SJW CORP. (AMEX: SJW) ANNOUNCES FOURTH QUARTER AND RECORD 2003 FINANCIAL RESULTS

SAN JOSE, CA, January 29, 2004 - SJW Corp. (AMEX:SJW) announced record earnings for the year ended December 31, 2003 of \$18.7 million compared to \$14.2 million for the same period in 2002. The increase was due primarily to the sale of a non-utility property and earnings from its utility operation.

Fourth Quarter 2003

SJW Corp.'s basic earnings per common share for the quarter ended December 31, 2003, adjusted for the three-for-one common stock split announced by the SJW Corp. earlier today, were \$0.33 per share compared to \$0.30 per share, as adjusted, for the same quarter in 2002.

Customer demand in the fourth quarter of 2003 was lower than the same period in 2002 by approximately 4%. Operating revenue for the fourth quarter of 2003 was \$34,639,000 versus \$33,085,000 for the same period in 2002, representing an increase of \$1,554,000 or 5%. Approximately \$1,226,000 of the total revenue increase was primarily attributable to cumulative rate increases of 8% in its utility operation.

Total water production costs for the fourth quarter of 2003 consisting of purchased water, power and pump taxes, decreased \$291,000, or 2% from the fourth quarter of 2002. The decrease was primarily attributable to reduced water production costs of \$494,000 due to lower customer demand and \$856,000 due to greater availability of less costly surface water, partially offset by the increases in the cost of purchased water and pump tax of \$1,059,000. Total quarterly operating expenses for the fourth quarter of 2003, excluding water production costs and income taxes, increased \$1,038,000 or 8% from 2002. SJW Corp.

Edgar Filing: SJW CORP - Form 8-K

experienced increases principally of: \$446,000 in salaries and related costs, \$283,000 in pension costs primarily as a result of the decline in market value of retirement trust assets, and \$323,000 in depreciation expense primarily on added utility plant. Income tax expense for the fourth quarter of 2003 was higher in comparison to the same period of 2002 due to higher earnings in 2003.

Year ended December 31, 2003

Earnings per common share for the year ended December 31, 2003, as adjusted for the three-for-one common stock split, were \$2.04 compared to \$1.56, as adjusted, for the year ended 2002. The increase in year-to-date earnings was mainly due to the sale of a non-utility property in the first quarter of 2003, which resulted in an after-tax gain of \$3,030,000, or \$0.33 per share as adjusted.

Operating revenue for the year ended December 31, 2003 was \$149,732,000 versus \$145,652,000 for 2002. The increase of \$4,080,000 in operating revenue was mainly due to the above-mentioned cumulative rate increases in its utility operation.

Total water production costs for 2003 decreased \$4,048,000, or 6% from 2002 primarily due to reduced water production costs of \$3,742,000 as a result of lower customer demand and \$3,879,000 due to greater availability of less costly surface water, partially offset by the increases in the cost of purchased water, and pump tax of \$3,573,000. Year-to-date operating expenses, excluding water production costs and income taxes, increased \$4,861,000 from 2002. The increases consisted principally of: \$1,326,000 in salaries and related costs, \$1,131,000 in pension costs for reasons explained above, \$1,212,000 in depreciation expense on added utility plant, \$645,000 in taxes other than income taxes and \$980,000 in insurance related costs. Income tax expense for 2003 was higher in comparison to 2002 due to higher earnings in 2003.

For the twelve months ended December 31, 2003, the changes in other comprehensive income included an adjustment of \$2,434,000 on an increase in the market value of investment in California Water Service Group, offset by an increase of \$399,000 in comprehensive loss associated with the minimum pension liability of the pension plans.
