FOR IMMEDIATE RELEASE

TRUSTCO ANNOUNCES FIRST QUARTER RESULTS

Glenville, New York - April 18, 2006 - TrustCo Bank Corp NY (TrustCo, Nasdaq: TRST) today announced first quarter results for 2006. Net income for the first three months of 2006 was \$12.4 million, compared to \$14.9 million for 2005. Diluted earnings per share were \$0.164 for the first quarter compared to \$0.197 for 2005. Excluding the affect of non-core income, the first quarter results indicate that TrustCo's first quarter 2006 results of \$12.5 million were up slightly over 2005. These non-core income items were the result of securities transactions and the sale of real estate. Robert J. McCormick, President and Chief Executive Officer commented, "We are pleased by these core operating results and look forward to building on them for the remainder of 2006."

The first quarter of 2006 was a challenging period for the banking industry due to the flattening/inversion of the interest rate yield curve in the U.S. economy. This has resulted in there being little margin between short-term deposit and long-term lending rates. This in turn puts pressure on overall earnings. "Despite this, we maintained a steady level of core earnings in the first quarter, which is a significant accomplishment. Perhaps most important is that during these times we continue to outperform our industry peers," McCormick said.

Return on average assets and return on average shareholders' equity were 1.73% and 21.61% for the first quarter of 2006 compared to 2.13% and 26.83% for the comparable period in 2005. Mr. McCormick indicated, "Though these returns are less than the outstanding results of 2005, we expect that they will reflect extremely well when compared to other banks. For 2005, as an example, the national average for our peer group was a return on average assets of 1.06% and return on average equity of 12.23%. We are confident that our results for the first quarter will continue to rank TrustCo as one of the top performing banks nationally."

- 5 -

TrustCo continues to show significant growth in the average balance of our loan portfolio, which increased \$244.3 million or 19.5% for the first quarter of 2006 compared to 2005. This growth came from both our residential real estate and commercial loan portfolios. Furthermore, as a result of continued improvement in virtually all of TrustCo's credit quality indicators, we realized a negative provision for loan losses of \$1.8 million in the first quarter of 2006 and \$1.5 million in the comparable period in 2005. Also during the quarter, the average balance of deposits increased by \$47.6 million. Mr. McCormick said, "We have focused considerable attention within the Company at growing the loan and deposit balances across all our markets."

During the quarter, Trustco opened four offices: three in Florida, and one in Upstate New York. Mr. McCormick commented, "Continuing our expansion plans combined with expense control will help us grow out of these challenging times."

Edgar Filing: TRUSTCO BANK CORP N Y - Form 8-K

Our Board of Directors has again declared a quarterly cash dividend of \$0.16 per share, which you received in early April. This equates to an annual dividend of \$0.64 per share and represents a significant return to our shareholders. Mr. McCormick said, "It continues to be our belief that excess capital should be returned to shareholders in the form of dividends. We also believe it is prudent to retain sufficient capital to support our growth goals and remain well-capitalized for regulatory purposes."

TrustCo is a \$2.9 billion bank holding company and through its subsidiary, Trustco Bank, operates 82 offices in New York, Vermont, and Florida. In addition, the Bank operates a full service Trust Department. The common shares of TrustCo are traded on the Nasdaq National Market tier of the Nasdaq Stock Market under the symbol TRST.

Except for the historical information contained herein, the matters discussed in this news release and other information contained in TrustCo's Securities and Exchange Commission filings may express "forward-looking statements." Those "forward-looking statements" may involve risk and uncertainties, including statements containing future events or performance and assumptions and other statements of historical facts.

TrustCo wishes to caution readers not to place undue reliance on any forward-looking statements, which speak only as of the date made. Readers are advised that various risk factors, including, but not limited to: (1) credit risk, (2) interest rate risk, (3) competition, (4) changes in the regulatory environment, and (5) changes in general business and economic trends, could cause the actual results or circumstances for future periods to differ materially from those anticipated or projected in the forward-looking statements.
