ANNUAL
 REPORT

March 31, 2003

Letter To Shareholders

May 13, 2003

Dear Shareholders:

Consider the European beech (*fagus sylvatica*). In late winter, as bleak as any tombstone, trunk and branch a smooth, lifeless, battleship gray, it stands against howling winds and icy blasts unyielding, a naked steel sculpture against the cold. With spring comes a miracle. Tiny buds appear that, as they unfurl in early May's unabashed sunshine, glow like rubies against the gray.

TOTAL RETURNS

Source: Lipper

*Principal only.

Inspired, perhaps, by the resilient beech, the stock market has experienced its own resurrection of late. Past readers understand that we approach market analysis in the same way we studied irregular Latin verbs in high school: reluctantly and with the sneaking suspicion that the task at hand was another person's practical joke. Our big picture concerns remain. Overcapacity lingers, the consumer gets less credit-worthy by the day, and the fastest growing sector of the economy is the federal government. One might add to the worry list a foreign political equation with a few too many unknown variables and a Federal Reserve that can't afford to move rates up or down. The beech's prospects seem a bit more rosy to us.

Among the Financial Services Sector, banks may have the hardest row to hoe. Loan volume and fee growth, outside of consumer refinancings, is slack, with the best years of cost cutting behind most banks. A decade of strong profitability and mostly trouble free lending has created a huge pile of excess capital (i.e. read capacity). Low levels of problem credits have nowhere to go but up. Interest margins, the most immediate problem, have been squeezed as short-term interest rates close to within 100 basis points of zero. A

1

slowing top line and shrinking operating margins is a phenomenon most banks have not faced for some time. The banks' problems may remain relatively benign but for the responses of some to either bet heavily on a steep yield curve or lend even greater amounts on real estate collateral. Meanwhile, many regional and community bank stock prices are hitting record highs, commanding valuations not seen since the peaks reached in 1998.

Not all is bleak in bankville, however. The silver lining to a slow-down in organic growth is a pickup in merger activity, some of which has benefited the portfolio already this year. Our hope is for low premium, in-market deals where modest cost savings will bolster sagging operating margins and moderate overly aggressive competition.

The Fund's bet on well-positioned property casualty insurers has begun to work. While most areas of commercial line pricing remains hard, the industry has an uncanny ability to snatch defeat out of the jaws of victory. Capital raising and the ease of entry into the reinsurance arena is the primary culprit. We are currently seeing more evidence of both.

We note that volatility of financial services stocks continues to grow. Volatility is often good for us because of its propensity to beget irrational investor behavior and ample liquidity. We strive to know our companies under coverage well enough to take advantage of such opportunities.

Over the course of the year, the Fund took profits in the bank and thrift sectors as price targets were met. We used most of the cash to increase weighting in select property/casualty insurers. Particularly large contributors to performance this year included two takeover targets, namely, Provident Financial Holdings

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-30D

and Port Financial, the latter of which agreed to be acquired in April. Another large contributor was Novastar Financial, a subprime mortgage REIT, which we were able to acquire at a very friendly price. Laggards in the Fund included Koram Bank, Resource America, and Capital One, though the last of these, a credit card lender, has begun to rebound with the improving consumer sentiment of late.

Post fiscal year end, we have increased our cash position, again due to stocks reaching our target prices. As of this letter date, cash stands at approximately 15% of the Fund. We will endeavor to put this to work opportunistically in the months ahead.

We appreciate your continued interest and support of the Fund.

Nicholas C. Adams

Notes to Financial Statements

FIRST FINANCIAL FUND, INC.

First Financial Fund, Inc. (the 'Fund') was incorporated in Maryland on March 3, 1986, as a closed-end, diversified management investment company. The Fund's primary investment objective is to achieve long-term capital appreciation with the secondary objective of current income by investing at least 80% of

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-30D

investable assets in finance and financial service-related companies, including savings and banking institutions, mortgage banking institutions and their holding companies.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Securities Valuation: Securities for which market quotations are readily available--including securities listed on national securities exchanges and those traded over-the-counter--are valued at the last quoted sales price on the valuation date on which the security is traded. If such securities were not traded on the valuation date, but market quotations are readily available, they are valued at the most recently quoted bid price provided by an independent pricing service or by principal market makers. Securities traded via NASDAQ are valued at the official closing price provided by NASDAQ. Securities for which market quotations are not readily available or for which the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the adviser, does not represent fair value, are valued at fair value by a Valuation Committee appointed by the Board of Directors, in consultation with the advisor. Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates market value.

Repurchase Agreement: In connection with repurchase agreement transactions with United States financial institutions, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. If the seller defaults, and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Securities Transactions and Net Investment Income: Securities transactions are recorded on the trade date. Realized gains or losses on sales of securities are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date; interest income including amortization of premium and accretion of discount on debt securities, as required is recorded on the accrual basis. Expenses are recorded on the accrual basis, which may require the use of certain estimates by management.

Federal Income Taxes: It is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable net income and capital gains, if any, to shareholders. Therefore, no federal income tax provision is required. **Dividends and Distributions:** The Fund expects to declare and pay dividends from net investment income and distributions of net realized capital gains, if any, annually. Dividends and distributions to shareholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-dividend date. Permanent book/tax differences relating to income and gains are reclassified to paid-in capital when they arise.

Note 2. Agreements

The Fund has agreements with, among others, Wellington Management Company, LLP (the 'Investment Adviser') and with Prudential Investments LLC (the 'Administrator'). The Investment Adviser makes investment decisions on behalf of

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-30D

the Fund; the Administrator provides occupancy and certain clerical and accounting services to the Fund. The Fund bears all other costs and expenses. The investment advisory agreement provides for the Investment Adviser to receive a fee, computed monthly and payable quarterly, at the following annual rates: .75% of the Fund's average month-end net assets up to and including \$50 million, and .625% of such assets in excess of \$50 million. The administration agreement provides for the Administrator to receive a fee, computed monthly and payable quarterly, at the annual rate of .15% of the Fund's average month-end net assets.

Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the year ended March 31, 2003 were \$238,030,779 and \$293,905,163, respectively.

Note 4. Distributions and Tax Information

For the year ended March 31, 2003, the tax character of dividends paid was \$35,717,917 of ordinary income and \$34,138,312 of long-term capital gains. For the year ended March 31, 2002, the tax character of dividends paid was \$19,063,267 of ordinary income and \$20,197,134 of long-term capital gains.

7

Notes to Financial Statements

FIRST FINANCIAL FUND, INC.

As of March 31, 2003, the accumulated undistributed earnings on a tax basis were \$9,737,720 of ordinary income and \$10,551,565 of long-term capital gains. As of March 31, 2002, the accumulated undistributed earnings on a tax basis were \$12,121,422 of ordinary income and \$15,738,060 of long-term capital gains. The United States federal income tax basis of the Fund's investments and the net unrealized appreciation as of March 31, 2003 was as follows:

Tax Basis	Appreciation	Depreciation	Total Net Unrealized Appreciation
\$282,634,047	\$ 73,583,206	\$ 15,989,268	\$ 57,593,938

The differences between book and tax basis are primarily attributable to deferred losses on wash sales.

Note 5. Borrowings

The Fund has a credit agreement (the 'Agreement') with an unaffiliated lender. The maximum commitment under the Agreement is \$45,000,000. Interest on any such borrowings is based on market rates and is payable quarterly and at maturity. The Fund may utilize these borrowings (leverage) in order to increase the potential for gain on amounts invested. There can be no guarantee that these gains will be realized. There are increased risks with the use of leverage. These borrowings may be set to any desired maturity at a rate of interest determined by the lender at the time of borrowing. The Agreement expired on April 29, 2002. On May 6, 2002, the Agreement was amended. The maximum commitment was increased to \$75,000,000. The expiration date of the amended Agreement is April 28, 2003. All other terms and conditions are unchanged. During the period while the loan was outstanding, the average daily balance for the year ended March 31, 2003 was approximately \$4,110,000 at a weighted average interest rate of 1.93%. The highest face amount of borrowing at any month-end during the year ended March 31, 2003 was \$50,000,000. The Fund did not have a loan outstanding at March 31, 2003.

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-30D

Note 6. Capital

There are 50 million shares of \$.001 par value common stock authorized. Of the 23,576,182 shares issued as of March 31, 2003, the Investment Adviser owned 10,994 shares. During the years ended March 31, 2003 and 2002, the Fund repurchased 46,205 and 902,300, respectively, of its own shares at a weighted average discount of 15.5% and 14.8%, respectively.

Note 7. Litigation

Badlands Trust Company ('Badlands'), as trustee of one of the members of an affiliated group of Fund stockholders advised by Stewart R. Horejsi (the 'Horejsi Group'), filed suit in United States District Court for the District of Maryland, Northern Division, on August 23, 2002 to invalidate the Fund's election By-law and to seat Messrs. Looney and Jacobson as Class I Directors of the Fund. The District Court ruled for Badlands on these matters, but on appeal, the United States Court of Appeals for the Fourth Circuit overturned this ruling. A final order dismissing this suit was issued by the District Court on May 2, 2003.

In addition, on March 25, 2003, Badlands, in its capacity as trustee to a member of the Horejsi Group, filed suit against the Fund in United States District Court for the District of Maryland, Northern Division to invalidate the Fund's By-law requiring the affirmative vote of 80% of the Fund's outstanding shares to amend certain other By-laws, including the By-law that required that all Directors be elected by a majority of the Fund's outstanding shares. The Fund did not contest Badlands' assertions and agreed to a consent order issued by the District Court on April 30, 2003 invalidating the 80% By-law and setting the resulting voting standard to amend the Director voting By-law as the affirmative vote of a majority of the shares voted at a stockholder meeting. Although the Fund was not ordered to pay any damages or costs by the District Court, it did incur legal fees defending itself in the three suits noted above. The Fund has made a claim to its insurer, ICI Mutual Insurance Company ('ICI Mutual'), for reimbursement of the portion of such fees in excess of the deductible applicable to its policy. That claim is currently pending with ICI Mutual.

-
- (a) NAV and market value are published in The Wall Street Journal each Monday.
 - (b) Total investment return is calculated assuming a purchase of common stock at the current market value on the first day and a sale at the current market value on the last day of each year reported. Dividends and distributions are assumed for purposes of this calculation to be reinvested at prices obtained under the dividend reinvestment plan. This calculation does not reflect brokerage commissions.

Contained above is selected data for a share of common stock outstanding, total investment return, ratios to average net assets and other supplemental data for the year indicated. This information has been determined based upon information provided in the financial statements and market price data for the Fund's shares.

Report of Independent Accountants FIRST FINANCIAL FUND, INC.

To the Board of Directors and Shareholders of
First Financial Fund, Inc.

In our opinion, the accompanying statement of assets and liabilities, including the portfolio of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of First Financial Fund, Inc. (the 'Fund') at March 31, 2003, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as 'financial statements') are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at March 31, 2003 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP
New York, New York 10036
May 28, 2003

Tax Information (Unaudited) FIRST FINANCIAL FUND, INC.

We are required by the Internal Revenue Code to advise you within 60 days of the Fund's fiscal year end (March 31, 2003) as to the federal tax status of

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-30D

dividends and distributions paid by the Fund during such fiscal year. Accordingly, we are advising you that during the fiscal year ended March 31, 2003, the Fund paid dividends of ordinary income of \$0.167 and distributions of short-term capital gains of \$1.348, taxable as ordinary income, and long-term capital gains of \$1.448, taxable as such. Further, we wish to advise you that 22.3% of the dividends taxable as ordinary income and paid in the fiscal year ended March 31, 2003 qualified for the corporate dividend received deduction available to corporate taxpayers.

In January 2004, shareholders will receive a Form 1099-DIV or substitute Form 1099-DIV which reflects the amount of dividends to be used by calendar year taxpayers on their 2003 federal income tax returns. Shareholders are advised to consult their own tax advisers with respect to the tax consequences of their investment in the Fund.

Other Information (Unaudited)

FIRST FINANCIAL FUND, INC.

Dividend Reinvestment Plan. Shareholders may elect to have all distributions of dividends and capital gains automatically reinvested in Fund shares (Shares) pursuant to the Fund's Dividend Reinvestment Plan (the Plan.) Shareholders who do not participate in the Plan will normally receive all distributions in cash paid by check in United States dollars mailed directly to the shareholders of record (or if the shares are held in streetname or other nominee name, then to the nominee) by the custodian, as dividend disbursing agent, unless the Fund declares a distribution payable in shares, absent a shareholder's specific election to receive cash. Shareholders who wish to participate in the Plan should contact the Fund at (800) 451-6788.

Equiserve Trust Company, N.A. (the Plan Agent) serves as agent for the shareholders in administering the Plan. After the Fund declares a dividend or a capital gains distribution, if (1) the market price is lower than net asset value, the participants in the Plan will receive the equivalent in Shares valued at the market price determined as of the time of purchase (generally, following the payment date of the dividend or distribution); or if (2) the market price of Shares on the payment date of the dividend or distribution is equal to or exceeds their net asset value, participants will be issued Shares at the higher of net asset value or 95% of the market price. If the Fund declares a dividend or other distribution payable only in cash and the net asset value exceeds the market price of Shares on the valuation date, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Shares in the open market. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share, the Plan Agent will halt open-market purchases of the Fund's shares for this purpose, and will request that the Fund pay the remainder, if any, in the form of newly-issued shares. The Fund will not issue Shares under the Plan below net asset value.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

The Fund reserves the right to amend or terminate the Plan upon 90 days' written notice to shareholders of the Fund.

Participants in the Plan may withdraw from the Plan upon written notice to the

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-30D

Plan Agent or by telephone in accordance with specific procedures and will receive certificates for whole Shares and cash for fractional Shares. All correspondence concerning the Plan should be directed to the Plan Agent, Equiserve Trust Company, N.A., P.O. Box 43011, Providence, RI 02940-3011.
