NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2007
(Unaudited)

Note 1 Basis of Presentation

The accompanying consolidated financial statements are unaudited. The Company believes that all adjustments (which primarily consist of normal recurring accruals) necessary for a fair presentation of the consolidated financial position of the Company at September 30, 2007, and the consolidated results of its operations for the three- and nine-month periods ended September 30, 2007 and 2006 and its cash flows for the nine month periods ended September 30, 2007 and 2006 have been included. Quarterly results of operations are not necessarily indicative of results for the full year. The accompanying financial statements should be read in conjunction with the financial statements and related notes presented in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 as filed with the Securities and Exchange Commission.

Note 2 Recent Accounting Pronouncements

Effective January 1, 2007, the Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 creates a single model to address accounting for uncertainty in tax positions, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. The cumulative effect of adopting FIN 48 resulted in a non-cash reduction of \$5.9 million to the January 1, 2007 opening balance of retained earnings (See Note 10).

Effective January 1, 2007, the Company adopted Emerging Issues Task Force (EITF) Issue No. 06-5, *Accounting for Purchases of Life Insurance- Determining the Amount That Could Be Realized in Accordance with FASB Technical Bulletin No. 85-4* (EITF 06-5). EITF 06-5 provides guidance in determining the amount to be realized under certain insurance contracts and the related disclosures. Adoption of EITF 06-5 did not have any effect on the Company's consolidated results of operations, financial position and cash flows.

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements. SFAS 157 does not require any new fair value measurements and is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is currently evaluating the impact of FAS 157.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (FAS 159) which is effective for fiscal years beginning after November 15, 2007. This statement permits an entity to elect to measure certain assets and liabilities at fair value at specified election dates. The Company is currently evaluating the impact of adopting FAS 159 on our financial statements.

Note 3 Earnings Per Share

The calculation of basic earnings per share for the three- and nine-month periods ended September 30, 2007 and 2006 is based on the average number of common shares considered outstanding during the periods. The calculation of diluted earnings per share for such periods reflects the effect of all potentially dilutive securities (outstanding common stock options and restricted stock grants). The following table presents the number of shares used in the calculation of basic earnings per share and diluted earnings per share:

	Weighted average shares (In thousands)			
	Three months ended		Nine months ended	
	September 30,		September 30,	
	2007	2006	2007	2006
Basic shares	106,136	104,667	105,642	104,878
Share-based award plans	1,628	1,665	1,717	1,744
Diluted shares	107,764	106,332	107,359	106,622

Note 4 Acquisitions

The total investment in the acquisition of five new businesses in the first nine months of 2007 was \$214.6 million, which includes \$189.0 million in cash, net of cash acquired, as well as assumed debt and other long-term liabilities (which includes a capital lease obligation) of \$25.6 million. The acquisitions include Seacon Phoenix (Seacon) in April 2007, Advanced Industries, Inc. (Advanced), B&S Aircraft Parts and Accessories (B&S), and Hamilton Precision Metals (Hamilton) in June 2007 and Cameca SAS (Cameca) in August 2007. Seacon provides undersea electrical interconnect subsystems to the global submarine market. Advanced manufactures starter generators, brush and brushless motors, vane-axial centrifugal blowers for cabin ventilation, and linear actuators for the business jet, light jet, and helicopter markets. B&S provides third party maintenance, repair and operation (MRO) services, primarily for starter generators and hydraulic and fuel system components, for a variety of business aircraft and helicopter applications. Hamilton produces highly differentiated niche specialty metals used in medical implant devices and surgical instruments, electronic components and measurement devices for aerospace and other industrial markets. Cameca is a manufacturer of high-end elemental analysis systems used in advanced laboratory research, semiconductor and nanotechnology applications. Advanced, B&S and Cameca are part of the Company's Electronic Instruments Group. Seacon and Hamilton are part of the Company's Electromechanical Group. The five businesses acquired have annualized sales of approximately \$152 million.

The acquisitions have been accounted for using the purchase method in accordance with SFAS No. 141, Business Combinations. Accordingly, the operating results of the above acquisitions have been included in the Company's consolidated results from the respective dates of acquisition.

Table of Contents

AMETEK, Inc.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 September 30, 2007
 (Unaudited)

The following table represents the tentative allocation of the aggregate purchase price for the net assets of the above acquisitions based on their estimated fair value:

	In millions
Property, plant and equipment	\$ 25.3
Goodwill	99.7
Other intangible assets	58.7
Net working capital and other (a)	5.3
Allocation of purchase price	\$ 189.0

(a) other includes \$25.6 million in debt and other long-term liabilities.

The amount allocated to goodwill is reflective of the benefits the Company expects to realize from the acquisitions as follows: The Seacon acquisition is an excellent strategic fit with the Company's engineered materials, interconnects and packaging business and extends the Company's reach into new defense markets. The Advanced acquisition complements the Company's AMPHION product line of power management products for the aerospace industry and broadens our product offering in the power management subsystem market. The B&S acquisition further expands the Company's position in the third party aerospace MRO market. The Hamilton acquisition is a strategic fit with our engineered materials, interconnects and packaging business and has strong positions in growing specialty metals niche markets within the aerospace and other industrial markets. The Cameca acquisition broadens the Company's technical capabilities in high-end elemental analysis systems used in advanced laboratory research, semiconductor and nanotechnology applications.

The Company is in the process of conducting third party valuations of certain tangible and intangible assets acquired, as well as finalizing restructuring plans for certain acquisitions. Adjustments to the allocation of purchase price will be recorded within the purchase price allocation period of up to twelve months subsequent to the dates of acquisition. Therefore, the allocation of the purchase price is subject to revision.

Had the above acquisitions been made at the beginning of 2007, net sales, net income and diluted earnings per share for the three- and nine-month periods ended September 30, 2007 would not have been materially different than the amounts reported.

Had the above acquisitions and the acquisitions of Pulsar, Pittman, Land Instruments, Precitech and Southern Aeroparts, which were acquired in February, May, June, November and December 2006, respectively, been made at the beginning of 2006, pro forma net sales, net income, and diluted earnings per share for the three- and nine-month periods ended September 30, 2006, would have been as follows:

(In millions, except per share)	
Three months ended September 30, 2006	Nine months ended September 30, 2006

Edgar Filing: AMETEK INC/ - Form 10-Q

Net sales	\$495.1	\$ 1,484.6
Net income	\$ 46.5	\$ 138.3
Diluted earnings per share	\$ 0.44	\$ 1.30

Pro forma results are not necessarily indicative of the results that would have occurred if the acquisitions had been completed at the beginning of 2006.

Acquisition subsequent to September 30, 2007

On November 1, 2007, the Company acquired Umeco Repair and Overhaul (Umeco R&O), the leading UK-based independent provider of maintenance, repair and overhaul (MRO) services to the aviation industry for \$74 million (£36 million). With annual sales of approximately \$58 million (£ 28 million), Umeco R&O adds to the Company's position in third party MRO services, providing a strong European presence. Umeco R&O operates from multiple locations within the UK and in Toulouse, France and will be a part of AMETEK's Electromechanical Group.

Note 5 Goodwill

The changes in the carrying amounts of goodwill by segment from December 31, 2006 to September 30, 2007, were as follows:

	(In millions)		
	EIG	EMG	Total
Balance at December 31, 2006	\$ 531.7	\$ 349.7	\$ 881.4
Goodwill acquired during the period	63.3	36.4	99.7
Purchase price allocation adjustments and other*	(4.3)	(3.2)	(7.5)
Foreign currency translation adjustments	15.5	3.4	18.9
 Balance at September 30, 2007	 \$ 606.2	 \$ 386.3	 \$ 992.5

* Purchase price allocation adjustments reflect final purchase price allocations and revisions to certain preliminary allocations for recent acquisitions, which include reclassifications between goodwill and other intangible assets.

Note 6 Inventories

The components of inventory consist of the following:

(In thousands)	
September 30, 2007	December 31, 2006

Edgar Filing: AMETEK INC/ - Form 10-Q

Finished goods and parts	\$ 61,592	\$ 46,148

Note 7 Debt

In the third quarter of 2007 the Company entered into a private placement to sell \$450 million in Senior Notes to a group of institutional investors. The Notes will be issued on two delayed drawing dates. The first funding will occur in December 2007 for \$370 million, consisting of \$270 million in aggregate principal amount of 6.20% Senior Notes due December 2017 and \$100 million in aggregate principal amount of 6.30% Senior Notes due December 2019. The second funding date will be in July 2008 for \$80 million in aggregate principal amount of 6.35% Senior Notes due July 2018. The Notes will carry a weighted-average interest rate of approximately 6.25%. The Notes are subject to certain customary covenants including certain financial covenants. The proceeds from the Notes will be used to fund the repayment of existing indebtedness, including redemption of the \$225 million of 7.20% Senior Notes due July of 2008 and for general corporate purposes. The Notes are subject to certain customary covenants including certain financial covenants.

In June 2007, the Company amended its Revolving Credit facility, increasing the total borrowing capacity from \$400 million to \$550 million, which includes an accordion feature that permits the Company to request up to an additional \$100 million in revolving credit commitments at any time during the life of the revolving credit agreement under certain conditions. The amendment also extended the term of the revolver from October 2011 to June 2012. At September 30, 2007, the Company had \$367.7 million available under its revolving credit facility, including the \$100 million accordion feature.

The accounts receivable securitization facility was amended and restated in May 2007, to increase the Company's available borrowing capacity from \$75 million to \$110 million as well as extend the expiration date from May 2007 to May 2008. As of September 30, 2007, the Company had utilized \$85 million under the accounts receivable securitization facility.

Note 9 Share-Based Compensation

Under the terms of the Company's stockholder approved share-based plans, incentive and non-qualified stock options and restricted stock awards have been, and may be, issued to the Company's officers, other management-level employees and its Board of Directors. Employees and non-employee director stock options generally vest over a four-year service period. Restricted stock awards generally cliff-vest at the end of a four year service period. Options primarily have a maximum contractual term of 7 years. At September 30, 2007, 8.9 million shares of common stock were reserved for issuance under the Company's share-based plans, including 4.0 million stock options outstanding. The Company issues previously un-issued shares when options are exercised, and shares are issued from treasury stock upon the award of restricted stock.

For grants under any of the Company's plans that are subject to graded vesting over a service period, we recognize expense on a straight-line basis over the requisite service period for the entire award. The fair value of each option grant is estimated on the date of grant using a Black-Scholes option pricing model.

The following weighted average assumptions were used in the Black-Scholes model to estimate the fair values of options granted during the periods indicated:

	Nine Months Ended September 30, 2007	Year ended December 31, 2006
Expected stock volatility	22.5%	24.4%
Expected life of the options (years)	4.7	4.8
Risk-free interest rate	4.50%	4.71%
Expected dividend yield	0.66%	0.50%

Table of Contents

AMETEK, Inc.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 September 30, 2007
 (Unaudited)

Expected volatilities are based on historical volatility of the Company's stock. The Company used historical exercise data to estimate the options' expected term, which represents the period of time that the options granted are expected to be outstanding. Management anticipates the future option holding periods to be similar to the historical option holding periods. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Compensation expense recognized for all share-based awards is net of estimated forfeitures. The Company's estimated forfeiture rates are based on its historical experience.

Total share-based compensation expense recognized under SFAS 123R for the three- and nine- months ended September 30, 2007 and 2006 was as follows:

	(In thousands)			
	Three months ended September 30,		Nine months ended September 30,	
	2007	2006	2007	2006
Stock option expense	\$ 1,343	\$ 1,359	\$ 4,491	\$ 4,134

Basic	\$ 0.03	\$ 0.02	\$ 0.08	\$ 0.07
Diluted	\$ 0.03	\$ 0.02	\$ 0.08	\$ 0.06

* The nine months ended September 30, 2007 results reflect the accelerated vesting of restricted stock grants in both the first and third quarters of 2007. See discussion on page 13.

Pretax share-based compensation expense is included in either cost of sales, or selling, general and administrative expenses depending on where the recipient's cash compensation is reported and is included in segment operating income and as a corporate item for business segment reporting.

Exercisable at end of period	2,323	\$ 16.62	3.1

The aggregate intrinsic value of options exercised during the nine months ended September 30, 2007 was \$25.8 million. The total fair value of the stock options vested during the nine months ended September 30, 2007 was \$5.7 million. The aggregate intrinsic value of the stock options outstanding at September 30, 2007 was \$90.5 million. The aggregate intrinsic value of the stock options exercisable at September 30, 2007 was \$38.6 million. The weighted average Black-Scholes fair value of stock options granted per share was \$9.54 for the nine months ended September 30, 2007 and \$9.55 for the year ended December 31, 2006.

The fair value of restricted shares under the Company's restricted stock arrangement is determined by the product of the number of shares granted and the grant date market price of the Company's common stock. Upon the grant of restricted stock, the fair value of the restricted shares (unearned compensation) at the date of grant, is charged as a reduction of capital in excess of par value in the Company's consolidated balance sheet and is amortized to expense on a straight-line basis over the vesting period, which is defined at the grant date. Restricted stock awards are also subject to accelerated vesting due to certain events. On February 20, 2007, and July 9, 2007, an aggregate of 463,237 shares of restricted stock vested under an accelerated vesting provision. The charge to income due to the accelerated vesting of these shares did not have a material impact on our earnings in the respective quarters in which they vested, or for the first nine months ended September 30, 2007. At September 30, 2007 the Company had 1.1 million shares of restricted stock outstanding.

Note 10 Income Taxes

The Company adopted the provisions of FIN 48, *Accounting for the Uncertainty in Income Taxes*, as of January 1, 2007. As a result of the adoption of FIN 48, the Company recognized a \$4.7 million increase in liabilities associated with unrecognized tax benefits, including interest and penalties of \$2.4

million and a decrease of \$1.2 million in goodwill related to a previous business combination, and a \$5.9 million charge to the January 1, 2007, opening balance of retained earnings.

After recognizing the impacts of adopting FIN 48, as of the adoption date, the Company had gross unrecognized tax benefits of \$22.5 million of which \$21.3 million, if recognized, would affect the effective tax rate.

The Company recognizes interest and penalties accrued related to unrecognized tax benefits in income tax expense. The amounts recognized in income tax expense for interest and penalties during the third quarter and nine months ended September 30, 2007 were not significant.

The Company files U.S. Federal income tax returns, as well as, income tax returns in various state and foreign jurisdictions. The Internal Revenue Service (IRS) is currently examining the Company's U.S. income tax returns for 1999-2005. Tax years in certain state and foreign jurisdictions remain subject to examination; however the uncertain tax positions related to these jurisdictions are not considered material. At present, the Company does not expect any changes that would significantly impact the unrecognized tax benefits within the next twelve months.

During the nine months ended September 30, 2007, we made \$1.9 million in contributions to our worldwide defined benefit pension plans, compared with contributions of \$10.0 million during the nine months ended September 30, 2006. For the full year 2007, we currently estimate that we will make contributions to our worldwide defined benefit pension plans of approximately \$5 million, compared with contributions of \$13.7 million for the full year 2006.

Note 12 Product Warranties

The Company provides limited warranties in connection with the sale of its products. The warranty periods for products sold vary widely among the Company's operations, but for the most part do not exceed one year. The Company calculates its warranty expense provision based on past warranty experience and adjustments are made periodically to reflect actual warranty expenses.

Changes in the Company's accrued product warranty obligation for the nine months ended September 30, 2007 and 2006 were as follows:

	(In thousands)	
	Nine months ended September 30,	
	2007	2006

Warranty accruals related to acquisitions and other	1,995	717
Balance, end of period	\$ 13,257	\$ 10,330

Product warranty obligations are reported as current liabilities in the consolidated balance sheet.

Note 13 Segment Disclosure

The Company has two reportable business segments, the Electronic Instruments Group and the Electromechanical Group. The Company aggregates its operating segments for segment reporting purposes primarily on the basis of product type, production process, distribution methods, and management organizations.

At September 30, 2007, there were no significant changes in identifiable assets of reportable segments from the amounts disclosed at December 31, 2006, nor were there any changes in the basis of segmentation, or in the measurement of segment operating results. Operating information relating to the Company's reportable segments for the three- and nine-month periods ended September 30, 2007 and 2006 can be found in the table on page 16 in the Management Discussion & Analysis section of this Report.

Operations for the third quarter of 2007 compared with the third quarter of 2006

In the third quarter of 2007, the Company posted record third quarter sales, operating income, net income and diluted earnings per share. The Company achieved these results from strong internal growth both in the Electronic Instruments (EIG) and Electromechanical (EMG) Groups, as well as, from contributions by the acquisitions of Precitech in November 2006, Southern Aeroparts in December 2006, Seacon Phoenix in April 2007, Advanced Industries, B&S Aircraft and Hamilton Precision Metals in June 2007, and Cameca SAS (Cameca) in August 2007.

Net sales for the third quarter of 2007 were \$528.8 million, an increase of \$64.6 million, or 13.9% when compared with net sales of \$464.2 million in the third quarter of 2006. The net sales increase in the third quarter of 2007 was driven by strong internal sales growth of approximately 6%, which excludes a 2% favorable effect of foreign currency, led by the Company's differentiated businesses. The acquisitions mentioned above contributed the remainder of the net sales increase.

International sales for the third quarter of 2007 were \$260.6 million, or 49.3% of consolidated sales, an increase of \$40.9 million, or 18.6% when compared with \$219.8 million, or 47.4% of consolidated sales in the same quarter of 2006. Approximately half of the increase in international sales results from increased

sales from base businesses, which includes the effect of foreign currency, with the remainder of the increase due to the recent acquisitions. Increased international sales came primarily from sales to Europe by both Groups.

Segment operating income for the third quarter of 2007 was \$105.9 million, an increase of \$17.7 million or 20.1% from \$88.2 million in the third quarter of 2006. Segment operating income, as a percentage of sales, increased to 20.0% in the third quarter of 2007 from 19.0% in the third quarter of 2006. The increase in segment operating income and in operating margins resulted primarily from strength in the Company's differentiated businesses, which includes the profit contributions made by the acquisitions.

Selling, general and administrative expenses (SG&A) were \$65.7 million in the third quarter of 2007, an increase of \$9.5 million or 16.9%, when compared with the third quarter of 2006. As a percentage of sales, SG&A expenses were 12.4% in the third quarter of 2007, compared with 12.1% in the same period of 2006, primarily driven by higher selling expenses of the acquired businesses. Selling expenses, as a percentage of sales, increased to 10.6% in the third quarter of 2007, compared with 10.3% in the same period of 2006. Base business selling expenses increased 7.1% in the third quarter of 2007 compared with the third quarter of 2006, in line with internal sales growth.

Corporate administrative expenses for the third quarter of 2007 were \$9.9 million, an increase of \$1.5 million when compared with the same period in 2006. The increase in corporate administrative expenses was primarily the result of higher equity-based compensation due primarily to the accelerated vesting of a restricted stock grant in the current third quarter and other expenses necessary to grow the Company. As a percentage of sales, corporate administrative expenses in the third quarter of 2007 were 1.9%, compared with 1.8% in the same period of 2006.

Consolidated operating income totaled \$96.0 million or 18.2% of sales for the third quarter of 2007, compared with \$79.8 million, or 17.2% of sales for the same quarter of 2006, an increase of \$16.2 million or 20.3%.

Interest expense was \$12.2 million in the third quarter of 2007, an increase of \$1.0 million or 8.9%, compared with \$11.2 million in the third quarter of 2006. The increase was driven by higher average debt levels incurred to fund the recent acquisitions and higher average interest rates.

The effective tax rate for the third quarter of 2007 was 31.4% compared with 31.0% in the third quarter of 2006. The higher effective tax rate in the third quarter of 2007 primarily reflects the elimination of the Foreign Sales Corporation/Extraterritorial Income (FSC/ETI) tax benefit, partially offset by an enacted decrease in the German corporate tax rate in the third quarter of 2007.

AMETEK, Inc.

Results of Operations (continued)

Net income for the third quarter of 2007 totaled \$57.2 million, an increase of 20.7% from \$47.4 million in the third quarter of 2006. Diluted earnings per share rose 17.8% to \$0.53 per share, compared with \$0.45 per share for the third quarter of 2006.

Segment Results

Electronic Instruments Group (EIG) sales totaled \$299.0 million in the third quarter of 2007, an increase of \$36.7 million or 14.0% from \$262.3 million in the same quarter of 2006. The sales increase was due to internal growth in the Group's aerospace, power and process and analytical businesses along with the acquisitions of Precitech, Advanced Industries, B&S Aircraft and Cameca. Internal growth accounted for approximately 7% of the sales increase, excluding a favorable 2% effect of foreign currency. The acquisitions accounted for the remainder of the increase.

Operating income of EIG was \$62.9 million for the third quarter of 2007, an increase of \$10.9 million or 20.9% when compared with the \$52.0 million in the third quarter of 2006. Operating margins for the Group were 21.0% of sales in the third quarter of 2007 compared with operating margins of 19.8% of sales in the third quarter of 2006. The increases in segment operating income and operating margins were due to the contribution from the higher sales by the Group's aerospace, power and process and analytical businesses.

Electromechanical Group (EMG) sales totaled \$229.8 million in the third quarter of 2007, an increase of \$27.9 million or 13.8% from \$201.9 million in the same quarter in 2006. The sales increase was due to solid internal growth from both the Group's cost driven and differentiated businesses, which accounted for approximately 5% of the sales increase, excluding a favorable 1% effect of foreign currency. The acquisitions of Southern Aeroparts, Seacon Phoenix and Hamilton Precision Metals primarily accounted for the remainder of the sales increase.

Operating income of EMG was \$43.0 million for the third quarter of 2007, an increase of \$6.8 million or 18.8% when compared with the \$36.2 million in the third quarter of 2006. EMG's increase in operating income was due to higher sales from both the Group's cost driven and differentiated businesses, which includes the acquisitions mentioned above. Operating margins for the Group were at 18.7% of sales in the third quarter of 2007 compared with 17.9% of sales in the third quarter of 2006. The increase in operating margins was due to the increased contribution from both of the Group's cost driven and differentiated businesses.

Operations for the first nine months of 2007 compared with the first nine months of 2006.

Net sales for the first nine months of 2007 were \$1,553.6 million, an increase of \$215.0 million or 16.1%, compared with net sales of \$1,338.6 million reported for the same period of 2006. The net sales increase in the first nine months of 2007 were driven by strong internal sales growth of approximately

7%, excluding a favorable 2% effect of foreign currency, led primarily by the Company's differentiated businesses. Acquisitions contributed the remainder of the net sales increase.

For the first nine months of 2007 international sales were \$766.6 million, or 49.3% of consolidated sales, compared with \$637.5 million, or 47.6% of consolidated sales, for the comparable period of 2006, an increase of \$129.1 million, or 20.3%. Slightly more than half of the increase in international sales results from increased sales from base businesses, which includes the effect of foreign currency, with the remainder of the increase is driven by the recent acquisitions. The increased international sales came mainly from sales to Europe.

Order input for the first nine months of 2007 was \$1,672.7 million, compared with \$1,428.5 million for the same period of 2006, an increase of \$244.2 million, or 17.1%. As a result, the Company's backlog of unfilled orders at September 30, 2007 was \$655.9 million, compared with \$536.8 million at December 31, 2006, an increase of \$119.1 million or 22.2%. Slightly more than half of the increase in orders and backlog was driven by the recent acquisitions, which includes acquired backlog, with the remainder of the increase due to strength in our base businesses.

Segment operating income for the first nine months of 2007 was \$312.0 million, an increase of \$56.9 million, or 22.3% compared with \$255.1 million for the same period of 2006. Segment operating income as a percentage of sales increased to 20.1% in the first nine months of 2007 compared with 19.1% for the same period of 2006. The increase in segment operating income and operating margins resulted from strength in the differentiated businesses of each Group, which includes the profit contributions made by the acquisitions.

Selling, general and administrative expenses were \$190.6 million for the first nine months of 2007, an increase of \$30.3 million or 18.9%, when compared with \$160.3 million in the same period of 2006. Selling expenses, as a percentage of sales, increased to 10.4% for the first nine months of 2007, compared with 10.1% for the same period of 2006. The selling expense increase and the corresponding increase in selling expenses as a percentage of sales were due primarily to the business acquisitions. The Company's acquisition strategy generally is to acquire differentiated businesses, which because of their distribution channels and higher marketing costs tend to have a higher content of selling expenses. Base business selling expenses increased 8.5% for the first nine months of 2007, compared with the same period of 2006, approximating the internal sales growth rate for base businesses.

Corporate administrative expenses were \$29.4 million for the first nine months of 2007, an increase of \$4.2 million, or 16.7%, when compared with \$25.2 million for the same period of 2006. The increase in corporate administrative expenses was primarily a result of higher compensation costs, including equity-based compensation associated with the first and third quarter 2007 accelerated vesting of restricted stock grants and other expenses necessary to grow the business. As a percentage of sales, corporate administrative expenses were unchanged at 1.9% for the first nine months of 2007 and 2006.

Results of Operations (continued)

Consolidated operating income was \$282.5 million, an increase of \$52.8 million or 23.0% when compared with \$229.7 million for the same period of 2006. This represents an operating margin of 18.2% for the first nine months of 2007, compared with 17.2% for the same period of 2006.

Interest expense was \$34.1 million for the first nine months of 2007, an increase of \$2.5 million or 7.9% when compared with \$31.6 million in the same period of 2006. The increase was driven by higher average debt levels incurred to fund the recent acquisitions and higher average interest rates.

Other expenses, net were \$2.5 million in the first nine months of 2007, compared with other expenses, net of \$1.3 million for the same period in 2006. The increase in expenses was primarily the result of costs associated with acquisitions the Company did not complete.

The effective tax rate for the first nine months of 2007 was 32.4% compared with 31.9% for the same period of 2006. The increase in the effective tax rate primarily reflects the elimination of the repealed Foreign Sales Corporation/Extraterritorial Income (FSC/ETI) tax benefit, an increase in state income taxes and the adoption of FIN 48 for the recognition of interest and penalties on unrecognized tax benefits, partially offset by an enacted change in a foreign corporate tax rate in the third quarter of 2007, as well as, recognition of tax benefits which resulted from the Company's international tax planning initiatives.

Net income for the first nine months of 2007 was \$166.2 million, or \$1.55 per share on a diluted basis, compared with net income of \$134.1 million, or \$1.26 per diluted share for the same period of 2006.

Segment Results

Electronic Instruments Group (EIG) net sales were \$863.7 million for the first nine months of 2007, an increase of \$120.9 million or 16.3% compared with \$742.7 million for the same period of 2006. The sales increase was due to strong internal growth of approximately 9%, excluding a favorable 2% effect of foreign currency, driven by EIG's aerospace, power, process and analytical businesses and the acquisitions of Land Instruments, Precitech and Cameca.

EIG's operating income for the first nine months of 2007 totaled \$187.2 million, an increase of \$37.1 million or 24.7% when compared with \$150.1 million in the first nine months of 2006. The increase in operating income was primarily the result of the higher base business sales previously mentioned. Operating margins increased to 21.7% of sales in the first nine months of 2007 compared with 20.2% for the same period of 2006. The increase in operating margins was due to the contribution from the higher sales by the Group's base differentiated businesses.

Results of Operations (continued)

Electromechanical Group (EMG) net sales totaled \$689.9 million for the first nine months of 2007, an increase of \$94.0 million or 15.8% compared with \$595.9 million in the same period of 2006. The sales increase was due to solid internal growth of approximately 6%, excluding a favorable 1% effect of foreign currency. The acquisitions primarily accounted for the remainder of the sales increase.

EMG's operating income for the first nine months of 2007 was \$124.8 million, an increase of \$19.9 million or 19.0% when compared with \$104.9 million for the same period of 2006. The operating income increase was due to strength in the Group's differentiated businesses, including the previously mentioned acquisitions. Operating margins increased to 18.1% of sales for the first nine months of 2007, compared with 17.6% for the same period of 2006 due to the increased contribution from the Group's differentiated businesses.

Financial Condition

Liquidity and Capital Resources

Cash provided by operating activities totaled \$181.9 million in the first nine months of 2007, compared with \$160.6 million for the same period of 2006, an increase of \$21.3 million, or 13.3%. The increase in operating cash flow was primarily the result of higher earnings, partially offset by higher working capital investments necessary to grow the business. In the first nine months of 2007, the Company made contributions to its defined benefit pension plans totaling \$1.9 million compared with \$10.0 million for the same period of 2006.

Cash used for investing activities totaled \$214.0 million in the first nine months of 2007, compared with \$140.4 million in the same period of 2006. In the first nine months of 2007, the Company paid \$189.0 million for five business acquisitions and one small technology line, net of debt and other long term liabilities assumed of \$25.6 million and cash acquired. The Company paid \$124.1 million for business and product line acquisitions in the first nine months of 2006, net of cash acquired. Additions to property, plant and equipment in the first nine months of 2007 totaled \$24.5 million, compared with \$18.2 million in the same period of 2006.

Cash provided by financing activities totaled \$52.6 million in the first nine months of 2007, compared with \$6.9 million used in the same period of 2006. In the first nine months of 2007, the net total borrowings increased by \$57.3 million, compared with a net total increase of \$16.6 million in the first nine months of 2006.

In the third quarter of 2007 the Company entered into a private placement to sell \$450 million in Senior Notes to a group of institutional investors. The Notes will be issued on two delayed drawing dates. The first funding will occur in December 2007 for \$370 million, consisting of \$270 million in aggregate principal amount of 6.20% Senior Notes due December 2017 and \$100 million in aggregate

principal amount of 6.30% Senior Notes due December 2019. The second funding date will be in July 2008 for \$80 million in aggregate principal amount of 6.35% Senior Notes due July 2018. The Notes will carry a weighted-average interest rate of approximately 6.25%. The proceeds from the Notes will be used to fund the repayment of existing indebtedness, including redemption of the \$225 million of 7.20% Senior Notes due July of 2008 and for general corporate purposes. The Notes are subject to certain customary covenants including certain financial covenants.

In June 2007, the Company amended its Revolving Credit facility, increasing the total borrowing capacity from \$400 million to \$550 million, which includes an accordion feature that permits the Company to request up to an additional \$100 million in revolving credit commitments at any time during the life of the revolving credit agreement under certain conditions. The amendment also extended the term of the revolver from October 2011 to June 2012. At September 30, 2007, the Company had \$367.7 million available under its revolving credit facility, including the \$100 million accordion feature.

The accounts receivable securitization facility was amended and restated in May 2007, to increase the Company's available borrowing capacity from \$75 million to \$110 million as well as extend the expiration date from May 2007 to May 2008. As of September 30, 2007, the Company had utilized \$85 million under the accounts receivable securitization facility.

Additional financing activities for the first nine months of 2007 include net cash proceeds from the exercise of employee stock options of \$14.7 million compared with \$6.9 million in the same period of 2006. Cash dividend payments were \$19.2 million for the first nine months of 2007, compared with \$12.6 million in the same period of 2006. The increase in dividends paid was the result of a Board of Directors approved 50% increase in the quarterly dividend rate on the Company's common stock in the fourth quarter of 2006. Repurchases of the Company's common stock in first nine months of 2007 totaled \$5.4 million for approximately 144,000 shares, compared with a total of \$21.1 million for 750,000 shares in the first nine months of 2006. As of September 30, 2007, \$25.9 million was available under the current Board authorization for future share repurchases.

At September 30, 2007, total debt outstanding was \$780.3 million, compared with \$681.9 million at December 31, 2006. The debt-to-capital ratio was 40.4% at September 30, 2007, compared with 41.4% at December 31, 2006.

As a result of the activities discussed above, the Company's cash and cash equivalents at September 30, 2007 totaled \$72.6 million, compared with \$49.1 million at December 31, 2006. The Company believes it has sufficient cash-generating capabilities, available credit facilities and access to long-term capital funds to enable it to meet its needs in the foreseeable future.
