Item 9. Regulation FD Disclosure.

On April 21, 2004, REGAL-BELOIT CORPORATION (the "Company") issued a press release disclosing, among other things, the Company's first quarter financial results for the reporting period ended March 30, 2004. A copy of the Company's press release is attached as Exhibit 99 to this Current Report on Form 8-K (this "Current Report").

The Company intends that certain matters disclosed in this Current Report (including the exhibit hereto) are "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, are forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to certain risks, uncertainties, assumptions and other factors, some of which are beyond the Company's control that could cause actual results to differ materially from those anticipated as of April 21, 2004. Factors that could cause such a variance include, but are not limited to, cyclical downturns affecting the markets for capital goods, substantial increases in interest rates which impact the cost of the Company's outstanding debt, the success of the Company's management in increasing sales and maintaining or improving the operating margins of its business, the availability of or material increases in the costs of select raw materials or parts, actions taken by competitors, and the Company's ability to satisfy various covenant requirements under its credit facility. Shareholders, potential investors, and other readers are urged to consider these factors in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included in this Current Report (including the exhibit hereto) are made only as of April 21, 2004, and the Company undertakes no obligation to update publicly such forward-looking statements to reflect subsequent events or circumstances.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf of the undersigned hereunto duly authorized.

REGAL-BELOIT REPORTS

IMPROVED FIRST QUARTER 2004 SALES AND EARNINGS

**First Quarter 2004 EPS of \$.27
increased 12.5% from \$.24 in comparable 2003**

April 21, 2004 (Beloit, WI): James L. Packard, Chairman and Chief Executive Officer of Regal-Beloit CORPORATION (AMEX:RBC), today announced first quarter 2004 financial results.

Net income in the first quarter of 2004 increased 13% to \$6.86 million from \$6.07 million in the first quarter of 2003 and 12% from \$6.15 million in the fourth quarter last year. Earnings per share of \$.27 in 2004 were improved from \$.24 in both comparable 2003 and the fourth quarter of 2003.

The Company's net sales in the first quarter were \$163.1 million, 6% higher than in comparable 2003 and a 7% sequential improvement from the fourth quarter last year. 2004 first quarter sales in the Company's Mechanical Group were 3% above the first quarter of 2003 and 5% sequentially higher than fourth quarter 2003, while the Electrical Group's first quarter 2004 sales were 8% up from comparable 2003 and 8% sequentially improved from the fourth quarter last year. The sales improvements in both Groups reflected a broad-based increase in demand from customers. (See accompanying financial schedules for segment data).

The Company's operating margin improved to 7.7% in 2004's first quarter from 7.5% in comparable 2003. Electrical Group operating margin improved to 8.4% in the first quarter this year from 8.1% a year ago, while the Mechanical Group's first quarter 2004 operating margin decreased to 5.9% from 6.1% in comparable 2003. The Mechanical Group margin decrease was due to one-time costs in the first quarter associated with the consolidation of a significant portion of the production of one of the Group's plants into another of the Group's facilities.

First quarter 2004 cash flow from operations was \$4.7 million as compared to \$6.4 million in comparable 2003. Increases in accounts receivable and inventories as sales rose during the quarter offset a portion of the cash flow produced by earnings, depreciation and increased accounts payable. Long-term debt increased to \$202.5 million at March 30, 2004 from \$195.7 million at year-end 2003.

“The first quarter of 2004 was successful in many ways,” said James Packard, Chairman and CEO. “Our performance improved both in sales and profitability and was in line with our expectations for the quarter. For the first time in several years, we achieved a broad-based increase in customer orders which was seen in both of our operating segments. First quarter 2004 orders were 10% higher than 2003’s first quarter and were 13% sequentially improved from the fourth quarter of last year.”

“Just before the end of the first quarter, we successfully placed \$115 million of convertible senior subordinated 20-year bonds at a fixed interest rate of 2.75% (the offering closed and proceeds were received on April 5, 2004). The bonds are non-callable for 5 years and cannot be put back to the Company by the bondholders for 5 years. This offering provides us with both a very attractive interest rate and the added capacity and flexibility to continue to seek out accretive strategic acquisitions.”

“While the first quarter has given us increased optimism for the future, as always we must meet unexpected challenges,” added Mr. Packard. “During the first quarter, the prices of commodities important to our production, particularly copper, steel and aluminum, rose significantly. While we have taken actions, including increasing prices of our products, to address these material cost concerns, this area of our business presents significant uncertainty for the balance of the year. Taking this into account along with improving demand in our markets, we estimate that our second quarter earnings will be in a range of \$.29 - \$.33 per share.”
