Item 2.05 Costs Associated with Exit or Disposal Activities.

On February 7, 2019, the Company announced that it was combining its women's and maternal health sales forces into one integrated sales team. This combined sales force will promote both Intrarosa and Makena and will provide healthcare professionals with one commercial point of contact as well as maximize efficiency and effectiveness for the promotion of the Company's commercial products. The Company will reduce its overall headcount by approximately 110 employees, approximately 100 of which were part of its field-based commercial organization with the remainder coming from its general and administrative functions. This workforce reduction is expected to be substantially completed in the first quarter of 2019.

As a result of these efforts, the Company expects to record restructuring charges and incur future cash expenditures totaling approximately \$6.0 million in connection with the workforce reduction.

The charges that the Company expects to incur in connection with the workforce reduction are estimates and subject to a number of assumptions, and actual results may differ materially. The Company may incur additional costs not currently contemplated due to events associated with or resulting from the workforce reduction.

Forward-Looking Statements

This report contains forward-looking information about the Company within the meaning of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. Any statements contained herein or therein which do not describe historical facts, including, among others, expectations for the Company’s restructuring initiative, including the expected charges, the timing for incurring such charges and the timing for completing the workforce reductions are forward-looking statements which involve risks and uncertainties that could cause actual results to differ materially from those discussed in such forward-looking statements.

Such risks and uncertainties include, among others, the risk that the Company’s restructuring initiative will not have the anticipated benefits, the actual charges that the Company incurs in connection with the workforce reduction may differ from those estimated as of the date of this report, the Company may incur additional costs not currently contemplated due to events associated with or resulting from the workforce reduction, the Company’s business may be disrupted as a result of the restructuring initiative, which could cause management distraction, the possibility that the workforce reduction will lead to additional and unexpected turnover, challenges with commercialization efforts of the Company’s portfolio of products and product candidates and supporting the Company’s business with the combined and streamlined sales force, as well as those risks identified in the Company’s filings with U.S. Securities and Exchange Commission (the “Commission”), including its Annual Report on Form 10-K for the year ended December 31, 2017, its Quarterly Reports on Form 10-Q for the quarters ended June 30, 2018 and September 30, 2018, its Current Reports and subsequent filings with the Commission, which are available at the Commission’s website at www.sec.gov. Any such risks and uncertainties could materially and adversely affect the Company’s results of operations, its profitability

and its cash flows, which would, in turn, have a significant and adverse impact on the Company's stock price. The Company cautions you not to place undue reliance on any forward-looking statements, which speak only as of the date they are made.
