PRESIDENT'S MESSAGE

July 21, 2004

Dear Shareholder:

We are pleased to let you know that FleetBoston Financial Corporation and Bank of America Corporation have merged, effective April 1, 2004. As a result of the merger, Columbia Management Group and your Colonial Investment Grade Municipal Trust became part of the Bank of America family of companies. Looking ahead, we believe this merger will be a real benefit to our shareholders. Preserving and leveraging our strengths, the combined organization intends to deliver additional research and management capabilities, as well as new products. There are no immediate changes planned for fund names, product lines, or customer service contacts.

As you might know, on March 15, 2004, FleetBoston Financial announced an agreement in principle with the staff of the Securities and Exchange Commission ("SEC") and the New York Attorney General ("NYAG") to settle charges involving market timing in Columbia Management mutual funds. (You may also know that Bank of America came to a similar settlement in principle at the same time.) The agreement requires the final approval of the SEC and the NYAG. This settlement in principle reflects our strong wish to put this regrettable situation behind us. Columbia Management has taken and will continue to take steps to strengthen policies, procedures and oversight to curb frequent trading of Columbia open-end fund shares.

Both your fund's trustees and Columbia Management are committed to serving the interests of our shareholders, and we will continue to work hard to help you achieve your financial goals.

As always, thank you for choosing Colonial Investment Grade Municipal Trust, and for giving us the opportunity to help you build a strong financial future.

Sincerely,

/s/ Thomas C. Theobald  $\,$  /s/ J. Kevin Connaughton

Thomas C. Theobald

J. Kevin Connaughton

Chairman, Board of Trustees

President

J. Kevin Connaughton was named president of Colonial Investment Grade Municipal Trust on February 27, 2004.

Economic and market conditions change frequently. There is no assurance that the trends described in this report will continue or commence.

Sector breakdown is calculated as a percentage of net assets (including auction preferred shares). Quality breakdown is calculated as a percentage of total investments. Ratings shown in the quality breakdown represent the highest rating assigned to a particular bond by one of the following nationally-recognized rating agencies: Standard & Poor's Corporation, Moody's Investors Service, Inc. or Fitch Ratings Ltd.

Because the trust is actively managed, there is no guarantee that the trust will continue to invest in these sectors or maintain this quality breakdown in the future.

For the six-month period ended May 31, 2004, Colonial Investment Grade Municipal Trust returned negative 2.01%, based on investment at net asset value. The trust underperformed its peer group, the Lipper General Municipal Debt Funds (Leveraged) Category, which averaged a negative return of 0.58% for the same period.1

The trust's relatively light exposure to lower quality, higher-yielding bonds resulted in a dividend that was lower than its peer group during the period. Duration was also a factor in the trust's relative underperformance. Duration is a measure, expressed in years, of a bond's sensitivity to changes in interest rates. Overall, the trust's duration was shorter than its peer group, which hurt relative performance when interest rates declined during the first part of the period. We positioned the trust with a shorter duration because we expected a strengthening economy to push interest rates slightly higher and bond prices lower. We made up some, but not all, of the performance shortfall when interest rates moved higher near the end of the period.

The trust's above-average stake in zero coupon municipal bonds also hampered relative returns. Zeroes are bought at a steep discount to face value and

appreciate to face value at maturity. They tend to have relatively long durations and do not do well when interest rates rise, which occurred at the end of the period. The market's fairly large supply of zeros also held back their returns.

LEVERAGED POSITIONS PUT A DAMPER ON INVESTOR ENTHUSIASM
For the six-month period ended May 31, 2004, the trust posted an even lower return of negative 5.83%, based on the market price of the stock, as the discount to net asset value widened. As investors began to anticipate that rising short-term interest rates could erode the income the trust earns on its leveraged positions, the shares lost some ground. The trust's preferred shares, issued in 1999, allowed the trust to borrow against its underlying investments. We invested the proceeds from these shares in longer maturity, higher-yielding bonds, while paying out a short-term rate that is influenced by the federal funds rate. The trust earns the difference between the rate paid on the preferred shares and the yield on the longer maturity securities. With the federal funds rate at 1.0%, during this reporting period, the difference was significant and resulted in added income for the trust. However, going forward, if the trend is toward higher interest rates all around, we expect the rate paid on the preferred

1

shares to rise, which could lower the income available to pay the dividend on the common shares.

#### EMPHASIS ON INCREASING YIELD

Our focus throughout the period was on increasing yield from the trust's investments. We added to our stake in lower-quality municipal bonds with higher yields and reduced bonds, such as zeros, that are geared more toward price appreciation. Some higher-yielding bonds helped performance. Of particular note were securities issued by HealthEast, a Minnesota hospital, and Charter Municipal Mortgage Acceptance Co., a pooled loan program for multi-family housing (0.3% and 0.6% of total investments, respectively).2 Both benefited from credit improvement. We also took advantage of the higher yields offered in the health care and retirement community sectors, raising the trust's stake in both. Elsewhere, we reduced the trust's reliance on hedging to manage duration. However, as Treasuries trailed other sectors, the trust benefited by selling Treasury futures contracts short.

#### LOOKING AHEAD TO RISING INTEREST RATES

We plan to maintain the trust's slightly short duration on the expectation that interest rates will rise gradually as job gains fuel the economy while high oil prices keep growth somewhat in check. In this environment, we expect to continue to boost our stake in higher-yielding bonds.

Maureen G. Newman has been the portfolio manager of Colonial Investment Grade Municipal Trust since January 2002. Ms. Newman has managed various other municipal funds for Columbia Management Advisors, Inc. or its predecessors since May 1996.

Past performance is no guarantee of future investment results. Current

performance may be higher or lower than performance data shown.

Tax-exempt investing offers current tax-free income, but it also involves certain risks. The value of the trust shares will be affected by interest rate changes and the creditworthiness of issues held in the trust. Investing in high-yield securities offers the potential for high current income and attractive total return, but involves certain risks. Lower-rated bond risks include default of the issuer and rising interest rates. Interest income from certain tax-exempt bonds may be subject to the federal alternative minimum tax for individuals and corporations.

#### NOTE 1. ORGANIZATION

Colonial Investment Grade Municipal Trust (the "Trust") is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a diversified, closed-end management investment company.

#### INVESTMENT GOAL

The Trust seeks as high a level of after-tax return as is consistent with prudent risk, by pursuing current income generally exempt from ordinary federal income tax and opportunities for long-term appreciation from a portfolio primarily invested in investment grade municipal bonds.

#### TRUST SHARES

The Trust may issue an unlimited number of common shares. On August 26, 1999, the Trust issued 2,400 Auction Preferred Shares ("APS").

#### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

#### USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements.

#### SECURITY VALUATION

Debt securities generally are valued by a pricing service approved by the Trust's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available are valued at an over-the-counter or exchange bid quotation. Certain debt securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis.

Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded.

Investments for which market quotations are not readily available, or quotations which management believes are not appropriate, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees.

### SECURITY TRANSACTIONS

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

#### FUTURES CONTRACTS

The Trust may invest in municipal and U.S. Treasury futures contracts. The Trust may invest in these instruments to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates

and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Trust and not for trading purposes. The use of futures contracts involves certain risks, which include: (1) imperfect correlation between the price movement of the instruments and the underlying securities, (2) inability to close out positions due to differing trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities, or (3) an inaccurate prediction by Columbia Management Advisors, Inc. of the future direction of interest rates. Any of these risks may involve amounts exceeding the variation margin recorded on the Trust's Statement of Assets and Liabilities at any given time.

Upon entering into a futures contract, the Trust deposits cash or securities with the broker in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by the Trust equal to the daily change in the contract value and are recorded as variation margin payable or receivable and offset in unrealized gains or losses. The Trust also identifies portfolio securities as segregated with the custodian in a separate account in an amount equal to the futures contract. The Trust recognizes a realized gain or loss when the contract is closed or expires.

#### DELAYED DELIVERY SECURITIES

The Trust may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Trust to subsequently invest at less advantageous prices. The Trust identifies cash or liquid portfolio securities as segregated with the custodian in an amount equal to the delayed delivery commitment.

#### INCOME RECOGNITION

Interest income is recorded on the accrual basis. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis. Premium and discount are amortized and accreted, respectively, on all debt securities. Dividend income is recorded on ex-date.

#### FEDERAL INCOME TAX STATUS

The Trust intends to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable or tax-exempt income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, the Trust intends to distribute in each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, such that the Trust should not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

#### DISTRIBUTIONS TO SHAREHOLDERS

Distributions to common shareholders are recorded on ex-date. Distributions to Auction Preferred shareholders are recorded daily and payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on May 31, 2004, was 1.07%. For the six months ended May 31, 2004, the Trust declared dividends to Auction Preferred shareholders amounting to \$277,032, representing an average APS dividend rate of 0.93%.

NOTE 3. FEDERAL TAX INFORMATION

The tax character of distributions paid during the year ended November 30, 2003 was as follows: Distributions paid from:

| Tax-Exempt Income       | \$8,411,303 |
|-------------------------|-------------|
| Ordinary Income*        | 30,543      |
| Long-Term Capital Gains |             |

\* For tax purposes short-term capital gains distributions, if any, are considered ordinary income distributions.

Unrealized appreciation and depreciation at May 31, 2004, based on cost of investments for federal income tax purposes was:

| Net unrealized appreciation | \$ 5,379,360 |
|-----------------------------|--------------|
|                             |              |
| Unrealized depreciation     | (5,865,241)  |
| Unrealized appreciation     | \$11,244,601 |

The following capital loss carryforwards, determined as of November 30, 2003, may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

| YEAR OF    | CAPITAL LOSS |
|------------|--------------|
| EXPIRATION | CARRYFORWARD |
|            |              |
| 2008       | \$2,403,657  |
| 2010       | 1,238,884    |
|            |              |
|            | \$3,642,541  |
|            |              |

#### NOTE 4. FEES AND COMPENSATION PAID TO AFFILIATES

Columbia Management Advisors, Inc. ("Columbia") is the investment advisor to the Trust. Prior to April 1, 2004, Columbia was an indirect, wholly owned subsidiary of FleetBoston Financial Corporation ("FleetBoston"). Effective April 1, 2004, FleetBoston, including the Trust's investment advisor, was acquired by Bank of America Corporation ("BOA"). The acquisition did not change the way the Trust is managed, the investment personnel assigned to manage the Trust or the fees paid by the Trust.

#### INVESTMENT ADVISORY FEE

Columbia provides administrative and other services to the Trust in addition to investment advisory services. Columbia receives a monthly investment advisory fee at the annual rate of 0.65% of the Trust's average weekly net assets, including assets applicable to the APS.

#### PRICING AND BOOKKEEPING FEES

Columbia is responsible for providing pricing and bookkeeping services to the Trust under a pricing and bookkeeping agreement. Under a separate agreement (the "Outsourcing Agreement"), Columbia has delegated those functions to State Street Corporation ("State Street"). As a result, Columbia pays the total fees received to State Street under the Outsourcing Agreement.

Under its pricing and bookkeeping agreement with the Trust, Columbia receives from the Trust an annual flat fee of \$10,000 paid monthly, and in any month that the Trust's average weekly net assets, including assets applicable to APS, exceed \$50 million, an additional monthly fee. The additional fee rate is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement. This rate is applied to the average weekly net assets, including assets applicable to APS, of the Trust for that month. The Trust also

pays additional fees for pricing services based on the number of securities held by the Trust. For the six months ended May 31, 2004, the Trust's annualized effective pricing and bookkeeping fee rate was 0.055%.

#### CUSTODY CREDITS

The Trust has an agreement with its custodian bank under which custody fees may be reduced by balance credits. The Trust could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

#### FEES PAID TO OFFICERS AND TRUSTEES

The Trust pays no compensation to its officers, all of whom are employees of Columbia or its affiliates. The Trust's Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Trust's assets.

#### OTHER

Columbia provides certain services to the Trust related to Sarbanes-Oxley compliance. For the six months ended May 31, 2004, the Trust paid \$744 to Columbia for such services. This amount is included in "Other expenses" on the Statement of Operations.

#### NOTE 5. PORTFOLIO INFORMATION

For the six months ended May 31, 2004, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$14,925,849 and \$14,164,707, respectively.

#### NOTE 6. PREFERRED SHARES

The Trust currently has outstanding 2,400 APS. The APS are redeemable at the option of the Trust on any dividend payment date at the redemption price of \$25,000 per share, plus an amount equal to any dividends accumulated on a daily basis unpaid through the redemption date (whether or not such dividends have been declared).

Under the Act, the Trust is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding. Additionally, the Trust is required to meet more stringent asset coverage requirements under the terms of the APS Agreement and in accordance with the guidelines prescribed by the APS' rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Trust may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain APS. At May 31, 2004, there were no such restrictions on the Trust.

NOTE 7. DISCLOSURE OF SIGNIFICANT RISKS AND CONTINGENCIES

### GEOGRAPHIC CONCENTRATION

The Trust has greater than 5% of its total investments at May 31, 2004 invested in debt obligations issued by the states of California, Illinois, New York and Texas and their respective political subdivisions, agencies and public authorities. The Trust is more susceptible to economic and political factors

adversely affecting issuers of the specific state's municipal securities than are municipal bond funds that are not concentrated to the same extent in these issuers.

#### HIGH-YIELD SECURITIES

Investing in high-yield securities may involve greater credit risk and considerations not typically associated with investing in U.S. Government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as "junk bonds." Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid to the extent there is no established secondary market.

#### INDUSTRY FOCUS

The Trust may focus its investments in certain industries, subjecting it to greater risk than a trust that is more diversified.

#### LEGAL PROCEEDINGS

Columbia and Columbia Funds Distributor, Inc. ("CFDI"), and certain of their affiliates (collectively, "the Columbia Group") have received information requests and subpoenas from various regulatory and law enforcement authorities in connection with their investigations of late trading and market timing in mutual funds, as well as other industry wide issues. The Columbia Group has not uncovered any instances where Columbia or CFDI were knowingly involved in late trading of mutual fund shares.

On February 24, 2004, the Securities and Exchange Commission ("SEC") filed a civil complaint in the United States District Court for the District of Massachusetts against Columbia and CFDI, alleging that they had violated certain provisions of the federal securities laws in connection with trading activity in mutual fund shares. Also on February 24, 2004, the New York Attorney General ("NYAG") filed a civil complaint in New York Supreme Court, County of New York against Columbia and CFDI alleging that Columbia and CFDI had violated certain New York anti-fraud statutes. If either Columbia or CFDI is unsuccessful in its defense of these proceedings, it could be barred from serving as an investment advisor or distributor for any investment company registered under the Investment Company Act of 1940, as amended (a "registered investment company"). Such results could prevent Columbia, CFDI or any company that is an affiliated person of Columbia and CFDI from serving as an investment advisor or distributor for any registered investment company, including your fund. Your fund has been informed by Columbia and CFDI that, if these results occur, they will seek exemptive relief from the SEC to permit them to continue to serve as your fund's investment advisor and distributor. There is no assurance that such exemptive relief will be granted. On March 15, 2004, Columbia and CFDI entered into agreements in principle with the SEC Division of Enforcement and NYAG in settlement of the charges. Under the agreements, Columbia and CFDI agreed, among other things, to the following conditions: payment of \$70 million in disgorgement; payment of \$70 million in civil penalties; an order requiring Columbia and CFDI to cease and desist from violations of the antifraud provisions and other provisions of the federal securities laws; governance changes designed to maintain the independence of the mutual fund boards of trustees and ensure compliance with securities laws and their fiduciary duties; and retention of an independent consultant to review Columbia's and CFDI's compliance policies and procedures. The agreement requires the final approval of the SEC. In a separate agreement with the NYAG, the Columbia Group has agreed to reduce mutual fund fees by \$80 million over a five-year period.

As a result of these matters or any adverse publicity or other developments resulting from them, there may be increased redemptions or reduced sales of fund shares, which could increase transaction costs or operating expenses, or have

other adverse consequences for the funds.

In connection with the events described in detail above, various parties have filed suit against certain funds, their Boards and/or FleetBoston (and affiliated entities). These suits and certain regulatory investigations are ongoing. Accordingly, an estimate of the financial impact of this litigation on any fund, if any, cannot currently be made.

- (a) The Trust changed its fiscal year end from December 31 to November 30.
- (b) Per share data was calculated using average shares outstanding during the period.
- (c) Effective December 1, 2001, the Trust adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting market discount on all debt securities. The effect of this change for the year ended November 30, 2002 was to increase the net investment income per share by \$0.01, increase the net realized and unrealized loss per share by \$0.01, increase the ratio of net investment income to average net assets from 6.98% to 7.06% and increase the ratio of net investment income (adjusted for dividend payments to preferred shareholders) from 6.30% to 6.38%. Per share data and ratios for periods prior to November 30, 2002 have not been restated to reflect this change in presentation.
- (d) The per share net investment income amount does not reflect the period's reclassifications of differences between book and tax basis net investment
- (e) Total return at market value assuming all distributions reinvested at prices calculated in accordance with the Dividend Reinvestment Plan.
- (f) Not annualized.
- (g) The benefits derived from custody credits and directed brokerage arrangements, if applicable, had an impact of less than 0.01%.
- (h) Ratios reflect average net assets available to common shares only.
- (i) Annualized.

#### DIVIDEND REINVESTMENT PLAN

#### COLONIAL INVESTMENT GRADE MUNICIPAL TRUST

Pursuant to the Trust's Dividend Reinvestment Plan (the "Plan"), all shareholders whose shares are registered in their own names will have all distributions reinvested automatically in additional shares of the Trust by EquiServe (the "Plan Agent") unless a shareholder elects to receive cash. Shareholders whose shares are held in the name of a broker or nominee will have distributions reinvested automatically by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or the nominee or the shareholder elects to receive distributions in cash. If the service is not available, such distributions will be paid in cash. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee for details. All distributions to shareholders who elect not to participate in the Plan will be paid by check mailed directly to the shareholder of record on the record date therefore by the Plan Agent as the dividend disbursing agent.

Non-participants in the Plan will receive distributions in cash. Distributions payable to participants in the Plan will be applied by the Plan Agent, acting as agent for Plan participants, to the purchase of shares of the Trust. Such shares will be purchased by the Plan Agent at the then current market price of such shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent. When a participant withdraws from the Plan or upon termination of the Plan as provided below, certificates for whole shares credited to his account under the Plan will be issued and a cash payment will be made for any fraction of a share credited to such account. A shareholder's notice of election to withdraw from the Plan must be received by the Plan Agent before the record date for a dividend in order to be given effect with respect to that dividend.

In the case of shareholders such as banks, brokers or nominees holding shares for others who are the beneficial owners of those shares, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the shareholder of record as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who are to

participate in the Plan.

There is no charge to Plan participants for reinvesting distributions. The Plan Agent's fees for the handling of the reinvestment of distributions will be paid by the Trust. Each participant in the Plan will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of distributions. Purchase orders from the participants in the Plan may be combined with those of other participants and the price paid by any particular participant may be the average of the price paid on various orders executed on behalf of groups of participants in the Plan.

The automatic reinvestment of distributions will not relieve participants of any income tax that may be payable on such dividends or distributions.

The Plan may be amended or terminated on 30 days' written notice to Plan participants. All correspondence concerning the Plan should be directed to EquiServe by mail at P.O. Box 43010, Providence, RI 02940-3010, or by phone at 1-800-730-6001.
