**NARRATIVE**

Edgar Filing: Qumu Corp - Form NT 10-K

For the reasons stated below, Qumu Corporation (the “Company”) was unable to complete its Annual Report on Form 10-K for the year ended December 31, 2014 (the “Form 10-K”) prior to March 16, 2015 without unreasonable effort or expense. The Company will file the Form 10-K on or before March 31, 2015, the fifteenth calendar day following the prescribed due date of the Form 10-K.

The Company is unable to timely file the Form 10-K because the Company requires additional time to finalize the financial statements to be included in the Form 10-K and to prepare the Form 10-K disclosures, including the required report by management on internal control over financial reporting.

The Company encountered delays in timely preparing and finalizing the Form 10-K as a result of the significant additional work required of Company management (particularly finance personnel) before, during and after the sale of the disc publishing business on July 1, 2014 and the acquisition of Kulu Valley Ltd. on October 3, 2014, including:

- the analysis of complex accounting matters relating to each of these transactions, activities relating to internal control over financial reporting for each of these transactions and for the Company's smaller retained software business,
- the separation of the disc publishing business from the Company's retained software business, and
- the integration of the Kulu Valley business with the Company's software business.

While the separation of the disc publishing business and the integration of the Kulu Valley business is largely complete, significant portions of this work was completed during the time typically dedicated to the annual financial statements and Form 10-K.

Changes in finance personnel as a result of the separation of the disc publishing business from the Company's retained software business, as well as the Company's re-implementation of its financial reporting software to support each of the separate businesses, presented additional challenges to timely preparation of the financial statements.

Lastly, the operating results and financial position for periods beginning with the quarter ended June 30, 2014 reflect the Company's disc publishing business as discontinued operations. Previously reported operating results and financial position for comparable prior periods must be restated to reflect this reclassification. The additional work of finance personnel relating to these matters have contributed to delays in finalizing the financial statements and Form 10-K disclosures, including the required report by management on internal control over financial reporting.
