The Company today issued the following press release:

First National Lincoln Corporation Reports
Record Year-to-Date EPS, Up 17.5% Over Prior Year

DAMARISCOTTA, ME., October 16 -- First National Lincoln Corporation (Nasdaq NM: FNLC), today announced earnings per share of \$1.95 on a fully diluted basis for the nine months ended September 30, 2002, an increase of 17.5% over the \$1.66 reported for the first nine months of 2001. Net income for the nine months ended September 30, 2002, was \$4,808,000, an increase of \$725,000 or 17.8% over the \$4,083,000 posted in 2001. Both earnings per share and net income reported by the Company for the first nine months set new records in 2002.

The Company also announced earnings per share of \$0.68 on a fully diluted basis for the quarter ended September 30, 2002, an increase of \$0.09 or 15.3% over the \$0.59 reported for the same period in 2001. Net income for the third quarter was \$1,689,000, an increase of \$243,000 or 16.8% over the \$1,446,000 posted in the third quarter of 2001. Both earnings per share and net income reported by the Company for the quarter ended September 30, 2002, set new single-quarter records.

Total assets were \$497.2 million at September 30, 2002 -- an increase of 17.9% over September 30, 2001. Loans totaled \$331.1 million, up 15.1% over September 30, 2001, while investments increased by 17.3% to \$124.1 million. Deposits of \$336.8 million were up 21.3% over the prior year. As of September 30, 2002, First National Lincoln Corporation had total equity of \$42.1 million, an increase of 13.9% or \$5.1 million over September 30, 2001.

"With three great quarters now behind us, 2002 is shaping up to be an excellent year for First National Lincoln Corporation," noted Daniel R. Daigneault, the Company's President & Chief Executive Officer. "Our balance sheet has seen excellent growth in both the loan and investment portfolios, and our deposit growth this year has been exceptional -- especially in core deposits. We are generating new business in all seven of our banking offices, and the performance in Rockland, our newest location which opened just one year ago, has been excellent.

"I am very pleased with the way that we have planned and managed our growth," President Daigneault continued. "Although we opened three new offices during the past five years, we have not pursued growth and disregarded profitability. Instead, our strategy has been to pursue growth opportunities that add to the bottom line in a reasonable period of time. This is noted in Bank & Thrift Quarterly published by Legg Mason, where we had the fourth best efficiency ratio in our peer group of the banking companies they cover on a national basis, and is ultimately reflected in our return on average equity, where the same Legg Mason publication ranked us eleventh in our peer group as of June 30, 2002."

"Our shareholders have been well rewarded this year," observed F. Stephen Ward, the Company's Treasurer & Chief Financial Officer, "with our shares up 29.2% or \$6.45 as of last night's close at \$28.55 per share. This is in sharp contrast to the 23.2% decline seen in the S&P 500 during the same period. Our price/earnings ratio is 11.4 based on trailing twelve months' earnings and last night's closing price of \$28.55, and our dividend yield currently stands at 3.5%. In our opinion, these factors suggest that FNLC shares continue to offer an excellent buying opportunity -- despite this year's increase -- especially considering that we are currently trading below the high of \$32.00 per share that was set earlier this year."
