News Release

Monday, 17 March 2003

Coles Myer underlying half year profit up 28%¹

- Underlying net profit after tax \$272.4 million
 - Up 28.2% on last year
- Full year profit guidance unchanged
- Food & Liquor underlying earnings² up 11.3%

- Kmart and Target - excellent progress
- Myer Grace Bros recovery underway
- Strong balance sheet
- Interim dividend 13.5 cents

Coles Myer Ltd (CML) today announced underlying net profit after tax of \$272.4 million for the half year ended 26 January 2003, up 28.2% on prior year. Sales rose by 5.5% to \$13.8 billion.

Coles Myer Chief Executive Officer, John Fletcher, said the underlying result reflected margin expansion by the Food & Liquor Group and Kmart/Officeworks, Myer Grace Bros and Target, despite a very competitive market.

"Our Food & Liquor business has delivered strong interim earnings growth. The turnaround at Kmart and Target also continues to accelerate, with both brands reporting substantial earnings improvement over the period. The recovery signs at Myer Grace Bros continue to be encouraging," Mr Fletcher said.

"The balance sheet was further strengthened over the period, featuring improved stock quality and lower gearing. Higher stock turns were achieved by all our major businesses, with Group inventory flat despite a 5.5% sales increase."

"Operating cashflow was \$624 million, with free cashflow of \$239 million.

"We have further improved our underlying cost of doing business (CODB) to sales ratio, with a reduction across the group of 12 basis points². This includes a substantial fall in the major non-food brands' combined CODB ratio of 93 basis points to 28.32%. After the significant savings achieved last year, well ahead of schedule, we are on track to exceed our \$210 million target for FY2003. We continue to forecast total CODB savings of at least \$300 million by the end of FY2004. Our focus on reducing costs has been on doing business better while we maintain our customer service levels in our brands.

"Our new heads of Supply Chain and IT are now identifying opportunities in their key functions. Our focus is on running our operations faster, cheaper and smarter," Mr Fletcher said.

"Overall this result demonstrates progress against strategy and the underlying strength of our business. We remain focussed on delighting our customers everyday, by offering the best service and the best range of the best products at the best prices," Mr Fletcher said.

CML is committed to the highest standards of international financial reporting. Therefore as foreshadowed in the 2002 Annual Report and at the Annual General Meeting, the Company has adopted new US guidance for the accounting of supplier promotional rebates. As a result of this policy change, a one-time, non-cash adjustment of \$76.5 million was made to the interim earnings. Although not compulsory in Australia, we have introduced this policy because it represents global best practice. CML also complies with US standards in accordance with its listing on the NYSE.

After the one-off effect of the accounting policy changes, net profit after tax for the half year was \$217.9 million.

Directors have declared a fully franked interim dividend of 13.5 cents per share.

Edgar Filing: COLES MYER LTD - Form 6-K

RESULTS SUMMARY		2003	2002	Change

4 Annualised underlying EBIT as a percentage of net assets employed.

RETAIL OPERATIONS

Food and Liquor Group

	2003	2002	Change
Sales (\$m)	8,295	7,881	5.3%
Comparative store sales growth			1.3%
Underlying retail EBIT (\$m)	291.0	261.5	11.3%
Underlying retail margin (%)	3.51	3.32	19bp
Net assets employed (NAE) (\$m)	1,925	1,789	

- Underlying retail EBIT up 11.3%

1

- Efficiency gains drive margin improvement
- Totally price competitive

- Continued network expansion

The Food and Liquor Group (F&L), comprising Coles, Bi-Lo and Liquorland, reported a strong 11.3% increase in underlying retail EBIT over the half.

Alan Williams, Chief Operating Officer - Food and Liquor - said that despite intense competition, the business continued to expand margins and deliver double-digit profit growth in line with strategy.

"While we remain totally price competitive, our sales have been impacted by intensified fuel discounts in the market. Our continuing focus on efficiency initiatives, however, has underpinned and enabled strong growth in our bottom line," Mr Williams said.

The F&L underlying EBIT margin rose by 19 basis points to 3.51% over the half. This was driven by underlying gross margin expansion of 62 basis points to 24.52%, reflecting considerable gains in shrinkage and waste, reduced product cost and expansion of our high margin house-brands. These initiatives, together with reinvestment of the shareholder discount reduction, have enabled us to maintain and improve our price competitiveness for all customers.

While the lower than expected sales growth reduced our fixed cost leverage, our underlying cost base remains very competitive in the marketplace.

Mr Williams said that while the completion of a fuel offer was the Company's highest priority, the F&L Group was also focussed on a number of initiatives to further improve the customer offer and back office efficiencies. These included:

- Improved fresh offer with better quality, merchandising and service standards
- Reinforcement of Coles' and Bi-Lo's competitive price position:
 - Expanding successful house-brands
 - Consistently strong promotional offers
 - Competitive everyday shelf pricing
 - To be supported by new marketing program
 - Raised customer service standards
- Continuing operational efficiencies - shrinkage, store administration, store fit-out costs

Mr Williams said the store expansion program was continuing to plan, with 17 new supermarkets opened during the half, in addition to 6 acquisitions. A further 21 openings were expected over the year.

Liquorland opened 32 new stores and two hotels in the half, with a further 27 stores to open in the second half. The Theo's acquisition in NSW would contribute a further 47 stores and four hotels in April 2003. Another 33 supermarkets and 5 liquor stores were refurbished during the first half.

Kmart and Officeworks

	2003	2002	Change

Edgar Filing: COLES MYER LTD - Form 6-K

Sales (\$m)	2,291	2,091	9.6%
Comparative store sales growth			7.7%
Underlying 5 retail EBIT (\$m)	85.1	43.5	95.6%
Underlying retail margin (%)	3.71	2.08	163bp
NAE (\$m)	794	793	

Kmart and Officeworks reported a substantial 95.6% (\$41.6 million) increase in combined underlying retail EBIT to \$85.1 million, on strong sales growth of 9.6%.

"Our strong result is a direct reflection of the strategy we put in place last year to move Kmart to the leadership position in discount department store retailing," Kmart MD Hani Zayadi said.

"In line with strategy, significant margin improvement was driven by continued reduction in the cost of doing business and leveraging this against sales volume.

"Customers have responded positively to our offer of the best prices on wanted ranges and brands. We will continue to improve this offer and our store environment, underpinned by our 'Lowest price guarantee' and our 'Cutting the cost of living' marketing campaign.

"Kmart opened three new stores and three Garden Super Centres over the first six months, with a new Kmart store and Garden Super Centre scheduled to open in the second half," Mr Zayadi said.

Officeworks delivered another impressive performance. Officeworks MD Peter Scott said the business continued to strengthen its position as the number one choice for small businesses.

"Our margin expansion reflected strong sales growth, improved category mix and efficient business practices. The store rollout strategy is proceeding to plan, with the Officeworks network increasing by 4 stores over the half to 63 locations across Australia. A further 7 openings are expected in the second half. Our recent Viking acquisition, which included 7 Sands and McDougall stores, was completed on 3 January and is performing in line with expectations," Mr Scott said.

Myer Grace Bros & Megamart

	2003	2002	Change
Sales (\$m)	1,741	1,764	(1.3)%
Comparative store sales growth			(1.4)%
Underlying 5 retail EBIT (\$m)	38.9	36.4	6.9%

Edgar Filing: COLES MYER LTD - Form 6-K

Underlying retail margin (%)	2.23	2.06	17bp
NAE (\$m)	622	788	

Myer Grace Bros (MGB), including Megamart, reported a 6.9% increase in underlying retail EBIT to \$38.9 million.

"MGB's performance reflects encouraging progress in our turnaround program," MGB MD Dawn Robertson said.

"While the sales result was in line with our expectations, given the temporary closure of the Bondi store and shareholder discount reduction, the quality of our sales has shown solid improvement.

"The underlying retail margin increased by 17 basis points to 2.23%, reflecting better planning and execution in our merchandise management and marketing program, and more efficient capital investment.

"The quality of our inventory continued to improve, with stock levels down 8% on last year following successful summer clearance activity. Importantly, stock-turn increased by a strong 9.4% to 3.5 times over the half (H1 2002 3.2 times).

"We are looking forward to an improved winter season, which has been launched under our new 'my store' marketing program. The season will feature further range enhancements across our apparel, cosmetics and home offers, including the recently released Basque and Urbane private womenswear brands, which are already receiving a very good customer response.

"Improvements in service quality and in-store environment have also continued, resulting in positive customer feedback.

"We are committed to our strategic positioning, as we enter the second half of the year in a much stronger position than 2002. As a result, MGB is expected to report a profit for the full year.

"Megamart produced another year of strong sales growth, with the opening of our new stores in Auburn (Sydney) and Narre Warren (Melbourne). Megamart is a key part of MGB's plan to expand its share of the growing furniture and electrical markets," Ms Robertson said.

Target

	2003	2002	Change
Sales (\$m)	1,418	1,305	8.7%
Comparative store sales growth			9.1%
Underlying 5 retail EBIT (\$m)	68.3	40.0	70.8%
Underlying retail margin (%)	4.82	3.06	176bp
NAE (\$m)	457	489	

Target MD Larry Davis said that Target continued to make significant progress in its rebuild, reporting a 70.8% increase in underlying retail EBIT to \$68.3 million on a sales lift of 8.7%.

"Target is clearly delivering on its strategy of on-trend, high quality ranges at very affordable prices. Customers have responded very well to our exciting offer, particularly in apparel and manchester, and the success of the '100% Happy' marketing campaign has exceeded our expectations," Mr Davis said.

"Target's underlying retail margin is the strongest in three years, having risen a substantial 176 basis points to 4.82%. Our merchandising improvements reflect better management of product cost and promotional program, combined with strong inventory control.

"Stock levels have fallen a further 8%, on top of the 26% reduction in H1 2002, and our stock-turn has increased from 3.3 times to 4.0 times.

"Our merchandise initiatives have been supported by much improved in-store execution. The stores are brighter, cleaner and better presented, improving the ease of shopping for our customers.

"While much has been achieved in Target's recovery program, we will continue to drive sales and margin growth through quickly identifying new merchandising trends, ongoing improvements to merchandise flow and cost efficiencies," Mr Davis said.

Emerging Businesses

	2003	2002	Change
Sales (\$m)	114	85	33.9%
Underlying 5 retail EBIT (\$m)	(7.5)	(9.1)	17.6%
NAE (\$m)	28	23	

Emerging Businesses reduced its underlying retail EBIT loss from \$9.1 million to \$7.5 million, through improved performances from Harris Technology and ColesOnline. Sales in the division, excluding the exited Myer Direct, increased by 33.9% over the half, led by continued strong growth in Harris Technology.

Following our agreement with Australia Post to provide pick, pack and delivery services for ColesOnline, we have recently strengthened our marketing activity for this business.

While the performance of the underlying businesses continues to improve, it is anticipated that costs will increase in the second half of FY2003 as we increase the marketing of the ColesOnline business.

PROPERTY AND Unallocated EBIT

\$m	2003	2002
Unallocated and head office costs	(55.6)	(50.0)

Gain on sale of property	0.3	1.4
Property operating earnings	18.2	17.1
Property and Unallocated EBIT	(37.1)	(31.5)

Unallocated and head office costs rose by \$5.6 million to \$55.6 million, driven by:

- Additional costs associated with the Annual General Meeting in November 2002
- Restructuring and project costs

In the second half, unallocated and head office costs are expected to be in line with prior year. Excluding the one-off charges, full year unallocated and head office costs are anticipated to be mid-\$90 million.

The total earnings contribution from property was in line with prior year at \$18.5 million. Under fair value accounting, Sydney Central Plaza was revalued at period end, which was the key contributor to the increase in the property portfolio book value to \$745 million (2002: \$630 million).

Post balance date, Sydney Central Plaza was sold to Westfield Trust for \$390 million. Due to the revaluation of the property, the profit on sale is not material. The funds will be used for the new store growth program, debt reduction and other strategic initiatives. Going forward, Property operating earnings will be reduced by the loss of income previously generated from the Sydney site, although interest savings from debt reduction will largely compensate.

Interest and Tax

Net borrowing costs decreased from \$47.5m in 2002 to \$39.0m, predominantly as a result of lower average net debt levels. In addition, Coles Myer received \$1.5m (2002: \$2.0m) in interest from the Coles Myer Employee Share Plan for the funding facility, first provided by the Company in 1994. Total interest income for the first half was \$9.3m (2002: \$7.9m).

Income tax expense on underlying profit of \$126.0 million reflects an effective tax rate of 31.6%. The tax rate for the full year is expected to be in excess of 30%.

ACCOUNTING POLICY CHANGE - PROMOTIONAL REBATES

- Highest standards of reporting
- One-time adjustment
- Non-cash

As foreshadowed in our FY2002 annual accounts and the 2002 Annual General Meeting, CML has been reviewing its long established policy on the treatment of supplier promotional rebates. Under the previous policy, which many other Australian retailers continue to follow, the portion of supplier rebates that supported promotional activities was taken to income to offset product promotion costs, as and when the rebate became due and payable.

Edgar Filing: COLES MYER LTD - Form 6-K

As anticipated, guidance was issued by the Emerging Issues Task Force in the US in late 2002 (EITF No. 02-16), whereby virtually all forms of rebates are treated as a reduction of inventory cost.

CML is committed to the highest standards of financial reporting and also complies with US requirements associated with its listing on the NYSE. In the absence of sufficient guidance from Australian GAAP or other international standards, CML is taking cognisance of the US guidance.

Under this guidance, virtually all forms of rebates (including those previously taken directly to income under earlier accounting guidance) are treated as a reduction in the cost of inventory, deferring recognition of the income to as and when the inventory is sold.

While US companies are allowed a transitional framework for implementation, Australian GAAP requires us to implement a policy change in full in the year in which the change is made. As a result, the following **one-time, non-cash** adjustments were made at the half year end to account for all stock on hand: inventory reduction of \$76.5 million and a corresponding reduction in underlying profit before tax of \$76.5 million.

If the policy change was applied to the movement between opening and closing inventory in the half year period, underlying profit before tax would have decreased by \$13.0 million (H1 2002 equivalent \$4.1 million).

ACCOUNTING POLICY CHANGE - LIQUOR LICENCE AMORTISATION

Liquor licences are considered to retain their value indefinitely. To bring our policy in line with other retailers, CML is no longer amortising liquor licences. The carrying value of liquor licences will be reassessed each reporting period and adjusted accordingly if there is any diminution in value. The non-cash change of policy increased EBIT in the first half by \$5.0 million.

ACCOUNTING POLICY CHANGE - LOGISTICS ADMINISTRATION EXPENSES

Consistent with other logistics expenses, logistics administration expenses are now capitalised into stock and expensed as goods are sold. Previously, these costs were expensed as incurred. The one-time, non-cash change of policy increased EBIT in the first half by \$4.5 million.

BALANCE SHEET

\$m	2003	2002
Inventory	2,932.4	2,928.0
Trade creditors	(1,897.7)	(1,892.3)
Net investment in inventory	1,034.7	1,035.7
Other current net assets	206.5	170.9
Working capital	1,241.2	1,206.6
Intangible assets	361.3	348.1

Property, plant & equipment	3,579.9	3,488.2
Other net liabilities	(1,057.0)	(973.2)
Funds Employed	4,125.4	4,069.7
Net Tax Balances	90.0	82.5
Net assets employed	4,215.4	4,152.2
Net debt	(599.6)	(845.5)
Shareholders' funds	3,615.8	3,306.7

Net debt fell by 29% to \$599.6 million, resulting in net debt to capital employed (net debt plus equity) down to 14.2% (2002: 20.4%). This arose from the improvement in trading results and working capital management.

Annualised ROI increased strongly to 16.0%, up from 12.8% in H1 2002.

Inventory was relatively flat, despite sales growth of 5.5%. This reflects higher stock turns and the continued improvement in the quality of the stock. In particular, total stock turn for the combined Kmart, Officeworks, MGB and Target businesses has increased by a substantial 12.5% since January 2002, from 3.2 times to 3.6 times.

Working Capital increased at a lower rate than sales, with a 3% increase to \$1,241m.

Cash flow and capital expenditure

\$m	2003	2002
Operating cash flow	624	652
Capex, acquisitions & investments	(385)	(272)
Free cash flow	239	380
Dividends paid	(136)	(135)
Share buy back	-	(2)
Net cash flow	103	243

Operating cash flow fell by \$28 million to \$624 million, primarily reflecting the lower improvement in working capital change relative to last year, when a \$307 million improvement was generated by the targeted GM&A stock reductions. Notwithstanding this, improved operating earnings, lower interest and further working capital improvements contributed strongly.

Total capital expenditure of \$385 million (2002: \$272 million) reflects our strengthened new store program and the acquisition of Viking by Officeworks. As a result, free cash flow to was reduced to \$239 million (2002: \$380 million). Excluding acquisitions, underlying capital expenditure of approximately \$800 million is expected for the full year.

OUTLOOK

Mr Fletcher reaffirmed the Group earnings guidance for FY2003 of underlying net profit after tax of \$425 - 435 million.

"Group sales in the first 5 weeks of Q3 2003 rose by 5.6%, in line with expectations," Mr Fletcher said.

"We confirm our full year expectations of mid single digit sales growth for the Food & Liquor business, pending the commencement of a petrol offer for our customers. Finalising our petrol offer remains our highest priority and we are making good progress in this regard.

"We expect competition in all our markets to remain intense," Mr Fletcher said.

Coles Myer Ltd. ordinary shares are listed on the New York Stock Exchange in the form of	
American Depository Shares (ADS). Each ADS represents eight ordinary shares. An	
American Depository Receipt is the certificate issued to the holder, and can represent any	
number of ADS. As at 26 January 2003, there were 728,319 (2002 674,041) ADS on issue.	

Comments by directors								
Basis of accounts preparation								
20.1	This general purpose financial report for the interim half-year reporting period ended 26 January 2003 has been prepared in accordance with Accounting Standard AASB 1029 Interim Financial Reporting, other mandatory professional reporting requirements (Urgent Issues Group Consensus Views), other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.							
	This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 28 July 2002 and any public announcements made by Coles Myer Ltd. during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.							
	Except as stated in 20.5 below, the accounting policies adopted are consistent with those of the previous financial year. Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current year.							
20.2	Material factors affecting the revenues and expenses of the economic entity for the current period							
	Refer accompanying commentary and other public documents.							
20.3	A description of each event since the end of the current period which has had a material effect and which is not already reported elsewhere in this Appendix or in attachments, with financial effect quantified (if possible).							
	On 10 March 2003, the company announced the sale of Sydney Central Plaza shopping centre to Westfield Trust for \$390.0 million.							
20.4	Franking credits available and prospects for paying fully or partly franked dividends for at							

	least the next year							
	The consolidated franking balance of \$143.9 million is after allowing for current tax							
	payments, and franking credits the CML Group is prevented from distributing. It is							
	expected that future tax payments within the CML Group will create sufficient franking							
	credits to enable the payment of fully franked dividends for at least the subsequent year.							

Comments by directors								
Basis of accounts preparation (continued)								
20.5	Unless disclosed below, the accounting policies, estimation methods and measurement							
	bases used in this report are the same as those used in the last annual report. Any							
	changes in accounting policies, estimation methods and measurement bases since the							
	last annual report are disclosed as follows:							
	<u>Inventory Valuation</u>							
	(a) Supplier Promotional Rebates							
	Effective 29 July 2002, the CML Group has revised its policy of accounting for supplier							
	promotional rebates such that accounting for all forms of rebates is reflective of							
	the guidance given by the recent Emerging Issues Task Force in the U.S. (EITF Issue							
	No. 02-16, " Accounting by a Customer (including a Reseller) for Certain							
	Consideration							
	Received from a Vendor.")							
	Under this guidance, virtually all forms of rebates (including some which under previous							
	accounting guidance were able to be taken directly to income) are treated as a							
	reduction in the cost of inventory, deferring the recognition of the income to as and							
	when the inventory is sold. The only exception is in limited circumstances in relation							
	to the reimbursement of direct advertising costs incurred on behalf of the supplier.							
	On initial adoption of the change at 29 July 2002, the CML Group inventory							
	decreased by \$76.5 million (July 2001 \$76.7 million). If the accounting policy had always							
	been applied, the impact of the change would have been a decrease to profit before							
	tax of \$4.1 million for the half-year ended 27 January 2002 and \$13.0 million for the							
	half-year ended 26 January							
	2003.							

	Under the proposed international accounting standards coming into effect in 2005,									
	voluntary changes to accounting policies such as this would be made by an									
	adjustment to retained earnings, rather than through the Statement of Financial									
	Performance.									
	(b) Indirect Logistics Expenses									
	Effective 29 July 2002, the CML Group made a modification to its policy of recognising									
	indirect costs of operating distribution centres as a component of the cost of inventory.									
	Previously, these indirect costs were expensed as incurred. The modification was									
	made to improve the relevance and reliability of the information presented in the									
	financial report and to further comply with AASB 1019 Inventories.									
	On initial adoption of the change at 28 July 2002, the CML Group's inventory increased									
	by \$4.5 million. For the half-year ended 26 January 2003, the change in accounting									
	policy was an increase to the CML Group's profit before tax of \$4.5 million.									
	Had this policy been applied for the previous corresponding period the effect would									
	have been materially consistent.									

Comments by directors										
Basis of accounts preparation (continued)										
20.5	Continued									
	<u>Liquor Licenses</u>									
	Effective 29 July 2002, the CML Group changed its accounting estimate with respect to									
	the useful life of liquor licenses. The previous estimate recognised that liquor licenses									
	had a useful life not exceeding twenty years.									
	The revised accounting estimate recognises that in all material respects, liquor licenses									
	have an indefinite life as they have unlimited legal lives and are unlikely to become									
	commercially obsolete.									
	As a consequence, no amortisation of liquor licenses has been charged for the period									
	to 26 January 2003. Had a change in estimate of useful life not taken place, then an									
	amount of \$5.0 million relating to amortisation expense would have been charged in the									
	half-year to 26 January 2003 (\$4.8m charge for the half-year ended 27 January 2002).									

20.6	Changes in contingent liabilities and contingent assets since the last annual report.									
	Contingent liabilities as at 26 January 2003 were \$233.8m, a decrease of \$11.9m since 28 July 2002, mainly associated with trading guarantees.									
Additional disclosure for trusts										
20.7	Number of units held by the management company or responsible entity or their related parties									
	Not Applicable									
20.8	A statement of the fees and commissions payable to the management company or responsible entity.									
	Not Applicable									
	Identify:

Directors' Report											
The directors present their report for the 26 weeks ended 26 January 2003.											
Directors											
The names of the directors in office at the date of this report are:											
Richard (Rick) H. Allert, AM					Chairman						
John E. Fletcher					Managing Director and Chief Executive Officer						
Patricia (Patty) E. Akopiantz					Non-executive Director						
Richard (Ric) M. Charlton, AM					Non-executive Director						
William (Bill) P. Gurry, AO					Non-executive Director						
Mark M. Leibler, AO					Non-executive Director						
Helen A. Lynch, AM					Non-executive Director						
Martyn K. Myer					Non-executive Director						

The above directors each held office during and since the end of the period.									
Rick Allert was appointed Chairman on 10 October 2002.									
In addition, Solomon Lew and Stanley (Stan) D.M. Wallis retired as non-executive directors on 20 November 2002, Stan Wallis having stepped down as Chairman on 10 October 2002.									
Review of operations									
The results of the operations of the CML Group during the period are reviewed on pages 1 to 10.									
Rounding of amounts									
CML is a company of the kind referred to in the Australian Securities & Investments Commission Class Order 98/0100 dated 10 July 1998. As a result, amounts in the accompanying financial report have, where appropriate, been rounded to the nearest one hundred thousand dollars except where otherwise indicated.									
Directors' Declaration									
The directors declare that the financial statements and the notes set out on pages 11 to 25:									
a. comply with the Accounting Standards and the Corporations Regulations 2001; and									
b. give a true and fair view of the CML Group's financial position at 26 January 2003 and its performance for the 26 weeks ended on that date.									
The directors further declare that in their opinion there are reasonable grounds to believe that CML will be able to pay its debts as and when they become due and payable.									
This directors' report and declaration are made in accordance with a resolution of the directors.

Independent review report to the members of

Coles Myer Ltd.

Statement

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the financial report, comprising pages 10 to 24 of the half yearly report included in the attached Appendix 4B of the Australian Stock Exchange (ASX) Listing Rules and the directors' declaration attached thereto is not presented in accordance with :

- the Corporations Act 2001 in Australia, including giving a true and fair view of the financial position of the Coles Myer Ltd. Group as at 26 January 2003 and of its performance for the 26 weeks ended on that date
- Accounting Standard AASB 1029: Interim Financial Reporting and other mandatory professional reporting requirements in Australia, the Corporations Regulations 2001 and ASX Listing Rules.

This statement must be read in conjunction with the following explanation of the scope and summary of our role as auditor.

Scope and summary of our role

The financial report - responsibility and content

The preparation of the financial report for the 26 weeks ended 26 January 2003 is the responsibility of the directors of Coles Myer Ltd. It includes the financial statements for the Coles Myer Ltd. Group (the Group), which incorporates Coles Myer Ltd. (the Company) and the entities it controlled during the 26 weeks ended 26 January 2003.

The auditor's role and work

We conducted an independent review of the financial report in order for the Company to lodge the financial report with the Australian Securities & Investments Commission and the ASX. Our role was to conduct the review in accordance with Australian Auditing Standards applicable to review engagements. Our review did not involve an analysis of the prudence of business decisions made by the directors or management.

This review was performed in order to state whether, on the basis of the procedures described, anything has come to our attention that would indicate that the financial report does not present fairly a view in accordance with the Corporations Act 2001, Accounting Standard AASB 1029: Interim Financial Reporting and other mandatory professional reporting requirements in Australia, the Corporations Regulations 2001 and ASX Listing Rules relating to half yearly financial reports, which is consistent with our understanding of the Group's financial position, and its performance as represented by the results of its operations and cash flows.

The review procedures performed were limited primarily to:

- inquiries of company personnel of certain internal controls, transactions and individual items
- analytical procedures applied to financial data.

These procedures do not provide all the evidence that would be required in an audit, thus the level of assurance provided is less than that given in an audit. We have not performed an audit, and accordingly, we do not express an audit opinion.

Independence

Edgar Filing: COLES MYER LTD - Form 6-K

As auditor, we are required to be independent of the Group and free of interests which could be incompatible with integrity and objectivity. In respect of this engagement, we followed the independence requirements set out by The Institute of Chartered Accountants in Australia, the Corporations Act 2001 and the Auditing and Assurance Standards Board.

In addition to our statutory audit and review work, we were engaged to undertake other services for the Group. In our opinion the provision of these services has not impaired our independence.
