INFORMATION TO BE INCLUDED IN THE REPORT

ITEM 1.01 ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT.

Sterling Chemicals, Inc. (the "Company") has entered into a Separation Agreement, effective as of May 31, 2005, with O&D USA LLC (d/b/a Innovene Chemicals), ANEXCO, LLC and BP Amoco Chemical Company containing the terms and conditions described under Item 1.02 of this report.

ITEM 1.02 TERMINATION OF A MATERIAL DEFINITIVE AGREEMENT.

The Separation Agreement entered into among the Company, O&D USA LLC, ANEXCO, LLC and BP Amoco Chemical Company provides for the settlement of the previous dispute among the parties related to the Company's right to declare force majeure under its various acrylonitrile arrangements, and the termination of most of the acrylonitrile-related agreements between the parties effective as of May 31, 2005. The Separation Agreement, a copy of which is attached as an exhibit to this Form 8-K, provides for the termination of the following agreements that the Company has previously filed as contracts material to it:

- Amended and Restated Production Agreement dated March 31, 1998 between O&D USA LLC (as assignee of BP Amoco Chemical Company) and the Company;
- Joint Venture Agreement dated March 31, 1998 between O&D USA LLC (as assignee of BP Amoco Chemical Company) and the Company; and
- Acrylonitrile Expanded Relationship and Master Modification Agreement dated June 19, 2003 between O&D USA LLC (as assignee of BP Amoco Chemical Company) and the Company,

The Separation Agreement also provides for the termination of the European Distribution Agreement between the Company and O&D USA LLC (as assignee of BP Amoco Chemical Company) and other letter agreements between such parties, as well as for the modification of the acrylonitrile License Agreement and Catalyst Sales Contract between the Company and O&D USA LLC. In addition, pursuant to the Separation Agreement, the Company assigned its interest in ANEXCO, LLC to O&D USA LLC effective as of May 31, 2005. The Separation Agreement does not impact any other commercial relationships between any of the parties, such as the acetic acid production agreement between the Company and BP Amoco Chemical Company. In addition, the Company expects to continue purchasing raw materials related to its styrene business from O&D USA LLC or BP Amoco Chemical Company.

Under the Separation Agreement, O&D USA LLC made a one-time payment to the Company of \$700,000 and ANEXCO, LLC will make a series of distributions to the Company to liquidate the Company's equity interest in ANEXCO, LLC. An

initial distribution of \$4,800,000 was made by ANEXCO, LLC to the Company on May 31, 2005, a subsequent distribution from ANEXCO, LLC of up to \$1,500,000 is expected to occur on July 15, 2005 and a final distribution is expected to occur after an audit has been completed of ANEXCO, LLC's books and records. If the audit shows that the distributions previously made to the Company exceed the Company's equity value in ANEXCO, LLC, the Company would refund the difference. However, the Company expects to receive between \$500,000 and \$1,000,000 in the

final distribution. The Company is obligated to make a few payments to O&D USA LLC and ANEXCO, LLC for services performed prior to the termination of the agreements, none of which is material to the Company in amount. The Company is not required to make any other payments to O&D USA LLC, ANEXCO, LLC or BP Amoco Chemical Company in connection with the settlement of the force majeure dispute or the termination of the acrylonitrile-related agreements.

The Company is continuing to explore all available options with respect to its acrylonitrile business and related assets, including, in particular, modifying its acrylonitrile plant to allow for its operation in an economic manner at significantly reduced rates or permanently exiting the business.
