Independent Auditors' Report

To the Plan Administrator  
Cytogen Retirement Savings Plan:

We have audited the accompanying statement of net assets available for plan benefits of Cytogen Retirement Savings Plan (the Plan) as of December 31, 2001, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2001. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2001, and the changes in net assets available for plan benefits for the year ended December 31, 2001, in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

CYTOGEN RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2001

(1) Description of the Plan

(a) Organization

The Cytogen Retirement Savings Plan (the Plan) is a defined contribution plan for the employees of Cytogen Corporation (the Employer or the Company) that was established on December 15, 1986. The Plan is governed by the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is intended to comply with Sections 401(a) and 401(k) of the Internal Revenue Code (IRC).

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(b) Eligibility

Each employee shall become eligible to participate within the Plan as of the date when the employee attains the age of 21 years and has completed one month of service.

(c) Administration

The Employer designates a person or persons to serve as administrator under the Plan, who shall perform all such duties as are necessary to operate, administer, and manage the Plan. The expenses necessary to administer the Plan shall be borne by the Employer, including necessary professional assistance.

(d) Contributions

Each active participant may enter into a written salary deferral agreement with the Employer in which the employee may elect to defer an amount from 1% to 15% of his or her compensation. Beginning January 1, 2002, the employee limitation was increased. The Employer, at its discretion, may make a matching contribution in an amount up to 50% of the employee contribution, not to exceed limitations set forth by the Plan. The Employer may also make an annual Employer discretionary contribution under the Plan in an amount that the Employer's Board of Directors shall determine by resolution. The allocation of this discretionary contribution shall be made in the proportion that the compensation paid to each participant during the Plan year bears to the compensation paid to all such participants, subject to limitation set forth by the Plan. The Employer has the ability to make discretionary matching contributions in cash or Cytogen Common Stock.

## Edgar Filing: CYTOGEN CORP - Form 11-K

The Plan also permits the rollover of cash transferred from other employee benefit plans which are qualified under the IRC. Rollovers of cash are included as part of asset additions in the statement of changes in net assets available for benefits. For the year ended December 31, 2001, rollovers of cash amounted to \$176,470.

(e) Vesting and Forfeitures

A participant's interest in the Employer matching contribution is 100% vested upon the contribution for employees hired prior to January 1, 2000. Employees hired after that date are subject to four year vesting of any Employer contribution. Vesting credit shall be given for each year of service, except plan years during which a participant did not complete at least 1,000 hours of service. If a participant terminates employment and is not 100% vested, the nonvested portion of the participant's account shall be placed in a separate account and will become a forfeiture upon the date such terminated participant incurs a one-year break in service. These forfeitures shall be used by the Employer to reduce the Employer's contribution.

(f) Distributions/Benefits

A participant who attains the normal retirement age shall have a vesting percentage of 100%. If a participant retires from the active service of the Employer on the normal retirement date, then he or she shall receive a distribution of the entire value of their vested participant account or may elect an annuity distribution as permitted under the Plan. A participant who retires from the service of the Employer on account of disability shall have a vesting percentage of 100% and shall receive a distribution of the entire value of their participant account.

(g) Participant Loans

All participants in the Plan may obtain, under certain conditions, a loan secured by the participant's account balance. The amount of all outstanding loans to a participant may not exceed 50% of the participant's vested account balance. The loans are made at a rate equivalent to rates charged by a professional lender in a similar circumstance. Loans are repaid in no more than five years, except if the loan is for the purchase of the participant's primary residence, in which case the repayment period may exceed five years.

The Plan has received a favorable determination letter from the IRS but has not been updated for the most recent plan amendment. However, the plan administrator and the Plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

(5) Plan Termination

In the event of termination, distributions shall be subject to the terms and conditions set forth by the Plan.

(6) Distributions/Benefits Paid to Participants

After reasonable efforts, we have not been able to obtain the written consent of Arthur Andersen LLP ("Arthur Andersen") to our incorporation by reference into the Cytogen Retirement Savings Plan (the "Plan") Registration Statement on Form S-8 (File No. 333-59718) of Arthur Andersen's report dated July 23, 2001 relating to the Plan's financial statements and supplemental schedules included in this Annual Report on Form 11-K for the year ended December 31, 2000.
