Section 8- Other Events

Item 8.01 Other Events

As previously announced, MGC Diagnostics Corporation (the “Company”) entered into a non-binding Letter of Intent to acquire Belgium-based MediSoft, SA of Sorinne, Belgium, a privately held, independent, industry-leading manufacturer of state-of-the-art cardiorespiratory diagnostics products.

Since that announcement, the Company has been working with its American and European accounting and legal advisors in establishing a European subsidiary and completing its confirmatory due diligence, and is in the process of completing the definitive agreements governing the acquisition of MediSoft and the operation of the business after closing. The Company and Medisoft have negotiated the final acquisition price and the transaction is not subject to financing or the approval of the Company’s shareholders.

Therefore, the Company and MediSoft agreed to extend the Letter of Intent exclusive period to July 31, 2014, before which time the parties intend to finalize and execute the definitive purchase agreement with closing at the end of the month.
