Vail Resorts, Inc.
Notes to Consolidated Condensed Financial Statements
(Unaudited)

1. Organization and Business

Vail Resorts, Inc. (“Vail Resorts” or the “Parent Company”) is organized as a holding company and operates through various subsidiaries. Vail Resorts and its subsidiaries (collectively, the “Company”) currently operate in three business segments: Mountain, Lodging and Real Estate. In the Mountain segment, the Company operates the seven world-class ski resort properties of Vail, Breckenridge, Keystone and Beaver Creek mountain resorts in Colorado, and Heavenly, Northstar and Kirkwood mountain resorts in the Lake Tahoe area of California and Nevada; the ski areas of Afton Alps in Minnesota and Mount Brighton in Michigan (“Urban Ski Areas”); as well as ancillary services, primarily including ski school, dining and retail/rental operations. The resorts (with the exception of Northstar and the Urban Ski Areas) operate primarily on Federal land under the terms of Special Use Permits granted by the USDA Forest Service (the “Forest Service”). In the Lodging segment, the Company owns and/or manages a collection of luxury hotels under its RockResorts brand, as well as other strategic lodging properties and a large number of condominiums located in proximity to the Company’s ski resorts; National Park Service (“NPS”) concessionaire properties including the Grand Teton Lodge Company (“GTLC”), which operates destination resorts in the Grand Teton National Park; Colorado Mountain Express (“CME”), a Colorado resort ground transportation company; and mountain resort golf courses. Vail Resorts Development Company (“VRDC”), a wholly-owned subsidiary, conducts the operations of the Company’s Real Estate segment, which owns and develops real estate in and around the Company’s resort communities. The Company’s mountain business and its lodging properties at or around the Company’s ski resorts are seasonal in nature with peak operating seasons from mid-November through mid-April. The Company’s operations at its NPS concessionaire properties and its golf courses generally operate from mid-May through mid-October. The Company also has non-majority owned investments in various other entities, some of which are consolidated (see Note 7, Variable Interest Entities).

2. Summary of Significant Accounting Policies

Basis of Presentation

Consolidated Condensed Financial Statements— In the opinion of the Company, the accompanying Consolidated Condensed Financial Statements reflect all adjustments necessary to state fairly the Company’s financial position, results of operations and cash flows for the interim periods presented. All such adjustments are of a normal recurring nature. Results for interim periods are not indicative of the results for the entire fiscal year. The accompanying Consolidated Condensed Financial Statements should be read in conjunction with the audited Consolidated Financial Statements included in the Company’s Annual Report on Form 10-K for the year ended July 31, 2012. Certain information and footnote disclosures, including significant accounting policies, normally included in fiscal year financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted. The Consolidated Condensed Balance Sheet as of July 31, 2012 was derived from audited financial statements.

Presentation of Comprehensive Income — Effective August 1, 2012, the Company adopted Accounting Standard Update (“ASU”) No. 2011-05 -“Comprehensive Income (Topic 220): Presentation of Comprehensive Income” which amends existing guidance by allowing two options for presenting the components of net income and other comprehensive income: (1) in a single continuous financial statement, a statement of comprehensive income or (2) in two separate but consecutive financial statements, an income statement followed by a separate statement of other comprehensive income. The Company also adopted ASU No. 2011-12—“Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU No. 2011-05” which defers until further notice ASU No. 2011-05’s requirement that items that are reclassified from other comprehensive income to net income be presented on the face of the financial statements (see

below). ASU No. 2011-05 required retrospective application. The adoption of these standards only amended presentation and disclosure requirements concerning comprehensive income; therefore, the adoption of these standards did not affect the Company's financial position or results of operations. The Company elected to present the total of comprehensive income, the components of net income (i.e. statements of operations), and the components of other comprehensive income for both the three and nine months ended April 30, 2013 and 2012, in two separate but consecutive statements.

New Accounting Standards -- In January 2013, the FASB issued ASU No. 2013-02, "Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income", to improve the transparency of reporting these reclassifications. The amendments in this ASU supersede and replace the presentation requirements for reclassifications out of accumulated other comprehensive income in ASU No. 2011-05 (issued in June 2011) and ASU No.

F-6

2011-12 (issued in December 2011). This amendment does not change the current requirements for reporting net income or other comprehensive income in financial statements, but the standard requires that companies present either in a single note or parenthetically on the face of the financial statements, the effect of significant amounts reclassified from each component of accumulated other comprehensive income based on its source and the income statement line items affected by the reclassification. If a component is not required to be reclassified to net income in its entirety, companies would instead cross reference to the related footnote for additional information. The amendments are effective for fiscal years beginning after December 15, 2012 (the Company's 2014 first fiscal quarter). The Company does not currently have any components of other comprehensive income that require reclassification to net income, as such, the adoption of this standard is not expected to have an impact on the presentation of the Company's financial statements.

Use of Estimates— The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Noncontrolling Interests in Consolidated Financial Statements— Net loss attributable to noncontrolling interests along with net income attributable to the stockholders of the Company are reported separately in the Consolidated Condensed Statement of Operations. Additionally, noncontrolling interests in the consolidated subsidiaries of the Company are reported as a separate component of equity in the Consolidated Condensed Balance Sheet, apart from the Company's equity. The following table summarizes the changes in total stockholders' equity (in thousands):

	For the Nine Months Ended April 30,			2012

Fair Value Instruments— The recorded amounts for cash and cash equivalents, trade receivables, other current assets, and accounts payable and accrued liabilities approximate fair value due to their short-term nature. The fair value of amounts outstanding under the Employee Housing Bonds (Note 4, Long-Term Debt) approximate book value due to the variable nature of the interest rate associated with that debt. The fair value of the 6.50% Senior Subordinated Notes due 2019 ("6.50% Notes") (Note 4, Long-Term Debt) are based on quoted market prices (a Level 1 input). The fair value of the Company's Industrial Development Bonds (Note 4, Long-Term Debt) and other long-term debt have

been estimated using discounted cash flow analyses based on current borrowing rates for debt with similar remaining maturities and ratings (a Level 3 input). The estimated fair values of the 6.50% Notes, Industrial Development Bonds and other long-term debt as of April 30, 2013 are presented below (in thousands):

F-7

	April 30, 2013	
	Carrying Value	Fair Value
6.50% Notes	\$390,000	\$420,713
Industrial Development Bonds	\$41,200	\$48,644
Other long-term debt	\$5,983	\$6,696

3. Net Income Per Common Share

Basic earnings per share (“EPS”) excludes dilution and is computed by dividing net income attributable to Vail Resorts stockholders by the weighted-average shares outstanding during the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised, resulting in the issuance of shares of common stock that would then share in the earnings of Vail Resorts. Presented below is basic and diluted EPS for the three months ended April 30, 2013 and 2012 (in thousands, except per share amounts):

	Three Months Ended April 30,			
	2013		2012	
	Basic	Diluted	Basic	Diluted
Net income per share:				
Net income attributable to Vail Resorts	\$97,640	\$97,640	\$79,569	\$79,569
Weighted-average shares outstanding	35,911	35,911	36,032	36,032
Effect of dilutive securities	—	863	—	672
Total shares	35,911	36,774	36,032	36,704
Net income per share attributable to Vail Resorts	\$2.72	\$2.66	\$2.21	\$2.17

The Company computes the effect of dilutive securities using the treasury stock method and average market prices during the period. The number of shares issuable on the exercise of share based awards that were excluded from the calculation of diluted net income per share because the effect of their inclusion would have been anti-dilutive totaled 25,000 and 42,000 for the three months ended April 30, 2013 and 2012, respectively.

Presented below is basic and diluted EPS for the nine months ended April 30, 2013 and 2012 (in thousands, except per share amounts):

	Nine Months Ended April 30,			
	2013		2012	
	Basic	Diluted	Basic	Diluted
Net income per share:				
Net income attributable to Vail Resorts	\$97,611	\$97,611	\$70,250	\$70,250

Net income per share attributable to Vail Resorts	\$2.72	\$2.66	\$1.95	\$1.92

The Company computes the effect of dilutive securities using the treasury stock method and average market prices during the period. The number of shares issuable on the exercise of share based awards that were excluded from the calculation of diluted net income per share because the effect of their inclusion would have been anti-dilutive totaled 10,000 and 24,000 for the nine months ended April 30, 2013 and 2012, respectively.

On June 7, 2011 the Company’s Board of Directors approved the commencement of a regular quarterly cash dividend on the Company’s common stock at an annual rate of \$0.60 per share, subject to quarterly declaration. On March 5, 2012 the Company’s Board of Directors approved a 25% increase to the annual cash dividend to an annual rate

of \$0.75 per share, subject to quarterly declaration. On March 4, 2013 the Company's Board of Directors approved an approximate 10% increase to its annual cash dividend to an annual rate of \$0.83 per share, subject to quarterly declaration. During the three and nine months ended April 30, 2013, the Company paid cash dividends of \$0.2075 and \$0.5825 per share, respectively (\$7.5 million)

F-8

and \$20.9 million, respectively, in the aggregate). During the three and nine months ended April 30, 2012, the Company paid cash dividends of \$0.1875 and \$0.4875 per share, respectively (\$6.8 million and \$17.6 million, respectively, in the aggregate). On June 5, 2013 the Company's Board of Directors declared a quarterly cash dividend of \$0.2075 per share payable on July 9, 2013 to stockholders of record as of June 24, 2013.

4. Long-Term Debt

Long-term debt as of April 30, 2013, July 31, 2012 and April 30, 2012 is summarized as follows (in thousands):

	Maturity (a)	April 30, 2013	July 31, 2012	April 30, 2012
Credit Facility Revolver	2016	\$—	\$—	\$—
Industrial Development Bonds	2020	41,200	41,200	41,200

Less: Current maturities (b)		518	990	1,119
Long-term debt		\$489,240	\$489,775	\$489,757

(a) Maturities are based on the Company's July 31 fiscal year end.

(b) Current maturities represent principal payments due in the next 12 months.

Aggregate maturities for debt outstanding as of April 30, 2013 reflected by fiscal year are as follows (in thousands):

2013	\$9
2014	509
2015	533
2016	244
2017	257
Thereafter	488,206
Total debt	\$489,758

The Company incurred gross interest expense of \$8.4 million for both the three months ended April 30, 2013 and 2012, respectively, of which \$0.5 million was amortization of deferred financing costs. The Company had no capitalized interest during the three months ended April 30, 2013 and 2012. The Company incurred gross interest expense of \$25.3 million and \$25.4 million for the nine months ended April 30, 2013 and 2012, respectively, of which \$1.5 million was amortization of deferred financing costs in both years. The Company had no capitalized interest during the nine months ended April 30, 2013. The Company capitalized \$0.1 million of interest during the nine months ended April 30, 2012.

5. Acquisitions

Skiinfo

On February 1, 2012, the Company acquired the capital stock of Skiinfo, AS, a Norwegian company which owns and operates several European websites focused on the ski and snowboarding industry, for total cash consideration of \$5.7 million, net of cash assumed. The purchase price was allocated to identifiable tangible and intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date. The Company completed its purchase price allocation and recorded \$2.4 million in property, plant and equipment, \$2.7 million in other assets, \$1.8

million in goodwill, \$0.7 million in indefinite-lived intangible assets, \$0.5 million in other intangible assets (with a weighted-average amortization period of 6.7 years), and \$2.6 million of assumed liabilities on the date of acquisition. The operating results of Skiinfo are reported within the Mountain segment.

F-9

Kirkwood Mountain Resort

On April 12, 2012, the Company acquired substantially all of the assets of Kirkwood Mountain Resort (“Kirkwood”), a mountain resort located in Lake Tahoe, California, for total cash consideration of approximately \$18.2 million, net of cash assumed, subject to certain working capital adjustments as provided for in the purchase agreement. The purchase price was allocated to identifiable tangible and intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date. The Company completed its purchase price allocation and recorded \$16.8 million in property, plant and equipment, \$2.5 million in other assets, \$0.8 million in indefinite-lived intangible assets, \$1.2 million in other intangible assets (with a weighted-average amortization period of 21.5 years), and \$3.1 million of assumed liabilities on the date of acquisition. The operating results of Kirkwood are reported within the Mountain segment.

Urban Ski Areas

In December 2012, the Company acquired all of the assets of two ski areas in the Midwest, Afton Alps in Minnesota and Mount Brighton in Michigan, for total cash consideration of \$20.0 million, net of cash assumed. The purchase price was allocated to identifiable tangible and intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date. The Company has completed its preliminary purchase price allocation and has recorded \$17.8 million in property, plant and equipment, \$1.0 million in other assets, \$2.0 million in goodwill, \$1.0 million in other intangible assets (with a weighted-average amortization period of 10 years), and \$1.8 million of assumed liabilities on the date of acquisition. The operating results of Afton Alps and Mount Brighton are reported within the Mountain segment.

7. Variable Interest Entities

The Company is the primary beneficiary of four employee housing entities (collectively, the “Employee Housing Entities”), Breckenridge Terrace, LLC, The Tarnes at BC, LLC, BC Housing, LLC and Tenderfoot Seasonal Housing, LLC, which are variable interest entities (“VIEs”), and has consolidated them in its Consolidated Condensed Financial Statements. As a group, as of April 30, 2013, the Employee Housing Entities had total assets of \$30.3 million (primarily recorded in property, plant and equipment, net) and total liabilities of \$62.9 million (primarily recorded in long-term debt as “Employee Housing Bonds”). The Company’s lenders have issued letters of credit totaling \$53.4 million under the Company's senior credit facility (“Credit Agreement”) related to Employee Housing Bonds. Payments under the letters of credit would be triggered in the event that one of the entities defaults on required payments. The letters of credit have no default provisions.

The Company is the primary beneficiary of Avon Partners II, LLC (“APII”), which is a VIE. APII owns commercial space and the Company currently leases substantially all of that space. APII had total assets of \$4.4 million (primarily recorded in property, plant and equipment, net) and no debt as of April 30, 2013.

8. Fair Value Measurements

The FASB issued fair value guidance that establishes how reporting entities should measure fair value for measurement and disclosure purposes. The guidance establishes a common definition of fair value applicable to all assets and liabilities measured at fair value and prioritizes the inputs into valuation techniques used to measure fair value. Accordingly, the Company uses valuation techniques which maximize the use of observable inputs and minimize the use of unobservable inputs when determining fair value. The three levels of the hierarchy are as follows: Level 1: Inputs that reflect unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities;

Level 2: Inputs include quoted prices for similar assets and liabilities in active and inactive markets or that are observable for the asset or liability either directly or indirectly; and

Level 3: Unobservable inputs which are supported by little or no market activity.

The table below summarizes the Company’s cash equivalents measured at fair value (all other assets and liabilities measured at fair value are immaterial) (in thousands):

Description	Fair Value Measurement as of April 30, 2013

The Company's cash equivalents are measured utilizing quoted market prices or pricing models whereby all significant inputs are either observable or corroborated by observable market data.

9. Commitments and Contingencies

Metropolitan Districts

The Company credit-enhances \$8.0 million of bonds issued by Holland Creek Metropolitan District ("HCMD") through an \$8.1 million letter of credit issued under the Company's Credit Agreement. HCMD's bonds were issued and used to build infrastructure associated with the Company's Red Sky Ranch residential development. The Company has agreed to pay capital improvement fees to Red Sky Ranch Metropolitan District ("RSRMD") until RSRMD's revenue streams from property taxes are sufficient to meet debt service requirements under HCMD's bonds, and the Company has recorded a liability of \$1.8 million primarily within "other long-term liabilities" in the accompanying Consolidated Condensed Balance Sheets, as of April 30, 2013, July 31, 2012 and April 30, 2012, respectively, with respect to the estimated present value of future RSRMD capital improvement fees. The Company estimates that it will make capital improvement fee payments under this arrangement through the year ending July 31, 2028.

Guarantees/Indemnifications

As of April 30, 2013, the Company had various other letters of credit in the amount of \$58.4 million, consisting primarily of \$53.4 million in support of the Employee Housing Bonds and \$3.4 million for workers' compensation and general liability deductibles related to construction and development activities.

In addition to the guarantees noted above, the Company has entered into contracts in the normal course of business which include certain indemnifications under which it could be required to make payments to third parties upon the occurrence or non-occurrence of certain future events. These indemnities include indemnities to licensees in connection with the licensees' use of the Company's trademarks and logos, indemnities for liabilities associated with the infringement of other parties' technology and software products, indemnities related to liabilities associated with the use of easements, indemnities related to employment of contract workers, the Company's use of trustees, indemnities related to the Company's use of public lands and environmental indemnifications. The duration of these indemnities generally is indefinite and generally do not limit the future payments the Company could be obligated to make.

As permitted under applicable law, the Company and certain of its subsidiaries indemnify their directors and officers over their lifetimes for certain events or occurrences while the officer or director is, or was, serving the Company or its subsidiaries in such a capacity. The maximum potential amount of future payments the Company could be required to make under these

F-12

indemnification agreements is unlimited; however, the Company has a director and officer insurance policy that should enable the Company to recover a portion of any future amounts paid.

Unless otherwise noted, the Company has not recorded any significant liabilities for the letters of credit, indemnities and other guarantees noted above in the accompanying Consolidated Condensed Financial Statements, either because the Company has recorded on its Consolidated Condensed Balance Sheets the underlying liability associated with the guarantee, the guarantee is with respect to the Company's own performance and is therefore not subject to the measurement requirements as prescribed by GAAP, or because the Company has calculated the fair value of the indemnification or guarantee to be immaterial based upon the current facts and circumstances that would trigger a payment under the indemnification clause. In addition, with respect to certain indemnifications it is not possible to determine the maximum potential amount of liability under these guarantees due to the unique set of facts and circumstances that are likely to be involved in each particular claim and indemnification provision. Historically, payments made by the Company under these obligations have not been material.

As noted above, the Company makes certain indemnifications to licensees in connection with their use of the Company's trademarks and logos. The Company does not record any liabilities with respect to these indemnifications.

Self Insurance

The Company is self-insured for claims under its health benefit plans and for the majority of workers' compensation claims, subject to a stop loss policy. The self-insurance liability related to workers' compensation is determined actuarially based on claims filed. The self-insurance liability related to claims under the Company's health benefit plans is determined based on analysis of actual claims. The amounts related to these claims are included as a component of accrued benefits in accounts payable and accrued liabilities (see Note 6, Supplementary Balance Sheet Information).

Legal

The Company is a party to various lawsuits arising in the ordinary course of business. Management believes the Company has adequate insurance coverage and/or has accrued for loss contingencies for all known matters that are deemed to be probable losses and estimable. As of April 30, 2013, July 31, 2012 and April 30, 2012, the accrual for the above loss contingencies was not material individually and in the aggregate.

10. Segment Information

The Company has three reportable segments: Mountain, Lodging and Real Estate. The Mountain segment includes the operations of the Company's ski resorts/areas and related ancillary services. The Lodging segment includes the operations of all of the Company's owned hotels, RockResorts, NPS concessionaire properties, condominium management, CME and mountain resort golf operations. The Real Estate segment owns and develops real estate in and around the Company's resort communities. The Company's reportable segments, although integral to the success of each other, offer distinctly different products and services and require different types of management focus. As such, these segments are managed separately.

The Company reports its segment results using Reported EBITDA (defined as segment net revenue less segment operating expenses, plus or minus segment equity investment income or loss), which is a non-GAAP financial measure. The Company reports segment results in a manner consistent with management's internal reporting of operating results to the chief operating decision maker (the Chief Executive Officer) for purposes of evaluating segment performance.

Reported EBITDA is not a measure of financial performance under GAAP. Items excluded from Reported EBITDA are significant components in understanding and assessing financial performance. Reported EBITDA should not be considered in isolation or as an alternative to, or substitute for, net income, net change in cash and cash equivalents or other financial statement data presented in the Consolidated Condensed Financial Statements as indicators of financial performance or liquidity. Because Reported EBITDA is not a measurement determined in accordance with GAAP and thus is susceptible to varying calculations, Reported EBITDA as presented may not be comparable to other similarly titled measures of other companies.

Edgar Filing: VAIL RESORTS INC - Form 10-Q

The Company utilizes Reported EBITDA in evaluating performance of the Company and in allocating resources to its segments. Mountain Reported EBITDA consists of Mountain net revenue less Mountain operating expense plus or minus Mountain equity investment income or loss. Lodging Reported EBITDA consists of Lodging net revenue less Lodging operating expense. Real Estate Reported EBITDA consists of Real Estate net revenue less Real Estate operating expense. All segment expenses include an allocation of corporate administrative expenses. Assets are not allocated between segments, or used to evaluate performance, except as shown in the table below.

11. Stock Repurchase Plan

Edgar Filing: VAIL RESORTS INC - Form 10-Q

On March 9, 2006, the Company's Board of Directors approved the repurchase of up to 3,000,000 shares of common stock and on July 16, 2008 approved an increase of the Company's common stock repurchase authorization by an additional 3,000,000 shares. The Company did not repurchase any shares of common stock during the three and nine months ended April 30, 2013. Since inception of its stock repurchase program through April 30, 2013, the Company has repurchased 4,949,111 shares at a cost of approximately \$193.2 million. As of April 30, 2013, 1,050,889 shares remained available to repurchase under the

F-14

existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under the Company's employee share award plan.

12. Guarantor Subsidiaries and Non-Guarantor Subsidiaries

The Company's payment obligations under the 6.50% Notes (see Note 4, Long-Term Debt) are fully and unconditionally guaranteed on a joint and several, senior subordinated basis by substantially all of the Company's consolidated subsidiaries (collectively, and excluding Non-Guarantor Subsidiaries (as defined below), the "Guarantor Subsidiaries"), except for Eagle Park Reservoir Company, Larkspur Restaurant & Bar, LLC, Black Diamond Insurance, Inc., Skiinfo AS and certain other insignificant entities (together, the "Non-Guarantor Subsidiaries"). APII and the Employee Housing Entities are included with the Non-Guarantor Subsidiaries for purposes of the consolidated financial information, but are not considered subsidiaries under the indenture governing the 6.50% Notes.

Presented below is the consolidated financial information of the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries. Financial information for the Non-Guarantor Subsidiaries is presented in the column titled "Other Subsidiaries." Balance sheets are presented as of April 30, 2013, July 31, 2012, and April 30, 2012. Statements of operations and statements of comprehensive income (loss) are presented for the three and nine months ended April 30, 2013 and 2012. Statements of cash flows are presented for the nine months ended April 30, 2013 and 2012.

Investments in subsidiaries are accounted for by the Parent Company and Guarantor Subsidiaries using the equity method of accounting. Net income (loss) of Guarantor and Non-Guarantor Subsidiaries is, therefore, reflected in the Parent Company's and Guarantor Subsidiaries' investments in and advances to (from) subsidiaries. Net income (loss) of the Guarantor and Non-Guarantor Subsidiaries is reflected in Guarantor Subsidiaries and Parent Company as equity in consolidated subsidiaries. The elimination entries eliminate investments in Other Subsidiaries and intercompany balances and transactions for consolidated reporting purposes.

13. Subsequent Event

VR CPC Holdings, Inc. (“VR CPC”), a wholly-owned subsidiary of the Company, and affiliate companies of Talisker Corporation (“Talisker”) entered into a Transaction Agreement, Master Agreement of Lease (the “Lease”) and ancillary transaction documents, pursuant to which the Company assumed the resort operations of Canyons Resort, which includes the ski area and related amenities, effective May 29, 2013. Additionally, these documents set forth the rights and obligations of the parties with respect to the acquisition of certain real estate and personal property, future resort development, access, water rights, intellectual property, transition services, and rights with respect to ongoing litigation between the current operator and Talisker related to the validity of a lease of the Talisker owned land under the ski terrain of Park City Mountain Resort. If the outcome of the litigation is favorable to Talisker, the land under the ski terrain of Park City Mountain Resort will become subject to the Lease. If the outcome of the litigation is unfavorable to Talisker, the Company will be entitled to receive from Talisker the rent payments that Talisker receives from the current resort operator until such time as the current resort operator's lease has ended and the ski terrain under Park City Mountain Resort is then included in the Lease.

The Lease between VR CPC and Talisker has an initial term of 50 years with six 50-year renewal options. The Lease provides for \$25 million in annual fixed payments, which increase each year by an inflation linked index of CPI less 1%, with a floor of 2% per annum. In addition, the Lease includes participating contingent payments to Talisker of 42% of the amount by which EBITDA for the resort operations, as calculated under the Lease, exceeds approximately \$35 million, with such threshold amount increased by an inflation linked index and a 10% adjustment for any capital improvements or investments made under the Lease by the Company. The inclusion of the ski terrain of Park City Mountain Resort in the Lease would require no additional consideration from VR CPC, but the financial contribution, if any, of the additional ski terrain would be included as part of the calculation of EBITDA for the resort operations, and as a result, factor into the participating contingent payment component of the Lease payment as described above. The Parent Company has guaranteed the obligations of VR CPC under the Lease.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our Annual Report on Form 10-K for the year ended July 31, 2012 ("Form 10-K") and the Consolidated Condensed Financial Statements as of April 30, 2013 and 2012 and for the three and nine months then ended, included in Part I, Item 1 of this Form 10-Q, which provide additional information regarding our financial position, results of operations and cash flows. To the extent that the following Management's Discussion and Analysis contains statements which are not of a historical nature, such statements are forward-looking statements which involve risks and uncertainties. See "Forward-Looking Statements" below. These risks include, but are not limited to those discussed in this Form 10-Q and in our other filings with the Securities and Exchange Commission ("SEC"), including the risks described in Item 1A "Risk Factors" of Part I of the Form 10-K.

The following Management's Discussion and Analysis includes a discussion of the financial performance of each of our segments. We have chosen to specifically include Reported EBITDA (defined as segment net revenue less segment operating expense, plus or minus segment equity investment income or loss) and Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents), in the following discussion because we consider these measures to be significant indications of our financial performance and available capital resources. Reported EBITDA and Net Debt are not measures of financial performance or liquidity under accounting principles generally accepted in the United States of America ("GAAP"). We utilize Reported EBITDA in evaluating our performance and in allocating resources to our segments. Refer to the end of the Results of Operations section for a reconciliation of Reported EBITDA to net income attributable to Vail Resorts, Inc. We also believe that Net Debt is an important measurement as it is an indicator of our ability to obtain additional capital resources for our future cash needs. Refer to the end of the Results of Operations section for a reconciliation of Net Debt to long-term debt. Items excluded from Reported EBITDA and Net Debt are significant components in understanding and assessing financial performance or liquidity. Reported EBITDA and Net Debt should not be considered in isolation or as an alternative to, or substitute for, net income, net change in cash and cash equivalents or other financial statement data presented in the Consolidated Condensed Financial Statements as indicators of financial performance or liquidity. Because Reported EBITDA and Net Debt are not measurements determined in accordance with GAAP and are thus susceptible to varying calculations, Reported EBITDA and Net Debt as presented may not be comparable to other similarly titled measures of other companies.

Overview

Our operations are grouped into three integrated and interdependent segments: Mountain, Lodging and Real Estate. Resort is the combination of the Mountain and Lodging segments.

Mountain Segment

The Mountain segment is comprised of the operations of ski resort properties at the Vail, Breckenridge, Keystone and Beaver Creek mountain resorts in Colorado ("Colorado" resorts); the Heavenly, Northstar and Kirkwood (acquired in April 2012) mountain resorts in the Lake Tahoe area of California and Nevada ("Tahoe" resorts); and Afton Alps ski area in Minnesota and Mount Brighton ski area in Michigan (both acquired in December 2012) ("Urban" ski areas); as well as ancillary services, primarily including ski school, dining and retail/rental operations. Our ski resorts are typically open for business from mid-November through mid-April, which is the peak operating season for the Mountain segment. Our single largest source of Mountain segment revenue is the sale of lift tickets (including season passes), which represented approximately 54% and 53% of Mountain net revenue for the three months ended April 30, 2013 and 2012, respectively, and approximately 48% of Mountain segment net revenue for both the nine months ended April 30, 2013 and 2012.

Lift ticket revenue is driven by volume and pricing. Pricing is impacted by both absolute pricing as well as the demographic mix of guests, which impacts the price points at which various products are purchased. The demographic mix of guests at our Colorado and Tahoe resorts is divided into two primary categories: (i) out-of-state and international ("Destination") guests and (ii) in-state and local ("In-State") guests. For the 2012/2013 and 2011/2012 ski seasons, Destination guests comprised approximately 56% and 57%, respectively, of our skier visits, while In-State guests comprised approximately 44% and 43%, respectively, of our skier visits.

Destination guests generally purchase our higher-priced lift ticket products and utilize more ancillary services such as ski school, dining and retail/rental, as well as the lodging at or around our resorts. Destination guest visitation is less likely to be impacted by changes in the weather, but can be more impacted by adverse economic conditions or the global geopolitical climate. In-State guests tend to be more value-oriented and weather sensitive. We offer a variety of season pass products for all of our ski resorts/areas, marketed towards both Destination and In-State guests. Our season pass product offerings range from providing access to one or a combination of our ski resorts/areas to our Epic Season Pass that allows pass holders unlimited and

1

unrestricted access to all of our ski resorts/areas. Our season pass products provide a value option to our guests, which in turn assists us in developing a loyal base of customers who commit to ski at our resorts/areas generally in advance of the ski season and typically ski more days each season at our resorts/areas than those guests who do not buy season passes. As such, our season pass program drives strong customer loyalty; mitigates exposure to many weather sensitive guests; and generates additional ancillary spending. In addition, our season pass products attract new guests to our resorts/areas. All of our season pass products, including the Epic Season Pass, are sold predominately prior to the start of the ski season. Season pass revenue, although primarily collected prior to the ski season, is recognized in the Consolidated Condensed Statement of Operations ratably over the ski season. For the 2012/2013 and 2011/2012 ski seasons, approximately 38% and 40%, respectively, of total lift ticket revenue was comprised of season pass revenue.

The cost structure of our ski resort/areas operations have a significant fixed component with variable expenses including, but not limited to, USDA Forest Service ("Forest Service") fees, credit card fees, retail/rental cost of sales and labor, ski school labor and dining operations; as such, profit margins can fluctuate greatly based on the level of revenues.

Lodging Segment

Operations within the Lodging segment include (i) ownership/management of a group of luxury hotels through the RockResorts brand, including several proximate to our ski resorts; (ii) ownership/management of non-RockResorts branded hotels and condominiums proximate to our ski resorts; (iii) National Park Service ("NPS") concessionaire properties including Grand Teton Lodge Company ("GTLC"); (iv) Colorado Mountain Express ("CME"), a Colorado resort ground transportation company; and (v) mountain resort golf courses.

The performance of lodging properties (including managed condominium rooms) at or around our ski resorts, and CME, is closely aligned with the performance of the Mountain segment and generally experiences similar seasonal trends, particularly with respect to visitation by Destination guests, and represented approximately 94% and 92% of Lodging segment revenue (excluding Lodging segment revenue associated with reimbursement of payroll costs) for the three months ended April 30, 2013 and 2012, respectively, and 76% and 75% of Lodging segment revenue (excluding Lodging segment revenue associated with reimbursement of payroll costs) for the nine months ended April 30, 2013 and 2012, respectively. Management primarily focuses on Lodging net revenue excluding payroll cost reimbursement and Lodging operating expense excluding reimbursed payroll costs (which are not measures of financial performance under GAAP) as the reimbursements are made based upon the costs incurred with no added margin, as such the revenue and corresponding expense have no effect on our Lodging Reported EBITDA which we use to evaluate Lodging segment performance. Revenue of the Lodging segment during our first and fourth fiscal quarters is generated primarily by the operations of our NPS concessionaire properties (as their operating season generally occurs from mid-May to mid-October), golf operations and seasonally low operations from our other owned and managed properties and businesses.

Real Estate Segment

The Real Estate segment owns and develops real estate in and around our resort communities and primarily engages in vertical development of projects, as well as occasionally the sale of land to third-party developers. Currently, the principal activities of our Real Estate segment include the marketing and selling of remaining condominium units that are available for sale, planning for future real estate development projects, including zoning and acquisition of applicable permits, and the purchase of selected strategic land parcels for future development. Revenue from vertical development projects is not recognized until closing of individual units within a project, which occurs after substantial completion of the project. We attempt to mitigate the risk of vertical development by often utilizing guaranteed maximum price construction contracts (although certain construction costs may not be covered by contractual limitations), pre-selling a portion of the project, requiring significant non-refundable deposits, and potentially obtaining non-recourse financing for certain projects (although our last two major vertical development projects have not incurred any such direct third party financing). Additionally, our real estate development projects most often result in the creation of certain resort assets that provide additional benefit to the Mountain and Lodging segments. Our revenue from the Real Estate segment, and associated expense, can fluctuate significantly based upon the timing of closings and the type of real estate being sold, causing volatility in the Real Estate segment's operating results from

period to period.

Recent Trends, Risks and Uncertainties

Together with those risk factors that we have identified in our Form 10-K, our management has identified the following important factors (as well as risks and uncertainties associated with such factors) that could impact our future financial performance or condition:

- The timing and amount of snowfall can have an impact on Mountain and Lodging revenue particularly in regards to skier visits and the duration and frequency of guest visitation. To help partially mitigate the impact to our operating

2

results from the timing and amount of snowfall, we sell a variety of season pass products prior to the beginning of the ski season resulting in a more stabilized stream of lift revenue within the second and third fiscal quarters, when the season pass sales are recorded as revenue. Additionally, our season pass products provide a value option to our guests, which in turn creates a guest commitment predominately prior to the start of the ski season. In March 2013, we began our pre-season pass sales program for the 2013/2014 ski season. Through May 28, 2013, our spring pre-season pass sales for the upcoming 2013/2014 ski season have increased approximately 18% in units and increased approximately 24% in sales dollars, compared to the prior year period ended May 29, 2012. However, we cannot predict if this favorable trend will continue through the Fall 2013 pass sales campaign or the overall impact that season pass sales will have on lift ticket revenue for the 2013/2014 ski season.

Real Estate Reported EBITDA is highly dependent on, among other things, the timing of closings on condominium units available for sale, which determines when revenue and associated cost of sales is recognized. Changes to the anticipated timing or mix of closing on one or more real estate projects, or unit closings within a real estate project, could materially impact Real Estate Reported EBITDA for a particular quarter or fiscal year. For the nine months ended April 30, 2013 we have sold 20 units (with an additional one unit closing after April 30, 2013) at The Ritz-Carlton Residences, Vail and One Ski Hill Place in Breckenridge and we currently have 22 units and 30 units, respectively, remaining available for sale. We cannot predict the ultimate number of units that we will sell, the ultimate price we will receive, or when the units will sell, although we currently believe the selling process will take multiple years. Additionally, if a prolonged weakness in the real estate market or general economic conditions were to occur we may have to adjust our selling prices more than currently anticipated in an effort to sell and close on units available for sale. However, our risk associated with adjusting selling prices to levels that may not be acceptable to us is partially mitigated by the fact that we generate cash flow from placing unsold units into our rental program until such time selling prices are at acceptable levels to us. Furthermore, if weakness in the real estate market were to persist for multiple years, thus requiring us to sell remaining units below anticipated pricing levels (including any sales concessions and discounts) for the remaining inventory of units at The Ritz-Carlton Residences, Vail or One Ski Hill Place in Breckenridge, it may result in an impairment charge on one or both projects.

During the nine months ended April 30, 2013, we announced our calendar 2013 capital expenditure plan which is estimated between approximately \$130 million and \$140 million and includes the largest number of planned improvements in our history; we completed the acquisition of two ski areas, Afton Alps in Minnesota and Mount Brighton in Michigan, for net cash consideration of approximately \$20.0 million; and on March 4, 2013, our Board of Directors increased our regular quarterly cash dividend on our common stock approximately 10% to \$0.2075 per share (or approximately \$29.8 million annually). As of April 30, 2013, we had \$237.7 million in cash and cash equivalents, as well as \$333.8 million available under the revolver component of our senior credit facility (“Credit Agreement”) (which represents the total commitment of \$400.0 million less certain letters of credit outstanding of \$66.2 million). Additionally, we believe that the terms of our 6.50% Senior Subordinated Notes due 2019 (“6.50% Notes”) and our Credit Agreement allow for sufficient flexibility in our ability to make future acquisitions, investments, distributions to stockholders and incur additional debt. This, combined with our completed real estate projects where the proceeds from future real estate closings on The Ritz-Carlton Residences, Vail, and One Ski Hill Place in Breckenridge are expected to significantly exceed future carrying costs, and the continued positive cash flow from operating activities (primarily occurring during our fiscal second and third quarters) less capital expenditures has and is anticipated to continue to provide us with significant liquidity which we believe will allow us to consider strategic investments and other forms of providing return to our stockholders including the continued payment of a quarterly cash dividend. We cannot predict that any strategic initiatives undertaken will achieve the anticipated results.

On May 29, 2013, we entered into a lease with Talisker pursuant to which we assumed resort operations of Canyons Resort which includes the ski area and related amenities. In addition to the lease, we entered into ancillary transaction documents setting forth our rights among others, to ongoing litigation between the current operator and Talisker

related to the validity of a lease of the Talisker owned land under the ski terrain of Park City Mountain Resort. If the outcome of the litigation is favorable to Talisker, the land under the ski terrain of Park City Mountain Resort will become subject to our lease with Talisker, which we expect would be beneficial to us. If the outcome of the litigation is unfavorable, we will be entitled to receive from Talisker the rent payments that Talisker receives from the current resort operator until such time as the current resort operator's lease has ended and the ski terrain under Park City Mountain Resort is then included in the lease. The lease between us and Talisker for Canyons Resort has an initial term of 50 years with six 50-year renewal options. The lease provides for \$25 million in annual fixed payments, which increase each year by an inflation linked index of CPI less 1%, with a floor of 2% per annum. In addition, the lease includes participating contingent payments to Talisker of 42% of the amount by which EBITDA for the resort operations, as calculated under the lease, exceeds approximately \$35 million, with such threshold amount increased by an inflation linked index and a 10% adjustment for any capital improvements or investments made under the lease by

3

us. The inclusion of the ski terrain of Park City Mountain Resort in the lease would require no additional consideration from us, but the financial contribution, if any, of the additional ski terrain would be included as part of the calculation of EBITDA for the resort operations, and as a result, factor into the participating contingent payment component of the lease payment as described above. We will be finalizing the accounting for the Canyons Resort transaction, including the lease, in the coming months but we expect to record an obligation on our consolidated balance sheet of approximately \$305.0 million in long-term debt (including capital lease obligations). Additionally, we cannot predict whether we will realize all of the synergies expected to arise from our operation of Canyons Resort nor can we predict the resources required to integrate its operations and the ultimate impact Canyons Resort will have on our future results of operations. Furthermore, if the litigation associated with the land under the ski terrain of Park City Mountain Resort results in an unfavorable outcome it could result in a material impairment charge attributable to goodwill, certain indefinite-lived intangible assets and/or long-lived assets recorded in conjunction with this transaction, negatively impacting our results of operations and stockholders' equity.

Under GAAP we test goodwill and indefinite-lived intangible assets for impairment annually, as well as on an interim basis to the extent factors or indicators become apparent that could reduce the fair value of our goodwill or indefinite-lived intangible assets below book value and we evaluate long-lived assets for potential impairment whenever events or change in circumstances indicate that the carrying amount of an asset may not be recoverable. We evaluate the recoverability of our goodwill by estimating the future discounted cash flows of our reporting units and terminal values of the businesses using projected future levels of income as well as business trends, prospects and market and economic conditions. We evaluate the recoverability of indefinite-lived intangible assets using the income approach based upon estimated future revenue streams, and we evaluate long-lived assets based upon estimated undiscounted future cash flows. Our fiscal 2012 annual impairment test did not result in a goodwill or indefinite-lived intangible asset impairment. However, if lower than projected levels of cash flows were to occur due to prolonged abnormal weather conditions or a prolonged weakness in general economic conditions, among other risks, it could cause less than expected growth and/or a reduction in terminal values and cash flows and could result in an impairment charge attributable to certain goodwill, indefinite-lived intangible assets and/or long-lived assets (particularly related to our Lodging operations), negatively impacting our results of operations and stockholders' equity.

RESULTS OF OPERATIONS

Summary

Below is a summary of operating results for both the three and nine months ended April 30, 2013, compared to the three and nine months ended April 30, 2012 (in thousands):

Certain Mountain segment operating expenses presented above for the three months ended April 30, 2012 have been reclassified to conform to the current fiscal quarter presentation.

Mountain Reported EBITDA includes \$2.1 million and \$1.6 million of stock-based compensation expense for the three months ended April 30, 2013 and 2012, respectively.

Mountain Reported EBITDA for the three months ended April 30, 2013 increased \$23.6 million, or 13.8%, compared to the three months ended April 30, 2012, and includes incremental EBITDA of \$4.4 million from the acquisitions of Kirkwood (acquired in April 2012), Afton Alps and Mount Brighton (acquired in December 2012) (the "Acquisitions"). Our results for the three months ended April 30, 2013 were positively impacted by increased skier visitation compared to the same period in the prior year at both our Colorado and Tahoe resorts, which included strong visitation during the peak Spring Break and the Easter holiday periods at our Colorado resorts and the addition of Kirkwood to our Tahoe resorts. However, our operating results were somewhat negatively impacted by dry conditions and warm temperatures experienced at our Tahoe resorts during the current year fiscal quarter slowing the strong momentum in skier visitation experienced during the first half of the ski season. Skier visitation to our Colorado and Tahoe resorts (including Kirkwood) was up 11.8% and 14.2%, respectively, for the three months ended April 30, 2013 compared to the same period in the prior year.

Total Mountain net revenue increased \$47.4 million, or 13.4%, for the three months ended April 30, 2013 compared to the three months ended April 30, 2012, which includes incremental revenue from the Acquisitions in total of \$13.4

million. Excluding these incremental revenues, revenue increased \$34.0 million, or 9.6%, for the three months ended April 30, 2013 compared to the three months ended April 30, 2012. Lift revenue increased \$26.5 million, or 14.0%, for the three months ended April 30, 2013 compared to the same period in the prior year, resulting from a \$21.3 million, or 17.4%, increase in lift revenue excluding season pass revenue, as well as a \$5.2 million, or 7.8%, increase in season pass revenue. The increase in lift revenue excluding season pass revenue was driven by an increase in visitation excluding season pass holders of 14.6%, and an increase in ETP excluding season pass holders, of \$1.78 or 2.3%. Excluding the Acquisitions, lift revenue excluding season pass holders increased \$16.4 million, or 13.4%, driven by a 7.1% increase in visitation excluding season pass holders and an increase in ETP

excluding season pass holders of \$4.51, or 5.9%. The increase in season pass revenue was driven by a combination of both an increase in units sold and pricing. Total ETP decreased \$0.88, or 1.5%, due primarily to higher visitation from our season pass holders on a per pass basis, mostly offset by price increases in both season passes and daily lift tickets.

Ski school revenue increased \$6.5 million, or 13.8%, for the three months ended April 30, 2013 compared to the same period in the prior year, with our Colorado resorts ski school revenue increasing \$4.3 million, or 10.7%, and our Tahoe resorts (including Kirkwood) ski school revenue increasing \$2.0 million, or 30.1%, compared to the same period in the prior year. The increase in ski school revenue at our Colorado resorts was primarily due to an increase in skier visitation and higher pricing. Ski school revenue at our Tahoe resorts benefited from the increase in skier visitation primarily from the addition of Kirkwood, as well as an increase in yield per skier visit. Excluding the Acquisitions, ski school revenue increased \$5.6 million, or 11.8%, and yield per skier visit increased 2.5%.

Dining revenue increased \$6.5 million, or 20.7%, for the three months ended April 30, 2013 compared to the same period in the prior year, and was primarily attributable to our Colorado resorts generating a \$3.7 million, or 15.6%, increase in revenue due to increased skier visitation and an increase in yield per skier visit. Dining revenue at our Tahoe resorts increased \$2.0 million, or 26.3%, driven by the addition of Kirkwood and increased revenue at Heavenly which benefited from a higher yield per skier visit. Excluding the Acquisitions, dining revenue increased \$4.4 million, or 13.9%, and yield per skier visit increased 4.5%.

Retail/rental revenue increased \$6.2 million, or 10.3%, for the three months ended April 30, 2013 compared to the same period in the prior year, which was driven by an increase in retail sales of \$3.0 million, or 7.7%, as well as an increase in rental revenue of \$3.2 million, or 15.1%. The increase in retail sales was primarily attributed to a \$2.3 million increase in sales from stores proximate to our Colorado resorts, and the addition of Kirkwood and Urban Ski Areas. The increase in rental revenue was generated primarily from stores proximate to our Colorado resorts which increased a combined \$1.1 million, and stores proximate to our Tahoe resorts (including Kirkwood) and Any Mountain stores (in the San Francisco bay area) which increased a combined \$0.9 million.

Other revenue mainly consists of private club revenue (which includes both club dues and amortization of initiation fees), mountain activities revenue, marketing and internet advertising revenue, commercial leasing revenue, employee housing revenue, municipal services revenue and other recreation activity revenue. For the three months ended April 30, 2013, other revenue increased \$1.8 million, or 6.7%, compared to the same period in the prior year, primarily due to an increase in base area services and parking revenue, group events and additional revenue associated with other mountain recreation activity, partially offset by a decline in internet advertising revenue.

Operating expense increased \$23.7 million, or 12.9%, for the three months ended April 30, 2013 compared to the three months ended April 30, 2012, which includes incremental operating expense from the Acquisitions of \$8.9 million and professional service fees associated with the Canyons Resort transaction of \$2.6 million. Excluding these incremental expenses, operating expense increased \$12.2 million, or 6.6%, for the three months ended April 30, 2013 compared to the three months ended April 30, 2012. Labor and labor-related benefits (excluding the Acquisitions) increased \$4.9 million, or 6.7%, primarily due to normal wage adjustments, higher bonus expense, increased staffing levels to support higher volumes primarily in mountain operations, ski school, on-mountain dining and higher store labor due primarily to new retail stores. Retail cost of sales increased \$1.2 million, or 5.1%, on a 7.7% increase in retail sales and benefited from improved gross margins at stores proximate to our mountain resorts. General and administrative expense (excluding the Acquisitions) increased \$2.7 million, or 9.5%, primarily due to higher Mountain segment component of allocated corporate costs including increased sales and marketing expense and a shift in allocated corporate expenses to the Mountain segment. Resort related fees (including Forest Services fees, other resort-related fees, credit card fees and commissions) increased \$1.6 million, or 7.8%, due to overall increases in revenue upon which those fees are based. Other expense (excluding the Acquisitions and Canyons Resort transaction costs) increased \$2.6 million, or 6.7%, which was driven by increased repairs and maintenance and variable operating

expenses including food and beverage cost of sales, supplies expense and other operating expenses.

Mountain equity investment income, net primarily includes our share of income from the operations of a real estate brokerage joint venture.

Certain Mountain segment operating expenses presented above for the nine months ended April 30, 2012 have been reclassified to conform to the current fiscal year-to-date presentation.

Mountain Reported EBITDA includes \$7.0 million and \$5.9 million of stock-based compensation expense for the nine months ended April 30, 2013 and 2012, respectively.

Mountain Reported EBITDA for the nine months ended April 30, 2013 increased \$37.1 million, or 15.3%, compared to the nine months ended April 30, 2012, and includes incremental EBITDA of \$6.5 million from the acquisitions of Kirkwood (acquired in April 2012), Skiinfo (acquired in February 2012), Afton Alps and Mount Brighton (acquired in December 2012) (the "Acquisitions"). Our results for the nine months ended April 30, 2013 reflect an increase in revenues from higher overall visitation due to improved weather conditions during the 2012/2013 ski season compared to the 2011/2012 ski season. Our results also benefited from higher pricing, increased average guest spend on ancillary services and higher pass sales. Our Colorado resorts experienced strong results from the peak holiday periods of Christmas through Spring Break and Easter compared to the prior year, however these results were tempered by poor snowfall and unseasonably warm temperatures which occurred from the start of the ski season through the pre-Christmas holiday period which adversely impacted skier visitation to our Colorado resorts during this period. As such, skier visitation to our Colorado resorts increased 4.0% overall for the 2012/2013 ski season compared to the 2011/2012 ski season. Our Tahoe resorts experienced significantly better snowfall and weather conditions during first half of the 2012/2013 ski season which contributed to a significant increase in skier visitation to the Tahoe region combined with the addition of Kirkwood; however, the early momentum at our Tahoe resorts was slowed by dry conditions and warm temperatures experienced throughout the latter half of the 2012/2013 ski season. Overall, our Tahoe resorts saw an increase in skier visitation of 32.3% (including Kirkwood). Total mountain net revenue increased \$95.5 million, or 13.3%, for the nine months ended April 30, 2013 compared to the nine months ended April

30, 2012 which includes incremental revenues from the Acquisitions of \$30.1 million. Lift revenue increased \$48.4 million, or 14.1%, for the nine months ended April 30, 2013, compared to the same period in the prior year, resulting from a \$36.4 million, or 17.6%, increase in lift revenue excluding season pass revenue, as well as a \$12.0 million, or 8.9%, increase in season pass revenue. The increase in lift revenue excluding season pass revenue was driven by an increase in visitation excluding season pass holders of 14.5%, and an increase in ETP excluding season pass holders, of \$2.01

7

or 2.7%. Excluding the Acquisitions, lift revenue excluding season pass holders increased \$26.4 million, or 12.8%, driven by a 5.7% increase in visitation excluding season pass holders and an increase in ETP excluding season pass holders of \$4.94, or 6.7%. The increase in season pass revenue was driven by a combination of both an increase in units sold and pricing. Total ETP was relatively flat compared to prior year due primarily to price increases in both season passes and daily lift tickets offset by an increase in visitation from our season pass holders.

Ski school revenue for the nine months ended April 30, 2013 increased \$11.0 million, or 13.0%, compared to the same period in the prior year, with our Colorado resorts ski school revenue increasing \$5.7 million, or 7.9%, and our Tahoe resorts (including Kirkwood) ski school revenue increasing \$4.8 million, or 39.6%, compared to the same period in the prior year. Ski school revenue benefited from the increase in skier visitation at both our Colorado and Tahoe resorts (as discussed above) and an increase in yield per skier visit of 2.1%. Excluding the Acquisitions, ski school revenue increased \$9.1 million, or 10.8%, and yield per skier visit increased 4.4%.

Dining revenue for the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012, increased \$12.3 million, or 19.9%, with our Tahoe resorts (including Kirkwood) generating a \$5.9 million, or 40.4%, increase and our Colorado resorts providing a \$4.8 million, or 10.2%, increase, both of which are primarily attributable to increased skier visitation and an increase in yield per skier visit. Excluding the Acquisitions, dining revenue increased \$7.6 million, or 12.3%, and yield per skier visit increased 6.5% for the 2012/2013 ski season.

Retail/rental revenue increased \$15.8 million, or 9.8%, for the nine months ended April 30, 2013 compared to the same period in the prior year, which was driven by an increase in retail sales of \$10.2 million, or 8.5%, and an increase in rental revenue of \$5.6 million, or 13.7%. The increase in retail sales was primarily attributed to our Any Mountain stores (in the San Francisco bay area) along with our stores proximate to our Tahoe resorts which sales increased a combined \$5.3 million which benefited from increased skier visitation and the addition of Kirkwood; stores proximate to our Colorado resorts which sales increased a combined \$3.4 million; and an increase in sales from our on-line retailer of \$2.8 million; all of which was partially offset by sales declines occurring at our Colorado front range stores which were negatively impacted by unfavorable weather conditions during the early season. The increase in rental revenue was driven primarily by stores proximate to our Tahoe resorts (including Kirkwood) and Any Mountain stores (in the San Francisco bay area) which increased a combined \$2.6 million and stores proximate to our Colorado resorts which increased a combined \$0.9 million.

Other revenue mainly consists of private club revenue (which includes both club dues and amortization of initiation fees), summer visitation and other mountain activities revenue, marketing and internet advertising revenue, commercial leasing revenue, employee housing revenue, municipal services revenue and other recreation activity revenue. For the nine months ended April 30, 2013, other revenue increased \$7.9 million, or 11.2%, compared to the nine months ended April 30, 2012, primarily due to incremental internet advertising revenue from Skiinfo of \$2.2 million, an increase in strategic alliance marketing revenue, increased employee housing revenue, an increase in summer activities revenue and additional revenue associated with other mountain recreation activity.

Operating expense increased \$58.2 million, or 12.2%, during the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012, which includes incremental operating expense from the Acquisitions of \$23.6 million and professional service fees associated with the Canyons Resort transaction of \$2.6 million. Excluding these incremental expenses, operating expense increased \$32.0 million, or 6.7%, for the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012. Labor and labor-related benefits (excluding incremental expense from the Acquisitions) increased \$13.2 million, or 7.5%, primarily due to normal wage adjustments, higher bonus expense, increased staffing levels to support higher volumes primarily in ski school, mountain operations, on-mountain dining, summer operations and higher store labor primarily due to new retail stores. Retail cost of sales increased \$7.6 million, or 11.3%, primarily due to an increase in overall retail sales, including higher on-line sales which generates a lower gross margin. General and administrative expense (excluding incremental expense from the Acquisitions) increased \$5.4 million, or 6.3%, primarily due to higher Mountain segment component of allocated corporate costs including increased sales and marketing expense and higher costs associated with employee housing, and a shift in allocated corporate expenses to the Mountain segment, partially offset by lower employee medical costs.

Resort related fees (including Forest Services fees, other resort-related fees, credit card fees and commissions) increased \$2.2 million, or 5.6%, due to overall increases in revenue upon which those fees are based. Other expense (excluding incremental expense from the Acquisitions and Canyons Resort transaction costs) increased \$5.5 million, or 5.0%, which was driven by higher operating expenses including food and beverage cost of sales, rent expense, and supplies expense, partially offset by lower utilities expense.

Mountain equity investment income, net primarily includes our share of income from the operations of a real estate brokerage joint venture.

Lodging Reported EBITDA includes \$0.5 million and \$0.4 million of stock-based compensation expense for the three months ended April 30, 2013 and 2012, respectively.

Total Lodging net revenue (excluding payroll cost reimbursements) for the three months ended April 30, 2013 increased \$2.7 million, or 5.6%, as compared to the three months ended April 30, 2012. Revenue from owned hotel rooms increased \$0.8 million, or 7.8%, for the three months ended April 30, 2013 as compared to the three months ended April 30, 2012, driven by a 5.5% increase in ADR and a 4.0 percentage point increase in occupancy. Occupancy for owned properties was favorably impacted by increased skier visitation at our Colorado resorts (as discussed in the Mountain segment). Revenue from managed condominium rooms increased \$1.2 million, or 8.0%, primarily driven by the addition of managed condominium rooms at Kirkwood, and an increase in transient guest visitation at our managed condominium rooms in Colorado due to increased skier visitation.

Dining revenue for the three months ended April 30, 2013 increased \$0.3 million, or 6.0%, compared to the three months ended April 30, 2012, primarily due to improved revenue at The Arrabelle's Tavern on the Square in Vail and an increase in group business at our Keystone resort. Transportation revenue for the three months ended April 30, 2013 increased \$0.7 million, or 8.1%, as compared to the three months ended April 30, 2012, primarily due to the increased skier visitation to our Colorado

resorts which drove an 11.4% increase in total passengers compared to prior year. Other revenue decreased \$0.3 million, or 2.7%, compared to the same period in the prior year primarily due to lower revenue from managed hotel properties as a result of the previously announced RockResorts reorganization plan, partially offset by an increase in conference services provided to our group business at our Keystone resort.

Operating expense (excluding reimbursed payroll costs) increased \$1.2 million, or 2.9%, for the three months ended April 30, 2013 compared to the three months ended April 30, 2012. Labor and labor-related benefits increased \$0.3 million, or 1.5%, primarily due to normal wage increases and higher staffing levels associated with increased occupancy, partially offset by a reduction in overhead labor costs associated with the RockResorts reorganization plan. General and administrative expense increased \$0.1 million, or 1.3%, primarily due to higher Lodging segment component of allocated corporate costs, mostly offset by savings from the RockResorts reorganization plan. Other expense increased \$0.8 million, or 6.1%, primarily due to higher variable operating costs including higher food and beverage cost of sales and other operating expense (e.g. credit card fees, travel agent commissions, fuel and supplies-room amenities expense).

Revenue from payroll cost reimbursements and the corresponding reimbursed payroll costs relates to payroll costs at managed hotel properties where we are the employer and all payroll costs are reimbursed by the owners of the properties under contractual arrangements. Since the reimbursements are made based upon the costs incurred with no added margin, the revenue and corresponding expense have no effect on our Lodging Reported EBITDA. The decrease in revenue from payroll cost reimbursements and the corresponding reimbursed payroll costs for the three months ended April 30, 2013 compared to the three months ended April 30, 2012 was due to a reduction in the number of managed hotel properties as previously announced under the RockResorts reorganization plan.

Lodging Reported EBITDA includes \$1.4 million of stock-based compensation expense for both the nine months ended April 30, 2013 and 2012.

Total Lodging net revenue (excluding payroll cost reimbursements) for the nine months ended April 30, 2013 increased \$7.4 million, or 5.4%, as compared to the nine months ended April 30, 2012, which increase includes \$1.9 million of incremental revenue from Flagg Ranch (a NPS concessionaire contract that was awarded in November 2011) for the nine months ended April 30, 2013. Additionally, Flagg Ranch contributed \$0.6 million of incremental EBITDA for the nine months ended April 30, 2013. Excluding the impact of Flagg Ranch, total Lodging net revenue (before payroll cost reimbursements) increased \$5.5 million, or 4.0%, which is largely attributable to an increase in transient revenue at our Colorado mountain properties resulting from improved visitation and the addition of managed condominium units at Kirkwood, partially offset by a decline in revenue at GTLC primarily due to adverse conditions from wild fires in the region during the three months ended October 31, 2012.

Revenue from owned hotel rooms increased \$2.7 million, or 8.7%, for the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012, which includes \$1.0 million of incremental room revenue from Flagg Ranch for the nine months ending April 30, 2013. Owned room revenue was also positively impacted by our Colorado lodging properties, which revenue increased \$2.0 million, resulting from improved summer visitation and an increase in transient guest visitation attributable to increased skier visits at our Colorado mountain resorts during the 2012/2013 ski season. Partially offsetting the

increase was a decrease in transient revenue of \$0.3 million at GTLC for the three months ended October 31, 2012 compared to the same period in the prior year due to the adverse conditions caused by wild fires. Revenue from managed condominium rooms increased \$2.5 million, or 7.2%, for the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012, and was primarily attributable to the additional managed condominium units at Kirkwood, and an increase in transient guest visitation at our managed condominium rooms in Colorado and the Tahoe region due to increased skier visitation.

Dining revenue for the nine months ended April 30, 2013 increased \$1.8 million, or 8.8%, as compared to the nine months ended April 30, 2012, primarily due to an increase in group business at our Keystone resort resulting in a \$0.9 million increase in revenue, increased dining revenue at The Arrabelle as well as at the DoubleTree in Breckenridge, and incremental dining revenue from Flagg Ranch. Transportation revenue increased \$0.7 million, or 4.0%, during the nine months ended April 30, 2013 compared to the same period in the prior year, primarily due to the increase in skier visitation at our Colorado resorts which resulted in an increase in total passengers of 9.6%. Other revenue decreased \$0.3 million, or 1.0%, as compared to the prior year due to lower revenue from managed hotel properties as a result of the previously announced RockResorts reorganization plan, partially offset by an increase in conference services provided to our group business and an increase in retail and ancillary revenue resulting from the addition of Flagg Ranch.

Operating expense (excluding reimbursed payroll costs) increased \$3.0 million, or 2.3%, for the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012. Labor and labor-related benefits increased \$1.8 million, or 2.9%, resulting from normal wage adjustments, an increase in contract labor associated with increased occupancy, increased conference services provided to our group business, and incremental labor costs associated with Kirkwood and Flagg Ranch of \$0.9 million, partially offset by a reduction in overhead labor associated with the RockResorts reorganization plan. Other expense increased \$1.9 million, or 4.4%, primarily due to incremental expenses associated with Kirkwood and Flagg Ranch of \$1.2 million, higher variable operating costs including higher food and beverage cost of sales, partially offset by a decrease in reimbursable costs (other than payroll) from managed hotel properties due to the RockResorts reorganization plan. General and administrative expense decreased \$0.8 million, or 3.5%, for the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012, as a result of the RockResorts reorganization plan, partially offset by higher Lodging segment component of allocated corporate costs.

Revenue from payroll cost reimbursement and the corresponding reimbursed payroll costs relates to payroll costs at managed hotel properties where we are the employer and all payroll costs are reimbursed by the owners of the properties under contractual arrangements. Since the reimbursements are made based upon the costs incurred with no added margin, the revenue and corresponding expense have no effect on our Lodging Reported EBITDA. The decrease in revenue from payroll cost reimbursements and the corresponding reimbursed payroll costs for the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012 was due to a reduction in the number of managed hotel properties as previously announced under the RockResorts reorganization plan.

Total Real Estate operating expense	16,996	16,069	5.8	%
Real Estate Reported EBITDA	\$(3,156) \$(3,482) 9.4	%

Real Estate Reported EBITDA includes \$0.3 million and \$0.5 million of stock-based compensation expense for the three months ended April 30, 2013 and 2012, respectively.

Our Real Estate net revenue is primarily determined by the timing of closings and the mix of real estate sold in any given

period. Different types of projects have different revenue and profit margins; therefore, as the real estate inventory mix changes it can greatly impact Real Estate segment net revenue, operating expense and Real Estate Reported EBITDA.

Three months ended April 30, 2013

Real Estate segment net revenue for the three months ended April 30, 2013 was driven by the closing of seven condominium units at One Ski Hill Place (\$7.5 million of revenue with an average selling price per unit of \$1.1 million and an average price per square foot of \$871) and two condominium units at The Ritz-Carlton Residences, Vail (\$5.3 million of revenue with an average selling price per unit of \$2.6 million and a price per square foot of \$1,219). The average price per square foot of both these projects is driven by their premier locations and the comprehensive and exclusive amenities related to these projects. In addition to the revenue generated by the closing of units as noted above, Real Estate net revenue also included \$0.6 million of rental revenue from placing unsold units into our rental program.

Operating expense for the three months ended April 30, 2013 included cost of sales of \$10.6 million resulting from the closing of seven condominium units at One Ski Hill Place (average cost per square foot of \$729) and from the closing of two condominium units at The Ritz-Carlton Residences, Vail (cost per square foot of \$992). The cost per square foot for both these projects is reflective of the high-end features and amenities and high construction costs associated with mountain resort development. Additionally, sales commissions of approximately \$0.8 million were incurred commensurate with revenue recognized. Other operating expense of \$5.6 million (including \$0.3 million of stock-based compensation expense) was primarily comprised of general and administrative costs which includes marketing expense for the real estate available for sale (including those units that have not yet closed), carrying costs for units available for sale and overhead costs, such as labor and labor-related benefits and allocated corporate costs which were favorably impacted by a shift in allocated corporate costs to the Mountain and Lodging segments.

Three months ended April 30, 2012

Real Estate segment net revenue for the three months ended April 30, 2012 was driven primarily by the closing of four condominium units at The Ritz-Carlton Residences, Vail (\$10.7 million of revenue with an average selling price per unit of \$2.7 million and a price per square foot of \$1,112). The average price per square foot of this project is driven by its premier location and the comprehensive and exclusive amenities related to this project. In addition to the revenue generated by the closing of units as noted above, Real Estate net revenue also included \$0.7 million of rental revenue from placing certain of our unsold units into our rental program.

Operating expense for the three months ended April 30, 2012 included cost of sales of \$9.4 million primarily resulting from the closing of four condominium units at The Ritz-Carlton Residences, Vail (cost per square foot of \$934). The cost per square foot for this project is reflective of the high-end features and amenities and high construction costs associated with mountain resort development. Additionally, sales commissions of approximately \$0.7 million were incurred commensurate with revenue recognized. Other operating expense of \$6.0 million (including \$0.5 million of stock-based compensation expense) was primarily comprised of general and administrative costs which includes marketing expense for the real estate available for sale (including those units that have not yet closed), carrying costs for units available for sale and overhead costs, such as labor and labor-related benefits and allocated corporate costs.

Nine months ended April 30, 2013

Real Estate segment net revenue for the nine months ended April 30, 2013 was driven by the closing of ten condominium units at The Ritz-Carlton Residences, Vail (\$25.7 million of revenue with an average selling price per unit of \$2.6 million and an average price per square foot of \$1,195) and ten condominium units at One Ski Hill Place (\$10.8 million of revenue with an average selling price per unit of \$1.1 million and an average price per square foot of \$898). The average price per square foot of both these projects is driven by their premier locations and the comprehensive and exclusive amenities related to these projects. In addition to the revenue generated by the closing of units as noted above, Real Estate net revenue also included \$1.4 million of rental revenue from placing unsold units into our rental program.

Operating expense for the nine months ended April 30, 2013 included cost of sales of \$31.3 million resulting from the closing of ten condominium units at The Ritz-Carlton Residences, Vail (average cost per square foot of \$987) and from the closing of ten condominium units at One Ski Hill Place (average cost per square foot of \$751). The cost per square foot for both these projects is reflective of the high-end features and amenities and high construction costs associated with mountain resort development. Additionally, sales commissions of approximately \$2.3 million were incurred commensurate with revenue recognized. Other operating expense of \$15.8 million (including \$1.1 million of stock-based compensation expense) was primarily comprised of general and administrative costs which includes marketing expense for the real estate available for sale (including those units that have not yet closed), carrying costs for units available for sale and overhead costs, such as labor and labor-related benefits and allocated corporate costs which were favorably impacted by a shift in allocated corporate costs to the Mountain and Lodging segments.

Nine months ended April 30, 2012

Real Estate segment net revenue for the nine months ended April 30, 2012 was driven primarily by the closing of nine condominium units at The Ritz-Carlton Residences, Vail (\$22.4 million of revenue with an average selling price per unit of \$2.5 million and an average price per square foot of \$1,119) and six condominium units at One Ski Hill Place (\$7.9 million of revenue with an average selling price per unit of \$1.3 million and an average price per square foot of \$981). The average price per square foot of both these projects is driven by their premier locations and the comprehensive and exclusive amenities related to these projects. In addition to the revenue generated by the closing of units as noted above, Real Estate net revenue also included \$1.5 million of rental revenue from placing certain of our unsold units into our rental program.

Operating expense for the nine months ended April 30, 2012 included cost of sales of \$26.6 million primarily resulting from the closing of nine condominium units at The Ritz-Carlton Residences, Vail (average cost per square foot of \$960) and from the closing of six condominium units at One Ski Hill Place (average cost per square foot of \$813). The cost per square foot for both these projects is reflective of the high-end features and amenities and high construction costs associated with mountain resort development. Additionally, sales commissions of approximately \$1.8 million were incurred commensurate with revenue recognized. Other operating expense of \$18.1 million (including \$2.0 million of stock-based compensation expense) was primarily comprised of general and administrative costs which includes marketing expense for the real estate available for sale (including those units that have not yet closed), carrying costs for units available for sale and overhead costs, such as labor and labor-related benefits and allocated corporate costs.

Other Items

In addition to segment operating results, the following material items contributed to our overall financial position.

Depreciation and amortization. Depreciation and amortization expense for the three and nine months ended April 30, 2013 increased \$0.5 million and \$3.6 million, respectively, compared to the same periods in the prior year, primarily due to an increase in the fixed asset base due to incremental capital expenditures and assets assumed in the Acquisitions.

Income taxes. The effective tax rate provision for the three and nine months ended April 30, 2013 was 38.0% and 37.8%, respectively, compared to the effective tax rate provision for the three and nine months ended April 30, 2012 of 39.9% and 39.6%, respectively. The interim period effective tax rate is primarily driven by the amount of anticipated pre-tax book income for the full fiscal year adjusted for items that are deductible/non-deductible for tax purposes only (i.e. permanent items). Additionally, we recorded a \$0.3 million and a \$0.4 million income tax benefit in the nine months ended April 30, 2013 and 2012, respectively, due primarily to a reversal of income tax contingencies resulting from the expiration of the statute of limitations and other discrete tax items.

In 2005, we amended previously filed tax returns (for the tax years from 1997 through 2002) in an effort to remove restrictions under Section 382 of the Internal Revenue Code on approximately \$73.8 million of NOLs relating to fresh start accounting from our reorganization in 1992. As a result, we requested a refund related to the amended returns in the amount of \$6.2 million and have reduced our Federal tax liability in the amount of \$19.6 million in subsequent tax returns. In 2006, the IRS completed its examination of our filing position in our amended returns and disallowed our request for refund and our position to remove the restriction on the NOLs. We appealed the examiner's disallowance of the NOLs to the Office of Appeals. In December 2008, the Office of Appeals denied our appeal, as well as a request for mediation. We disagreed with the IRS interpretation disallowing the utilization of the NOLs and in August 2009, filed a complaint in the United States District Court for the District of Colorado seeking recovery of \$6.2 million in over payments that were previously denied by the IRS, plus interest. On July 1, 2011, the District Court granted us summary judgment, concluding that the IRS's decision disallowing the utilization of the NOLs was inappropriate. The IRS is entitled to appeal the decision of the District Court to grant the motion for summary judgment and we do not know whether the IRS will do so or, if it does appeal, whether the appeal would be successful. However, at this point, the District Court proceedings have been stayed pending on-going settlement discussions between the parties. We are also a party to two related tax proceedings in the United States Tax Court regarding calculation of NOL carryover deductions for tax years 2006, 2007 and 2008. The two proceedings involve substantially the same issues as the litigation in the District Court wherein we disagree with the IRS as to the utilization of NOLs. At this time, however, it is uncertain whether or how the potential resolution of the District Court case may affect these Tax Court proceedings. The trial date for Tax Court proceedings has been continued pending on-going settlement discussions between the parties.

Since the legal proceeding surrounding the utilization of the NOLs have not been fully resolved, including a determination of the amount of refund and the possibility that the District Court's ruling may be appealed by the IRS, there remains considerable uncertainty of what portion, if any, of the NOLs will be realized, and as such, we have not reflected any of the benefits of the utilization of the NOLs within our financial statements. However, the range of potential reversal of other long-term liabilities and accrued interest and penalties that would be recorded as a benefit to our income tax provision is between zero and \$27.6 million.

LIQUIDITY AND CAPITAL RESOURCES

Significant Sources of Cash

Our second and third fiscal quarters historically result in seasonally high cash on hand as our ski resorts are generally open for ski operations from mid-November to mid-April, from which we have historically generated a significant portion of our operating cash flows for the fiscal year. Additionally, cash provided by operating activities can be significantly impacted by the timing or mix of closings on and investment in real estate development projects. In total, we generated \$191.7 million and \$77.0 million of cash during the nine months ended April 30, 2013 and 2012, respectively. We currently anticipate that Resort Reported EBITDA will continue to provide a significant source of future operating cash flows combined with proceeds from the remaining inventory of real estate available for sale from the completed Ritz-Carlton Residences, Vail and One Ski Hill Place at Breckenridge projects.

In addition to our \$237.7 million of cash and cash equivalents at April 30, 2013, we have available \$333.8 million for borrowing under our Credit Agreement (which represents the total commitment of \$400.0 million less certain letters of credit outstanding of \$66.2 million). We expect that our liquidity needs in the near term will be met by continued utilization of operating cash flows (primarily those generated in our second and third fiscal quarters), borrowings under the Credit Facility, if needed, and proceeds from future real estate closings. We believe the Credit Facility, which matures in 2016, provides adequate flexibility and is priced favorably with any new borrowings currently being priced at LIBOR plus 1.25%.

Edgar Filing: VAIL RESORTS INC - Form 10-Q

Nine months ended April 30, 2013 compared to the nine months ended April 30, 2012

We generated \$291.3 million of cash from operating activities during the nine months ended April 30, 2013, an increase of \$57.3 million compared to \$234.0 million of cash generated during the nine months ended April 30, 2012. The increase in operating cash flows was primarily a result of the increase in Resort Reported EBITDA for the nine months ended April 30,

2013 compared to the nine months ended April 30, 2012, and an increase in proceeds from real estate closings that occurred in the nine months ended April 30, 2013, which generated \$35.0 million in proceeds (net of sales commissions and deposits previously received) compared to \$28.9 million in proceeds (net of sales commissions and deposits previously received) from real estate closings that occurred in the nine months ended April 30, 2012. Additionally, cash flow from operations increased due to a net deduction in inventory balances of \$7.4 million and an increase in accounts payable of \$6.2 million.

Cash used in investing activities for the nine months ended April 30, 2013 decreased by \$47.9 million compared to the nine months ended April 30, 2012, due to a \$42.5 million decrease in resort capital expenditures during the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012, as well as a decrease in cash used for the acquisitions of businesses of \$3.5 million.

Cash used in financing activities decreased \$9.5 million during the nine months ended April 30, 2013, compared to the nine months ended April 30, 2012, due to the repurchase of common stock for \$7.9 million during the nine months ended April 30, 2012 and an increase in proceeds from the exercise of stock options and tax benefits recognized on the vesting and exercise of stock awards of \$4.9 million during the nine months ended April 30, 2013 compared to the nine months ended April 30, 2012, partially offset by an increase in the payment of cash dividends on common stock of \$3.3 million during the nine months ended April 30, 2013 compared to the same period in the prior year.

Significant Uses of Cash

Our cash uses currently include providing for operating expenditures and capital expenditures for assets to be used in resort operations and to a substantially lesser degree future real estate development projects.

We have historically invested significant cash in capital expenditures for our resort operations, and we expect to continue to make significant investments in the future subject to operating performance particularly as it relates to discretionary projects. Current capital expenditure levels will primarily include investments that allow us to maintain our high quality standards, as well as certain incremental discretionary improvements at our ski resorts/areas and throughout our owned hotels. We evaluate additional discretionary capital improvements based on an expected level of return on investment. We currently anticipate we will spend approximately \$130 million to \$140 million of resort capital expenditures for calendar year 2013. Included in these capital expenditures are approximately \$47 million to \$52 million, which are necessary to maintain the appearance and level of service appropriate to our resort operations, including routine replacement of snow grooming equipment and rental fleet equipment. Approximately \$13 million was spent for capital expenditures in calendar year 2013 as of April 30, 2013, leaving approximately \$117 million to \$127 million to spend in the remainder of calendar year 2013. Discretionary expenditures for calendar year 2013 include terrain expansion on Peak 6 at Breckenridge that includes the installation of two new chairlifts; a new on-mountain restaurant at Beaver Creek that more than doubles the existing restaurant's seating capacity; a new six-person chairlift at Vail; investment in energy efficient snowmaking equipment and technology; the final phase of renovations at the DoubleTree by Hilton in Breckenridge, an owned lodging property; among other projects. Also included in our calendar year 2013 plan is approximately \$25 million of resort capital expenditures for the first phase of our new summer activities plans, Epic Discovery, at six of our resorts; and approximately \$20 million of improvements at our Urban Ski Areas. We currently plan to utilize cash on hand, borrowings available under our Credit Agreement and/or cash flow generated from future operations to provide the cash necessary to execute our capital plans.

Principal payments on the vast majority of our long-term debt (\$487.9 million of the total \$489.8 million debt outstanding as of April 30, 2013) are not due until fiscal 2019 and beyond. As of April 30, 2013 and 2012, total long-term debt (including long-term debt due within one year) was \$489.8 million and \$490.9 million, respectively. Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents) decreased from \$343.8 million as of April 30, 2012 to \$252.0 million as of April 30, 2013, primarily as a result of an increase in our cash and cash equivalents at April 30, 2013, compared to the prior year.

Our debt service requirements can be impacted by changing interest rates as we had \$52.6 million of variable-rate debt outstanding as of April 30, 2013. A 100-basis point change in LIBOR would cause our annual interest payments to change by approximately \$0.5 million. The fluctuation in our debt service requirements, in addition to interest rate changes, may be impacted by future borrowings under our Credit Agreement or other alternative financing arrangements we may enter into. Our long term liquidity needs are dependent upon operating results that impact the borrowing capacity under the Credit Agreement, which can be mitigated by adjustments to capital expenditures, flexibility of investment activities and the ability to obtain favorable future financing. We can respond to liquidity impacts of changes in the business and economic environment by managing our capital expenditures and the timing of new real estate development activity.

Our share repurchase program is conducted under authorizations made from time to time by our Board of Directors. Our Board of Directors initially authorized the repurchase of up to 3,000,000 shares of common stock (March 9, 2006) and later

authorized additional repurchases of up to 3,000,000 additional shares (July 16, 2008). During the nine months ended April 30, 2013 we did not repurchase any shares of common stock. Since inception of this stock repurchase program through April 30, 2013, we have repurchased 4,949,111 shares at a cost of approximately \$193.2 million. As of April 30, 2013, 1,050,889 shares remained available to repurchase under the existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under the Company's employee share award plan. Repurchases under these authorizations may be made from time to time at prevailing prices as permitted by applicable laws, and subject to market conditions and other factors. The timing as well as the number of shares that may be repurchased under the program will depend on a number of factors, including our future financial performance, our available cash resources and competing uses for cash that may arise in the future, the restrictions in our Credit Agreement and the Indenture governing the 6.50% Notes ("Indenture"), prevailing prices of our common stock and the number of shares that become available for sale at prices that we believe are attractive. These authorizations have no expiration date.

On June 7, 2011, our Board of Directors approved the commencement of a regular quarterly cash dividend on our common stock at an annual rate of \$0.60 per share, subject to quarterly declaration, and on March 5, 2012 approved a 25% increase to our annual cash dividend to an annual rate of \$0.75 per share, subject to quarterly declaration. Additionally, on March 4, 2013, our Board of Directors approved an approximate 10% increase to our annual cash dividend on our common stock commencing with the cash dividend paid on April 9, 2013 to stockholders of record as of March 25, 2013. During the nine months ended April 30, 2013, the Company paid a cash dividend of \$0.5825 per share (\$20.9 million in the aggregate). On June 5, 2013 the Company's Board of Directors declared a quarterly cash dividend of \$0.2075 per share payable on July 9, 2013 to stockholders of record as of June 24, 2013. The annual cash dividend is currently expected to be \$0.83 per share (or \$29.8 million annually based upon shares outstanding as of April 30, 2013), subject to quarterly declaration. Subject to the discretion of our Board of Directors, applicable law and contractual restrictions, we anticipate paying regular quarterly cash dividends on our common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our available cash on hand, anticipated cash needs, overall financial condition, restrictions contained in our Credit Agreement and the Indenture, future prospects for earnings and cash flows, as well as other factors considered relevant by our Board of Directors.

On May 29, 2013, we entered into a lease and ancillary transaction documents with Talikser pursuant to which we assumed resort operations of Canyons Resort which includes the ski area and related amenities. The lease between us and Talisker for Canyons Resort has an initial term of 50 years with six 50-year renewal options. The lease provides for \$25 million in annual fixed payments, which increase each year by an inflation linked index of CPI less 1%, with a floor of 2% per annum. In addition, the lease includes participating contingent payments to Talisker of 42% of the amount by which EBITDA for the resort operations, as calculated under the lease, exceeds approximately \$35 million, with such threshold amount increased by an inflation linked index and a 10% adjustment for any capital improvements or investments made under the lease by us. The inclusion of the ski terrain of Park City Mountain Resort in the lease would require no additional consideration from us, but the financial contribution, if any, of the additional ski terrain would be included as part of the calculation of EBITDA for the resort operations, and as a result, factor into the participating contingent payment component of the lease payment as described above.

Covenants and Limitations

We must abide by certain restrictive financial covenants under our Credit Agreement and the Indenture. The most restrictive of those covenants include the following Credit Agreement covenants: Net Funded Debt to Adjusted EBITDA ratio and the Interest Coverage ratio (each as defined in the Credit Agreement). In addition, our financing arrangements, including the Indenture, limit our ability to make certain restricted payments, pay dividends on or redeem or repurchase stock, enter into certain investments, make certain affiliate transfers and may limit our ability to enter into certain mergers, consolidations or sales of assets and incur certain indebtedness. Our borrowing availability under the Credit Agreement is primarily determined by the Net Funded Debt to Adjusted EBITDA ratio, which is based on our segment operating performance, as defined in the Credit Agreement.

We were in compliance with all restrictive financial covenants in our debt instruments as of April 30, 2013. We expect that we will meet all applicable financial maintenance covenants in our Credit Agreement, including the Net Funded Debt to Adjusted EBITDA ratio throughout the year ending July 31, 2013. However, there can be no assurance that we will meet such financial covenants. If such covenants are not met, we would be required to seek a waiver or amendment from the banks participating in the Credit Agreement. There can be no assurance that such waiver or amendment would be granted, which could have a material adverse impact on our liquidity.

OFF BALANCE SHEET ARRANGEMENTS

We do not have off balance sheet transactions that are expected to have a material effect on our financial condition, revenue, expenses, results of operations, liquidity, capital expenditures or capital resources.

FORWARD-LOOKING STATEMENTS

Except for any historical information contained herein, the matters discussed in this Form 10-Q contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to analyses and other information available as of the date hereof, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our contemplated future prospects, developments and business strategies.

These forward-looking statements are identified by their use of terms and phrases such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “will” and similar terms and phrases, including references to assumptions. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that such plans, intentions or expectations will be achieved. Important factors that could cause actual results to differ materially from our forward-looking statements include, but are not limited to:

- prolonged weakness in general economic conditions, including adverse effects on the overall travel and leisure related industries;
- unfavorable weather conditions or natural disasters;
- adverse events that occur during our peak operating periods combined with the seasonality of our business;
- competition in our mountain and lodging businesses;
- our ability to grow our resort and real estate operations;
- our ability to successfully initiate, complete and sell our real estate development projects and achieve the anticipated financial benefits from such projects;
- further adverse changes in real estate markets;
- continued volatility in credit markets;
- our ability to obtain financing on terms acceptable to us to finance our future real estate development, capital expenditures and growth strategy;
- our reliance on government permits or approvals for our use of Federal land or to make operational and capital improvements;
- demand for planned summer activities and our ability to successfully obtain necessary approvals and construct the planned improvements;
- adverse consequences of current or future legal claims;
- our ability to hire and retain a sufficient seasonal workforce;
- willingness of our guests to travel due to terrorism, the uncertainty of military conflicts or outbreaks of contagious diseases, and the cost and availability of travel options;
- negative publicity which diminishes the value of our brands;
- our ability to integrate and successfully realize anticipated benefits from the lease of Canyons Resort operations or future acquisitions;
- the outcome of pending litigation regarding the ski terrain of Park City Mountain Resort;
- adverse consequences on lease payment obligations for Canyons Resort due to increases in CPI; and
- implications arising from new Financial Accounting Standards Board (“FASB”)/governmental legislation, rulings or interpretations.

All forward-looking statements attributable to us or any persons acting on our behalf are expressly qualified in their entirety by these cautionary statements.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those expected, estimated or projected. Given these uncertainties, users of the information included in this Form 10-Q, including investors and prospective investors, are cautioned not to place undue reliance on such forward-looking statements. Actual results may differ materially from those suggested by the forward-looking statements that we make for a number of reasons including those described in this Form 10-Q and in Part I, Item 1A “Risk Factors” of the Form 10-K. All forward-looking statements are made only as of the date hereof. Except as may be required by law, we do not intend to update these forward-looking statements, even if new

information, future events or other circumstances have made them incorrect or misleading.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk. Our exposure to market risk is limited primarily to the fluctuating interest rates associated with variable rate indebtedness. At April 30, 2013, we had \$52.6 million of variable rate indebtedness, representing approximately 10.7% of our total debt outstanding, at an average interest rate during both the three and nine months ended April 30, 2013 of 0.2%. Based on variable-rate borrowings outstanding as of April 30, 2013, a 100-basis point (or 1.0%) change in LIBOR would result in our

annual interest payments changing by \$0.5 million. Our market risk exposure fluctuates based on changes in underlying interest rates.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

Management of the Company, under the supervision and with participation of the Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), have evaluated the effectiveness of the Company’s disclosure controls and procedures as such term is defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Act”) as of the end of the period covered by this report on Form 10-Q.

Based upon their evaluation of the Company’s disclosure controls and procedures, the CEO and the CFO concluded that the disclosure controls are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms.

The Company, including its CEO and CFO, does not expect that the Company’s controls and procedures will prevent or detect all error and all fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Changes in Internal Control over Financial Reporting

There were no changes in the Company’s internal control over financial reporting during the period covered by this Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Internal Revenue Service Litigation

On August 24, 2009, we filed a complaint in the United States District Court for the District of Colorado against the United States of America seeking a refund of approximately \$6.2 million in Federal income taxes paid for the tax years ended December 31, 2000 and December 31, 2001. Our amended tax returns for those years included calculations of NOLs carried forward from prior years to reduce our tax years 2000 and 2001 tax liabilities. The IRS disallowed refunds associated with those NOL carry forwards and we disagreed with the IRS action disallowing the utilization of the NOLs. On July 1, 2011, the District Court granted us summary judgment, concluding that the IRS’s decision disallowing the utilization of the NOLs was inappropriate. The IRS is entitled to appeal the decision of the District Court to grant the motion for summary judgment and we do not know whether the IRS will do so or, if it does appeal, whether the appeal would be successful. However, at this point, the District Court proceedings have been continued pending on-going settlement discussions between the parties.

We are also a party to two related tax proceedings in the United States Tax Court regarding calculation of NOL carryover deductions for tax years 2006, 2007, and 2008. The two proceedings involve substantially the same issues as the litigation in the District Court for tax years 2000 and 2001 wherein we disagreed with the IRS as to the utilization of NOLs. At this time, however, it is uncertain whether or how the potential resolution of the District Court case may affect these Tax Court proceedings. The trial date for the Tax Court proceedings has been continued pending on-going settlement discussions between the parties.
