In the fourth quarter, international long distance traffic totaled 912 million minutes, 19.9% lower than the same period of the previous year and 30.0% lower than in the third quarter. The decrease was due to lower economic activity in the United States as well as lower incoming international long distance traffic. For the full year, international long distance traffic increased 11.7%, totaling 4,922 million minutes.

Data

In the fourth quarter, 180,042 line equivalents for data transmission were added, 29.3% higher than the fourth quarter of 2001. At December 31, 2002, TELMEX had 2,020,792 line equivalents for data transmission, an annual increase of 28.4%.

During the quarter, 63,783 Internet access accounts were added, 5.8% lower than the same period of last year and 25.4% lower than the third quarter. For the full year, 252,274 Internet access accounts were added, 9.6% lower than the same period of last year. At year-end, TELMEX had 1,165,401 Internet access accounts in operation, 27.6% more than in 2001.

Prodigy Infinitum (DSL) had a gain of 21,681 accounts during the fourth quarter bringing the total at year-end to 66,566 accounts, up from 4,938 accounts in 2001. Prodigy Infinitum offers three speeds: 256 Kbps, 512 Kbps and 2,048 Kbps to its residential and small and medium sized business customers in order to meet their specific needs.

In 2002, TELMEX continued to offer packages of products and services in order to maintain the company's position in the competitive data market. As a result, revenues generated by the data transmission business for the fourth quarter rose to 3,355 million pesos, 8.2% higher than the fourth quarter of 2001 and 7.2% more than the third quarter. For the full year, data transmission revenues totaled 12,454 million pesos, 3.3% higher than the previous year.

TELMEX financial results

For the fourth quarter, total revenues decreased 1.6% compared with the same period of 2001 and for the full year, the decrease was 3.8% compared with 2001. The decrease in revenues was due to lower local, interconnection, domestic and international long distance traffic growth rhythm and because of the slowdown of economic activity and the reduction of rates in real terms.

Operating costs and expenses increased 4.5% compared with last year's fourth quarter and for the full year they increased 1.3%. If costs related with interconnection that increased 12.6% in the fourth quarter and 10.7% for the full year, due to the increase in traffic carried through TELMEX's network, and depreciation and amortization were put aside, total costs would show a decrease of 5.3% in the fourth quarter and 3.4% in the full year.

This is the result of a reduction in commercial, administrative and general expenses of 11.6% in the fourth quarter and a decrease of 8.7% for the full year. Cost of sales and services decreased 0.2% compared with the fourth quarter of last year and for the full year they only increased 0.4%.

In November 2002, TELMEX registered a charge of 12.5 million dollars related to our settlement with XO Communications.

In the fourth quarter, EBITDA decreased 1.2% totaling 15,205 million pesos and for the full year it totaled 59,185 million pesos, a decrease of 6.4%. Operating income was 10,763 million pesos in the fourth quarter, 10.6% lower than the same period of 2001. For the full year, operating income totaled 39,617 million pesos, 12.0% lower than in 2001.

During the fourth quarter, comprehensive financing cost had a charge of 802 million pesos, resulting from an exchange loss of 629 million pesos of a net interest charge of 853 million pesos and a gain of 680 million pesos in the monetary position. The exchange loss was mainly due to the fluctuation of the peso against the dollar, partially offset by hedges made by the company. For the full year, comprehensive financing cost rose to 6,470 million pesos.

At year-end, total debt outstanding was 66.1 billion pesos of which 57.2 billion pesos was in foreign currency. Hedges rose to 418 million dollars with an average strike price of 10.2487 pesos per dollar and monetary assets were 920 million dollars.

Net income for the fourth quarter was 5,284 million pesos, 17.6% lower than the same period of 2001. For the full year, net income was 19,568 million pesos, a decrease of 21.2% compared with the previous year. TELMEX's earnings per share for the fourth quarter, based on the number of shares outstanding at period end, were 0.41 pesos, 16.3% lower than the same period of the previous year, and for the full year were 1.53 pesos, 19.0% lower than 2001.

Comments on local financial results

The local service income statement shows an increase in revenues for this line of business of 1.0% for the fourth quarter of 2002. The increase was mainly due to interconnection traffic with telecommunications and cellular operators that offset lower revenues in access, rents and measured service. For the year, local revenues decreased 3.3% because of the reduction of the interconnection rate and the reduction of local rates in real terms.

In the fourth quarter, costs increased 7.3% compared with the same period of the previous year. The decrease was due to charges of depreciation amortization and interconnection. If these charges were eliminated, operating costs and expenses would have decreased 1.8%.

EBITDA increased 0.2% in the fourth quarter and for the full year, it decreased 7.9%. Operating income for the fourth quarter decreased 9.5% and for the full year the decrease was 13.8%.

Comments on long distance financial results

The long distance income statement shows that long distance revenues for the fourth quarter decreased 8.0% due lower international long distance billed traffic as well as the reduction of long distance rates in real terms. Revenues for the full year decreased 8.9% because growth in traffic did not offset the decrease of long distance rates in real terms.

In the fourth quarter, total operating costs and expenses decreased 6.5% compared with the same period of 2001, due to the reduction of commercial, administrative and general expenses of 18.5% and the reduction of 14.9% of interconnection costs to the local network.

EBITDA for the fourth quarter was 5.3% lower than the same period of 2001. Operating income decreased 11.5% compared with the same period of the previous year. For the full year, EBITDA and operating income for the long distance business decreased 13.8% and 19.8%, respectively.
