Edgar Filing: MOHAWK INDUSTRIES INC - Form 10-Q

MOHAWK INDUSTRIES, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except per share amounts)

(Unaudited)

1. Interim reporting

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with instructions to Form 10-Q and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These statements should be read in conjunction with the consolidated financial statements and notes thereto, and the Company's description of critical accounting policies, included in the Company's 2006 Annual Report on Form 10-K, as filed with the Securities and Exchange Commission.

2. New Pronouncements

In July 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48 ("FIN 48"), "*Accounting for Uncertainty in Income Taxes-an Interpretation of FASB Statement No. 109*," which clarifies the accounting for uncertainty in income taxes. FIN 48 prescribes a recognition threshold and measurement criteria for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company adopted the provisions of FIN 48 on January 1, 2007. Upon adoption, the Company recognized no change to opening retained earnings.

In September 2006, FASB issued Statement of Financial Accounting Standards ("SFAS") No. 157 ("SFAS No. 157"), "*Fair Value Measurements*." SFAS No. 157 defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. SFAS No. 157 requires companies to disclose the fair value of financial instruments according to a fair value hierarchy. Additionally, companies are required to provide certain disclosures regarding instruments within the hierarchy, including a reconciliation of the beginning and ending balances for each major category of assets and liabilities. SFAS No. 157 is effective for the Company's fiscal year beginning January 1, 2008. The Company is currently evaluating the impact of SFAS No. 157 on its consolidated financial statements.

In September 2006, FASB issued SFAS No. 158, ("SFAS No. 158") "*Employers' Accounting for Defined Benefit Pension and Other Post Retirement Plans- an amendment of FASB Statements No. 87, 88, 106 and 132(R)*". The Company adopted all provisions of SFAS No. 158 as of December 31, 2006, except for the measurement date provisions, which are effective for fiscal years ending after December 15, 2008. The Company is currently evaluating the impact of the measurement date provisions of SFAS No. 158 on its consolidated financial statements.

In February 2007, FASB issued SFAS No. 159 ("SFAS No. 159"), "*The Fair Value Option for Financial Assets and Financial Liabilities-including an amendment of FASB Statement No. 115*." SFAS No. 159 expands the use of fair value accounting but does not affect existing standards which require assets or liabilities to be carried at fair value. The objective of SFAS No. 159 is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. Under SFAS No. 159, a company may elect to use fair value to measure eligible items at a specified election date and report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. Eligible items include, but are not limited to, accounts and loans receivable, available-for-sale and held-to-maturity securities, equity method investments, accounts payable, guarantees, issued debt and firm commitments. If elected, SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently assessing whether fair value accounting is appropriate for any eligible items and has not estimated the impact, if any, on the Company's financial statements.

Comprehensive income	\$ 139,806	224,257	\$ 254,360	344,792

9. Stock compensation

The Company accounts for its stock-based compensation plans in accordance with Statement of Financial Accounting Standards No. 123 (revised 2004) ("SFAS No. 123R") "*Share-Based Payment*". Under SFAS No. 123R, all stock based compensation cost is measured at the grant date, based on the estimated fair value of the award, and is recognized as an expense in the statement of earnings over the requisite service period.

Under the Company's 2002 Long-Term Incentive Plan ("2002 Plan"), the Company's principal stock compensation plan prior to May 16, 2007, the Company reserved up to a maximum of 3,200 shares of common stock for issuance upon the grant or exercise of stock options, restricted stock, restricted stock units ("RSU's") and other types of awards, as defined under the 2002 Plan, to directors and key employees through 2012. Option awards, restricted stock and RSU's are generally granted with an exercise price equal to the market price of the Company's common stock on the date of the grant. These awards generally vest between three and five years and have a 10-year contractual term. On May 16, 2007, the Company's stockholders approved the 2007 Long-Term Incentive Plan ("2007 Plan"), which allows the Company to reserve up to a maximum of 3,200 shares of common stock for issuance upon the grant or exercise of awards under the 2007 Plan. As of June 30, 2007, there have been no shares issued under the 2007 Plan.

Edgar Filing: MOHAWK INDUSTRIES INC - Form 10-Q

MOHAWK INDUSTRIES, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except per share amounts)
(Unaudited)

The Company recognized stock based compensation costs related to stock options of \$2,205 (\$1,397 net of taxes) and \$4,644 (\$2,942 net of taxes) which has been allocated to selling general and administrative expenses for the three and six months ended June 30, 2007, respectively. The Company recognized \$3,359 (\$2,104 net of taxes) and \$6,109 (\$3,846 net of taxes) which has been allocated to selling, general and administrative expenses, for the three and six months ended July 1, 2006, respectively. Pre-tax unrecognized compensation expense for stock options granted to employees and outside directors, net of estimated forfeitures, was \$15,954 as of June 30, 2007, and will be recognized as expense over a weighted-average period of approximately 2.2 years. Restricted stock awards granted and the related compensation expense was not significant for the three and six months ended June 30, 2007 and July 1, 2006. The fair value of the option award is estimated on the date of grant using the Black-Scholes-Merton valuation model. Expected volatility is based on the historical volatility of the Company's common stock. The Company uses historical data to estimate option exercise and forfeiture rates within the valuation model.

The Company recognized stock based compensation costs related to the issuance of RSU's of \$837 (\$527 net of taxes) and \$2,789 (\$1,767 net of taxes) for the three and six months ended June 30, 2007, respectively, which has been allocated to selling, general and administrative expenses. Pre-tax unrecognized compensation expense for unvested RSU's granted to employees, net of estimated forfeitures, was \$9,144 as of June 30, 2007, and will be recognized as expense over a weighted average period of approximately 3.3 years.

10. Earnings per share

The Company applies the provisions of Statement of Financial Accounting Standards No. 128 ("SFAS No. 128"), "Earnings per Share," which requires companies to present basic EPS and diluted EPS. Basic EPS excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS reflects the dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. Dilutive common stock options and RSU's are included in the diluted EPS calculation using the treasury stock method. Excluded from the computation of diluted earnings per share are stock options and RSU's of 663 and 1,409 shares because their effect would have been anti-dilutive for the three month period ended June 30, 2007 and July 1, 2006, respectively, and 782 shares and 1,220 shares for the six month period ended June 30, 2007 and July 1, 2006, respectively.

	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006

12. Segment reporting

The Company has three reporting segments, the Mohawk segment, the Dal-Tile segment and the Unilin segment. The Mohawk segment manufactures, markets and distributes its product lines, which include carpet, rugs, pad, ceramic tile, hardwood, resilient and laminate, through its network of approximately 50 regional distribution centers and satellite warehouses using company-operated trucks, common carrier or rail transportation. The segment product lines are sold through various selling channels, which include floor covering retailers, home centers, mass merchandisers, department stores, independent distributors, commercial dealers and commercial end users. The Dal-Tile segment manufactures, markets and distributes its product lines, which include ceramic tile, porcelain tile and stone products, through its network of regional distribution centers and approximately 265 company-operated sales service centers using company-operated trucks, common carriers or rail transportation. The segment product lines are purchased by floor covering retailers, home centers, independent distributors, tile specialty dealers, tile contractors, and commercial end users. The Unilin segment manufactures, markets and distributes its product lines, which include laminate flooring, insulated roofing and other wood-based panels through various selling channels, which include independent retailers, home centers, independent distributors, contractors, and commercial users.

The accounting policies for each operating segment are consistent with the Company's policies for the consolidated financial statements. Amounts disclosed for each segment are prior to any elimination or consolidation entries. Corporate general and administrative expenses attributable to each segment are estimated and allocated accordingly. Segment performance is evaluated based on operating income.

13. Employee Benefit Plans

The Company has various pension plans covering employees in Belgium, France and the Netherlands (the "Non-U.S. Plans") that it acquired with the acquisition of Unilin Holding NV in October 2005. Benefits under the Non-U.S. Plans depend on compensation and years of service. The Non-U.S. Plans are funded in accordance with local regulations. Pension expense for the Non-U.S. Plans includes the following components for the three and six months ended:

	Non-U.S. Plans			
	Three months ended		Six months ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Service cost of benefits earned	\$ 461	401	\$ 910	803
Interest cost on projected benefit obligation	229	208	446	416
Estimated return on plan assets	(176)	(158)	(350)	(316)
Net pension expense	\$ 514	451	\$ 1,006	903

The Company terminated its non-contributory defined benefit plan in October 2006 and the obligation of \$28,472 is expected to be substantially paid by the end of 2007. The Company expects to make cash contributions of \$1,485 to its Non-U.S. Plans and \$9,161 to its terminated non-contributory U.S. plan in 2007.

14. Income Taxes

The Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48 ("FIN 48"), *"Accounting for Uncertainty in Income Taxes-an Interpretation of FASB Statement No. 109,"* on January 1, 2007. Upon adoption, the Company recognized no change to opening retained earnings. The Company's total balance of unrecognized tax benefits as of January 1, 2007 is approximately \$156,018, excluding any accruals for interest and penalties. Included in the balance as of January 1, 2007 is approximately \$34,151 of uncertain tax positions that, if recognized, would affect the Company's overall effective tax rate. Through the six months ended June 30, 2007, there has not been any material change in the amount of unrecognized tax benefits.

The Company recognizes interest and penalties accrued related to unrecognized tax benefits as a component of its income tax provision. As of January 1, 2007, the Company had approximately \$47,972 accrued for the payment of interest and penalties, which does not include the federal tax benefit of interest deductions, where applicable. Through the six months ended June 30, 2007 there has not been any material change in interest and penalties accrued to unrecognized tax benefits.

The Company files income tax returns in the U.S. federal jurisdiction and various state, local and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 1999. The Company is protesting through the IRS Appeals division the timing and deductibility of certain contingent liabilities related to the audit of its 1999 - 2001 tax years. In connection with its protest, the Company paid a \$35,844 cash bond to the IRS; by the end of 2007 it is reasonably possible that an additional payment of approximately \$13,221 could be made. In addition, the Company believes is reasonably possible that the balance of unrecognized tax benefits could decrease to \$64,800 by the end of the year for individual matters of lesser amounts due to settlements or statutory expirations in various tax jurisdictions.

The Company is also under examination for tax years 2002-2003 with the IRS and in various state and foreign jurisdictions for which the anticipated adjustments would not result in a significant change to the total amount of unrecognized tax benefits.

15. Commitments, Contingencies and Other

The Company is involved in litigation from time to time in the regular course of its business. Except as noted below, there are no other significant legal proceedings pending or known to be contemplated to which the Company is a party or to which any of its property is subject.

In *Shirley Williams et al. v. Mohawk Industries, Inc.*, four plaintiffs filed a putative class action lawsuit in January 2004 in the United States District Court for the Northern District of Georgia, alleging that they are former and current employees of the Company and that the actions and conduct of the Company, including the employment of persons who are not authorized to work in the United States, have damaged them and the other members of the putative class by suppressing the wages of the Company's hourly employees in Georgia. The plaintiffs seek a variety of relief, including (a) treble damages; (b) return of any allegedly unlawful profits; and (c) attorney's fees and costs of litigation. In February 2004, the Company filed a Motion to Dismiss the Complaint, which was denied by the District Court in April 2004. Following appellate review, the case has been returned to the District Court and discovery is proceeding.

MOHAWK INDUSTRIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except per share amounts)
(Unaudited)

In an internal review, the Company discovered that it had exchanged employee compensation information with its competitors while gathering market data. The Company discontinued this activity and voluntarily disclosed the practice to the Department of Justice. No claim has been asserted.

The Company believes that adequate provisions for resolution of all contingencies, claims and pending litigation have been made for probable losses and that the ultimate outcome of these actions will not have a material adverse effect on its financial condition but could have a material adverse effect on its results of operations in a given quarter or annual period.

The Company has received partial refunds from the United States government in reference to settling custom disputes dating back to 1982. The Company has received partial refunds totaling \$28,590 (\$18,076 net of taxes). During the three and six months ended June 30, 2007, the Company recorded refunds of \$32 (\$20 net of taxes) and \$9,154 (\$5,812 net of taxes), respectively. The Company recorded \$6,232 (\$3,903 net of taxes) for both the three and six month periods ended July 1, 2006. Additional future recoveries will be recorded when realized.

On June 25, 2007, the Company entered into an asset purchase agreement with Columbia Forest Products for wood flooring plants and working capital. The assets include two pre-finished solid plants and one engineered wood plant in the U.S. and an engineered wood plant in Malaysia. The transaction is expected to close during the third quarter of 2007.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company is a leading producer of floor covering products for residential and commercial applications in the United States and Europe with net sales in 2006 in excess of \$7.9 billion. The Company manufactures, markets and distributes carpet, rugs, ceramic tile and natural stone in the United States, roofing systems in Europe, and laminate flooring and wood based panels in the United States and Europe, through various selling channels.

The Company has three reporting segments, the Mohawk segment, the Dal-Tile segment and the Unilin segment. The Mohawk segment manufactures, markets and distributes its product lines, which include carpet, rugs, pad, ceramic tile, hardwood, resilient and laminate, through its network of approximately 50 regional distribution centers and satellite warehouses using company-operated trucks, common carrier or rail transportation. The segment product lines are sold through various selling channels, which include floor covering retailers, home centers, mass merchandisers, department stores, independent distributors, commercial dealers and commercial end users. The Dal-Tile segment manufactures, markets and distributes its product lines, which include ceramic tile, porcelain tile and stone products, through its network of regional distribution centers and approximately 265 company-operated sales service centers using company-operated trucks, common carriers or rail transportation. The segment product lines are purchased by floor covering retailers, home centers, independent distributors, tile specialty dealers, tile contractors, and commercial end users. The Unilin segment manufactures, markets and distributes its product lines, which include laminate flooring, insulated roofing and other wood-based panels through various selling channels, which include independent retailers, home centers, independent distributors, contractors, and commercial users.

The Company reported net earnings of \$115.3 million or diluted earnings per share ("EPS") of \$1.68, down for the second quarter of 2007 compared to net earnings of \$119.5 million or \$1.76 EPS for the second quarter of 2006. The decrease in EPS resulted primarily from lower sales volume in the Company's U.S. new construction and residential replacement channels, which the Company believes is primarily attributable to the slowing U.S. housing industry, partially offset by continued growth in the European product categories.

The Company reported net earnings of \$205.6 million or diluted EPS of \$3.01 for the first half of 2007 compared to net earnings of \$198.6 million or \$2.92 EPS for the first half of 2006. The increase in EPS resulted primarily from the continued growth in the European product categories. The increase was offset by lower sales volume within the U.S. new construction and residential replacement channels, which the Company believes is attributable to the slowing U.S. housing industry.

Results of Operations

Quarter Ended June 30, 2007, as Compared with Quarter Ended July 1, 2006

Net sales for the quarter ended June 30, 2007 were \$1,977.2 million, reflecting a decrease of \$80.9 million, or approximately 3.9%, from the \$2,058.1 million reported in the quarter ended July 1, 2006. The decrease occurred in the Company's U.S. new construction and residential replacement channels, which the Company believes has been impacted by the slowing U.S. housing industry offset by stronger sales within the European product categories. The Mohawk segment recorded net sales of \$1,113.4 million in the current quarter compared to \$1,242.0 million in the second quarter of 2006, representing a decrease of \$128.6 million or approximately 10.4%. The decrease primarily arose from lower demand in its residential channel which the Company believes was impacted by the slowing U.S. housing industry. The Dal-Tile segment recorded net sales of \$505.2 million in the current quarter, reflecting a decrease of \$1.7 million or approximately 0.3%, from the \$506.9 million reported in the second quarter of 2006. The decrease occurred in its residential sales channel, which the Company believes was affected by the slowing U.S. housing industry. The Unilin segment recorded net sales of \$363.5 million in the current quarter compared to \$313.8 million in the second quarter of 2006, representing an increase of \$49.7 million or approximately 15.8%. The increase in sales is primarily attributable to higher sales in Europe, an increase in selling prices, an increase in patent revenues, and a favorable Euro exchange rate.

Edgar Filing: MOHAWK INDUSTRIES INC - Form 10-Q

Gross profit for the second quarter of 2007 was \$556.7 million (28.2% of net sales) and represented a decrease of \$35.7 million from gross profit of \$592.4 million (28.8% of net sales) for the prior year's second quarter. Gross profit as a percentage of net sales in the current quarter was unfavorably impacted by lower production volume and higher raw material costs in the U.S. partially offset by price increases and sales volume increases in Europe and an increase in patent revenues.

Selling, general and administrative expenses for the second quarter of 2007 were \$358.5 million (18.1% of net sales) compared to \$369.3 million (17.9% of net sales) for the prior year's second quarter. The increase in the selling, general and administrative expenses as a percentage of net sales was primarily attributable to lower sales in proportion to selling, general and administrative expenses, and higher amortization expenses, which arose from the Unilin acquisition.

Operating income for the second quarter of 2007 was \$198.2 million (10.0% of net sales) compared to \$223.0 million (10.8% of net sales) in the second quarter of 2006. Operating income as a percentage of net sales in the current quarter was unfavorably impacted by lower sales volume and mix, which the Company believes is primarily attributable to the slowing U.S. housing industry partially offset by higher sales in Europe. Operating income in the Mohawk segment was \$59.7 million (5.4% of segment net sales) in the second quarter of 2007 compared to \$99.0 million (8.0% of segment net sales) in the second quarter of 2006. Declining operating income as a percentage of net sales in the current quarter occurred in its residential and replacement channels, which the Company believes was primarily affected by the slowing U.S. housing industry, increased manufacturing costs resulting from lower production volume, and higher raw material costs. In the Dal-Tile segment, operating income was \$69.4 million (13.7% of segment net sales) in the second quarter of 2007 compared to \$74.0 million (14.6% of segment net sales) for the second quarter of 2006. Operating income as a percentage of net sales was unfavorably impacted by its residential channel, which the Company believes is primarily attributable to the slowing U.S. housing industry. Operating income in the Unilin segment was \$81.7 million (22.5% of segment net sales) in the second quarter of 2007 compared to \$59.7 million (19.0% of segment net sales) for the second quarter of 2006. Operating income as a percentage of net sales was favorably impacted by higher volume and selling prices, an increase in patent revenues and a favorable Euro exchange rate.

Interest expense for the second quarter of 2007 was \$39.1 million compared to \$46.1 million in the second quarter of 2006. The decrease in interest expense was directly related to lower average debt levels in the current quarter when compared to the second quarter of 2006. This decrease was partially offset by higher interest rates in the second quarter of 2007.

Income tax expense was \$46.6 million, or 28.8% of earnings before income taxes for the second quarter of 2007 compared to \$60.0 million or 33.4% of earnings before income taxes for the prior year's second quarter. The decrease in the tax rate is principally due to a change in U.S. and foreign income mix from operations.

Six Months Ended June 30, 2007, as Compared with Six Months Ended July 1, 2006

Net sales for the first six months ended June 30, 2007 were \$3,841.1 million, reflecting a decrease of \$142.1 million, or approximately 3.6%, from the \$3,983.2 million reported in the six months ended July 1, 2006. The decrease primarily occurred in the Company's U.S. new construction and residential replacement channels, which the Company believes was caused by the slowing U.S. housing industry offset by stronger sales within the European product categories. The Mohawk segment recorded net sales of \$2,161.1 million in the first half of 2007 compared to \$2,392.5 million in the first half of 2006, representing a decrease of \$231.4 million or approximately 9.7%. The decrease was due to lower demand in its residential channel which the Company believes resulted primarily from the slowing U.S. housing industry. The Dal-Tile segment recorded net sales of \$972.1 million in the current six months ended June 30, 2007, reflecting a decrease of \$8.7 million or approximately 0.9%, from the \$980.8 million reported in the first half of 2006. The decrease was primarily attributable to lower sales within its residential channel, which the Company believes was due to the slowing U.S. housing industry. The Unilin segment recorded net sales of \$715.6 million reflecting an increase of \$99.2 million or approximately 16.1%, from the \$616.4 million reported in the first half of 2006. The increase in sales was driven by higher sales in Europe, an increase in selling prices, an increase in patent revenues and a favorable Euro exchange rate.

Gross profit for the first half of 2007 was \$1,080.1 million (28.1% of net sales) and represented a decrease of \$28.6 million from gross profit of \$1,108.7 million (27.8% of net sales) for the prior year's first half. Gross profit as a percentage of net sales for the first half of 2007 was favorably impacted by price increases and sales volume increases in Europe, an increase in patent revenues, partially offset by lower production volume and higher raw material costs in the U.S.

Selling, general and administrative expenses for the first half of 2007 were \$711.3 million (18.5% of net sales) compared to \$721.8 million (18.1% of net sales) for the prior year's first half. The increase in the selling, general and administrative expenses as a percentage of net sales was primarily attributable to lower sales in proportion to selling, general and administrative expenses, and higher amortization expenses, which arose from the Unilin acquisition.

Operating income for the first half of 2007 was \$368.8 million (9.6% of net sales) compared to \$386.9 million (9.7% of net sales) in the first half of 2006. Operating income as a percentage of net sales in the first half of 2007 was unfavorably impacted by lower sales volume and mix, which the Company believes was primarily attributable to the slowing U.S. housing industry partially offset by higher sales in Europe. Operating income attributable to the Mohawk segment was \$108.2 million (5.0% of segment net sales) in the first half of 2007 compared to \$164.6 million (6.9% of segment net sales) in the first half of 2006. Operating income as a percentage of net sales in the first half of 2007 was unfavorably impacted by its residential and replacement channels, which the Company believes resulted from the slowing U.S. housing industry, increased manufacturing costs resulting from lower production volume and higher raw material costs. Operating income attributable to the Dal-Tile segment was \$133.7 million (13.8% of segment net sales) in the first half of 2007 compared to \$143.6 million (14.6% of segment net sales) for the first half of 2006. Operating income as a percentage of net sales was unfavorably impacted by its residential channel, which the Company believes resulted from the slowing U.S. housing industry. Operating income attributable to the Unilin segment was \$142.2 million (19.9% of segment net sales) in the first half of 2007 compared to \$99.7 million (16.2% of segment net sales) for the first half of 2006. Operating income as a percentage of net sales was favorably impacted by higher volume and selling prices, an increase in patent revenues and a favorable Euro exchange rate.

Interest expense for the first half of 2007 was \$80.7 million compared to \$86.5 million in the first half of 2006. The decrease in interest expense was attributable to lower average debt, partially offset by higher interest rates in the first half of 2007 when compared to the first half of 2006.

Income tax expense was \$90.1 million, or 30.4% of earnings before income taxes for the first half of 2007 compared to \$101.8 million, or 33.9% of earnings before income taxes for the prior year's first half. The decrease in the tax rate is principally due to a change in U.S. and foreign income mix from operations.

Liquidity and Capital Resources

The Company's primary capital requirements are for working capital, capital expenditures and acquisitions. The Company's capital needs are met primarily through a combination of internally generated funds, bank credit lines, term and senior notes, the sale of trade receivables and credit terms from suppliers.

Cash flows generated by operations for the first six months of 2007 were \$314.5 million compared to \$342.7 million for the first six months of 2006. The decrease in operating cash flows for the first six months of 2007 as compared to the first six months of 2006 is primarily attributable to a reduction in accounts payable days outstanding and timing of payments of accrued expenses.

Net cash used in investing activities for the first six months of 2007 was \$60.4 million compared to \$155.9 million for the first six months of 2006. The decrease is due to higher acquisition investments within the Mohawk segment during 2006 as compared to 2007. Capital spending during the remainder of 2007 for the Mohawk, Dal-Tile and Unilin segments combined, excluding acquisitions, is expected to range from \$160 million to \$190 million, and will be used primarily to purchase equipment and to add manufacturing capacity.

Edgar Filing: MOHAWK INDUSTRIES INC - Form 10-Q

Net cash used in financing activities for the first six months of 2007 was \$265.8 million compared to \$251.9 million for the same period in 2006. The primary reason for the change was an increase in repayments of debt during the first six months of 2007 compared to the same period in 2006.

At June 30, 2007, a total of approximately \$526.9 million was available under the Company's revolving credit facility. The amount used under the revolving credit facility at June 30, 2007 was \$223.1 million. The amount used under the revolving credit facility is composed of \$125.1 million of borrowings, \$55.6 million of standby letters of credit guaranteeing the Company's industrial revenue bonds and \$42.4 million of standby letters of credit related to various insurance contracts and foreign vendor commitments.

The Company has an on-balance sheet trade accounts receivable securitization agreement ("Securitization Facility"). The Securitization Facility allows the Company to borrow up to \$350.0 million based on available accounts receivable. At June 30, 2007, the Company had approximately \$270.0 million outstanding secured by trade receivables. On July 28, 2007, the Company extended the term of the Securitization Facility until July 2008.

During April 2007, the Company repaid its \$300.0 million aggregate principal amount of its senior 6.5% notes. The Company used \$220.0 million and \$80.0 million of its availability under its Securitization Facility and its revolving credit facility, respectively, to repay the 6.5% notes. The Company believes it has adequate availability under its existing debt facilities to finance the acquisition of certain assets and liabilities of Columbia Flooring, which the Company expects to close during the third quarter of 2007.

Contractual Obligations

Upon the adoption of FIN 48, the Company included accrued income tax liabilities in its contractual obligations table as disclosed in the Company's 2006 Annual Report filed on Form 10-K. As of June 30, 2007, the Company accrued income tax liabilities of approximately \$199.0 million in the table of contractual obligations, of which the 2007 column total increased by approximately \$82.5 million for income tax liabilities expected to be settled within the current fiscal year. With respect to the remaining liability of \$116.5 million, the Company cannot reasonably estimate the timing of cash settlement with respective taxing authorities and accordingly has not included the amounts in the contractual obligation table. There have been no further significant changes to the Company's contractual obligations as disclosed in the Company's 2006 Annual Report filed on Form 10-K.

Critical Accounting Policies and Estimates

Except for the income tax policy, there have been no significant changes to the Company's critical accounting policies and estimates during the period. The Company's critical accounting policies and estimates are described in its 2006 Annual Report filed on Form 10-K. The methodology applied to management's estimate for income taxes has changed due to the January 1, 2007, adoption of FASB interpretation No. 48 ("FIN 48"), "*Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109*," which clarifies the accounting for uncertainty in income taxes. For additional information regarding the adoption of FIN 48, see Note 14 of Notes to Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q.

Recent Accounting Pronouncements

In July 2006, FASB issued FIN 48, "*Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109*," which clarifies the accounting for uncertainty in income taxes. FIN 48 prescribes a recognition threshold and measurement criteria for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company adopted the provisions of FIN 48 on January 1, 2007. Upon adoption, the Company recognized no change to opening retained earnings.

In September 2006, FASB issued SFAS No. 157, "*Fair Value Measurements.*" SFAS No. 157 defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. SFAS No. 157 requires companies to disclose the fair value of financial instruments according to a fair value hierarchy. Additionally, companies are required to provide certain disclosures regarding instruments within the hierarchy, including a reconciliation of the beginning and ending balances for each major category of assets and liabilities. SFAS No. 157 is effective for the Company's fiscal year beginning January 1, 2008. The Company is currently evaluating the impact of SFAS No. 157 on its consolidated financial statements.

In September 2006, FASB issued SFAS No. 158, "*Employers' Accounting for Defined Benefit Pension and Other Post Retirement Plans-an amendment of FASB Statements No. 87, 88, 106 and 132(R).*" The Company adopted all provisions of SFAS No. 158 as of December 31, 2006, except for the measurement date provisions, which are effective for fiscal years ending after December 15, 2008. The Company does not believe the adoption of the measurement provisions of SFAS no. 158 will have a material impact on its consolidated financial statements.

In February 2007, FASB issued SFAS No. 159, "*The Fair Value Option for Financial Assets and Financial Liabilities-including an amendment of FASB Statement No. 115.*" SFAS No. 159 expands the use of fair value accounting but does not affect existing standards which require assets or liabilities to be carried at fair value. The objective of SFAS No. 159 is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. Under SFAS No. 159, a company may elect to use fair value to measure eligible items at a specified election date and report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. Eligible items include, but are not limited to, accounts and loans receivable, available-for-sale and held-to-maturity securities, equity method investments, accounts payable, guarantees, issued debt and firm commitments. If elected, SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently assessing whether fair value accounting is appropriate for any eligible items and has not estimated the impact, if any, on its consolidated financial statements.

Impact of Inflation

Inflation affects the Company's manufacturing costs, distribution costs and operating expenses. The carpet and tile industry have experienced significant inflation in the prices of raw materials and fuel-related costs beginning in the first quarter of 2004. The laminate industry has experienced moderate inflation in the prices of raw material since the beginning of 2006. For the period from 1999 through the beginning of 2004, the carpet and tile industry experienced moderate inflation in the prices of raw materials and fuel-related costs. In the past, the Company has generally been able to pass along these price increases to its customers and has been able to enhance productivity to help offset increases in costs resulting from inflation in its operations.

Seasonality

The Company is a calendar year-end company. With respect to its Mohawk and Dal-Tile segments, its results of operations for the first quarter tend to be the weakest. The second, third and fourth quarters typically produce higher net sales and operating income in these segments. These results are primarily due to consumer residential spending patterns for floor covering, which historically have decreased during the first two months of each year following the holiday season. The Unilin segment's second and fourth quarters typically produce higher net sales and earnings followed by a moderate first quarter and a weaker third quarter. The third quarter is traditionally the weakest due to the European holiday in late summer.

Forward-Looking Information

Certain of the statements in this Form 10-Q, particularly those anticipating future performance, business prospects, growth and operating strategies, proposed acquisitions, and similar matters, and those that include the words "believes," "anticipates," "forecast," "estimates" or similar expressions constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. For those statements, Mohawk claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. There can be no assurance that the forward-looking statements will be accurate because they are based on many assumptions, which involve risks and uncertainties. The following important factors could cause future results to differ: changes in industry conditions; competition; raw material prices; energy costs; timing and level of capital expenditures; integration of acquisitions; introduction of new products; rationalization of operations; litigation; and other risks identified in Mohawk's SEC reports and public announcements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's exposures to market risk have not changed significantly since December 31, 2006.

Item 4. Controls and Procedures

Based on an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report, the Company's Chief Executive Officer and Chief Financial Officer have concluded that such controls and procedures were effective for the period covered by this report. No change in the Company's internal control over financial reporting occurred during the period covered by this report that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in litigation from time to time in the regular course of its business. Except as noted below, there are no other significant legal proceedings pending or known to be contemplated to which the Company is a party or to which any of its property is subject.

In *Shirley Williams et al. v. Mohawk Industries, Inc.*, four plaintiffs filed a putative class action lawsuit in January 2004 in the United States District Court for the Northern District of Georgia, alleging that they are former and current employees of the Company and that the actions and conduct of the Company, including the employment of persons who are not authorized to work in the United States, have damaged them and the other members of the putative class by suppressing the wages of the Company's hourly employees in Georgia. The plaintiffs seek a variety of relief, including (a) treble damages; (b) return of any allegedly unlawful profits; and (c) attorney's fees and costs of litigation. In February 2004, the Company filed a Motion to Dismiss the Complaint, which was denied by the District Court in April 2004. Following appellate review, the case has been returned to the District Court and discovery is proceeding.

In an internal review, the Company discovered that it had exchanged employee compensation information with its competitors while gathering market data. The Company discontinued this activity and voluntarily disclosed the practice to the Department of Justice. No claim has been asserted.

The Company believes that adequate provisions for resolution of all contingencies, claims and pending litigation have been made for probable losses and that the ultimate outcome of these actions will not have a material adverse effect on its financial condition but could have a material adverse effect on its results of operations in a given quarter or annual period.

Item 1A. Risk Factor

There have been no significant changes to the Company's risk factors as disclosed in the Company's 2006 Annual Report filed on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The Company made no equity repurchases during the three months ended June 30, 2007.

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

The Annual Meeting of Stockholders was held on May 16, 2007, at which time stockholders were asked to elect a class of directors to serve a three-year term beginning in 2007 and to approve the Mohawk Industries, Inc. 2007 Long-Term Incentive Plan.

Phyllis O. Bonanno, David L. Kolb, and W. Christopher Wellborn were elected Class III directors of the Company for a term expiring in 2010. Ms. Bonanno was elected by stockholders owning 61,396,830 shares of common stock, with stockholders owning 355,072 shares withholding authority. Mr. Kolb was elected by stockholders owning 51,418,761 shares of common stock, with stockholders owning 10,333,141 shares withholding authority. Mr. Wellborn was elected by stockholders owning 61,466,620 shares of common stock, with stockholders owning 285,282 shares withholding authority. Messrs. Bruce C. Bruckmann, Frans De Cock, John F. Fiedler, Jeffrey S. Lorberbaum, Robert N. Pokelwaldt and Larry W. McCurdy continued their terms of office as directors.

The proposal to approve the Mohawk Industries, Inc. 2007 Long-Term Incentive Plan was approved by stockholders owning 51,373,220 shares of common stock, with stockholders owning 1,330,690 shares withholding authority, with stockholders owning 66,551 shares abstaining and with 8,982,441 broker non-votes.

Item 5. Other Information

None.

Item 6. Exhibits

No. Description
