900 Richards Street, Honolulu, Hawaii 93813

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

(Address of principal executive offices and zip code)

Registrant's telephone number, including area code: (808) 543-5662

None

(Former name or former address, if changed since last report.)

Item 5. Other Events

ASB Realty Corporation

In March 1998, American Savings Bank, F.S.B. (ASB) formed a subsidiary, ASB Realty Corporation, which elects to be taxed as a real estate investment trust. This reorganization has reduced Hawaii bank franchise taxes, net of federal income taxes, of HEI Diversified, Inc. (HEIDI, a wholly-owned subsidiary of HEI and the parent company of ASB) and ASB by \$1 million for the three months ended March 31, 2003 and \$17 million for prior years. ASB has taken a dividends received deduction on dividends paid to it by ASB Realty Corporation in the bank franchise tax returns filed in 1999 through 2002. The State of Hawaii Department of Taxation has challenged ASB's position and has issued notices of tax assessment for tax years 1999, 2000 and 2001 (based on 1998, 1999 and 2000 net income). The aggregate amount of tax assessments is approximately \$14 million (or \$9 million, net of income tax benefits) for tax years 1999 through 2001, plus interest of \$3 million (or \$2 million, net of income tax benefits) through March 31, 2003. The interest on the tax is accruing at a simple interest rate of 8%. Although not yet assessed, the potential bank franchise tax liability for 2002 and the first quarter of 2003 if ASB's tax position does not prevail is \$7 million (or \$5 million, net of income tax benefits), plus interest of \$0.5 million (or \$0.3 million, net of income tax benefits) through March 31, 2003. ASB has not paid or provided for Hawaii bank franchise taxes (related to this dividend received deduction issue) for tax years 1999 through 2002 and the first quarter of 2003.

In October 2002, ASB filed an appeal with the State Board of Review, First Taxation District (Board). The Board heard ASB's case on May 13, 2003, and the Board orally held in favor of the Department of Taxation and is expected to issue its written decision soon. Under Hawaii law, ASB must pay the taxes assessed plus interest (\$17 million) within 30 days from the issuance of the Board's decision. ASB will appeal this decision by filing a notice of appeal with the Hawaii Tax Appeal Court. ASB believes that its tax position is proper and the payment of the assessed bank franchise taxes and interest will be treated like a deposit and will not affect earnings at this time.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Total Outstanding Options Written (premium received \$2,261,545)		(1,490,319)
Total investments net of outstanding options written 106.2%		\$ 397,011,647
Liabilities in excess of other assets (6.2)%		(23,191,094)
Net Assets 100%		\$ 373,820,553

- ¹ Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.
- ² Variable rate security. Rate shown is interest rate as of April 30, 2007.
- ³ Represents an investment in an affiliate.
- ⁴ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of April 30, 2007, the Trust held 12.3% of its net assets, with a current market value of \$45,863,398, in securities restricted as to resale.
- ⁵ Security, or a portion thereof, pledged as collateral with a value of \$4,629,048 on 32 long FGBS Euro Shatz futures contracts expiring June 2007, 1,753 long U.S. Treasury Bond futures contracts expiring June 2007, 727 short Eurodollar futures contracts expiring June to December 2007 and 888 short U.S. Treasury Note futures contracts expiring June 2007. The notional value of such contracts on April 30, 2007 was \$66,371,197, with an unrealized loss of \$1,070,573.
- ⁶ Illiquid security. As of April 30, 2007, the Trust held 0.7% of its net assets, with a current market value of \$2,530,944, in these securities.
- ⁷ Non-income producing security.
- ⁸ Cost for federal income tax purposes is \$401,491,028. The net unrealized depreciation on a tax basis is \$2,989,062, consisting of \$5,355,739 gross unrealized appreciation and \$8,344,801 gross unrealized depreciation.

For Trust compliance purposes, the Trust's sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

¹ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of April 30, 2007, the Trust held 43.3% of its net assets, with a current market value of \$23,015,727, in securities restricted as to resale.

² Variable rate security. Rate shown is interest rate as of April 30, 2007.

³ Security is fair valued.

⁴ Issuer is in default and/or bankruptcy.

⁵ Non-income producing security.

⁶ Illiquid security. As of April 30, 2007, the Trust held less than 0.1% of its net assets, with a current market value of \$1, in these securities.

⁷ Rate shown is the yield to maturity as of the date of purchase.

⁸ Cost for federal income tax purposes is \$73,341,879. The net unrealized depreciation on a tax basis is \$862,054, consisting of \$2,635,826 gross unrealized appreciation and \$3,497,880 gross unrealized depreciation.

For Trust compliance purposes, the Trust's sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

¹ Variable rate security. Rate shown is interest rate as of April 30, 2007.

² Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.

³ Security, or a portion thereof, pledged as collateral with a value of \$7,226,308 on 1,910 long U.S. Treasury Bonds futures contracts expiring June 2007, 721 short Eurodollar futures contracts expiring June 2007 to December 2007 and 719 short U.S. Treasury Note futures contracts expiring June 2007. The notional value of such contracts on April 30, 2007 was \$33,630,859, with an unrealized loss of \$384,757.

⁴ Represents an investment in an affiliate.

⁵ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of April 30, 2007, the Trust held 11.3% of its net assets, with a current market value of \$43,385,078, in securities restricted as to resale.

⁶ Rate shown is effective yield of the underlying collateral as of April 30, 2007.

⁷ The security is a perpetual bond and has no stated maturity date.

⁸ Non-income producing security.

⁹ Cost for federal income tax purposes is \$451,652,978. The net unrealized depreciation on a tax basis is \$1,838,014, consisting of \$6,333,598 gross unrealized appreciation and \$8,171,612 gross unrealized depreciation.

For Trust compliance purposes, the Trust's sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

BlackRock Income Trust Inc. (BKT) (continued)

- 1 Variable rate security. Rate shown is interest rate as of April 30, 2007.
- 2 Illiquid security. As of April 30, 2007, the Trust held 0.8% of its net assets, with a current market value of \$3,164,310, in these securities.
- 3 Represents an investment in an affiliate.
- 4 Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of April 30, 2007, the Trust held 0.1% of its net assets, with a current market value of \$523,584, in securities restricted as to resale.
- 5 Security, or a portion thereof, pledged as collateral with a value of \$8,748,968 on 1,092 long U.S. Treasury Note futures contracts expiring June 2007, 1,214 short Eurodollar futures contracts expiring June 2007 to September 2009 and 709 short U.S. Treasury Bond futures contracts expiring June 2007. The notional value of such contracts on April 30, 2007 was \$250,399,713, with an unrealized gain of \$1,296,868.
- 6 Rate shown is effective yield of the underlying collateral as of April 30, 2007.
- 7 Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.
- 8 Cost for federal income tax purposes is \$457,237,846. The net unrealized depreciation on a tax basis is \$18,102,505, consisting of \$11,101,899 gross unrealized appreciation and \$29,204,404 gross unrealized depreciation.
- 9 The interest rate and maturity date shown represent the terms of the borrowed transaction, not the security borrowed.

- ¹ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of April 30, 2007, the Trust held 16.9% of its net assets, with a current market value of \$120,343,605, in securities restricted as to resale.
- ² Variable rate security. Rate shown is interest rate as of April 30, 2007.
- ³ Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.
- ⁴ Illiquid security. As of April 30, 2007, the Trust held 0.7% of its net assets, with a current market value of \$5,143,007, in these securities.
- ⁵ Issuer is in default and/or bankruptcy.
- ⁶ Security, or a portion thereof, pledged as collateral with a value of \$54,220 on 89 long U.S. Treasury Note futures contracts expiring June 2007. The notional value of such contracts on April 30, 2007 was \$9,418,703, with an unrealized gain of \$4,613.
- ⁷ Non-income producing security.
- ⁸ Rate shown is the yield to maturity as of the date of purchase.
- ⁹ Cost for federal income tax purposes is \$1,002,820,424. The net unrealized appreciation on a tax basis is \$10,658,737, consisting of \$17,527,484 gross unrealized appreciation and \$6,868,747 gross unrealized depreciation.

For Trust compliance purposes, the Trust's sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

¹ Non-income producing security.

² Security, or a portion thereof, pledged as collateral with a value of \$18,506,417 on 806 long U.S. Treasury Note futures contracts expiring June 2007, 887 long U.S. Treasury Bond futures contracts expiring June 2007, 34 long S&P 500 Index futures contracts expiring June 2007 and 3,339 short U.S. Treasury Note futures contracts expiring June 2007. The notional value of such contracts on April 30, 2007 was \$164,636,491, with an unrealized loss of \$998,584.

³ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of April 30, 2007, the Trust held 51.3% of its net assets, with a current market value of \$632,752,131, in securities restricted as to resale.

⁴ Variable rate security. Rate shown is interest rate as of April 30, 2007.

⁵ The security is a perpetual bond and has no stated maturity date.

⁶ Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.

⁷ Represents current yield as of April 30, 2007.

⁸ Cost for federal income tax purposes is \$1,713,481,774. The net unrealized appreciation on a tax basis is \$10,623,321, consisting of \$26,783,822 gross unrealized appreciation and \$16,160,501 gross unrealized depreciation.

⁹ The interest rate and maturity date shown represent the terms of the borrowed transaction, not the security borrowed.

For Trust compliance purposes, the Trust's sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

¹ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of April 30, 2007, the Trust held 23.0% of its net assets, with a current market value of \$23,009,213, in securities restricted as to resale.

² Variable rate security. Rate shown is interest rate as of April 30, 2007.

³ Security is fair valued.

⁴ Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.

⁵ Illiquid security. As of April 30, 2007, the Trust held 0.7% of its net assets, with a current market value of \$665,184, in these securities.

⁶ Non-income producing security.

⁷ The security is a perpetual bond and has no stated maturity date.

⁸ Rate shown is the yield to maturity as of the date of purchase.

⁹ Cost for federal income tax purposes is \$106,564,680. The net unrealized appreciation on a tax basis is \$2,098,365, consisting of \$3,197,368 gross unrealized appreciation and \$1,099,003 gross unrealized depreciation.

For Trust compliance purposes, the Trust's sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

See Notes to Financial Statements.

NOTES TO FINANCIAL STATEMENTS (unaudited)**Note 1. Organization & Accounting Policies**

BlackRock Broad Investment Grade 2009 Term Trust Inc. (Broad Investment Grade), BlackRock Core Bond Trust (Core Bond), BlackRock High Yield Trust (High Yield), BlackRock Income Opportunity Trust (Income Opportunity), BlackRock Income Trust Inc. (Income Trust), BlackRock Limited Duration Income Trust (Limited Duration) and BlackRock Strategic Bond Trust (Strategic Bond) are registered as diversified, closed-end management investment companies under the Investment Company Act of 1940, as amended (the 1940 Act). BlackRock Preferred and Equity Advantage Trust (Preferred and Equity) is registered as a non-diversified, closed-end management investment company under the 1940 Act. Broad Investment Grade, Income Opportunity and Income Trust are organized as Maryland corporations. Core Bond, High Yield, Limited Duration, Equity and Preferred and Strategic Bond are organized as Delaware statutory trusts. Broad Investment Grade, Core Bond, High Yield, Income Opportunity, Income Trust, Limited Duration, Preferred and Equity and Strategic Bond are individually referred to as a Trust and collectively as the Trusts .

Preferred and Equity was organized on October 26, 2006 and had no transactions until November 21, 2006 when the Trust sold 4,817 common shares for \$115,006 to BlackRock Funding, Inc. Investment operations for Preferred and Equity commenced on December 27, 2006. The Trust incurred organization costs which were deferred from the organization date until the commencement of operations.

On December 3, 1999, Broad Investment Grade transferred a substantial portion of its total assets to a 100% owned regulated investment company subsidiary called BCT Subsidiary, Inc. The financial statements and these notes to the financial statements for Broad Investment Grade are consolidated and include the operations of both Broad Investment Grade and its wholly owned subsidiary after elimination of all intercompany transactions and balances.

Under the Trusts organizational documents, their officers and Trustees (as defined below) are indemnified against certain liabilities arising out of the performance of their duties to the Trusts. In addition, in the normal course of business, the Trusts enter into contracts with their vendors and others that provide for general indemnifications. The Trusts maximum exposure under these arrangements are unknown as this would involve future claims that may be made against the Trusts. However, based on experience, the Trusts consider the risk of loss from such claims to be remote.

The following is a summary of significant accounting policies followed by the Trusts.

Investment Valuation: The Trusts value most of their investments on the basis of current market quotations provided by dealers or pricing services selected under the supervision of each Trust s Board (the Board) of Directors/Trustees (the Trustees). In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, market transactions in comparable investments, various relationships observed in the market between investments, and calculated yield measures based on valuation technology commonly employed in the market for such investments. Exchange-traded options are valued at their last sales price as of the close of options trading on applicable exchanges. In the absence of a last sale price, options are valued at the average of the quoted bid and asked prices as of the close of business. Swap quotations are provided by dealers selected under supervision of the Board. A futures contract is valued at the last sale price as of the close of the commodities exchange on which it trades. Short-term securities may be valued at amortized cost. Investments or other assets for which such current market quotations are not readily available are valued at fair value (Fair Value Assets) as determined in good faith under procedures established by, and under the general supervision and responsibility of, each Trust s Board. The investment advisor and/or sub-advisor will submit its recommendations regarding the valuation and/or valuation methodologies for Fair Value Assets to a valuation committee. The valuation committee may accept, modify or reject any recommendations. The pricing of all Fair Value Assets shall be subsequently reported to the Board.

When determining the price for a Fair Value Asset, the investment advisor and/or sub-advisor shall seek to determine the price that the Trust might reasonably expect to receive from the current sale of that asset in an arm s-length transaction. Fair value determinations shall be based upon all available factors that BlackRock Advisors deems relevant.

In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. At this time, management is evaluating the implication of FAS 157 and its impact on the Trusts financial statements, if any, has not been determined.

In addition, in February 2007, Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (FAS 159), was issued and is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FAS 157. FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. FAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. At this time, management is evaluating the implications of FAS 159 and its impact on the Trusts' financial statements, if any, has not been determined.

Investment Transactions and Investment Income: Investment transactions are recorded on trade date. The cost of investments sold and the related gain or loss is determined by use of the specific identification method, generally first-in, first-out, for both financial reporting and federal income tax purposes. Each Trust records interest income on an accrual basis and amortizes premium and/or accretes discount on securities purchased using the interest method.

Each Trust may, from time to time, purchase, in the secondary market, certain mortgage pass-through securities packaged or master serviced by affiliates or mortgage-related securities containing loans or mortgages originated by Merrill Lynch & Co., Inc. and PNC Bank, or their affiliates, including Midland Loan Services, Inc., each of which may be presumed to be an affiliate of BlackRock Advisors, LLC. It is possible, under certain circumstances, that Merrill Lynch Mortgage Investors, Inc. and PNC Mortgage Securities Corp. or their affiliates, including Midland Loan Services, Inc., could have interests that are in conflict with the holders of these mortgage-backed securities, and such hold-

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

ers could have rights against Merrill Lynch Mortgage Investors, Inc. and PNC Mortgage Securities Corp. or their affiliates, including Midland Loan Services, Inc.

Reverse Repurchase Agreements: The Trusts may enter into reverse repurchase agreements with qualified third-party broker-dealers as determined by and under the direction of the Trusts' Board. Interest on the value of reverse repurchase agreements issued and outstanding is based upon competitive market rates at the time of issuance. At the time a Trust enters into a reverse repurchase agreement, it will establish and maintain a segregated account with the lender, containing liquid investment grade securities having a value not less than the repurchase price, including accrued interest of the reverse repurchase agreement.

Dollar Rolls: The Trusts may enter into dollar rolls in which a Trust sells securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (same type, coupon and maturity) securities on a specified future date. During the roll period the Trusts forgo principal and interest paid on the securities. The Trusts will be compensated by the interest earned on the cash proceeds of the initial sale and/or by the lower repurchase price at the future date.

Loan Payable: High Yield has a \$32 million committed credit facility (the "facility"). Under the terms of the facility, the Trust borrows at the London Interbank Offered Rate (LIBOR) plus facility and administrative fees. In addition, the Trust pays a liquidity fee on the unused portion of the facility. The Trust may borrow up to 33¹/₃% of its total assets up to the committed amount. In accordance with the terms of the facility, the Trust has pledged its portfolio assets as collateral for the borrowing.

Bank Loans: In the process of buying, selling and holding bank loans, a Trust may receive and/or pay certain fees. These fees are included in the purchase price and may include facility fees, commitment fees, amendment fees, commissions and prepayment penalty fees. These fees are amortized as premium and/or accreted as discount over the term of the loan. When a Trust buys a bank loan it may receive a facility fee and when it sells a bank loan it may pay a facility fee. On an ongoing basis, a Trust may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a bank loan. In certain circumstances, a Trust may receive a prepayment penalty fee upon the prepayment of a bank loan by a borrower. Other fees received by a Trust may include covenant waiver fees and covenant modification fees.

A Trust may invest in multiple series or tranches of an issuer. A different series or tranche may have varying terms and carry different associated risks.

Option Writing/Purchasing: When a Trust writes or purchases an option, an amount equal to the premium received or paid by the Trust is recorded as a liability or an asset and is subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by the Trust on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage commissions, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the cost of the purchase or the proceeds from the sale in determining whether a Trust has realized a gain or a loss on investment transactions. A Trust, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the security underlying the written option.

Option writing and purchasing may be used by the Trusts as an attempt to manage the duration of positions, or collections of positions, so that changes in interest rates do not adversely affect the targeted duration of the portfolio unexpectedly. Duration is a measure of the price sensitivity of a security or a portfolio to relative changes in interest rates. For instance, a duration of one means that a portfolio's or a security's price would be expected to change by approximately one percent with a one percent change in interest rates, while a duration of five would imply that the price would move approximately five percent in relation to a one percent change in interest rates.

A call option gives the purchaser of the option the right (but not the obligation) to buy, and obligates the seller to sell (when the option is exercised), the underlying position at the exercise price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying position at the exercise price at any time or at a specified time during the option period. The main risk that is associated with purchasing options is that the option expires without being exercised. In this case, the option expires worthless and the premium paid for the option is considered the loss. The risk associated with writing call options is that a Trust may forgo the opportunity for a profit if the market value of the underlying position increases and the option is exercised. The risk in writing put options is that a Trust may incur a loss if the market value of the underlying position decreases and the option is exercised. In addition, the Trust risks not being able to enter into a closing transaction for the written option as the result of an illiquid market.

Stripped Mortgage-Backed Securities: Stripped mortgage-backed securities are usually structured with two classes that receive different proportions of the interest and principal distributions on a pool of mortgage assets. In certain cases, one class will receive all of the interest (the interest-only or IO class), while the other class will receive all of the principal (the principal-only or PO class). The yield to maturity on IOs is sensitive to the rate of principal repayments (including prepayments) on the related underlying mortgage assets, and principal payments may have a material effect on yield to maturity. If the underlying mortgage assets experience greater than anticipated prepayments of principal, a Trust may not fully recoup its initial investment in IOs. Such securities will be considered liquid only if so determined in accordance with guidelines established by the Trustees.

Inverse Floating Rate Securities: The Trusts may invest in inverse floating rate securities that pay interest at a rate that varies inversely with interest rates. As interest rates rise, inverse floating rates decline. The market value of such securities is more volatile than comparable fixed rate securities.

Credit Default Swaps: Credit default swaps are agreements in which one party pays fixed periodic payments to a counterparty in consideration for a guarantee from the counterparty to make a specific payment should a negative credit event take place. Risks arise from the possible inability of the counterparties to meet the terms of their contracts.

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by marking-to-market to reflect the market value of the swap. When the swap is terminated, a Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the swap. However, the Trusts closely monitor swaps and do not anticipate non-performance by any counterparty.

Total Return Swaps: Total return swaps are agreements in which one party commits to pay interest in exchange for a market-linked return. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Trust will receive a payment from or make a payment to the counterparty.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by marking-to-market to reflect the market value of the swap. When the swap is terminated, a Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the swap. However, the Trusts closely monitor swaps and do not anticipate non-performance by any counterparty.

Interest Rate Swaps: In an interest rate swap, one investor pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Alternatively, an investor may pay a fixed rate and receive a floating rate. Interest rate swaps are efficient as asset/liability management tools. In more complex swaps, the notional principal amount may decline (or amortize) over time.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by marking-to-market to reflect the market value of the swap. When the swap is terminated, a Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the swap. However, the Trusts closely monitor swaps and do not anticipate non-performance by any counterparty.

Swap Options: Swap options are similar to options on securities except that instead of selling or purchasing the right to buy or sell a security, the writer or purchaser of the swap option is granting or buying the right to enter into a previously agreed upon interest rate swap agreement at any time before the expiration of the option. Premiums received or paid from writing or purchasing options are recorded as liabilities or assets and are subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by a Trust on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage commission, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the cost of the purchase or the proceeds from the sale in determining whether a Trust has realized a gain or loss on investment transactions.

The main risk that is associated with purchasing swap options is that the swap option expires without being exercised. In this case, the option expires worthless and the premium paid for the swap option is considered the loss. The main risk that is associated with the writing of a swap option is the market risk of an unfavorable change in the value of the interest rate swap underlying the written swap option.

Swap options may be used by the Trusts to manage the duration of the Trusts' portfolios in a manner similar to more generic options described above.

Interest Rate Caps: Interest rate caps are similar to interest rate swaps, except that one party agrees to pay a fee, while the other party pays the excess, if any, of a floating rate over a specified fixed or floating rate.

Interest rate caps are intended to both manage the duration of the Trusts' portfolios and their exposure to changes in short-term interest rates. Owning interest rate caps reduces a portfolio's duration, making it less sensitive to changes in interest rates from a market value perspective. The effect on income involves protection from rising short-term interest rates, which the Trusts experience primarily in the form of leverage.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the interest rate cap. However, the Trusts do not anticipate non-performance by any counterparty.

Transaction fees paid or received by the Trusts are recognized as assets or liabilities and amortized or accreted into interest expense or income over the life of the interest rate cap. The asset or liability is subsequently adjusted to the current market value of the interest rate cap

purchased or sold. Changes in the value of the interest rate cap are recognized as unrealized gains and losses.

Interest Rate Floors: Interest rate floors are similar to interest rate swaps, except that one party agrees to pay a fee, while the other party pays the deficiency, if any, of a floating rate under a specified fixed or floating rate.

Interest rate floors are used by the Trusts to both manage the duration of the portfolios and their exposure to changes in short-term interest rates. Selling interest rate floors reduces a portfolio's duration, making it less sensitive to changes in interest rates from a market value perspective. The Trusts' leverage provides extra income in a period of falling rates. Selling floors reduces some of that extra income by partially monetizing it as an up front payment which the Trusts receive.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the interest rate floor. However, the Trusts do not anticipate non-performance by any counterparty.

Transaction fees paid or received by the Trusts are recognized as assets or liabilities and amortized or accreted into interest expense or income over the life of the interest rate floor. The asset or liability is subsequently adjusted to the current market value of the interest rate floor purchased or sold. Changes in the value of the interest rate floor are recognized as unrealized gains and losses.

Financial Futures Contracts: A futures contract is an agreement between two parties to buy and sell a financial instrument for a set price on a future date. Initial margin deposits are made upon entering into futures contracts and can be either cash or securities. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by marking-to-market on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized gains or losses are incurred. When the contract is closed, a Trust records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract.

Financial futures contracts, when used by the Trusts, help in maintaining a targeted duration. Futures contracts can be sold to effectively shorten an otherwise longer duration portfolio. In the same sense, futures contracts can be purchased to lengthen a portfolio that is shorter than its duration target. Thus, by buying or selling futures contracts, the Trusts attempt to manage the duration of positions so that changes in interest rates do not change the duration of the portfolio unexpectedly.

Forward Currency Contracts: The Trusts enter into forward currency contracts primarily to facilitate settlement of purchases and sales of foreign securities and to help manage the overall exposure to foreign currency. A forward contract is a commitment to purchase or sell a foreign currency at a future date (usually the security transaction settlement date) at a negotiated forward rate. In the event that a security fails to settle within the normal settlement period, the forward currency contract is renegotiated at a new rate. The gain or loss arising from the difference between the settlement value of the original and renegotiated forward contracts is isolated and is included in net realized gains (losses) from foreign currency transactions. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contract.

Forward currency contracts, when used by the Trusts, help to manage the overall exposure to the foreign currency backing some of the investments held by the Trusts. Forward currency contracts are not meant to be used to eliminate all of the exposure to the foreign currency, rather they allow the Trusts to limit their exposure to foreign currency within a narrow band to the objectives of the Trusts.

Foreign Currency Translation: Foreign currency amounts are translated into United States dollars on the following basis:

- (i) market value of investment securities, assets and liabilities at the current rate of exchange; and
- (ii) purchases and sales of investment securities, income and expenses-at the rates of exchange prevailing on the respective dates of such transactions.

The Trusts isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities held at period end. Similarly, the Trusts isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the period.

Net realized and unrealized foreign exchange gains and losses including realized foreign exchange gains and losses from sales and maturities of foreign portfolio securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of interest and discount recorded on the Trusts' books and the U.S. dollar equivalent amounts actually received or paid, and changes in unrealized foreign exchange gains and losses in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

Short Sales: The Trusts may make short sales of securities as a method of managing potential price declines in similar securities owned. When a Trust makes a short sale, it may borrow the security sold short and deliver it to the broker-dealer through which it made the short sale as collateral for its obligation to deliver the security upon conclusion of the sale. The Trusts may have to pay a fee to borrow the particular securities and may be obligated to pay over any payments received on such borrowed securities. A gain, limited to the price at which a Trust sold the security short, or a loss, unlimited as to dollar amount, will be recognized upon the termination of a short sale if the market price is greater or less than the proceeds originally received.

Bonds Borrowed Agreements: In a bonds borrowed agreement, the Trust borrows securities from a third party, with the commitment that they will be returned to the lender on an agreed-upon date. Bonds borrowed agreements are primarily entered into to settle short positions. In a bonds borrowed agreement, the Trust's prime broker or third party broker takes possession of the underlying collateral securities or cash to settle such short positions. The value of the underlying collateral securities or cash approximates the principal amount of the bonds borrowed transaction, including accrued interest. To the extent that bonds borrowed transactions exceed one business day, the value of the collateral with any counterparty is marked-to-market on a daily basis to ensure the adequacy of the collateral. If the lender defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the lender of the security, realization of the collateral by the Trust may be delayed or limited.

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

Segregation: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that each Trust segregate assets in connection with certain investments (e.g., when issued securities, reverse repurchase agreements, swaps or futures contracts), each Trust will, consistent with certain interpretive letters issued by the SEC, designate on its books and records cash or other liquid debt securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

Federal Income Taxes: It is each Trust's intention to continue to be treated as a regulated investment company under the Internal Revenue Code and to distribute sufficient amounts of their taxable income to shareholders. Therefore, no federal income tax provisions have been recorded. As part of a tax planning strategy, Broad Investment Grade has retained a portion of its taxable income and will pay excise tax on the undistributed amounts.

In July 2006, the Financial Accounting Standards Board released FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes . FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in financial statements. FIN 48 requires the evaluation of tax positions taken in the course of preparing the Trusts' tax returns to determine whether

the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be booked as a tax expense in the current year and recognized as: a liability for unrecognized tax benefits; a reduction of an income tax refund receivable; a reduction of deferred tax asset; an increase in deferred tax liability; or a combination thereof. Adoption of FIN 48 is required for the last net asset value calculation in the first required financial statement reporting period for fiscal years beginning after December 15, 2006. At this time, management is evaluating the implications of FIN 48 and its impact on the Trusts' financial statements, if any, has not yet been determined.

Dividends and Distributions: Each Trust declares and pays dividends and distributions to common shareholders monthly from net investment income, net realized short-term capital gains and other sources, if necessary. Net long-term capital gains, if any, in excess of loss carryforwards may be distributed in accordance with the 1940 Act. If the total dividends and distributions made in any tax year exceeds net investment income and accumulated realized capital gains, a portion of the total distribution may be treated as a tax-free return of capital. Dividends and distributions are recorded on the ex-dividend date. Income distributions and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities including investment and swap valuations at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and such differences may be material.

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by each Trust's Board, non-interested Trustees (Independent Trustees) are required to defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of the other BlackRock Closed-End Funds selected by the Independent Trustees. These amounts are shown on the Statement of Assets and Liabilities as Investments in Affiliates. This has approximately the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts directly in such Trusts.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Trust. Each Trust may, however, elect to invest in common shares of those Trusts selected by the Independent Trustees in order to match its deferred compensation obligations.

Other: Expenses that are directly related to one of the Trusts are charged directly to that Trust. Other operating expenses are generally prorated to the Trusts on the basis of relative net assets of all the BlackRock Closed-End Funds.

Note 2. Agreements and Other Transactions with Affiliates and Related Parties

Each Trust has an Investment Management Agreement with BlackRock Advisors, LLC (the Advisor), which is a wholly owned subsidiary of BlackRock, Inc. BlackRock Financial Management, Inc. (BFM), a wholly owned subsidiary of BlackRock, Inc., serves as sub-advisor to Core Bond, Limited Duration, Preferred and Equity and Strategic Bond. BlackRock Investment Management, LLC (BIM), a wholly owned subsidiary of BlackRock, Inc., also serves as sub-advisor to Preferred and Equity. Merrill Lynch & Co., Inc. (Merrill Lynch) and The PNC Financial Services Group, Inc. (PNC) are principal owners of BlackRock, Inc.

Broad Investment Grade, High Yield, Income Opportunity and Income Trust each have an Administration Agreement with the Advisor. The Investment Management Agreement for Core Bond, Limited Duration, Preferred and Equity and Strategic Bond covers both investment advisory and administration services.

Each Trust's investment advisory fee paid to the Advisor is computed weekly and payable monthly based on an annual rate, 0.55% for Broad Investment Grade, 0.60% for Income Opportunity and 0.65% for Income Trust, of each Trust's average net assets and 0.55% for Core Bond and Limited Duration, 0.65% for Preferred and Equity, 0.75% for Strategic Bond and 1.05% for High Yield, of each Trust's average weekly managed assets. Net assets means the total assets of the Trust minus the sum of accrued liabilities. Managed assets means the total assets of a Trust (including any assets attributable to any borrowing that may be outstanding) minus the sum of accrued liabilities (other than debt representing financial leverage). The Advisor has voluntarily agreed to waive a portion of the investment advisory fees or other expenses on Strategic Bond as a percentage of its average weekly managed assets as follows: 0.20% for the first five years of the Trust's operations from 2002 through 2007, 0.15% in 2008, 0.10% in 2009 and 0.05% in 2010.

The Advisor pays BFM and BIM fees for its sub-advisory services.

The administration fee paid to the Advisor by Broad Investment Grade, High Yield, Income Opportunity and Income Trust is computed weekly and payable monthly based on an annual rate of 0.15%, 0.10%, 0.10%, and 0.15%, respectively, of the Trusts' average weekly managed assets.

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

Pursuant to the agreements, the Advisor provides continuous supervision of the investment portfolio and pays the compensation of officers of each Trust who are affiliated persons of the Advisor, as well as occupancy and certain clerical and accounting costs of each Trust. Each Trust bears all other costs and expenses, which include reimbursements to the Advisor for cost of employees that provide pricing, secondary market support and compliance services provided to each Trust. For the six months ended April 30, 2007, the Trusts reimbursed the Advisor the following amounts, which are included in miscellaneous expenses in the Statement of Operations:

Trust	Amount	Trust	Amount
Broad Investment Grade	\$ 1,798	Income Trust	\$ 15,345
Core Bond	12,277	Limited Duration	22,289
High Yield	1,244	Preferred and Equity	11,909
Income Opportunity	12,688	Strategic Bond	3,068
	75		

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

Pursuant to the terms of the custody agreements, each Trust may receive earnings credits from its custodian for positive cash balances maintained, which are used to offset custody fees. These credits are shown on the Statements of Operations as fees paid indirectly.

During the six months ended April 30, 2007, Merrill Lynch, through its affiliated broker dealer Merrill Lynch, Pierce, Fenner & Smith Incorporated, earned commissions on transactions of securities as follows:

Trust	Commission Amount
Core Bond	\$ 43,604
Income Opportunity	48,057
Income Trust	15,853
Limited Duration	614
Preferred and Equity	143,915

For the six months ended April 30, 2007, investments in companies assumed to be an affiliate of the Trusts, were as follows:

Trust	Portfolio Company	Beginning Principal Amount	Sales	Ending Principal Amount	Interest Income	Market Value of Affiliates at April 30, 2007
Core Bond	Merrill Lynch Mortgage Investors, Inc., Ser. HE2, Class A2A	\$ 1,509,548	\$ 618,847	\$ 890,701	\$ 34,249	\$ 890,858
Income Opportunity	Merrill Lynch Mortgage Investors, Inc., Ser. HE2, Class A2A	1,651,471	677,029	974,442	38,421	974,614
	Merrill Projects, Ser. 29	152,326	2,859	149,467	5,585	151,214
	Merrill Projects, Ser. 42	51,398	1,053	50,345	1,893	50,965
Income Trust	Merrill Projects, Ser. 54	51,249	847	50,402	1,881	51,029

Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, dollar rolls and U.S. government securities, for the six months ended April 30, 2007 were as follows:

Trust	Purchases	Sales	Trust	Purchases	Sales
Broad Investment Grade	\$ 564,277	\$ 2,632,043	Income Trust	\$ 772,139,401	\$ 819,761,664
Core Bond	105,314,228	105,722,400	Limited Duration	480,300,522	513,363,584
High Yield	26,286,574	26,881,619	Preferred and Equity	2,076,052,986	378,801,519
Income Opportunity	257,450,521	246,888,773	Strategic Bond	23,146,631	31,736,494

Purchases and sales of U.S. government securities for the six months ended April 30, 2007, aggregated as follows:

Trust	Purchases	Sales	Trust	Purchases	Sales
Broad Investment Grade	\$	\$ 3,200,000	Income Trust	\$ 11,800,781	\$ 21,000,000
Core Bond	91,500,255	71,749,375	Limited Duration		10,000,000
Income Opportunity	117,445,898	99,740,058	Strategic Bond		933,000

Details of open forward currency contracts at April 30, 2007 were as follows:

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

<u>Trust</u>	<u>Foreign Currency</u>	<u>Settlement Date</u>	<u>Contract to Receive</u>	<u>Value at Settlement Date</u>	<u>Value at April 30, 2007</u>	<u>Unrealized Depreciation</u>

Income Trust held interest rate floors at April 30, 2007. Under the agreement, Income Trust pays the excess, if any, of a fixed rate over a floating rate. Income Trust received a transaction fee for the floors. Transaction fees are amortized through the termination of the agreement. Details of the interest rate floors held at April 30, 2007 were as follows:

<u>Notional Amount (000)</u>	<u>Variable Rate</u>	<u>Counter Party</u>	<u>Floating Rate</u>	<u>Effective Date</u>	<u>Termination Date</u>	<u>Amortized Cost</u>	<u>Value at April 30, 2007</u>	<u>Unrealized Appreciation</u>

¹ The security is a perpetual bond and has no stated maturity date.

Note 5. Commitments

Bridge Debt Commitments: At April 30, 2007, High Yield and Limited Duration had \$2,310,000 and \$19,510,000, respectively, in commitments outstanding to fund high yield bridge debt. The Trusts are entitled to a fee upon the expiration of the commitment period, generally within six months of the initial commitment date. The bridge debt terms approximate market rates at the time the commitment is entered into.

Note 6. Income Tax Information

The tax character of distributions paid during the year ended October 31, 2006 were as follows:

Distributions Paid from:	Year ended October 31, 2006			
	Ordinary Income	Non-taxable Return of Capital	Long-term Capital Gains	Total Distributions
Broad Investment Grade	\$ 4,241,016	\$	\$ 20,078	\$ 4,261,094

83

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

For Federal income tax purposes, the following Trusts had capital loss carryforwards as of their last respective tax year end. These amounts may be used to offset future realized capital gains, if any:

Trust	Capital Loss Carryforward Amount	Expires	Trust	Capital Loss Carryforward Amount	Expires
Broad Investment Grade	\$ 2,061,303	2011	Income Trust	\$ 33,107,952	2007
	684,360	2012		1,352,206	2008
	493,567	2014		13,940,898	2009
	<u>\$ 3,239,230</u>			21,960,613	2011
				10,100,201	2012
				3,861,222	2013
High Yield	\$ 2,558,868	2007		6,952,429	2014
	3,270,311	2008		<u>\$ 91,275,521</u>	
	15,159,280	2009			
	8,468,860	2010			
	4,771,417	2011	Limited Duration	\$ 2,008,113	2013
	316,410	2012		1,268,222	2014
	2,060,533	2014		<u>\$ 3,276,335</u>	
	<u>\$ 36,605,679</u>				
			Strategic Bond	\$ 432,713	2011
Income Opportunity	\$ 2,451,628	2014		318,492	2013
				689,609	2014
				<u>\$ 1,440,814</u>	

Accordingly, no capital gain distributions are expected to be paid to shareholders of a Trust until that Trust has net realized capital gains in excess of its capital loss carryforward amounts.

Note 7. Capital

There are 200 million of \$0.01 par value common shares authorized for Broad Investment Grade, Income Opportunity and Income Trust. There are an unlimited number of \$0.001 par value common shares authorized for Core Bond, High Yield, Limited Duration, Preferred and Equity and Strategic Bond. At April 30, 2007, the shares owned by an affiliate of the Advisor of Limited Duration and Preferred and Equity were 6,021 and 4,817, respectively.

Preferred and Equity, which commenced on December 27, 2006, issued 47,004,817 common shares under the initial public offering. On February 1, 2007, an additional 4,750,000 shares were issued by the underwriters exercising their over-allotment option. Offering costs incurred in connection with the offering of common shares have been charged against the proceeds from the initial common share offering in the amount of \$1,367,957.

During the period ended April 30, 2007 and the year ended October 31, 2006, the following Trusts issued additional shares under their respective dividend reinvestment plan:

Trust	April 30, 2007	October 31, 2006

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

High Yield		6,259
Limited Duration	67,233	13,785
Preferred and Equity	73,340	

As of April 30, 2007, Preferred and Equity has the following series of preferred shares outstanding as listed in the table below. The preferred shares have a liquidation value of \$25,000 per share plus any accumulated unpaid dividends.

Series	Shares
T7	4,620
W7	4,620
R7	4,620
F7	4,620

Dividends on seven-day preferred shares are cumulative at a rate which is reset every seven days based on the results of an auction. The dividend ranges on the preferred shares for Preferred and Equity for the period ended April 30, 2007 were as follows:

Series	Low	High	Average
T7	5.10%	5.30%	5.22%
W7	5.20	5.30	5.23
R7	5.20	5.30	5.23
F7	5.20	5.30	5.25

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

Preferred and Equity may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred shares and any other borrowings would be less than 200%. The preferred shares are redeemable at the option of Preferred and Equity, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends whether or not declared. The preferred shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of Preferred and Equity, as set forth in Preferred and Equity's Declaration of Trust, are not satisfied. The holders of preferred shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of preferred shares, voting as a separate class, are also entitled to elect two Trustees for Preferred and Equity. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares, (b) change a Trust's sub-classification as a closed-end investment company or change its fundamental investment restrictions and (c) change the nature of its business so as to cease to be an investment company.

Note 8. Subsequent
