual maturities through 2017. Assuming commodity prices and interest rates remain unchanged, an unrealized gain of \$0.7 million will be effectively transferred from accumulated other comprehensive income into the statement of income as the hedging instruments contractually mature over the next twelve-month period.

## NOTE 11: Equity

Changes to equity during the nine months ended September 30, 2015 are presented below:

| Balance at September 30, 2015                    | \$5,621,168                                                | \$560,516                  | \$6,181,684     |

(1) Includes 3,030 shares withheld under the terms of stock-based compensation agreements to provide funds for the payment of payroll and income taxes due at the vesting of share-based awards.

In May 2015, our Board of Directors approved a \$1 billion share repurchase program, which replaced all existing share repurchase programs, authorizing us to repurchase common stock in the open market or through privately negotiated transactions. The timing and amount of stock repurchases will depend on market conditions and corporate, regulatory and other relevant considerations. This program may be discontinued at any time by the Board of Directors. As of September 30, 2015, we had remaining authorization to repurchase up to \$559.0 million under this stock repurchase program. In addition, we are authorized by our Board of Directors to repurchase shares in an amount sufficient to offset shares issued under our compensation programs.

During the second quarter of 2015, we entered into an accelerated share repurchase agreement (“ASR”) with a large financial institution to repurchase \$300.0 million of our outstanding common stock. In May 2015 (at inception), we acquired 5.5 million shares, representing 80% of the amount paid based on then-market prices. The ASR was completed in September 2015, at which time we acquired an additional 1.2 million shares upon settlement. The final market purchase price per share averaged \$44.81, which was based on the volume-weighted average market purchase price of our common stock, less a discount, over the term of the ASR.

## NOTE 13: Post-retirement Plans

We have a post-retirement healthcare and other benefits plan that is available to certain of our employees who satisfy certain age and service requirements. The net periodic benefit credit of this plan consisted of the following components:

|                                                 | Three Months Ended |          | Nine Months Ended |            |
|-------------------------------------------------|--------------------|----------|-------------------|------------|
|                                                 | September 30,      |          | September 30,     |            |
|                                                 | 2015               | 2014     | 2015              | 2014       |
|                                                 | (In thousands)     |          |                   |            |
| Service cost – benefit earned during the period | \$424              | \$224    | \$1,272           | \$672      |
| Interest cost on projected benefit obligations  | 205                | 159      | 615               | 478        |
| Amortization of prior service credit            | (871               | ) (1,074 | ) (2,613          | ) (3,222   |
| Amortization of net loss                        | 46                 | —        | 138               | —          |
| Net periodic post-retirement credit             | \$(196             | ) \$(691 | ) \$(588          | ) \$(2,072 |

Additionally, we had a program that provided transition benefit payments to certain employees that participated in a previously terminated defined benefit plan. The program extended through 2014 and provided payments subsequent to year-end provided the employee was employed by us on the last day of each year. The payments are based on each employee's years of service and eligible salary. Transition benefit costs under this program were \$2.6 million for the three months ended September 30, 2014 and \$8.1 million for the nine months ended September 30, 2014. In March 2015, we paid all remaining amounts owed to plan participants of \$11.0 million.

## NOTE 14: Contingencies

We are a party to various litigation and legal proceedings which we believe, based on advice of counsel, will not either individually or in the aggregate have a material adverse effect on our financial condition, results of operations or cash flows.

Pursuant to the 2007 Energy Independence and Security Act, the Environmental Protection Agency (“EPA”) promulgated the Renewable Fuel Standard 2 (“RFS2”) regulations reflecting the increased volume of renewable fuels mandated to be blended into the nation's fuel supply. The regulations, in part, require refiners to add annually increasing amounts of “renewable fuels” to their petroleum products or purchase credits, known as renewable identification numbers (“RINs”), in lieu of such blending. The EPA has not yet finalized the 2014 nor the 2015 percentage standards under its RFS2 program. In May 2015, the EPA revised the estimate of 2014 and 2015 percentage standards under its RFS2 program. Accordingly, in the second quarter of 2015, we recorded a \$4.1 million reduction of amounts accrued through December 2014.

In the third quarter of 2015, the EPA issued a memorandum stating they had made a mistake in their May 2015 estimate that they intend to correct when the 2014 percentage standards are finalized. We recorded a \$5.2 million increase to expense during the three months ended September 30, 2015 based on this memorandum. The estimated quantity of renewable fuels or RINs that we are required to purchase and that have been accrued for as of September 30, 2015 and December 31, 2014, as well as for the nine months and year then ended, are based on quantities proposed by the EPA as revised in May 2015. The EPA has indicated that it expects to finalize the 2014 and

2015 percentage requirements in November 2015 that are expected to reflect increases to the previous provisional amounts. Such amounts are not expected to be material.

## NOTE 15: Segment Information

Our operations are organized into two reportable segments, Refining and HEP. Our operations that are not included in the Refining and HEP segments are included in Corporate and Other. Intersegment transactions are eliminated in our consolidated financial statements and are included in Consolidations and Eliminations.

The Refining segment represents the operations of the El Dorado, Tulsa, Navajo, Cheyenne and Woods Cross Refineries and NK Asphalt (aggregated as a reportable segment). Refining activities involve the purchase and refining of crude oil and wholesale and branded marketing of refined products, such as gasoline, diesel fuel and jet fuel. These petroleum products are primarily marketed in the Mid-Continent, Southwest and Rocky Mountain regions of the United States. Additionally, the Refining segment includes specialty lubricant products produced at our Tulsa Refineries that are marketed throughout North America and are distributed in Central and South America. NK Asphalt operates various asphalt terminals in Arizona, New Mexico and Oklahoma.

The HEP segment includes all of the operations of HEP, which owns and operates logistics assets consisting of petroleum product and crude oil pipelines and terminal, tankage and loading rack facilities in the Mid-Continent, Southwest and Rocky Mountain regions of the United States. The HEP segment also includes a 75% ownership interest in UNEV (a consolidated subsidiary of HEP) and a 50% and 25% ownership interest in the Frontier Pipeline and the SLC Pipeline, respectively. Revenues from the HEP segment are earned through transactions with unaffiliated parties for pipeline transportation, rental and terminalling operations as well as revenues relating to pipeline transportation services provided for our refining operations. Due to certain basis differences, our reported amounts for the HEP segment may not agree to amounts reported in HEP's periodic public filings.

The accounting policies for our segments are the same as those described in the summary of significant accounting policies in our Annual Report on Form 10-K for the year ended December 31, 2014.

HEP segment revenues from external customers were \$14.7 million for both the three months ended September 30, 2015 and 2014, and \$47.4 million and \$40.4 million for the nine months ended September 30, 2015 and 2014, respectively.

**NOTE 16: Supplemental Guarantor/Non-Guarantor Financial Information**

Any borrowings pursuant to the HollyFrontier Credit Agreement are recourse to HollyFrontier and guaranteed by certain of our wholly-owned subsidiaries (“Guarantor Restricted Subsidiaries”). HEP, in which we have a 39% ownership interest at September 30, 2015, and its subsidiaries (collectively, “Non-Guarantor Non-Restricted Subsidiaries”), and certain of our other subsidiaries (“Non-Guarantor Restricted Subsidiaries”) have not guaranteed these obligations.

The following condensed consolidating financial information is provided for HollyFrontier Corporation (the “Parent”), the Guarantor Restricted Subsidiaries, the Non-Guarantor Restricted Subsidiaries and the Non-Guarantor Non-Restricted Subsidiaries. The information has been presented as if the Parent accounted for its ownership in the Guarantor Restricted Subsidiaries, and the Guarantor Restricted Subsidiaries accounted for the ownership of the Non-Guarantor Restricted Subsidiaries and Non-Guarantor Non-Restricted Subsidiaries, using the equity method of accounting. The Guarantor Restricted Subsidiaries and the Non-Guarantor Restricted Subsidiaries are collectively the “Restricted Subsidiaries.”

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Item 2 contains "forward-looking" statements. See "Forward-Looking Statements" at the beginning of Part I of this Quarterly Report on Form 10-Q. References herein to HollyFrontier Corporation ("HollyFrontier") include HollyFrontier and its consolidated subsidiaries. In accordance with the Securities and Exchange Commission's ("SEC") "Plain English" guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In this document, the words "we," "our," "ours" and "us" refer only to HollyFrontier and its consolidated subsidiaries or to HollyFrontier or an individual subsidiary and not to any other person, with certain exceptions. Generally, the words "we," "our," "ours" and "us" include Holly Energy Partners, L.P. ("HEP") and its subsidiaries as consolidated subsidiaries of HollyFrontier, unless when used in disclosures of transactions or obligations between HEP and HollyFrontier or its other subsidiaries. This document contains certain disclosures of agreements that are specific to HEP and its consolidated subsidiaries and do not necessarily represent obligations of HollyFrontier. When used in descriptions of agreements and transactions, "HEP" refers to HEP and its consolidated subsidiaries.

OVERVIEW

We are principally an independent petroleum refiner that produces high-value refined products such as gasoline, diesel fuel, jet fuel, specialty lubricant products, and specialty and modified asphalt. We own and operate refineries having a combined nameplate crude oil processing capacity of 443,000 barrels per day that serve markets throughout the Mid-Continent, Southwest and Rocky Mountain regions of the United States. Our refineries are located in El Dorado, Kansas (the "El Dorado Refinery"), Tulsa, Oklahoma (the, "Tulsa Refineries"), which comprise two production facilities, the Tulsa West and East facilities, a petroleum refinery in Artesia, New Mexico, which operates in conjunction with crude, vacuum distillation and other facilities situated 65 miles away in Lovington, New Mexico (collectively, the "Navajo Refinery"), Cheyenne, Wyoming (the, "Cheyenne Refinery") and Woods Cross, Utah (the "Woods Cross Refinery").

For the three months ended September 30, 2015, net income attributable to HollyFrontier stockholders was \$196.3 million compared to \$175.0 million for the three months ended September 30, 2014. For the nine months ended September 30, 2015, net income attributable to HollyFrontier stockholders was \$784.0 million compared to \$503.5 million for the nine months ended September 30, 2014. Our financial results for the third quarter of 2015 reflect a \$225.5 million (\$146.3 million after-tax) non-cash charge attributable to our third quarter lower of cost or market inventory adjustment. Excluding this inventory valuation charge, after-tax earnings for the three months ended September 30, 2015 was \$342.6 million, or \$1.82 per share.

Overall gross refining margins per produced product sold increased 27% and 21% over the respective three and nine months ended September 30, 2014. For the third quarter, our financial results reflect strong operational reliability across our refining system. We reported a new record quarter in terms of utilization rate, averaging 460,000 BPD of crude. Strong operations, improved realized margins, lower costs and share repurchases drove an 18% increase in earnings per share (over 100% excluding the third quarter lower of cost or market inventory valuation charge) compared to the third quarter of 2014.

OUTLOOK

Our profitability is affected by the spread, or differential, between the market prices for crude oil on the world market (which is based on the price for Brent, North Sea Crude) and the price for inland U.S. crude oil (which is based on the price for WTI). We expect continued volatility in the pricing relationship between inland and coastal crude, which is

currently averaging approximately \$3.00 per barrel.

Pursuant to the 2007 Energy Independence and Security Act, the Environmental Protection Agency (“EPA”) promulgated the Renewable Fuel Standard 2 (“RFS2”) regulations, which increased the volume of renewable fuels mandated to be blended into the nation's fuel supply. The regulations, in part, require refiners to add annually increasing amounts of “renewable fuels” to their petroleum products or purchase credits, known as renewable identification numbers (“RINs”), in lieu of such blending. Our RINs costs are material and represent a cost of products sold. The price of RINs may be extremely volatile due to real or perceived future shortages in RINs. As of September 30, 2015, we are purchasing RINs in order to meet approximately half of our renewable fuel requirements.

A more detailed discussion of our financial and operating results for the three and nine months ended September 30, 2015 and 2014 is presented in the following sections.

Earnings before interest, taxes, depreciation and amortization, which we refer to as “EBITDA”, is calculated as net income plus (i) interest expense, net of interest income, (ii) income tax provision, and (iii) depreciation and amortization. EBITDA is not a calculation provided for under GAAP; however, the amounts included in the EBITDA calculation are derived from amounts included in our consolidated financial statements. EBITDA should not be considered as an alternative to net income or operating income as an indication of our operating (1) performance or as an alternative to operating cash flow as a measure of liquidity. EBITDA is not necessarily comparable to similarly titled measures of other companies. EBITDA is presented here because it is a widely used financial indicator used by investors and analysts to measure performance. EBITDA is also used by our management for internal analysis and as a basis for financial covenants. EBITDA presented above is reconciled to net income under “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q.

Our operations are organized into two reportable segments, Refining and HEP. See Note 15 “Segment Information” in the Notes to Consolidated Financial Statements for additional information on our reportable segments.

## Refining Operating Data (Unaudited)

Our refinery operations include the El Dorado, Tulsa, Navajo, Cheyenne and Woods Cross Refineries. The following tables set forth information, including non-GAAP performance measures, about our consolidated refinery operations. The cost of products and refinery gross and net operating margins do not include the non-cash effects of lower of cost or market inventory valuation adjustments and depreciation and amortization. Reconciliations to amounts reported under GAAP are provided under “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q.

- (1) Crude charge represents the barrels per day of crude oil processed at our refineries.
- (2) Refinery throughput represents the barrels per day of crude and other refinery feedstocks input to the crude units and other conversion units at our refineries.
- (3) Refinery production represents the barrels per day of refined products yielded from processing crude and other refinery feedstocks through the crude units and other conversion units at our refineries.
- (4) Includes refined products purchased for resale.
- (5) Represents crude charge divided by total crude capacity (BPSD). Our consolidated crude capacity is 443,000 BPSD.  
Represents average per barrel amount for produced refined products sold, which is a non-GAAP measure.
- (6) Reconciliations to amounts reported under GAAP are provided under “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q.
- (7) Transportation, terminal and refinery storage costs billed from HEP are included in cost of products.
- (8) Excludes lower of cost or market inventory valuation adjustment of \$225.5 million and \$83.4 million for the three and nine months ended September 30, 2015, respectively.
- (9) Represents operating expenses of our refineries, exclusive of depreciation and amortization.
- (10) Represents refinery operating expenses, exclusive of depreciation and amortization, divided by refinery throughput.

#### Results of Operations – Three Months Ended September 30, 2015 Compared to Three Months Ended September 30, 2014

##### Summary

Net income attributable to HollyFrontier stockholders for the three months ended September 30, 2015 was \$196.3 million (\$1.05 per basic and \$1.04 per diluted share), a \$21.3 million increase compared to \$175.0 million (\$0.88 per basic and diluted share) for the three months ended September 30, 2014. Net income increased due principally to a year-over-year increase in third quarter refining margins, net of a current quarter non-cash lower of cost or market inventory valuation charge of \$146.3 million, net of tax. Refinery gross margins for the three months ended September 30, 2015 increased to \$19.85 per produced barrel from \$15.59 for the three months ended September 30, 2014.

##### Sales and Other Revenues

Sales and other revenues decreased 33% from \$5,317.6 million for the three months ended September 30, 2014 to \$3,585.8 million for the three months ended September 30, 2015 due to a year-over-year decrease in third quarter sales prices, partially offset by higher refined product sales volumes. The average sales price we received per

produced barrel sold was \$114.50 for the three months ended September 30, 2014 compared to \$73.57 for the three months ended September 30, 2015. Sales and other revenues for the three months ended September 30, 2015 and 2014 include \$14.7 million in HEP revenues attributable to pipeline and transportation services provided to unaffiliated parties.

#### Cost of Products Sold

Total cost of products sold decreased 38% from \$4,625.9 million for the three months ended September 30, 2014 to \$2,879.3 million for the three months ended September 30, 2015, due principally to lower crude oil costs, partially offset by higher sales volumes of refined products. Additionally, this decrease is partially offset by a \$225.5 million charge attributable to a new \$480.9 million lower of cost or market reserve at September 30, 2015. The reserve at September 30, 2015 is based on market conditions and prices at that time. Excluding this non-cash adjustment, the average price we paid per barrel for crude oil and feedstocks and the transportation costs of moving finished products to market decreased 46% from \$98.91 for the three months ended September 30, 2014 to \$53.72 for the three months ended September 30, 2015.

## Table of Content

### Gross Refinery Margins

Gross refinery margin per produced barrel increased 27% from \$15.59 for the three months ended September 30, 2014 to \$19.85 for the three months ended September 30, 2015. This was due to the effects of decreased crude oil and feedstock prices, partially offset by a decrease in the average per barrel sales price for refined products sold during the current year quarter. Gross refinery margin does not include the non-cash effects of lower of cost or market inventory valuation adjustments or depreciation and amortization. See “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q for a reconciliation to the income statement of prices of refined products sold and cost of products purchased.

### Operating Expenses

Operating expenses, exclusive of depreciation and amortization, decreased 6% from \$281.0 million for the three months ended September 30, 2014 to \$265.4 million for the three months ended September 30, 2015. This decrease is principally due to lower repair and maintenance costs compared to the same period of 2014.

### General and Administrative Expenses

General and administrative expenses increased 13% from \$27.1 million for the three months ended September 30, 2014 to \$30.7 million for the three months ended September 30, 2015 due principally to higher salary and incentive compensation expense during the current year quarter.

### Depreciation and Amortization Expenses

Depreciation and amortization increased 8% from \$80.9 million for the three months ended September 30, 2014 to \$87.8 million for the three months ended September 30, 2015. This increase was due principally to depreciation and amortization attributable to capitalized improvement projects and capitalized refinery turnaround costs.

### Interest Income

Interest income for the three months ended September 30, 2015 was \$0.7 million compared to \$1.0 million for the three months ended September 30, 2014. This decrease was due to lower investment levels in marketable debt securities during the current year quarter.

### Interest Expense

Interest expense was \$11.1 million for the three months ended September 30, 2015 compared to \$11.0 million for the three months ended September 30, 2014. The slight increase is due to interest attributable to higher HEP debt levels during the current year quarter relative to the same period of 2014. This was partially offset by lower HollyFrontier interest following the June 2015 redemption of the HollyFrontier \$150.0 million 6.875% senior notes. For the three months ended September 30, 2015 and 2014, interest expense included \$9.5 million and \$8.6 million, respectively, in interest costs attributable to limited recourse debt that finances HEP operations.

### Income Taxes

For the three months ended September 30, 2015, we recorded income tax expense of \$110.1 million compared to \$103.2 million for the three months ended September 30, 2014. This increase is due principally to higher pre-tax earnings during the three months ended September 30, 2015 compared to the same period of 2014. Our effective tax rates, before consideration of earnings attributable to the noncontrolling interest, were 34.3% and 35.5% for the three months ended September 30, 2015 and 2014, respectively.

## Results of Operations – Nine Months Ended September 30, 2015 Compared to Nine Months Ended September 30, 2014

## Summary

## Edgar Filing: HollyFrontier Corp - Form 10-Q

Net income attributable to HollyFrontier stockholders for the nine months ended September 30, 2015 was \$784.0 million (\$4.09 per basic and diluted share), a \$280.5 million increase compared to \$503.5 million (\$2.54 per basic and \$2.53 per diluted share) for the nine months ended September 30, 2014. Net income increased due principally to a year-over-year increase in refining margins and sales volumes, partially offset by a lower of cost or market inventory valuation charge of \$54.1 million, net of tax. Refinery gross margins for the nine months ended September 30, 2015 increased to \$18.03 per produced barrel from \$14.95 for the nine months ended September 30, 2014.

## Table of Content

### Sales and Other Revenues

Sales and other revenues decreased 34% from \$15,481.2 million for the nine months ended September 30, 2014 to \$10,294.4 million for the nine months ended September 30, 2015 due to a year-over-year decrease in sales prices, partially offset by higher refined product sales volumes. The average sales price we received per produced barrel sold was \$115.61 for the nine months ended September 30, 2014 compared to \$74.61 for the nine months ended September 30, 2015. Sales and other revenues for the nine months ended September 30, 2015 and 2014 include \$47.4 million and \$40.4 million, respectively, in HEP revenues attributable to pipeline and transportation services provided to unaffiliated parties.

### Cost of Products Sold

Total cost of products sold decreased 41% from \$13,439.4 million for the nine months ended September 30, 2014 to \$7,876.1 million for the nine months ended September 30, 2015, due principally to lower crude oil costs, partially offset by higher sales volumes of refined products. Additionally, this decrease is partially offset by an \$83.4 million charge attributable to a new \$480.9 million lower of cost or market reserve at September 30, 2015 that was partially offset by the reversal of the \$397.5 million lower of cost or market inventory reserve that was established in 2014. The reserve at September 30, 2015 is based on market conditions and prices at that time. Excluding this non-cash adjustment, the average price we paid per barrel for crude oil and feedstocks and the transportation costs of moving the finished products to the marketplace decreased 44% from \$100.66 for the nine months ended September 30, 2014 to \$56.58 for the nine months ended September 30, 2015.

### Gross Refinery Margins

Gross refinery margin per produced barrel increased 21% from \$14.95 for the nine months ended September 30, 2014 to \$18.03 for the nine months ended September 30, 2015. This was due to the effects of decreased crude oil and feedstock prices, partially offset by a decrease in the average per barrel sales price for refined products sold during the current year-to-date period. Gross refinery margin does not include the non-cash effects of lower of cost or market inventory valuation adjustments or depreciation and amortization. See “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q for a reconciliation to the income statement of prices of refined products sold and cost of products purchased.

### Operating Expenses

Operating expenses, exclusive of depreciation and amortization, decreased 6% from \$826.6 million for the nine months ended September 30, 2014 to \$775.2 million for the nine months ended September 30, 2015 due principally to lower natural gas fuel and repair and maintenance costs compared to the same period of 2014.

### General and Administrative Expenses

General and administrative expenses increased from \$82.4 million for the nine months ended September 30, 2014 to \$86.4 million for the nine months ended September 30, 2015. This is attributable to overall higher incentive compensation and legal costs for the current year, net of the effects of state high-wage credits recognized during the second quarter of 2015.

### Depreciation and Amortization Expenses

Depreciation and amortization decreased 3% from \$262.9 million for the nine months ended September 30, 2014 to \$255.6 million for the nine months ended September 30, 2015. This decrease was due principally to the recognition of higher accelerated depreciation levels of assets no longer in operation during 2014, partially offset by depreciation and amortization during the current year attributable to capitalized improvement projects and capitalized refinery turnaround costs.

### Interest Income

Interest income for the nine months ended September 30, 2015 was \$2.4 million compared to \$3.6 million for the nine months ended September 30, 2014. This decrease was due to lower investment levels in marketable debt securities during the year-to-date period.

#### Interest Expense

Interest expense was \$31.8 million for the nine months ended September 30, 2015 compared to \$33.5 million for the nine months ended September 30, 2014. This decrease was due to HEP's increased utilization of lower interest rate borrowings under the HEP Credit Agreement, which it used to finance the redemption of its \$150.0 million 8.25% senior notes in March 2014. This was partially offset by lower HollyFrontier interest following the June 2015 redemption of the HollyFrontier \$150.0 million 6.875% senior notes. For the nine months ended September 30, 2015 and 2014, interest expense included \$27.3 million and \$27.4 million, respectively, in interest costs attributable to limited recourse debt that finances HEP operations.

## Table of Content

### Loss on Early Extinguishment of Debt

In June 2015, we redeemed our \$150.0 million aggregate principal amount of 6.875% senior notes maturing November 2018 at a redemption cost of \$155.2 million, at which time we recognized a \$1.4 million early extinguishment loss consisting of a \$5.2 million debt redemption premium, net of an unamortized premium of \$3.8 million.

In March 2014, HEP redeemed its \$150.0 million aggregate principal amount of 8.25% senior notes maturing March 2018 at a redemption cost of \$156.2 million, at which time it recognized a \$7.7 million early extinguishment loss consisting of a \$6.2 million debt redemption premium and unamortized discount and financing costs of \$1.5 million.

### Income Taxes

For the nine months ended September 30, 2015, we recorded income tax expense of \$446.8 million compared to \$292.2 million for the nine months ended September 30, 2014. This increase was due principally to higher pre-tax earnings during the nine months ended September 30, 2015 compared to the same period of 2014. Our effective tax rates, before consideration of earnings attributable to the noncontrolling interest, were 35.1% and 35.2% for the nine months ended September 30, 2015 and 2014, respectively.

## LIQUIDITY AND CAPITAL RESOURCES

### HollyFrontier Credit Agreement

We have a \$1 billion senior unsecured revolving credit facility maturing in July 2019 (the “HollyFrontier Credit Agreement”), which may be used for revolving credit loans and letters of credit from time to time and is available to fund general corporate purposes. Indebtedness under the HollyFrontier Credit Agreement is recourse to HollyFrontier and guaranteed by certain of our wholly-owned subsidiaries. At September 30, 2015, we were in compliance with all covenants, had no outstanding borrowings and had outstanding letters of credit totaling \$6.0 million under the HollyFrontier Credit Agreement.

### HEP Credit Agreement

HEP has an \$850 million senior secured revolving credit facility that matures in November 2018 (the “HEP Credit Agreement”) and is available to fund capital expenditures, investments, acquisitions, distribution payments and working capital and for general partnership purposes. It is also available to fund letters of credit up to a \$50 million sub-limit. At September 30, 2015, HEP was in compliance with all of its covenants, had outstanding borrowings of \$654.0 million and no outstanding letters of credit under the HEP Credit Agreement. In April 2015, HEP amended its credit agreement, increasing the size of the credit facility from \$650 million to \$850 million.

See Note 9 “Debt” in the Notes to Consolidated Financial Statements for additional information on our debt instruments.

### Liquidity

We believe our current cash and cash equivalents, along with future internally generated cash flow and funds available under our credit facilities, will provide sufficient resources to fund currently planned capital projects and our liquidity needs for the foreseeable future. In addition, components of our growth strategy include construction of new refinery processing units and the expansion of existing units at our facilities and selective acquisition of complementary assets for our refining operations intended to increase earnings and cash flow.

As of September 30, 2015, our cash, cash equivalents and investments in marketable securities totaled \$626.8 million. We consider all highly-liquid instruments with a maturity of three months or less at the time of purchase to be cash equivalents. Cash equivalents are stated at cost, which approximates market value. These primarily consist of

investments in conservative, highly-rated instruments issued by financial institutions, government and corporate entities with strong credit standings and money market funds.

In May 2015, our Board of Directors approved a \$1 billion share repurchase program, which replaced all existing share repurchase programs, authorizing us to repurchase common stock in the open market or through privately negotiated transactions. The timing and amount of stock repurchases will depend on market conditions and corporate, regulatory and other relevant considerations. This program may be discontinued at any time by the Board of Directors. As of September 30, 2015, we had remaining authorization to repurchase up to \$559.0 million under this stock repurchase program. In addition, we are authorized by our Board of Directors to repurchase shares in an amount sufficient to offset shares issued under our compensation programs.

## Table of Content

During the second quarter of 2015, we entered into an accelerated share repurchase agreement (“ASR”) with a large financial institution to repurchase \$300.0 million of our outstanding common stock. In May 2015 (at inception), we acquired 5.5 million shares, representing 80% of the amount paid based on then-market prices. The ASR was completed in September 2015 at which time we acquired an additional 1.2 million shares upon settlement. The final market purchase price per share averaged \$44.81, which was based on the volume-weighted average market purchase price of our common stock, less a discount, over the term of the ASR.

Cash and cash equivalents decreased \$328.3 million for the nine months ended September 30, 2015. Net cash provided by operating activities of \$903.3 million was less than the net cash used for investing and financing activities of \$425.4 million and \$806.2 million, respectively. Working capital decreased by \$316.4 million during the nine months ended September 30, 2015.

### Cash Flows – Operating Activities

#### Nine Months Ended September 30, 2015 Compared to Nine Months Ended September 30, 2014

Net cash flows provided by operating activities were \$903.3 million for the nine months ended September 30, 2015 compared to \$805.9 million for the nine months ended September 30, 2014, an increase of \$97.4 million. Net income for the nine months ended September 30, 2015 was \$826.5 million, an increase of \$289.8 million compared to \$536.7 million for the nine months ended September 30, 2014. Non-cash adjustments to net income consisting of depreciation and amortization, lower of cost or market inventory valuation adjustment, net loss of equity method investments, inclusive of distributions, gain on sale of assets, unamortized premium / discount on early extinguishment of debt, deferred income taxes, equity-based compensation expense and fair value changes to derivative instruments totaled \$311.5 million for the nine months ended September 30, 2015 compared to \$276.6 million for the same period in 2014. Changes in working capital items decreased cash flows by \$183.8 million for the nine months ended September 30, 2015 compared to an increase of \$21.3 million for the nine months ended September 30, 2014. Additionally, for the nine months ended September 30, 2015, turnaround expenditures increased to \$55.9 million from \$32.2 million for the same period of 2014.

### Cash Flows – Investing Activities and Planned Capital Expenditures

#### Nine Months Ended September 30, 2015 Compared to Nine Months Ended September 30, 2014

Net cash flows used for investing activities were \$425.4 million for the nine months ended September 30, 2015 compared to \$247.9 million for the nine months ended September 30, 2014, an increase of \$177.5 million. Cash expenditures for properties, plants and equipment for the first nine months of 2015 increased to \$473.9 million from \$369.1 million for the same period in 2014. These include HEP capital expenditures of \$57.3 million and \$61.7 million for the nine months ended September 30, 2015 and 2014, respectively. We received proceeds of \$15.8 million and \$14.7 million from the sale of assets during the nine months ended September 30, 2015 and 2014, respectively. HEP purchased a 50% interest in Frontier Pipeline for \$54.6 million. Also for the nine months ended September 30, 2015 and 2014, we invested \$403.0 million and \$762.2 million, respectively, in marketable securities and received proceeds of \$490.3 million and \$863.8 million, respectively, from the sale or maturity of marketable securities.

### Planned Capital Expenditures

#### HollyFrontier Corporation

Each year our Board of Directors approves our annual capital budget, which includes specific projects that management is authorized to undertake. Additionally, when conditions warrant or as new opportunities arise, additional projects may be approved. The funds appropriated for a particular capital project may be expended over a period of several years, depending on the time required to complete the project. Therefore, our planned capital expenditures for a given year consist of expenditures appropriated in that year’s capital budget plus expenditures for

projects appropriated in prior years which have not yet been completed. Our appropriated capital budget for 2015 is \$137.0 million including both sustaining capital and major capital projects. During 2015, we expect to spend approximately \$600.0 million to \$650.0 million in cash for capital projects appropriated in 2015 and prior years. This spending is comprised of \$208.0 million to \$225.0 million at the Woods Cross Refinery, \$145.0 million to \$157.0 million at the El Dorado Refinery, \$97.0 million to \$105.0 million at the Tulsa Refineries, \$94.0 million to \$102.0 million at the Cheyenne Refinery, \$37.0 million to \$40.0 million at the Navajo Refinery and \$19.0 million to \$21.0 million for miscellaneous other projects. In addition, we expect to spend approximately \$45.0 million on refinery turnarounds and \$27.0 million on tank work. Refinery turnaround spending is amortized over the useful life of the turnaround.

## Table of Content

A significant portion of our current capital spending is associated with compliance-oriented capital improvements. This spending is required due to existing consent decrees (for projects including FCC unit flue gas scrubbers and tail gas treatment units), federal fuels regulations (particularly MSAT2, which mandates a reduction in the benzene content of blended gasoline), refinery waste water treatment improvements and other similar initiatives. Our refinery operations and related emissions are highly regulated at both federal and state levels, and we invest in our facilities as needed to remain in compliance with these standards. Additionally, when faced with new emissions or fuels standards, we seek to execute projects that facilitate compliance and also improve the operating costs and / or yields of associated refining processes.

### El Dorado Refinery

Capital projects at the El Dorado Refinery include naphtha fractionation, an additional hydrogen plant and upgrades to the crude unit desalter, which have been completed and placed in service. They also include the installation of an FCC gasoline hydrotreater in order to meet Tier 3 gasoline requirements. Continuing project work includes a new tail gas treatment unit to reduce air emissions in compliance with the El Dorado Refinery's existing EPA consent decree. Projects on improving the Coker unit operation and yields are currently being evaluated, and an upgrade project to improve reformer operation, yield and reliability has been approved and engineering is underway.

### Tulsa Refineries

Capital spending for the Tulsa Refineries in 2015 includes previously approved capital appropriations for numerous infrastructure upgrades, including a project to improve FCC yields. Spending on maintenance capital items and general improvements continues at an elevated level at the Tulsa Refineries due to lower maintenance capital expenditures made prior to HollyFrontier's purchase of the facilities. The Tulsa Refineries will be addressing Tier 3 compliance through a project that improves naphtha fractionation providing yield and octane enhancements.

### Navajo Refinery

The Navajo Refinery capital spending in 2015 will be principally directed toward previously approved capital appropriations as well as maintenance capital spending. Included among previously approved capital projects is a \$25.0 million upgrade to the Navajo Refinery's waste water treatment system. Additionally, the Navajo Refinery will be addressing Tier 3 compliance through the installation of an FCC gasoline hydrotreater. Also, an automation project to optimize the blending process of the gasoline blending facility is currently underway.

### Cheyenne Refinery

We are continuing with our previously approved plan to install a new hydrogen plant at the Cheyenne Refinery. The hydrogen plant, along with a now-completed naphtha fractionation project, is anticipated to allow us to reduce benzene content in Cheyenne gasoline production, while at the same time improving the refinery's overall liquid yields and light oils production. Additionally, the FCC unit flue gas scrubber project to reduce air emissions has been completed and is now in service. Previously appropriated projects still underway at the Cheyenne Refinery include wastewater treatment plant improvements and a redundant tail gas unit associated with the sulfur recovery process.

### Woods Cross Refinery

Engineering and construction continue on our previously announced expansion project to increase planned processing capacity to 45,000 BPSD. This project work includes new refining facilities, a new rail loading rack for intermediates and finished products associated with refining waxy crude oil. Capital investment on the originally planned processing capacity expansion is expected to be \$400.0 million. The initial phase of the expansion is expected to be completed in the fourth quarter of 2015. An additional \$20.0 million to \$30.0 million investment is being made in the Woods Cross Refinery to allow for greater crude slate flexibility. We believe this additional project scope will increase capacity utilization and improve overall economic returns during periods when wax crudes are in short supply.

On November 18, 2013, the Utah Division of Air Quality issued a revised air quality permit (the “Approval Order”) authorizing the expansion. On December 18, 2013, two local environmental groups filed an administrative appeal challenging the issuance of the Approval Order and seeking a stay of the Approval Order. Following an extended appeal process, the Executive Director of the Utah Department of Environmental Quality (“DEQ”) issued a final order in favor of Woods Cross on all claims on March 31, 2015 and dismissed the project opponents' arguments with prejudice. On April 27, 2015, the opponents filed a petition for review and notice of appeal with the Utah Court of Appeals challenging the agency's decision to uphold the permit and dismiss the project opponents' arguments. This appeal is now pending before the Utah Court of Appeals. The expansion, and expected completion timeline and cost, are subject to the Woods Cross Refinery successfully obtaining the Approval Order on appeal at the Utah Court of Appeals.

## Table of Content

Regulatory compliance items or other presently existing or future environmental regulations / consent decrees could cause us to make additional capital investments beyond those described above and incur additional operating costs to meet applicable requirements, including those related to recently promulgated Federal Tier 3 gasoline standards.

### HEP

Each year the Holly Logistic Services, L.L.C. board of directors approves HEP's annual capital budget, which specifies capital projects that HEP management is authorized to undertake. Additionally, at times when conditions warrant or as new opportunities arise, special projects may be approved. The funds allocated for a particular capital project may be expended over a period of several years, depending on the time required to complete the project. Therefore, HEP's planned capital expenditures for a given year consist of expenditures approved for capital projects included in its current year capital budget as well as, in certain cases, expenditures approved for capital projects in capital budgets for prior years. The 2015 HEP capital budget is comprised of \$10.0 million for maintenance capital expenditures and \$78.0 million for expansion capital expenditures.

### Cash Flows – Financing Activities

#### Nine Months Ended September 30, 2015 Compared to Nine Months Ended September 30, 2014

Net cash flows used for financing activities were \$806.2 million for the nine months ended September 30, 2015 compared to \$642.2 million for the nine months ended September 30, 2014, an increase of \$164.0 million. During the nine months ended September 30, 2015, we purchased \$481.8 million in common stock, paid \$187.4 million in dividends and paid \$155.2 million upon the redemption of our 6.875% senior notes. Also during this period, HEP received \$443.0 million and repaid \$360.0 million under the HEP Credit Agreement and paid distributions of \$61.4 million to noncontrolling interests. During the nine months ended September 30, 2014, we purchased \$133.2 million in common stock, paid \$485.8 million in dividends and recognized \$4.5 million excess tax benefits on our equity-based compensation. Also during this period, HEP received \$538.6 million and repaid \$346.6 million under the HEP Credit Agreement, paid \$156.2 million upon the redemption of HEP's 8.25% senior notes and paid distributions of \$58.5 million to noncontrolling interests.

### Contractual Obligations and Commitments

#### HollyFrontier Corporation

In June 2015, we redeemed our \$150.0 million aggregate principal amount of 6.875% senior notes maturing November 2018.

There were no other significant changes to our contractual obligations during the nine months ended September 30, 2015.

### HEP

In April 2015, HEP amended its credit agreement, increasing the size of the credit facility from \$650 million to \$850 million. The HEP Amended Credit Agreement expires in November 2018. During the nine months ended September 30, 2015, HEP received net borrowings of \$83.0 million resulting in \$654.0 million of outstanding borrowings under the HEP Credit Agreement at September 30, 2015.

There were no other significant changes to HEP's long-term contractual obligations during this period.

## CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities as of the date of the financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Our significant accounting policies are described in “Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies” in our Annual Report on Form 10-K for the year ended December 31, 2014. Certain critical accounting policies that materially affect the amounts recorded in our consolidated financial statements include the assessment and consolidation of variable interest entities, the use of the last-in, first-out (“LIFO”) method of valuing certain inventories, the amortization of deferred costs for regular major maintenance and repairs at our refineries, assessing the possible impairment of certain long-lived assets and goodwill, accounting for derivative instruments and assessing contingent liabilities for probable losses.

## Table of Content

### Inventory Valuation

Inventories are stated at the lower of cost, using the LIFO method for crude oil, unfinished and finished refined products and the average cost method for materials and supplies, or market. In periods of rapidly declining prices, LIFO inventories may have to be written down to market value due to the higher costs assigned to LIFO layers in prior periods. In addition, the use of the LIFO inventory method may result in increases or decreases to cost of sales in years that inventory volumes decline as the result of charging cost of sales with LIFO inventory costs generated in prior periods. An actual valuation of inventory under the LIFO method is made at the end of each year based on the inventory levels at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and are subject to the final year-end LIFO inventory valuation.

At September 30, 2015, our lower of cost or market inventory valuation reserve was \$480.9 million. This amount, or a portion thereof, is subject to reversal as a reduction to cost of products sold in subsequent periods as inventories giving rise to the reserve are sold, and a new reserve is established. Such a reduction to cost of products sold could be significant if inventory values return to historical cost price levels. Additionally, further decreases in overall inventory values could result in additional charges to cost of products sold should the lower of cost or market inventory valuation reserve be increased.

### Goodwill

We have goodwill that primarily arose from our merger with Frontier Oil Corporation on July 1, 2011. Goodwill represents the excess of the cost of an acquired entity over the fair value of the assets acquired and liabilities assumed. Goodwill is not subject to amortization and is tested annually or more frequently if events or circumstances indicate the possibility of impairment. As of September 30, 2015, there have been no impairments to goodwill.

We performed our annual goodwill impairment testing as of July 1, 2015, which entailed an assessment of our reporting unit fair values relative to their respective carrying values that were derived using a combination of both income and market approaches. Our income approach utilizes the discounted future expected cash flows. Our market approach, which includes both the guideline public company and guideline transaction methods, utilizes pricing multiples derived from historical market transactions of other like-kind assets. Our discounted cash flows reflect estimates of future cash flows based on both historical and forward crack-spreads, forecasted production levels, operating costs and capital expenditures. Our goodwill is allocated by reporting unit as follows: El Dorado, \$1.7 billion; Cheyenne, \$0.3 billion; and HEP, \$0.3 billion. Based on our testing as of July 1, 2015, the fair value of our Cheyenne reporting unit exceeded its carrying cost by approximately 8%. The fair value of our El Dorado and HEP reporting units substantially exceeded their respective carrying values. As of September 30, 2015, there have been no impairments to goodwill.

Historically, the refining industry has experienced significant fluctuations in operating results over an extended business cycle including changes in prices of crude oil and refined products, changes in operating costs including natural gas and higher costs of complying with government regulations. It is reasonably possible that at some future downturn in refining operations that the goodwill related to our Cheyenne Refinery will be determined to be impaired. A prolonged, moderate decrease in operating margins could potentially result in impairment to goodwill allocated to our Cheyenne reporting unit. Such impairment charges could be material.

## RISK MANAGEMENT

We use certain strategies to reduce some commodity price and operational risks. We do not attempt to eliminate all market risk exposures when we believe that the exposure relating to such risk would not be significant to our future earnings, financial position, capital resources or liquidity or that the cost of eliminating the exposure would outweigh the benefit.

### Commodity Price Risk Management

Our primary market risk is commodity price risk. We are exposed to market risks related to the volatility in crude oil and refined products, as well as volatility in the price of natural gas used in our refining operations. We periodically enter into derivative contracts in the form of commodity price swaps and futures contracts to mitigate price exposure with respect to:

- our inventory positions;
- natural gas purchases;
- costs of crude oil and related grade differentials;
- prices of refined products; and
- our refining margins.

Table of Content

As of September 30, 2015, we have the following notional contract volumes related to all outstanding derivative contracts used to mitigate commodity price risk:

| Contract Description                       | Total<br>Outstanding<br>Notional | Notional Contract Volumes by Year of<br>Maturity |            |            | Unit of<br>Measure |
|--------------------------------------------|----------------------------------|--------------------------------------------------|------------|------------|--------------------|
|                                            |                                  | 2015                                             | 2016       | 2017       |                    |
| Natural gas price swap - long              | 43,200,000                       | 4,800,000                                        | 19,200,000 | 19,200,000 | MMBTU              |
| Natural gas price swap - short             | 21,600,000                       | 2,400,000                                        | 9,600,000  | 9,600,000  | MMBTU              |
| Natural gas basis spread price swap - long | 22,626,000                       | 2,010,000                                        | 10,308,000 | 10,308,000 | MMBTU              |
| WTI price swap - long                      | 2,760,000                        | 2,760,000                                        | —          | —          | Barrels            |
| Ultra-low sulfur diesel price swap - short | 2,760,000                        | 2,760,000                                        | —          | —          | Barrels            |

**Interest Rate Risk Management**

HEP uses interest rate swaps to manage its exposure to interest rate risk.

As of September 30, 2015, HEP had three interest rate swap contracts that hedge its exposure to the cash flow risk caused by the effects of LIBOR changes on \$305.0 million in credit agreement advances. The first interest rate swap effectively converts \$155.0 million of LIBOR based debt to fixed-rate debt having an interest rate of 0.99% plus an applicable margin of 2.00% as of September 30, 2015, which equaled an effective interest rate of 2.99%. This swap matures in February 2016. HEP has two additional interest rate swaps with identical terms which effectively convert \$150.0 million of LIBOR based debt to fixed-rate debt having an interest rate of 0.74% plus an applicable margin of 2.00% as of September 30, 2015, which equaled an effective interest rate of 2.74%. Both of these swap contracts mature in July 2017. These swap contracts have been designated as cash flow hedges.

The market risk inherent in our fixed-rate debt is the potential change arising from increases or decreases in interest rates as discussed below.

For the fixed rate HEP Senior Notes, changes in interest rates will generally affect fair value of the debt, but not earnings or cash flows. The outstanding principal, estimated fair value and estimated change in fair value (assuming a hypothetical 10% change in the yield-to-maturity rates) for these debt instruments as of September 30, 2015 is presented below:

| Outstanding<br>Principal | Estimated<br>Fair Value | Estimated<br>Change in<br>Fair Value |
|--------------------------|-------------------------|--------------------------------------|
| (In thousands)           |                         |                                      |

Edgar Filing: HollyFrontier Corp - Form 10-Q

|                  |           |           |         |
|------------------|-----------|-----------|---------|
| HEP Senior Notes | \$300,000 | \$288,000 | \$8,400 |
|------------------|-----------|-----------|---------|

For the variable rate HEP Credit Agreement, changes in interest rates would affect cash flows, but not the fair value. At September 30, 2015, outstanding borrowings under the HEP Credit Agreement were \$654.0 million. By means of its cash flow hedges, HEP has effectively converted the variable rate on \$305.0 million of outstanding principal to a weighted average fixed rate of 2.87%. For the remaining unhedged Credit Agreement borrowings of \$349.0 million, a hypothetical 10% change in interest rates applicable to the HEP Credit Agreement would not materially affect cash flows.

Table of Content

At September 30, 2015, our marketable securities included investments in investment grade, highly-liquid investments with maturities generally not greater than one year from the date of purchase and hence the interest rate market risk implicit in these investments is low. Due to the short-term nature of our cash and cash equivalents, a hypothetical 10% increase in interest rates would not have a material effect on the fair market value of our portfolio. Since we have the ability to liquidate this portfolio, we do not expect our operating results or cash flows to be materially affected by the effect of a sudden change in market interest rates on our investment portfolio.

Our operations are subject to hazards of petroleum processing operations, including fire, explosion and weather-related perils. We maintain various insurance coverages, including business interruption insurance, subject to certain deductibles. We are not fully insured against certain risks because such risks are not fully insurable, coverage is unavailable, or premium costs, in our judgment, do not justify such expenditures.

Financial information is reviewed on the counterparties in order to review and monitor their financial stability and assess their ongoing ability to honor their commitments under the derivative contracts. We have not experienced, nor do we expect to experience, any difficulty in the counterparties honoring their commitments.

We have a risk management oversight committee consisting of members from our senior management. This committee oversees our risk enterprise program, monitors our risk environment and provides direction for activities to mitigate identified risks that may adversely affect the achievement of our goals.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See “Risk Management” under “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles

Reconciliations of earnings before interest, taxes, depreciation and amortization (“EBITDA”) to amounts reported under generally accepted accounting principles in financial statements.

Earnings before interest, taxes, depreciation and amortization, which we refer to as EBITDA, is calculated as net income attributable to HollyFrontier stockholders plus (i) interest expense, net of interest income, (ii) income tax provision, and (iii) depreciation and amortization. EBITDA is not a calculation provided for under GAAP; however, the amounts included in the EBITDA calculation are derived from amounts included in our consolidated financial statements. EBITDA should not be considered as an alternative to net income or operating income as an indication of our operating performance or as an alternative to operating cash flow as a measure of liquidity. EBITDA is not necessarily comparable to similarly titled measures of other companies. EBITDA is presented here because it is a widely used financial indicator used by investors and analysts to measure performance. EBITDA is also used by our management for internal analysis and as a basis for financial covenants.

Set forth below is our calculation of EBITDA.

(1) Includes loss on early extinguishment of debt of \$1.4 million and \$7.7 million for the nine months ended September 30, 2015 and 2014, respectively.

Table of Content

Reconciliations of refinery operating information (non-GAAP performance measures) to amounts reported under generally accepted accounting principles in financial statements.

Refinery gross margin and net operating margin are non-GAAP performance measures that are used by our management and others to compare our refining performance to that of other companies in our industry. We believe these margin measures are helpful to investors in evaluating our refining performance on a relative and absolute basis.

Refinery gross margin per barrel is the difference between average net sales price and average cost of products per barrel of produced refined products. Net operating margin per barrel is the difference between refinery gross margin and refinery operating expenses per barrel of produced refined products. These two margins do not include the non-cash effects of lower of cost or market inventory valuation adjustments or depreciation and amortization. Each of these component performance measures can be reconciled directly to our consolidated statements of income.

Other companies in our industry may not calculate these performance measures in the same manner.

## Refinery Gross and Net Operating Margins

Below are reconciliations to our consolidated statements of income for (i) net sales, cost of products (exclusive of lower of cost or market inventory valuation adjustment) and operating expenses, in each case averaged per produced barrel sold, and (ii) net operating margin and refinery gross margin. Due to rounding of reported numbers, some amounts may not calculate exactly.

## Reconciliation of produced product sales to total sales and other revenues

(1) We purchase finished products to facilitate delivery to certain locations or to meet delivery commitments.

We purchase crude oil that at times exceeds the supply needs of our refineries. Quantities in excess of our needs are sold at market prices to purchasers of crude oil that are recorded on a gross basis with the sales price recorded

(2) as revenues and the corresponding acquisition cost as inventory and then upon sale as cost of products sold.

Additionally, at times we enter into buy/sell exchanges of crude oil with certain parties to facilitate the delivery of quantities to certain locations that are netted at cost.

(3) Other refining segment revenue includes the incremental revenues associated with NK Asphalt, product purchased and sold forward for profit as market conditions and available storage capacity allows and miscellaneous revenue.

Other refining segment cost of products sold includes the incremental cost of products for NK Asphalt, the

(4) incremental cost associated with storing product purchased and sold forward as market conditions and available storage capacity allows and miscellaneous costs.

(5) Other refining segment operating expenses include the marketing costs associated with our refining segment and the operating expenses of NK Asphalt.

## Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures. Our principal executive officer and principal financial officer have evaluated, as required by Rule 13a-15(b) under the Securities Exchange Act of 1934 (the "Exchange Act"), our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Our disclosure controls and procedures are designed to provide reasonable assurance that the information we are required to disclose in the reports that we file or

submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Based upon the evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of September 30, 2015.

Changes in internal control over financial reporting. There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during our last fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Commitment and Contingency Reserves

We periodically establish reserves for certain legal proceedings. The establishment of a reserve involves an estimation process that includes the advice of legal counsel and subjective judgment of management. While management believes these reserves to be adequate, future changes in the facts and circumstances could result in the actual liability exceeding the estimated ranges of loss and amounts accrued.

While the outcome and impact on us cannot be predicted with certainty, based on advice of counsel, management believes that the resolution of these proceedings through settlement or adverse judgment will not either individually or in the aggregate have a material adverse effect on our financial condition, results of operations or cash flows.

Environmental Matters

We are reporting the following proceedings to comply with SEC regulations which require us to disclose proceedings arising under federal, state or local provisions regulating the discharge of materials into the environment or protecting the environment if we reasonably believe that such proceedings may result in monetary sanctions of \$100,000 or more. Our respective subsidiaries have or will develop corrective action plans regarding these disclosures that will be implemented in consultation with the respective federal and state agencies. It is not possible to predict the ultimate outcome of these proceedings, although none are currently expected to have a material adverse effect on our financial condition, results of operations or cash flows.

Cheyenne

Frontier Refining LLC (“FR”), our wholly-owned subsidiary, completed certain environmental audits at the Cheyenne Refinery regarding compliance with federal and state environmental requirements. By letters dated October 5, 2012, November 7, 2012, and January 10, 2013, and pursuant to the EPA's audit policy to the extent applicable, FR submitted reports to the EPA voluntarily disclosing non-compliance with certain emission limitations, reporting requirements, and provisions of a 2009 federal consent decree. By letters dated October 31, 2012, February 6, 2013, June 21, 2013, July 9, 2013, and July 25, 2013, and pursuant to applicable Wyoming audit statutes, FR submitted environmental audit reports to the Wyoming Department of Environmental Quality (“WDEQ”) voluntarily disclosing non-compliance with certain notification, reporting, and other provisions of the refinery's state air permit and other environmental regulatory requirements. No further action has been taken by either agency at this time. The Cheyenne Refinery also has one outstanding Notice of Violations issued in January 2013 that is subject to ongoing settlement negotiations with the WDEQ.

Tulsa

Holly Refining & Marketing - Tulsa, LLC (“HRMT”) manufactures paraffin and hydrocarbon waxes at its Tulsa West Refinery. On March 11, 2014, the EPA issued a notice to HRMT of possible violations of certain provisions of the federal Toxic Substances Control Act in connection with the manufacture of certain of these products. HRMT and the EPA met and are working productively towards a settlement of this matter.

Fuels Regulation

Between November 2010 and February 2012, certain of our subsidiaries submitted multiple reports to the EPA to voluntarily disclose non-compliance with fuels regulations at the Cheyenne, El Dorado, Navajo, Tulsa and Woods Cross refineries and at the Cedar City, Utah and Henderson, Colorado terminals. Our subsidiaries have complied with all EPA requests for additional information regarding the voluntary disclosures. Our subsidiaries are now concluding

settlement discussions with the EPA to resolve the voluntarily disclosed non-compliance events.

Other

We are a party to various other litigation and proceedings that we believe, based on advice of counsel, will not either individually or in the aggregate have a materially adverse impact on our financial condition, results of operations or cash flows.

## Item 1A. Risk Factors

There have been no material changes in our risk factors as previously disclosed in Part 1, “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 and in Part II, “Item 1A. Risk Factors” of our Quarterly Report on Form 10-Q for the quarter ended June 30, 2015. You should carefully consider the risk factors discussed in our 2014 Form 10-K and June 30, 2015 Form 10-Q, which could materially affect our business, financial condition or future results. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

## (c) Common Stock Repurchases Made in the Quarter

Under our common stock repurchase programs, repurchases are being made from time to time in the open market or privately negotiated transactions based on market conditions, securities law limitations and other factors. The following table includes repurchases made under these programs during the third quarter of 2015.

| Period                           | Total Number of Shares Purchased | Average Price Paid per Share | Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs | Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs |
|----------------------------------|----------------------------------|------------------------------|----------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|

| September 2015                   | 1,550,000                        | \$47.29                      | 1,550,000                                                                        | \$558,965,435                                                                        |
| Total for July to September 2015 | 3,560,528                        |                              | 3,560,528                                                                        |                                                                                      |

(1) During the second quarter of 2015, we entered into an accelerated share repurchase agreement (“ASR”) with a large financial institution to repurchase \$300.0 million of our outstanding common stock. In May 2015 (at inception), we acquired 5.5 million shares, representing 80% of the amount paid based on then-market prices. The ASR was completed in September 2015 at which time we acquired an additional 1.2 million shares upon settlement. The final market purchase price per share averaged \$44.81, which was based on the volume-weighted average market purchase price of our common stock, less a discount, over the term of the ASR.

## Item 6. Exhibits

The Exhibit Index on page 57 of this Quarterly Report on Form 10-Q lists the exhibits that are filed or furnished, as applicable, as part of the Quarterly Report on Form 10-Q.
