Item 2.01 Completion of Acquisition or Disposition of Assets.

On January 31, 2012, Badger Meter, Inc. (the “Company”), completed its acquisition of all of the outstanding shares of Racine Federated Inc. (“Racine Federated”) through a merger of RFI Acquisition Corp., a wholly-owned subsidiary of the Company (“Merger Sub”), with and into Racine Federated, with Racine Federated surviving and becoming a wholly-owned subsidiary of the Company. The acquisition was consummated in accordance with the terms and conditions of the previously announced Acquisition Agreement, dated as of December 30, 2011 (the “Acquisition Agreement”), by and among the Company, Merger Sub, Racine Federated and the Shareholders’ Representative named therein. Racine Federated manufactures and sells (i) precision instruments and systems for measuring the rates of flow of liquids and gases and (ii) concrete vibrators for the construction industry and for civic infrastructure.

At the closing of the acquisition, the Company paid a total of \$57,085,884, subject to certain adjustments (the “transaction consideration”), plus an additional \$200,000 in consideration for certain of Racine Federated’s shareholders agreeing to certain restrictive covenants, including non-competition, non-solicitation and confidentiality covenants. The transaction consideration is subject to post-closing adjustments based on a determination of closing net working capital and closing indebtedness. In accordance with the Acquisition Agreement, \$5.5 million of the transaction consideration was held back by the Company to support the post-closing working capital and indebtedness adjustments, and to support the indemnification obligations of Racine Federated’s shareholders. The Company financed the acquisition by using available cash-on-hand and by drawing from its current credit facility.

Item 9.01. Financial Statements and Exhibits.

The required financial statements of Racine Federated will be filed by amendment to this Current Report on Form 8-K not later than April 15, 2012.
