### RADVISION RECEIVES COURT APPROVAL TO COMMENCE

#### SECOND SHARE REPURCHASE PROGRAM

GLEN ROCK, New Jersey, November 26, 2002 -- RADVISION (NASDAQ: RVSN) has received approval from the Israeli court to commence its second program to repurchase up to \$10 million or 2 million of its common shares under the share repurchase program that was announced on August 28, 2002. Under Israeli law, a company without retained earnings is required to obtain approval from the court before proceeding with a share repurchase program in order to ensure that the company's creditors are not harmed by the action.

This share repurchase program comes as an addition to the first program that was announced on February 28, 2001. The Company completed the first program in the first quarter of 2002, having repurchased a total of 1,866,115 ordinary shares at a cost of \$11.8 million.

The repurchase program will be funded using the company's existing cash balances and the repurchased shares may be used in connection with the company's employee stock plans or for other corporate purposes. As of September 30, 2002, the company had cash and liquid investments of approximately \$86.9 million and 18 million common shares outstanding, net of 1.9 million shares held in company's treasury.

#### About RADVISION

RADVISION (Nasdaq: RVSN) is the industry's leading provider of high quality, scalable and easy-to-use products and technologies for videoconferencing, video telephony, and the development of converged voice, video and data over IP and 3G networks. RADVISION has two distinct business units. RADVISION's Networking Business Unit (NBU) offers one of the broadest and most complete set of videoconferencing network solutions for IP- and ISDN-based networks, supporting all end points in the industry. The company also provides businesses and service providers with integrated solutions that deliver converged IP-based video telephony applications to employee computer desktops and residential broadband homes worldwide. The Company's Technology Business Unit (TBU) provides protocol development tools and platforms, enabling equipment vendors and service providers to develop and deploy new converged networks, services, and technologies.
