☒ Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended March 31, 2016
Or

☐ Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____
Commission file number 001-13253

RENASANT CORPORATION
(Exact name of registrant as specified in its charter)

Mississippi	64-0676974
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

209 Troy Street, Tupelo, Mississippi	38804-4827
(Address of principal executive offices)	(Zip Code)
(662) 680-1001	
(Registrant's telephone number, including area code)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of April 30, 2016, 42,063,419 shares of the registrant's common stock, \$5.00 par value per share, were outstanding. The registrant has no other classes of securities outstanding.

Renasant Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)

Note A – Summary of Significant Accounting Policies

Nature of Operations: Renasant Corporation (referred to herein as the “Company”) owns and operates Renasant Bank (“Renasant Bank” or the “Bank”) and Renasant Insurance, Inc. The Company offers a diversified range of financial, fiduciary and insurance services to its retail and commercial customers through its subsidiaries and full service offices located throughout north and central Mississippi, Tennessee, Georgia, north and central Alabama and north Florida.

Basis of Presentation: The accompanying unaudited consolidated financial statements of the Company and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For further information regarding the Company’s significant accounting policies, refer to the audited consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015 filed with the Securities and Exchange Commission on February 29, 2016.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events: The Company has evaluated, for consideration of recognition or disclosure, subsequent events that have occurred through the date of issuance of its financial statements. On April 1, 2016, the Company completed its previously-announced acquisition of KeyWorth Bank (“KeyWorth”), a Georgia state bank headquartered in Atlanta, Georgia. The terms of the merger with KeyWorth are disclosed in Note M, “Mergers and Acquisitions”. On April 26, 2016, shareholders of the Company approved a proposal to amend the Company’s Articles of Incorporation to increase the number of authorized shares of common stock, par value \$5.00 per share, from 75,000,000 shares to 150,000,000 shares. The increase in authorized shares of common stock does not impact the Company’s financials as of March 31, 2016.

The Company has determined that other than the foregoing items, no significant events occurred after March 31, 2016 but prior to the issuance of these financial statements that would have a material impact on its Consolidated Financial Statements.

Impact of Recently-Issued Accounting Standards and Pronouncements:

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share -Based Payment Accounting; (“ASU 2016-09”). ASU 2016-09 is intended to reduce complexity in accounting standards by simplifying several aspects of the accounting for share-based payment transactions, including (1) accounting for income taxes; (2) classification of excess tax benefits on the statement of cash flow; (3) forfeitures; (4) minimum statutory tax withholding requirements; (5) classification of employee taxes paid on the statement of cash flows when an employer withholds shares for tax withholding purposes. The amendments of ASU 2016-09 are effective for interim and annual periods beginning after December 15, 2016. Management is currently evaluating the impact this ASU will have on the Company’s consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-07, Investments - Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting; (“ASU 2016-07”). ASU 2016-07 requires an investor to initially apply the equity method of accounting from the date it qualifies for that method, i.e., the date the investor obtains significant influence over the operating and financial policies of an investee. The ASU eliminates the previous

requirement to retroactively adjust the investment and record a cumulative catch up for the periods that the investment had been held but did not qualify for the equity method of accounting. For public business entities, the amendments in ASU 2016-07 are effective for interim and annual periods beginning after December 15, 2016. The amendments should be applied prospectively upon their effective date to increases in the level of ownership interest or degree of influence that result in the adoption of the equity method. The Company is currently evaluating the provisions of ASU 2016-07 to determine the potential impact the new standard will have on the Company's consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842) ("ASU 2016-02"). ASU 2016-02 amends the accounting model and disclosure requirements for leases. The current accounting model for leases distinguishes between capital leases, which are recognized on-balance sheet, and operating leases, which are not. Under the new standard, the lease classifications are defined

Table of Contents

as finance leases, which are similar to capital leases under current U.S. GAAP, and operating leases. Further, a lessee will recognize a lease liability and a right-of-use asset for all leases with a term greater than 12 months on its balance sheet regardless of the lease's classification, which may significantly increase reported assets and liabilities. The accounting model and disclosure requirements for lessors remains substantially unchanged from current U.S. GAAP. ASU 2016-02 is effective for annual and interim periods in fiscal years beginning after December 15, 2018. The Company is evaluating the impact ASU 2016-02 will have on its financial position, results of operations, and other financial disclosures.

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments - Overall (Subtopic 825-10); Recognition and Measurement of Financial Assets and Financial Liabilities ("ASU 2016-01"). ASU 2016-01 revises the accounting for the classification and measurement of investments in equity securities and revises the presentation of certain fair value changes for financial liabilities measured at fair value. For equity securities, the guidance in ASU 2016-01 requires equity investments to be measured at fair value with changes in fair value recognized in net income. For financial liabilities that are measured at fair value in accordance with the fair value option, the guidance requires presenting, in other comprehensive income, the change in fair value that relates to a change in instrument-specific credit risk. ASU 2016-01 also eliminates the disclosure assumptions used to estimate fair value for financial instruments measured at amortized cost and requires disclosure of an exit price notion in determining the fair value of financial instruments measured at amortized cost. ASU 2016-01 is effective for interim and annual periods beginning after December 15, 2017. The Company is evaluating the impact, if any, that ASU 2016-01 will have on its financial position, results of operations, and its financial statement disclosures.

In September 2015, the FASB issued ASU No. 2015-16, Business Combinations (Topic 805): Simplifying the Accounting for Measurement Period Adjustments ("ASU 2015-16"). The update simplifies the accounting for adjustments made to provisional amounts recognized in a business combination by eliminating the requirement to retrospectively account for those adjustments. For public companies, this update became effective for interim and annual periods beginning after December 15, 2015, and is to be applied prospectively. ASU 2015-16 became effective for the Company on January 1, 2016 and did not have a significant impact on the Company's consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs ("ASU 2015-03"). ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in ASU 2015-03. In August 2015, the FASB issued ASU 2015-15 to clarify the Securities and Exchange Commission ("SEC") staff's position on presenting and measuring debt issue costs related to line-of-credit arrangements. ASU 2015-03 and ASU 2015-15 are effective for interim and annual periods beginning after December 15, 2015. ASU 2015-03 and ASU 2015-15 are not expected to have a significant impact on the Company's financial position, results of operations, or its financial statement disclosures.

In February 2015, the FASB issued ASU 2015-02, "Consolidation (Topic 810): Amendments to the Consolidation Analysis," which amends the consolidation requirements of ASU 810 by changing the consolidation analysis required under GAAP. The revised guidance amends the consolidation analysis based on certain fee arrangements or relationships to the reporting entity and, for limited partnerships, requires entities to consider the limited partner's rights relative to the general partner. ASU 2015-02 is effective for annual and interim periods beginning after December 15, 2015. ASU 2015-02 is not expected to have a significant impact on the Company's financial position, results of operations, or its financial statement disclosures.

In November 2014, the FASB issued ASU 2014-16, Derivatives and Hedging (Topic 815): Determining Whether the Host Contract in a Hybrid Financial Instrument Issued in the Form of a Share Is More Akin to Debt or to Equity, a

consensus of the FASB Emerging Issues Task Force (“ASU 2014-16”). This ASU clarifies how current U.S. GAAP should be interpreted in subjectively evaluating the economic characteristics and risks of a host contract in a hybrid financial instrument that is issued in the form of a share. ASU 2014-16 is effective for public business entities for annual periods and interim periods within those annual periods, beginning after December 15, 2015. ASU 2014-16 became effective for the Company on January 1, 2016 and did not have a significant impact on the Company’s consolidated financial statements.

In June 2014, the FASB issued ASU 2014-12, Compensation-Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period, a consensus of the FASB Emerging Issues Task Force (“ASU 2014-12”). ASU 2014-12 requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. ASU 2014-12 is effective for annual periods and interim periods within those annual periods, beginning after December 15, 2015. An entity may apply the standards (i) prospectively to all share-based payment awards that are granted or modified on or after the effective date, or (ii) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. Earlier application is permitted. ASU 2014-12

Table of Contents

became effective for the Company on January 1, 2016 and did not have a significant impact on the Company's consolidated financial statements.

Proposed Accounting Pronouncements - In December 2012, the FASB announced a project related to the impairment of financial instruments in an effort to provide new guidance that would significantly change how entities measure and recognize credit impairment for certain financial assets. While completion of the project and related guidance is still pending, it is anticipated that new guidance will replace the current incurred loss model that is utilized in estimating the allowance for loan and lease losses with a model that requires management to estimate all contractual cash flows that are not expected to be collected over the life of the loan. The FASB describes this revised model as the current expected credit loss ("CECL") model and believes the CECL model will result in more timely recognition of credit losses since the CECL model incorporates expected credit losses versus incurred credit losses. The proposed scope of FASB's CECL model would include loans, held-to-maturity debt instruments, lease receivables, loan commitments and financial guarantees that are not accounted for at fair value. The final issuance date and the implementation date of the CECL guidance is currently pending, and the Company will continue to monitor FASB's progress on this topic.

Renasant Corporation and Subsidiaries

Notes to Consolidated Financial Statements (Unaudited)

The Company evaluates its investment portfolio for other-than-temporary-impairment ("OTTI") on a quarterly basis. Impairment is assessed at the individual security level. The Company considers an investment security impaired if the fair value of the security is less than its cost or amortized cost basis. Impairment is considered to be other-than-temporary if the Company intends to sell the investment security or if the Company does not expect to recover the entire amortized cost basis of the security before the Company is required to sell the security or before the security's maturity.

The Company does not intend to sell any of the securities in an unrealized loss position, and it is not more likely than not that the Company will be required to sell any such security prior to the recovery of its amortized cost basis, which may be at maturity. Furthermore, even though a number of these securities have been in a continuous unrealized loss position for a period greater than twelve months, the Company has experienced an overall improvement in the fair value of its investment portfolio and, with the exception of one of its pooled trust preferred securities (discussed below), is collecting principal and interest payments from the respective issuers as scheduled. As such, the Company did not record any OTTI for the three months ended March 31, 2016 or 2015.

The Company holds investments in pooled trust preferred securities that had an amortized cost basis of \$24,732 and \$24,770 and a fair value of \$18,947 and \$19,469 at March 31, 2016 and December 31, 2015, respectively. At March 31, 2016, the investments in pooled trust preferred securities consisted of three securities representing interests in various tranches of trusts collateralized by debt issued by over 250 financial institutions. Management's determination of the fair value of each of its holdings in pooled trust preferred securities is based on the current credit ratings, the known deferrals and defaults by the underlying issuing financial institutions and the degree to which future deferrals and defaults would be required to occur before the cash flow for the Company's tranches is negatively impacted. In addition, management continually monitors key credit quality and capital ratios of the issuing institutions. This determination is further supported by quarterly valuations, which are performed by third parties, of each security obtained by the Company. The Company does not intend to sell the investments before recovery of the investments' amortized cost, and it is not more likely than not that the Company will be required to sell the investments before recovery of the investments' amortized cost, which may be at maturity. At March 31, 2016, management did not, and does not currently, believe such securities will be settled at a price less than the amortized cost of the investment, but the Company previously concluded that it was probable that there had been an adverse change in estimated cash flows for all three trust preferred securities and recognized credit related impairment losses on these securities in 2010 and 2011. No additional impairment was recognized during the three months ended March 31, 2016.

The Company's analysis of the pooled trust preferred securities during the second quarter of 2015 supported a return to accrual status for one of the three securities (XXVI). During the second quarter of 2014, the Company's analysis supported a return to accrual status for one of the other securities (XXIII). An observed history of principal and interest payments combined with improved qualitative and quantitative factors described above justified the accrual of interest on these securities. However, the remaining security (XXIV) is still in "payment in kind" status where interest payments are not expected until a future date and, therefore, the qualitative and quantitative factors described above do not justify a return to accrual status at this time. As a result, pooled trust preferred security XXIV remains classified as a nonaccruing asset at March 31, 2016, and investment interest is recorded on the cash-basis method until qualifying for return to accrual status.

The following table provides information regarding the Company's investments in pooled trust preferred securities at March 31, 2016:

Name	Single/ Pooled	Class/ Tranche	Amortized Cost	Fair Value	Unrealized Loss	Lowest Credit	Issuers Currently in
------	-------------------	-------------------	-------------------	---------------	--------------------	------------------	-------------------------

(In Thousands, Except Number of Loans)

The following is a summary of loans as of the dates presented:

	March 31, 2016	December 31, 2015
Commercial, financial, agricultural	\$654,934	\$636,837
Lease financing	43,605	35,978
Real estate – construction	377,574	357,665
Real estate – 1-4 family mortgage	1,777,495	1,735,323
Real estate – commercial mortgage	2,607,510	2,533,729
Installment loans to individuals	113,280	115,093
Gross loans	5,574,398	5,414,625
Unearned income	(1,668)	(1,163)
Loans, net of unearned income	5,572,730	5,413,462
Allowance for loan losses	(42,859)	(42,437)
Net loans	\$5,529,871	\$5,371,025

Past Due and Nonaccrual Loans

Loans are considered past due if the required principal and interest payments have not been received as of the date such payments were due. Generally, the recognition of interest on mortgage and commercial loans is discontinued at the time the loan is 90 days past due unless the credit is well-secured and in process of collection. Consumer and other retail loans are typically charged-off no later than the time the loan is 120 days past due. In all cases, loans are placed on nonaccrual status or charged-off at an earlier date if collection of principal or interest is considered doubtful. Loans may be placed on nonaccrual regardless of whether or not such loans are considered past due. All interest accrued for the current year, but not collected, for loans that are placed on nonaccrual status or charged-off is reversed against interest income. The interest on these loans is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual status. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Impaired Loans

A loan is considered impaired when, based on current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Impairment is measured on a loan-by-loan basis for commercial, consumer and construction loans above a minimum dollar amount threshold by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price or the fair value of the collateral if the loan is collateral dependent. Large groups of smaller balance homogeneous loans are evaluated collectively for impairment. When the ultimate collectability of an impaired loan's principal is in doubt, wholly or partially, all cash receipts are applied to principal. Once the recorded balance has been reduced to zero, future cash receipts are applied to interest income, to

the extent any interest has been foregone, and then they are recorded as recoveries of any amounts previously charged-off. For impaired loans, a specific reserve is established to adjust the carrying value of the loan to its estimated net realizable value.
