Franklin Templeton Investments

GAIN FROM OUR PERSPECTIVE

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups--Franklin, Templeton and Mutual Series.

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a leader in tax-free investing and a driving force in fixed income investing around the globe. They also bring expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with research offices in over 25 countries, they offer investors the broadest global reach in the industry.

MUTUAL SERIES. Established in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among undervalued stocks, arbitrage situations and distressed companies.

Because our management groups work independently and adhere to distinctly different investment approaches, Franklin, Templeton and Mutual Series funds typically have a low overlap of securities. That's why our funds can be used to build truly diversified portfolios covering every major asset class.

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable account services that have helped us become one of the most trusted names in financial services.

We are pleased to bring you Templeton Emerging Market Fund's annual report for the fiscal year ended August 31, 2003.

PERFORMANCE OVERVIEW

For the 12 months under review, Templeton Emerging Markets Fund delivered cumulative total returns of +50.83% based on market price and +25.88% based on

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSR

net asset value, as shown in the Performance Summary on page 6. The Morgan Stanley Capital International (MSCI) Emerging Markets Free Index posted a 29.27% cumulative total return for the same period.¹

ECONOMIC AND MARKET OVERVIEW

During the first half of the Fund's fiscal year, most markets experienced losses as concerns over the attacks in Afghanistan and high oil prices rattled investor confidence. As military action spread to Iraq, investors stayed on the sidelines. However, a quicker-than-expected resolution to the Iraq conflict helped allay some market concerns and emerging markets rebounded by period-end. The emerging markets asset class outperformed U.S., European and Japanese markets during the reporting period.

Asian markets did not benefit from the end of the Iraq war as the region struggled with a severe acute respiratory syndrome (SARS) outbreak. Travel to the region, particularly to Hong Kong, China and Taiwan, was negatively impacted. South-east Asian nations such as Thailand, Singapore and Indonesia were also affected. Thus, travel-related industries suffered as passenger travel declined and hotel occupancy rates fell. Market reaction to the outbreak seemed disproportionate to its

economic impact, with panic-selling exerting pressure on Asian markets. However, as health authorities brought the virus' spread under control, bargain investors returned in search of oversold stocks, allowing regional markets to rebound and end the period with an increase.

Eastern European markets rose as prospective candidates successfully passed referendums for accession into the European Union (EU) next year. Domestic matters dominated Latin American news. Brazilian President Lula's popularity contributed to a new wave of investor confidence and Brazil's market ended the period with gains. However, political tensions in Venezuela and lack of reform in Argentina hurt their markets.

INVESTMENT STRATEGY

Our investment strategy employs a "bottom-up," value-oriented, long-term approach. We focus on the market price of a company's securities relative to our evaluation of the company's long-term earnings, asset value and cash flow potential. As we look for investments, we focus on specific companies and undertake in-depth research to construct an action list from which we make our buy decisions. Before we make a purchase, we generally look at the company's potential for earnings and growth over a five-year horizon. During our analysis,

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSR

we also consider the company's position in its sector, the economic framework and political environment.

MANAGER'S DISCUSSION

During the year under review, we repositioned the Fund's Asian exposure by making selective purchases in Taiwan and Singapore, and reducing holdings in Thailand and Indonesia. We made key investments in Taiwanese technology companies as signs of a recovering global technology sector appeared. Examples included Sunplus Technology, Taiwan's third-largest fabless (a business model concentrating on design and marketing while outsourcing production) consumer and multimedia integrated circuit company; and D-Link, the largest networking manufacturer outside the U.S. In Singapore, we increased our exposure to Singapore Airlines as the company's stock fell primarily due to the SARS outbreak. We also initiated a position in DBS Group Holdings, one of southeast Asia's largest and one of the world's top 100 banking groups.

In Latin America, we eliminated the Fund's exposure to Peru as we sold Credicorp due to its higher valuation relative to regional peers. We increased our Petroleo Brasileiro (Petrobras) holdings because of its proven reserves and strong production

growth rates, increasing the Fund's Brazilian weighting. With the accession of 10 central and eastern European countries into the EU formally approved for next year, we searched for attractive stocks that could benefit from this integration. Thus, the Fund increased several holdings in Hungary, Croatia and Greece. Elsewhere in Europe, we realized gains on selective holdings in Turkey and Russia following these markets' positive performances during the period.

The Fund's country weightings influenced performance. Our overweighted positions in China and Turkey relative to the MSCI Emerging Markets Free Index benefited the Fund. The Fund's underweighted position in Malaysia also contributed to Fund performance. However, our overweighted positions in Hong Kong and underweighted positions in Israel and Russia negatively impacted the Fund. Anticipating the potential for a recovery, we bought several Hong Kong stocks when share prices fell due to SARS. We remained cautious about Israel due to continued instability in the Middle East region, and we found few potential Russian investments because of poor liquidity and expensive valuations.

By industry, the Fund's holdings in financials, industrials and energy sectors yielded the greatest contribution relative to the MSCI Emerging Markets Free Index during the period. Financial companies that performed well included Brazil's Banco Bradesco and Turkey's Akbank. We continued to favor these banks due to their appealing valuations. In the industrials sector, India's Grasim (sold by period-end) and South Africa's Barloworld generated positive performance. Among India's top three cement manufacturers, Grasim benefited from solid market share. Barloworld's attractiveness stemmed from its successful internationalization drive and strong cash flow. Brazil's Petrobras and Turkey's

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSR

Tupras-Turkiye Petrol Rafineleri led performance in energy. Tupras enjoys dominant market share in Turkey's energy sector. Conversely, the health care, materials and utilities sectors underperformed.

It is important to note that investing in foreign securities involves special risks, such as adverse economic, social and political developments in the countries where the Fund invests, as well as market and currency volatility. Emerging markets securities involve heightened risks related to the same factors in addition to those associated with their relatively small size and lesser liquidity. Investing in any emerging market means accepting a certain amount of volatility and, in some cases, the consequences of severe market corrections.

Performance Summary as of 8/31/03

Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses. Capital gain distributions are net profits realized from the sale of portfolio securities. Total return reflects the Fund's dividend income, capital gain distributions, if any, and any unrealized gains or losses. All total returns include reinvested distributions according to the terms specified in the Fund's dividend reinvestment and cash purchase plan and do not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases. The performance table does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the sale of Fund shares.

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSR

Templeton Emerging Markets Fund (the Fund, formerly Templeton Emerging Markets Fund, Inc.) is registered under the Investment Company Act of 1940 as a closed-end, diversified investment company. Effective November 1, 2002, the Fund was reorganized from a Maryland corporation into a Delaware statutory trust. The reorganization had no effect on shares of the Fund or its investment portfolio. The Fund seeks long-term capital appreciation by investing mainly in emerging country equity securities. The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Securities listed or traded on a recognized national exchange or NASDAQ are valued at the last reported sales price. Over-the-counter securities and listed securities for which no sale is reported are valued within the range of the latest quoted bid and asked prices. Securities for which market quotations are not readily available are valued at fair value as determined by management in accordance with procedures established by the Board of Trustees.

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities and income items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. FOREIGN CURRENCY CONTRACTS

When the Fund purchases or sells foreign securities it may enter into foreign exchange contracts to minimize foreign exchange risk from the trade date to the settlement date of the transactions. A foreign exchange contract is an agreement between two parties to exchange different currencies at an agreed upon exchange rate on a specified date. Realized and unrealized gains and losses are included in the Statement of Operations.

The risks of these contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the possible inability of the counterparties to fulfill their obligations under the contracts.

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. INCOME TAXES

No provision has been made for income taxes because the Fund's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable income.

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Certain income from foreign securities is recorded as soon as information is available to the Fund. Interest income and estimated expenses are accrued daily. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

F. DEFERRED TAXES

Deferred taxes are recorded for estimated tax liabilities inherent in each Fund's portfolio securities which may arise from subsequent sales of those securities and corresponding asset repatriations from countries that impose such taxes.

G. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expense during the reporting period. Actual results could differ from those estimates.

H. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and trustees are indemnified against certain liability arising out of the performance of their duties to the Funds. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

2. CAPITAL SHARES

On November 29, 2000, the Board of Trustees of the Fund authorized management to implement an open-market share repurchase program pursuant to which the Fund may purchase, from time to time, shares of the Fund's common stock in open-market transactions, at the discretion of management.

At August 31, 2003, there were 30 million shares authorized (\$0.01 par value). During the year ended August 31, 2003 and the year ended August 31, 2002, there were no share repurchase transactions.

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSR

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. TRANSACTIONS WITH AFFILIATES

Certain officers of the Fund are also officers or directors of Templeton Asset Management Ltd. (TAML) and Franklin Templeton Services, LLC (FT Services), the Fund's investment manager and administrative manager, respectively.

The Fund pays an investment management fee to TAML of 1.25% per year of the Fund's average daily net assets. The Fund pays an administrative fee monthly to FT Services at an annual rate of 0.15% per year of the Fund's average daily net assets.

4. INCOME TAXES

At August 31, 2003, the cost of investments, net unrealized appreciation (depreciation), and undistributed ordinary income for income tax purposes were as follows:

Cost of investments	\$164,623,254	-----
Unrealized appreciation	33,840,466	
Unrealized depreciation	(8,463,553)	-----
Net unrealized appreciation (depreciation)	\$ 25,376,913	=====
Distributable earnings - ordinary income	\$ 3,740,345	=====

The tax character of distributions paid during the years ended August 31, 2003 and 2002, was as follows:

	----- 2003 -----	----- 2002 -----
Distributions paid from:		
Ordinary income	\$2,646,700	\$1,894,536

Net investment income and net realized capital gains differ for financial statement and tax purposes primarily due to differing treatments of passive foreign investment companies, wash sales and losses realized subsequent to October 31 on the sale of foreign currencies.

Templeton Emerging Markets Fund

4. INCOME TAXES (CONTINUED)

At August 31, 2003, the Fund had tax basis capital losses which may be carried

over to offset future capital gains. Such losses expire as follows:

Capital loss carryovers expiring in:	
2008	\$ 1,056,614
2009	2,373,131
2010	30,608,800
2011	7,846,360

	\$41,884,905
	=====

At August 31, 2003, the Fund had deferred currency losses occurring subsequent to October 31, 2002 of \$270,525. For tax purposes, such losses will be reflected in the year ending August 31, 2004.

5. INVESTMENT TRANSACTIONS

Purchases and sales of securities (excluding short-term securities) for the year ended August 31, 2003 aggregated \$79,500,243 and \$75,458,881, respectively.

6. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Franklin Advisers Inc. (an affiliate of the advisor). Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund in an amount not to exceed the management fees paid by the Sweep Money Fund. The Fund earned \$55,207 of dividend income from investment in the Sweep Money Fund for the year ended August 31, 2003.

INDEPENDENT AUDITORS' REPORT

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF TEMPLETON EMERGING MARKETS FUND

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of the Templeton Emerging Markets Fund (the "Fund," formerly Templeton Emerging Markets Fund, Inc.) at August 31, 2003, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles

TAX DESIGNATION (UNAUDITED)

Under Section 854(b)(2) of the Internal Revenue Code, the Fund hereby designates up to a maximum of \$3,020,329 as qualified dividends for purposes of the maximum rate under Section 1(h)(11) of the Code for the fiscal year ended August 31, 2003. In January 2004 shareholders will receive Form 1099-DIV which will include their share of qualified dividends distributed during the calendar year 2003. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their individual income tax returns.

At August 31, 2003, more than 50% of the Fund's total assets were invested in securities of foreign issuers. In most instances, foreign taxes were withheld from dividends paid to the Fund on these investments. As shown in the table below, the Fund hereby designates to shareholders the foreign source income and foreign taxes paid, pursuant to Section 853 of the Internal Revenue Code. This designation will allow shareholders of record on November 6, 2003, to treat their proportionate share of foreign taxes paid by the Fund as having been paid directly by them. The shareholder shall consider these amounts as foreign taxes paid in the tax year in which they receive the Fund distribution.

The following table provides a breakdown by country of foreign source income and foreign taxes paid, as designated by the Fund to shareholders.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

Shareholders must affirmatively elect to participate in the Plan; Stock dividends and capital gains distributions will be reinvested automatically; Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938, will provide additional Plan information upon request.

Whenever the Fund declares dividends in either cash or common stock of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in stock at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional payments to Mellon Bank, N.A. (the "Plan Agent"), in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments shall be made by check or money order payable to "Mellon Bank, N.A." and sent to Mellon Investor Services, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attn: Templeton Emerging Markets Fund. The Plan Agent shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of Fund shares on the open market.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax that may be payable on dividends or distributions.

The participant may withdraw from the Plan without penalty at any time by written notice to the Plan Agent sent to Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938. Upon withdrawal, the participant will receive, without charge, stock certificates issued in the participant's name for all full shares held by the Plan Agent; or, if the participant wishes, the Plan Agent will sell the participant's shares and send the proceeds, less a service charge of \$5.00 and less trading fees.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested.

Investors should be aware that the value of investments made for the Fund may go down as well as up. Like any investment in securities, the value of the Fund's portfolio will be subject to the risk of loss from market, currency, economic, political and other factors. The Fund and its investors are not protected from such losses by the Investment Manager. Therefore, investors who cannot accept this risk should not invest in shares of the Fund.

To ensure the highest quality of service, telephone calls to or from our service departments may be monitored, recorded and accessed. These calls can be identified by the presence of a regular beeping tone.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The board of trustees of the Trust has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's manager, Templeton Asset Management, Ltd., in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the manager.

The manager has delegated its administrative duties with respect to the voting of proxies to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the manager's instructions and/or policies.

To assist it in analyzing proxies, the manager subscribes to Institutional Shareholder Services (ISS), an unaffiliated third party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, recordkeeping and vote disclosure services. Although ISS' analyses are thoroughly reviewed and considered in making a final voting decision, the manager does not consider recommendations from ISS or any other third party to be determinative of the manager's ultimate decision. The manager votes proxies solely in the interests of the Fund and its shareholders. As a matter of policy, the officers, directors and employees of the Fund, the manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. All conflicts are resolved in the interests of the manager's clients. In situations where the manager perceives a material conflict of interest, the manager may: disclose the conflict to the Fund's board of trustees; defer to the voting recommendation of the Fund's board of trustees, ISS or those of another independent third party provider of proxy services; or take such other action in good faith (in consultation with counsel) which would protect the interests of the Fund and its shareholders.

The recommendation of management on any issue is a factor which the manager considers in determining how proxies should be voted, but is not determinative of the manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

MANAGER'S PROXY VOTING POLICIES AND PRINCIPLES The manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the manager cannot anticipate all future situations. In all cases, each proxy will be considered based on the relevant facts and circumstances.

BOARD OF DIRECTOR. The manager supports an independent board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The manager may withhold votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the manager will review this issue as well as proposals to restore or provide for

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSR

cumulative voting on a case-by-case basis taking into consideration factors such as the company's corporate governance guidelines or provisions and performance.

MANAGEMENT & DIRECTOR COMPENSATION. A company's equity-based compensation plan should be in alignment with its shareholders' long-term interests. The manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans. The manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the manager will generally oppose "golden parachutes" that are considered to be excessive. The manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as they align their interests with those of shareholders. The manager will review on a case-by-case basis any shareholder proposals to adopt policies on expensing stock option plans.

ANTI-TAKEOVER MECHANISMS AND RELATED ISSUES. The manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. On occasion, the manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. The manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The manager generally supports "fair price" provisions and confidential voting.

CHANGES TO CAPITAL STRUCTURE. The manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase and proposals seeking preemptive rights. The manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable.

MERGERS AND CORPORATE RESTRUCTURING. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether each will be beneficial to shareholders. The manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring and reincorporation proposals are also subject to a thorough examination on a case-by-case basis.

SOCIAL AND CORPORATE POLICY ISSUES. The manager will generally give management discretion with regard to social, environmental and ethical issues, although the manager may vote in favor of those that are believed to have significant economic benefits or implications for the Fund and its shareholders.

GLOBAL CORPORATE GOVERNANCE. Many of the tenets discussed above are applied to proxy voting decisions for international companies. However, the manager must be more flexible in these instances and must be mindful of the varied market practices of each region.

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSR

The manager will attempt to process every vote it receives for all domestic and foreign proxies. However, there may be situations in which the manager cannot process proxies, for example, where a meeting notice was received too late, or sell orders preclude the ability to vote. The manager may abstain from voting under certain circumstances or vote against items such as "Other Business" when the manager is not given adequate information from the company.

Copies of the Fund's proxy voting records will also be made available on-line at www.franklintempleton.com and posted on the SEC website at www.sec.gov no later than August 31, 2004 and will reflect the twelve-month period beginning July 1, 2003, and ending June 30, 2004

ITEM 9. CONTROLS AND PROCEDURES.

(a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSR, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(B) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Shareholder Report on Form N-CSR.
