PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON MAY 17, 2007

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Standard Motor Products, Inc. (the "Company") for use at the Annual Meeting of Stockholders of the Company to be held on May 17, 2007 or at any adjournment thereof. Proxy material is being mailed on or about April 17, 2007 to the Company's 553 stockholders of record. The total number of shares of Common Stock outstanding and entitled to vote on April 6, 2007 was 18,762,234.

The specific proposals to be considered and acted upon at the Annual Meeting are summarized in the accompanying Notice of Annual Meeting of Stockholders. Each proposal is described in more detail in this Proxy Statement.

VOTING RIGHTS AND SOLICITATION

INFORMATION AS TO VOTING SECURITIES

The close of business on April 6, 2007 has been fixed by the Board of Directors as the record date for the determination of stockholders entitled to notice of, and vote at, the Annual Meeting. Holders of Common Stock have the right to one vote for each share registered in their names on the books of the Company as of the close of business on the record date.

In order to conduct business at the Annual Meeting, our Bylaws require the presence in person or by proxy of stockholders holding a majority of the voting power of the outstanding shares of Common Stock entitled to vote on the matters presented at the Annual Meeting. If a quorum is not present, a vote cannot occur, and our Annual Meeting may be adjourned to a subsequent date for the purpose of obtaining a quorum. Proxy cards received by us but marked "Withheld," abstentions and broker non-votes will be included in the calculation of the number of shares considered in determining whether or not a quorum exists. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner.

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

VOTING AND REVOCATION OF PROXIES

You can vote your shares by completing and returning a proxy card or by voting in person. If you hold your shares in "street name," you should provide your broker or other nominee with voting instructions to ensure that your shares are voted.

The persons named in the accompanying form of proxy will vote the shares represented thereby, as directed in the proxy, if the proxy appears to be valid on its face and is received on time. With respect to the election of directors, stockholders may vote in favor of all nominees, withhold their votes as to all nominees, or withhold their votes as to specific nominees. With respect to Proposal No. 2, stockholders may vote for or against the proposal. Stockholders should specify their choices on the accompany proxy card. In the absence of specific instructions, proxies so received will be voted: (1) "FOR" the election of the named nominees to the Company's Board of Directors; and (2) "FOR" the ratification of Grant Thornton LLP as the Company's independent registered public accounting firm.

Proxies are revocable at any time before they are exercised by (a) sending in a later-dated proxy (with the same or other instructions), (b) appearing at the Annual Meeting and voting in person, or (c) notifying the Secretary of the Company that the proxy is revoked via fax at 718-784-3284 or via mail to Carmine J. Broccole, Secretary, Standard Motor Products, Inc., 37-18 Northern Blvd., Long Island City, NY 11101. If you hold shares through a bank or brokerage firm, you must contact that bank or firm to revoke any prior voting instructions.

VOTES REQUIRED

Nominees receiving a plurality of the votes cast will be elected as directors. Proposal No. 2 requires the approval of the affirmative vote of a majority of the shares of Common Stock present or represented by proxy and entitled to vote at the Annual Meeting. Only those votes cast "FOR" or "AGAINST" a proposal are used in determining the results of a vote. An abstention or a broker non-vote shall not constitute a vote cast.

METHOD AND EXPENSE OF PROXY SOLICITATION

The solicitation of proxies will be made primarily by mail. Proxies may also be solicited personally and by telephone by regular employees of the Company at nominal cost.

The Company does not expect to pay compensation for any solicitation of proxies but may pay brokers and other persons holding shares in their names, or in the name of nominees, their expenses for sending proxy material to beneficial owners for the purpose of obtaining their proxies. The Company will bear all expenses in connection with the solicitation of proxies.

PROPOSAL 1

ELECTION OF DIRECTORS

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

The Audit Committee of our Board of Directors plans to appoint Grant Thornton LLP as the Company's independent registered public accounting firm to audit its consolidated financial statements for the 2007 fiscal year. If the appointment is not ratified, the Audit Committee will investigate the reasons for stockholder rejection and will reconsider the appointment. Representatives of Grant Thornton LLP are expected to attend the Annual Meeting where they will be available to respond to questions and, if they desire, to make a statement.

FOR THESE REASONS, THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE RATIFICATION OF GRANT THORNTON LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

responsibilities of the Board with respect to corporate governance, including:

- o The identification and recommendation to the Board of individuals qualified to become or continue as directors;

The Committee may, in its discretion, solicit the input of any independent consultant or advisor in satisfying its responsibilities.

Qualifications for consideration as a director nominee vary according to the particular areas of expertise being sought as a complement to the existing board composition. However, in making nominations, the Nominating and Corporate Governance Committee seeks candidates who possess (1) the highest level of integrity and ethical character, (2) strong personal and professional reputation, (3) sound judgment, (4) financial literacy, (5) independence, (6) significant experience and proven superior performance in professional endeavors, (7) an appreciation for board and team performance, (8) the commitment to devote the time necessary for Board activities, (9) skills in areas that will benefit the Board, and (10) the ability to make a long-term commitment to serve on the Board.

In recommending candidates for election to the Board, the Nomination and Corporate Governance Committee considers nominees recommended by directors, officers, employees, stockholders and others, using the same criteria to evaluate all candidates. The Committee reviews each candidate's qualifications, including whether a candidate possesses any of the specific qualities and skills desirable in certain members of the Board. Evaluations of candidates generally involve a review of background materials, internal discussions and interviews with selected candidates as appropriate. Upon selection of a qualified candidate, the Committee would recommend the candidate for consideration by the full Board. The Committee may engage consultants or third-party search firms to assist in identifying and evaluating potential nominees.

Stockholders may propose director candidates for consideration by the Nominating and Corporate Governance Committee. In order for stockholder candidates to be considered, written notice of such stockholder recommendation (a) must be provided to the Secretary of the Company not less than 45 days nor more than 75 days prior to the first anniversary of the record date for the preceding year's annual meeting, and (b) must contain the name of any recommended candidate for director, together with a brief biographical sketch, a document indicating the candidate's willingness to serve, if elected, and evidence of the nominating person's ownership of Company stock. Both stockholder

For 2006, the annual cash retainer for each independent director was \$35,000, of which any portion can be taken in Company Common Stock at the discretion of each director; in 2006 Mr. Turner and Mr. Ward elected to receive \$5,000 and \$10,000, respectively, of such retainer in Company Common Stock. In addition, each independent director receives on the date of each annual meeting of stockholders an automatic restricted stock award of 1,000 shares, and an additional award of Common Stock valued at \$20,000, based on the fair market value of the Company's Common Stock as of the date of the annual stockholder meeting. Independent director restricted stock grants vest one year after the grant date, so long as the director remains continuously in office. Independent directors are also eligible to receive other types of awards under the 2006 Omnibus Incentive Plan, but such awards are discretionary. In the event of a merger or asset sale, vesting of all of the shares of restricted stock will accelerate, and such shares will become vested in full.

In 2006 William H. Turner received an additional annual retainer of \$20,000 and \$7,500 for his services as our Presiding Independent Director and Chairman of the Audit Committee, respectively. Robert M. Gerrity, as Chairman of our Compensation and Management Development Committee, and Richard S. Ward, as Chairman of our Nominating and Corporate Governance Committee, each received an additional annual retainer of \$5,000 for their services as Chairman of such Committees. Non-employee directors also received \$1,000 for each Board and Committee meeting they attend and are reimbursed for meeting expenses. In addition, Arthur S. Sills and Peter J. Sills are covered under the Company's medical plan. Lawrence I. Sills, being an officer of the Company, received no payment for the fulfillment of his directorial responsibilities; please refer to the Summary Compensation Table for disclosure regarding Mr. Sills' compensation. In addition, in connection with providing certain consulting services on behalf of, and at the authorization of, the Board, Frederick D. Sturdivant received compensation of \$14,000 plus expenses for assisting the Company in developing its long term strategic plans.

POLICY ON POISON PILLS

The Company does not have a poison pill and is not presently considering the adoption of such a device. If the Company were ever to adopt a stockholder rights agreement, the Company would seek prior stockholder approval, unless due to time constraints or other reasons, the Board, in the exercise of its fiduciary responsibilities, determines that it would be in the best interests of stockholders to adopt a stockholder rights agreement before obtaining stockholder approval. If the Company's Board were ever to adopt a stockholder rights agreement without prior stockholder approval, the Board would submit such agreement to stockholders for ratification within one year.

EXECUTIVE COMPENSATION AND RELATED INFORMATION

COMPENSATION DISCUSSION AND ANALYSIS

OVERVIEW. Our Compensation and Management Development Committee of the Board of Directors (the "Committee") is responsible for, among other things, (1) reviewing the overall goals, policies, objectives and structure of our executive compensation programs, (2) approving the compensation packages of the Company's executive officers, and (3) administering the Company's equity incentive plans. In performing its duties, the Committee may, in its discretion, solicit the input of any of our executive officers (including our Chief Executive Officer), any of our other employees, or any other independent consultant or advisor.

PRIMARY OBJECTIVES OF COMPENSATION. Our executive compensation program is designed to (1) attract, motivate and retain exceptional talent whose abilities are critical to the Company's long-term success, (2) maintain a portion of the executive's total compensation at risk, tied to achievement of annual and long-term financial, organizational and management performance goals, and (3) provide variable compensation incentives directly linked to the performance of the Company and improvement in stockholder return so that executives manage from the perspective of owners with an equity stake in the Company. In this regard, the levels of executive compensation established by the Committee are designed to be competitive with the median compensation available to other executives in comparable companies.

The principal elements of our executive compensation program are base salary, annual cash incentives, long-term equity incentives, perquisites and other benefits. Our Chief Executive Officer, Chief Operating Officer and Chief Financial Officer generally participate in the same executive compensation plans and arrangements available to the other executive officers; however, they have a larger percentage of their target variable compensation based upon performance criteria relating to the Company's strategic goals.

While the elements of compensation are considered separately, the Committee also considers the complete compensation package provided by the Company to the individual executive to ensure that it will be effective in motivating and incentivizing such executive and to assess its competitiveness at other comparable companies. We determine the appropriate levels of our total compensation, and each compensation element, based on several factors, such as our overall performance, each executive's individual performance, the desire to maintain internal equity and consistency among our executives, and other considerations that we deem to be relevant. In addition, we generally do not retain compensation consultants to review our policies and procedures with respect to executive compensation. We conduct annual informal benchmark reviews of the aggregate level of our executive compensation, as well as the mix of elements used to compensate our executive officers. This review is based in part on publicly available resources and surveys and other databases to which we subscribe. In 2006, we also engaged Hewitt Associates, an independent consulting firm, to assist us in reviewing our equity compensation program. We have not currently adopted any formal or informal policy for allocating compensation

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

between long-term and short-term, between cash and non-cash, or among the different forms of non-cash compensation.

-18-

BASE SALARY. Base salaries for our executive officers are determined by evaluating the responsibilities of the position, the experience of the individual, and the competitive marketplace. We believe that our base salaries are an important element of our executive compensation program because they provide our executives with a steady income stream that is not contingent upon our overall performance. Generally, we believe that executive base salaries should be set near the median of the range of salaries for executives in similar positions and with similar responsibilities at comparable companies. We believe that maintaining base salary amounts at or near the industry median minimizes competitive disadvantage, while avoiding paying amounts in excess of what we believe to be necessary to motivate executives to meet corporate goals.

Base salaries for executive officers are reviewed typically in January of each year, at the time of a promotion, upon a change in level of responsibilities, or when competitive circumstances may require review. Any increase in base salary is dependent upon the Company's performance and individual performance. The salaries of our executive officers are set by the Committee and may be based on the recommendations of our Chief Executive Officer, except with respect to his own salary. Our Chief Executive Officer is not compensated for his services as a director and Chairman of the Board.

For 2006, the base salaries of our Chief Executive Officer, Chief Operating Officer and Chief Financial Officer remained the same as their respective 2005 base salaries because the Committee determined that a salary increase was not appropriate due to the Company not achieving certain strategic performance targets in 2005. However, the Committee approved increases in the year-over-year annual base salaries for our other named executive officers in view of their contributions to the Company.

ANNUAL BONUS. We utilize annual incentive cash bonuses to reward each of our named executive officers when we achieve certain company-level financial objectives under our EVA program (as described below) and the applicable executive officer achieves certain individual performance objectives (or MBO goals). Our annual cash bonuses are designed to more immediately reward our executives for their performance during the most recent year. We believe that the immediacy of these cash bonuses, in contrast to our equity grants which vest over a period of time, provides a significant incentive to our executives towards achieving their respective individual objectives, and thus our company-level objectives. We believe our cash bonuses are an important motivating factor for our executives, in addition to being a significant factor in attracting and retaining our executives.

Near the beginning of each year, annual target cash bonuses are determined as a percentage of each executive officer's total cash compensation for the fiscal year. The target bonuses are set at levels that, upon achievement of 100% of the target amount, are likely to result in bonus payments that the Committee believes to be at or near the median for target bonus amounts for comparable companies; however, actual bonuses may be higher or lower based upon achievement of MBO and EVA goals. The Committee reviews and approves a detailed set of individual MBO goals (which are generally quantifiable performance objectives) initially prepared by management. Individual MBO goals, for example, might include developing strategic opportunities, developing our executive team, or improving operating efficiency and cost position. At the beginning of the following year, the Committee determines the level of achievement for each MBO

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

goal of each executive and, together with the company-level financial achievements based on our EVA program, final bonuses are determined.

-19-

With respect to company-level financial objectives, the Company utilizes an Economic Value Added (EVA) based bonus program to more closely align executive compensation to continuous improvements in corporate performance and increases in stockholder value. Simply stated, EVA is equal to net operating profit after tax, less a charge for the cost of capital. Bonuses tied to EVA are such that increasing EVA year over year will be favorable for the Company's stockholders as well as those whose compensation is based on EVA. In the event of decreasing EVA, bonuses will be negative (up to a maximum of 100%). EVA bonuses earned in any one year may not necessarily be paid out in full. In order to promote longer-term stockholder improvement and to keep part of an executive's bonus at risk, the entire bonus structure is monitored through a "banking" feature. The "bank" allows only a portion of the year's earnings to be paid out in any given year. Specifically, in a year with positive EVA an executive officer may receive only up to 130% of their target EVA amount plus one-third of any remaining EVA balance, with the remaining two-thirds of any EVA balance deposited into an executive officer's "bank." Due to this feature, it is possible to receive a nominal bonus in a poor year only because an executive has a bank upon which to draw. It is also possible to completely exhaust the bank or create a negative bank. In the case of a negative bank, bonuses tied to EVA would not be paid until the bank is once again positive. However, the Committee may in its discretion reset negative bank balances to zero in order to preserve an incentive for continuous effort in future years. For 2006, bank balances for our named executive officers were set at negative 100%, other than for Dale Burks who had a zero bank balance carried over from 2005. Accordingly, the bonuses paid to our named executive officers in 2006 were reduced by the following amounts due to their negative bank balances: (1) \$227,500 for Lawrence I. Sills; (2) \$175,000 for John P. Gethin; (3) \$140,000 for James J. Burke; and (4) \$32,480 for Carmine J. Broccole.

Under the EVA bonus program, the 2006 bonuses of our named executive officers are based on a range of 65% or greater on year-over-year improvement in Company EVA and the remaining 35% or less on MBO goals approved by the Committee. Earned MBO bonuses are paid out in full each year.

In the event of a financial restatement in a downward direction, the Committee has not considered whether it would attempt to recover bonuses paid to our executive officers based on our restated financial performance.

LONG-TERM INCENTIVE PROGRAMS. As part of the Company's compensation program, the Committee grants equity stock to the Company's executive officers and other key employees. We believe that equity grants provide our executive officers with a strong link to our long-term performance goals, create an ownership culture, and closely align the interests of our executive officers and our stockholders. In addition, the vesting feature of our equity grants should aid officer retention because this feature provides an incentive to our executive officers to remain in our employ during the vesting period. In determining the size of equity grants to our executive officers, the Committee considers our company-level performance, the applicable executive officer's performance, comparative share ownership of our competitors, the amount of equity previously awarded to the applicable executive officer, the vesting of such awards, and the recommendations of management and any other consultants or advisors that the Committee may choose to consult.

STOCK OPTION PLANS. Prior to 2006, the primary form of equity compensation that we awarded to our executive officers consisted of incentive stock options. We selected this form of equity compensation because of the favorable accounting and tax treatments and the expectation by our executives that they would receive stock options. We granted stock options to our executive officers under our 1994 Omnibus Stock Option Plan and 2004 Omnibus Stock Plan.

Under the 1994 Omnibus Stock Option Plan, we granted stock options which become exercisable over a three to five year period and expire at the end of five years following the date they become exercisable. Under the 2004 Omnibus Stock Plan, we granted stock options which become exercisable over a three to five year period and expire at the end of ten years following the date of grant. Our board of directors has determined not to grant any additional stock options under these plans. However, these plans will continue to govern the terms and conditions of the outstanding awards granted under such plans.

Historically, stock options for our executive officers were granted in installments, such that the exercise price of the initial installment was equal to the fair market value of our Common Stock on the date of grant and the exercise price of the remaining one to three installments were either (a) one dollar above the prior installment or (b) equal to 110% of the fair market value of our Common Stock on the date of grant. Stock options had vesting periods of two to four years. We spread the vesting of our options over a period of time to compensate our executives for their contribution over a period of time and as a retention tool. In addition, we increased the exercise price of the stock options after the initial installment as an additional incentive to our executives. Our stock options may be accelerated automatically upon the death or disability of an optionee or upon a "change in control" of the Company.

We typically granted stock options once per year or every other year. It is our policy to ensure that we do not award stock options in connection with the release, or the withholding, of material non-public information, and that the exercise price of all stock options is equal to or greater than the fair market value of our Common Stock on the date of grant.

2006 OMNIBUS INCENTIVE PLAN. Beginning in 2006, the accounting treatment for stock options changed as a result of Statement of Financial Accounting Standards No. 123(R), making the accounting treatment of stock options less attractive. As a result, we assessed the desirability of granting restricted stock awards and performance share awards to our executive officers and other key employees and concluded that such awards would provide an equally motivating form of incentive compensation while permitting us to issue fewer shares, thereby reducing potential dilution. Because shares of restricted stock have a defined value at the time the restricted stock grants are issued, restricted stock grants are often perceived as having more immediate value than stock options, which have a less calculable value when granted. In addition, we provide performance shares to our executive officers because we believe that their contributions to the Company have a direct relationship to the achievement of the Company's strategic goals.

In May 2006, we granted our executive officers restricted stock and performance shares under our 2006 Omnibus Incentive Plan ("Incentive Plan"). The Incentive Plan also permits the grant of incentive and nonqualified stock options, stock appreciation rights, restricted stock units, and other stock-based awards to our officers, directors, employees and consultants. However, we currently only intend to grant restricted stock and performance shares under the Incentive Plan. Each restricted stock award issued under the

-21-

Incentive Plan is subject to a three year vesting schedule. If an executive officer ceases to remain employed with the Company before the end of the vesting period, such person shall forfeit the entire restricted stock award. Restricted stock awards may become immediately vested in full in cases of death, retirement at or after age 65, total disability (as determined by the Committee in its sole discretion), or upon a "change in control" of the Company.

We also awarded our executive officers performance shares under the Incentive Plan in amounts initially comparable to the number of shares of restricted stock issued to such executives, although the actual number of performance shares awarded may be higher or lower. In order for the performance shares to be earned, the Company must achieve certain performance target goals at the end of the three-year performance period covered by the awards. The performance share awards are also subject to a three-year vesting period. The target performance goals are based on the achievement of a certain level of earnings before taxes of the Company. The amount of performance shares actually awarded to an executive officer depends on the level of the performance goal achieved, and the performance goals are scaled so that the recipient can receive part of an award in the event that acceptable, but not the desired, results are achieved. We believe that the achievement of the 100% of performance target is achievable with diligent performance by all executives of the Company.

It is our intent to grant restricted stock and performance shares once per year on the date of our Annual Meeting of Stockholders. It is our policy to ensure that we do not award equity grants in connection with the release, or the withholding, of material non-public information, and that the grant value of all equity awards is equal to the fair market value on the date of grant.

STOCK OWNERSHIP GUIDELINES. We established stock ownership guidelines for our executive officers. Our guidelines provide that executive officers are expected to own and hold a number of shares of Company Common Stock with a value that represents either (a) 50 percent of their base salary, with respect to the Chief Executive Officer, Chief Operating Officer, and Chief Financial Officer, or (b) 30 percent of their base salary, with respect to each of the other executive officers of the Company. Stock ownership levels should be achieved by each executive officer within a period of time as determined at the discretion of the Committee. We do not allow our executive officers to hedge the economic risk of their stock ownership.

TERMINATION-BASED COMPENSATION. As discussed in more detail in the "Severance and Change of Control Arrangements" section below, our executive officers are eligible to receive termination-related benefits under the Company's Supplemental Unemployment Benefit Plan (which is available to all eligible employees) and Supplemental Executive Retirement Plan. In addition, John P. Gethin, our President and Chief Operating Officer, and James J. Burke, our Vice President Finance and Chief Financial Officer, are entitled to certain benefits upon the termination of their respective employment pursuant to Severance Compensation Agreements, Retention Bonus and Insurance Agreements and the Supplemental SERP. As stated previously, our stock option plans and our Incentive Plan have provisions that would accelerate the vesting of stock options and restricted stock upon certain events, including a change of control of the Company. We believe these severance and change of control benefits are an essential element of our executive compensation package and assist us in recruiting and retaining talented individuals.

-22-

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

TAX DEDUCTIBILITY OF EXECUTIVE COMPENSATION. The Committee has considered the potential impact of Section 162(m) of the Internal Revenue Code on the compensation paid to the Company's executive officers. Section 162(m) disallows a tax deduction for any publicly held corporation for individual compensation exceeding \$1 million in any taxable year for any of the named executive officers, unless compensation is performance-based. In general, it is the Committee's policy to qualify, to the maximum extent possible, its executives' compensation for deductibility under applicable tax laws. In approving the amount and form of compensation for the Company's executive officers, the Committee will continue to consider all elements of the cost to the Company of providing such compensation, including the potential impact of Section 162(m).

RETIREMENT PLANS. SERP. The Company has established a Supplemental Executive Retirement Plan for our executive officers and other eligible employees. The purpose of this plan is to enable the Company to supplement the benefits under the Company's 401(k) Capital Accumulation/Profit Sharing Plan as well as to provide a means whereby certain amounts payable by the Company to our executive officers may be deferred to some future period. An eligible employee may irrevocably elect to defer receipt of (a) all or a portion of their bonus for the year and (b) their base compensation which would otherwise be payable for the applicable plan year up to a maximum of 50%. In addition, the Company generally makes an annual cash contribution into the SERP on behalf of each participant.

SUPPLEMENTAL SERP. The Company maintains an unfunded supplemental SERP for eligible employees. The only participants in this plan at the current time are John P. Gethin and James J. Burke. The supplemental SERP provides that, upon attainment of a participant's normal retirement age (i.e., 60 years of age), the participant shall be entitled to 50% of such participant's highest average annual base salary plus bonus in three of the last five years of service. If a participant terminates his employment voluntarily prior to age 60 or is terminated for cause, such participant will forfeit his benefits under the supplemental SERP. The benefits under this plan are in addition to benefits payable to participants under the Company's 401(K) Capital Accumulation Plan and SERP.

ESOP. Our executive officers are eligible to receive Company Common Stock pursuant to our Employee Stock Ownership Plan, which is available for all eligible employees. This stock grant plan gives our executives an opportunity to share directly in the growth of the Company through stock ownership. Currently, a total of 750,000 shares of Common Stock have been set aside for distribution over a 10-year period beginning in 1999. The Company's stock contributions for the current calendar year are made in the first quarter of such year. Typically, the Company makes a contribution to the ESOP in a sufficient amount to permit an allocation of the number of shares necessary (exclusive of forfeitures) up to the market value of 2% of the gross annual cash compensation of all eligible participants. Under the plan, each participant must comply with a seven year vesting schedule.

RETIREE MEDICAL BENEFITS. The Company has a retiree medical benefit plan for eligible employees. Lawrence I. Sills is currently eligible to receive benefits under this plan, and James J. Burke and Dale Burks will become eligible to receive benefits under this plan if they remain employees of the Company for one and three additional years, respectively. The plan provides medical coverage (which is secondary to Medicare) to such executive officers beginning at the age of 65 and remains in effect as long as such executive officers continue to make the same contributions as made by active employees. In 2005, the Company changed the plan such that no employee hired after January 1, 1995 would be eligible

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

under the plan. Accordingly, none of our other executive officers are eligible to receive any benefits under this plan.

-23-

PERQUISITES AND OTHER BENEFITS. We provide our executive officers certain perquisites and other benefits. We provide these benefits to provide an additional incentive for our executives and to remain competitive in the general marketplace for executive talent. The primary perquisite for our executive officers is allowances for leasing an automobile. In addition, we maintain broad-based benefits that are provided to all employees, including health insurance, life and disability insurance, accidental death and dismemberment insurance, dental insurance, 401(K) Capital Accumulation/Profit Sharing plan and an employee stock purchase plan. In particular circumstances, we also utilize cash signing bonuses when certain executives join us. Whether a signing bonus is paid and the amount thereof is determined on a case-by-case basis under the specific hiring circumstances.

SEVERANCE AND CHANGE OF CONTROL ARRANGEMENTS

SEVERANCE COMPENSATION AGREEMENTS

In December 2001, the Company entered into Severance Compensation Agreements with each of John P. Gethin and James J. Burke. The agreements provide that if a change in control of the Company occurs, and within 12 months thereafter the executive's employment is terminated by the Company without cause or by the executive for certain specific reasons, then the executive will receive severance payments and certain other benefits. The specific reasons which allow the executive to resign and receive the benefits are: (1) a reduction or change in status, position or reporting responsibility; (2) a reduction in the executive's annual rate of base salary; and (3) relocation of more than 15 miles from the Company's current office.

If the executive resigns for one of the specific reasons, or is terminated without cause, the executive will be entitled to receive: (1) a severance payment equal to three times his base salary plus standard bonus, payable over a two year period on a pro rata, semi-monthly basis; (2) continued participation for a period of thirty six months in group medical, dental and/or life insurance plans; (3) an immediate three years of additional service credit for all purposes under the Company's Supplemental Compensation Plan and any other applicable welfare plans; (4) exclusive use of a company automobile for the duration of the lease then in effect; (5) outplacement services; and (6) accelerated vesting of any unvested options.

For purposes of these agreements, a change in control of the Company means the occurrence of any of the following events: (1) a sale of all or substantially all of the assets of the Company to any person or group other than certain designated individuals; (2) any person or group, other than certain designated individuals, become the beneficial owner or owners of more than 50 percent of the total voting stock of the Company, including by way of merger, consolidation or otherwise; or (3) Lawrence I. Sills ceases to be the Chairman of the Board or the Chief Executive Officer of the Company.

RETENTION BONUS AND INSURANCE AGREEMENTS

In December 2006, the Company entered into Retention Bonus and Insurance Agreements with each of John P. Gethin and James J. Burke. The agreements provide among other things: (1) agreement by each officer to remain an employee of the Company for a term of not less than three additional years after such officer reaches the age of 60 (the "Extension Period"); (2) additional compensation to each officer comprised of one year's salary plus any applicable bonus at par payable in a lump sum; and (3) extension of the life insurance policies for each of the officers during the Extension Period. The bonus payable under these agreements would be forfeited in the event that the officer's employment is terminated for any reason, other than a disability, in

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

which case the officer shall be entitled to a pro rata bonus calculated as provided in the respective agreement.

-31-

SUPPLEMENTAL EXECUTIVE RETIREMENT PLAN (SERP)

The Company has established a Supplemental Executive Retirement Plan (SERP) for our executive officers and other eligible employees. The purpose of this plan is to enable the Company to supplement the benefits under the Company's 401(K) Capital Accumulation/Profit Sharing Plan as well as to provide a means whereby certain amounts payable by the Company to our executive officers may be deferred to some future period. To the extent that an eligible employee retires or is terminated, their accounts in the SERP shall be paid either in a lump sum or over a period not to exceed ten years, at the election of the employee. In the event of a change of control of the Company, the Company shall, as soon as possible, but in no event longer than 60 days following the change of control event, make an irrevocable contribution to the trust account in the amount that is sufficient to pay each SERP participant or beneficiary the benefits to which SERP participants or their beneficiaries would be entitled pursuant to the terms of the SERP as of the date on which the change of control event occurred. Upon a change of control event, each participant's account shall be fully vested.

SUPPLEMENTAL SERP

The Company maintains a Supplemental SERP for John P. Gethin and James J. Burke. The supplemental SERP provides that, upon attainment of a participant's normal retirement age (i.e., 60 years of age), the participant shall be entitled to 50% of such participant's highest average annual base salary plus bonus in three of the last five years of service. If a participant terminates his employment voluntarily prior to age 60 or is terminated for cause, such participant will forfeit his benefits under the supplemental SERP. The benefits under the Supplemental SERP are in addition to benefits payable to participants under the Company's 401(K) Capital Accumulation Plan and SERP. Benefits under the Supplemental SERP will be paid from general corporate funds in the form of a single life annuity and are not subject to any deduction for Social Security or other offset amounts.

2006 OMNIBUS INCENTIVE PLAN

As previously discussed in the "Compensation Discussion and Analysis" section above, we granted our Named Executive Officers shares of restricted stock. Under the terms of the 2006 Omnibus Incentive Plan, any unvested shares of restricted stock shall immediately vest upon death, retirement at or after the age of 65, total disability, or upon a change in control of the Company. For purposes of the Incentive Plan, a "change of control" means any of the following events:

- (a) Any person, other than certain designated persons, become the beneficial ownership of 20% or more of the total voting stock of the Company;
- (b) Individuals who constitute the Board as of May 18, 2006 cease for any reason to constitute at least a majority of the Board, other than in certain circumstances;
- (c) Consummation of a reorganization, merger, or consolidation of the Company or a sale or other disposition of all or substantially all of the assets of the Company, in each case unless, (i) the beneficial

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

owners of the Company before such event hold less than 50% of the voting stock after such event; (ii) no person beneficially owns, directly or indirectly, 20% or more of the total voting stock of the successor entity, except to the extent that such ownership existed prior to the business combination; and (iii) at least a majority of the members of the board of directors of the successor entity were members of the incumbent Board at the time of the execution of the initial agreement or of the action of the Board providing for such business combination; or

- (d) Approval by the stockholders of the Company of a complete liquidation or dissolution of the Company.

-32-

STOCK OPTIONS PLANS

We granted stock options to our Named Executive Officers under our 1994 Omnibus Stock Option Plan and 2004 Omnibus Stock Plan. Under the 1994 Plan, any unvested stock options shall immediately vest upon the death, disability or any of the following events:

- (1) the dissolution or liquidation of the Company;
- (2) the reorganization, merger or consolidation of the Company in which the Company will become a wholly-owned subsidiary of another corporation or the Company is not the surviving corporation;
- (3) the sale of all or substantially all of the assets of the Company;
- (4) a tender offer for the Common Stock commences or an unaffiliated third party becomes a 25% or more holder of the Company's voting stock; or
- (5) a majority of the members of the Board of Directors are replaced with newly elected individuals (other than as management nominees), or such existing directors cease to constitute a majority of the Board of Directors.

Under the 2004 Plan, a "change in control" occurs principally (i) when a person (or group of persons acting in concert) acquires 25% or more of the Company's Common Stock (other than those presently holding such amount), (ii) when there is a change in the composition of a majority of the Board of Directors when compared with those who are currently serving or (iii) when the stockholders of the Company approve a reorganization, merger, consolidation or other transaction as a result of which the Company or its subsidiary is not the surviving entity.

Based upon a hypothetical termination date of December 31, 2006, the severance, termination, retirement or change of control benefits for our Named Executive Officers would have been as follows:

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Our Board has adopted a written policy relating to the review, approval or ratification of "related-person transactions" between the Company or its subsidiaries and related persons. Under SEC rules, a related person is a director, officer, nominee for director, or 5% stockholder of the Company since the beginning of the last fiscal year and their immediate family members. The Company's policies and procedures apply to any transaction or series of transactions in which the Company or a subsidiary is a participant, the amount involved exceeds \$120,000, and a related person has a direct or indirect material interest.

Our policy requires that all related party transactions be disclosed to the Nominating and Corporate Governance Committee (with respect to Directors) or the Audit Committee (with respect to officers). The applicable Committee then reviews the material facts of such related party transactions and either approves or disapproves of the entry into or ratifies the related party transaction. In determining whether to approve or ratify a related party transaction, the Committee will take into account, among other factors it deems appropriate, whether the related party transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the related person's interest in the transaction. In addition, our policy provides that any related party transaction may be consummated or continue if (1) the transaction is approved by the disinterested members of the Board of Directors or (2) the transaction involves compensation approved by the Company's Compensation and Management Development Committee. No Director shall participate in any discussion or approval of a transaction for which he or she is the related party.

In 2006, there was one related-person transaction under the relevant standards. Eric Sills, our Vice President Engine Management Division, is the son of our Chairman and CEO, Lawrence I. Sills, and is the nephew of our Directors, Arthur S. Sills and Peter J. Sills. Eric Sills received total compensation of \$292,096 for 2006, calculated in the same manner as in the Summary Compensation Table. The Compensation and Management Development Committee reviewed and approved of this compensation arrangement.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. The Committee is comprised of five directors who are "independent" as defined under the listing standards of the

Edgar Filing: STANDARD MOTOR PRODUCTS INC - Form DEF 14A

New York Stock Exchange. The Committee met five times in 2006 and operates under a written charter adopted by the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the Company's systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed with management the audited financial statements in the Annual Report on Form 10-K for the fiscal year ended December 31, 2006, including a discussion of the quality and the acceptability of the Company's financial reporting and controls.

The Committee also reviewed with Grant Thornton LLP, the Company's independent registered public accounting firm, that is responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality and the acceptability of the Company's financial reporting, and such other matters as are required to be discussed with the Committee under generally accepted auditing standards, including SAS No. 61 (Codification of Statements on Auditing Standards, AU Section 380). In addition, the Committee discussed with Grant Thornton the auditors' independence from management and the Company, including the matters in the auditors' written disclosures required by the Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committee).

The Committee also discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets periodically with the internal and the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2006 for filing with the Securities and Exchange Commission.
