Exhibit 99.1

To our Shareholders:

The Company recorded net income for the first six months of 2002 of \$881,000, or \$.33 per share. Continued improvement in asset quality enabled management to remove \$242,000 from the Allowance for Loan Losses, which

increased net income by approximately \$160,000. Other income continues to outperform last year, while operating expenses have been reduced from the previous year.

Due to numerous factors, the Federal Reserve has not raised interest rates as had been anticipated by the markets, and therefore the Bank's prime lending rate has remained at historical low levels. Any action, or inaction, by the Federal Reserve will have an impact on the second half results. However, 2002 financial performance is expected to significantly outperform the performance of 2001, when the Company had net income of \$1,059,000. The Company completed the first six months of 2002 with a capital-to-assets ratio of 11.25% and a per share book value of \$12.65.

As was noted in a recent news release, CSB has been released from the Written Agreement with its state and federal regulators. The Company has made great strides over the past eighteen months, and is currently looking to the future for opportunities to build on that strength. Also, the Company recently paid a second quarter 2002 dividend.

Thank you for your continued support of CSB as the Company moves forward. We ask that you look to CSB for all of your financial services needs. CSB, where the future is now!
