Securities Regulations (Transactions between a Company and its Control Holder), 2001 (the "Control Holder Regulations").

CHAPTER 2 - DESCRIPTION OF THE OFFERED SHARES

On November 11, 2002 the Board of Directors of the Company decided to approve the Employee Option Plan (the "Employee Plan") under which there will be allotted in the framework of the plan 480,000 registered options exercisable into 480,000 ordinary registered shares, par value NIS 0.5 each, of the Company (the "Options"). Each Option grants a right to purchase one ordinary registered share, par value NIS 0.5 each, of the Company subject to adjustments as set forth in Chapter 6 below, in consideration for the payment in cash of the Exercise Price as this term is defined in paragraph 4 below.

Subject to the provisions specified in sec. 5.9 below regarding the re-allotment of Options, the Options will not be transferable or waivable by the employees to others, including another offeree-employee or another employee of the Company or its subsidiary, excluding transfer to heirs in case of death or a guardian in case of loss of legal capacity.

The exercise shares will be equal in their rights to the existing ordinary shares of the Company in the issued capital of the Company and will grant their owners full dividends in cash as well as any other distribution, including the distribution of bonus shares, for which the date for determining entitlement thereto is the date of their allotment or thereafter.

CHAPTER 3 - THE OFFEREES

The Options will be allotted to a trustee on behalf of approximately 100 Israeli employees of the Company and its Israeli fully-owned subsidiaries (the "Employees"). The options that are not be allotted to specific Employees at the date of allotment (the "remainder of options") shall be allotted to the trustee for future employees who are not an interested party and will not become interested party as a result of the said issuance (the "Future Employees") (in addition to the said 100 employees). The Board of Directors will be entitled to decide about the allotment of the remainder of the options or any part thereof also to present employees who are included in the Employees. The Employees include the employees of the Company, the subsidiary Intelitek Training Systems Ltd. (formerly Robotec Technologies Ltd.) and the subsidiary Computras Computerised Systems Ltd.

It is hereby clarified the the options under this Report will be allotted to the Employees (including the Future Employees) not later than the last date set by law to the submission of the annual periodic report of the Company, or the date of its actual submission, the earlier of the two.

The quantity of the Options offered to each of the Employees will be determined by the Board of Directors or by the sub-committee of the Board of Directors responsible for the administration of the Employee Plan according to the recommendations of the General Managers of the Company and the subsidiaries. The standards that will guide the Board of Directors and the said sub-committee will refer, among other issues, to the actual and

potential contribution of each employee to the Company and/or to its subsidiaries, to his seniority and management or professional responsibility.

The Employees are not an interested party in the Company as the term is defined in paragraph 270(5) of the Companies Law, 1999 and in the Securities Law, 1968.

Under the presumption that the Options offered to the Employees are exercised in full, the Exercise Shares shall comprise 4.1% of the voting rights and of the issued and paid-up capital of the Company as of the date following the allotment of the Options and 3.8% of the voting rights and of the issued and paid-up capital of the Company after full dilution.

For the purposes of this Report, "full dilution" assumes: that the 75,400 Options allotted to the Trustee under the option plan of 1997 for employees of the Company and its subsidiaries, and not yet exercised as at the date of this report will be exercised(1); that all of the 12,500 Options allotted to an interested party in 2001 are exercised; that all 480,000 options under this Plan are exercised; that all 220,000 options allotted to our subsidiary non-Israeli employees are exercised; and that all 570,000 of the options allotted to the Company's directors under the directors option plan of 2002 are exercised(2).

-
- (1) These Options may be exercised up until 31 December 2006.
 - (2) The Option Plan for employees of the Company and its Israeli subsidiaries shall be subject to the approval of the general meeting of shareholders of the Company which is to convene on 17 December 2002 and to the approval of the Stock Exchange of the registration for trading of the shares that are to derive from exercise of the Options.

CHAPTER 4 - OPTION PRICE AND CONDITIONS FOR ITS PAYMENT

The Options will be allotted to a trustee for the employees without consideration.

The exercise price of the Options of the Company that are offered is the amount in NIS equal to \$0.91. The exercise Price was calculated as the average closing price of the Company's shares on Nasdaq for the last 30 days prior to the filing of the immediate disclosure regarding the issuance of options to directors of the Company (the "Exercise Price").

In case that the Authority order to amend the Report, it is entitled to order to postpone the beginning of the period of the Options to a date not early of 3 business days and not later then 14 business days from the date of the amended Report.

In the event that said approvals are not obtained and/or the conditions set forth above are not fulfilled by the date of submission of the periodic report of the Company for the year 2002 or by the date set for the submission of that report according to the Securities Regulations (Periodic and Immediate Reports), 1970, whichever is the earlier, the offering of the Options according to this Report will be cancelled.

In such Statement, there will be specified the place and times during which employees will be able to examine the periodic report of the Company for the year 2001, the financial statements of September 30, 2002 and the immediate reports that were publicized after March 26, 2002 (the date of the last periodic report of the Company).

Each Option grants the right to purchase one ordinary registered share par value NIS 0.5 each, of the Company, in consideration for the payment in cash of the Exercise Price.

The economic value of each of the Options on offer under this Report is \$0.83.

The economic value is calculated using the "Black-Scholes" formula, taking into account the average closing price of the Company's shares on Nasdaq for the last 30 trading days prior to the filing of the immediate disclosure regarding the issuance of options to the Company's directors, on December 12, 2002, i.e. \$0.91.

In calculating the economic value of the Options Warrants, the following presumptions were taken into account: Standard deviation - 110%; Exercise Price - \$0.91; average share price on Nasdaq for the last 30 trading days - \$0.91; option term - 108 months; rate of interest - 2%.

8

at its registered office. All the expenses involved in the splitting will be borne by the party requesting the splitting.

5.4 The dates for eligibility for exercising the Options and the terms for execution

CHAPTER 6 - MISCELLANEOUS PROVISIONS TO PROTECT THE HOLDERS OF THE OPTIONS DURING THE PERIOD OF THE EMPLOYEES' PLAN

Upon the occurrence of one of the events set forth below, from the date of the Report until the end of the exercise period, the holders of the Options that were not yet exercised by the date of the occurrence of one of the events set forth below, are entitled to the following rights:

6.1 Distribution of bonus shares

In the event of the distribution of bonus shares for which the date determining the entitlement for receipt thereof (hereinafter in this sub-paragraph: "the record date") will occur before the end of the exercise period, then immediately following the date of issuance of the bonus shares, the Company will transfer to a special fund that will be designated for the distribution of bonus shares in the future an amount equal to the total par value of the bonus shares that would be owed to all the employees holding the Options that were not yet exercised by that date, had they exercised their Options into shares by the record date, including - in the event of a second or additional distribution of bonus shares with regard to which the Company acted according to that stated in this paragraph - entitlement arising from any previous distribution of bonus shares as stated.

The Company will allot to employees who are holders of the Options who will utilize their right to exercise into shares after the record date, in addition to the exercise shares to which they are entitled as a consequence of the utilization of the exercise right as stated, shares of the same type that were distributed as bonus shares to the holders of the ordinary shares of the type of the exercise shares, as fully paid bonus shares at a ratio of bonus shares per each exercise share that will be equal to the ratio of bonus shares per each share that was existing in the issued and paid-up capital of the Company on the date

of distribution of the bonus shares, and this by appropriate capitalization from the special fund.

In such event the number of exercise shares to which the holder of the Options is entitled will not be increased nor will the payment for one exercise share be reduced.

Options that not exercised by the end of the exercise period will not entitle their holders to any amounts or shares whatsoever from the special fund and will not grant them any other right whatsoever.

6.2 Offering by way of rights

In the event of an issuance of rights to the shareholders of the Company for which the date determining the entitlement for receipt thereof will occur in the period from the date of the allotment of the Options for the employees and until the end of the exercise period, the number of shares arising from the exercise of the Options of the Company will be adjusted to the benefit component in the rights. The benefit component in the rights will be calculated in this regard according to the ratio between the share price on the Stock Exchange on the date determining the right to participate in the issuance of the rights to the base price for trading the shares on the Stock Exchange "ex-rights", on the first day on which the shares will be traded

12

without rights. The calculation of the benefit component will be audited by the CPA of the Company.

From the date of the Report and so long as the Options have not been exercised, but in any case no later than the end of the exercise period, the following provisions will apply:

If the Company consolidates the ordinary shares, par value NIS 0.5 each, that are in its issued capital into shares having a larger par value, or divide them in a secondary distribution into shares having a smaller par value, then the number of exercise shares allotted as a consequence of the exercise of the Options after such activity will be decreased or increased, as the case may be.
- c. In the event of the passing of a resolution for the voluntary liquidation of the Company, the Company will give written Statement to all the holders of the Options regarding the passing of such resolution and regarding the exercise right mentioned below. In such case every holder of Options will be entitled within 30 days from the date of the Statement, to give written Statement to the Company of his desire to be considered as if he

Edgar Filing: ROBOGROUP TEK LTD - Form 6-K

utilized his exercise right immediately before the passing of the resolution. In such case said holder of the Options will be entitled to payment equal to the amount that he would have been owed upon liquidation had he held the shares resulting from the exercise of the Options in his possession prior to the passing of the liquidation resolution with the deduction of the exercise price.

If the amount that the holder of the Options is entitled to as a consequence of the exercise of the Options in his possession, prior to the passing of the liquidation resolution, and with the deduction of the exercise price from the money that he will receive from his part of the liquidation, is positive, he will be considered as if he utilized said exercise right.

A resolution of the Company at a General Meeting (unless determined otherwise by law or if stated expressly otherwise in the Articles of the Company) will be considered as if it were lawfully passed, if it receives an ordinary majority of the votes of those participating in the vote.

In the case where two or more are the joint owners of a share, then in a vote on any question only the vote of the head of the partners will be accepted, whether by himself, by proxy, or by means of a voting instrument, without taking into consideration the remaining registered partners of the share, and for this purpose the head of the partners will be considered as the person whose name is listed first in the shareholders' register.

The appointment of a proxy will be in writing signed by the appointer or his representative so authorized in writing. A corporation will vote by means of its representatives who will be appointed by a document that is lawfully signed by the corporation.

A vote according to the conditions of the power of attorney will be lawful even if beforehand the appointer died or became legally incompetent, was liquidated, became bankrupt, cancelled the appointment instrument or transferred the share with respect to which it was given, unless written Statement was received in the office before the meeting that the shareholder died, became legally incompetent, was liquidated, became bankrupt, cancelled the appointment instrument or transferred the share.

The appointment instrument of a proxy or power of attorney or other document (if there will be such) or a copy certified by a notary will be deposited in the registered office of the Company or in another place or in other places in Israel or outside of Israel, as the Board of Directors will determine from time to time in a general manner, or with respect to a

15

particular instance - at least forty-eight hours before the time set for the meeting or for the adjourned meeting at which the person mentioned in the document intends to vote by virtue thereof. An instrument appointing a proxy will not be effective after the passing of 12 months from the date that it was signed.

A shareholder of the Company will be entitled to vote at meetings of the Company by means of a number of proxies, who will be appointed by him provided that every proxy will be appointed for different shares held by that shareholder. There will be no impediment to each such proxy voting at meetings of the Company in a different manner.

No person will be entitled to vote at any General Meeting or to be considered among those present so long as he will owe the Company for a payment that was demanded on account of the shares held by him.

7.7 Restriction on the transfer of shares

Every transfer of shares will be done in writing in any ordinary or usual manner or in any other manner that will be accepted by the Board of Directors and it may be by signature only.

The transfer deed will be signed by the transferor or on his behalf and also (other than the case of the transfer of fully paid shares) by the transferee or on his behalf. In the event of a transfer of fully paid shares there is no need for the signature of a witness to the authenticity of the signatures that are on the face of the transfer deed and the Board of Directors is entitled in such case to waive, in a general manner or with respect to a type or types of transfers, the need for the signing of the transfer deed by the transferee.

The transferor will continue to be considered as the owner of the transferred shares until the name of the transferee will be registered in the shareholders' register in connection with these shares.

The Board of Directors is entitled to condition the transfer of shares that are not fully paid upon the payment of the full consideration for the shares prior to the registration of the transfer.

Fully paid shares are transferable without the need for the approval of the Board of Directors.

The Company will change the registration of the ownership of the shares in the shareholders' register, in each one of the following cases:

- (1) A transfer deed is delivered to the Company together with the certificates for the shares that are being transferred and all other proof that the Company will require regarding the identity of the transferor, the proprietary right of the transferor or his right to transfer the shares. All transfer deeds that will be registered will remain in the possession of the Company, but every transfer

16

deed that the Board of Directors will refuse to register will be returned to the deliverer upon his demand.

- (2) It is proven to the Company that the legal conditions for the endorsement of the right were fulfilled.

- (3) A court order was delivered to the Company to amend the register.

It is permissible to close the transfer books and the shareholders' register, the ledger of the debenture holders and holders of debenture stock (if there will be such) for that period of time that the Board of Directors will deem fit, subject to any law.

7.8 The conditions for changing the rights that accompany the exercise shares and the other shares of the Company

Edgar Filing: ROBOGROUP TEK LTD - Form 6-K

The rights accompanying shares of a certain type in the share capital of the Company may be changed (unless determined otherwise in the conditions for the issuance of shares of that type) according to the provisions regarding changing the Articles of the Company and subject to the provisions of law.
