Report of Independent Auditors

The Board of Directors
Lilly Industries, Inc.

We have audited the accompanying consolidated balance sheets of Lilly Industries, Inc. as of November 30, 2000 and 1999 and the related consolidated statements of income, shareholders' equity and cash flows for each of the three years in the period ended November 30, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lilly Industries, Inc. at November 30, 2000 and 1999 and the results of its operations and its cash flows for each of the three years in the period ended November 30, 2000 in conformity with accounting principles generally accepted in the United States.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - NOVEMBER 30, 2000

1. SUBSEQUENT EVENT

On June 26, 2000, Lilly Industries, Inc. and its subsidiaries (the "Company") announced it had entered into a definitive merger agreement with The Valspar Corporation ("Valspar") whereby Valspar would acquire all outstanding shares of the Company's Class A and Class B capital stock for \$31.75 per share in cash and assume all outstanding debt.

On December 20, 2000, the merger was completed and the Company became a wholly-owned subsidiary of Valspar. As a result of the merger, each outstanding share of the Company's Class A and Class B capital stock was converted into the right to receive \$31.75 in cash, without interest; the Revolving Credit Facility and German Credit Facility were extinguished and all incentive stock option plans were vested and paid off. Also, as a result of the merger the executive Supplemental Executive Retirement Plan liabilities became fully vested which resulted in an increase in these liabilities in the amount of \$5,100,000 which was recorded subsequent to year end.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BUSINESS

The Company is principally in the business of formulating, manufacturing, and marketing industrial coatings and specialty chemicals to original equipment manufacturers on a worldwide basis. Primary manufacturing operations are located in North America, Europe and Asia-Pacific. The Company operates within three business segments which serve three end-use markets.

CONSOLIDATION AND USE OF ESTIMATES

The consolidated financial statements include the accounts of all subsidiaries after elimination of significant intercompany accounts and transactions. Preparation of these statements in conformity accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

REVENUE RECOGNITION

Revenue from sales of products is recognized at the time products are shipped to the customer.

CASH EQUIVALENTS

Cash equivalents include time deposits and certificates of deposit with original maturities of three months or less.

INVENTORIES

Coatings inventories in the United States are stated at the lower of cost, determined by the last-in, first-out (LIFO) method, or market. All other inventories are stated at the lower of cost, determined by the first-in, first-out (FIFO) method, or market.

INTANGIBLE ASSETS

Edgar Filing: VALSPAR CORP - Form 8-K/A

Goodwill, which represents the excess of cost over fair value of net assets of purchased businesses, is amortized by the straight-line method over periods ranging from 20 to 40 years. Other intangible assets consist of noncompete agreements, customer lists and technology and are amortized by the straight-line method over periods ranging from 5 to 20 years.

The Company periodically evaluates the carrying value of intangible assets to determine if an impairment has occurred. This evaluation is based on various analyses including reviewing anticipated cash flows.

PROPERTY AND EQUIPMENT

Property and equipment is recorded on the basis of cost and includes expenditures for new facilities and items which substantially increase the useful life of existing buildings and equipment. Depreciation is based on estimated useful lives (ranging from 3 to 45 years) and computed primarily by the straight-line method.

3. NEW ACCOUNTING STANDARDS

Effective December 1, 1999, the Company adopted the American Institute of Certified Public Accountants' (AICPA) Statement of Position (SOP) 98-5, "Reporting for the Costs of Start-Up Activities." The SOP requires start-up costs capitalized prior to December 1, 1999 to be written off and any future start-up costs to be expensed as incurred. The unamortized balance of start-up costs was written off as of December 1, 1999. The effect of this change in accounting principle on consolidated earnings was immaterial.

4. INVENTORIES

The principal inventory classifications at November 30 are summarized as follows (in thousands):

| | 2000 | 1999 |
|--|-----------|-----------|
| Finished products | \$ 30,765 | \$ 33,628 |
| Raw materials | 31,947 | 30,048 |
| | 62,712 | 63,676 |
| Less adjustment of certain inventories to LIFO basis | 5,596 | 5,176 |
| | \$ 57,116 | \$ 58,500 |
| | | |

Inventory cost is determined by the LIFO method of inventory valuation for approximately 59% and 61% of inventories at November 30, 2000 and 1999, respectively.

5. LONG-TERM DEBT

Long-term debt consists of the following as of November 30 (in thousands):

| | 2000 | 1999 |
|------------------------------|-----------|-----------|
| 7.75% Unsecured Senior Notes | \$100,000 | \$100,000 |
| Revolving Credit Facility | 107,500 | 100,100 |
| German Credit Facility | 4,014 | 6,703 |
| | \$211,514 | \$206,803 |
| | | |

5. LONG-TERM DEBT (CONTINUED)

The Company's German subsidiary ("Subsidiary") has an unsecured Deutsche Mark ("DEM") denominated revolving credit facility ("German Facility") with a bank. The maximum borrowings available under the German Facility are \$4,014,000 until November 29, 2001; thereafter, maximum borrowings decrease to \$1,784,000 until maturity of the German Facility in February, 2003. German Facility advances of greater than \$44,600 bear interest, at the Subsidiary's option, at either (i) the money market rate of the bank's German affiliate, or (ii) the Frankfurt, Germany Interbank Offered Rate for DEM deposits plus an interest rate margin of between 0.40% and 0.80%, depending on the Subsidiary's leverage at the time of each borrowing. Other advances bear interest at the prime rate of the bank's German affiliate. The principal of the German Facility is due upon maturity in February, 2003.

The Company has a \$150,000,000 revolving credit facility ("Facility") with a group of financial institutions and \$100,000,000 of senior notes ("Notes"). The Facility is unsecured and provides for borrowings under a revolving note. The 7.75% Notes were issued as a 144A private placement offering with registration rights.

Interest is payable upon maturity of each revolving advance under the Facility, but in no case less frequently than quarterly. The principal of the Facility is due in October, 2002. The Notes are unsecured. Interest is payable on June 1 and December 1 of each year the Notes are outstanding. The principal of the Notes is due December, 2007. The Facility bears interest, at the Company's option, of (i) the higher of the agent bank's prime rate (9.50% at November 30, 2000) or the Federal Funds rate plus 0.50% or, (ii) the London Interbank Offered Rate for U.S. Dollars plus 0.30% to 0.75%, depending upon the Company's credit rating. A commitment fee ranging from 0.10% to 0.25%, depending upon the Company's credit rating, is payable on the unused portion of the Facility.

Interest of \$17,336,000, \$15,818,000 and \$12,369,000 was paid in fiscal 2000, 1999 and 1998, respectively.

The Company is subject to various debt covenants under the German Facility, Facility and Notes, including affirmative and negative covenants which require the maintenance of certain ratios for maximum leverage, fixed charge coverage and interest coverage. Additionally, such covenants place certain restrictions on the Company's ability to engage in mergers and acquisitions and incur additional indebtedness.

Subsequent to November 30, 2000, the merger with The Valspar Corporation was completed. (see Note 1). In conjunction with this transaction the Company satisfied its obligations under the Facility and the German Facility. The obligations under the Notes remain outstanding.

6. INCOME TAXES

Income tax expense for the years ended November 30 is comprised of the following components (in thousands):

| 2000 | 1999 | 1998 |
|------|------|------|
|------|------|------|

Edgar Filing: VALSPAR CORP - Form 8-K/A

| | | | |

| | 2,167 | 5,267 | 462 |
| | \$ 17,673 | \$ 23,155 | \$ 22,867 |

A reconciliation of the statutory U.S. federal rate to the effective income tax rate for the years ended November 30 is as follows:

| | 2000 | 1999 | 1998 |
|---|-------|-------|-------|
| Statutory U.S. federal income tax rate | 35.0% | 35.0% | 35.0% |
| Increase resulting from: | | | |
| Goodwill | 4.7 | 3.5 | 3.6 |
| State income taxes, net of federal income tax benefit | 2.0 | 1.6 | 2.8 |

| Other items | 0.8 | (.4) | (1.2) |
| Effective income tax rate | 44.5% | 41.0% | 42.0% |

Deferred income taxes are recorded based upon differences between the financial statement and tax basis of assets and liabilities.

The deferred tax assets and liabilities recorded on the balance sheet at November 30 are as follows (in thousands):

| | 2000 | 1999 |
|--|----------|----------|
| Deferred tax assets: | | |
| Goodwill and intangibles | \$ 541 | \$ 1,121 |
| Employee benefits | 5,644 | 5,812 |

| | 12,237 | 11,162 |
| Net deferred tax assets | \$ 4,655 | \$ 6,822 |

Edgar Filing: VALSPAR CORP - Form 8-K/A

6. INCOME TAXES (CONTINUED)

No provision has been made for U.S. federal income taxes on certain undistributed earnings of foreign subsidiaries that the Company intends to permanently invest or that may be remitted tax-free. The total of undistributed earnings that would be subject to federal income tax if remitted under existing law is approximately \$30,300,000 at November 30, 2000. Determination of the unrecognized deferred tax liability related to these earnings is not practicable because of the complexities with its hypothetical calculation. Upon distribution of these earnings, the Company will be subject to U.S. taxes and withholding taxes payable to various foreign governments. A credit for foreign taxes already paid would be available to reduce the U.S. tax liability.

Income taxes of \$20,850,000, \$16,600,000 and \$21,800,000 were paid in 2000, 1999 and 1998, respectively.

7. CAPITAL STOCK

The Company has two classes of capital stock, Class A stock and Class B stock. Authorized shares of Class A and Class B stock are 97,000,000 and 3,000,000, respectively. The limited voting rights of Class A shareholders are equal to voting rights of Class B shareholders only with regard to voting for merger, consolidation or dissolution of the Company and voting and electing four directors of the Company if there are ten or more directors and two directors if there are nine or fewer directors. With respect to all rights other than voting, Class A shareholders are the same as Class B shareholders.

The terms of the Class B stock, which is held only by employees, provide that these shares be exchanged for Class A stock on a share-for-share basis when the shareholder ceases to be an employee or decides to dispose of the shares. Accordingly, 3,000,000 shares of authorized Class A stock are reserved for this purpose.

On January 12, 1996, the Company's board of directors ("Board") declared a dividend of one purchase right for each outstanding share of Class A and Class B stock. In addition, one right is distributed for each share issued after January 26, 1996. Upon exercise, each right entitles holders to purchase from the Company one share of stock at \$55 per share, subject to certain adjustments. The rights become exercisable when a person or group acquires beneficial ownership of 15 percent or more of Class A stock or becomes the beneficial owner of an amount of Class A stock (but not less than 10 percent) which the Board of Directors determines to be substantial and not in the Company's best long-term interests or following the announcement of a tender or exchange offer for 30% or more of the Class A stock.

In the event a person acquires 15 percent or more of Class A stock, or is determined by the Board to be a substantial owner whose ownership is not in the Company's best long-term interests or an acquiring person engages in certain self-dealing transactions, each holder will have the right to receive that number of capital shares having a market value of two times the exercise price of the right. At any time after a person becomes an acquiring person, but before such person acquires 50 percent or more of outstanding Class A stock, the Board may exchange each right for one capital share (subject to adjustment).

In the event the Company is involved in certain business combination transactions, or 50 percent or more of the Company's consolidated assets or earning power are sold, each holder will have the right to receive, upon exercise at the then-current exercise price of the right, that number of shares of capital stock of the acquiring company having a market value of two times the exercise price of the right.

7. CAPITAL STOCK (CONTINUED)

The Company may redeem the rights at a price of \$.01 per right at any time prior to the time a person or group becomes an acquiring person as defined by the rights agreement. The rights expire in January 2006.

The Company has adopted various incentive stock option plans which entitle certain directors, officers and other key employees to buy shares of Class A stock at prices not less than fair market value on the date of grant. The options vest and become exercisable ratably over a three-year period commencing two years after the date of grant and expire five or ten years after the date of grant. Certain options are granted with stock appreciation rights (SAR) and reload options. An SAR entitles the option holder to receive a cash payment equal to the difference between the option price and the current value of Class A stock. The reload option entitles the option holder to the same number of options exercised with an option price equal to the fair market value at the date of exercise. Shares reserved under these plans were 2,667,569 and 1,785,129 at November 30, 2000 and 1999, respectively. In connection with the sale of 100% of the outstanding capital stock of the Company subsequent to year end (see Note 1), all incentive stock options were vested and paid off.

At November 30, 2000 the range of exercise prices and weighted-average remaining contractual life of outstanding options were \$12.25 - \$21.63 and 7.5 years, respectively. At November 30, 2000 and 1999, the number of options exercisable was 515,000 and 342,000 respectively, and the weighted-average exercise price of those options was \$14.91 and \$13.32, respectively.

Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation", (SFAS 123) permits companies to continue to apply APB Opinion 25, "Accounting for Stock Issued to Employees" (APB 25) and related Interpretations in accounting for its plans. The Company has elected to follow APB 25 and related Interpretations. Under APB 25, because the exercise price of the Company's employee stock options is not less than fair market value of the share at the date of grant, no compensation expense is recognized in the financial statements.

Pro forma information regarding net income and net income per share is required by SFAS 123 and has been determined as if the Company accounted for its employee stock options using the fair value method as prescribed by this Statement.

The fair value of options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions for 2000, 1999 and 1998, respectively: risk-free interest rate of 5.4%, 6.2%, and 4.7%; dividend yields of 1.9% for all years; volatility factors of the expected market price of the Company's Class A stock of .59, .29 and .27; and an expected life of options of 7 years, 7 years and 5 years.

7. CAPITAL STOCK (CONTINUED)

For purposes of pro forma disclosure, the estimated fair value of the options is amortized to expense over the option's vesting period. Pro forma amounts may not be representative of the expected effects on pro forma net income or net income per share in future years. The Company's pro forma information follows (in thousands, except per share amounts):

Lilly formulates, manufactures and markets industrial coatings and specialty chemicals primarily to original equipment manufacturers on a worldwide basis. The Company operates within three business segments which serve three end-use markets: wood coatings; metal coatings; and composites and glass coatings. Products sold to these markets have similar economic characteristics, production processes, distribution methods and regulatory environments. Based on these similarities, the Company's products are aggregated into one reportable segment, Industrial Coatings and Specialty Chemicals, for purposes of this disclosure. The accounting policies of the reportable segment are the same as those described in the summary of significant accounting policies.

Net sales of Industrial Coatings and Specialty Chemicals products by end-use market are as follows (in thousands):

| | 2000 | 1999 | 1998 |
|-------------------------------|------------|------------|------------|
| Wood Coatings | \$ 308,632 | \$ 297,741 | \$ 269,585 |

11. COMMITMENTS AND CONTINGENCIES

The Company's operations, like those of most companies in the coatings industry, are subject to regulations related to maintaining or improving the quality of the environment. Such regulations, along with the Company's own internal compliance efforts, have required, and will continue to require, ongoing expenditures. The Company has been notified that it is a potentially responsible party for clean-up costs with respect to several government investigations at

disposal sites previously used by the Company. Management has accrued, as appropriate, for these environmental liabilities. The accruals are reviewed periodically and, as investigations and remediations proceed, adjustments are made as necessary. Management believes the liabilities associated with these sites will not have a material adverse effect, individually and in the aggregate on its operating results or financial position.

The Company is involved with various legal proceedings, including product liability of a nature considered normal to its business. Management has accrued, as appropriate, for these liabilities. The accruals are reviewed periodically and, as investigations proceed, adjustments are made as necessary. Management believes the liabilities associated with the legal proceedings will not have a material adverse effect, individually and in the aggregate, on its operating results or financial position.

12. CHANGES IN ESTIMATES

The Company recorded year end adjustments related to the Supplemental Executive Retirement Plan ("SERP") and warranty liabilities as a result of a change in estimate. The adjustments were based on actual claims experience, and management's best estimate of future liabilities based on available information. The effect of the adjustments was a reduction of the SERP liability of approximately \$1,800,000 and an increase in the warranty liabilities of \$6,100,000.
